"(i) IN GENERAL.—Subject to clause (ii), for purposes of paragraph (2) the factor under this paragraph is the average number, as estimated by the Director of the Bureau of the Census under subsection (b)(3)(A)(ii), of man-days of seasonal agricultural services performed in the United States in fiscal year 1989 by special agricultural workers whose status is adjusted under section 210 and who performed seasonal agricultural services in the United States at any time during the fiscal year.

"(ii) LACK OF ADEQUATE INFORMATION.—If the Director determines that—

"(I) the information reported under subsection (b)(2)(A) is not adequate to make a reasonable estimate of the average number described in clause (i), but

"(II) the inadequacy of the information is not due to the refusal or failure of employers to report the information required under subsection (b)(2)(A),

the factor under this paragraph is 90.

"(B) FISCAL YEAR 1991.—For purposes of paragraph (2) for fiscal year 1991, the factor under this paragraph is the average number, as estimated by the Director of the Bureau of the Census under subsection (b)(3)(A)(ii), of man-days of seasonal agricultural services performed in the United States in fiscal year 1990 by special agricultural workers who obtained lawful temporary resident status under this section.

"(C) FISCAL YEARS 1992 AND 1993.—For purposes of paragraph (2) for fiscal years 1992 and 1993, the factor under this paragraph is the average number, as estimated by the Director of the Bureau of the Census under subsection (b)(3)(A)(ii), of man-days of seasonal agricultural services performed in the United States in each of the two previous fiscal years by special agricultural workers who obtained lawful temporary resident status under this section during either of such fiscal years.

"(7) EMERGENCY PROCEDURE FOR INCREASE IN SHORTAGE NUMBER.—

"(A) REQUESTS.—After the beginning of a fiscal year, a group or association representing employers (and potential employers) of individuals who perform seasonal agricultural services may request the Secretaries to increase the shortage number for the fiscal year based upon a showing that extraordinary, unusual, and unforeseen circumstances have resulted in a significant increase in the shortage number due to (i) a

significant increase in the need for special agricultural workers in the year, (ii) a significant decrease in the availability of able, willing, and qualified workers to perform seasonal agricultural services, or (iii) a significant decrease (below the factor used for purposes of paragraph (6)) in the number of man-days of seasonal agricultural services performed by aliens who were recently admitted (or whose status was recently adjusted) under this section.

"(B) NOTICE OF EMERGENCY PROCEDURE.—Not later than 3 days after the date the Secretaries receive a request under subparagraph (A), the Secretaries shall provide for notice in the Federal Register of the substance of the request and shall provide an opportunity for interested parties to submit information to the Secretaries on a timely basis respecting the request.

"(C) PROMPT DETERMINATION ON REQUEST.—The Secretaries, not later than 21 days after the date of the receipt of such a request and after consideration of any information submitted on a timely basis with respect to the request, shall make and publish in the Federal Register their determination on the request. The request shall be granted, and the shortage number for the fiscal year shall be increased, to the extent that the Secretaries determine that such an increase is justified based upon the showing and circumstances described in subparagraph (A) and that such an increase takes into account reasonable recruitment efforts having been undertaken.

"(8) PROCEDURE FOR DECREASING MAN-DAYS OF SEASONAL AGRICULTURAL SERVICES REQUIRED IN THE CASE OF OVER-SUPPLY OF WORKERS.—

"(A) REQUESTS.—After the beginning of a fiscal year, a group of special agricultural workers may request the Secretaries to decrease the number of man-days required under subparagraphs (A) and (B) of subsection (d)(2) with respect to the fiscal year based upon a showing that extraordinary, unusual, and unforeseen circumstances have resulted in a significant decrease in the shortage number due to (i) a significant decrease in the need for special agricultural workers in the year, (ii) a significant increase in the availability of able, willing, and qualified workers to perform seasonal agricultural services, or (iii) a significant increase (above the factor used for purposes of paragraph (6)) in the number of man-days of seasonal agricultural services performed by aliens who were recently admitted (or whose status was recently adjusted) under this section.

"(B) NOTICE OF REQUEST.—Not later than 3 days after the date the Secretaries receive a request under subparagraph (A), the Secretaries shall provide for notice in the Federal Register of the substance of the request and shall provide an opportunity for interested parties to submit information to the Secretaries on a timely basis respecting the request.

"(C) DETERMINATION ON REQUEST.—The Secretaries, before the end of the fiscal year involved and after consideration of any information submitted on a timely basis with respect to the request, shall make and publish in the Federal Register their determination on the request. The request shall be granted, and the number of man-days specified in subparagraphs (A) and (B) of subsection (d)(2) for the fiscal year shall be reduced by the same proportion as the Secretaries determine that a decrease in the shortage number is justified based upon the showing and circumstances described in subparagraph (A).

"(b) ANNUAL NUMERICAL LIMITATION ON ADMISSION OF ADDITIONAL SPECIAL AGRICULTURAL WORKERS.—

"(1) ANNUAL NUMERICAL LIMITATION.—

"(A) FISCAL YEAR 1990.—The numerical limitation on the number of aliens who may be admitted under subsection (c)(1) or who otherwise may acquire lawful temporary residence under such subsection for fiscal year 1990 is—

"(i) 95 percent of the number of individuals whose status was adjusted under section 210(a), minus

"(ii) the number estimated under paragraph (3)(A)(i) for fiscal year 1989 (as adjusted in accordance with subparagraph (C)).

"(B) FISCAL YEARS 1991, 1992, AND 1993.—The numerical limitation on the number of aliens who may be admitted under subsection (c)(1) or who otherwise may acquire lawful temporary residence under such subsection for fiscal years 1991, 1992, or 1993 is—

"(i) 90 percent of the number described in this clause for the previous fiscal year (or, for fiscal year 1991, the number described in subparagraph (A)(i)), minus

"(ii) the number estimated under paragraph (3)(A)(i) for the previous fiscal year (as adjusted in accordance with subparagraph (C)).

"(C) ADJUSTMENT TO TAKE INTO ACCOUNT CHANGE IN NUMBER OF H-2 AGRICULTURAL WORKERS.—The number used under subparagraph (A)(ii) or (B)(ii) (as the case may be) shall be increased or decreased to reflect any numerical increase or decrease, respectively, in the number of aliens admitted to perform temporary seasonal agricultural services (as defined in subsection (g)(2)) under section 101(a)(15)(H)(ii)(a) in the fiscal year compared to such number in the previous fiscal year.

"(2) REPORTING OF INFORMATION ON EMPLOYMENT.—In the case of a person or entity who employs, during a fiscal year (beginning with fiscal year 1989 and ending with fiscal year 1992) in seasonal agricultural services, a special agricultural worker—

"(A) whose status was adjusted under section 210, the person or entity shall furnish an official designated by the Secretaries with a certificate (at such time, in such form, and containing such information as the Secretaries establish, after consultation with the Attorney General and the Director of the Bureau of the Census) of the number of man-days of employment performed by the alien in seasonal agricultural services during the fiscal year, or

"(B) who was admitted or whose status was adjusted under this section, the person or entity shall furnish the alien and an official designated by the Secretaries with a certificate (at such time, in such form, and containing such information as the Secretaries establish, after consultation with the Attorney General and the Director of the Bureau of the Census) of the number of man-days of employment performed by the alien in seasonal agricultural services during the fiscal year.

"(3) ANNUAL ESTIMATE OF EMPLOYMENT OF SPECIAL AGRICULTURAL WORKERS.—

"(A) IN GENERAL.—The Director of the Bureau of the Census shall, before the end of each fiscal year (beginning with fiscal year 1989 and ending with fiscal year 1992), estimate—

"(i) the number of special agricultural workers who have performed seasonal agricultural services in the United States at any time during the fiscal year, and

"(ii) for purposes of subsection (a)(5), the average number of man-days of such services certain of such workers have performed in the United States during the fiscal year.

"(B) FURNISHING OF INFORMATION TO DIRECTOR.—The offical designated by the Secretaries under paragraph (2) shall furnish to the Director, in such form and manner as the Director specifies, information contained in the certifications furnished to the official under paragraph (2).

"(C) BASIS FOR ESTIMATES.—The Director shall base the estimates under subparagraph (A) on the information furnished under subparagraph (B), but shall take into account (to the extent feasible) the underreporting or duplicate reporting of special agricultural workers who have performed seasonal agricultural services at any time during the fiscal year. The Director shall periodically conduct appropriate surveys, of agricultural employers and others, to ascertain the extent of such underreporting or duplicate reporting.

"(D) REPORT.—The Director shall annually prepare and report to the Congress information on the estimates made under this paragraph.

"(c) ADMISSION OF ADDITIONAL SPECIAL AGRICULTURAL WORKERS.—

"(1) IN GENERAL.—For each fiscal year (beginning with fiscal year 1990 and ending with fiscal year 1993), the Attorney General shall provide for the admission for lawful temporary resident status, or for the adjustment of status to lawful temporary resident status, of a number of aliens equal to the shortage number (if any, determined under subsection (a)) for the fiscal year, or, if less, the numerical limitation established under subsection (b)(1) for the fiscal year. No such alien shall be admitted who is not admissible to the United States as an immigrant, except as otherwise provided under subsection (e).

"(2) ALLOCATION OF VISAS.—The Attorney General shall, in consultation with the Secretary of State, provide such process as may be appropriate for aliens to petition for immigrant visas or to adjust status to become aliens lawfully admitted for temporary residence under this subsection. No alien may be issued a visa as an alien to be admitted under this subsection or may have the alien's status adjusted under this subsection unless the alien has had a petition approved under this paragraph.

"(d) RIGHTS OF ALIENS ADMITTED OR ADJUSTED UNDER THIS SECTION.—

"(1) ADJUSTMENT TO PERMANENT RESIDENCE.—The Attorney General shall adjust the status of any alien provided lawful temporary resident status under subsection (c) to that of an alien lawfully admitted for permanent residence at the end of the 3-year period that begins on the date the alien was granted such temporary resident status.

"(2) TERMINATION OF TEMPORARY RESIDENCE.—During the period of temporary resident status granted an alien under subsection (c), the Attorney General may terminate such status only upon a determination under this Act that the alien is deportable.

"(3) AUTHORIZED TRAVEL AND EMPLOYMENT DURING TEMPORARY RESIDENCE.—During the period an alien is in lawful temporary resident status granted under this section, the alien has the right to travel abroad (including commutation from a residence abroad) and shall be granted authorization to engage in employment in the United States and shall be provided an 'employment authorized' endorsement or other appropriate work permit, in the same manner as for aliens lawfully admitted for permanent residence.

"(4) IN GENERAL.—Except as otherwise provided in this subsection, an alien who ac-

quires the status of an alien lawfully admitted for temporary residence under subsection (c), such status not having changed, is considered to be an alien lawfully admitted for permanent residence (as described in section 101(a)(20)), other than under any provision of the immigration laws.

"(5) EMPLOYMENT IN SEASONAL AGRICULTURAL SERVICES REQUIRED.—

"(A) FOR 3 YEARS TO AVOID DEPORTATION.—In order to meet the requirement of this paragraph (for purposes of this subsection and section 241(a)(20)), an alien, who has obtained the status of an alien lawfully admitted for temporary residence under this section, must establish to the Attorney General that the alien has performed 90 man-days of seasonal agricultural services—

"(i) during the one-year period beginning on the date the alien obtained such status,

"(ii) during the one-year period beginning one year after the date the alien obtained such status, and

"(iii) during the one-year period beginning two years after the date the alien obtained such status.

"(B) FOR 5 YEARS FOR NATURALIZATION.—Notwithstanding any provision in title III, an alien admitted under this section may not be naturalized as a citizen of the United States under that title unless the alien has performed 90 man-days of seasonal agricultural services in each of 5 fiscal years (not including any fiscal year before the fiscal year in which the alien was admitted under this section).

"(C) PROOF.—In meeting the requirements of subparagraphs (A) and (B), an alien may submit such documentation as may be submitted under section 210(b)(3).

"(D) ADJUSTMENT OF NUMBER OF MAN-DAYS REQUIRED.—The number of man-days specified in subparagraphs (A) and (B) are subject to adjustment under subsection (a)(8).

"(7) DISQUALIFICATION FROM CERTAIN PUBLIC ASSISTANCE.—The provisions of section 245A(h) (other than paragraph (1)(A)(iii)) shall apply to an alien who has obtained the status of an alien lawfully admitted for temporary residence under this section, during the five-year period beginning on the date the alien obtained such status, in the same manner as they apply to an alien granted lawful temporary residence under section 245A; except that, for purposes of this paragraph, assistance furnished under the Legal Services Corporation Act (42 U.S.C. 2996 et seq.) or under title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.) shall not be construed to be financial assistance described in section 245A(h)(1)(A)(i).

"(e) DETERMINATION OF ADMISSIBILITY OF ADDITIONAL WORKERS.—In the determination of an alien's admissibility under subsection (c)(1)—

"(1) GROUNDS OF EXCLUSION NOT APPLICABLE.—The provisions of paragraphs (14), (20), (21), (25), and (32) of section 212(a) shall not apply.

"(2) WAIVER OF CERTAIN GROUNDS FOR EXCLUSION.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Attorney General may waive any other provision of section 212(a) in the case of individual aliens for humanitarian purposes, to assure family unity, or when it is otherwise in the public interest.

"(B) GROUNDS THAT MAY NOT BE WAIVED.—The following provisions of section 212(a) may not be waived by the Attorney General under subparagraph (A):

"(i) Paragraphs (9) and (10) (relating to criminals).

"(ii) Paragraph (23) (relating to drug offenses), except for so much of such paragraph as relates to a single offense of simple possession of 30 grams or less of marihuana.

"(iii) Paragraphs (27), (28), and (29) (relating to national security and members of certain organizations).

"(iv) Paragraph (33) (relating to those who assisted in the Nazi persecutions).

"(C) SPECIAL RULE FOR DETERMINATION OF PUBLIC CHARGE.—An alien is not ineligible for adjustment of status under this section due to being inadmissible under section 212(a)(15) if the alien demonstrates a history of employment in the United States evidencing self-support without reliance on public cash assistance.

"(3) MEDICAL EXAMINATION.—The alien shall be required, at the alien's expense, to undergo such a medical examination (including a determination of immunization status) as is appropriate and conforms to generally accepted professional standards of medical practice.

"(f) TERMS OF EMPLOYMENT RESPECTING ALIENS ADMITTED UNDER THIS SECTION.—

"(1) EQUAL TRANSPORTATION FOR DOMESTIC WORKERS.—If a person employs an alien, who was admitted or whose status is adjusted under subsection (c), in the performance of seasonal agricultural services and provides transportation arrangements or assistance for such workers, the employer must provide the same transportation arrangements or assistance (generally comparable in expense and scope) for other individuals employed in the performance of seasonal agricultural services.

"(2) PROHIBITION OF FALSE INFORMATION BY CERTAIN EMPLOYERS.—A farm labor contractor, agricultural employer, or agricultural association who is an exempt person (as defined in paragraph (5)) shall not knowingly provide false or misleading information to an alien who was admitted or whose status was adjusted under subsection (c) concerning the terms, conditions, or existence of agricultural employment (described in subsection (a), (b), or (c) of section 301 of MASAWPA).

"(3) PROHIBITION OF DISCRIMINATION BY CERTAIN EMPLOYERS.—In the case of an exempt person and with respect to aliens who have been admitted or whose status has been adjusted under subsection (c), the provisions of section 505 of MASAWPA shall apply to any proceeding under or related to (and rights and protections afforded by) this section in the same manner as they apply to proceedings under or related to (and rights and protections afforded by) MASAWPA.

"(4) ENFORCEMENT.—If a person or entity—

"(A) fails to furnish a certificate required under subsection (b)(2) or furnishes false statement of a material fact in such a certificate,

"(B) violates paragraph (1) or (2), or

"(C) violates the provisions of section 505(a) of MASAWPA (as they apply under paragraph (3)),

the person or entity is subject to a civil money penalty under section 503 of MASAWPA in the same manner as if the person or entity had committed a violation of MASAWPA.

"(5) SPECIAL DEFINITIONS.—In this subsection:

"(A) MASAWPA.—The term 'MASAWPA' means the Migrant and Seasonal Agricultural Worker Protection Act (Public Law 97-470).

"(B) The term 'exempt person' means a person or entity who would be subject to the provisions of MASAWPA but for paragraph (1) or (2), or both, of section 4(a) of MASAWPA.

"(g) GENERAL DEFINITIONS.—In this section:

"(1) The term 'special agricultural worker' means an individual, regardless of present status, whose status was at any time adjusted under section 210 or who at any time was admitted or had the individual's status adjusted under subsection (c).

"(2) The term 'seasonal agricultural services' has the meaning given such term in section 210(h).

"(3) The term 'Director' refers to the Director of the Bureau of the Census.

"(4) The term 'man-day' means, with respect to seasonal agricultural services, the performance during a calendar day of at least 4 hours of seasonal agricultural services.".

(b) DEPORTATION OF CERTAIN WORKERS WHO FAIL TO PERFORM SEASONAL AGRICULTURAL SERVICES.—Section 241(a) (8 U.S.C. 1251(a)) is amended—

(1) by striking out "or" at the end of paragraph (18),

(2) by striking out the period at the end of paragraph (19) and inserting in lieu thereof "; or", and

(3) by adding at the end the following new paragraph:

"(20) obtains the status of an alien who becomes lawfully admitted for temporary residence under section 210A and fails to meet the requirement of section 210A(d)(6)(A) by the end of the applicable period.".

(c) APPLICATION OF CERTAIN STATE ASSISTANCE PROVISIONS.—For purposes of section 204 of this Act (relating to State legalization assistance), the term "eligible legalized alien" includes an alien who becomes an alien lawfully admitted for permanent or temporary residence under section 210 or 210A of the Immigration and Nationality Act, but only until the end of the 5-year period beginning on the date the alien was first granted permanent or temporary resident status.

(d) CLERICAL AMENDMENT.—The table of contents is amended by inserting after the item relating to section 210 (as inserted by section 302) the following new item:

"Sec. 210A. Determination of agricultural labor shortages and admission of additional special agricultural workers.".

(e) CONFORMING AMENDMENTS.—(1) Section 402(f) of the Social Security Act (as added by section 201(b)(1) of this Act and amended by section 302(b)(1) of this Act) is further amended—

(A) by striking out "and subsection (f) of section 210 of such Act" in paragraph (1) and inserting in lieu thereof ", subsection (f) of section 210 of such Act, and subsection (d)(7) of section 210A of such Act";

(B) by striking out "such subsection (h) or (f)" in paragraph (2) and inserting in lieu thereof "such subsection (h), (f), or (d)(7)"; and

(C) by striking out "such section 245A or 210" in paragraph (2) and inserting in lieu thereof "such section 245A, 210, or 210A".

(2) The last sentence of section 472(a) of such Act (as added by section 201(b)(2)(A) of this Act and amended by section 302(b)(2) of this Act) is further amended by striking out "245A(h) or 210(f)" and inserting in lieu thereof "245A(h), 210(f), or 210A(d)(7)".

SEC. 304. COMMISSION ON AGRICULTURAL WORKERS.

(a) ESTABLISHMENT AND COMPOSITION OF COMMISSION.—(1) There is established a Commission on Agricultural Workers (herein-

after in this section referred to as the "Commission"), to be composed of 12 members—

(A) six to be appointed by the President,

(B) three to be appointed by the Speaker of the House of Representatives, and

(C) three to be appointed by the President pro tempore of the Senate.

(2) In making appointments under paragraph (1)(A), the President shall consult—

(A) with the Attorney General in appointing two members,

(B) with the Secretary of Labor in appointing two members, and

(C) with the Secretary of Agriculture in appointing two members.

(3) A vacancy in the Commission shall be filled in the same manner in which the original appointment was made.

(4) Members shall be appointed to serve for the life of the Commission.

(b) FUNCTIONS OF COMMISSION.—(1) The Commission shall review the following:

(A) The impact of the special agricultural worker provisions on the wages and working conditions of domestic farmworkers, on the adequacy of the supply of agricultural labor, and on the ability of agricultural workers to organize.

(B) The extent to which aliens who have obtained lawful permanent or temporary resident status under the special agricultural worker provisions continue to perform seasonal agricultural services and the requirement that aliens who become special agricultural workers under section 210A of the Immigration and Nationality Act perform 60 man-days of seasonal agricultural services for certain periods in order to avoid deportation or to become naturalized.

(C) The impact of the legalization program and the employers' sanctions on the supply of agricultural labor.

(D) The extent to which the agricultural industry relies on the employment of a temporary workforce.

(E) The adequacy of the supply of agricultural labor in the United States and whether this supply needs to be further supplemented with foreign labor and the appropriateness of the numerical limitation on additional special agricultural workers imposed under section 210A(b) of the Immigration and Nationality Act.

(F) The extent of unemployment and underemployment of farmworkers who are United States citizens or aliens lawfully admitted for permanent residence.

(G) The extent to which the problems of agricultural employers in securing labor are related to the lack of modern labor-management techniques in agriculture.

(H) Whether certain geographic regions need special programs or provisions to meet their unique needs for agricultural labor.

(I) Impact of the special agricultural worker provisions on the ability of crops harvested in the United States to compete in international markets.

(2) The Commission shall conduct an overall evaluation of the special agricultural worker provisions, including the process for determining whether or not an agricultural labor shortage exists.

(c) REPORT TO CONGRESS.—The Commission shall report to the Congress not later than five yecrs after the date of the enactment of this Act on its reviews under subsection (b). The Commission shall include in its report recommendations for appropriate changes that should be made in the special agricultural worker provisions.

(d) COMPENSATION OF MEMBERS.—(1) Each member of the Commission who is not an officer or employee of the Federal Government is entitled to receive, subject to such amounts as are provided in advance in appropriations Acts, the daily equivalent of the minimum annual rate of basic pay in effect for grade GS-18 of the General Schedule for each day (including traveltime) during which the member is engaged in the actual performance of duties of the Commission. Each member of the Commission who is such an officer or employee shall serve without additional pay.

(2) While away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence.

(e) MEETINGS OF COMMISSION.—(1) Five members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(2) The Chairman and the Vice Chairman of the Commission shall be elected by the members of the Commission for the life of the Commission.

(3) The Commission shall meet at the call of the Chairman or a majority of its members.

(f) STAFF.—(1) The Chairman, in accordance with rules agreed upon by the Commission, may appoint and fix the compensation of a staff director and such other additional personnel as may be necessary to enable the Commission to carry out its functions, without regard to the laws, rules, and regulations governing appointment in the competitive service. Any Federal employee subject to those laws, rules, and regulations may be detailed to the Commission without reimbursement, and such detail shall be without interruption or loss of civil service status or privilege.

(2) The Commission may procure temporary and intermittent services under section 3109(b) of title 5, United States Code, but at rates for individuals not to exceed the daily equivalent of the minimum annual rate of basic pay payable for GS-18 of the General Schedule.

(g) AUTHORITY OF COMMISSION.—(1) The Commission may for the purpose of carrying out this section, hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Commission considers appropriate.

(2) The Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out this section. Upon request of the Chairman, the head of such department or agency shall furnish such information to the Commission.

(3) The Commission may accept, use, and dispose of gifts or donations of services or property.

(4) The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(5) The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(h) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(2) Notwithstanding any other provision of this section, the authority to make payments, or to enter into contracts, under this section shall be effective only to such extent, or in such amounts, as are provided in advance in appropriations Acts.

(i) TERMINATION DATE.—The Commission shall cease to exist at the end of the 63-month period beginning with the month after the month in which this Act is enacted.

(j) DEFINITIONS.—In this section:

(1) The term "employer sanctions" means the provisions of section 274A of the Immigration and Nationality Act.

(2) The term "legalization program" refers to the provisions of section 245A of the Immigration and Nationality Act.

(3) The term "seasonal agricultural services" has the meaning given such term in section 210(h) of the Immigration and Nationality Act.

(4) The term "special agricultural worker provisions" refers to sections 210 and 210A of the Immigration and Nationality Act.

SEC. 305. ELIGIBILITY OF CERTAIN AGRICULTURAL WORKERS FOR LEGAL ASSISTANCE.

A nonimmigrant worker admitted to or permitted to remain in the United States for agricultural labor or service shall be considered to be an alien described in section 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(20)) for purposes of establishing eligibility for legal assistance under the Legal Services Corporation Act (42 U.S.C. 2996 et seq.).

PART B—OTHER CHANGES IN THE IMMIGRATION LAW

SEC. 311. CHANGE IN COLONIAL QUOTA.

(a) INCREASE TO 5,000.—(1) Section 202(c) (8 U.S.C. 1152(c)) is amended by striking out "six hundred" and inserting in lieu thereof "5,000".

(2) Section 202(e) (8 U.S.C. 1152(e)) is amended by striking out "600" and inserting in lieu thereof "5,000".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to fiscal years beginning after the date of the enactment of this Act.

SEC. 312. STUDENTS.

(a) REQUIRING TWO-YEAR FOREIGN RESIDENCE FOR MOST FOREIGN STUDENTS.—Section 212(e) (8 U.S.C. 1182(e)) is amended—

(1) by striking out "(e) No person" and inserting in lieu thereof "(e)(1) No person (A)",

(2) by inserting after "training," the following: "or (B) except as provided in paragraph (2), admitted under subparagraph (F) or (M) of section 101(a)(15) or acquiring such status after admission,",

(3) by striking out "clause (iii)" in the second proviso and inserting in lieu thereof "clause (A)(iii) or clause (B) of paragraph (1)",

(4) by striking out ": Provided, That upon" and inserting in lieu thereof ". Upon",

(5) by striking out ": And provided further, That except" and inserting in lieu thereof ". Except", and

(6) by designating the second and third sentences (as so amended) as paragraphs (2) and (3), respectively,

(7) by adding at the end the following new paragraphs:

"(4) The Attorney General may waive such two-year foreign residence requirement in the case of an alien described in clause (B) of paragraph (1) who is an immediate relative (as specified in section 201(b)).

"(5) The Attorney General, in the case of an alien described in clause (B) of paragraph (1) who has the status of a nonimmigrant under section 101(a)(15)(F), may waive such two-year foreign residence requirement if the Attorney General determines that the waiver is in the public interest and that the alien—

"(A) is applying for a visa as an immigrant described in paragraph (3) or (6) of

section 203(a) and meets the requirements of paragraph (6), or

"(B) is applying for a visa as a nonimmigrant described in section 101(a)(15)(H)(iii) and meets the requirements of paragraph (7).

"(6) An alien meets the requirements of this paragraph if the alien—

"(A) is admitted to the United States under section 101(a)(15)(F) before October 1, 1992, and

"(B) has obtained—

"(i) has obtained an advanced degree from a college or university in the United States and has been offered a position on the faculty (including as a researcher) of a college or university in the United States in the field in which he obtained the degree,

"(ii) a degree in a natural science, mathematics, computer science, or an engineering field from a college or university in the United States and has been offered a research, business, or technical position by a employer in the field in which he obtained the degree, or

"(iii) an advanced degree in business or economics from a college or university in the United States, has exceptional ability in business or economics, and has been offered a research, business, or technical position by a United States employer which requires such exceptional ability,

and has received a certification under section 212(a)(14) with respect to the position.

"(7) An alien meets the requirements of this paragraph if the alien—

"(A) has obtained a degree in a natural science, mathematics, computer science, or an engineering or business field;

"(B) will receive no more than four years of training by a firm, corporation, or other legal entity in the United States, which training will enable the alien to return to the country of his nationality or last residence and be employed there as a manager by the same firm, corporation, or other legal entity, or a branch, subsidiary, or affiliate thereof; and

"(C) furnishes the Attorney General each year with an affidavit (in such form as the Attorney General shall prescribe) that attests that the alien (i) is in good standing in the training program in which the alien is participating, and (ii) will return to the country of his nationality or last residence upon completion of the training program.".

(b) PROHIBITING ADJUSTMENT OF STATUS OF MOST STUDENT ENTRANTS.—Section 245(c) (8 U.S.C. 1255(c)) is amended by striking out "or" before "(3)" and by inserting before the period at the end the following: ", or (4) an alien (other than an immediate relative specified in section 201(b) or an alien who has received a waiver of the two-year foreign residence requirement of section 212(e)(1)) who entered the United States classified as a nonimmigrant under subparagraph (F) or (M) of section 101(a)(15)".

(c) NOT COUNTING PERIOD OF PRESENCE FOR SUSPENSION OF DEPORTATION.—Section 244(b) (8 U.S.C. 1254(b)) is amended—

(1) by striking out "(b)" and inserting in lieu thereof "(b)(1)", and

(2) by adding at the end the following new paragraph:

"(2) In determining the period of continuous physical presence in the United States under subsection (a), there shall not be included any period in which the alien was in the United States as—

"(A) a nonimmigrant described in subparagraph (F) or (M) of section 101(a)(15), or

"(B) a nonimmigrant described in section 101(a)(15)(H)(iii), pursuant to a waiver under section 212(e)(5)(B).".

(d) EFFECTIVE DATES.—(1) The amendments made by subsection (a) apply to aliens admitted to the United States as a nonimmigrant described in subparagraph (F) or (M) of section 101(a)(15) of the Immigration and Nationality Act after the date of the enactment of this Act or who otherwise acquire such status after such date.

(2) The amendments made by subsection (b) apply to aliens without regard to the date the aliens enter the United States.

(3) The amendments made by subsection (c) apply to periods occurring on or after the date of the enactment of this Act and shall not have the effect of excluding (in the determination of a period of continuous physical presence in the United States) any period before the date of the enactment of this Act.

SEC. 313. G-IV SPECIAL IMMIGRANTS.

(a) SPECIAL IMMIGRANT STATUS FOR CERTAIN OFFICERS AND EMPLOYEES OF INTERNATIONAL ORGANIZATIONS AND THEIR IMMEDIATE FAMILY MEMBERS.—Section 101(a)(27) (8 U.S.C. 1101(a)(27)) is amended by striking out "or" at the end of subparagraph (G), by striking out the period at the end of subparagraph (H) and inserting in lieu thereof "; or", and by adding at the end of the following new subparagraph:

"(I)(i) an immigrant who is the unmarried son or daughter of an officer or employee, or of a former officer or employee, of an international organization described in paragraph (15)(G)(i), and who (I) while maintaining the status of a nonimmigrant under paragraph (15)(G)(iv) or paragraph (15)(N), has resided and been physically present in the United States for periods totaling at least one-half of the seven years before the date of application for a visa or for adjustment of status to a status under this subparagraph and for a period or periods aggregating at least seven years between the ages of five and 21 years, and (II) applies for admission under this subparagraph no later than his twenty-fifth birthday or six months after the date this subparagraph is enacted, whichever is later;

"(ii) an immigrant who is the surviving spouse of a deceased officer or employee of such an international organization, and who (I) while maintaining the status of a nonimmigrant under paragraph (15)(G)(iv) or paragraph (15)(N), has resided and been physically present in the United States for periods totaling at least one-half of the seven years before the date of application for a visa or for adjustment of status to a status under this subparagraph and for a period or periods aggregating at least 15 years before the date of the death of such officer or employee, and (II) applies for admission under this subparagraph no later than six months after the date of such death or six months after the date this subparagraph is enacted, whichever is later;

"(iii) an immigrant who is a retired officer or employee of such an international organization, and who (I) while maintaining the status of a nonimmigrant under paragraph (15)(G)(iv), has resided and been physically present in the United States for periods totaling at least one-half of the seven years before the date of application for a visa or for adjustment of status to a status under this subparagraph and for a period or periods aggregating at least 15 years before the date of the officer or employee's retirement from any such international organization, and (II) applies for admission under this subparagraph before January 1, 1993, and no later than six months after the date of such retirement or six months after the date this subparagraph is enacted, whichever is later; or

"(iv) an immigrant who is the spouse of a retired officer or employee accorded the status of special immigrant under clause (iii), accompanying or following to join such retired officer or employee as a member of his immediate family.".

(b) NONIMMIGRANT STATUS FOR CERTAIN PARENTS AND CHILDREN OF ALIENS GIVEN SPECIAL IMMIGRANT STATUS.—Section 101(a)(15) (8 U.S.C. 1101(a)(15)) is amended by striking out "or" at the end of subparagraph (L), by striking out the period at the end of subparagraph (M) and inserting in lieu thereof "; or", and by adding at the end the following new paragraph:

"(N)(i) the parent of an alien accorded the status of special immigrant under paragraph (27)(I)(i), but only if and while the alien is a child, or

"(ii) a child of such parent or of an alien accorded the status of a special immigrant under clause (ii), (iii), or (iv) of paragraph (27)(I).".

SEC. 314. VISA WAIVER PILOT PROGRAM FOR CERTAIN VISITORS.

(a) ESTABLISHING VISA WAIVER PILOT PROGRAM.—Chapter 2 of title II, as amended by section 301(c), is further amended by adding after section 216 the following new section:

"VISA WAIVER PILOT PROGRAM FOR CERTAIN VISITORS

"SEC. 217. (a) ESTABLISHMENT OF PILOT PROGRAM.—The Attorney General and the Secretary of State are authorized to establish a pilot program (hereafter in this section referred to as the 'pilot program') under which the requirement of paragraph (26)(B) of section 212(a) may be waived by the Attorney General and the Secretary of State, acting jointly and in accordance with this section, in the case of an alien who meets the following requirements:

"(1) SEEKING ENTRY AS TOURIST FOR 90 DAYS OR LESS.—The alien is applying for admission during the pilot program period (as defined in subsection (e)) as a nonimmigrant visitor (described in section 101(a)(15)(B)) for a period not exceeding 90 days.

"(2) NATIONAL OF PILOT PROGRAM COUNTRY.—The alien is a national of a country which—

"(A) extends (or agrees to extend) reciprocal privileges to citizens and nationals of the United States, and

"(B) is designated as a pilot program country under subsection (c).

"(3) EXECUTES ENTRY CONTROL AND WAIVER FORMS.—The alien before the time of such admission—

"(A) completes such immigration form as the Attorney General shall establish under subsection (b)(3), and

"(B) executes a waiver of review and appeal described in subsection (b)(4).

"(4) ROUND-TRIP TICKET.—The alien has a round-trip, nontransferable transportation ticket which—

"(A) is valid for a period of not less than one year,

"(B) is nonrefundable except in the country in which issued or in the country of the alien's nationality or residence,

"(C) is issued by a carrier which has entered into an agreement described in subsection (d), and

"(D) guarantees transport of the alien out of the United States at the end of the alien's visit.

"(5) NOT A SAFETY THREAT.—The alien has been determined not to represent a threat to the welfare, health, safety, or security of the United States.

"(6) NO PREVIOUS VIOLATION.—If the alien previously was admitted without a visa under this section, the alien must not have failed to comply with the conditions of any previous admission as such a nonimmigrant.

"(b) CONDITIONS BEFORE PILOT PROGRAM CAN BE PUT INTO OPERATION.—

"(1) PRIOR NOTICE TO CONGRESS.—The pilot program may not be put into operation until the end of the 30-day period beginning on the date that the Attorney General submits to the Congress a certification that the screening and monitoring system described in paragraph (2) is operational and effective and that the form described in paragraph (3) has been produced.

"(2) AUTOMATED DATA ARRIVAL AND DEPARTURE SYSTEM.—The Attorney General in cooperation with the Secretary of State shall develop and establish an automated data arrival and departure control system to screen and monitor the arrival into and departure from the United States of nonimmigrant visitors receiving a visa waiver under the pilot program.

"(3) VISA WAIVER INFORMATION FORM.—The Attorney General shall develop a form for use under the pilot program. Such form shall be consistent and compatible with the control system developed under paragraph (2). Such form shall provide for, among other items—

"(A) a summary description of the conditions for excluding nonimmigrant visitors from the United States under section 212(a) and under the pilot program,

"(B) a description of the conditions of entry with a waiver under the pilot program, including the limitation of such entry to 90 days and the consequences of failure to abide by such conditions, and

"(C) questions for the alien to answer concerning any previous denial of the alien's application for a visa.

"(4) WAIVER OF RIGHTS.—An alien may not be provided a waiver under the pilot program unless the alien has waived any right—

"(A) to review or appeal under this Act of an immigration officer's determination as to the admissibility of the alien at the port of entry into the United States, or

"(B) to contest, other than on the basis of an application for asylum, any action for deportation against the alien.

"(c) DESIGNATION OF PILOT PROGRAM COUNTRIES.—

"(1) UP TO 8 COUNTRIES.—The Attorney General and the Secretary of State acting jointly may designate up to eight countries as pilot program countries for purposes of the pilot program.

"(2) INITIAL QUALIFICATIONS.—For the initial period described in paragraph (4), a country may not be designated as a pilot program country unless the following requirements are met:

"(A) LOW NONIMMIGRANT VISA REFUSAL RATE FOR PREVIOUS 2-YEAR PERIOD.—The average number of refusals of nonimmigrant visitor visas for nationals of that country during the two previous full fiscal years was less than 2.0 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during those years.

"(B) LOW NONIMMIGRANT VISA REFUSAL RATE FOR EACH OF 2 PREVIOUS YEARS.—The average number of refusals of nonimmigrant visitor visas for nationals of that country during either of such two previous full fiscal years was less than 2.5 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during that year.

"(3) CONTINUING AND SUBSEQUENT QUALIFICATIONS.—For each fiscal year (within the pilot program period) after the initial period—

"(A) CONTINUING QUALIFICATION.—In the case of a country which was a pilot program country in the previous fiscal year, a country may not be designated as a pilot program country unless the sum of—

"(i) the total of the number of nationals of that country who were excluded from admission or withdrew their application for admission during such previous fiscal year as a nonimmigrant visitor, and

"(ii) the total number of nationals of that country who were admitted as nonimmigrant visitors during such previous fiscal year and who violated the terms of such admission,

was less than 2 percent of the total number of nationals of that country who applied for admission as nonimmigrant visitors during such previous fiscal year.

"(B) NEW COUNTRIES.—In the case of another country, the country may not be designated as a pilot program country unless the following requirements are met:

"(i) LOW NONIMMIGRANT VISA REFUSAL RATE IN PREVIOUS 2-YEAR PERIOD.—The average number of refusals of nonimmigrant visitor visas for nationals of that country during the two previous full fiscal years was less than 2 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during those years.

"(ii) LOW NONIMMIGRANT VISA REFUSAL RATE IN EACH OF THE 2 PREVIOUS YEARS.—The average number of refusals of nonimmigrant visitor visas for nationals of that country during either of such two previous full fiscal years was less than 2.5 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during that year.

"(4) INITIAL PERIOD.—For purposes of paragraphs (2) and (3), the term 'initial period' means the period beginning at the end of the 30-day period described in subsection (b)(1) and ending on the last day of the first fiscal year which begins after such 30-day period.

"(d) CARRIER AGREEMENTS.—

"(1) IN GENERAL.—The agreement referred to in subsection (a)(4)(C) is an agreement between a carrier and the Attorney General under which the carrier agrees, in consideration of the waiver of the visa requirement with respect to a nonimmigrant visitor under the pilot program—

"(A) to indemnify the United States against any costs for the transportation of the alien from the United States if the visitor is refused admission to the United States or remains in the United States unlawfully after the 90-day period described in subsection (a)(1)(A), and

"(B) to submit daily to immigration officers any immigration forms received with respect to nonimmigrant visitors provided a waiver under the pilot program.

"(2) TERMINATION OF AGREEMENTS.—The Attorney General may terminate an agreement under paragraph (1) with five days' notice to the carrier for the carrier's failure to meet the terms of such agreement.

"(e) DEFINITION OF PILOT PROGRAM PERIOD.—For purposes of this section, the term 'pilot program period' means the period beginning at the end of the 30-day period referred to in subsection (b)(1) and ending on the last day of the third fiscal year which begins after such 30-day period.".

(b) LIMITATION ON STAY IN UNITED STATES.—Section 214(a) (8 U.S.C. 1184(a)) is amended by adding at the end the following new sentence: "No alien admitted to the United States without a visa pursuant to section 217 may be authorized to remain in the United States as a nonimmigrant visitor for a period exceeding 90 days from the date of admission.".

(c) PROHIBITION OF ADJUSTMENT TO IMMIGRANT STATUS.—Section 245(c) (8 U.S.C. 1255(c)), as amended by section 312(b), is further amended by striking out "or" before "(4)" and by inserting before the period at the end the following: "; or (5) an alien (other than an immediate relative as defined in section 201(b)) who was admitted as a nonimmigrant visitor without a visa under section 212(l) or section 217".

(d) PROHIBITION OF ADJUSTMENT OF NONIMMIGRANT STATUS.—Section 248 (8 U.S.C. 1258) is amended by striking out "and" at the end of paragraph (2), by striking out the period at the end of paragraph (3) and inserting in lieu thereof ", and" and by adding at the end thereof the following new paragraph:

"(4) an alien admitted as a nonimmigrant visitor without a visa under section 212(l) or section 217.".

(e) CONFORMING AMENDMENT TO TABLE OF CONTENTS.—The table of contents is amended by adding after the item relating to section 216 the following new item:

"Sec. 217. Visa waiver pilot program for certain visitors.".

SEC. 315. PROVIDING ADDITIONAL IMMIGRANT VISAS.

(a) AUTHORIZING ADDITIONAL VISAS FOR NATIVES OF CERTAIN COUNTRIES.—Notwithstanding the numerical limitations in section 201(a) of the Immigration and Nationality Act (8 U.S.C. 1151(a)), if—

(1) the total number of immigrants—

(A) who were born in a foreign state, and

(B) who were issued immigrant visas in fiscal year 1985 subject to the numerical limitation specified in section 201(a) of such Act or who otherwise acquired the status of an alien lawfully admitted for permanent residence in fiscal year 1985 subject to such numerical limitation,

was less than—

(2) three-fourths of the average annual number of immigrant visas made available under such Act, during the 10-fiscal year period beginning July 1, 1955, to aliens who were born in that foreign state,

there shall be made available to aliens born in that foreign state in each fiscal year (during the period described in subsection (f)) an additional number of immigrant visas equal to the amount of that difference or 7,500, whichever is less.

(b) DISTRIBUTION OF ADDITIONAL VISAS.—The additional visa numbers under subsection (a) for immigrants born in each foreign state shall be made available as follows:

(1) 30 percent of the additional visa numbers shall be made available to those qualified immigrants who are entitled to preference status under paragraph (1), (2), (3), (4), or (5) of section 203(a) of the Immigration and Nationality Act (8 U.S.C. 1153(a)), by allotting 6 percent of the additional visa numbers to the class of qualified immigrants described in each such respective paragraph.

(2) 30 percent of the additional visa numbers, plus any additional visa numbers not required under paragraph (1), shall be made

available to qualified immigrants who are entitled to preference status under section 203(a)(6) of such Act (8 U.S.C. 1153(a)(6)).

(3) 40 percent of the additional visa numbers, plus any additional visa numbers not required under paragraph (1) or (2), shall be made available to other qualified immigrants who are not entitled to preference status under section 203(a) of such Act.

(c) ORDER OF CONSIDERATION.—(1) Immigrant visas under paragraphs (1) and (2) of subsection (b) shall be made available to eligible immigrants in the order in which a petition in behalf of each such immigrant is filed with the Attorney General under section 204 of the Immigration and Nationality Act (8 U.S.C. 1154).

(2)(A) Except as provided in subparagraph (B), immigrant visas under subsection (b)(3) shall be made available to eligible immigrants strictly in the chronological order in which the immigrants qualify.

(B) The Secretary of State shall adjust the order in which immigrant visas under subsection (b)(3) are made available in a manner that assures equal availability to residents in all the geographic areas of the foreign state involved.

(d) WAIVER OF LABOR CERTIFICATION.—Section 212(a)(14) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(14)) shall not apply in the determination of an immigrant's eligibility to receive any visa made available under this section or in the admission of such an immigrant issued such a visa under this section.

(e) APPLICATION OF DEFINITIONS OF IMMIGRATION AND NATIONALITY ACT.—Except as otherwise specifically provided in this section, the definitions contained in the Immigration and Nationality Act shall apply in the administration of this section. Nothing in this section shall be held to repeal, amend, alter, modify, affect, or restrict the powers, duties, functions, or authority of the Attorney General in the administration and enforcement of such Act or any other law relating to immigration, nationality, or naturalization.

(f) EFFECTIVE PERIOD.—The additional visa numbers shall be made available under this section only in fiscal years occurring during the five-fiscal year period beginning with first fiscal year that begins after the date of the enactment of this Act.

SEC. 316. MISCELLANEOUS PROVISIONS.

(a) EQUAL TREATMENT OF FATHERS.—Section 101(b)(1)(D) (8 U.S.C. 1101(b)(1)(D)) is amended by inserting "or to its natural father if the father has or had a bona fide parent-child relationship with the person" after "natural mother".

(b) SUSPENSION OF DEPORTATION FOR CERTAIN ALIENS.—Section 244(b) (8 U.S.C. 1254(b)), as amended by section 312(c), is further amended by adding at the end the following new paragraph:

"(3) An alien shall not be considered to have failed to maintain continuous physical presence in the United States under paragraphs (1) and (2) of subsection (a) if the absence from the United States was brief, casual, and innocent and did not meaningfully interrupt the continuous physical presence.".

(c) TREATMENT OF CUBAN POLITICAL PRISONERS.—Section 243(g) of the Immigration and Nationality Act (8 U.S.C. 1253(g)) shall not apply to the issuance of visas to nationals of Cuba who are or were imprisoned in Cuba for political activities.

(d) DENIAL OF CREW MEMBER NONIMMIGRANT VISA IN CASES OF STRIKE.—An alien may not be admitted to the United States as an alien crewman (under section 101(a)(15)(D) of the Immigration and Nationality Act, 8 U.S.C. 1101(a)(15)(D)) for the purpose of performing service on board a vessel or aircraft at a time when there is a strike in the bargaining unit of the employer in which the alien intends to perform such service.

TITLE IV—REPORTS TO CONGRESS

SEC. 401. TRIENNIAL REPORTS CONCERNING IMMIGRATION.

(a) IN GENERAL.—The President shall transmit to the Committees on the Judiciary of the Senate and of the House of Representatives, not later than three years after the date of the enactment of this Act, and every three years thereafter, a comprehensive report on the general legal admissions under the Immigration and Nationality Act.

(b) CONTENTS.—Each report shall include—

(1) the number and classifications of aliens admitted (whether as immediate relatives, special immigrants, refugees, or under the preference classifications, or as nonimmigrants), paroled, or granted asylum, during the relevant period;

(2) a reasonable estimate of the number of aliens who entered the United States during the period without visas or who became deportable during the period under section 241 of the Immigration and Nationality Act; and

(3) a description of the impact of admissions and other entries of immigrants, refugees, asylees, and parolees into the United States during the period on the economy, labor and housing markets, educational system, social services, foreign policy, environmental quality and resources, and population growth rate of the United States.

(c) DATA.—The information (referred to in subsection (b)) contained in each report shall be—

(1) described for the preceding three-year period, and

(2) projected for the succeeding five-year period, based on reasonable estimates substantiated by the best available evidence.

(d) RECOMMENDATIONS.—The President also shall include in such report any appropriate recommendations on changes in numerical limitations or other policies under title II of the Immigration and Nationality Act bearing on the admission and entry of aliens into the United States.

SEC. 402. REPORTS ON UNAUTHORIZED ALIEN EMPLOYMENT AND DISCRIMINATION IN EMPLOYMENT.

(a) PRESIDENTIAL REPORTS.—(1) The President shall transmit to the Committees on the Judiciary of the Senate and of the House of Representatives reports on the implementation of section 274A of the Immigration and Nationality Act (relating to unlawful employment of aliens) in accordance with this subsection.

(2) Every six months, beginning six months after the date of the enactment of this Act, the President shall transmit a report which shall include—

(A) an analysis of the adequacy of the employment verification system set forth in subsection (b) of section 274A of the Immigration and Nationality Act; and

(B) an analysis of the impact of that section on—

(i) the employment, wages, and working conditions of United States workers,

(ii) the number of aliens entering the United States illegally, and

(iii) the violation of terms and conditions of nonimmigrant visas by foreign visitors.

(3)(A) By each of the dates specified in subparagraph (B), the President shall transmit a report which shall include a description of the impact of section 274A of the Immigration and Nationality Act on—

(i) discrimination against citizen and permanent resident alien members of minority groups, and

(ii) the paperwork and recordkeeping burden on United States employers.

(B) The dates referred to in subparagraph (A) are 18, 36, and 54 months after the date of enactment of this Act.

(b) FEASIBILITY STUDY OF SOCIAL SECURITY NUMBER VALIDATION SYSTEM.—The Secretary of Health and Human Services, acting through the Social Security Administration and in cooperation with the Attorney General and the Secretary of Labor, shall conduct a study of the feasibility and costs of establishing a social security number validation system to assist in carrying out the purposes of section 274A of the Immigration and Nationality Act, and of the privacy concerns that would be raised by the establishment of such a system. The Secretary shall submit to the Committees on Ways and Means and the Judiciary of the House of Representatives and to the Committees on Finance and the Judiciary of the Senate, within 2 years after the date of the enactment of this Act, a full and complete report on the results of the study together with such recommendations as may appear appropriate.

(c) CIVIL RIGHTS COMMISSION MONITORING AND REPORTS.—(1) The Civil Rights Commission shall monitor the implementation and enforcement of the provisions of section 274A of the Immigration and Nationality Act and shall investigate allegations that the enforcement or implementation of that section has been conducted in a manner that results in unlawful discrimination by race or national origin against citizens of the United States or aliens who are not unauthorized aliens (as defined for purposes of that section).

(2) The Civil Rights Commission, not later than 18 months after the month in which this Act is enacted, shall prepare and transmit to the Committees on the Judiciary of the House of Representatives and of the Senate a report describing the implementation and enforcement of the provisions of that section during the preceding period, for the purpose of determining if a pattern of such unlawful discrimination has resulted. Two more such reports shall be prepared and transmitted 36 and 54 months after the month in which this Act is enacted.

SEC. 403. REPORTS ON H-2A PROGRAM.

(a) PRESIDENTIAL REPORTS.—The President shall transmit to the Committees on the Judiciary of the Senate and of the House of Representatives reports on the implementation of the temporary agricultural worker (H-2A) program, which shall include—

(1) the number of foreign workers permitted to be employed under the program in each year;

(2) the compliance of employers and foreign workers with the terms and conditions of the program;

(3) the impact of the program on the labor needs of the United States agricultural employers and on the wages and working conditions of United States agricultural workers; and

(4) recommendations for modifications of the program, including—

(A) improving the timeliness of decisions regarding admission of temporary foreign workers under the program,

(B) removing any economic disincentives to hiring United States citizens or perma-

nent resident aliens for jobs for which temporary foreign workers have been requested,

(C) improving cooperation among government agencies, employers, employer associations, workers, unions, and other worker associations to end the dependence of any industry on a constant supply of temporary foreign workers, and

(D) the relative benefits to domestic workers and burdens upon employers of a policy which requires employers, as a condition for certification under the program, to continue to accept qualified United States workers for employment after the date the H-2A workers depart for work with the employer.

The recommendations under subparagraph (D) shall be made in furtherance of the Congressional policy that aliens not be admitted under the H-2A program unless there are not sufficient workers in the United States who are able, willing, and qualified to perform the labor or services needed and that the employment of the alien in such labor or services will not adversely affect the wages and working conditions of workers in the United States similarly employed.

(b) DEADLINES.—A report on the H-2A temporary worker program under subsection (a) shall be submitted not later than two years after the date of the enactment of this Act, and every two years thereafter.

SEC. 404. REPORTS ON LEGALIZATION PROGRAM.

(a) IN GENERAL.—The President shall transmit to Congress two reports on the legalization program established under section 245A of the Immigration and Nationality Act.

(b) INITIAL REPORT DESCRIBING LEGALIZED ALIENS.—The first report, which shall be transmitted not later than 12 months after the end of the application period for adjustment to lawful temporary residence status under the program, shall include a description of the population whose status is legalized under the program, including—

(1) geographical origins and manner of entry of these aliens into the United States,

(2) their demographic characteristics, and

(3) a general profile and characteristics.

(c) SECOND REPORT ON IMPACT OF LEGALIZATION PROGRAM.—The second report, which shall be transmitted not later than three years after the date of transmittal of the first report, shall include a description of—

(1) the impact of the program on State and local governments and on public health and medical needs of individuals in the different regions of the United States,

(2) the patterns of employment of the legalized population, and

(3) the participation of legalized aliens in social service programs.

SEC. 405. REPORT ON VISA WAIVER PILOT PROGRAM.

(a) MONITORING AND REPORT PILOT PROGRAM.—The Attorney General and the Secretary of State shall jointly monitor the pilot program established under section 217 of the Immigration and Nationality Act and shall report to the Congress not later than two years after the beginning of the program.

(b) DETAILS IN REPORT.—The report shall include—

(1) an evaluation of the program, including its impact—

(A) on the control of alien visitors to the United States,

(B) on consular operations in the countries designated under the program, as well as on consular operations in other countries in which additional consular personnel have been relocated as a result of the implementation of the program, and

(C) on the United States tourism industry; and

(2) recommendations—

(A) on extending the pilot program period, and

(B) on increasing the number of countries that may be designated under the program.

SEC. 406. REPORT ON INS RESOURCES.

Not later than 90 days after the date of the enactment of this Act, the Attorney General shall prepare and transmit to the Congress a report describing the type of equipment, physical structures, and personnel resources required to improve the capabilities of the Immigration and Naturalization Service so that it can adequately carry out services and enforcement activities, including those required to carry out the amendments made by this Act.

SEC. 407. U.S.-MEXICO BORDER REVITALIZATION.

(a) IN GENERAL.—The President is authorized to negotiate with the Government of Mexico, on a reciprocal and mutually beneficial basis, the establishment of a free-trade and co-production zone that would include the United States-Mexico borderlands, as a first step to achieving a free-trade area between the United States and Mexico over the long term.

(b) REPORT.—The President shall provide for a report to be submitted to the Congress on the progress in any such negotiations. Such report shall include such recommendations for changes in legislation as may be appropriate.

TITLE V—STATE AND LOCAL ASSISTANCE FOR INCARCERATION COSTS OF ILLEGAL ALIENS AND CERTAIN CUBAN NATIONALS

SEC. 501. REIMBURSEMENT OF STATES AND LOCALITIES FOR COSTS OF INCARCERATING ILLEGAL ALIENS AND CERTAIN CUBAN NATIONALS.

(a) REIMBURSEMENT TO STATES AND LOCALITIES.—Subject to the amounts provided in advance in appropriation Acts, the Attorney General shall reimburse States and local jurisdictions within a State for the costs incurred by the State or local jurisdiction—

(1) for the imprisonment of any illegal alien or Cuban national, described in subsection (b) or (c), respectively, who is convicted of a felony by the State or local jurisdiction, and

(2) for the pre-trial and post-trial detention of any illegal alien or Cuban national, described in subsection (b) or (c), respectively, who is convicted in the trial of a felony by the State or local jurisdiction.

(b) ILLEGAL ALIEN.—An illegal alien described in this subsection is any alien who is in the United States unlawfully and—

(1) whose most recent entry into the United States was without inspection, or

(2) whose most recent admission to the United States was as a nonimmigrant and—

(A) whose period of authorized stay as a nonimmigrant expired, or

(B) whose unlawful status was known to the Government,

before the date of the commission of the crime for which the alien is convicted.

(c) CUBAN NATIONAL.—A Cuban national described in this subsection is an alien who is a national of Cuba and who—

(1) was allowed by the Attorney General to come to the United States in 1980,

(2) after such arrival committed any violation of State or local law for which a term of imprisonment was imposed, and

(3) at the time of such arrival and at the time of such violation was not an alien lawfully admitted to the United States—

(A) for permanent or temporary residence, or

(B) under the terms of an immigrant visa or a nonimmigrant visa issued,

under the laws of the United States.

(d) AUTHORIZATION OF APPROPRIATION.—There are authorized to be appropriated such sums as are necessary to carry out the purposes of this section.

(e) EFFECTIVE DATE.—This section shall become effective on October 1, 1986.

(f) STATE DEFINED.—The term "State" has the meaning given such term in section 101(a)(36) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(36)).

TITLE VI—COMMISSION ON INTERNATIONAL MIGRATION AND DEVELOPMENT

SEC. 601. COMMISSION ON INTERNATIONAL MIGRATION AND DEVELOPMENT.

(a) ESTABLISHMENT AND PURPOSE.—There is established a National Commission on International Migration and Development (in this section referred to as the "Commission") to conduct studies, in consultation with the governments of sending countries, and report to Congress concerning the following:

(1) CONDITIONS IN SENDING COUNTRIES.—The conditions in sending countries which contribute to unauthorized migration to the United States.

(2) TRADE AND INVESTMENT PROGRAMS.—Mutually beneficial, reciprocal trade and investment programs to alleviate the conditions identified in paragraph (1).

In this section, the term "sending country" means a foreign country a substantial number of whose nationals migrate to, or remain in, the United States without authorization.

(b) THREE-YEAR AGENDA.—The Commission shall develop an operating agenda under which—

(1) the Commission will study and report on both of the topics under subsection (a) over a three-year period, beginning on the date a majority of the members of the Commission are first appointed, and

(2) a final report of the Commission shall be transmitted not later than the end of such period.

(c) DETAILS ON STUDIES.—

(1) CONDITIONS IN SENDING COUNTRIES.—With respect to the studies described in subsection (a)(1), the Commission shall examine—

(A) the relationship between (i) current and projected demographic, social, economic, labor, and technological conditions in sending countries and in the United States and (ii) unauthorized migration from such countries to the United States, and

(B) the impact on such conditions of current trade and other policies governing the economic relations between sending countries and the United States.

(2) TRADE AND INVESTMENT PROGRAMS.—With respect to the studies described in subsection (a)(2), the Commission shall examine the feasibility of mutually beneficial, reciprocal trade and investment programs to alleviate conditions in the sending countries contributing to unauthorized migration from those countries to the United States.

(d) COMPOSITION OF COMMISSION.—

(1) APPOINTMENT.—The Commission shall be composed of 15 members appointed jointly by the Speaker of the House of Representatives, the Minority Leader of the House of Representatives, and the Majority and Minority Leaders of the Senate. Appointments to the Commission shall be made within 90 days after the date of the enactment of this Act. Members shall be appointed for the life of the Commission. A vacancy in the Com-

mission shall be filled in the manner in which the original appointment was made.

(2) NONPARTISAN STRUCTURE.—Not more than 8 members of the Commission may be members of the same political party and not more than 4 may be a member of Congress.

(3) REPRESENTATION.—Among the individuals appointed to the Commission, there shall be individuals representing academia, Federal, State, and local government, organized labor, business, and organizations with experience in migration and development matters.

(4) CHAIRMAN AND VICE CHAIRMAN.—The chairman and the vice chairman of the Commission shall be elected from among the members and shall serve for the life of the Commission.

(e) COMPENSATION OF MEMBERS.—

(1) PER DIEM.—Each member of the Commission who is not an officer or employee of the Federal Government shall, subject to such amounts as are provided in advance in appropriations Acts, receive $100 for each full-day equivalent (including traveltime) during which the member is engaged in the actual performance of duties of the Commission. Each member of the Commission who is an officer or employee of the Federal Government shall receive no additional pay on account of his or her service on the Commission.

(2) TRAVEL EXPENSES.—While away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed reasonable travel expenses, including per diem in lieu of subsistence.

(f) STAFF.—The chairman shall appoint a director of the Commission and such additional Commission personnel as the chairman deems necessary. The personnel of the Commission may be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

(g) OPERATION OF COMMISSION.—

(1) QUORUM.—Eight members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(2) MEETINGS OF COMMISSION.—The Commission shall meet at the call of the chairman or a majority of its members.

(3) HEARINGS.—The Commission may for the purpose of carrying out its duties hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Commission deems advisable.

(4) USE OF CONSULTANTS.—The Commission may procure, in accordance with the provisions of section 3109 of title 5, United States Code, the temporary or intermittent services of experts or consultants at a rate to be fixed by the Commission, but not in excess of $100 per full-day equivalent (including traveltime). While away from his home or regular place of business in the performance of services for the Commission, any such person may be allowed reasonable travel expenses including per diem in lieu of subsistence.

(5) INFORMATION FROM FEDERAL AGENCIES.—The Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out its duties. Upon request of the chairman, the head of such agency or department of the United States shall furnish all information requested by the Commission which is necessary to enable it to carry out its duties.

(6) ACCEPTING GIFTS.—The Commission may accept, use, and dispose of gifts or donations of services or property.

(7) USE OF U.S. MAILS.—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(8) SUPPORT SERVICES FROM GSA.—The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(h) REPORTS AND TERMINATION.—

(1) REPORTS.—The Commission shall transmit to Congress annual reports, in accordance with its agenda established under subsection (b). Each such report shall include a summary of the studies conducted by the Commission and such recommendations as the Commission deems appropriate.

(2) TERMINATION.—The Commission shall cease to exist 30 days after the end of the three-year period beginning on the date a majority of the members of the Commission are first appointed.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

TITLE VII—NATIONAL COMMISSION ON IMMIGRATION

SEC. 701. NATIONAL COMMISSION ON IMMIGRATION.

(a) ESTABLISHMENT OF COMMISSION.—There is established a National Commission on Immigration (hereinafter in this section referred to as the "Commission") to conduct studies and analyses and to report to Congress concerning the following:

(1) PUSH-PULL FACTORS AND RECIPROCAL PROGRAMS.—(A) The push and pull factors affecting unauthorized immigration to the United States, and

(B) the development, in partnership with Latin American countries, of reciprocal trade and economic development programs of mutual benefit.

(2) EMPLOYMENT OF UNAUTHORIZED ALIENS.—The incentives for employers in the United States to employ aliens who are not authorized to be so employed.

(3) AGRICULTURAL RELIANCE ON UNAUTHORIZED WORKERS.—The reliance of the agricultural industry on the employment, on a temporary basis, of aliens not authorized to be employed in the United States.

(4) BACKLOGS IN APPROVED IMMIGRANT VISAS.—The existence and extent of backlogs for the issuance of immigrant visas to aliens who have approved petitions for immigrant preference status.

(b) DETAILS OF STUDIES.—

(1) PUSH-PULL STUDY.—With respect to the topic described in subsection (a)(1)(A)—

(A) REVIEW OF ECONOMIC AND SOCIAL CONDITIONS.—The Commission shall review and analyze—

(i) the economic and social conditions, patterns, and trends in the United States and in foreign countries which affect unauthorized immigration into the United States,

(ii) the short-term and long-term problems in the United States and elsewhere associated with such unauthorized immigration, and

(iii) potential solutions to such problems.

The Commission's reviews and analyses shall focus on, and be conducted in close consultation with the governments of, those foreign countries from which nationals are most likely to immigrate without prior authorization to the United States.

(B) CONSIDERATIONS.—The Commission shall take into account, in such reviews and analyses the following:

(i) TRENDS.—The prevailing and projected demographic, technological, and economic trends affecting immigration into the United States.

(ii) IMPACT OF LAWS.—The impact of immigration laws, and their enforcement, on unauthorized immigration and on social and economic conditions in foreign countries.

(iii) IMPACT ON UNEMPLOYMENT.—How unemployment in particular areas and occupations in the United States is affected by unauthorized immigration.

(iv) GOVERNING LAWS.—The laws, policies (including trade policies), and procedures governing economic and diplomatic relations between the United States and foreign countries.

(C) RECOMMENDATIONS.—The Commission shall make recommendations respecting additional statutory and other changes that should be made to best deal with unauthorized immigration into the United States.

(2) STUDY ON EMPLOYMENT OF UNAUTHORIZED ALIENS.—

(A) ASSESSMENT.—With respect to the topic described in subsection (a)(2), the Commission shall assess—

(i) the effectiveness of the enforcement of the labor laws described in section 101(e) of this Act in removing the economic incentive on hiring individuals not authorized to be employed in the United States, and

(ii) the level of displacement from employment of lawful residents occurring as a result of the employment of unlawful residents.

(B) SPECIFIC RECOMMENDATIONS.—If the labor laws described in section 101(e) are not effective in removing the economic incentive on hiring individuals not authorized to be employed in the United States, the Commission shall review and make recommendations with respect to alternative measures which would minimize such job displacement while insuring that employment discrimination does not occur as a result of implementation of such measures.

(3) AGRICULTURAL RELIANCE ON TEMPORARY WORKERS.—With respect to the topic described in subsection (a)(3), the Commission shall review and study the temporary worker program currently provided under the Immigration and Nationality Act and shall assess the following:

(A) LABOR SHORTAGES.—Present and future labor shortages in the agricultural industry.

(B) WORKER ABUSES.—Abuses of foreign, as well as domestic, workers presently employed in agriculture.

(C) USE OF DOMESTIC WORKERS.—The feasibility and cost effectiveness of training and transporting domestic workers to perform agricultural work in areas as needed.

(D) SPECIFIC STATUTORY CHANGES.—Whether or not statutory changes in such program should be made with respect to—

(i) limiting the number of aliens who can be admitted under such program,

(ii) changing the terms and conditions of their employment,

(iii) changing the standards for recruitment and retention of domestic workers,

(iv) providing for payment of Social Security and unemployment taxes under the Federal Insurance Contributions Act and the Federal Unemployment Tax Act with respect to foreign agricultural workers, and

(v) otherwise removing any economic disincentives to the hiring of qualified domestic workers and ending the reliance of any

industry on a constant supply of temporary foreign agricultural workers.

(4) IMMIGRANT VISA BACKLOGS.—

(A) REVIEW AND STUDY.—With respect to the topic described in subsection (a)(4), the Commission shall review and study the causes and circumstances regarding the existence of the backlog in the issuance of immigrant visas to aliens with approved preference petitions and shall propose means of ameliorating such backlog, with particular focus on family reunification.

(B) DEADLINE FOR REPORT.—The Commission shall present its recommendations to the Congress with respect to this topic not later than 18 months after the date of the enactment of this Act.

(c) COMPOSITION OF COMMISSION.—

(1) IN GENERAL.—The Commission shall be composed of 15 members as follows:

(A) PRESIDENTIAL APPOINTMENTS.—Five members appointed by the President, not more than three of whom are members of the same political party and not more than three of whom are officers or employees of the Federal Government.

(B) APPOINTMENTS BY SPEAKER OF HOUSE OF REPRESENTATIVES.—Five members appointed by the Speaker of the House of Representatives, not more than three of whom are members of the same political party and not more than two of whom are members of Congress.

(C) APPOINTMENTS BY PRESIDENT PRO TEMPORE OF SENATE.—Five members appointed by the President pro tempore of the Senate, not more than three of whom are members of the same political party and not more than two of whom are members of Congress.

(2) CONSIDERATIONS IN MAKING APPOINTMENTS.—In making such appointments, due consideration shall be given to securing representatives on the Commission from a variety of constituencies, including State and local government officials and individuals and representatives of organizations with experience or expertise in immigration matters. Members shall be appointed in a manner that provides for balanced representation of all interests.

(3) TIMELY APPOINTMENTS.—Appointments to the Commission shall be made within 90 days after the date of the enactment of this section.

(4) ELECTION OF CHAIRMAN AND VICE CHAIRMAN.—The chairman and the vice chairman of the Commission shall be elected from among the members. The term of office of the chairman and vice chairman shall be for the life of the Commission.

(5) PARTICIPATION BY REPRESENTATIVES OF FOREIGN GOVERNMENTS.—The chairman may invite for the purpose of participating in any meeting or hearing held by the Commission, and for the purpose of contributing to the studies to be conducted and the recommendations to be developed by the Commission, such representatives of the governments of countries as the Commission deems desirable.

(d) MEMBERSHIP.—

(1) LIFE MEMBERSHIP.—Members shall be appointed for the life of the Commission.

(2) VACANCIES.—A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(3) QUORUM.—Seven members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(4) MEETINGS.—The Commission shall meet at the call of the chairman or a majority of its members.

(e) COMPENSATION OF MEMBERS.—

(1) PER DIEM.—

(A) NON-FEDERAL MEMBERS.—Each member of the Commission who is not an officer or employee of the Federal Government shall, subject to such amounts as are provided in advance in appropriations Acts, receive $150 for each day (including traveltime) during which the member is engaged in the actual performance of duties of the Commission.

(B) FEDERAL MEMBERS.—Members of the Commission who are officers or employees of the Federal Government shall receive no additional pay on account of their service on the Commission.

(2) TRAVEL EXPENSES.—While away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence.

(f) STAFF.—

(1) DIRECTOR.—The Commission shall have a director who shall be appointed by and whose rate of pay shall be fixed by the chairman.

(2) OTHER STAFF.—The chairman may appoint and fix the rate of pay of such additional personnel as the chairman deems desirable.

(3) LAW GOVERNING APPOINTMENT AND PAY.—The director and staff of the Commission may be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

(g) AUTHORITY OF COMMISSION.—

(1) HEARINGS.—The Commission may for the purpose of carrying out its duties hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Commission deems advisable. To the extent feasible, the Commission shall hold at least some hearings in the border regions of the United States.

(2) ESTABLISHMENT OF 3 EXPERT PANELS.—The Commission shall, to the maximum extent feasible, conduct its activities through the establishment of three expert panels, each of the panels to provide detailed information and recommendations to the Commission respecting one of the topics described in subsection (a).

(3) USE OF CONSULTANTS.—The Commission may procure, in accordance with the provisions of section 3109 of title 5, United States Code, the temporary or intermittent services of experts or consultants at a rate to be fixed by the Commission, but not in excess of $150 per diem (including traveltime). While away from his home or regular place of business in the performance of services for the Commission, any such person may be allowed travel expenses including per diem in lieu of subsistence.

(4) INFORMATION FROM FEDERAL AGENCIES.—The Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out its duties. Upon request of the chairman, the head of such agency or department of the United States shall furnish all information requested by the Commission which is necessary to enable it to carry out its duties.

(5) ACCEPTING GIFTS.—The Commission may accept, use, and dispose of gifts or donations of services or property.

(6) USE OF U.S. MAILS.—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(7) SUPPORT SERVICES FROM GSA.—The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(h) REPORTS AND TERMINATION.—

(1) REPORT.—The Commission shall transmit a report to the Congress not later than three years after the date of the enactment of this Act. Such report shall include a summary of the reviews and analyses conducted by or on behalf of the Commission and such recommendations as the Commission deems appropriate.

(2) TERMINATION.—The Commission shall cease to exist on the thirtieth day beginning after the date of the transmission of the report under paragraph (1).

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

TITLE VIII—INVESTIGATION, REVIEW, AND TEMPORARY LIMITATION ON DEPORTATION OF DISPLACED SALVADORANS AND NICARAGUANS

PART A—GAO INVESTIGATION AND REPORT

SEC. 801. GAO INVESTIGATION.

(a) REQUIRING GAO INVESTIGATION ON DISPLACED SALVADORANS AND NICARAGUANS.—Within 60 days after the date of the enactment of this Act, the Comptroller General shall begin an investigation concerning displaced nationals of El Salvador and Nicaragua.

(b) DETERMINATIONS ON DISPLACED SALVADORANS AND NICARAGUANS IN CENTRAL AMERICA.—The investigation shall determine the following, separately, with respect to displaced Salvadorans and with respect to displaced Nicaraguans who are present in either El Salvador, Nicaragua, Honduras, Guatemala, or Mexico, regardless of whether or not they are registered:

(1) The number of these displaced persons and their current locations.

(2) Their place of origin in El Salvador or Nicaragua and the period of, and reason for, their displacement.

(3) Their current living conditions, with particular attention to (A) their personal safety and the personal safety of those providing assistance to them, and (B) the availability of food and medical assistance.

(4) An assessment of (A) current efforts to provide food, medical assistance, housing, and other necessities and to secure personal safety for these persons, and (B) policies and procedures that reasonably could be implemented to assure more efficient and equitable distribution of this assistance.

(5) The impact of the war in El Salvador or the war in Nicaragua, respectively, and of activities of officers of the Government or political parties in El Salvador or Nicaragua, respectively, on the matters described in the previous paragraphs.

(c) DETERMINATIONS ON SALVADORANS AND NICARAGUANS RETURNED FROM THE UNITED STATES.—In the case of nationals of El Salvador and nationals of Nicaragua who have been required (whether through deportation, voluntary departure proceeding, or otherwise) to depart from the United States and who return to El Salvador or Nicaragua, the investigation shall assess—

(1) their condition and circumstances in El Salvador or Nicaragua upon return from the United States, with particular attention to any violations of fundamental human

rights that have occurred upon their return to El Salvador or Nicaragua, or

(2) the extent to which these persons, upon their return, have become displaced persons within El Salvador or Nicaragua.

(d) DETERMINATIONS ON SALVADORANS AND NICARAGUANS IN THE UNITED STATES IN AN UNLAWFUL STATUS.—In the case of nationals of El Salvador and nationals of Nicaragua, respectively, who are present in the United States in an unlawful status, the investigation shall—

(1) compare the situation in El Salvador and Nicaragua with the situation in other countries during periods when nationals of those countries have been provided administrative grants of extended voluntary departure under the immigration laws,

(2) describe the policies and procedures of the United States respecting the treatment of aliens (other than Salvadorans and Nicaraguans) in the United States in similar circumstances, and

(3) describe the policies of all other countries in which Salvadorans or Nicaraguans have sought refuge as these policies concern the return of the Salvadorans to El Salvador and Nicaraguans to Nicaragua.

SEC. 802. REPORT.

The Comptroller General shall submit to the Speaker of the House of Representatives and the President of the Senate, not later than one year after the date of the initiation of the study under section 801, a report on such study, including detailed findings concerning the items described in subsections (b), (c), and (d) of such section.

PART B—CONGRESSIONAL REVIEW

SEC. 811. REFERRAL OF REPORT, COMMITTEE HEARINGS, AND COMMITTEE REPORT.

(a) REFERRAL.—The report, when submitted under section 802, shall be referred, in accordance with the rules of each House, to the standing committee or committees of each House of Congress having jurisdiction over the subjects of the report, and the report shall be printed as a document of the House of Representatives.

(b) COMMITTEE HEARINGS.—No later than 90 days of continuous session of Congress after the date of the referral of the report to a committee, the committee shall initiate hearings, insofar as such committee has legislative or oversight jurisdiction, to consider—

(1) the findings of the report,

(2) the appropriate steps that should be taken to provide assurances of personal safety and adequate, efficient, and equitable distribution of assistance with respect to Salvadorans and Nicaraguans who are displaced within their countries or who have fled to other countries in Central America,

(3) treaty obligations of the United States, humanitarian considerations, and previous practice of the United States respecting the treatment of aliens in similar circumstances, and

(4) whether it is appropriate to extend, remove, or alter the restrictions contained in part C.

(c) COMMITTEE REPORT.—No later than 270 days of continuous session of the Congress after the date of the referral of the report to a committee, the committee shall report to its respective House its oversight findings and any legislation it deems appropriate.

(d) TREATMENT OF CONTINUITY OF SESSION.—For purposes of this part, continuity of session of Congress is broken only by an adjournment sine die at the end of the second regular session of a Congress, and days on which either House of Congress is not in session because of an adjournment of more than 10 days to a date certain are excluded from the computation of the periods of continuous session of Congress.

PART C—TEMPORARY STAY OF DEPORTATION

SEC. 821. LIMITATION ON DETENTION AND DEPORTATION.

(a) LIMITATION.—(1) Except as provided in paragraph (2), the Attorney General shall not detain or deport aliens described in subsection (b) during the period beginning on the date of the enactment of this Act and ending 270 days of continuous session of Congress after the date of transmittal of the report of the Comptroller General to the Speaker of the House of Representatives under section 802.

(2) Paragraph (1) shall not be construed to prohibit the brief interrogation of an alien under section 287(a)(1) of the Immigration and Nationality Act (8 U.S.C. 1357(a)(1)) for the purpose of determining whether this section applies to particular aliens.

(b) ALIENS COVERED BY THE LIMITATION.—The nationals referred to in subsection (a)(1) are aliens who—

(1) are nationals of El Salvador or nationals of Nicaragua;

(2) have been and are continuously present in the United States since before August 6, 1986;

(3) are determined to be deportable only under—

(A) paragraph (1) of section 241(a) of the Immigration and Nationality Act (8 U.S.C. 1251(a)), but only as such paragraph relates to a ground for exclusion described in paragraphs (14), (15), (20), (21), (25), or (32) of section 212(a) of such Act (8 U.S.C. 1182(a)), or

(B) under paragraphs (2), (9), or (10) of section 241(a) of such Act (8 U.S.C. 1254(a)); and

(4) have agreed in writing to depart from the United States voluntarily upon the expiration of the period referred to in subsection (a).

SEC. 822. PERIOD OF STAY OF DEPORTATION NOT COUNTED TOWARDS OBTAINING SUSPENSION OF DEPORTATION BENEFIT.

With respect to an alien whose deportation is temporarily stayed under section 821 during a period, the period of the stay shall not be counted as a period of physical presence in the United States for purposes of section 244(a) of the Immigration and Nationality Act (8 U.S.C. 1254(a)).

SEC. 823. ALIEN'S STATUS DURING PERIOD OF EXTENSION.

During the period of the extension of an alien's voluntary departure under section 821, the alien—

(1) shall not be considered to be permanently residing in the United States under color of law,

(2) shall not be eligible for any program of public assistance furnished (directly or through reimbursement) under Federal law, and

(3) may be deemed ineligible for public assistance by a State (as defined in section 101(a)(36) of the Immigration and Nationality Act) or any political subdivision thereof which furnishes such assistance.

TITLE IX—FEDERAL RESPONSIBILITY FOR DEPORTABLE AND EXCLUDABLE ALIENS CONVICTED OF CRIMES

SEC. 901. EXPEDITIOUS DEPORTATION OF CONVICTED ALIENS.

Section 242 (8 U.S.C. 1254) is amended by adding at the end the following new subsection.

"(i) in the case of an alien who is convicted of an offense which makes the alien subject to deportation, the Attorney General shall begin any deportation proceeding as expeditiously as possible after the date of the conviction.".

SEC. 902. TRANSFER OF CERTAIN DEPORTABLE ALIENS FROM STATE AND LOCAL PENAL FACILITIES TO FEDERAL PENAL FACILITIES.

Notwithstanding any other provision of law, any alien who is incarcerated in a State or local penal facility for an offense involving controlled substances, the commission of which makes such alien deportable under section 241 of the Immigration and Nationality Act, shall, upon written request of the appropriate State or local official, be transferred to a penal facility under the authority of the Director of the Bureau of Prisons. The Attorney General shall prescribe such regulations as may be necessary to carry out this section.

SEC. 903. IDENTIFICATION OF FACILITIES TO INCARCERATE DEPORTABLE OR EXCLUDABLE ALIENS.

The President shall require the Secretary of Defense, in cooperation with the Attorney General and by not later than 60 days after the date of enactment of this Act, to list facilities of the Department of Defense that could be made available to the Bureau of Prisons for use in incarcerating aliens who are subject to exclusion or deportation from the United States.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. MAZZOLI].

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

The title of the Senate bill was amended so as to read: "An act to amend the Immigration and Nationality Act to revise and reform the immigration laws, and for other purposes."

A motion to reconsider was laid on the table.

A similar House bill (H.R. 3810) was laid on the table.

Mr. MAZZOLI. Mr. Speaker, I ask unanimous consent that the engrossment of the House amendment to S. 1200, just passed by the House, the text of the bill made in order by section 2 of House Resolution 580, inadvertently contained in section 301(C)(2), be stricken.

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER. The motion to go to conference will be offered on tomorrow.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 751, FURTHER CONTINUING APPROPRIATIONS, 1987

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 99-986) on the resolution (H. Res. 583) providing for the consideration of the joint resolution (H.J. Res. 751) making further continuing appropriations for the fiscal

year ending September 30, 1987, and for other purposes, which was referred to the House Calendar and ordered to be printed.

FURTHER CONTINUING APPROPRIATIONS, 1987—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 99-277)

The SPEAKER laid before the House the following veto message from the President of the United States:

To the House of Representatives:

I am returning herewith without my approval H.J. Res. 748, continuing appropriations for the fiscal year 1987 for 2 more days until the Congress can agree on a full-year budget.

The Congress has been informed of the administration's position on a continuing resolution, including provisions that warrant my veto. As I had previously made clear, the provision included in this resolution providing for the rehire of air traffic controllers who engaged in the 1981 strike is totally unacceptable. I cannot accept this and certain other provisions included in this measure.

The administration will continue to work closely with the Congress to reach agreement on an acceptable full-year continuing resolution. The Congress has had over 8 months to do its job, and complete action on fiscal year 1987 appropriations. The time for action is long past due.

RONALD REAGAN.

THE WHITE HOUSE, *October 9, 1986.*

The SPEAKER. The objections of the President will be spread at large upon the Journal, and the message and the joint resolution will be printed as a House document.

Mr. WHITTEN. Mr. Speaker, I move that the message, together with the accompanying joint resolution, House Joint Resolution 748, be referred to the Committee on Appropriations.

The SPEAKER. The question is on the motion offered by the gentleman from Mississippi [Mr. WHITTEN].

The motion was agreed to.

LEGISLATIVE PROGRAM

(Mr. LOTT asked and was given permission to address the House for 1 minute.)

Mr. LOTT. Mr. Speaker, I have requested this time so I could possibly get the distinguished majority leader or whip to tell us what the schedule is for tomorrow.

Mr. Speaker, a number of the Members are asking what we could anticipate in the way of a schedule tomorrow. I know that beyond that it is pretty hard to say at this point, but if the distinguished majority leader would give us an idea, will we be coming in at 10 o'clock? What will be our schedule tomorrow?

□ 2255

Mr. WRIGHT. Mr. Speaker, will the gentleman yield?

Mr. LOTT. I yield to the gentleman from Texas.

Mr. WRIGHT. Mr. Speaker, we will come in at 10 o'clock tomorrow and we would expect to conclude our business by 3 o'clock tomorrow.

We will have some unanimous-consent requests and a vote on the rule and a vote on the continuing resolution, hoping to fulfill the commitments that we made yesterday to extend the continuing resolution in toward the middle of next week so as to provide breathing space.

Mr. LOTT. As I understand it, there could be a couple of votes on that because there is a motion to recommit with instructions, is that correct?

Mr. WRIGHT. I think that is altogether possible.

The SPEAKER. The Chair would hope that there would be some reports on conferences.

Mr. WRIGHT. Conference committee reports, of course. We earnestly hope that there will be affirmative movement so that we can have a conference report on the reconciliation bill, for one thing, and the clean water bill, as I understand, is nearing readiness and may be right for our consideration tomorrow.

Mr. LOTT. Does the distinguished majority leader care to make any further comments? We realize there may be some other conference reports that may come up, and we do not know what will happen on reconciliation. We have conference reports before the Rules Committee.

But the membership would need to know that we will be through at 3 o'clock, and we should expect at least three and maybe more votes, is that correct?

Mr. WRIGHT. That sounds plausible to me.

Mr. LOTT. I thank the gentleman.

EXTENDING EXCLUSION FROM FEDERAL UNEMPLOYMENT TAX OF WAGES PAID TO CERTAIN ALIEN FARMWORKERS

Mr. FORD of Tennessee. Mr. Speaker, pursuant to House Resolution 580, I call up the bill (H.R. 5679) to extend the exclusion from Federal unemployment tax of wages paid to certain alien farmworkers, and ask for its immediate consideration.

The Clerk read the bill, as follows:

H.R. 5679

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Secton 3306(c)(1)(B) of the Internal Revenue Code of 1954 is amended by striking out "before January 1, 1988,' and inserting in lieu thereof 'before January 1, 1993,'."

The SPEAKER. Pursuant to House Resolution 580, the gentleman from Tennessee [Mr. FORD] will be recognized for 5 minutes and the gentleman from Tennessee [Mr. DUNCAN] will be recognized for 5 minutes.

The Chair recognized the gentleman from Tennessee [Mr. FORD].

Mr. FORD of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5679, provides for a 5-year extension of the current exclusion from Federal unemployment tax of wages paid to certain alien farmworkers. This extension was adopted by the Committee on Ways and Means as an amendment to H.R. 3810. This was the only revenue provision in the House bill. In light of our intention to make the House bill an amendment in the nature of a substitute to S. 1200, the committee requested that the FUTA provision be considered separately. This procedure will allow for the extension, while preserving constitutional prerogative of the House to originate revenue measures

I urge the adoption of the bill.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support the passage of H.R. 5679. H.R. 5679 merely contains the one provision of the Ways and Means Committee action on the Immigration bill, H.R. 3810, which affects the Internal Revenue Code.

Under current law immigrant agricultural workers who enter the country under the H-2 program are excluded from the unemployment compensation system. This means that the H-2 agricultural workers are not eligible for unemployment benefits and their employers do not have to pay the unemployment payroll tax with respect to their wages.

This feature of current law is scheduled to expire on December 31, 1987. One provision of H.R. 3810 approved by the nontax writing committees would have removed this sunset date. That is, it would have made permanent the exclusion of H-2 workers from the unemployment system. The Ways and Means Committee agreed without dissent that it was undesirable to remove the sunset permanently. Instead the committee agreed that the expiration date should be extended to December 31, 1992. H.R. 5679 reflects this decision by the Ways and Means Committee.

I support the passage of H.R. 5679.

Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

Mr. FORD of Tennessee. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

The SPEAKER. Under the rule, the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER. The question is on the passage of the bill.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. SENSENBRENNER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 5 of rule I, further proceedings on this question will be postponed. The vote will be taken tomorrow.

The point of no quorum is considered withdrawn.

GENERAL LEAVE

Mr. LUNDINE. Mr. Speaker, I ask unanimous consent that all Members be permitted 5 legislative days in which to extend their remarks and to include therein extraneous material on House Resolution 582, which passed the House today.

The SPEAKER pro tempore (Mr. ENGLISH). Is there objection to the request of the gentleman from New York?

There was no objection.

GENERAL LEAVE

Mr. LUNDINE. Mr. Speaker, I ask unanimous consent that all Members be permitted 5 legislative days in which to extend their remarks and to include therein extraneous material on the bill, S. 2129, which passed the House today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

CHICAGO'S 1986 COLUMBUS DAY PARADE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Mr. Speaker, the renowned Italian navigator, Christopher Columbus, discovered America 494 years ago on October 12, 1492, and Chicagoans will again celebrate this monumental event in the history of the world with a gigantic parade on Monday, October 13.

This year, we shall be honored to have the Vice President of the United States, the Honorable GEORGE BUSH, joining us and leading the parade. Other participants in this event will include Mayor Harold Washington of the city of Chicago; Gov. James R. Thompson of the State of Illinois; Congressman MARTY RUSSO; Dr. Leonardo Baroncelli, Consul General of Italy; and many other civic and political dignitaries, as well as myself.

The parade will not only pay tribute to Christopher Columbus, the father of all immigrants, but also it will recognize the numerous lasting contributions of all Americans of Italian descent to our beloved America, for Italian culture, history, and traditions have been fundamental to the development of our country and all Western civilization.

Mr. Speaker, the President of the United States, the Honorable Ronald Reagan; the Governor of the State of Illinois, the Honorable James R. Thompson; and the mayor of the city of Chicago, the Honorable Harold Washington, have issued proclamations commemorating the discovery of America by Columbus, and copies of these proclamations follow:

COLUMBUS DAY, 1986

(By the President of the United States of America)

A PROCLAMATION

Each year, we are privileged to honor Christopher Columbus, whose epic voyages of discovery shaped the development of the Western Hemisphere. This great explorer won a place in history and in the hearts of all Americans because he challenged the unknown and thereby found a New World.

Columbus remains loved today. With his faith, vision, and courage, he could navigate beyond his world's horizons. He left a wide wake for all those to follow who would dream as he dreamed, who would defy the naysayers and dare to strive for new goals. Follow him they did; and may they ever do so, those who would make the New World ever new with all the ingenuity, energy, and boldness they have.

Americans of Italian descent are proud to say that Columbus, a son of Genoa, was the first of many Italians to come to America and a powerful reason the United States and Italy share the unique friendship they do. Those of Spanish descent likewise point out that Spain made Columbus's voyages possible and that he is the first link in the friendship of the United States and Spain. All Americans share in this just pride.

We are nearing the year 1992, when the world will celebrate the 500th anniversary of Columbus's first voyage to the Americas. The Christopher Columbus Quincentenary Jubilee Commisson, a distinguished group of Americans aided by representatives from Spain and Italy, held its initial working sessions in Chicago, Miami, and San Juan, cities that are planning major commemorative events in 1992. It also began a report to the Congress, to be delivered in September 1987, that will make recommendations about our Nation's observance of the celebration.

The passage of time—nearly half a millennium—has not dimmed the glory of the Admiral of the Ocean Seas, nor could it ever.

In tribute to Christopher Columbus, the Congress, by joint resolution approved April 30, 1934 (48 Stat. 657), as modified by the Act of June 28, 1968 (82 Stat. 250), has requested the President to proclaim the second Monday in October of each year as "Columbus Day."

Now, therefore, I, Ronald Reagan, President of the United States of America, do hereby proclaim Monday, October 13, 1986, as Columbus Day. I invite the people of this Nation to observe that day with appropriate ceremonies in honor of this great explorer. I also direct that the flag of the United States be displayed on all public buildings on the appointed day in honor of Christopher Columbus.

In witness whereof, I have hereunto set my hand this eighth day of October, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and eleventh.

RONALD REAGAN.

STATE OF ILLINOIS

PROCLAMATION

Whereas, every American knows what historic even occurred in 1492, for in that year the history of the world took a dramatic leap. The voyage of Columbus, which spurred further exploration of the New World, is celebrated annually throughout the land; and

Whereas, Columbus and many other distinguished Italians have contributed to the growth of civilization. The Italian community is joined by Americans of every ethnic background in recognizing Columbus Day; and

Whereas, Italian-American residents in Illinois will be sponsoring their 30th annual Columbus Day Parade to honor their native hero;

Therefore, I, James R. Thompson, Governor of the State of Illinois, proclaim October 13, 1986 as Columbus Day in Illinois.

JAMES R. THOMPSON,
Governor.

CITY OF CHICAGO

PROCLAMATION

Whereas, The Joint Civic Committee of Italian-Americans (JCCIA), is sponsoring its annual COLUMBUS DAY PARADE on October 13, 1986; and

Whereas, the courage and visionary wisdom displayed by Christopher Columbus in his intrepid voyage of discovery is exemplary of the Italian-American community; and

Whereas, those qualities of our Italian-American brothers and sisters are evident in the many contributions to the arts, politics, sports and socio-economic life of Chicago; and

Whereas, this year's parade honoring the great navigator is dedicated to Liberty and Immigration—the Italian American Experience:

Now, therefore, I, Harold Washington, Mayor of the City of Chicago, do hereby proclaim October 13, 1986 to be Columbus Day in Chicago and urge citizens to be cognizant of the events held in connection with this historical observance in honor of the great navigator, Christopher Columbus.

Dated his 12th day of September, 1986.

HAROLD WASHINGTON,
Mayor.

Mr. Speaker, Chicago's Columbus Day celebration will begin at 9 a.m. with a Concelebrated Mass at Our Lady of Pompeii Church. An introduction will be given by Theresa Petrone, theme coordinator of this year's parade, before the Mass begins. Anthony Pope will serve as commentator, and the lectors will include Marie Davino and Tina Amico. The prayer of the faithful will be offered by Ron Onesti, and the members of the offertory procession will include: Rhonda Lee Frederick,

who was chosen queen of this year's Columbus Day Parade; Fred Natale, who will portray Christopher Columbus in this celebration, Marie Palello, secretary of the Joint Civic Committee of Italian Americans, and Ann Sorrentino, costume chairwoman of this year's parade. Music will be provided by the Italian Cultural Center Choir, under the direction of Josephine LiPuma; and the orgnists will be Lawrence Salvador and Frank Pugno. Serving as ushers will be Nick Bianco, John DeBella, Anthony Lanzito, Mike Palello, Anthony Pilas, and Lawrence Spallitta.

The principal celebrant will be the Most Reverend Alfred Abramowicz, Auxiliary Bishop of Chicago, and the homily will be given by Rev. Nicholas Marro, C.S., Borromeo Church. Other concelebrants will include Rev. Charles V. Fanelli, St. John Baptist Vianney Church; Rev. James V. Flosi, St. Luke Church; Rev. Leonard H. Mattei, St. Cyprian Church; Rev. Ronald E. Scarletta, Immaculate Conception of the Blessed Virgin Mary Church; Deacon Frank Di Vita, Divine Providence Church; Rev. Lawrence Cozzi, C.S., Villa Scalabrini; and Rev. Angelo Carbone, Our Lady of Pompeii Church.

The Fourth Degree Knights of Columbus will serve as the honor guard, and following the Mass, breakfast will be prepared and served by the Mothers Club of Our Lady of Pompeii Church, with Josephine Messina as chairperson. Also, there will be a wreath-laying ceremony at the Columbus State in Arrigo Park. Thomas Baratta and Sam Garnello of the Order of the Sons of Italy in America will coordinate this event, aided by the color guard of the Italian-American War Veterans. The invocation at the wreath-laying ceremony will be given by Bishop Abramowicz, and the master of ceremonies will be Leonard Giampietro. The posting of the colors will be under the direction of Michael Tosi, State of Illinois Commander of the Italian-American War Veterans.

Chicago's monumental Columbus Day Parade will step off from the corner of Dearborn and Wacker Drive at 1 p.m., and will include over 200 floats, bands, and marching units depicting the theme of this year's parade, "Liberty and Immigration—the Italian American Experience," with floats honoring Italian Americans who have contributed to the strength and greatness of our Nation. Colorful floats especially designed for the occasion will carry members of the Italian-American community wearing authentic costumes from the 19 regions of Italy. The Coro Tre Pini, the world renowed Italian Choir from Padua, will also participate in this year's parade. Coordinating the float personnel will be Lawrence Spallitta, and chairman of the parade marshalls will be Marco De Stefano.

Other individuals who will be playing an important part in the success of this year's parade are Leonard Giampietro, finance and souvenir book chairman, and John Porcelli, cochairman; Ernie Kumerow, chairman of the Labor Committee; Dominic DiFrisco, cochairman, and Theresa Petrone, cochairperson of program and arrangement; Rev. Lawrence Cozzi, C.S., chairman of the religious program and organizations, Rev. Leonard Mattei, cochairman; Nello Ferrara, general chairman of the 1986 parade, and James Coli, grand marshal; as well as all of the members who have so tirelessly served on these committees and the officers and trustees of the Joint Civic Committee of Italian Americans.

The parade will be televised locally on WGN-TV in Chicago from 1 p.m. to 2 p.m., and this cable station with its capabilities of reaching more than 30 states, will afford millions of people the opportunity to watch this year's gala event. The sponors for this year's parade include Dominick Di Matteo of Dominick's Finer Foods; Anthony Fornelli of Festa Italiana; Nello Ferrara of Ferrara Pan Candy Co.; Joe Rizza of Rizza Ford; Anthony Terlato of Paterno Imports; Alitalia Airlines; and Anheuser Busch, Inc.

One of the highlights of Chicago's Columbus Day celebration is the election of the queen of the parade. This year, judged on her beauty, poise, and personality, Rhonda Lee Frederick of Oak Lawn, IL, was chosen to reign as Queen of the Columbus Day Parade, and she received $1,000 as a prize from the Joint Civic Committee of Italian Americans.

The members of the Queen's Court include Rebecca Ann Kirch of Elmhurst, IL; Tracy Varchetto of LaGrange Park, IL; Maria Tassone of Chicago, IL; and Laura Bondarenko of Schaumburg, IL.

The chairman of the Queen's Contest was Fred Mazzei, and the cochairperson was Josephine Bianco. Judges for the contest included Frank Cacciatore, former director of the State of Illinois Film Office; Gilbert Cataldo, executive director of the Illinois International Port—Lake Calumet; Barbara Dardones, personnel consultant; Dr. John Drammis, Jr., cosmetic plastic surgeon and director of the Cosmetic Surgery Center of Chicago; Rose Farina, manager of events in the Richard J. Daley Center for the Chicago of Fine Arts; Dr. Carl Tintari, consmetic dentist and founder and director of the Midwest School of Facial Aesthetics; Laura Spingola, president of Trade Resources Ltd.; and Joseph M. Caliendo, fur fashion designer and coordinator.

Each year, the Joint Civil Committee of Italian Americans, comprised of more than 40 Italo-American civic organizations in the Chicagoland area, sponsors the Columbus Day Parade and other related activities. Many local groups are cooperating with the Joint Civic Committee of Italian Americans in this community-wide tribute to Columbus, and Anthony Sorrentino, executive director for the JCCIA, is again helping to coordinate the many varied activities as he has done in the past.

Our grand Columbus Day celebration will close with a reception at 3:30 p.m. at the Como Inn Restaurant in Chicago, in honor of our guests, the officers, subcommittee chairman, and members are participating in making the 1986 Columbus Day Parade a memorable event.

On this 17th celebration of Columbus Day as a national holiday, I am honored to participate again as honorary parade chairman in this celebration. The members of the Joint Committee of Italian Americans are to be commended for their continuing and dedicated hard work and the imaginative creativity that goes into the planning of an outstanding patriotic event such as Chicago's Columbus Day parade. Our community and our city are proud of all those who are participating in the 1986 Columbus Day Parade in Chicago and thereby insuring its overwhelming success.

Mr. Speaker, the officers and members of the 1986 Chicago Columbus Day Parade Committee are as follows:

LIST OF OFFICERS AND MEMBERS OF CHICAGO'S COLUMBUS DAY PARADE

COLUMBUS DAY PARADE COMMITTEE

Nello Ferrara, General Chairman 1986; James Coli, Grand Marshal.

HONORARY CHAIRMEN

Congressman Frank Annunzio, Congressman Marty Russo, and Dr. Leonardo Baroncelli, Consul General of Italy.

JCCIA OFFICERS

Charles C. Porcelli, president, Carl De Moon, first vice president, Leonard Giampietro, second vice president, Anthony Terlato, Third vice president, Fred Bartoli, fourth vice president, Fred Mazzei, fifth vice president, John DeBella, treasurer, Josephine L. Ortale, secretary, Thomas Baratta, Sergeant-at-arms, and Anthony Sorrentino, executive director.

BOARD OF TRUSTEES

Richard Parrillo, chairman, Congressman Frank Annunzio, vice chairman, Michael Annecca, Fred Bartoli, Anthony Bertuca, Victor Cacciatore, Jerry Campagna, Representative Ralph Capparelli, Michael Cardilli, Gilbert Cataldo, Michael Coccia, and James L. Coli.

Senator John D'Arco, Jr., Representative James De Leo, Pat De Leo, Dominick Di Matteo, Marco Domico, Nello Ferrara, Anthony J. Fornelli, Paul Fosco, Anthony Fratto, Fire Commissioner Louis Galante, Leonard Giampietro, and Dr. James F. Greco.

Ernie Kumerow, Joseph Lizzardro, Jr., Steve Lombardo, Charles LoVerde, Frank Mancari, Joseph Marchetti, Pat Marcy, Jr., Joseph Mazza, Michael R. Notaro, Charles C. Porcelli, and John C. Porcelli.

Nunzio Raimondi, Ciro Rossini, Dr. Salvatore Rotella, Dr. Mario O. Rubinelli, John Sepico, Dr. Raffaele Suriano, Anthony Terlato, Joseph Tolitano, Lester Trilla, Phillip Zinni, and Jerome N. Zurla.

CHAPLAIN

Rev. Armando Pierini, C.S.

THEME COORDINATION

Theresa Petrone

RELIGIOUS PROGRAM AND ORGANIZATIONS

Rev. Lawrence Cozzi, C.S., chairman, Rev. Leonard Mattei, cochairman, Rev. Armando Pierini, C.S., adviser, Nick Bianco, John DeBella, Michael Fortino, Mike Palello, Elvira Panarese, Chief Anthony Pilas, Anthony Pope, and Lawrence Spallitta.

AUTHENTIC ITALIAN COSTUMES

Ann Sorrentino, chairperson, Elena Frigoletti, Mary Spallitta, and Pauline Jo Cusimano.

FINANCE AND SOUVENIR BOOK

Leonard Giampietro, chairman, John Porcelli, cochairman, Ann Sorrentino, and Angeline Annunzio.

LABOR COMMITTEE

Ernie Kumerow, chairman, James Coli, Robert LoVerde, Angelo Fosco, Charles LoVerde, Tony Judge, Armando Fosco, Chuck Spranzo, John Serpico, Bruno Caruso, Mike Coli, and John Coli.

BANDS, MARCHERS, TRANSPORTATION, AND FLOATS

Marie Palello.

PROGRAM AND ARRANGEMENTS

Dominic DiFrisco, cochairman, Theresa Petrone, cochairperson, Alderman William Banks, Anthony Fornelli, James De Leo, Charles C. Porcelli, and Leonard Giampietro.

QUEEN CONTEST

Fred Mazzei, chairman, Josephine Bianco, cochairperson, Anita Louise Biance, Marie Palello, Mike Palello, and Josephine Ortale.

FLOAT PERSONNEL

Lawrence Spallitta, chairman.

PARADE MARSHALS

Marco DeStefano, chairman, Larry Battisti, Rocco Bellino, John DeBella, Nick Bianco, Pasquale Caputo, Ettore Di Vito, Neil Francis, Frank A. Lato, Mike Palello, Joseph Pantaleo, Anthony Pilas, Louis Rago, and Ron Onesti.

STAFF PHOTOGRAPHER

Sam Bruno.

WOMEN'S DIVISION

Marie Davino.

WEST SUBURBAN WOMEN'S DIVISION

Tina Amico.

YOUNG ADULT DIVISION

Ron Onesti.

COORDINATOR

Anthony Sorrentino and Marie Palello.

OFFICE VOLUNTEERS

Russell Anderson, William Travers, Joan Piraino, Rose Ann Rabiola, Jo-Anne Frisa Cole, Nancy Savino, Ann Sorrentino, Ann Yelmini, Josephine Ortale, Amadeo Yelmini, Lucille Brahill, and Rose Ortale.

NORTH CAROLINA STUDENT WINS PHYSICS OLYMPIAD HONOR

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina [Mr. ROSE] is recognized for 5 minutes.

Mr. ROSE. Mr. Speaker, Philip Daniel Mauskopf, a recent high school graduate from Durham, NC, was one of five finalists to represent the United States at the International Physics Olympiad. It is a prestigious honor just to partake in the Olympiad which is widely recognized as an important event in Europe. Philip Mauskopf received a bronze metal for his outstanding performance. With so many serious questions existing today about the quality of education in the United States, it is reassuring to read about high school students who are extremely knowledgeable in physics and have the opportunity to compete against other students from various countries. Our education system needs to make sure that many more students are capable of reaching their maximum potential. This is recounted in an article entitled "US students gain bronzes in first crack at Physics Olympiad" in the September 1986 issue of Physics Today.

U.S. STUDENTS GAIN BRONZES IN FIRST CRACK AT PHYSICS OLYMPIAD

(By Irwin Goodwin)

Ask any American about the International Physics Olympiad and the response is likely to be a vacant stare. In Europe and some Far East countries, however, the event sometimes receives the recognition usually given the Olympic games. Modeled on those venerable and venerated Olympic contests for gifted athletes from all over the world, the Physics Olympiad was first run in 1967, but until last July no American has taken part. Now, however, US high school students are considered worthy competitors, for three young Americans have taken bronze medals in the Olympiad their first time out.

It is something to celebrate. "We are right to be proud of our team," says Jack M. Wilson, executive officer of the American Association of Physics Teachers, principal sponsor of the US team. "When the idea of entering the Physics Olympiad first came up a few years ago, many were skeptical. Someone even predicted we would end up sending a US team with 20 kids of Asian descent, all from the Bronx High School of Science."

That didn't happen. By 17 June, after three run-offs, there were 20 team members from a remarkable diversity of locations and origins. Among them were Bryan Beatty of Greer, South Carolina; Golda Bernstein of Tuscon, Arizona; Cathryn Carson of Chevy Chase, Maryland; Mason Ng of New York City; David Kreithen and Sanjoy Mahajan of Pittsburgh; David Norman of Bountiful, Utah; Mikael Thompson of Fort Worth and Ali Yegulalp of Teaneck, New Jersey. "When the team list came out, the critics were silenced," Wilson recalls.

The five finalists represented the US in its engaging pluralism:

Paul Graham, graduate of Cherry Creek High in Englewood, Colorado, a member of the Colorado Junior Academy of Science and a National Merit Scholarship winner, possesses among his distinctions a sharp wit. Asked in his application for any thoughts on physics, he wrote: "Reality is relative. Unfortunately, relatives are often reality."

Howard Haruo Fukuda, graduate of Iolani School in Honolulu, collects football cards, postage stamps and comic books, though his most prized hobby, he indicated on his application, is computer programming.

Philip Daniel Mauskopf, graduate of the North Carolina School of Science and Mathematics in Durham, spent the past two summers working in semiconductor labs, mainly in uv-visible sepectorscopy; he also is a violinist with the Piedmont Youth Symphony and several chamber groups. In his application he noted: "I find the most interesting facet of physics is the comparisons and examples of discrepancies. Physics diverages to the greatest extent from 'common sense' when dealing with very small or very large-scale phenomena, or very low or very high-energy phenomena, because these are not part of everyday experience. Quantum mechanics and cosmology pose problems that cause us to contemplate philosophical questions such as cause and effect (Schröinger's cat) and our own origin (Big Bang) in a new light, with a different viewpoint. That's why I enjoy physics, especially theoretical physics."

Srinivasan Sheshan, graduate of Thomas Jefferson School for Science and Technology in Alexandria Virginia, sent with his applicaton a page-long list of academic honors and accomplishments, including an IBM-Watson Scholarship, a University of California Regents Scholarship and an honor's award in the 1986 Westinghouse Science Talent Search. A resident of Reston, Virginia, Sehshan is working this summer at an IBM laboratory in nearby Manassas.

Joshua R. Zucker, 11th year student at Palisades High in Pacific Palisades, California, placed first in California's Science Day physics competition earlier this year and won a National Merit Scholarship to attend Stanford University this fall. At the age of 16 he was the youngest member of the US Olympiad team. An accomplished orator, he holds a 10-2 record in high school debating contests and placed fifth in statewide competition. His other specialties include Ultimate Frisbee, flute-playing, tennis, chess and computers.

The five finalists emerged after a grueling series of tests and trials. It is somwhat astonishing that the US fielded a team for the 17th International Physics Olympiad at all, considering its late start. The idea of entering the Olympiad was first broached by Wilson in late 1984 and brought before the Governing Board of the American Institute of Physics early in 1985. To explore the proposal the AIP board decided to send Ronald D. Edge, a physicist at the University of South Carolina, and Arthur Eisenkraft, a physics teacher at Fox Lane High School, Bedford, New York, as observers to the Physics Olympiad at Portoroz, Yugoslavia, in July 1985.

On their return, Edge and Eisenkraft wrote reports urging US participation. Despite their excitement, some board members expressed caution. Anthony P. French of MIT, for instance, examined the advantages and disadvantages of taking part in the Olympiad in a letter to board members. In it he observed that "Olympiad examinations are primarily a reflection of physics as taught in most European countries to students who have probably had at least three years of physics in high school, taught in a way to develop a high level of skill in analytical problem-solving. Similar examinations . . . have traditionally been used to select students for admission to universities. I myself came up through this route," explained French, who was born in Britain. "It was a demanding program for which I have always felt intensely grateful."

By contrast, French stated in his letter, "the high-school preparation that most students get in the US is not likely to equip them to compete successfully in such a contest. That is the main reason why, initially, I myself was quite opposed to the suggestion that the US might field a team; I could see them being clobbered. . . . Also, some people would say that the approach to physics represented by traditional European syllabuses inhibits curiosity and creative spirit, that it has little to do with learning about nature and is not the sort of example that the U.S. should follow. So far as the *general* teaching of physics is concerned, I would tend to agree with that position" (see article, page 30).

But the question is not whether precollege physics in Europe is different or better than in the US," worte French, "but simply . . . whether a group of five or six bright students can be found who, with the help of some extra training, can make a good showing in the competition." The performance of US students in the 1984 Chemistry Olympiad and the Canadian team in its first Phsyics Olympiad last year, French asserted, convinced him that an American group "would acquit itself creditably." There are plenty of competent physics students in the US, if only they can be identified. "And such youngsters, exceptionally talented to begin with, would, I believe, revel in such competitions." noted French.

A CATALYST?

US participation in the Olympiads was unlikely to influence pre-college physics teaching programs in the US in any major way,

French claimed, "except perhaps as a stimulus to improve their quality an quantity. So far as I am concerned, the chief consideration is what I now see as a great opportunity to increase the visbility of physics in the public eye . . . . We physicists generally do a miserable selling job on the merits of our profession and the rewards that it can bring. The public understands competitive success. We talk a lot about role models; what better role model for a teenager interested in science than someone only a year or two older who has made the headlines on that basis? We shouldn't be relinquishing all such kudos to the athletes!"

At the AIP board meeting last March, Edge and Eisenkraft gave persuasive oral accounts of the Olympiad they monitored in Yugoslavia. French remembers that "Eisenkraft's enthusiasm for the Olympiad was so contagious, we were infected there and then." A report by a special committee of The American Physical Society also recommended support for US participation. The committee, headed by Neal Lane of Rice University, suggested that AIP should take the lead in gaining wide support for the event, which already wide support for the event, which already had the backing of APS and AAPT (PHYSICS TODAY, March, page 107).

In the end those three organizations were joined in sponsoring US activites for the Olympiad by the American Astronomical Society, the Optical Society of America, the American Association of Physicists in Medicine, Ford Mortor Co, IBM, Exxon Corp, Duracell Inc, John Wiley and Sons, Worth Publishers the University of Maryland.

In late March Wilson sent 20,000 letters to high school teachers and administrators urging them to nominate at least one physics student for the first round of tests. He suggested that they refairn from just going ahead and nominating their best student currently in class, but rather choose only those they regarded as best compared against the best in the past decade or so. Some schools submitted two names. The Bronx High School of Science named three.

A month later the schools administered a multiple-choice test of 40 physics questions and 2 open-response problems drawn up by AAPT to nearly 200 students in their 11th and 12th years. The 50 top scorers took another written test. From these, AAPT found 23 who qualified for the special training session leading to the Olympiad.

Of those, three were already committed to the Chemistry or the Mathematics Olympiad and therefore could not participate in the physics meet. The reamaining 20 attended a ten-day training session in the physics building on the University of Maryland campus. They spent most of their days working over questions from prior Olympiads. There were also crash courses, such as a 2½-hour session on optics, which was the first time most of them had encountered the subject. "I never learned optics in school. It proved to be crucial in the Olympiad test," says Mauskopf. "I amazed myself by how much I remembered from the cram course." Zucker and Sheshan would have liked a longer training session to bone up for the Olympiad. "We felt queasy about not having more experience in the lab. We expected the Europeans to be better trained at lab work than we were," Zucker observes, "and that put us at a disadvantage." Recognizing a gap in his knowledge, Graham taught himself thermodynamics before going to Maryland.

While the group wanted to do well, perhaps even taken home some medals, Esienkraft advised the students not to worry about winning. "He told us the first year was basically a throwaway," recalls Graham. "But in our hearts we really wanted to win."

CAMARADERIE

When the Americans met the 100 young contestants from 20 other countries at the Harrow School, north of London, England, on 13 July, any thoughts of an intense rivalry fled. "We were among like-minded people, despite the different languages and cultures," says Sheshan. They debated Bell's inequality and the significance of the Einstein-Podolsky-Rosen paradox. Mauskopf played basketball with a youth from Poland who had been to the Olympiad in Yugoslavia the year before. The Cubans kept beating the US team members at pool. Zucker taught Bulgarians, Chinese, Cubans and Turks to play Ultimate Frisbee, resulting in one broken arm. They visited museums and historic places in London, saw the Cavendish Lab. in Cambridge and ate fish and chips as part of their British experience.

After the fun and games came the tests at Harrow. The tests took five hours on each of two days, The first test consisted of three lengthy questions drawn up by the British hosts and the second was administered under lab conditions. Mauskopf wrote the answers to one theoretical question over 20 pages, setting the record for length in this year's Olympiad, He also solved one problem with an elegant use of Lagrangian equations—the only contestant to employ this technique. In one lab test requiring rainbow angles to be detected by spectroscopy in a water droplet, Mauskopf was awarded a zero for measuring the supplements of the angles rather than the angles themselves. Einsenkraft and Edge argued that the answer was absolutely correct for the supplemental angles, and the judges finally gave Mauskopf 25% for the answer.

"We didn't have any notion of how we came out until the winners were announced on the last day," says Sheshan. That ceremony took place in Harrow's New Speech Room, a semicircular hall with stained-glass windows and a pipe organ. It came as no surprise that the USSR took three of the four gold medals, while the fourth went to a student from Romania. The Team from China won a silver and bronze. England and both Germanys took silver medals. Graham, Mauskopf and Zucker were awarded bronze medals, while Fukuda and Sheshan missed getting honorable mentions by less than two points overall.

"It was a satisfying, difficult competition," says Mauskopf. "If we had more experience and more training, we might have done a little better. Even so, we were happy to have done so well. To hear the other contestants tell it, in most of Europe, the Olympiad serves as a basis for a rigorous series of physics courses and exams. In our country we do things differently." "I'm glad I went and did so well," asserts Graham. He and Zucker will be attending Stanford this fall; Mauskopf is going to Harvard, Sheshan to the University of California at Berkeley and Fukuda to Carnegie-Mellon University.

Wilson, Eisenkraft and Edge are thrilled by the showing of the US team and preparing for next year's Physics Olympiad, to be held in Jena, East Germany. Says Eisenkraft: "I'm convinced the Physics Olympiad will excite both students and the system to aspire to greater achievements in much the same way that the Olympic games stimulate athletes to compete. In my mind's eye, I see physics becoming as glamorous as any competitive sport."

ADDRESS AT BROWN UNIVERSITY BY SENATOR J. WILLIAM FULBRIGHT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas [Mr. ALEXANDER] is recognized for 5 minutes.

Mr. ALEXANDER. Mr. Speaker, this weekend the leaders of the United States and the Soviet Union will sit sown to discuss matters of international security. Their perspective on each other, their understanding of each other's country, and their perception of world events, inevitably is shaped by the depth and breadth of their education enriched by their separate personal experiences in world affairs.

I know many of my colleagues share my hope that Secretary Gorbachev really does understand that we Americans seek, above all else, a peaceful world; that we really believe that the money we spend on our military might is not intended to inspire a war, but to prevent one; that our actions around the world are not intended to provoke violence, but to contain it. I wish I could host the Russian leader in my district in Arkansas so that he could see for himself what Americans are really like. I would like to think that he goes to Iceland with a knowledge of our people based on his own experiences, and not on a memorandum prepared by bureaucrats in the Kremlin or news summaries composed by the staff of Pravda. How many times can each of us recall instances in world history where fatal decisions were influenced more by ignorance and misconception than by truth and understanding?

Last month my friend, and our former colleague, the Honorable J. William Fulbright of Arkansas, delivered the keynote address at the Inauguration of the Institute of International Studies at Brown University. To many throughout the world Bill Fulbright is well known for his contribution to world peace through the Fulbright scholarships. He understood long ago that understanding of foreign cultures and governments is indispensable to the advancement of international cooperation. He actively encouraged young people from throughout the world to reach beyond that which is parochial and familiar into a world filled with diversity and change.

His message at Brown University is sobering. His words direct. As always, his thoughtfulness and compassion remind us of his many great acts of statesmanship and courage. So eloquent and enlightening is the message that I obtained a copy of his address so that others might have access to it. I commend to my colleagues this important address.

INTERCULTURAL EDUCATION

I do not easily find the words to express my appreciation of the honor you bestow on me this evening. It lifts ones spirits to be recognized by Brown University for any reason, but I am especially honored that in this instance your approval is related to the Educational Exchange Program and my role in its creation.

My pleasure on this occasion is enhanced by the fact that one of my favorite nephews, Kenneth Kelly, is presently in his second year on your campus and by my memories of good friends past and present, who are identified with your State and with this University. Among these are such names as Theodore Francis Greene, Claiborne Pell, John Pastore, John, Anne and Carter Brown whose ancestors were responsible for the creation of this magnificent institution. In addition to these fine people, one of the truly wise and generous benefactors of Brown, the Honorable Tom Watson, is also a friend and benefactor of my Alma Mater, the University of Arkansas. I had the honor of serving on the Board of Regents of the Smithsonian Institution with Mr. Watson for several years.

During those years I came to admire him and his charming wife Olive. Since then his service as our Ambassador in Moscow and his views about our relations with the Soviet Union have increased my appreciation of his wisdom and judgment.

On this 40th anniversary of the enactment of the Educational Exchange Program is an appropriate time to recall the circumstances of its origin and its purpose.

The year 1945 marked a profound break in the thread of human history. In the wake of the two world wars. Europe, hitherto the center of the world power and culture, lay ruined and demoralized, its preeminence lost, apparently, as it then seemed, beyond retrieval. Russia had suffered the loss of more than 20 million of its population; China had suffered similarly under the impact of both invasion and civil war; and the great cities of Japan were reduced to ashes. Most of this had taken place even before the dropping of the atomic bombs on two Japanese cities. The advent of nuclear weapons, made it abundantly clear—if it were not clear already—that warfare among great nations had become suicidally irrational and unacceptable to civilized peoples.

The past, in the wake of such great catastrophe, seemed unable to provide models for peace and world order, or indeed for the survival of human life and civilization. As Albert Einstein advised in the 1945, after the destruction of Hiroshima and Nagasaki, "Now everything has changed except our manner of thinking. Thus we are drifting toward a catastrophe beyond comparison. We shall require a substantially new manner of thinking if mankind is to survive."

Against this background it occurred to me (then a recently elected United States Senator from the state of Arkansas) that a substantial exchange of students between the various nations would help to promote, however modestly, the new manner of thinking referred to by Einstein. There were two significant precedents in American history for using public funds for international education as an adjunct to our diplomacy—the Boxer Indemnity Fund and the Belgian American Foundation. (Precedents are important in the Senate.) With these examples in mind, recalling too the demeaning fruitless wrangle over war debts after the first world war, as well as my own experience as a Rhodes scholar in the twenties, in September 1945, a few days after atomic bombs destroyed two Japanese Cities, I introduced a bill providing for the use of foreign credits accruing to the United States from the sale of surplus war property for the financing of educational exchange. For political reasons I thought it best not to invite attention to the larger purposes of the legislation and to the profound changes I hope it would help to advance in international relations. I emphasized instead its modest scope and cost so as not to invite opposition from suspicious colleagues still imbued with the attitudes of traditional American isolationism. The bill was passed by the Congress and signed by President Truman on August 1, 1946.

Since that time the program has been several times renewed and refunded, with substantial contributions coming from other participating governments as well as the United States, and it is now generally accepted if not fully appreciated by political leaders who control our foreign policy.

I say "not fully appreciated" because although the political leaders in Washington speak approvingly of the Exchange Program, they attribute to it a very low priority in the allocation of funds. It is true that during the past four years the Congress has increased the appropriations, but it is also true that the number of grantees is still fewer than it was 25 years ago. It is evident that the political authorities in Washington fail to recognize that the Exchange Program is more than just a laudable experiment, but is a positive instrument of foreign policy designed to mobilize human resources, just as military and economic policies mobilize physical resources. The introduction of nuclear weapons and their unprecedented destructive power require greater attention, than in the past, to the avoidance of the *miscalculations* which result in conflicts. The avoidance of mistakes requires diplomacy and judgment by people with a thorough understanding of the issues and circumstances involved, with a background of experience and knowledge of the parties. In a word, the emphasis *should* now *shift* from how to make and win a war to how to avoid it.

The personal benefits to the individual participants are readily recognized, but the effect of the scholarships upon the political relations of the nations involved are less obvious. As in other educational programs, it requires several years for the results of the educational experience to become apparent. It is only when the students have matured and assumed their places in society, often in positions of considerable importance, that they can influence the attitudes and policies of their respective communities. The participants in the early years of the program have only recently been coming into positions of influence. But each year their numbers and influence increase and will continue to increase. About 156,000 men and women have participated in the Exchange Program, approximately one-third from the United States and two-thirds from other countries. The largest numbers are from the developed countries including Great Britain, Germany, France and the Scandinavian countries, Japan, but many too have come from less developed nations including China and India.

A very important feature of the program is the bi-national commissions in some 42 countries giving these countries equal participation in the formulation of the content and the direction of the program in their respective countries. One consequence of this feature is that 28 of these countries share the cost of the program, in some cases contributing more than the United States.

From time to time the suggestion has been made by authorities in Washington that the program should be funded by the private sector. The distinctive quality of the program originally was that it was the first large educational exchange supported by the money and prestige of the government. I am quite certain that if the U.S. government withdrew its financial support other governments would also and the program would have a very dubious future.

This program, to be effective, must be for the long term. It is quite complicated to administer, and the uncertainty of private funding would undermine its credibility. Contributions to the program by private donors are welcome, but the basic administrative structure should be stable and its finances assured.

It is most unfortunate that exchanges have been minimal where they are the most urgently needed between the United States and the Soviet Union. But in spite of serious political obstacles, the small Russian program has been effectively administered with well qualified participants and can be expanded if we wish to do so.

Since the Soviet Union is the source of our principal concern about the security of our country, it occurs to me that the expansion of the educational exchange program is far more relevant to that concern than is the present escalation of the arms race. As one respected authority on the subject recently put it, war requires deliberate decisions on the part of national leaders and it requires calculations that the gains to be derived from war will outweigh the probable costs, they do not just happen like earthquakes or tornadoes. As Lord Grey wrote of the first World War in 1914, "Nations are always making mistakes because they do not understand each others psychology." If the leaders of the Soviet Union and the United States have had the experience themselves or the advice of people who have lived and studied in the others country, they are more likely to correctly calculate the risks of war and to avoid the kind of mistakes the leaders of Germany and England made in 1914, the Japanese in 1941, and more recently the mistake of President Johnson in 1964. Leaders who can correctly calculate the consequences of a nuclear conflict between the Super Powers are better insurance against a conflict than is a larger stockpile of nuclear missiles or a dubious S.D.I. system.

I do not believe we should rely primarily upon machines for our security, no matter how sophisticated the machines may be. Our security depends upon the wisdom and the judgment of the men who make the crucial decisions, and their judgment in turn is dependent upon their experience with and knowledge of the opposition.

We do not have to approve of the social and political system of the Soviet Union, but it is unrealistic and a mistake not to accept its status as a great power. It is an illusion to believe that we can intimidate the Russians by military superiority or that we can force them into bankruptcy by outspending them for military weapons. The plain fact is that there is no reasonable prospect that we can eliminate or neutralize their ability to injure us with nuclear weapons, but there is at least a possibility that we can, by persistent and carefully designed programs of confidence building joint ventures, persuade them as well as ourselves of the advantages of more cooperative relations between us. By maintaining parity of military power, we can engage in cooperative joint ventures with little or no risk to our security.

The real challenge to the leaders of the United States, a challenge which I believe this University and its distinguished patron Ambassador Watson recognize, is one of psy-

chology and education in the field of human relations. It is a challenge we should welcome in place of the costly drive for nuclear superiority which undermines the strength of our economy.

As I have said before, political leaders in the United States tend to regard intercultural education as marginal or too slow or irrelevant to the conduct of international affairs, but I am quite certain they are mistaken. Intercultural education through its participants in positions of influence has the possibility of modifying the preeminence of military power as the primary guardian of our national security. Nuclear weapons have compromised the traditional role and effectiveness of military power as the guarantor of our security, except in their function as the deterrence in the principle of Mutual Assured Destruction as accepted by our government in the A.B.M. Treaty of 1972. However, in recent months the dynamism of the U.S. military establishment, unhappy with the restraint of deterrence, is moving to abandon that policy and proceed to an incalculable escalation of the arms race into outer space. To restrain and control this tendency to unlimited expansion requires political leaders who have the experience and the courage to turn the super powers away from such dangerous competition to a policy of cooperative coexistence. The alumni of the exchange experience, through their influence in the schools and the media can alter the way people think about foreigners with ideas and beliefs different from ours and about how to deal with them.

In our large and complex society the relatively small number of Fulbright Program alumni have had a significant but limited influence upon public affairs compared to its impact upon such countries in Western Europe and upon Japan. One aspect often overlooked is that it has inspired the creation of many similar government supported programs in other countries some of which are now larger in size than ours. Within our own country the program has a "multiplier effect." For every university professor whose outlook has been broadened by study in another country, many thousands of students will acquire a more accurate international perspective. For every business person who has studied in another country, many associates are likely to gain some appreciation of the essential futility of nationalist economic policies and of the way in which an international division of labor benefits all countries. For every politician or diplomat who, through study abroad, has gained some appreciation of the world as a human community, many of his colleagues or associates will be influenced away from parochial chauvinism to broader, more fruitful perspectives.

The essence of intercultural education is the acquisition of empathy—the ability to see the world as others see it, and to allow of the possibility that others may see something that we have failed to see, or may see it more accurately. That, I should think, is the most pressing necessity in superpower relations. This is not to suggest that, if Americans and Russians knew each other better, all animosity and rivalry would disappear. It hardly needs emphasis that we in the western democratic tradition will continue to deplore the harshness, the secretiveness, the suppression of ideas and the denial of personal freedom that characterizes authoritarian societies both communist and anticommunist.

That, however, is not what empathy requires. What it does require—applied to Russia for example—is an appreciation of the deep-seated fear, rooted in a harsh and tragic history, that the Russians feel for their borders and their security. As a wise and experienced American diplomat observed, "in order to live in peace with the Russians, Americans must stop denying them the right to their own view of reality. Russian political culture reflects Russian history and embodies what the Russian people, mistakenly or not, believe is necessary for their survival."[1]

The Russian view of reality based on these experiences is not without justification, not only from remote historical conflicts, but also from more recent experiences in which we have participated. The American people, however, do not believe that our country threatens the security of Russia, although in recent years they have been and are being urged to believe that Russia is a serious threat to us. Clearly, both countries, as a result of continuing provocative rhetoric and periodic offensive actions, have escalated the distrust of each other intentions to a dangerous degree.

I can think of no better way to describe the purpose of the exchange program we initiated forty years ago than to erode this distrust. Its essential aim is to encourage people in all countries, and especially their political leaders to stop denying others the right to their own view of reality and to develop a new manner of thinking about how to avoid war rather than how to wage it. For a powerful nation especially, a less adversarial, a more cooperative approach to other countries is more likely to moderate their view of reality than is the implicit threat in building more nuclear weapons. The Exchange Program is not a panacea but an avenue of hope, probably our best hope and possibly our only hope, for the survival and further progress of humanity.

It is to the nourishment of that hope that the Exchange Program and I believe the Thomas Watson Institute are dedicated. Finally, may I once again express my deep appreciation for the recognition you have given the Exchange Program and for the honor you have bestowed upon me.

OBSERVATIONS OF MY CAREER IN THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. LUNDINE] is recognized for 60 minutes.

Mr. LUNDINE. Mr. Speaker, during these last days before I retire from the House, I want to make a few observations about my work here and some of the major problems facing the Congress in the future.

This statement is intended to be neither a history of my legislative record, nor an analysis of the major public policy decisions of the Congress during this period. I simply want to make a personal statement to you and my other colleagues about some of the issues which have been of deep concern to me and which may confront the Congress in the future.

Most of my observations today will be about legislation, but I would first like to say that one of the great joys of this job is the opportunity to make a positive difference in people's lives. It has been a privilege and honor serving the people of our district these last 10½ years. Their confidence is particularly appreciated since I'm the first person of my party to represent most of this district in over 100 years. The special confidence expressed by the constituents who typically vote for candidates from the other party has been a real inspiration to me.

Effective representation is not a one person job. At the outset of these remarks, I want to express my deep appreciation to all of the staff who have worked with me through these years. Their dedication, competence and commitment have been my greatest asset as a Congressman.

When I arrived here in 1976, I was convinced that economic growth and opportunity must be America's first priority and that improving our country's productivity was the key element in achieving that objective. I remain convinced today.

We cannot improve our standard of living and we cannot achieve noninflationary economic growth without productivity improvement. Its decline in the last two decades has resulted in an erosion of America's competitiveness and a standstill in our living standard. Without the economic growth that a healthy rate of productivity improvement allows, we cannot achieve the social progress we desire or even the national security we require.

The basic factors which affect productivity are capital, technology, regulation and human factors. I recognized that all of these elements were important a decade ago.

It seemed to me that we had to take action to free up more capital for private sector investment and reduce the regulatory drag on our economy. One of the reasons I have usually supported tax cuts is founded on the conviction that we must encourage greater savings and investments. I supported President Reagan's 1981 tax cut program. I also supported President Carter when he launched an anti-inflation program with the capable monetary leadership of Federal Reserve Chairman Paul Volcker in October of 1979. This action "broke the back of inflation" and as a result, business investment in the 1980's has not been thwarted by fears that the value of investments will be eroded by inflation. I supported both Presidents in deregulation measures designed to improve the efficiency of our markets through greater competition.

To increase productivity, I realized that we needed to support basic research and provide a way of translating our discoveries into usable technol-

[1] John M. Joyce, who served in the U.S. Embassy in Moscow 1973-76, and 1981-83, in "The Old Russian Legacy," *Foreign Policy*, Summer 1984, p. 152.

ogy. While we were maintaining our edge in basic research, the United States was falling behind our major competitors in the areas of applied research and technology development. I felt that we had to reverse this trend. It was for this reason that I sought a seat on the Science and Technology Committee so that I would have the opportunity to move Federal science policy toward a greater emphasis on innovation.

During my years on the Science Committee, we have taken some important steps in the right direction. The Small Business Innovation Research Act was passed in 1982 to provide support for small businesses with innovative research ideas that have commercial potential. The National Science Foundation has encouraged cooperation between businesses and universities and supported important engineering research. And, in 1984, the House passed the Manufacturing Sciences and Robotics Research and Development Act to provide assistance to basic industries for the development and implementation of improved manufacturing technologies.

During this Congress, due to the difficult budget situation, I felt we should focus on ways to make the most of our presently funded research and development programs. For this reason, I introduced legislation, which passed the House and Senate just this week, to open the doors of our Federal laboratories to the private sector. This measure, the Federal Technology Transfer Act of 1986, will give business, industry, State and local governments, universities and others access to the technology currently bottled up in our Federal laboratories. It will help put Federal technology to work to solve problems and create jobs.

The Science and Technology Committee also provided me with a forum to bring increased attention to the most important component of productivity, the human factor. In 1981, I initiated and chaired 6 days of hearings by the Science, Research and Technology Subcommittee on the human factor in innovation and productivity. I felt very strongly that we could not ignore the impact of new technology on the workforce.

Even prior to these hearings, I identified the human factors affecting productivity as the most neglected and probably the most important. Education is the fundamental foundaton for human resource improvement. That is why I have always given educational expenditures the very highest priority during my terms in Congress.

We in the Congress made a great commitment in the mid-1970's to guarantee full employment. Yet to be a true society of opportunity, people must be ready for the jobs that are available. They must have fair chance to prepare to perform well and succeed in those jobs. Toward that end, I began to develop the concept of a human resources and demonstration program. This was the first major legislative proposal I advanced, based upon my experiences in labor-management cooperation and industrial revitalization while serving as mayor of Jamestown.

Out of this grand concept of a human resources program emerged the Labor-Management Cooperation Act of 1978. With the tremendous help of the late Senator Jacob Javits, I managed to get this bill passed on the last day of the session in 1978. It continues to provide seed money for labor-management cooperation to improve our human resources all across America.

My experience as a member of the House Banking Committee in helping to craft a response to the potential bankruptcy of Chrysler convinced me that America's industrial base was being threatened. Continuing to analyze these issues in the early 1980's, I became convinced that the country was seriously deindustrializing and that was needed a basic industrial strategy to deal with the cornerstone of our economy. The recession of 1981–82 devastated many communities and sectors of our economy and it soon became clear that many of industrial markets and jobs that were lost during that recession would never be regained.

As I began to focus more of my attention on the issues of industrial competitiveness, I realized that the problems went far beyond the recession and Chrysler. We were losing world market shares in 7 out of 10 high-technology products. Our national security interests were being threatened from lost market shares in machine tools and other sectors. Our trade deficit was escalating.

Government, business, and labor were still adversaries in America. While they were busy fighting each other, our international competitors were working with their governments to gain ground in the international competitivenes race. I believed it was crucial for Government, business, and labor to work together to develop a consensus strategy on how to approach our growing international competitiveness problem. That is why in 1982, together with DAVE BONIOR and LEE HAMILTON, I introduced legislation to create a National Industrial Development Board. This independent advisory board, comprised of equal representation from business, labor, Government, and the public sector, was intended to develop a strategy for keeping industrial America competitive.

This legislative proposal was the beginning of my strong advocacy for adoption in Congress of national industrial strategy legislation. Working as a member of the Economic Stabilization Subcommittee and with its Chairman, JOHN LAFALCE, we managed to pass legislation through the House Banking Committee. Our bill proposed an Economic Cooperation Council, which was similar to my original proposal, and a National Industrial Development Bank to work with the council to channel funds to badly needed industrial projects. While such legislation was not enacted during my tenure in the Congress, I am convinced that it is only a matter of time before the Congress will once again be debating this basic issue.

Our biggest problem in trying to pass industrial strategy legislation in 1984 was that we found little support from the private sector which seemed wedded to traditional notions about the role of Government, business, and labor in the economy. But even as I speak today, a change in attitude is taking place in the private sector on the competitiveness issue under the leadership of John Young of Hewlett Packard, the Business Higher Education Forum, and others. Under John Young, a council on competitiveness is being formed involving business, labor, and others to work with Government toward the goals we outlined as advocates for industrial strategy.

From industrial strategy, I turned my attention to trade. In this area, I owe a great debt to the late Gillis Long, for whom I will always have the deepest personal respect. He provided me with the opportunity to pursue more effectively, substantive interests. While he was chairman of the Democratic caucus, he created the Committee on Party Effectiveness which serves as a kind of executive committee for the caucus. Most importantly, Gillis formed smaller issue groups within the committee and gave them the challenge of developing long-term policies.

I was fortunate enough to have been asked by Gillis in 1983 to cochair with my colleague from Oregon, LES AUCOIN, a task force on trade. Our charge was to develop a policy statement on trade for the Democrats. After 18 months' work, the group issued a report to the caucus which contained five main recommendations to help reduce our trade deficit. First, the inflated value of the dollar had to be brought down. Second, we needed to increase exports by strengthening the Export-Import Bank, streamlining export regulations, and aggressively promoting U.S. agricultural products. Third, we proposed an industrial strategy for the future competitiveness of American industry. Fourth, we had to help those sectors of the American economy, which were losing markets and jobs, to adjust to changing economic conditions. Fifth, we identified the need to amend our trade laws to

ensure reciprocal treatment for U.S. industry in international trade.

This report provided the foundation for a trade resolution I offered in September 1985 which was approved by the Democratic caucus and which committed the House to enacting a comprehensive trade bill.

To turn this commitment into reality, I concentrated on developing the Banking Committee's contribution to the trade bill. Legislation I sponsored on exchange rates and international debt was approved by the House Banking Committee and included in the trade bill which the House passed in May 1986. In addition, my proposal to increase the protection of the intellectual property rights of American companies was also incorporated into the bill. This latter measure, so vital to high-technology enterprise, may yet reach the President's desk for signature into law this year.

The 99th Congress provided me with a unique opportunity to address the Third World debt crisis and its dramatic impact on our own economic well-being. As incoming chairman of the Banking Committee's Subcommittee on International Development Institutions and Finance, I began a series of hearings on the topic.

The conclusions of my subcommittee's hearings were embodied in a September 1985 report. The key finding of that report, in my view, is simply that we in the United States have tremendous economic self-interest in improving the economic lot of people in the developing nations. Today's global economy means that our economic fate is intimately linked with theirs. If they do not grow and prosper, they cannot buy our goods; they cannot be our future markets. Even worse, if they continue to be saddled with debt as they are today, they will try to pay that debt by exports which flood our markets and undercut our own industries. That translates into hundreds of thousands of lost American jobs.

It is my profound hope that the next Congress will finally come to grips with the debt and development crisis in the Third World. Comprehensive legislation is needed to help poor countries grow and improve the lives of their people, while simultaneously restoring a promising international future for our own economy, and, not least, to guarantee the safety and soundness of our own banking system which continues to be dangerously exposed to troubled international loans.

I am proud to say that I authored and won House passage this May of a bill which takes the first steps in that direction. My "International Debt, Trade, and Financial Stabilization Act," passed as part of the House trade bill, attempts to achieve those three vital goals. I also urge my colleagues in the next Congress to do more than move forward with legislation on this problem. I implore you to have the necessary courage and vision to stand up for an economically rational approach to foreign assistance and Third World development. We must educate our own constituents about international economic facts. No nation, not even the United States, is today an economic island that can afford to ignore the well-being of our fellow man elsewhere in this world.

One of my deepest disappointments during my service in Congress is the failure of the Senate to join the efforts of the House to approve a comprehensive trade bill during the 99th Congress. I believe that the current $170 billion annual U.S. trade deficit is unsustainable. The legislation passed in the House is a framework for reducing this disastrous trade deficit. Delaying action for another year under these circumstances is inexcusable. The 100th Congrees will surely be struggling with ways to reduce our trade deficit, for our entire economic future depends on it.

Mr. Speaker, one legislative area that is often ignored but which is vitally important to our economy is banking regulations. The lack of true progress in this area has been a source of frustration for me as a member of the Banking Committee. We have been unable to grapple with the fundamental task of modernizing the regulation of our Nation's financial services industry.

Over the last 2 years, I have attempted to bring this issue to the fore. In 1985, I introduced a broad reform measure that would have provided banks and other financial institutions with the ability to underwrite and sell such financial instruments as commercial paper, mortgage-backed securities, and municipal revenue bonds. My legislation also contained a nationwide mechanism to allow for interstate banking.

In addition to this comprehensive bill, last December, I introduced legislation that would have legitimized the establishment of consumer banks—institutions designed to focus on consumer lending services and increase access to financial services for low and moderate income people.

Finally, with TOM CARPER, I cosponsored the Depository Institution Examination Improvement Act which was passed by the House on September 29 of this year. This bill improves the compensation and training systems for Federal depository institution examiners.

While passage of this bill will go a long way toward improving the effectiveness, safety and soundness of our banking system, it does not address the fundamental regulatory problems with which we must deal. Since the enactment of the Banking Act of 1933—the Glass-Steagall Act—there have been changes in our domestic and international economies and advances in technology that would have been inconceivable to the lawmakers who drafted Glass-Steagall in the dark days of the depression. In the last few years, automated teller machines, split second transfer of funds, new money market instruments, and the participation of financial conglomerates have revolutionized the banking world.

I do not think that there is anything fundamentally wrong with these changes, or with new players entering the financial services business. In fact, the increase in competition that such participants engender benefits consumers. However, the current regulatory structure, which prohibits commercial banks from providing a broader range of services, does not contribute in any way to the safety and soundness of the system. If fact, I feel that such limitations are ultimately detrimental to the stability of our banking system.

Thus, there exists today a real need for a system of regulation that recognizes the realities of the marketplace, allows for increased competition, and maintains the safety and soundness of the banking system. The industry must be able to adapt to and utilize technological innovations in a safe and reasonably regulated environment.

I believe that one of Congress' priorities in the next year should be developing such a system. Resolving the problems that currently plague our financial services structure can only help to provide new stability to our economy and restore eroding confidence in our Nation's financial system.

Since the 1930's, our Federal Government has been committed to seeing that every American has a decent place to live. This is a proper and necessary role for a government such as ours. Being on the Banking Committee has enabled me to be an effective supporter of housing programs throughout my tenure in Congress.

During my first 4 years on the Housing Subcommittee, enormous strides were made in the challenging area of low and moderate income housing programs. In those days, the Carter administration was committed to improving the efficiency and effectiveness of these programs. A great many housing programs were expanded and refined. Since 1981, however, a different philosophy toward public housing has permeated the Federal Government. Since 1981, we have literally cut housing programs "off at the knees," reducing expenditures from approximately $31 billion in fiscal year 1981 to $9 billion today. Congress has not passed a housing authorization bill since 1983, and that bill was passed only because it was attached to IMF legislation the administration badly wanted.

Housing programs are not wasteful boondoggles—they are a sound and absolutely essential utilization of Federal resources. One of the basic responsibilities of our Government is to ensure that Americans have access to decent shelter. Even in these days of budgetary cutbacks, housing programs need to be preserved.

In rural areas in particular, the lack of an adequate number of housing structures make it very difficult for poor people, many of them elderly, to find an affordable place to live. Elderly people often are unable to remain in their homes which have become difficult to maintain.

I have tried to improve existing housing programs and enable more people to be housed without an extra cost to the Government. One example of such a program was my effort to reform the financing mechanism for section 515 programs administered by the Farmers Home Administration. Another more dramatic example was my amendment which more than doubled the number of units built with the section 202 elderly housing program with no increase of Federal subsidy.

One program of which I am very proud is the Preservation Grant Program. This program, included in the 1983 housing bill as a demonstration project and reauthorized since then, provides a means, through public and private cooperation, for rehabilitating existing structures. These grants turn existing but dilapidated structures into homes for low- and moderate-income families. This is an example of how we can provide housing without spending a great deal of money. One of the great failures of the last 5 years has been the inability of the two Houses of Congress to agree on an omnibus housing bill. This year, the House has passed such legislation twice. The Senate has yet to develop a housing bill, or to consider the House-passed legislation. This hurts thousands of needy Americans across the country.

Turning from issues where I have been directly involved through my committee assignments to more general areas of national concern, tax policy deserves to be highlighted. I have advocated tax reform since the first day I came to Congress. I am pleased that Congress has finally passed a genuine tax reform bill which eliminates or curtails many of the special preferences in our existing Tax Code.

In the late 1970's. I put together a tax proposal which would have done away with almost every existing tax break—including many that had been around for decades. When BILL BRADLEY and DICK GEPHARDT introducted their Fair Tax Act in 1982, I immediately signed on as a cosponsor. Their plan embraced a similar philosophy of pure tax reform, while also being politically more realistic.

President Reagan's leadership combined with DAN ROSTENKOWSKI's toughness enabled Congress to pass legislation that truly deserves the name of tax reform. Although there are many provisions I would not have supported individually, the overall effect of tax reform is to exchange our system of special tax breaks for one of general tax fairness. In my view, it is the most important legislation I have voted on in 10½ years in Congress.

Above all, tax reform should bring some needed stability to our Tax Code and end the annual scramble to enact new tax preferences for favored constituents. While the economy may dip into a recession, in accordance with normal business cycles, I hope that Congress will resist the temptation to blame the tax reform bill for an economic downturn. That would simply be caving in to the lobbyists who will use any excuse to get another tax break for their clients.

Instead, I hope that Congress will spend the next few years studying the effects of tax reform and analyzing the way the economy responds to our remaining tax incentives. In the early 1990's, Congress may want to revisit the Tax Code. At that time, Congress may want to continue the trend toward eliminating Government tax incentives and rationalizing our tax laws. Or, Congress may want to enact a few, well-crafted tax preferences, to improve our international competitiveness and enhance our national savings rate. But above all, Congress should not, as it has in the past, start giving away tax breaks without considering what will happen to all those Americans—mostly low and middle income people—who are unable to take advantage of these tax preferences.

Other than raising the necessary revenues for Government purposes and providing for the national security, one of the most important roles of the Congress in our system is to set a context in which State and local government can effectively meet the needs of our people. I am deeply disturbed that this Congress has upset the balance in our federal system by canceling the General Revenue Sharing Program. This will simply raise local property taxes and undermine the effectiveness of the Government which is closest to the people. I hope that legislation I sponsored in 1981, the State and Local Cost Estimate Act, will at least assist in reducing the mandated cost imposed from the national level on State and local government.

The protection of our environment and development of adequate energy resources are fundamental responsibilities of government at all levels. My own special environmental concern has been nuclear waste management. The adoption of the West Valley Nuclear Waste Demonstration Act in 1980 authorized the most significant project of its kind in history. I am proud that the West Valley project is proceeding on schedule and appears to be on the way toward a successful demonstration that nuclear waste can, in fact, be cleaned up. Using the experience I gained in obtaining a consensus from groups with fundamentally opposite points of view regarding the West Valley issue, I actively participated in drafting the National Nuclear Waste Policy Act. In particular, the mission plan requirement in this legislation should help in solving this most serious environmental problem.

It is crucial that we forge a constructive policy balancing our energy requirements and environmental protection. I am deeply disturbed that both have suffered during this decade. Our conservation efforts plus some good luck broke the back of the OPEC cartel in the 1980's. But, our negligence in virtually abandoning energy conservation and development during this period of lower oil prices will come to haunt us in the future. Our environmental progress has not been sustained in the 1980's. Problems such as groundwater contamination will cause this nation considerable difficulty in the future.

The most basic aspect of our environment relates to our ability to produce the food and fiber we need. As a Federal legislator from the third largest dairy State, my major concern with agriculture policy has been the dairy support program. Throughout my years in Congress, I have been an outspoken supporter of the small, family dairy farmer.

I spoke out in favor of a system of two-tier pricing whereby the Government would provide a reasonable level of support for the amount of milk which would meet estimated national consumption needs. For any additional milk produced, the Government would pay a much lower price and then aggressively sell this surplus on the world market.

In addition to a two-tier pricing system for milk, I strongly believe that because the milk-producing regions in this country are so radically different, our policy should be regionalized. I believe it is unrealistic to think that we can design a single dairy pricing mechanism which will be fair to farmers from California to New York, when supply and demand characteristics vary widely.

Most of all, I supported dairy programs flexible enough to allow new, young farmers to continue to enter the business. And I strongly supported necessary actions to resist the increasing concentration of farmland under the ownership or control of nonagricultural corporations.

To advance the interests of consumers, I also led the fight to reform the Federal Peanut Program. In 1981, I was successful in achieving the first legislative changes in 50 years in the bureaucratic structure of the Federal Peanut Support Program. My legislation was instrumental in bringing the price of peanut products back down to an affordable level for young people and senior citizens nationwide. Still, the peanut program remains the most anticonsumer of all Federal agriculture programs. I hope that Congress phases out the remnants of the medieval allotment system when the farm bill is next renewed.

Whether one considers the interest of agriculture, industry, or the general public, any objective assessment of the national condition in 1986 must conclude that our infrastructure is dangerously in decline. Roads and bridges are deteriorating. Water and sewer systems are seriously deficient. Urban transit systems and rural electric service are not being modernized. Later in this statement, I will propose a federal capital budget: one advantage of such a system would be to accord investments in our infrastructure a higher priority.

The highest priority of the Federal Government must always be our national security. Some of the most serious differences in the Congress at the present time relate to defense and arms control issues. Without getting into the details of these disputes, I sincerely hope that an effective, verifiable strategic arms control agreement will be an historic achievement during the next Congress. I have supported sensible weapons systems and feel that, with our allies, we actually should be doing even more to strengthen our conventional capability. Yet, arms control is essential both because it reduces the risk of a devastating nuclear exchange and because we must put some substantial restraint on the growth of military spending.

The defense spending binge of this decade is the most significant cause of our disastrous budget deficit. This imbalance of revenues and expenditures is the most difficult problem under the direct control of the Congress. We are painfully aware of the results of the fiscal irresponsibility which became national policy as a result of the Gramm/Latta substitute budget adopted in 1981. Our national debt has doubled in 5 years. Interest expenses, which amounted to less than 6 percent of the Federal budget in 1976 when I first came to the Congress, now cost more than 15 percent.

The United States simply cannot go on in this irresponsible fashion. Due to the predictable magic of compound interest, fully one-third of all Federal expenditures will go to pay interest on past debt in a very few years. Radical surgery should be performed on this fiscal cancer. The prospects for prosperity for our children will otherwise be dim. Even in the near term, a crisis of confidence in the dollar could cause economic disaster which would make the recession of 1982 look modest by comparison.

I know that some radical economists, mostly of the supply side perspective, have said that this mounting debt is not a major problem, arguing that our ratio of Federal debt to gross national product is less than at the end of World War II. However, there are several fundamental differences between our situation and the one we faced 40 years ago. First of all, then we owed the money to ourselves since American citizens had purchased bonds to finance the war. At that time, we were the unchallenged world industrial and agricultural leader. Today, our budget deficit is accompanied by a trade deficit of unparalleled proportions. Our agriculture and industry are slipping seriously. We are financing our current desires, public and private, by borrowing money from abroad. This artificially inflates the value of the dollar, further eroding our competitiveness.

The United States has become the world's largest debtor nation. The implications of this level of debt are uncertain. But they are certainly not positive. There is a certain skittishness to financial markets today. There is some evidence that the Japanese and others with hard currency are becoming reluctant to keep lending us funds as the dollar depreciates. The combination of the trade deficit and the budget deficit present an ominous climate for America's future prosperity.

In order to deal with the budget deficit, I voted in favor of the Gramm-Rudman law last December. It has not worked as I hoped. But the fact is that Federal expenditures, including defense spending which had been spiralling out of control, have moderated. We may be addressing the fiscal year 1987 deficit target with smoke and mirrors, but I'm convinced that the situation would be even worse without the Gramm-Rudman target.

I would never vote to hand the power to comply with budget limits over to the Office of Management and Budget. I strongly hope Congress resists this step toward executive branch autocracy in America. Instead, I hope that Congress will bite the bullet and take the big steps toward fiscal sanity next year. Make no mistake about it: 1987 will be the turning point in the battle of the budget. It will be tough to meet the deficit reduction target. But with a concerted effort to cut out unnecessary Federal activity, improve efficiency, and ask for genuine across-the-board sacrifices, I'm convinced that major deficit reduction is achievable.

I sincerely hope that President Reagan, if he will not agree to defense cuts, will then yield in his stubbornness and admit that additional revenues are therefore needed to pay for the current cost of our Government. In any case, it is essential to preserve Congress' power of the purse by limiting spending and raising the revenue necessary to pay for current costs.

There is also a crucial need to reform the budget process. The system is clearly out of control. I would recommend that serious consideration be given to a 2-year budget cycle with very tight time frames for separate appropriation bills. The other major budget reform which is vitally needed is to establish a real capital budget, distinguishing long term public investment from operating expenditures.

Turning to other reforms which are needed to make the budget an effective instrument, the practice of governing by continuing resolution must be ended at once. It is undemocratic, the hidden nature of the process contributes to wasteful spending, and it thwarts the possibility of setting sensible priorities. Reconciliation is an important process, but it must be restricted to budget cutting measures. Somehow, the House must remain firm that the other body not attach irrelevant, unnecessary Christmas tree ornaments to these measures or the debt ceiling increases.

It also seems important to me that the responsibility of the authorizing committees be restored. Housing is far from the only major governmental function which has not been specifically authorized in several years. This failure to review and reauthorize Federal programs is distorting the power balance within the House and destroying the expertise of these committees. As a result, sensible priorities in making public policy are not achieved. This was a very different institution in the 1970's—when, incidentally, budget deficits ranged from $29 billion to $66 billion. The evolution in congressional procedure does not serve the interests of most Members. More importantly, it doesn't serve the public interest. The House leadership in the next Congress must restore the integrity of the authorizing process.

Even more radical changes in House and caucus rules probably deserve serious consideration. For example, I think that the selection of committee chairmen should not require rejection of the most senior member before selecting the best leader. I am well aware of the danger that members will become more destructively competitive and that leadership will become a popularity contest. Nevertheless, change is needed in the way the House selects those members who exercise special responsibility.

For any criticism these remarks may have conveyed, I want it understood, Mr. Speaker, that I have felt privileged to serve in this great institution. The Congress is the essential element in the greatest experiment in democracy the world has ever known. The House is made up of some wonderful people. I appreciate the wisdom that you, Mr. Speaker, have so often provided in this last decade.

I will miss working with colleagues to achieve mutual goals. Whether it's MATT MCHUGH working to achieve special help for the starving people of sub-Saharan Africa, or MARY ROSE OAKAR working to end discrimination against women, I will miss the collaboration with my colleagues.

In fact, it is sad to be leaving this House at a time when our Nation is at a crucial juncture. In my judgment, American industry and agriculture are threatened as never before. We need national attention to these essential elements of our economy. We also need to fashion a national defense which keeps our country secure but achieves meaningful arms limitation. This is essential so that our ultimate responsibility as leaders—to preserve this planet—is fulfilled. I am somewhat sorry to be leaving at a time when the Congress must face up to its most challenging budget problem and rectify the fiscal irresponsibility of these last several years. These are challenges which future Congresses can and must meet.

However, in the transition I am planning in my own public service career, there are also exciting, new opportunities. I hope to play an effective role in the executive branch of State government in New York. I hope that some of the things I've been working on in the Congress without completely fulfilling can be achieved at the State level. In any case, my experience here has been a great honor. Thank you, Mr. Speaker, and thanks to all of my fellow Members of Congress.

□ 2250

Mr. CLINGER. Mr. Speaker, will the gentleman yield?

Mr. LUNDINE. I yield to the gentleman from Pennsylvania.

Mr. CLINGER. Mr. Speaker, I want to commend the gentleman from New York for his lucid, comprehensive, and very thoughtful statement and review, I think, of the major public policy issues facing this country, and also to commend him for his outstanding service, not only to his district, but to his State and to the Nation.

As the gentleman knows, he represents the district to my north in Pennsylvania, and he has alluded, the district is primarily a Republican district, and the fact that you have served that district with such distinction for a long period, I think, is to your credit. It is also, I think, to the credit of your constituents, who, though they might be in the majority Republican, recognize a person of quality and a person of rare distinction.

I think that that was evidenced very early on as you alluded to the fact that I knew when you were mayor of the city of Jamestown and were managing that city with great skill.

The Labor Management Council, which you innovated and which has become a model for other cities and towns throughout the country, I think is exemplary.

I want to just allude to one of the items that you mentioned in your remarks this evening. That is the very pressing need we have in this country for a reordering of our budget priorities and the very pressing need we have to develop a Federal capital budget.

The infrastructure of this country is decaying and wearing out faster than we are replacing or repairing it. I think that unless we change our whole budget priorities and recognize that a Federal capital budget is essential in order to do that, we are going to see our infrastructure continue to decline and fail.

I think this is just one example of the creativity that you have brought to your position as a Member of this Congress.

I particularly also want to commend you for the pioneer work that you have done in the area of productivity. You have recognized that it is in our ability to improve our productivity in this Nation that we will be able to compete. We are going to be required to compete in a world market from now until the end of time.

So, your efforts, very, very strong efforts, to provide the mechanism for the increase in productivity and, therefore, our ability to be more competitive in the world, I think are to be commended.

This is a key issue. The gentleman from New York has been a thoughtful, innovative, and a very constructive Member of this body and as you move on to what I know are going to be even greater contributions in the public sphere, we thank you for your contributions here.

On behalf of myself, and I know on behalf of all of our colleagues, we will miss you very much.

Mr. LUNDINE. Mr. Speaker, I thank the gentleman.

The gentleman from Pennsylvania [Mr. CLINGER] is my friend and neighbor, literally. Our districts serve as the border between New York and Pennsylvania.

I commend him for the work he has done on a capital budget issue over the years. I think it is ironic as a local mayor, you distinguish between operating expenditures and those things that you do borrow for. If you build a new city hall or a courthouse, you pay for it as you use it, over time. But certainly with regard to operating expenses, you exercise a degree of prudence, not spending more than you are prepared to tax.

The gentleman has been a great leader in the area of capital budget reform, and I do think that the adoption even further than the measure that the gentleman has sponsored of the real meaningful capital budget would be one of the more progressive things that happen in this country.

We would be required in defense and nondefense areas to distinguish between what we are paying for what we are going to need today and what is an investment that we will use and that our children will use.

I do appreciate the bipartisanship with which this gentleman and so many of my other colleagues approach these questions and appreciate his kind comments.

Mr. BOEHLERT. Mr. Speaker, will the gentleman yield?

Mr. LUNDINE. I yield to the gentleman from New York.

Mr. BOEHLERT. Mr. Speaker, I was sitting in my office signing mail, as we often do at this late hour, and I was watching my television. I saw the beginning of "LUNDINE's farewell address."

I just could not miss the opportunity to come to the floor here because, as you take leave of this House in your quest for an expanded role in serving the family of New York, I want to wish you well.

□ 2400

It has been my privilege for the past 4 years to work with you. Now, some people might be surprised that the two of us in competing parties from the same State would be here today and that I would say good things about the gentleman, but I say good things about the gentleman from New York [Mr. LUNDINE] because he deserves to have good things said about him.

I am particularly interested in the gentleman's fine work in education and economic development and in the environment. Those are three areas of particular concern to me also.

There have been many occasions when the spirit of bipartisanship has found us working together for the common interest, not just for New York, but for all of the United States.

I am reminded that the greatest accomplishments come from this institution when we forget that there is a dividing line down the center aisle and we put our heads together to work for something that is worthy for America, not for the Republican Party or the Democrat Party, but for America.

I have been privileged to work with the gentleman in the Science and Technology Committee, which I think

has a reputation for being a nonpartisan or a bipartisan committee.

I am particularly mindful of the work the gentleman did with the minority leader of the House of Representatives this year to see to it that a technology transfer bill was passed. That is the type of bipartisan cooperation that produces fine results for this country.

So as I say to the gentleman bon voyage, in a way, and as I wish the gentleman well, I do not do that as an endorsement for any one of the gentleman's ventures, but I do it as a sincere wish that life has in store for the gentleman all good things, because the gentleman deserves them. He has earned it.

Mr. LUNDINE. Mr. Speaker, I thank the gentleman very much. Now that he has informed me that he does not have an opponent, I was prepared to give him an endorsement this year.

Seriously, I have deeply appreciated working with the gentleman from New York on the Science and Technology Committee. It is true that we have worked very closely and carefully together in a spirit of bipartisan cooperation to accomplish many of these things.

I feel a whole lot better about the future of this country because there are people like the gentleman and his colleague from Pennsylvania who really are looking at these problems that I have talked about and some that I have predicted will come up and bite us in future years, with such dedication and such a spririt of positive problem solving.

I deeply appreciate the gentleman coming over.

Now if we were Cinderella, the hour is such that I think not only is my 60 minutes up, but the time for remarks has expired.

I thank the gentleman so much for coming over and particiapting in this special order, which because of commitments elsewhere I suspect will probably be the last time that I will address the House, but certainly will be the last major statement that I will give to the House.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BOLAND (at the request of Mr. WRIGHT), for today, after 1 p.m., on account of an illness in the family.

Mr. BATEMAN (at the request of Mr. MICHEL), for today until 5:30 p.m., on account of attending a funeral.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. PACKARD) to revise and extend their remarks and include extraneous material:)

Mr. NIELSON of Utah, for 30 minutes, on October 15.

Mr. JEFFORDS, for 5 minutes, on October 14.

Mr. STANGELAND, for 30 minutes, on October 10.

Mr. SILJANDER, for 60 minutes each, on October 10, 14, and 15.

Mrs. BENTLEY, for 60 minutes each, on October 14 and 15.

(The following Members (at the request of Mr. LUNDINE) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.

Mr. ROSE, for 5 minutes, today.

Mr. BRYANT, for 5 minutes, today.

Mr. ALEXANDER, for 5 minutes, today.

Mr. DICKS, for 60 minutes, today.

Mr. GONZALEZ, for 60 minutes, on October 10.

Mr. DANIEL, for 60 minutes, on October 14.

Mr. LAFALCE, for 60 minutes, on October 10 and 14.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. MARLENEE, on the de la Garza amendment to H.R. 3810, in the Committee of the Whole today.

(The following Members (at the request of Mr. PACKARD) and to include extraneous matter:)

Mr. BEREUTER in two instances.

Mr. DREIER of California.

Mr. GOODLING.

Mr. DANNEMEYER.

Mr. HYDE.

Mr. KEMP.

Mr. MCCANDLESS.

Mr. DENNY SMITH.

Mr. CRANE.

Mr. BROOMFIELD.

Mr. LUJAN.

Ms. SNOWE.

Mr. SAXTON.

Mrs. JOHNSON.

Mr. GILMAN in three instances.

Mr. TAUKE.

Mr. WORTLEY in two instances.

Mr. PACKARD in two instances.

Mr. DUNCAN.

(The following Members (at the request of Mr. LUNDINE) and to include extraneous matter:)

Mr. ROSTENKOWSKI.

Mr. MARKEY.

Mr. COELHO in four instances.

Mr. SKELTON.

Mr. COLEMAN of Texas.

Mr. DWYER of New Jersey.

Mr. FLORIO.

Mr. SMITH of Florida.

Mr. BERMAN.

Mr. YATRON in three instances.

Mr. DARDEN.

Mr. MINETA.

Mr. MONTGOMERY.

Mr. KASTENMEIER.

Mrs. SCHROEDER.

Mr. EVANS of Illinois.

Ms. OAKAR.

Mr. TRAFICANT.

Mr. MORRISON of Connecticut in two instances.

Mr. MATSUI.

Mr. LEVINE of California in two instances.

Mr. HUBBARD.

Mr. EDGAR in two instances.

Mrs. BOXER.

Mr. O'NEILL.

Mrs. BURTON of California.

Mr. LELAND.

Mr. PEASE.

Mr. RANGEL.

Mr. KOLTER in two instances.

Mr. WOLPE.

Mr. PANETTA.

Mrs. KENNELLY.

Mr. VENTO.

Mr. FEIGHAN.

Mr. LEHMAN of California.

Mr. LEHMAN of Florida.

Mr. STARK.

Mr. DIXON.

Mr. MURTHA.

Mr. WISE.

Mr. WHEAT.

Mr. MANTON.

Mrs. COLLINS in two instances.

Mr. DYSON in two instances.

Mr. BONKER.

Mr. FRANK.

Mr. BORSKI.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 334. An act for the relief of Bobby Lochan; to the Committee on the Judiciary.

S. 521. An act for the relief of Suzy Huf Hui Chang and Lee Lo Lin and Lee Juo Jui; to the Committee on the Judiciary.

S. 567. An act to convey Forest Service land to Flagstaff, AZ; to the Committee on Interior and Insular Affairs.

S. 767. An act to direct the Secretary of the Interior to permit access across certain Federal lands in the State of Arkansas, and for other purposes; to the Committee on Interior and Insular Affairs.

S. 977. An act to establish the Hennepin Canal National Heritage Corridor in the State of Illinois, and for other purposes; to the Committee on Interior and Insular Affairs.

S. 1026. An act to direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program; to the Committees on Interior and Insular Affairs and Science and Technology.

S. 1076. An act for the relief of Denise Glenn; to the Committee on the Judiciary.

S. 1212. An act for the relief of Olga Sellares Barney and her children Christian Sellares Barney, Kevin Sellares Barney, and Charles Sellares Barney; to the Committee on the Judiciary.

S. 1374. An act to establish the Blackstone River Valley National Heritage Corridor in

Massachusetts and Rhode Island; to the Committee on Interior and Insular Affairs.

S. 1534. An act for the relief of Masayoshi Goda, his wife Nobuko Goda, and their children Maki Goda and Eri Goda; to the Committee on the Judiciary.

S. 2004. An act to require the President to submit to the Congress an annual report on the management of the executive branch of the Government; to the Committee on Government Operations.

S. 2216. An act to designate September 17, 1987, the bicentennial of the signing of the Constitution of the United States, as "Constitution Day", and to make such day a legal public holiday; to the Committee on Post Office and Civil Service.

S. 2536. An act to provide for block grants to States to pay the costs of immunosuppressive drugs for organ transplant patients; to the Committee on Energy and Commerce.

S. 2723. An act to amend title 39 of the United States Code to restore limited circulation second-class rates of postage for copies of a publication mailed to counties adjacent to the county of publication, and for other purposes; to the Committee on Post Office and Civil Service.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 2005. An act to extend and amend the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and for other purposes;

H.R. 3526. An act to provide for the settlement of certain claims respecting the San Carlos Apache Tribe of Arizona;

H.R. 4021. An act to extend and improve the Rehabilitation Act of 1973;

H.R. 4952. An act to amend title 18, United States Code, with respect to the interception of certain communications, other forms of surveillance, and for other purposes;

H.J. Res. 678. Joint Resolution to designate October 1986 as Crack/Cocaine Awareness Month"; and

H.J. Res. 750. Joint Resolution making further continuing appropriations for fiscal year 1987, and for other purposes.

BILLS AND JOINT RESOLUTIONS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on the following days present to the President, for his approval, bills and joint resolutions of the House of the following title:

On October 8, 1986:

H.J. Res. 750. Joint resolution making further continuing appropriations for fiscal year 1987, and for other purposes;

H.J. Res. 555. Joint resolution to designate the week beginning November 24, 1986, as "National Family Caregivers Week";

H.J. Res. 671. Joint resolution designating 1987 as the "Year of the Reader";

H.J. Res. 741. Joint resolution to designate March 1987, as "Developmental Disabilities Awareness Month";

H.R. 5166. An act to designate certain lands in the Cherokee National Forest in the State of Tennessee as wilderness areas, and for other purposes;

H.J. Res. 748. Joint resolution making further continuing appropriations for fiscal year 1987, and for other purposes;

H.J. Res. 749. Joint resolution waiving the printing on parchment of certain enrolled bills and joint resolutions during the remainder of the second session of the 99th Congress;

H.R. 5362. An act to extend the authority of the Supreme Court Police to provide protective services for Justices and Court personnel;

H.R. 5548. An act to amend the Export-Import Bank Act of 1945;

H.R. 3773. An act to amend the Stevenson-Wydler Technology Innovation Act of 1980 to promote technology transfer by authorizing Government-operated laboratories to enter into cooperative research agreements and by establishing a Federal Laboratory Consortium for Technology Transfer within the National Bureau of Standards, and for other purposes;

H.R. 4718. An act to amend title 18, United States Code, to provide additional penalties for fraud and related activities in connection with access devices and computers, and for other purposes; and

H.J. Res. 635. Joint resolution to designate the school year of September 1986 through May 1987 as "National Year of the Teacher" and January 28, 1987, as "National Teacher Appreciation Day."

On October 9, 1986:

H.R. 2005. An act to extend and amend the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and for other purposes.

ADJOURNMENT

Mr. LUNDINE. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 4 minutes a.m.) the House adjourned until today, Friday, October 10, 1986, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4324. A letter from the Assistant Secretary of Defense (Comptroller), transmitting a listing of contract award dates for the period November 1, 1986 to December 31, 1986, pursuant to 10 U.S.C. 139(b); to the Committee on Armed Services.

4325. A letter from the Assistant Secretary of the Interior, transmitting a draft of proposed legislation to amend the Public Law 99-396 exception to the Balanced Budget and Emergency Deficit Control Act of 1985; and for other purposes; jointly, to the Committees on Interior and Insular Affairs and Government Operations.

4326. A letter from the Secretary of Commerce and the Attorney General of the United States, transmitting a draft of proposed legislation to create criminal penalties for the use for private gain of sensitive economic indicators generated by the Department of Commerce and to authorize the Secretary of Commerce to promulgate regulations deemed necessary to protect such sensitive information prior to public release; jointly, to the Committees on the Judiciary and Energy and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BROOKS: Committee on Government Operations. Report on Consultative Examinations Investigation (Rept. 99-981). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. Report on Homeless Families: A Neglected Crisis (Rept. 99-982). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. Report on passenger security at Dulles International Airport: FAA oversight (Rept. 99-983). Referred to the Committee of the Whole House on the State of the Union.

Mr. JONES of North Carolina: Committee on Merchant Marine and Fisheries. H.R. 4046. A bill to set aside certain surplus vessels for use to provide health and other humanitarian services in developing countries, and for other purposes; with amendments (Rept. 99-984). Referred to the Committee of the Whole House on the State of the Union.

Mr. BROOKS: Committee on Government Operations. Report on training of workers involved in the highway transport of hazardous materials: DOT Overnight (Rept. 99-985). Referred to the Committee of the Whole House on the State of the Union.

Mr. MOAKLEY: Committee on Rules. H. Res. 583. Resolution providing for the consideration of House Joint Resolution 751, a joint resolution making further continuing appropriations for the fiscal year ending Sept. 30, 1987, and for other purposes; (Rept. 99-986). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. ROSTENKOWSKI:

H.R. 5679. A bill to extend the exclusion from Federal unemployment tax of wages paid to certain alien farmworkers; to the Committee on Ways and Means.

By Mr. ROYBAL (for himself, Mr. BIAGGI, Mr. GREEN, Mrs. BYRON, Mr. ROBINSON, Mr. CROCKETT, Mr. SPENCE, Mr. WALDON, Mr. HAYES, Mr. ATKINS, Mr. ACKERMAN, Ms. KAPTUR, Mr. MITCHELL, Mr. MARTINEZ, Mr. MRAZEK, Mr. WEBER, Mr. OWENS, Mr. HOWARD, Mr. HORTON, Mr. EDWARDS of California, Mr. COELHO, and Ms. MIKULSKI):

H.R. 5680. A bill to establish a quality assurance system for homecare services provided under Medicare and Medicaid Programs, the Social Services Block Grant Program, and the Older Americans Act of 1965; jointly, to the Committees on Ways and

Means, Energy and Commerce, and Education and Labor.

By Mr. GILMAN:

H.R. 5681. A bill to establish a commission on back injuries; to the Committee on Education and Labor.

By Mr. DYSON (for himself, Mr. BARNES, Mrs. BENTLEY, Mrs. BYRON, Mrs. HOLT, Mr. HOYER, Ms. MIKULSKI, and Mr. MITCHELL):

H.R. 5682. A bill to authorize the Secretary of the Navy to make a certain conveyance of real property; to the Committee on Armed Services.

By Mr. BROOMFIELD (for himself, Mr. FASCELL, Mr. YATRON, Mr. SOLOMON, Mr. HERTEL of Michigan, Mr. COBEY, Mr. COBLE, Mr. DANNEMEYER, and Mr. DIOGUARDI):

H.R. 5683. A bill to deny Most-Favored-Nation treatment to imports from Yugoslavia; to the Committee on Ways and Means.

By Mr. COELHO (for himself, Mr. PANETTA, Mr. ZSCHAU, Mr. LEHMAN of California, Mr. FAZIO, Mr. LAGOMARSINO, Mr. EDWARDS of California, Mr. HAWKINS, and Mr. MATSUI):

H.R. 5684. A bill to strengthen the enforcement of plant and animal quarantine laws by prohibiting the use of any class of first-class mail for the transport of plant materials unless the person who submits the mail agrees to allow agricultural inspection of its contents in order to prevent the introduction of destructive plant and animal diseases and pests and noxious weeds; jointly, to the Committees on Agriculture, and Post Office and Civil Service.

By Ms. OAKAR:

H.R. 5685. A bill to amend title 5, United States Code, to provide that members of the U.S. Park Police and the U.S. Secret Service Uniformed Division shall, for purposes of premium pay, be treated in the same manner as other employees of the Federal Government; to the Committee on Post Office and Civil Service.

By Mr. ROSTENKOWSKI (for himself, Mr. GIBBONS, Mr. DUNCAN, Mr. JACOBS, Mr. FORD of Tennessee, Mr. JENKINS, Mr. GEPHARDT, Mr. DOWNEY of New York, Mr. GUARINI, Mr. RUSSO, Mr. PEASE, Mr. MATSUI, Mr. ANTHONY, Mr. FLIPPO, Mr. DORGAN of North Dakota, Mrs. KENNELLY, Mr. VANDER JAGT, Mr. FRENZEL, Mr. SCHULZE, Mr. GRADISON, Mr. MOORE, Mr. CAMPBELL, and Mr. THOMAS of California):

H.R. 5686. A bill relating to certain tariff and customs matters; to the Committee on Ways and Means.

By Mr. SEIBERLING:

H.R. 5687. A bill to amend title 11 of the United States Code to give priority to certain unsecured claims of retired former employees of the debtor; to the Committee on the Judiciary.

H. Res. 582. Resolution designating room H-324 of the Capitol as the "Thomas P. O'Neill, Jr. Room"; considered and agreed to.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII, private bills and resolutions were introduced and severally referred as follows:

Mr. STRANG introduced a bill (H.R. 5689) for the relief of Dan V. Iuga; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 1916: Mr. HENDON and Mr. BARNARD.

H.R. 2015: Mr. MARTINEZ.

H.R. 2543: Mr. SYNAR, Mr. STAGGERS, Mr. SWINDALL, Mr. BARNES, Mr. HENDON, Mr. CLINGER, and Mr. DASCHLE.

H.R. 3968: Mr. KOSTMAYER and Mr. FRANK.

H.R. 4336: Mr. HUTTO.

H.R. 4439: Mr. KINDNESS and Mr. MACKAY.

H.R. 4482: Mr. SPENCE, Mr. CARPER, Mr. GEKAS, Mr. ST GERMAIN, and Mr. COUGHLIN.

H.R. 4523: Mr. FIELDS and Mr. FROST.

H.R. 4872: Mr. YATRON.

H.R. 4890: Mr. KANJORSKI.

H.R. 4922: Mr. BROWN of California.

H.R. 4934: Mr. LIVINGSTON.

H.R. 4972: Mr. SHUMWAY.

H.R. 5039: Mr. PASHAYAN.

H.R. 5189: Mr. MARLENEE.

H.R. 5235: Mr. TORRICELLI, Mr. HAYES, Mr. WEISS, and Mr. SEIBERLING.

H.R. 5291: Mr. SMITH of New Hampshire, Mr. KILDEE, and Mr. VENTO.

H.R. 5432: Mr. ATKINS and Mr. RUSSO.

H.R. 5497: Mr. BLILEY.

H.R. 5509: Ms. KAPTUR, Mr. CHANDLER, Mr. WEISS, Mr. KLECZKA, Mr. GARCIA, Mr. WISE, and Mr. HOWARD.

H.R. 5532: Mrs. BOXER.

H.R. 5538: Mr. TORRICELLI.

H.R. 5549: Mr. WILLIAMS.

H.R. 5587: Mr. DE LUGO, Ms. KAPTUR, Mr. ROSE, and Mr. SMITH of Florida.

H.R. 5596: Mr. WATKINS, Mr. WILSON, and Mr. SHUMWAY.

H.R. 5620: Mr. DUNCAN.

H.R. 5627: Mrs. SCHROEDER, Mr. OWENS, and Mr. DOWNEY of New York.

H.R. 5665: Mr. MAZZOLI and Mr. LUNGREN.

H.J. Res. 244: Mr. GARCIA and Mr. BOEHLERT.

H.J. Res. 410: Mr. VENTO.

H.J. Res. 417: Mr. DURBIN and Mr. DORNAN of California.

H.J. Res. 677: Mr. SIKORSKI, Mr. COUGHLIN, Mr. LUJAN, Ms. OAKAR, Mr. RICHARDSON, Mr. MARTINEZ, Mr. DIOGUARDI, Mr. STOKES, Mr. BARNES, Mr. DAVIS, Mr. AKAKA, Mr. LEVINE of California, Mr. NIELSON of Utah, and Mr. DWYER of New Jersey.

H.J. Res. 706: Mr. FROST, Mr. BONER of Tennessee, Mr. SMITH of New Hampshire, Mr. WALGREN, Mr. SHAW, and Mr. VENTO.

H.J. Res. 740: Mr. MILLER of California.

H. Con. Res. 393: Mr. PORTER, Mr. MCCOLLUM, Mrs. BOXER, and Mr. MRAZEK.

H. Con. Res. 396: Mr. ABERCROMBIE, Mr. SKELTON, Mr. FUQUA, Mr. EDWARDS of California, and Mr. JEFFORDS.

H. Con. Res. 403: Mr. GORDON, Mr. MCCOLLUM, Mr. TORRES, Mr. WORTLEY, Mr. LUNDINE, and Mr. LEHMAN of California.

EXTENSIONS OF REMARKS

FILM TO DOCUMENT THE 200 YEARS OF THE U.S. CONGRESS

HON. LINDY (MRS. HALE) BOGGS
OF LOUISIANA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mrs. BOGGS. Mr. Speaker, on September 11, 1986 the first major bicentennial project to commemorate the 200th anniversary of the U.S. Congress was announced. The project, a grant by the Ameritech Corp., will fund the production of a documentary film on the Congress as well as the publication of a companion volume. The film will be produced by the noted producer, Ken Burns of Florentine Films, in cooperation with WETA television.

Senators THURMOND and DOLE participated in the projects announcement, as did Representatives WRIGHT and MICHEL. Other participants included William Weiss, chairman of Ameritech, and Ward Chamberlain, president of WETA-TV.

The proceedings of that announcement follow:

Mr. THURMOND. Senator Dole, the distinguished and able majority leader of the Senate, Congressman Michel, the able and distinguished minority leader of the House, and other distinguished colleagues from the House and Senate, members of the press, and ladies and gentlemen.

It is a pleasure for me to be here today to participate in a very important announcement relating to the Bicentennial of the Congress. I am privileged to say that as Chairman of the Commission, established to coordinate the celebration of the bicentennial of the Senate.

The product that is to be unveiled today is exactly the kind that is needed to make the bicentennial of the House and Senate a resounding success.

I believe it is very exciting to see private enterprise, in this case, the fine Ameritech Corporation, recognizing the importance of this bicentennial and stepping forward to provide generous funding for a major project.

I look forward to learning more about the details of the project. I now want to yield to my charming and distinguished friend, the Chairman of the House Bicentennial Commission, Representative Lindy Boggs.

Mrs. BOGGS. Thank you very much, Senator Thurmond. I welcome you as the Chairman of the House Bicentenary Commission and as a member of the U.S. Commission on the Bicentennial of the Constitution.

I'm very proud to be here with you today on an occasion that I think is very important for both the Senate and the House of Representatives. What we are announcing today is the first major effort for the celebration of the 200th anniversary of the United States Congress that is funded by the private sector.

The House and the Senate Bicentenary Commissions were established to celebrate the various commemorations of the 200th anniversary of the U.S. Congress, and to give a clearer understanding of the national legislature, the first branch of government that was established by the framers of the Constitution.

The U.S. Congress is rich in history and in tradition. Through this project sponsored by Ameritech, millions of Americans and others throughout the world will be able to share in the experience of our history and our traditions. We are very grateful to the employees, management, and stockholders of Ameritech for making this project possible.

It's with a great deal of pleasure that I present to you, my colleague, the Minority Leader of the House of Representatives who is a valued member of the House Bicentenary Commission, Bob Michel will in turn, introduce Mr. Weiss and other officials of Ameritech, whom we salute today for this major contribution to the bicentennial celebration of the Congress of the United States. The gentleman from Illinois, Mr. Michel.

Mr. MICHEL. Thank you very much, Lindy Boggs and Senator Thurmond and Senator Dole, and I know my colleague, Jim Wright certainly wants to be here, currently held up on the debate on the drug bill over in the House of Representatives. But I'm extremely pleased to be here to join my colleagues and Ameritech in unveiling the plans for the documentary of the 200th anniversary of the Congress.

Ameritech happens to be an Illinois corporate entity, and so we're particularly proud that they have come forward to support this extremely worthwhile endeavor.

As for my part, this is my 30th year in the House of Representatives. Practically all my adult life has been spend in this institution, so I have a real great respect for it and what this anniversary means to all the American people.

Unfortunately, my only regret is that I have the dubious distinction now with Congressman Broomfield of Michigan, of, without announcing any plans to retire or leave this body, that already at this juncture, we hold the record for consecutive years as members of the minority party, and unfortunately, throughout the history of our country. That's a dubious distinction to have.

But nevertheless, it is a wonderful experience to be serving in this body.

Ameritech should be lauded certainly for its full-fledged support for such an ambitious undertaking. Attempting to capture 200 years of the Congress' impact on history as well as the personalities, and related anecdotes will certainly be a great challenge, even to Ken Burns and WETA.

It's a distinct pleasure then for me at this juncture in these proceedings to introduce to you the Chairman and Chief Executive Officer of Ameritech, Mr. Bill Weiss. [Applause.]

Mr. WEISS. Thank you very much, Representative Michel.

This is an exciting day for us. And I must tell you that I am very proud to represent the American family of companies, the five Bell companies serving Illinois, Indiana, Michigan, Ohio and Wisconsin, and our several other companies at a place where so much American history has been made, and to announce the manner in which Ameritech will honor the bicentennial of the Congress of the United States.

The Ameritech Foundation will provide a $750,000 grant to WETA-TV to produce a documentary film on the history of Congress. The film will air over the Public Broadcasting System in March of 1989. We hope on March 4, the day marking the 200th anniversary of the first seating of Congress.

But equally important, we think, is the value the film will have for secondary uses in school systems. In addition, the project calls for the publication of an illustrated companion book that we think will be an impressive collector's item.

One of the primary objectives of the Ameritech Foundation's philanthropic activities has been to make people more aware of the impact of public policy on our lives.

How public policy is shaped and how we in the private sector as private citizens or as representatives of a business enterprise can become involved in the public policy debate.

To encourage greater awareness, civic awareness in this country, we think it is hard to find a more appropriate starting point than the topic of Congress. Clearly, no other group has had more influence on public policy. Its many contributions should be understood and appreciated by all Americans.

And the best way to understand any institution is to examine its heritage.

In the case of Congress, that heritage is rich indeed, and worthy of being expressed by a chronicler for international statute, I'm proud to announce that the individual who will produce and direct the film more than fits this description. He is the award-winning documentary producer, Ken Burns, who is best known for film documentaries on subjects such as the Statue of Liberty, Huey Long, and the Shakers.

In these works, Ken has demonstrated a deep reverence for the past and an unmatched ability to bring history to life.

As the premier supplier of telecommunication services, Ameritech wants to be associated with the highest standards of excellence. Given the choice of Ken and his team, and the outstanding capabilities of Ward Chamberlin and WETA, we know our standards will be met.

Once again, on behalf of the Ameritech family of companies, let me express our pride in underwriting this very deserving project. We're confident that it will be a major contribution to the Congressional bicentennial celebration, and one of the highlights of the PBS schedule in 1989.

We also believe it will serve as an important educational resource for years to come, and that's very important to us.

Now it is my pleasure to introduce Ward Chamberlin, President of WETA, who will discuss the station's role in bringing this project to fruition. Ward? [Applause.]

Mr. CHAMBERLIN. Thank you Bill.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Distinguished members of the Senate and House, Bill Weiss. This is a happy occasion. We think that public television stands for quality programs on television and we know that Ameritech stands for quality products for this country. So that the partnership with Ameritech in bringing a very significant program to public television to be broadcast on stations across this country, is of enormous significance. And as Bill indicated earlier, it's not only significant for the initial broadcast on all of our public television stations across the country, but for its use over many years in schools and colleges in this country.

We've not been very good in this country about using television in the teaching process, but we're getting better at it. And the schools and colleges are getting better as the equipment that they have makes it easier to bring parts of programs, and not the whole hour or the whole half hour at the same time to their students. So it's particularly appropriate that this program which will have a long shelf life, is going to be with us in another year and a half.

Ameritech has already helped WETA very considerably in its local programming here and for that we are very grateful indeed.

Now, every television program really depends on who produces it, who is that individual, the team that he puts together, and we're, as Bill has said, we're tremendously fortunate to have a man who I think is one of the most creative and brilliant television producers in this country to produce this program for public television and for Ameritech, and so it's my pleasure and privilege to introduce Ken Burns. [Applause.]

Mr. BURNS. Thank you very much. I'm on the wrong side of the camera today, and I won't speak very long because I should get on to the business at hand, which is making our one-hour history of the Congress of the United States. This is a daunting, challenging task. Florentine Films is delighted to have this opportunity.

The Congress is the great engine of our democracy. We are standing in the house where it all happens and we are interested in this one hour not to tell everything that happened, not to get in every little argument and decision, but to really put our arm around what happened over the last 200 years, to lift up the dome and see who's inside it, from shoeshine men to senators and congressmen, characters, anecdotes.

I think our film will be lively and informative and I am deeply moved by the faith and the trust that Ameritech has placed in us to produce this film and grateful to the Congressional leadership for the assistance in getting this all started. [Applause.]

Mrs. BOGGS. We are most honored to have with us the majority leader of the Senate, and before he comes to the rostrum, I would like to acknowledge the presence of one of the really talented members of the House Bicentenary Commission, Phil Sharp. [Applause.]

Senator Dole, we are very honored to have you with us and would you please come and address us now.

Mr. DOLE. I'll just take a moment. I understand the House may be voting and the distinguished majority leader may want to do that, my good friend, Jim Wright.

I'm very pleased we're having this ceremony in this room. I was elected majority leader here, so this room has special signficiance. That was in November of 1984 and I had a seat on the back row where I could make a quick exit, in either event. But I'm very pleased to be here.

And I know that 1989 seems like a long way off, but I would guess, that as anyone would say then and would say now, one thing that is certain to remain constant is the critical role that Congress plays in the nation's day-to-day life and its future, and that's been stated by other members who have spoken.

I think the public is certainly aware of Congress. I guess when they take polls we get about a 15 out of a hundred, when they rate the Congress. When they rate individual members of Congress, it goes up to 50, 60, 70; and in Lindy and Jim and Bob's case, it goes up to a 95 or 100 percent approval rating.

But Mr. Burns will find all that out as he's digging around in the archives.

But I do believe that the film is a great opportunity for better understanding what Congress does. Now we have C-Span in the Senate, and they've had TV in the House for a number of years. I think there's a little better understanding as a result; but again, what has Congress done for the past 200 years, and how has Congress developed, and what will Congress do in the future, and how does it affect someone in—let's just pick out one of the Metropolitan areas, Russell, Kansas—for example.

Or maybe even Los Angeles or Bill's home in Chicago. Wherever it may be. And I do believe that that's certainly going to be a challenge and one that we're happy to participate in.

So I'm hopeful that what happens here today will be the beginning of more information being developed, not only for this generation, but the next generation. New members of Congress come and go, the world changes, the landscape changes, and I can't think of a more fitting tribute and a better way to start things off than with this gift by Ameritech. Of course, I know WETA will do a superb job, so I want to thank all the people who are here, all those participating, particularly Ameritech, for its foresight and its generosity. And I would challenge others in the private sector to take a look at what they might do in this bicentennial celebration.

There are literally hundreds and hundreds of opportunities for the American people—and for that matter people around the world—to have a better understanding of what happens in this place. And I mean by "in this place" in the nation's capitol.

So, Bill, we thank you very much.

Now, I'm going to introduce Jim Wright. He's a good friend of mine. We served together in the House. He is the majority leader of the House of Representatives, and I have some indication he's probably going to be the next Speaker of the House. [Applause.]

Mr. WRIGHT. What a wonderful thing it is that Ameritech undertakes to bring to the American public, and to those who in future years will have the privilege of seeing this documentary, the essence of what the Congress is all about.

It is, I am convinced, the most fascinatingly human institution on earth. It can rise to heights of sparkling statesmanship and it can sink of levels of crass mediocrity.

But in both postures, it's human and maybe the best description, Lindy, that I've ever heard of the Congress is one that was given by your late husband and my great friend, Hale Boggs, who when he was the majority leader, once said that the Congress is a collection of ordinary men and women, grappling with extraordinary problems.

Whatever it is, it has endured, and this system of ours has managed to work, imperfectly, but continuously, and surely better than any other system, for 200 years. I was startled, some few years back, when the prime minister of Ireland, addressing our Congress, said that he brought greetings from an old country and a new republic, to a new country, a young country, which was, he said, the oldest republic on earth. It startled me to have the sudden realization that in point of continuous operation that is exactly what we are. And I think the reason is because of the tripartite system of government we've had.

And I know that you have a great challenge to try to capture that and to distill the essence, the strengths and the weaknesses, the faults and the virtues, of the people who have strode through these chambers.

They distill and mirror the thoughts, strengths, weaknesses and virtues of the American nation. That's what we are, we're a kind of a mirror of the nation.

Today, in the House chamber, a joint session heard President Jose Sarna of the Republic of Brazil. He said we should keep in mind what Sir Denis William Brogan, the British political scientist, said: that at the time the Constitution was drafted—think about this—there still ruled a French monarchy, a Roman emperor, a Venetian republic, and a German republic, an autocracy in St. Petersbury, and caliph in Constantinople, a divinely invested emperor in Peking, and a Shogun in what was then a weak and little known Japan.

All the changes that have rushed across the scene of world affairs, the nations, empires that have risen and wained, strutted momentarily across the stage, have done so during the brief 200 years of time—the flicker of an eyelid in the view of history—that this Congress and this government have held together.

What a challenge you have. And we salute you all in undertaking it. And as members of this very human institution, we're gratified that you would want to say something about the Congress. Thank you.

Mrs. BOGGS. Here with us today, John Rhodes of Arizona. [Applause.]

Mr. RHODES. Well, thank you, Lindy. Since I left these hallowed halls, I have gotten in the habit of seeing very little of the Congress, a habit which I probably should have practiced earlier in my career.

But nevertheless, I am proud and pleased to be here with my former colleagues and those who are gathered to recall the fact that coming up soon is a very important anniversary.

The structure of the legislative branch which was founded by the Constitution is quite unique in many ways. It is the product of a lot of compromise, a lot of fears, because our forefathers did have the fear that some of the mistakes that had plagued England might plague us also in the future.

But nevertheless, they wrought well and possibly even better than they thought because when you compromise, I think that afterward you always have second thoughts and I'm sure that they did about many things.

The Congress is far from a perfect institution. But it just happens to be the best one in the world. And it certainly is not only worth preserving but it's worth commemorating, and I'm pleased to have my part, with my good friend Lindy and all of the other members of this all august body, present and past, in supporting the commemoration of a great institution. Thank you. [Applause.]

POLL REVEALS PUBLIC SUPPORT FOR PARENTAL LEAVE

HON. WILLIAM (BILL) CLAY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. CLAY. Mr. Speaker, over the past several months, Members of Congress have begun to consider the need for a national policy providing minimum job protection when workers need to take leave for pressing family responsibilities and medical emergencies. While there has been intensive lobbying on this issue, I think it is important to point out a voice not always heard here in the Capitol—that of the voting public. They don't always lobby and they don't have political action committees, but they do vote. Before we act on behalf of working Americans, we have an obligation to seek out and listen to the views of average Americans, the people too busy trying to balance jobs and families to take time to lobby for Federal legislation.

With that in mind, I commend to the attention of my colleagues, an article which appeared in the July 31, 1986, Wall Street Journal. The Journal conducted a national poll, in conjunction with NBC News, on the issue of parental leave. Fifty-two percent of the respondents agreed that "companies should be required by law to let men and women take up to 18 weeks of unpaid leave from their work after the birth or adoption of their child." Seventy-two percent agreed that such leave should be available to parents to care for seriously ill children. The article notes that the issue of job protected family leave is supported by a profamily coalition, including the U.S. Catholic Conference and the National Organization of Women, as well as by a majority of the American public.

The article follows:

[From the Wall Street Journal, July 31, 1986]

BILL REQUIRING FIRMS TO PROVIDE PARENTAL LEAVES GAINS SUPPORT AS MORE WOMEN JOIN WORK FORCE

(By Cathy Trost)

WASHINGTON.—The U.S. Catholic Conference and the National Organization for Women have long been bitter foes over abortion issues. But the politics of work and families has drawn the two groups into an unusual alliance.

They're supporting—in concert with other women's and labor groups—legislation that would require employers to give eligible workers as many as 18 weeks of unpaid leave after the birth or adoption of a child and a guarantee they can return to the same or similar job.

"Some of the women's groups seemed a little surprised at the beginning to see us," says Sharon Daly, a staff specialist for the conference. But "we think it's a pro-family issue," she says. "It's a natural continuation of protecting unborn children to also protect newborn children."

The legislation accents a growing concern nationally about the effect on families of the revolutionary surge of women into the work force. By casting the bill as important not only to women but to families, too—and highlighting the demographics of the new workplace—supporters have cut across traditional alliances.

NATIONAL POLL RESULTS

A national poll of 1,600 adults conducted July 14-15 by The Wall Street Journal and NBC News showed that 52% of Americans think companies should be required by law to let men and women take as many as 18 weeks of unpaid leave from their work after the birth or adoption of a child. More decisively, 72% think that such leave should be available to parents to care for seriously ill children.

In Congress, supporters link the legislation to the needs of the new work force, which is nearly 44% female. "In this day and age, we're not saying that you've got to pay them but you've got to give them time off without prejudice," says Rep. Stewart McKinney, a Connecticut Republican who was one of the original co-sponsors.

Although supporters hope to get a House vote this session, success is by no means assured, and the legislation seems certain to face compromises on the floor. Similar legislation has been introduced in the Senate, but hearings haven't yet been scheduled.

Critics, led by the U.S. Chamber of Commerce and other business and conservative groups, blast the bill as the first step toward a national system of mandatory paid leave benefits and unprecedented federal involvement in employee relations. By mandating benefits, the bill would destroy business flexibility, hobble small concerns and foster discrimination against women, critics charge.

Leave policies are "excellent benefits," but the point is that "Congress shouldn't dictate them," says Virginia Lamp, labor relations attorney for the chamber. Dick Dickson, vice president of personnel for nonunion Russell Corp., an Alabama-based manufacturer where women constitute nearly 70% of its 9,000 workers, says a directive from Congress "is simply wrong"; the specter of mandatory paid leave "frightens the living fool out of everybody." And conservative Phyllis Schlafly's Eagle Forum calls the legislation "unfair and discriminatory."

The Reagan administration opposes the bill. "In our view, there really is a question about the logic of having one mandated approach on the part of the federal government for all companies," says Labor Secretary William Brock. But he acknowledges that the general debate will continue because "the feminization of the work force is real" and the country hasn't "really effectively addressed the effect on the American family."

Counters Rep. Patricia Schroeder, the liberal Colorado Democrat who has been the force behind development of the bill: The administration "has been talking family, family, family and doing nothing about it."

The legislation, which cleared the Democratic-led House Labor Committee in a 22-10 vote in June, requires employers to grant parents as much as 18 weeks of unpaid leave after the birth or adoption of a child and also for the serious illness of a dependent child or parent. The law also mandates as much as 26 weeks of unpaid medical leave. It would require in all cases that employers restore the same or an equivalent job with continued benefits and seniority. The only exemptions granted are to companies with fewer than 15 employees.

THE TIME IS NOW

But the bill was criticized by some committee Republicans as too far-reaching. Though Rep. Marge Roukema (R., N.J.) believes the "time is now at hand to develop a pro-working family leave policy," and though it was her idea to add ill parents to the bill, she supports her own substitute, which reduces the leave period, increases the number of exempted employers and makes other accommodations to business. Some fear that such efforts to revise the bill will disable it.

The reality of family and workplace arrangements in America has changed dramatically in recent years. A recent Census Bureau report showed that nearly half the nation's new mothers hold jobs or are looking for jobs within a year of the birth of their child. More than 48% of all new mothers aged 18 to 41 are in the work force, up from 31% a decade ago. And women are continuing to pour into the work force. The Labor Department says they will account for the majority of labor-force growth between now and 1995. By then, more than 80% of women in their primary child-bearing years are expected to be working.

Federal law requires that employers treat pregnancy just as they do any other short-term health disability. Most big companies offer some kind of leave. A survey by Catalyst, a New York research group, showed 95% of 384 large companies offer paid disability leave of five to eight weeks for pregnancy, 52% gave longer unpaid leaves to women after that and 37% offer them to men. Among those pace-setters with comprehensive policies are Merck & Co., American Telephone & Telegraph Co., Levi Strauss & Co., and Corning Glass Works.

Yet only about 40% of working women have maternity leaves that are at least partially paid for a minimum six to eight weeks and job-guaranteed, according to figures compiled by Sheila Kamerman of Columbia University. Policies are especially haphazard in smaller concerns, where most women workers are concentrated. Supporters argue that the U.S. stands alone among industrialized nations without a comprehensive policy on parental leave and that the pending legislation would provide a minimum labor standard. The best selling point to Congress on the current legislation "is how modest it is," says Dana Friedman of the Conference Board, a New York business research group.

Experts say such policies are needed to allow parents and children to develop secure attachments and so strengthen families. Dr. T. Berry Brazelton, a noted pediatrician, has films of parents and babies responding rhythmically to each other during the first months of life. Without that time, he says, "they never learn enough about each other to feel 'that's my mommy' and 'that's my baby' and be willing to fight for that attachment."

H.R. 5546, VACCINE COMPENSATION; INSURING A STABLE SUPPLY OF VACCINES

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. WALGREN. Mr. Speaker, before the 99th Congress completes its business, I hope we are able to act on the National Childhood Vaccine Injury Act of 1986—H.R. 5546—a bill I cosponsored that addresses the dual prob-

lem of a vaccine shortage and compensation for people injured.

The benefits of vaccines have been enormous. Smallpox has been eradicated; vaccines for it are no longer required. Incidents and death rates of other diseases, such as whooping cough, polio, diphtheria, and measles have dropped dramatically.

Not only do we save lives and prevent disease by vaccination, we avoid expensive treatment. Saving dollars is important, but what is far more important is saving human lives—unquestionably and inarguably. With the virtual eradication of many diseases in this country, it is easy to forget that diseases like whooping cough and polio kill and cripple.

Nevertheless, vaccines are not problem-free. Millions of children are immunized yearly and of these, a small percentage have adverse reactions, of which the most serious are retardation and death. Injuries are rare, but they do occur, and the inadequacy of the current system to deal with these has contributed to the current vaccine crisis.

Currently, parents of children who have been seriously affected by vaccines can bring suits against drug manufacturers, but cases tend to drag on for a long time during which time parents bear the burden of heavy medical costs. Also, the results are uncertain.

Some people believe that "a litigious atmosphere" has made insurance companies increasingly reluctant to provide liability coverage for vaccine producers. The inability of manufacturers to obtain reasonable-priced coverage has caused some to raise prices. Between 1985 and 1986, the Center for Disease Control faced a 94-percent increase in oral polio vaccines. Immunization for measles, mumps, and rubella have risen from $2.71 to $8.47 since 1980.

Some companies have dropped out of the market entirely, leaving in the case of one vaccine, only one manufacturer to meet the needs of the entire Nation. Clearly, for something that we must rely on as a staple in our preventive health system, we should not have such an uncertain supply or exorbitant prices.

H.R. 5546 is an admirable and carefully crafted solution to the problem. Under this bill, parties seeking compensation would file a petition with a special master of the U.S. district court and would, if the injury is recognized under law, automatically receive compensation. Petitioners who are dissatisfied with their award have the option of rejecting it and filing a civil action suit, in which they must prove negligence or failure on the part of the manufacturer to comply with applicable standards. The bill thus provides a no-fault compensation system that is fair and expedient, without denying the injured access to traditional tort law. Another important provision of H.R. 5546 establishes the National Vaccine Program to aid the development, production, and distribution of new, even safer vaccines.

In searching for a solution that is fair to all, we must not let our primary concern—the health of our children—be obscured. We must ensure that no child suffers needlessly from disease. The American Public Health Association, the American Nurses Association, and the American Academy of Pediatrics agree that this proposal accomplishes that goal. The injured can be compensated, and society is assured of the continued availability of vaccines. The high quality of American health care in general, and of vaccines in particular, is maintained, and most important of all, the health of America's children is well protected.

VACCINE SHORTAGE

The compensation bill is a second and necessary complement to H.R. 5546, which the House has already approved, with my support. H.R. 5546 would continue the current program that helps States purchase vaccines. It also requires the Secretary of the Department of Health and Human Services to stockpile vaccines to help prevent potential shortages.

We rejected the Reagan administration's proposed reductions in the vaccine budget. The cuts could have meant, for example, that only half the oral polio vaccines would be available next year. Fifty percent of the Nation's children are immunized because of this public health program.

Vaccinating children is hardly a place to cut when setting priorities for the Federal budget. It cannot be put better than it was by Dr. Louis Cooper of the American Academy of Pediatrics: "The cost of care for just 50 rubella damaged children per year exceeds the Federal immunization budget."

A TRIBUTE TO ELLIOTT AND ADRIENNE HORWITCH ON THEIR 20TH WEDDING ANNIVERSARY

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. LEVINE of California. Mr. Speaker, it is my pleasure to rise today in honor of Mr. and Mrs. Elliott Horwitch who will celebrate the joyous occasion of their 20th wedding anniversary on November 20.

Mr. and Mrs. Horwitch, who met in New York City and now reside in Beverly Hills and Malibu, CA, are active members of the community. Elliott Horwitch is on the board of directors for the American Cancer Society. Mr. and Mrs. Horwitch are founders of the Museum of Contemporary Art and Adrienne Horwitch is very active in the Ceders/Sinai Women's Guild and the Costume Council for the Los Angeles County Museum.

Mr. and Mrs. Horwitch have been blessed with two lovely children, a daughter CeCe, born in 1968, and a son Jason, born in 1969.

Mr. Speaker, I ask my colleagues in the House of Representatives to join me in sending anniversary greetings to this special couple and that they wish them many more years together, rich in happiness and health.

KGO ON AIR SAFETY

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. EDWARDS of California. Mr. Speaker, air safety is of great concern to many Americans. As a reflection of this interest, the bay area's KGO Radio recently aired a three-part series of editorials on this topic. I am submitting these views, as they were presented by Michael Luckoff of KGO, to you and to my other distinguished colleagues:

LIFE NOT DEATH IN THE SKY

It's time for hard facts: the Federal Government is dragging its feet in the quest for more safety in the skies. It is hoarding most of a ten billion dollar fund set aside years ago for that purpose. It is neglecting a decade old project to perfect an air-collision avoidance system recomomended by Congress in the 70's that should be in place by now to avert tragedies like the one near Los Angeles.

Such failures are an urgent concern for California. We are aviation's most important state. Our skies are the busiest in the Nation, with ten million take-offs and landings a year at our 200 airports, seven of which, in the Bay Area and L. A. Basin, handle much of the heaviest congested traffic in the world.

Against such odds, the Federal Aviation Administration is seriously undermanned and under-funded. It's time for our State Government to step into this mess to help bring ironclad safeguards to both commercial and private planes. And that's exactly what it's about to do, as we'll detail in our next editorial.

THE ROAD AHEAD FOR AIR SAFETY

California's Legislature, alarmed over the Federal Government's failure to improve air safety in the wake of the worst year in airline history, has just made two important moves on its own despite Federal jurisdiction over the skies.

Last week Sacramento established the first State Aviation Commission in the country, to probe the faults and then pressure Washington to "Get off the Dime". Then it called on Congress to require better safety equipment on California's 42,000 private planes.

KGO Radio supports these actions, since our state has the most centers of dangerous sky congestion of any state, with recorded and non-reported collision near misses occurring continuously, at a rate that has doubled in five years!

But total solution can't be achieved unless and until the Federal Administration restores the power to modernize the air traffic control system with monies tied up in the multi-billion dollar "Aviation Trust Fund" which you and I help pay for with taxes on every airline ticket we buy.

The story behind that roadblock reaches straight into the White House, as we'll show in our next editorial.

THE WHITE HOUSE BARRIER TO AIR SAFETY

Washington in 1982 launched a ten year, $11.9 Billion "Airways Space Plan" to update all aspects of aviation safety, both commercial and private, by 1991. As of today, it is perilously behind schedule.

The program's heart is the "Aviation Trust Fund". It's created by every citizen who flies, with taxes they pay on airline tickets, international flight departures, and the gasoline that flies our quarter-million private aircrafts.

The OMB, Office of Management and Budget, within the White House, has tied up the bulk of these assets in a bookkeeping sham. It preserves them on paper, to make the huge National Deficit look smaller than it actually is! This is hazardous trickery.

The result? The fund cannot be freely spent where needed for safety projects, like the stalled plan to give jet-liners a "Collision Avoidance System" known as "T-Cas-3" which top aviation experts say could stop 85% of mid-air crashes.

San Jose Congressman Norman Mineta tried months ago to break this blockade by taking the Trust Fund out of the Presidential Budget process. He failed by 7 votes. He tells KGO Radio he will try it again:

"I will introduce similar legislation to that which was narrowly defeated to take the aviation trust fund out of the budget process. I will do that at the beginning of the new Congress in January 1987."

If you ever wrote your representative in Congress, this is the time! Tell them to restore the Aviation Trust Fund to its original purpose.

RETIREMENT OF SPEAKER OF THE HOUSE OF REPRESENTATIVES THOMAS "TIP" O'NEILL

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. GARCIA. Mr. Speaker, I find it very difficult to put into words the great affinity and respect that I have for our Speaker, THOMAS "TIP" O'NEILL. As far as I am concerned, Speaker O'NEILL will go down in history as one of our greatest Speakers in the history of our great Republic. During his tenure as Speaker, he has been able to keep this ever-changing august body on a steady course in governing our Nation.

The following article from the October 8, 1986, Wall Street Journal chronicles the very distingished career of our great Speaker:

[From the Wall Street Journal, Oct. 8, 1986]

TIP O'NEILL WILL LEAVE THE HOUSE A SPEAKERSHIP THAT IS RESHAPED BY HISTORY AND HIS PERSONALITY

(By David Rogers)

WASHINGTON.—He is the only House speaker most of Congress has ever known, and long after the last sound of his gavel, Thomas P. O'Neill's imprint will remain on the chamber in which he has served for a third of a century.

Just as he once lived in the shadow of Sam Rayburn, the 73-year-old Mr. O'Neill now casts his own forward. When Congress adjourns this month and he retires, Mr. O'Neill will leave a speakership reshaped by his personality and the historic circumstances under which he served. "He is the first truly modern speaker," says Majority Whip Thomas Foley. "Future speakerships will be judged against his record of the last 10 years."

Television gave "Tip" O'Neill—with his bulky figure and thatched white hair—unprecedented visibility. Satirized as a caricature of the past, he is a leader who has been instrumental in House changes that broke the grip of powerful chairmen and instituted a landmark ethics code in the 1970s. An early critic of the Vietnam War, he was able to bridge the cultural and generational divide among House Democrats, and in the aftermath of the war and Watergate, he healed for many their own breach with government.

"O'Neill will be remembered more kindly than people would have thought in 1981," says Republican political analyst Kevin Phillips. Then, a newly elected Ronald Reagan steamrollered House Democrats, winning budget and tax cuts and waging a fight to "topple Tip."

Fiercely partisan, Mr. O'Neill would leave the safety of his high backed chair and enter the fray on the House floor, "He came off the rostrum too much for me," says Minority Leader Robert Michel, and Mr. O'Neill was the first speaker in scores of Congresses to be officially reprimanded in debate.

TENURE WAS UNIQUE

More than any time in modern politics, the unique role of the speakership was evident in its full power, with Mr. O'Neill as the leader of the sole branch of government controlled by his party and the nation's highest-ranking Democrat. The past six years under Ronald Reagan saw the speaker drawn into deeply personalized battles that brought him both humiliation and triumph.

"I underestimated the president, there's no doubt about it," Mr. O'Neill says. The White House, in turn, misjudged the speaker's durability. He commands strong personal ratings in national polls. On issues, Congress has moved back toward his priorities, voting to increase education and health funding while trimming the Pentagon.

"He's like a Boston clipper," says Robert Peabody, an expert on congressional leaders, "He weathers well."

For Republicans, Mr. O'Neill was an eye-catching symbol of the excesses of government, a listless hulk, the fat man run out of gas. For Democrats, he proved to be the last bulkhead against the most serious challenge to liberalism since the advent of the New Deal.

UNWILLING TO PULL THE LEVERS

"He held his finger in the dike and protected a whole lot of values that the country is glad now he protected," says Rep. David Obey (D., Wis.). "He never forgets the whole purpose of policy is to have a positive impact on human beings. That's what he shames people into being mindful of time and time again."

Rules changes adopted in the mid-1970s gave Mr. O'Neill—who succeeded Carl Albert as speaker in 1977—more institutional power than any speaker since the turn of the century, but he has been reluctant to use it in a party caucus fragmented by ideological and generational differences. Critics argue that Speaker O'Neill allowed friendships and caution to diminish his impact.

"He was unwilling to pull the levers," says one observer. The speaker's power to shape policy through committee assignments was diluted and sometimes ignored under Mr. O'Neill who chose to rely more on his personal—than institutional—authority. "He had one flaw, he thought he could persuade anyone," says Richard Bolling, a friend and former House Rules Committee chairman.

"It's backroom, smoke-filled-room politics," Mr. O'Neill said of the maneuvering inside the Democrats' Steering and Policy Committee. But his frustration may have been better expressed in a 1981 caucus. When some Democrats complained that the speaker hadn't lobbied them to support the Democratic budget position, he answered: "Sam never had to ask for me to know what to do."

Sam Rayburn, the son of a Confederate cavalryman, was Mr. O'Neill's first Democratic leader, and the contrast between the two illustrates much about the changing speakership. The Texan, with his great bald head, powerful torso, and blunt voice, was a man who remained in the shadows of the House. "Mr. Sam's" control over the chamber is exaggerated with his legend, but his image is still one of power—constant, austere, remote.

If Mr. Rayburn seemed above the House, Mr. O'Neill is of the House. Northern, ethnic, urban, he came as a "Tuesday through Thursday" man whose short week and motto—"All politics is local"—reflected the parochialism of the place. Mr. O'Neill was never a chairman or dominant force on the Rules Committee where he served, yet the same qualities made him particularly attuned to the dynamics of the institution often called the "peoples" chamber.

"Say yes to a change", he asked the House in a final appeal for the sweeping tax-overhaul bill last month, and he had chosen the same theme for his career. He broke with Lyndon Johnson as early as 1967 on Vietnam. He played a critical role behind House procedural "reforms" that broke the power of committee chairmen. As speaker, he brought television into the chamber and an ethics code that sharply restricted outside earnings by members.

For Mr. Rayburn, Republicans were oppressors from outside, the party of Reconstruction, of railroads, and tariffs. Mr. O'Neill was the grandson of Irish immigrants, and his partisanship grows from having been on the outside himself; politics was a means to break down the barriers of a Yankee establishment. At 37, he was chosen the first Democratic speaker of the Massachusetts Legislature, and half a lifetime later the memory of then-GOP legislator Christian Herter locking out the Democrats during a statehouse vote remains fundamental to his outlook.

He can be a pessimist—a crepe-hanger—about his own election-night fortunes, a wary man whose favorite movies include John Ford's "The Informer," a Dublin story of betrayal. In Harvard yard, he jokes of days when he cut the lawn there and seems wary of the warm reception after years of snobbishness. In conversations, "I knew his father" is his own clannish sign of acceptance, and at a reception in Brighton—the Boston ward that tipped the 1952 election in his favor—there is emotion in his voice when he hugs two elderly women. "I love to be with my own," he says.

Mr. O'Neill's father was an established figure in Cambridge government; his sister the first woman principal in the city's public schools; his brother a Harvard-educted lawyer. And behind the gregarious Tip O'Neill's image of the affable Irishman is a mind that is competitive.

RARELY SERVED UNDER HIS OWN

"He's not St. Nick, he's tough," says a close observer, and fellow lawmakers have felt his bluntness. "Jamie," he warned veteran House Appropriations Committee Chairman Jamie Whitten of Mississippi in a recent private meeting, "You're standing out like a sore thumb and nobody agrees with you."

As Massachusetts speaker, Tip O'Neill served under a strong Democratic governor, Paul Dever. Washington never gave him the same opportunity. Of his 16 years in the House leadership, only four were under a Democratic administration and those were unhappily with Jimmy Carter. The two men developed a respect for one another, but even when he could play a crucial role in promoting the Georgia Democrat's energy

program, Mr. O'Neill saw it largely undone by fellow Democrats in the Senate.

When he speaks of favorite legislation—the GI bill or Medicare—it is from another period entirely. While hungering for a strong executive, his leadership role as a legislator has inevitably been a defensive or negative one. He sought Richard Nixon's impeachment; he battled with his friend Gerald Ford. "Nothing is fun around here anymore," he said after the 1980 elections, and while the Democrats regained a working majority in the House in 1982, Mr. Reagan more often has controlled the agenda.

It has been easier for the House Democrats to say no than to accomplish their own initiatives. Until this summer, for example, the leadership blocked U.S. arms shipments to Nicaraguan guerrillas. In the same period, the House Democrats failed to advance their own proposals on new taxes in the face of huge deficits, but when the president was prepared to move, they put their stamp on historic tax overhaul.

Even as he challenged Mr. Reagan in a war of words, the speaker would satirize himself. "Statement by Speaker Thomas P. O'Neill," he would read preceding his daily news conferences. "I've been in transition all my life," he says of his increased visibility. "I've always had a foot in the bucket ahead of me."

"Timing was everything," says Leo Diehl, a longtime aide looking back and now trying to explain the speaker's decision to retire. "If anyone knew about timing, he does, and he knew it was his time."

SUFFERING CHILDREN IN WAR-TORN LEBANON

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FEIGHAN. Mr. Speaker, greater Clevelanders concerned about suffering children in war-torn Lebanon have formed a national organizaton to raise money for food and other aid for those children. This new organization—the Lebanese Children's Foundation—has its headquarters in Parma.

Fares J. Francis, a Lebanese-American insurance agent and founder of the foundation, knows that thousands of children in Lebanon have never known a day of peace and desperately need food, clothing, shelter, and other help. Mr. Francis plans to raise money in greater Cleveland and across the Nation and the assistance provided by that money will be given to those in need—regardless of political or religious beliefs. He will also establish an office in Beirut to distribute money and materials.

Mr. Speaker, children born 13 years ago when the civil war began in Lebanon, are among the greatest victims of the war. Many are crippled, ill, orphaned, and suffer mental problems. They need the help of Americans who share a close bond with the Lebanese. The suffering of the children and other people of Lebanon is one of the world's best-kept secrets. Since 1975, 4,785 children have been killed and 578 reported missing. There are 1,750 children totally disabled from the war. The war has also produced 125,000 dead, 4,500 widows, and 21,000 orphans in a country of only 3 million people.

Mr. Francis came to the United States in 1976 to escape the war and start a new life with an education and a profession. He lost his brother in the war recently, and when he went home for the funeral, he was appalled at how much worse the condition of children had grown in the years he had been gone from Lebanon. With his nonprofit Lebanese Children's Foundation, he is determined to help those who are not as fortunate as he is to live in the Unted States.

I commend Mr. Fares Francis for his unselfish commitment to the children of Lebanon.

TRIBUTE TO CONGRESSMAN AND MRS. LANTOS

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. HOYER. Mr. Speaker, as cochair of the Helsinki Commission I had the great privilege this morning to participate in the dedication ceremony placing a plaque beside Raoul Wallenberg Place—formerly part of 15th Street SW—here in Washington, DC.

Renaming that roadway for Roaul Wallenberg, one of the true heroes of the 20th century, was mandated by legislation adopted by Congress last year. One of the guiding forces behind that bill, along with the principal sponsor Representative BILL LOWERY, was Congressman TOM LANTOS.

Mr. Speaker, we hear a lot in this House about courage, and we are blessed with having in our midst two people of extraordinary courage, Congressman TOM LANTOS and his wife, Annette Lantos.

Both Annette and TOM were among those saved by Raoul Wallenberg. They have been a major force in the movement to recognize Raoul Wallenberg's heroism and to find and free him. Mrs. Lantos is the founder and chairman of the International Free Wallenberg Committee. A significant part of their effort was the awarding to Raoul Wallenberg in 1981 of honorary U.S. citizen. That gesture of recognition was made possible by Congressman LANTOS, sponsor of the enabling legislation, which was his first bill enacted by Congress. His partner in gaining passage of the bill, as in so many other things, was Annette Lantos.

Mr. Speaker, we should not cease in our efforts to find the truth about the fate of Raoul Wallenberg, and to continue to recognize his great heroism in saving thousands of Jews. As we continue that recognition, let us not forget two people who have done so much to foster it, two heroes in our midst, TOM and Annette.

LITTLE LEAGUE ALL STARS OF BRUNSWICK, MD

HON. BEVERLY B. BYRON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mrs. BYRON. Mr. Speaker, I wish to bring to the attention of Members the outstanding play this year by the Little League All Stars of Brunswick, MD. Managed by Rob Dawson, and coached by Kenny McClain, the team capped an outstanding season by placing seventh in the Little League World Series at Johnstown, PA.

The team was paced by pitcher Joey Lucas. Joey pitched seven games during tournament play. Of those seven games, he threw five shutouts, three no-hitters, and two perfect games. He helped lead the team to victories in the district, sectional, State, and eastern regional tournaments. The team's play, however, was not a one man effort. As a team, Brunswick hit over .400. Scott Frye, Chad Sowers, Chad Riland, Jeff Cox, Mark Myers, Matt Domer, Jeff Oden, Milt Gue, Jason Frushour, Jeff Nuse, Pat Smith, Troy Taylor, Kenny McClain, and Joey Lucas all displayed a solid effort in the field and on the base paths.

Brunswick, known through the area as a baseball town, has produced many good teams over the years. Although this was their first trip to the world series, the little league has previously had 15 State championship clubs. The success has not only been on the baseball diamond. Manager Dawson has stated that he is most proud of how well the team acted on and off the field. This shows that the Brunswick Little League organization, as well as the parents who support it, has taught the boys more than the fundamentals of baseball. They have proven that success can be accomplished within the context of good sportsmanship. This is the Brunswick Little League's greatest accomplishment of all.

A BAD DECISION BY THE NLRB

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. VENTO. Mr. Speaker, Kenneth P. Prill, a truckdriver for Meyers Industries, Inc. of Tecumseh, MI, was driving through Tennessee in July 1979 when his truck's brakes malfunctioned and the truck was involved in an accident. Prill's supervisors told him to get the truck back to Michigan. But before returning to Michigan, Prill called the Tennessee Public Service Commission and arranged for an inspection of his truck. The inspection revealed violations of several Federal safety regulations for which Meyers Industries was cited. Tennessee officials also ordered that the truck not be moved until its trailer, brakes, and damaged hitch were repaired. Before being fired, Prill had filed several complaints with his supervisors about the poor condition of the steering and brakes on the truck, which was being used to deliver boats from the Meyers

Industries' plant in Michigan to dealers around the country. Prill was subsequently fired by his employer.

Mr. Prill appealed his firing to the National Labor Relations Board [NLRB] which originally dismissed his case in 1984. The U.S. Court of Appeals for the District of Columbia, however, remanded the case to the NLRB after finding the Board had misinterpreted a provision of the Taft-Hartley Act. The NLRB has now once again ruled against Mr. Prill by finding that the Taft-Hartley Act only protects collective actions by workers rather than "activities solely by and on behalf" of an individual employee. In effect, the NLRB will now condone the firing of individual employees under the Nation's labor laws who exercise the right to report violations of Federal safety statutes to the Government.

In attempting to justify this bad decision, the NLRB states that "Although we may be outraged by a respondent who may have imperiled public safety, we are not empowered to correct all immorality or illegality arising under all Federal and State statutes."

This disingenuous rationale for what is clearly an outrageous decision is but another example of why working men and women have so little faith in the ability of the NLRB to interpret and apply our Nation's labor laws. The consequences of violations of safety regulations by employers are no different regardless of whether this fact is brought to the attention of the appropriate Federal or State authorities by an individual employee acting alone or by a group of employees acting collectively. The fact that the NLRB is unable or simply unwilling to discern this point of logic says much about what has happened to the NLRB during the past 5 years. The Board's decision in the Prill case effectively reverses a policy adopted by the NLRB in 1975 when it ordered the reinstatement of a California worker who was fired for reporting safety violations at his plant to the Occupational Safety and Health Adminstration [OSHA]. The fact is that the NLRB ought to be supportive of such a worker—not pulling the rug out from under him.

I hope that Mr. Prill and his attorneys will appeal this decision to the Supreme Court. The NLRB decision should be reversed either through the Court or through clarifying legislation.

NLRB Backs Firing for Safety Report

By Matt Yancey

A company can legally fire an individual under the nation's labor relations laws for reporting violations of federal safety statutes to the government, the National Labor Relations Board said yesterday.

In its ruling, the NLRB upheld its 1984 decision dismissing a complaint by a nonunion Michigan truck driver who claimed he was fired illegally under the Taft-Hartley Act for arranging an inspection of his rig after it was in an accident because its brakes malfunctioned.

The U.S. Court of Appeals for the District of Columbia last year ordered the NLRB to reconsider the case. In a 2-to-1 decision, the court said the agency erred in stating that Taft-Hartley restricts "concerted activity" to those actions engaged in with, on behalf of, other employes.

In its ruling released yesterday, which NLRB officials predicted would reach the Supreme Court, the board agreed that its narrow definition of concerted activity is not mandated by the 1947 law.

But it said that its definition is a "reasonable construction" because the law is aimed at protecting collective actions by workers rather than activities "solely by and one behalf of" and individual employee.

The board said that the truck driver, Kenneth P. Prill, was not protected from being fired by Meyers Industries. Inc. of Tecumseh, Mich., because he took action on his own and did not try to enlist the support of coworkers.

"Although we may be outraged by a respondent who may have imperiled public safety, we are not empowered to correct all immorality or illegality arising under all federal and state statutes," the NLRB said.

The latest board ruling effectively reverses a policy adopted by the NLRB in 1975 when it ordered the reinstatement of a California worker who was fired for reporting safety violations at his plant to the Occupational Safety and Health Administration.

Before he was fired, Prill had lodged several complaints with supervisors about the poor condition of the steering and brakes on the truck, which was used for delivering boats from Meyers' plant Tecumseh to dealers around the country.

While driving through Tennessee in July 1979, Prill was in an accident caused by the truck's malfunctioning brakes. When he was told by supervisors to get the vehicle back to Tecumseh the best way he could, Prill instead called the Tennessee Public Service Commission to arrange for and inspection of the truck.

The Tennessee officials cited the vehicle for violations of several federal safety regulations and said it could not be moved until its trailer brakes and damage to the hitch area were fixed.

LOW-INTENSITY CONFLICT

HON. CHESTER G. ATKINS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. ATKINS. Mr. Speaker, United States policy toward Nicaragua continues to be a major issue of debate on the floor of the House of Representatives. One strategy that has recently emerged is "Low-Intensity Conflict." Low-intensity conflict combines the unconventional tactics of revolutionaries on a variety of fronts rather than relying solely on a military approach. Political, economic, and psychological campaigns are given greater weight under this strategy than is military warfare.

Sara Miles recently wrote two articles, that appeared in the Berkshire Eagle, regarding the low-intensity strategy. At this time, I would like to place these articles in the CONGRESSIONAL RECORD.

[From the Berkshire Eagle, July 24, 1986]

Low-Intensity Conflict—I: Intervention in Central America

(By Sara Miles)

NEW YORK.—A new kind of war has been launched by the Reagan administration, one redefining the battlefields of Central America. It reflects a developing strategy of prolonged anti-popular warfare that Pentagon planners call "low-intensity conflict." Congress is signing on to underwrite the experiment with our tax dollars. (Unless the Senate votes otherwise, this summer's "contra-plus" authorization provides $100 million for the contras and $300 million to continue the war by other means in the region. In addition, *Newsweek* reports that the CIA will make covert services worth $400 million available to the contras.) According to Ambassador to Costa Rica Lewis Tambs, the strategy could mean a war in Central America of "perhaps decades duration." Other parts of the Third World await the results.

The strategy shift to uncoventional war was obscured by the invasion of Granada in 1983. For many, the event confirmed that similar U.S. interventions were imminent against Nicaragua's Sandinista government and/or against the Farabundo Marti National Liberation Front (FMLN) in El Salvador. In fact, however, a very different kind of intervention was underway in Nicaragua and El Salvador.

Low-intensity conflict is not simply a scaled-down version of a conventional war, nor just a preliminary stage to "real" conflict. "This kind of conflict is more accurately described as revolutionary and counterrevolutionary warfare," explained Col. John Waghelstein, currently commander of the Army's Seventh Special Forces. "It involves political, economic and psychological warfare, with the military being a distant fourth in many cases. . . . It is total war at the grassroots level."

Low-intensity conflict—"post-Vietnam counterinsurgency doctrine"—has evolved as a response to the growing challenge of popular nationalist revolutionary movements throughout the Third World. Proponents of low-intensity conflict have learned from, and now attempt to "mirror," the politico-military strategy of revolutionaries, combining unconventional tactics of revolutionaries on a variety of fronts instead of relying on conventional military force alone. As the United States learned in Vietnam, according to Army Secretary John Marsh, "The roots of insurgencies are not military in origin, nor will they be military in resolution."

U.S. military strategists may have been, after all, less paralyzed by the past than those who oppose the war in Central America were, frozen by conviction that history was bound to repeat itself. While some spoke of Nicaragua and El Salvador as "another Vietnam," the Pentagon set out insuring that they would not be. Key concepts embodied in today's emerging science of counterrevolution—drawn from Vietnam, from colonial experiences of European nations, and from diverse interventions in the Third World—are expressed as follows:

Population, not territory, is the strategic objective.

Military escalation is often counterproductive; overkill can win battles but lose wars.

Tactically, low-intensity conflict targets the rearguard—economic, political, social and logistical—rather than the main force units of the enemy's army.

Counterinsurgency operations against guerrillas are ineffective unless combined with the construction of an alternative, counterrevolutionary social system—a process known as "nation-building." The task is not to outfight, but rather to outadminister, the revolutionary forces.

"Humanitarian aid," "refugee relief" and "development" are thus an essential front of this unconventional war. As a prominent

Army spokesman, Lt. Col. James A. Taylor, put it: "Humanitarian aid in low-intensity conflict is as defense-oriented as the providing of training and technology. It is in no way soft."

Use of U.S. combat forces—while never an option that can be completely rejected—is likely to significantly decrease the chances of U.S. victory. The United States should, instead, play a training role and "clean up" client forces so that corruption and abuses do not alienate the population from nation-building.

This kind of warfare must be fought to win the U.S. population, as well as the foreign target population. As George Tanham, an expert on low-intensity warfare, wrote: "Out most pressing problem is not in the Third World, but here at home in the struggle for the minds of the people."

[From the Berkshire Eagle, July 25, 1986]

LOW-INTENSITY CONFLICT—II: A NEW ROUTE TO THE JUGULAR

(By Sara Miles)

NEW YORK.—Adaptation of a modern low-intensity-conflict framework by U.S. military strategists meant that they would not expect to win by out-fighting their enemy in battle. In Central America (as at home), they would aim to separate their foes from the civilian population, and neutralize enemy social structures—whether embryonic ones in FMLN zones of control in El Salvador or in the institutionalized kind in revolutionary Nicaragua. The Pentagon, CIA, Agency for International Development and State Department would coordinate their efforts to hold the insurgent forces at bay while the United States could construct "democratic" regimes and alternative, counterrevolutionary institutions—political, economic and social—for the region.

The low-intensity strategy for Central America was to combine both "active" and "preventive" measures: determined roughly by whether an armed insurgency already existed within the target country. In turn, plans for each country were designed to bear on the overall thrust of U.S. strategy at the regional level. At the same time, low-intensity advocates hoped that the terms of their doctrine, which explicitly favored keeping U.S. troops out of combat, would preempt public opposition to the war.

On the ground, the United States would seek the collapse of insurgent movements and revolutionary governments through a flexible combination of economic sabotage, political attacks, psychological warfare and military pressure. Military tactics would emphasize the guerrilla nature of the war and would attempt to mirror the integrated politico-military approach of the revolutionaries.

The U.S. choice of methods, whether planning counterinsurgency or initiating insurgency of its own, would depend not on vague moral constraints against the use of force, but on a careful assessment of the most effective combination of tactics to win particular battles. If the U.S. military has held back, since 1983, from using its full might in Central America, it is not because of any pacifist tendencies but because this time it intends to win.

At the heart of current U.S. strategy is the belief that winning low-intensity conflicts means changing the way people think about the world—at the grassroots level in Central America, and here, in the U.S. "rearguard." At the American Enterprise Institute on his return from heading the U.S. military advisers in El Salvador, Col. John Waghelstein spoke of enlisting public sympathies: "I think we've also got to begin to do counterinsurgency training here in the U.S., not just on the military reservations where it's been for the last few years, but out in the countryside," he said. "We've got to recondition our populace again, so that a soldier practicing for war, for this type of war, is seen as a regular and necessary thing."

Other major propaganda campaigns have been developed by the Reagan administration to alter and redefine public perception of the war. Overthrowing governments like Nicaragua's is painted as a justifiable defense against "terrorism"; at the same time, efforts by the U.S. military to control local populations are portrayed as "humanitarian assistance" or charity. For better or for worse, the U.S. people are participants in the war that is being played out in Central America.

It is a difficult time for ordinary citizens to plan an effective opposition to the war in Central America and to project an anti-war strategy past the short term. Washington has learned that in most cases revolutions cannot be stopped simply by murdering potential insurgents. Instead, the architects of such conflicts will often seek to avoid the direct use of U.S. troops. They will seek to restructure the target society—while, in the interests of long-term control and stability, avoiding the old-fashioned military dictatorships backed in the past. Low-intensity advocates urge that emphasis be given to economic over military aid, and that gross human rights violations be "cleaned up."

A narrow focus on conventional military indicators can misinterpret this dynamic, making it hard to see the real war. Without a context for their work, opponents of the war risk confusing tacts—or demands that apply to a specific moment—with principles. It is possible, for example, for Washington to "stop the bombing" in El Salvador—but such a shift in tactics would not mean an end to the war, nor necessarily a shift in goals. Similarly, a call for economic assistance intead of military aid misreads the nature of a war in which economic development programs, as a former CIA official writes, are "the civilian front of an unconventional war which could not be prosecuted with out the aid programs."

Calls for "talks not troops" fail to come to grips with the total, unconventional war not being fought in Central America. Instead, they lead to a false dichotomy between invasion and negotiations, at a time when Washington's real war has escalated in a manner designed precisely to avoid both talks and troops, both "giving in" and "going in."

The new doctrine of war in the Third World challenges conventional opposition responses as well as conventional military attitudes. To frame the issues of peace and war as a contest between talks or troops ignores the comprehensive nature of the struggle. It permits the United States to present its true strategy of low-intensity conflict as a moderate alternative, and allow the real war to be sold to the American public as a "third option," as a compromise between the extremes of invasion and surrender.

DON FORTIER

SPEECH OF

HON. E. THOMAS COLEMAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 25, 1986

Mr. COLEMAN of Missouri. Mr. Speaker, recently, a friend and valued expert on national security policy died at all too young an age. Don Fortier's passing left all of us stunned and saddened by the loss of such a good and talented man.

On September 25, I sponsored a special order with several other colleagues in honoring Don and his contribution to the formulation of our Nation's foreign policy.

I am submitting for the RECORD the following statements made by friends of Don Fortier at his memorial services.

REMARKS OF THOMAS LAIRD JONES AT THE FUNERAL SERVICE FOR DONALD ROBERT FORTIER AT ARLINGTON NATIONAL CEMETERY, AUGUST 27, 1986

MEDITATION

I cry out "Why," "Why," "Why?"—perhaps so do you.

My limited, finite mind knows it cannot understand or comprehend—yet it keeps on asking: "Why", "Why", "Why?"

In excruciating ways it asked "why?" some years ago when our daughter died at the age of twelve;

It asked "why?" when my best buddy died in a bicycle wreck when we were in the sixth grade;

My mind asked "why?" "why?" when Art was twenty-seven and I was twenty-seven and we lived next door and had small children the same age and he fell over dead one night as we played ping-pong;

My mind asked "why?" "why?" when my father died;

This summer my mind has contined to ask "why?" "why?" when the friend of each of us here, Don Fortier, was diagnosed "cancer"—aggressive cancer—and rather quickly died. This summer I have never left one of my frequent meetings with Don both at home and hospital that my confused mind was not hasseling the question "why?" "why?".

After I left Alison last Saturday night after Don's death I went home. In spite of the fact that I knew I had to get up at 6:00 to go lead worship, I could not sleep. I just sat up and rocked and asked "why?"

It does not seem fair; it does not seem smart: a brilliant mind, thoroughly prepared for his vocation, deeply committed to public service of our whole society, a kind of goodness and integrity we so desperately need—taken away from us with so many prime years remaining.

Yet in spite of finite limitations toward understanding the infinite, when I'm honest with myself, in incomplete ways I think I know some of the answers to the whys.

God gives us life—but God gives us freedom. In a sense, God chose to limit God's power in giving humanity freedom. God loves us and respects us so much that even when humanity misuses the freedom, God does not renege on the freedom of humanity by selective intervention. So "the rain falls on the just and unjust." And humanity continues to muck up. And who knows why we haven't discovered answers to a detestable disease called cancer? There are other

ways to articulate some of the finite minds' ways of answering "why?".

But we gather to go beyond the finite "whys?"—for God goes beyond what happens in the short span of this earthly existence: The God who creates us, who grants us freedom in this life, remains ultimately in control. God cares for us beyond the bounds of our vision and beyond the small limits of our understanding. What we call "death" is not a dead-end alley, but an openness and release to a new thoroughfare.

I want to testify not just a mindful answer, but a personally experienced truth: God does love us, and provides for us and grants us life eternal/everlasting in a relationship with God and with each other. The ancient Apostles' Creed climaxes the truth: "I believe in the life everlastng. Amen."—"Amen" means "So Be It!" And in that truth *is* the peace which passes all understanding. I know that is true. I witness that not as something learned in seminary, but as experienced in my life, and pray that you will do the same.

1. So in faith we gather, not as those without hope, but we gather for other reasons. We gather to express thanks to God for the life of Don Fortier:

For his love of family and friends;

For his commitment to make this world a better place to live;

For his selflessness in a predominately selfish society;

For his goodness, kindness, gentleness, and for his toughness; and

We give thanks to God even for his tenaciousness on the golf course which made him better than most of us even there!

We are here to say thanks to God for the continuing influence of Don. And we are here to say "Thanks be to God" for the eternal life and for the peace which now is his, free from any of the limitations of pain, disease, finiteness. We are here to say thanks be to God who gives us the victory!

2. And we also gather to seek help for ourselves—to open ourselves that God might provide strength, comfort, hope, peace to face these terrible-seeming hours.

3. And we also gather to give special support and care to Alison and Graham and others in the family. Alison, we do not know the proper words to say or the right things to do at times such as these. But we want you to know our deepest feelings of love, care, and compassion. And we promise our support to you in all ways.

4. And I trust we gather to examine our own values and to make some commitment about how we will use whatever life on this earth we have left to fill voids left by Don's death and to use every opportunity to strive to use our God-given life and freedom for the betterment of this world.

One of the ways God helps us at times such as these is through the Scriptures.

Robert McFarlane's Remarks in Memoriam of Don Fortier

When all is said and done, it is memories and lessons. It is how we live for having been his friend; it's whether we have understood and absorbed his creed:

Believe in God.
Love your family.
Serve your country.

What better legacy could there be but to have influenced others to be better than they are; to have those you leave behind remember what you did and because of it, be better than they were?

He was such a friend; such a sparkling example of what men and women can be if they care enough and accept their obligation to others.

Never give up, never stop caring about others; never stop listening; never stop learning. Never dominate but always lead.

So tomorrow and through all tomorrows what will we do? Shall we be content to say, too bad; what a loss? If we truly loved him, as he loved us, if we understand what moved him and should move us, then there must be more than memories and it must be reflected in our lives. That challenge is Don's gift to us.

Excerpt From "A Lone Stiker"

He knew another place, a wood,
And in it, tall as trees, were cliffs;
And if he stood on one of these,
'Twould be among the tops of trees,
Their upper branches round him wreathing,
Their breathing mingled with his breathing.
If—if he stood! Enough of ifs!
He knew a path that wanted walking;
He knew a spring that wanted drinking,
A thought that wanted further thinking;
A love that wanted re-renewing.
Nor was this just a way of talking
To save him the expense of doing.
With him it boded action, deed.

The factory was very fine;
He wished it all the modern speed.
Yet, after all, 'twas not divine,
That is to say, 'twas not a church.
He never would assume that he'd
Be any institution's need.
But he said then and still would say,
If there should ever come a day
When striving seemed like to die
Because he left it in the lurch,
Or even merely seemed to pine
For want of his approval, why,
Come get him—for he knew where to go.—
Robert Frost.

Don Fortier Memorial Service—Remarks by Ambassador Paul D. Wolfowitz

On the desk of the President whom Don Fortier admired so much and served so well, there is a small sign that reads: "There is no limit to what a man can do, as long as he doesn't care who gets the credit." In some ways that maxim fits the surface that Don presented to the world and the style with which he went about his work, but that surface was only a partial reflection of the complex and extraordinary human being that lay behind it.

Don Fortier was an unusually nice guy. In a line of work where ambitions and animosities often get the better of people, he was generous, straightforward, modest, and uncommonly decent.

Don was particularly thoughtful of the people who worked for him and of the younger associates who, in many ways, became his students and are part of his legacy.

But Don did not accomplish the things he did just by being nice. Don combined unusual ambition, a powerful mind, a deep love for family, friends, and country and a strong faith in God, in a way was very rare and that leaves behind him a large void.

Don's heroes were Abraham, Lincoln and Winston Churchill and he did not merely admire them from a distance. He aspired to be like them, to be able to help his country in a time of great danger. He was constantly seeking to grow, to acquire new knowledge, new skills and new experience, in order better to prepare himself.

Don had enough perspective to view this ambition of his with a certain degree of humor, but deep down he took it very seriously. And with the opportunities that were available and with the considerable abilities he possessed, he did everything in his power to make this a safer world and to make this country and what it stands for more secure.

I knew Don for more than 10 years, starting when he was still a student of Albert Wohlstetter's at the University of Chicago. I confess that his quiet manner led me, like so many others, to underestimate him at first. But as I watched what he accomplished in public life, I quickly learned not to be surprised by what Don could do.

Don first made his mark from a position that few would consider one of great influence. It's not that Members of the House of Representatives do not sometimes have a large influence over foreign policy—and certainly everyone knows how influential congressional staff are. But to be a Republican staffer in the House of Representatives really should have been too much of a handicap. Undaunted, Don persevered and had a large impact in many areas. One was arms control in general, and particularly the Nuclear Non-Proliferation Act of 1978, many of whose important features were Don's handiwork. Another was the landmark action by the Congress that same year to lift the arms embargo on Turkey. Early on, Don recognized the vital importance of that issue, and with the persistence and tenacity that were among his trademarks, worked to persuade Congress Members of the importance of the interests that were at stake. Don had great faith in the power of reason, even through he knew how many other things come into play in politics. When he felt that some of the most important arguments in this debate weren't being adequately heard, he had some large charts made up to illustrate the points with graphs and maps. On the day of the vote, the charts were displayed prominently in the cloak room. At least in this case, Don's faith was vindicated and the embargo was lifted by a handful of votes.

It was my privilege to have Don work with me when he joined the State Department about 6 years ago as Deputy Director of the Policy Planning Staff. His contributions were large on Subjects as diverse as human rights policy and the President's Middle East peace initiative. It was at State also that Don began to work on Central America, on Libya, on Indo-Pakistani nonproliferation and on a number of other issues that he later pursued so effectively when he moved on to the NSC.

This range was one of the remarkable things about Don, the way he could keep mastering new subjects and extending his reach. More and more, he was able to see the different pieces of the foreign policy picture in a strategic whole and articulate the broad relationships between arms control and regional conflict or between the U.S. interest in democracy and the more concrete concerns of our foreign policy.

But while Don picked up new interests, he always retained the old ones. Once he grasped something he rarely dropped it. For tenacity was one of Don's trademarks. Tenacity and courage. He had the courage to pursue subjects that others might consider unfashionable, just because he was convinced they were important. He had the courage to hold dissenting views, even though the goal he always sought was a reasoned consensus.

Don showed the same courage in facing the trial of the last few months. Despite his terrible illness, his spirit was still the same—not bitter or complaining as he had every right to be but persistent. Tenacious, deter-

mined to keep working and to keep fighting. And with an indomitable sense of humor.

Don married well. His dedication, his decency, and his courage are shared by Alison, who shared so many joys with Don. It is Alison and the children who have lost the most with the death of this wonderful man. Perhaps it will be of some consolation to know how deeply that loss is felt by so many others.

THE ENVIRONMENT

HON. LEE H. HAMILTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. HAMILTON. Mr. Speaker, I would like to insert my Washington Report for Wednesday, October 8, 1986 into the CONGRESSIONAL RECORD.

THE ENVIRONMENT

The immediate tasks of improving the environment are clear. Abandoned hazardous waste sites have been ignored for years, and 250 million tons of new hazardous waste are produced annually in America. Water resources are threatened by runoff, pesticides, herbicides, and maritime spills. Drinking water is threatened by chemical poisons that are slowly leaking into the soil as a result of dangerous waste disposal practices. Thousands of potentially unacceptable pesticides and chemicals are still in use, exposing farm and factory workers and the people who eat and use their products. A thousand new chemicals are introduced annually, but we cannot regulate more than a few dozen each year. Acid rain has poisoned lakes and forests all over the country. Scores of cities are not meeting the standards and deadlines of the Clean Air Act or the Clean Water Act. Manmade pollutants accumulating in the upper atmosphere could seriously disrupt future climatic patterns. Wilderness areas are threatened, and soil erosion continues at unacceptable rates. Through development, some 250,000 acres of wetlands are lost each year that provide wildlife refuge as well as recreation, livelihood, and water supply for millions of Americans.

Every year there is more pollution, but there is not more air, land, or water. Intelligent and sensitive concern for the environment becomes steadily more essential. I have always found strong support for cleaning up our air and water. Most public opinion polls consistently show that Americans favor greater spending to clean up the environment. Few argue that we should cut back on our environmental investment. Most Americans ask what will we do when we need safe water in the future if we do not act now to protect our surface and ground water. They have learned how enormously expensive it is to clean up Love Canal and other toxic waste sites compared to what it would cost to dispose of those chemicals properly to begin with. They know that if we do not control now the toxins in our air and water that have a slow cumulative effect, we will only bring more suffering to ourselves in the future.

Our country has been blessed with a bountiful environment which has nourished our prosperity. Americans feel the need for responsible and productive stewardship of our land and resources. yet my sense is that the promise of a clean environment remains unfulfilled. Environmental policy-making is slowing down to a near paralysis. Key legislation is in limbo, and every proposal meets bitter opposition. It has been very difficult in the Congress to develop a consensus on the means, pace, and financing of cleaning up the air, land, and water. Major legislation has stalled on hazardous waste cleanup, clean water programs, acid rain, and pesticide review, and final action is uncertain. Part of the delay is due to strong disagreements between Congress and the President over policy and funding issues. Government has a special difficulty acting on slowly-developing problems, such as the "greenhouse effect", in which the problem develops almost imperceptibly, but eventually could produce a crisis. Environment laws are enforced unevenly, pollution control standards are issued slowly or not at all, and the vigor of the Environmental Protection Agency has decreased. Many of the rules issued by the EPA are challenged in court, and it frequently experiences extended delays in putting anti-pollution efforts into effect. There is also growing evidence that voluntary compliance with environmental laws, the cornerstone of any law enforcement program, is slackening. The entire process has slowed down. We are not dealing effectively with the problems. Several changes must be made.

We need to improve environmental decisionmaking. Part of the difficulty is the complexity of environment problems, but the stalemate can only be broken if there is confidence that governmental efforts to carry out environmental laws will be done equitably, and if the mistrust and polarization between environmental groups and industry is reduced. The process of dealing with pollution has become bogged down; decision-making drags out for years. Process is substituting for decisions, and the result is that the environment is not getting cleaned up. No one wants to see an environmental czar, but there has to be a better way to make timely decisions that have some finality. We must move away from litigation and confrontation. We must develop an environmental agenda and pursue it virorously. Moreover, we must improve our capability to anticipate and cope with slowly emerging envoronmental problems.

Our efforts will be more effective if we are careful to state clear and realistic goals. We spend a lot of money in this country—one estimate putting it as high as $70 billion a year—to control air, water, and land pollution, but I do not think we really know whether we are getting our money's worth. It is hard to find out whether we are making progress, how fast we are making it, where we are not making progress, and why we are not.

The credibility of our environmental protection agencies must be maintained. Environmental protection should be non-partisan and non-political. Voluntary compliance with environmental rules is essential and so is improved implementation. Using economic incentives in non-crisis situations could also improve enforcement. We must identify the problems, carefully review the scientific evidence, and involve all of the parties in order to produce a good solution. Regulations and rules should not be arbitrary, but based on the best available scientific information.

A clean enviroment and a productive economy are not contradictory goals. A vital economy depends on the well-being of the labor force and the availability of high quality resources. Even with severe budgetary constraints, the immediate costs of pollution prevention and quick action to clean-up our environment are small compared to the future costs of curing the effects of today's negligence. We must be concerned not just for the present but also for the future. A clean environment is desirable, practical, possible, and essential. But it does require tough choices and decisive action.

TRIBUTE TO HOWARD C. MENZEL

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. LAGOMARSINO. Mr. Speaker, I rise to pay tribute to Howard C. Menzel, the county clerk-recorder of Santa Barbara County, CA, who will retire next January after nearly 30 years of service to the county.

Howard has been county clerk since December 1, 1973, and has presided over all of my elections to Congress in Santa Barbara County, for which I can only say, "thank you." Howard himself has been elected to three terms to that office, in 1974, 1978, and 1982. Prior to assuming that office, he was assistant county clerk for 15 years, having risen to that position from an administrative analyst position in the clerk's office.

Howard is an alumnus of the University of Wisconsin, from which he earned three degrees, bachelor of philosophy, bachelor of law, and doctor of laws. He was on active duty in the U.S. Army during World War II, serving 1½ years overseas. He retired from Reserve duty as a major in 1967.

Howard has been active in civic organizations, and is a past master of La Cumbre Masonic Lodge of Santa Barbara, past president of the Santa Barbara County Chapter of the American Heart Association, and past president of the Kiwanis Club of Santa Barbara Suburban. Professionally, he has been president of the County Clerks Association of California, 1983–85, director of the California Public Emoloyees Federation, 1970–73, and chairman of the board of directors of the Santa Barbara County Employees Retirement Association, 1971–74.

Mr. Speaker, Howard Menzel has served his Nation, and the county, in exemplar fashion, and I am certain will enjoy a pleasant and distinguished retirement with his wife, Maria, and in the company of his three sons and grandchildren. And I would like to extend on behalf of the Congress our best wishes for his continued health and happiness.

INTRODUCTION OF THE "PENSION LOSERS" BILL

HON. WILLIAM (BILL) CLAY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. CLAY. Mr. Speaker, today I, along with 22 of my colleagues, am introducing the Pension Restoration Act of 1986, better known as the "Pension Losers" bill.

Across the country there are approximately 80,000 workers who had earned the right to pension benefits from their employers, but whose pension plans terminated before 1974 without providing them with the retirement income for which they had worked. Although their employers had promised pensions to them upon their retirement, abuse and mismanagement had all too often left insufficient assets to fulfill these promises.

It was the heartrending stories of these workers which led Congress in 1974 to enact the Employee Retirement Income Security Act [ERISA] which established minimum standards for the protection of workers covered under private pension plans and set up the Pension Benefit Guaranty Corporation [PBGC] to federally insure the pension benefits of vested workers whose pension plans terminated after 1974. Unfortunately, ERISA did not take effect until its date of enactment, September 1, 1974. This left the pensions of the thousands of retired vested workers whose pension plans had terminated before September and whose stories had led to the enactment of ERISA unprotected by the new Federal law.

This bill seeks to remedy this inequity by assisting those workers whose pension plans terminated prior to 1974. Under the Pension Restoration Act, the finite number of retirees who had earned the right to pension benefits under their pension plans and whose pension plans terminated before September 1, 1974, would receive an annual annuity of $75 multiplied by the number of years they had worked toward a pension. For example, a worker who had 20 years of service under a pension plan would be entitled to an annual payment of $1,500. This relief is minimal compared to the contributions these workers made to their pension plans and which they would have received if their pension plans had not been terminated. The bill provides needed income to these workers while realistically taking into account current Federal financial resources.

The beneficiaries of this legislation worked long and hard to earn pension benefits. They looked forward to and planned for their retirement based upon the income their pensions would provide. Through no fault of their own their pension plans were terminated. As we are all too well aware, the high cost of living has affected the lives of all Americans, but it has had a particularly severe impact on the thousands of retirees who had earned a right to a pension from their employers, but who have not received it. Social Security is not enough to be the sole source of an individual's retirement income, yet for 80,000 pension losers a Social Security check constitutes their total monthly income.

The Federal Government is the only entity which can provide relief for these individuals. The Pension Restoration Act offers minimal, yet needed relief, to these hard-working Americans.

EXPLANATORY STATEMENT ON THE PROPOSED COMPROMISE AGREEMENT ON H.R. 5299

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. MONTGOMERY. Mr. Speaker, yesterday the House passed and sent to the Senate House amendments to the Senate amendments to H.R. 5299, the Veterans' Benefits Improvement and Health Care Authorization Act of 1986. The House amendments to the Senate amendments comprise the proposed compromise agreement reached with the leadership of the Senate Veterans' Affairs Committee on some 70 items relating to benefits and services for veterans.

Yesterday, during debate on the bill, Mr. HAMMERSCHMIDT and I discussed the major provisions of the agreement and at this time I would like to share with my colleagues a more detailed statement on the issues involved:

EXPLANATORY STATEMENT ON THE PROPOSED COMPROMISE AGREEMENT ON H.R. 5299, THE PROPOSED VETERANS' BENEFITS IMPROVEMENT AND HEALTH CARE AUTHORIZATION ACT OF 1986

This document explains provisions of various measures (listed below) passed by the Senate and House of Representatives and the provisions of a compromise agreement between the Senate and House Committees on Veterans' Affairs on those provisions, which will be offered as a proposed House amendment to H.R. 5299 as amended and passed by the Senate on September 30, 1986. The differences between these various bills and the provisions of the compromise agreement are noted below, except for clerical corrections, conforming changes made necessary by the compromise agreement, and minor drafting, technical, and clarifying changes.

The bills referred to above are as follows:

H.R. 2343, the proposed "Veterans' Compensation Benefits Amendments of 1985", as passed by the House on May 20, 1985 (hereinafter referred to as "H.R. 2343").

H.R. 2344, the proposed "Veterans' Housing and Memorial Affairs Amendments of 1985", as passed by the House on May 20, 1985 (hereinafter referred to as "H.R. 2344").

S. 1887, the proposed "Veterans' Compensation and Benefits Improvement Act of 1985", as passed by the Senate on December 2, 1985 (hereinafter referred to as "S. 1887").

H.R. 4345, a bill to authorize the establishment of a national cemetery in or near Cleveland, Ohio, as passed by the House on June 10, 1986 (hereinafter referred to as "H.R. 4345").

H.R. 2798, a bill to prohibit discrimination against members of the Reserves in hiring, as passed by the House on June 17, 1986 (hereinafter referred to as "H.R. 2798").

H.R. 4384, a bill to modify the authority for veterans' readjustment appointments, as passed by the House of June 17, 1986 (hereinafter referred to as "H.R. 4384").

H.R. 5047, a bill to eliminate gender-based language distinctions in title 38, as passed by the House on August 4, 1986 (hereinafter referred to as "H.R. 5047").

H.R. 5299, the proposed "Veterans' Compensation Amendments of 1986", as passed by the House on August 4, 1986 (hereinafter referred to as "H.R. 5299").

H.R. 4333, a bill to create presumptions of service connection for certain disabilities of former prisoners of war, as passed by the House on August 6, 1986 (hereinafter referred to as "H.R. 4333").

H.R. 4623, the proposed "Veterans' Health-Care Amendments of 1986", as passed by the House on August 6, 1986 (hereinafter referred to as "H.R. 4623").

S. 1887, as amended and passed by the House on August 15, 1986, (hereinafter referred to as the "House-passed S. 1887").

H.R. 4345, as amended and passed by the Senate on September 20, 1986 (hereinafter referred to as the "Senate amendment to H.R. 4345").

S. 2422, the proposed "Omnibus Veterans' Benefits Improvement and Health Care Authorization Act of 1986", the text of which was agreed to by the Senate on September 30, 1986, as an amendment to H.R. 5299 (hereinafter referred to as "S. 2422").

TITLE I—DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION

PART A—RATE INCREASES

Disability compensation

H.R. 5299 (sections 101–103) would amend chapter 11 of title 38, United States Code, relating to compensation for service-connected disability, to increase the basic rates of service-connected disability compensation for veterans, the rates payable for certain severe disabilities, the dependents' allowances payable to veterans rated 30-percent or more disabled, and the annual clothing allowance for certain disabled veterans. The House bill would increase such rates and allowances by 2 percent. S. 2442 (section 101), in a freestanding provision, would require the Administrator of Veterans' Affairs to adjust these rates by the same percentage as that provided to Social Security recipients and VA pension beneficiaries effective December 1, 1986. Both the House and the Senate bills would require that increases be rounded to the nearest dollar and would be effective December 1, 1986.

The compromise agreement (sections 101 through 103) would, if a Social Security increase is granted effective December 1, 1986, amend chapter 11 to increase, effective December 1, 1986, such rates and allowances by 1.5 percent, with increases rounded to the nearest dollar.

The Committees note that the first concurrent Budget Resolution for fiscal year 1987, approved by the Congress on June 27, 1986, assumes a Social Security cost-of-living adjustment of 2 percent. The most recent economic assumption of the Congressional Budget Office released in August 1986, relating to the Consumer Price Index from the third quarter of fiscal year 1985 through the third quarter of fiscal year 1986, anticipates an increase of 1.3 percent. The Committees agreed that an increase of 1.5 percent in these rates and allowances and the DIC rates would provide an increase consistent with their assessment of the likely increase in the cost of living.

Dependency and indemnity compensation

H.R. 5299 (sections 104 through 106) would amend chapter 13 of title 38, relating to dependency and indemnity compensation for service-connected deaths, to increase, effective December 1, 1986, rates of dependency and indemnity compensation (DIC) payable to the surviving spouses and children of veterans whose deaths were service connected. The House bill would increase such rates

by 2 percent. The Senate bill (section 101 of S. 2422), in a freestanding provision, would require the Administrator of Veterans' Affairs to adjust the rates by the same percentage as that provided to Social Security recipients and VA pension beneficiaries effective December 1, 1986. Both the House and Senate bills would require that increases be rounded to the nearest dollar and would be effective December 1, 1986.

The compromise agreement (sections 104 through 106) would, if a Social Security increase is granted effective December 1, 1986, amend chapter 13 to increase, effective December 1, 1986, such rates by 1.5 percent, with increases rounded to the nearest dollar.

Improved benefits for former prisoners of war

Both H.R. 4333 and S. 2422 (section 102) would amend section 312(b) of title 38, relating to disabilities of former prisoners of war which are presumed to be service connected for purposes of disability compensation if they become 10 percent disabling, even though there is no record of the disability during the veterans' service. The House bill would add the organic residuals of hypothermia, spastic colon, and arthritis due to trauma to the list of disabilities which are presumed to be service connected and would amend section 612(b)(1)(G) of title 38, relating to dental care for a former prisoner of war, to reduce, from 6 months to 90 days, the period a former prisoner of war must have been detained or interned in order to receive the dental services specified in section 612(b)(1). The Senate bill would add the residuals of frostbite (in the case of veterans held in conditions where frostbite was possible), post-traumatic osteoarthritis, and, in the case of former POW's with a service-connected, compensable psychiatric condition, irritable bowel syndrome to the list of disabilities which are presumed to be service connected.

The compromise agreement (section 108) contains the Senate provision except that the reference to irritable bowel syndrome is deleted.

Special consideration for loss of paired organs or extremities

H.R. 2343 (section 3), but not Senate bill, would amend section 360 of title 38, relating to special consideration of certain non-service-connected disabilities as service-connected when the service-connected loss of one organ is combined with the non-service-connected loss of the paired organ. Under current law a veteran with service-connected blindness in one eye, loss or loss of use of a kidney, or total deafness in one ear, who also sufferes the non-service-connected blindness, total deafness, or loss or loss of use of a kidney in the matched organ will receive compensation as though the loss of both is service connected. In the case of kidneys. the service-connected loss must severly involved the other kidney and the combined disability must result in total disability.

The House bill would add the following disabilities to the conditions given this special consideration: First, lungs, if the service-connected disability is at least 50 percent disabling and permanent; and, second, the service-connected loss of a hand or foot when matched with the non-service-connected loss of the paired hand or foot. In addition, in the case of kidneys, the House bill would eliminate the current requirements that the combined disability be total, and require only that there be involvement between the service-connected and non-service-connected loss or loss of use. The House bill would also repeal section 314(t) of title 38, which provides special monthly compensation to veterans with the service-connected loss or loss of use of an extremity when combined with the non-service-connected loss of the paired extremity and provides that an increase in compensation paid under section 314(t) be withheld in the case of a veteran who receives a judicial award or a non-judicial settlement for damages for the non-service-connected disability.

The compromise agreement (section 109) contains these provisions with an amendment making applicable to all awards made under section 360 after the date of enactment a provision similar to the provision in section 314(t) requiring withholding of the increase where the veteran has received a judicial award or a non-judicial settlement. This withholding provision would, by virtue of its reenactment in section 360, apply continuously to "paired extremity" cases (currently awarded under section 314(t)).

Taxation of compensation

Both H.R. 2343 (section 4) and S. 1887 (section 108) would express the sense of the Congress that payments to veterans as compensation for service-connected disabilities remain exempt from Federal income tax. The House bill would also urge the President to reject taxation of compensation as part of any proposal for tax reform.

The compromise agreement does not contain this provision.

The Committees note that neither the President's tax reform proposal nor H.R. 3838, the Tax Reform Act of 1986 passed by the Congress in September 1986, provide for the taxation of compensation.

TITLE II—HEALTH CARE AND MEDICAL FACILITIES

PART A—HEALTH-CARE PROGRAMS

Respite care pilot program

Both H.R. 4623 (section 2) and S. 2422 (section 203) contain provisions relating to the provision of respite care for certain veterans.

The House bill would amend section 610 of title 38, relating to eligibility for hospital, nursing home, and domiciliary care, and section 612 of title 38, relating to eligibility for outpatient care, to authorize the Administrator to provide respite care to certain veterans. Under the House bill, the Administrator would be authorized to provide respite care, defined as hospital care, nursing home care, or hospital-based home care furnished on an intermittent or temporary basis, to a veteran who is suffering from a chronic illness and who is receiving care at home or in a hospice program.

The Senate bill would amend subchapter II of chapter 17 of title 38, relating to eligibility for hospital, nursing home or domiciliary care and medical treatment, to add a new section 620C to authorize the Administrator to conduct a pilot program, during the period October 1, 1986, through September 30, 1990, under which the VA could furnish respite care services to any veteran who has a service-connected disability which is compensable in degree and who is receiving VA medical services. Under the Senate bill, respite care is defined as hospital or nursing home care which (1) is of limited duration, (2) is furnished in a VA facility on an intermittent basis to a veteran who is suffering from a chronic illness and who resides primarily at home, (3) is intended to help the veteran continue to reside at home, and (4) does not adversely affect the range of services, the quality of care, or the priorities for care furnished to other veterans. The Administrator would be required, if the pilot program were implemented, to evaluate the medical and health-related efficacy and cost-effectiveness of furnishing respite care and submit to the Committees by February 1, 1990, a report on the experience under the program.

The compromise agreement (section 201) would amend subchapter II of chapter 17 of title 38, relating to hospital, nursing home, and domiciliary care and medical treatment, to provide the Administrator with the authority during the period October 1, 1986, through September 30, 1989, to furnish respite care services to veterans otherwise eligible for VA hospital, nursing home, or domiciliary care. Under the compromise agreement, the definition of respite care would follow the first three criteria of the Senate bill and, as under the Senate bill, the Administrator would be required to submit, by February 1, 1989, to the Committees a report on the implementation of this authority.

The Committees emphasize that the provision of respite care services is not intended to affect adversely the range of services, the quality of care, or the priorities for care furnished to other veterans.

Home health services

S. 2422 (section 201), but not the House bill, would amend section 601 of title 38, which sets forth definitions for purposes of chapter 17 of title 38, relating to VA health-care eligibility, to specify that, in the case of a veteran who is not residing in either a VA facility or in the veteran's home, the term "home health services" includes services furnished to a veteeran in any setting in which the veteran is residing but does not include the furnishing of any structural improvements or alterations in such setting. The Senate bill would also, in a freestanding provision, restate the VA's existing authority to contract for home health services. The Administrator would be required to submit, 6 months after the date of enactment, a report to Congress on the current and proposed use of these authorities.

The compromise agreement (section 202) is derived from this provision. It permits the Administrator to furnish home health services in any setting in which the eligible veteran is residing. The compromise prohibits the provision of such services in a manner so as to relieve a contractural obligation to provide such services and the furnishing of structural improvements or alterations in any setting other than the veteran's home.

The Committee understands that the services provided under this authority may include the training, by home health services providers, of veterans receiving home health services to enable such veterans to live more independently. Such training may include training in personal care, nutrition, cooking, and other matters.

The Committees intend that where a VA home health services team finds it necesary to furnish a veteran in a contract facility with services that the facility is expected to furnish in the normal course (such as general nursing services furnished in a community nursing home), the VA consider seeking a reduction in the per diem it is paying for that patient or review the advisability of continuing to place veterans in that facility.

Continuation of certain counseling services for a deceased veteran's family members

S. 2422 (section 206), but not the House bill, would further amend section 601 of

title 38, relating to the definition of "medical services" for the purposes of VA health care, to authorize the VA, in cases in which a veteran's family members were receiving counseling or other mental health services from the VA in connection with the veteran's care and the veteran dies unexpectedly or while participating in a VA hospice program, to continue to furnish such counseling services for up to 6 months after the veteran's death.

The compromise agreement (section 203) contains this provision with an amendment specifying that the counseling may be furnished for "a limited period of time" following the veteran's death and also authorizing such services for family members of veterans who were receiving counseling prior to the veteran's death when the veteran was receiving services similar to hospice service.

The Committees note that the VA would be authorized to offer such services after a veteran's death only to family members who had been in a formal counseling relationship with the VA prior to the veteran's death.

Transition period for readjustment counseling centers

Both H.R. 4623 and S. 2422 include provisions relating to the status of the VA's readjustment counseling program which is carried out pursuant to section 612A of title 38. H.R. 4623 (section 3) would extend by 1 year, until September 30, 1989, the date by which the Administrator would be required to complete a one-year transition of the readjustment counseling program, as required by section 612A(g), from a program offered primarily in free-standing facilities, known as "Vet Centers", to a program offered primarily in VA medical facilities. The House bill would also extend by 1 year, until April 1, 1988, the date by which the VA is required to have completed and sent to the Congress a report on an evaluation of the effectiveness of readjustment counseling services and would extend by 1 year, until July 1, 1988, the date by which the VA is required to have completed and sent to the Congress a report on the plans for the required one-year transition of the readjustment counseling program.

S. 2422 (section 210) would extend the transition period from 1 to 2 years, ending on September 30, 1989, and require that the transition be carried out gradually over the 2-year period. The Senate bill would also extend by 1 year, to October 1, 1987, the deadline for a report on the study, as mandated by Public Law 98-160, of the prevalence and incidence in Vietnam veterans of post-traumatic stress disorder (PTSD) and other post-war psychological problems. In light of the change in the due date for the report on the study, the Senate bill would also modify the two reporting requirements described above to specify that, if the results of the PTSD study are not available by the due dates of those studies (April 1, and July 1, 1987), they are to be prepared and submitted taking into consideration whatever information from the study is then available. The Senate bill would further amend the April 1, 1987, study provision to require the Administrator to provide an evaluation as to whether or not veterans of other wars have needs that would be met by services offered under section 612A. The Senate bill would also add to section 612A(g) a new report from the Administrator to be submitted to the two Committees on Veterans' Affairs by February 1, 1989, on the experience under the first year of the transition, together with any recommendations for change to the transition requirement.

The compromise agreement (section 204) contains a provision derived from these provisions. Under the agreement, the transition period would be extended from 12 months to 24 months ending on September 30, 1989, and the transition would be required to be gradual. The agreement also would modify the two reporting requirements described above to specify that, if the report, as mandated under Public Law 98-160, of the prevalence and incidence of post-traumatic stress disorder and other post-war psychological problems in Vietnam veterans is not completed by the due dates, the reports are to be prepared and submitted taking into account whatever information from that study is then available. The agreement would further require the Administrator, not later than February 1, 1989, to submit to the Committees a report on the experience under as much of the transition as was carried out prior to September 30, 1988, including such recommendations, if any, as the Administrator considers appropriate in light of that experience.

Effect of payment for therapeutic and rehabilitation activities on pension entitlement

S. 1887 (section 503), but not the House bill, would amend section 618 of title 38, relating to therapeutic and rehabilitative activities, to exclude any remuneration provided to individuals as a result of their participation in such activities, from being considered as income in determining eligibility for, or monthly rates of, non-service-connected disability pension paid under Chapter 15 of title 38.

The compromise agreement (section 205) is derived from this provision and would identify funds received by such individuals as a result of their participation in therapeutic or rehabilitative activities carried out under section 618 as "distributions" and provide that, for purposes of chapter 15 of title 38, these distributions be considered as donations from public or private relief organizations which under section 503(a)(1) of title 38 are not considered income for pension purposes.

The Committees expect that the VA will implement this provision in such a way as to not reduce the therapeutic and rehabilitative value of participation in the program to the veteran and will not alter any VA regulation, directive, policy, or practice relating to paying veterans for their participation in these activities.

Contracts and grants for medical care for United States veterans in the Republic of the Philippines

Both H.R. 4623 (section 4) and S. 2422 (section 208) would amend section 632 of title 38, relating to the furnishing of medical care to veterans in the Republic of the Philippines, to extend for 3 years, from October 1, 1986, through September 30, 1989, the VA's existing authority to contract with the Veterans Memorial Medical Center (VMMC) in Manila for the care and treatment of United States veterans in the Republic of the Philippines and would extend the VA's authority to make grants of up to $500,000 annually to the VMMC for the replacement and upgrading of its equipment and the rehabilitation of the physical plant and facilities. Under the Senate bill, any grants would be required to be made semi-annually at six month intervals. The VA would be required to submit the Committees a report on the use and expenditure of the grant funds provided in the most recent 6-month period prior to providing any additional funds for the subsequent 6-month period.

The compromise agreement (section 206) contains a provision derived from these provisions which would extend the VA's authorities by 3 years. The compromise agreement would require the Administrator to submit to the Committees by February 1, 1987, 1988, and 1989, reports on the previous fiscal year's expenditures of the grant funds and would ratify any action taken by the Administrator in contracting for the care and treatment of veterans in the Philippines during the period from October 1 to the date of enactment.

PART B—HEALTH-CARE ADMINISTRATION

Enforcement of State and local traffic laws by Veterans' Administration police officers

S. 2422 (section 211), but not the House bill, would amend section 218 of title 38, relating to laws and regulations enforced by VA police officers on VA property, to provide the Administrator with the authority to enter into agreements with State and local governments pursuant to which VA police officers would be able to enforce State and local traffic laws by issuing citations for any violations of these laws occurring on VA property.

The compromise agreement (section 211) contains this provision.

Regional Medical Education Centers

H.R. 4623 (section 7), but not the Senate bill, would amend section 4121 of title 38, relating to the designation of the VA medical centers as Regional Medical Education Centers (RMEC) for the continuing medical education and training of VA health care personnel, so as to make RMEC program permanent. The House bill would also delete the current requirement that RMEC training be conducted only on an "in-residence" basis and would clarify that RMEC training may be made available to other than direct-care providers, such as counseling psychologists and vocational rehabilitation specialists who are not technically direct care providers. The House bill would also allow the Administrator to enter into reciprocal training agreements for RMEC training with public and nonprofit private entities and would delete the current provision which requires that the VA be "fully reimbursed" for training provided to non-VA personnel and provide instead for giving credit for any other type of contribution by the organization sponsoring such participants.

The compromise agreement (section 212) contains this provision with an amendment permitting reimbursement in the form of reciprocal training of other than direct-care providers.

Period of obligated service under scholarship program

H.R. 4623 (section 8), but not the Senate bill, would amend section 4142(e) of title 38, relating to the obligated-service agreement which each participant in the VA's Health Professional Schorlarship program must execute, so as to change the method of calculating the period of obligated service required for part-time student-participants by requiring 6 months of service as a full-time employee for each calendar year or part of a calendar year in which the participant received scholarship support.

The compromise agreement (section 213) contains this provision.

Period of appointment of certain temporary and part-time health-care personnel

A. Temporary and Part-time Appointments

S. 2422 (section 216), but not the House bill, would amend section 4114(a) of title 38, relating to temporary full-time appointments and part-time appointments, to authorize the Administrator, under certain circumstances, to make temporary and part-time appointments for more than 1 year of certified or registered respiratory therapists, licensed physical therapists, and licensed practical or vocational nurses.

The compromise agreement (section 214(a)) contains this provision.

B. Licensure of psychologists

S. 2422 (section 213), but not the House bill, would amend section 4105(a) of title 38, relating to the qualification of Department of Medicine and Surgery employees, to provide the Administrator with the authority to waive the licensure or internship requirements, or both, for VA research psychologists who are to have no direct patient-care responsibilities.

The compromise agreement (section 214(b)) contains a provision derived from this provision. The compromise agreement would amend section 4114(d) of title 38, relating to temporary full-time and part-time appointments, to provide the Administrator with the authority to waive the licensure requirement for VA psychologists employed on a less-than-permanent, full-time basis in a research or academic position or in a position with no direct responsibility for the care of patients.

The Committees stress that no psychologists employed by the VA pursuant to this authority are to have any patient-care responsibilities.

Report on national drug file

S. 2422 (section 217), but not the House bill, contains a provision requiring the Administrator to report to the Committees within 90 days on the VA's plans to establish and maintain a national drug file.

The compromise agreement (section 215) contains this provision.

Study of Vietnam-era veterans psychological problems

S. 2422 (section 210), but not the House bill, would amend section 102 of Public Law 98-160 regarding the study of Vietnam veterans' postwar psychological problems by requiring the Administrator to pay an appropriate stipend to each individual participating in the study in order to promote the participation of a sufficient number of study subjects.

The compromise agreement (section 216) contains this provision.

PART C—FACILITY CONSTRUCTION AND PLANNING

Consideration of sharing Department of Defense facilities

S. 2422 (section 222), but not the House bill, would amend section 5004 of title 38, relating to the Committees' approval of the construction of VA facilities, to require the Administrator to describe in any prospectus submitted to the Committees in which the construction of a new or replacement facility is proposed what consideration was given to VA-DoD health-care resources sharing as a full or partial alternative to the new or replacement medical facility.

The compromise agreement (section 221) contains this provision with an amendment adding a requirement that the VA give consideration to VA-DoD sharing arrangements before initiating any major VA construction project.

Annual report on facilities construction

H.R. 4623 (section 9), but not the Senate bill, would amend section 5007(a) of title 38, relating to the Administrator's annual report on the construction, replacement, alteration, and operation of medical facilities, to require that that report be based upon the plans and recommendations of the Chief Medical Director.

The compromise agreement (section 222) contains a provision derived from this provision requiring that, before submitting the report, the Administrator consider the analysis and recommendations of the Chief Medical Director.

The Committees believe that the Chief Medical Director should have a major role in the VA medical facility construction planning process and sufficient staff resources to carry out this important function. The Committees note that the Chief Medical Director, with the support of the Department of Medicine and Surgery facilities planning staff, has traditionally developed the construction report to Congress.

Parking facilities

S. 2422 (section 221), but not the House bill, would amend section 5009 of title 38, relating to parking facilities at VA medical facilities. Under the Senate bill, the VA would be required to establish and collect reasonable parking fees at all parking facilities used in connection with a VA medical facility where a garage is constructed, acquired, or altered at a cost of more than $500,000 (or leased for more than $100,000/year), and opens or is completed after September 30, 1986. Paid parking would be discretionary at all other VA medical facilities. Where a fee schedule is established, all individuals would be charged for parking, except for veterans and other eligible individuals seeking treatment, volunteer workers, and employees covered by certain existing union contracts that prohibit the charging of parking fees. Where mandated, fees should be required to recover, at a minimum, the operation of maintenance costs of all parking facilities at a VA medical facility.

The Senate bill would authorize the appropriation of funds into a parking revolving fund to finance parking facility construction, alteration, acquisition, and operation and maintenance costs. After September 30, 1986, the source of funds to be expended for construction, alternation, or acquisition of a garage would be limited to the revolving fund, except for construction planning costs and construction projects for which funds were appropriated prior to fiscal year 1987, which would continue to be funded from construction appropriation accounts. Operation and maintenance costs would be funded from either the revolving fund or from the medical care appropriation account. The Senate bill also would provide transition provisions for employees covered by collective bargaining agreements that, on the date of enactment of the bill, prohibit the VA from charging parking fees.

The compromise agreement (section 223) contains this provision with the following modifications: References to the charging of minimum fees sufficient to recover operation and maintenance costs of parking facilities and the authorization of appropriations to, the expenditure of funds from, and the establishment of a separate checking account in, the revolving fund for operation and maintenance costs for parking facilities, are deleted. The provision which would mandate paid parking is also modified so that paid parking would be required only where parking facilities are built with funds from the parking revolving fund.

The Committee has received information from the Veterans' Administration in connection with the VA's draft proposal for a paid parking program at certain VA medical centers that it intends, if Congress requires some paid parking, to establish a minimal monthly parking-fee-of $20 per parking space for its employees. This proposal is premised on the VA's intent not to charge visitors a fee for parking. The Committees want to emphasize that section 5009 of title 38 as revised by the compromise provision would not exempt visitors from being charged fees for parking where a fee-parking program would be established, because the Committees feel that the costs of fee parking should be shared by visitors, as well as employees. The Committees also emphasize that the VA is authorized to adjust the rates to be established in fee schedules prescribed by the VA to take into account the special circumstances of frequent visitors to long-term patients, the desirability of encouraging employee car/van pools, varying employee pay levels, and night and weekend parking.

Revision of State Veterans' home construction grant program

Both H.R. 4623 (section 10) and S. 2422 (section 223) would amend section 5033 of title 38, relating to the State Veterans' Home construction grant program, to extend for 3 years, through September 30, 1989, the authorization of appropriations for grants to States for the construction, renovation, or acquisition of State Veterans' Home facilities. The House bill would authorize appropriations of $50 million for fiscal year 1987; $60 million for fiscal year 1988; and $65 million for fiscal year 1989. The Senate bill would authorize such sums as may be necessary for the program. The House bill would also remove the restriction of current law (section 5035(d)(2) of title 38) that a State may receive no more than one-third of the amount appropriated in any fiscal year for grants for State home facilities. Further, the House bill would require that priority be given State home grant applications from States which have appropriated sufficient funds for the State share of the project for which the grant application is made and from States which have no State home.

The Senate bill would eliminate the basis for a VA interpretation that current law requires the VA to use a "first-in/first-out" basis for awarding the grants and require the Administrator to prescribe regulations specifying a methodology to prioritize State home grant applications. The Senate bill would also repeal the authority for grants for the expansion of State home hospital facilities and (section 209) specify that VA State home per diem payments are not third party liabilities for Medicaid program purposes.

The compromise agreement (section 224), which is derived from these provisions, would extend for 3 years, through September 30, 1989, the authority for the appropriation of "such sums as are necessary" for State home facility grants; would remove the restriction that a State may receive no more than one-third of the amount appropriated for grants in any one fiscal year; and would eliminate the basis for a VA interpretation that current law requires grants to be awarded in order of the date on which appli-

cations are received. The agreement would also require that, effective July 1, 1987, the Administrator award grants according to a list of approved grant applications, in priority order, established as of July 1, of each year for awards to be made for the subsequent fiscal year. The priorities would be required to be as follows: First, applications for which the State portions of the funding for the projects have been appropriated and are available; second, applications from States that do not have any State home facilities; third, applications from States that have the greatest need for nursing home or domiciliary beds as determined by criteria and procedures specified by the Administrator in regulations; and, fourth, applications meeting any other criteria as determined by the Administrator and specified in regulations. Also, under the compromise agreement, a grant for a hospital-expansion project could be awarded only after all nursing home and domiciliary projects are funded. The Administrator would be required to prescribe regulations, not later than April 1, 1987, for the implementation of the State Home provisions in the compromise agreement.

The Committees intend that a State be considered to meet the requirement for the first priority (having appropriated funds) if sufficient funds have been made available by the State so that construction or acquisition of the facility may proceed upon the approval of the grant without further action by the State in providing funding for the project. In addition, the Committees note that they intend no change in the implementation of present paragraph (2) of section 5035(b) of title 38 (paragraph (5) of section 5035(b) as proposed to be amended) regarding deferral of a current fiscal year approval of an application when the State has not provided adequate financial support for construction of the project by July 1.

PART D—MISCELLANEOUS

Modification of certain reporting requirements

Both H.R. 4623 and S. 2422 would repeal or modify certain provisions of title 38, requiring reports to be submitted to the Congress or the President by the Administrator of Veterans' Affairs. The House bill (section 6) would extend from 2 to 4 years the interval between VA reports on pay comparability for VA physicians and dentists required under section 4117(g)(2) of title 38. The Senate bill would extend that interval from 2 to 3 years. The House bill (section 14) would repeal the requirement under section 612(b)(4) of title 38 for the Administrator to report on contract dental expenditures. The Senate bill would eliminate this report for any year for which the information on expenditures for this program is included in the VA portion of the President's budget. The House and Senate bills would delete the requirement, in section 5057 of title 38, of a report on the exchange of medical information programs authorized under section 5054 of title 38. The Senate bill, but not the House bill, would eliminate the report required under section 201(c)(3) of title 38 on equitable relief.

The compromise agreement (section 231) contains the House provision on the special pay report and the Senate provision on the contract dental care report and would eliminate the requirement for a report on the VA's exchange of medical information program. The agreement does not contain the Senate provision to eliminate the reporting requirement concerning equitable relief.

Ionizing radiation registry

Both H.R. 4623 (section 11) and S. 2422 (section 212) contain provisions requiring the Administrator to establish and maintain an "Ionizing Radiation Registry" which would include the names of veterans who were exposed to ionizing radiation during their participation in the U.S. atmospheric nuclear weapons test program or the occupation of Hiroshima or Nagasaki after World War II who apply for VA health care or compensation (or whose survivors apply for dependency and indemnity compensation (DIC) based on such exposure). Under both bills, the Registry would include certain medical data, compensation claims data, and radiation dose-estimate information related to each veteran listed in the Registry. The Administrator would be required to compile and consolidate for inclusion in the Registry information from the Department of Medical and Surgery, Department of Veterans' Benefits, Defense Nuclear Agency, and other relevant VA or Department of Defense offices.

The compromise agreement (section 232) contains this provision.

The Senate bill, but not the House bill, would specify that, unless a veteran or the veteran's survivor makes a specific request, the Administrator is not required to include in the Registry the name of any veteran who applied for VA health-care services or filed a claim for compensation or whose survivor filed a claim for DIC prior to the date of enactment.

Under the compromise agreement, the Administrator would be required to include, to the extent feasible, the name of any veteran who may have been exposed to ionizing radiation even though the veteran applied for health-care services or compensation benefits (or the veteran's survivors filed a DIC claim) prior to the date of enactment and did not request that his or her name be included in the Registry.

The House bill, but not the Senate bill, would require the Administrator to conduct outreach to provide those veterans exposed to ionizing radiation with information regarding the Registry.

The compromise agreement does not contain this provision.

It is the Committees' intent, however, that the Administrator exercise his authority under section 241 of title 38 to provide outreach services to these veterans to provide them with information about the Registry.

Requirement for Medicare hospitals to participate in Veterans' Administration contract health-care program

S. 2422 (section 214), but not the House bill, would amend section 1866(a)(1) of the Social Security Act, relating to the terms to which hospitals must agree in order to receive Medicare payment for inpatient care provided to Medicare beneficiaries, to add a requirement that, for inpatient care provided in connection with hospital admissions after January 1, 1987, such hospitals accept as payment for VA fee-basis patients amounts to be determined by the Secretary of Health and Human Services and the Administrator of Veterans' Affairs. The Secretary of Health and Human Services would be required to report to the Congress periodically on the number of hospitals that, as a result of this new requirement, terminate their eligibility to receive Medicare payments and the Administrator of Veterans' Affairs would be required to report by April 1, 1987, to the Veterans' Affairs Committees regarding the implementation of this new provision. Thereafter, the Secretary and Administrator would be required to notify the Committees if a hospital's eligibility to receive Medicare payments were, as a result of this new requirement, to be terminated. In H.R. 3500, the House-passed legislation which became the Consolidated Omnibus Budget Reconciliation Act of 1985, now Public Law 99-272, section 10024 contained similar provisions without the requirement for joint regulations.

The compromise agreement (section 233) contains this provision with a revised effective date of June 30, 1987. The Committees expect the Adminstrator and the Secretary to work together to ensure that payment amounts are adequate.

Prohibition against excessing certain Veterans' Administration properties

H.R. 4623 (section 13), but not the Senate bill, would prohibit the Administrator from declaring as excess or taking any other action to dispose of certain specified real property located at two VA medical centers in California. The House bill would also provide that if any of the property is under the jurisdiction of another federal agency on the date of enactment the property must be transferred back to the VA.

The compromise agreement (section 234) is derived from this provision. The compromise agreement would render ineffective any VA action taken before January 1, 1988, in connection with declaring the properties as excess, or with transferring them, relinquishing the VA's interest in them, or disposing of them.

Report on treatment and services for chronically mentally ill veterans

S. 2422 (section 202), but not the House bill, would amend subchapter II of chapter 17 of title 38, relating to hospital, nursing home, and domiciliary care and medical treatment, to add a new section 620B to provide the Administrator with the authority to contract for care and treatment and rehabilitative services in halfway houses, therapeutic communities, psychiatric residential treatment centers, and other community-based treatment facilities for certain eligible veterans suffering from chronic mental illness. A veteran would be eligible to receive such care if, at the time of referral to a contract facility, the veteran (1) was receiving VA hospital, nursing home or domiciliary care for a chronic illness disability, or (2) had a service-connected disability rated at 50 percent or more and has a chronic mental illness disability. The Administrator would be required to approve the quality and effectiveness of the program in a facility before referring veterans to it and to designate a VA health-care employee to provide case-management services for each veteran receiving care under this authority. The Administrator would also be authorized to provide in-kind assistance to a contract facility provided that the VA was reimbursed for the assistance. The Administrator would be required, 3 years after the date of enactment, to submit to the Committees a report on the experience under these authorities.

The compromise agreement is generally derived from this provision. The compromise agreement (section 235) requires the Administrator to submit, not later than December 15, 1987, a report to the Committees on the implementation of the VA's existing contract care authorities and the VA's expanded home health services authority (section 202 of the compromise agreement) for eligible chronically mentally ill veterans.

The Committees support the VA's development of a demonstration project in Region 1 of VA's Department of Medicine and Surgery to provide, when medically appropriate and otherwise feasible, community-based treatment services for eligible chronically mentally ill veterans and expect that the report required by the compromise agreement will include information about the implementation of such a demonstration project. The Committees note that in a June 20, 1986, letter they requested the VA, among other things, to conduct two reviews and evaluations. The first would involve a review of the VA's patient population, particularly elderly veterans and chronically mentally ill veterans, currently receiving services in VA facilities to determine what percentage, if any, of the patients could receive needed care in noninstitutional settings if appropriate alternatives were available. The second review would be of the types of health and health-related services and alternative health-care settings that would enable veterans to avoid the institutional care that the VA would otherwise furnish them. The Committees direct the Administrator to take into account the findings of the reviews and evaluations in implementing the contract care and home health services authorities.

Designation of Veterans' Administration Medical Center in Phoenix, Arizona

SD. 1887 section 511, but no House bill, would name the Veterans' Administration Medical Center in Phoenix, Arizona, the "Carl T. Hayden Veterans' Administration Medical Center".

The compromise agreement (section 236) contains this provision.

PROVISIONS NOT INCLUDED

Disciplinary boards for medical personnel

H.R. 4623 (section 5), but not the Senate bill, would amend section 4110(a) of title 38, relating to disciplinary boards for medical personnel, to limit the use of such boards to cases involving proposed disciplinary actions involving (1) suspensions exceeding 14 calendar days, (2) demotions involving a loss of grade or pay, or (3) discharges of employees.

The compromise agreement does not contain this provision.

Pilot program on hospital management efficiency

H.R. 4623 (section 12), but not the Senate bill, would require the Administrator to carry out a 3-year pilot progam under which the directors of 5 medical centers, to be selected by the Administrator in consultation with the Committees on Veterans' Affairs of the Senate and House of Representatives, would have the authority to waive or alter laws or regulations, specified in each case by the directors, relating to the operation of VA medical centers. The Administrator would be required to submit to the Congress annual reports on the program.

The compromise agreement does not contain this provision.

Outpatient clinic, New Jersey

H.R. 4623 (section 16), but not the Senate bill, would require the Administrator to establish and operate a VA outpatient clinic in central or southern New Jersey.

The compromise agreement does not contain this provision.

Pilot program of noninstitutional alternatives to institutional care

S. 2422 (section 204), but not the House bill, would require the Administrator to conduct a 4-year pilot program, at not less than 5 nor more than 10 demonstration projects, under which veterans eligible for and otherwise in need of VA hospital, nursing home, or domiciliary care, would instead receive care, including health-related services from non-VA entities, in non-institutional settings. Priority for participation in the program would be accorded to veterans with service-connected disabilities, to veterans who are 65 or older, to veterans who are totally and permanently disabled, to veterans who, by reason of blindness in both eyes, have only light perception or are in need of regular aid and attendance, and to veterans who are suffering from dementia, including Alzheimer's disease. The VA would be required to provide case-management services for all veteran-participants.

The compromise provision does not contain this provision.

Services to overcome service-connected disability affecting procreation

S. 2422 (section 205), but not the House bill, would amend section 601 of title 38, relating to the definition of "medical services" for purposes of VA health care, to provide the Administrator with the authority to furnish medical services to a service-connected veteran or the spouse of a service-connected veteran to achieve pregnancy in cases in which the veteran's service-connected disability causes the veteran's inability to procreate.

The compromise provision does not contain this provision.

The Committees note that the House Committee intends to explore the need for such authority in hearings next year.

Eligibility for domiciliary care

S. 2422 (section 207), but not the House bill, would amend section 610(b) of title 38, relating to eligibility for domiciliary care, to provide the VA with the authority to provide such care to veterans who are in need of domiciliary care for the purpose of receiving treatment or rehabilitation and who either have a service-connected disability or are incapacitated from earning a living and have no adequate means of support.

The compromise provision does not contain this provision.

Organization of the department of medicine and surgery

S. 2422 (section 215), but not the House bill, would amend section 4103(a) of title 38, relating to the organization and staffing of the Office of the VA's Chief Medical Director, to establish one new position in that office (a second Associate Deputy Chief Medical Director), to allow new flexibility in the appointment of health-care professionals other than physicians to positions in that office, and to require that appointees to positions in that office be qualified in the administration of health services.

The compromise agreement does not contain this provision.

The Committees note that the House Committee intends to puruse this issue in hearings next year.

TITLE III—EDUCATION AND EMPLOYMENT

PART A—EDUCATION

Apprenticeship or other on-job training under the new GI bill

S. 1887 (section 201), but no House bill, would amend section 1402 of title 38, relating to the definition of a program of education for purposes of chapter 30 of that title, the New GI Bill, to permit individuals training under the New GI Bill to pursue programs of apprenticeship or other on job-training. During the first 12 months of a veteran's participation in such training, the veteran's training allowance would be paid in an amount equal to the full amount of the veteran's educational assistance allowance. For such training pursued beyond that 12-month period the allowance would be paid at the rate of one-half of the full amount of the educational assistance allowance. The veteran's entitlement would be charged based on the amount of the allowance paid.

The compromise agreement (section 301) contains this provision with an amendment to provide that benefits are paid at 75 percent of the full-time rate during the first six months of training, 55 percent of the full-time rate during the second six months of training, and 35 percent of the full-time rate during any subsequent months of training.

The Committees note that section 101 of H.R. 3747, the proposed "Veterans' Education Amendments of 1986", as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986, contained a comparable provision.

Educational assistance for correspondence courses under the new GI bill

S. 1887 (section 203), but no House bill, would amend section 1434 of title 38, relating to the administration of the New GI Bill program, to permit individuals training under the New GI Bill to pursue a program of education through home study.

The compromise agreement (section 302) contains this provision.

Advisory committee amendments concerning new GI bill; provisions relating to reduction of pay

S. 1887 (section 204), but no House bill, would amend section 1792 of title 38, relating to the VA's advisory committee on education, to add to the responsibilities of the committee responsibility for making recommendations to the Administrator with respect to the New GI Bill.

The compromise agreement (section 304) contains this provision with an amendment to name the committee the "Veterans' Advisory Committee on Education". The naming provision is derived from section 104 of H.R. 3747, the proposed "Veterans' Education Amendments of 1986", as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986, which would similarly expand the responsibilities of the advisory committee.

S. 2422 (section 113), but no House bill, would further amend section 1792 of title 38, to delete a requirement that the advisory committee include representatives of veterans of World War II and the Korean Conflict.

The compromise agreement does not contain this provision.

In addition, the compromise agreement (section 303) contains a provision clarifying that the difference between the amount of basic pay received by a participant in the New GI Bill and the basic pay received by other new servicemembers, shall revert to the Treasury and shall not be considered as ever having been received by the new GI Bill participant or to have been within the participant's control. This provision would take effect with respect to reductions made after December 31, 1985, and is derived from section 103 of H.R. 3747, relating to the establishment of a New GI Bill Educational Assistance Fund, as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986.

Certification under new GI bill

For a discussion of this provision in the compromise agreement (section 305), see discussion of section 319, below.

Bar to duplication of benefits

S. 2422 (section 112), but no House bill, would amend present section 1433(a)(1) of title 38, relating to the bar to duplication of VA educational assistance paid to a veteran eligible for benefits under the New GI Bill, to extend the bar to prohibit a veteran from concurrently receiving benefits under that program of educational assistance and under the Hostage Relief Act of 1980.

The compromise agreement (section 306) contains this provision with an amendment that would require individuals who serve in the Selected Reserve and who establish eligibility for benefits under the New GI Bill and under a program of educational assistance established under chapter 106 of title 10, United States Code, to elect under which program of benefits service is to be credited. This amendment is derived from section 106 of H.R. 3747, as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986. The Committees note that section 110 of H.R. 3747 contains a provision comparable to the Senate provision.

Adjustment of delimiting period for individuals entitled to certain combined benefits

S. 1887 (section 202), but no House bill, would amend section 1411(a)(1)(B) of title 38, relating to the period of time in which benefits earned under the New GI Bill may be used, to provide that, in the cases of individuals who are eligible for educational assistance under both the Vietnam-era GI Bill (chapter 34 of title 38) and the New GI Bill and who had left active duty after December 31, 1976, and reentered prior to the enactment of the New GI Bill on October 19, 1984, the delimiting periods for their use of the combined form of chapter 30/chapter 34 benefits (under section 1415(b) of title 38) would be reduced by the amount of time they had been out of the service.

The compromise agreement (section 307) contains this provision.

Work-study allowance under the new GI bill and the post-Vietnam era veterans' educational assistance program

S. 1887 (section 205), but no House bill, would further amend section 1434 of title 38 and also amend section 1641 of title 38, relating to the administration of the Post-Vietnam Era Veterans' Educational Assistance Program (VEAP) (chapter 32), and section 1685, relating-to-the VA's work-study program, so as to permit veterans training under the New GI Bill or VEAP to participate in the work-study program.

The compromise agreement (section 308) contains this provision.

Termination of enrollments in the post-Vietnam era veterans' educational assistance program

The House amendment to S. 1887, as passed by the House on August 15, 1986, would amend chapter 32 of title 38, the Post-Vietnam Era Veterans' Educational Assistance Program (VEAP), to terminate that program for new enrollments, effective July 1, 1985.

The compromise agreement (section 309) contains this provision with an amendment providing that, notwithstanding the termination of VEAP, any individual on active duty in the Armed Forces who was eligible to enroll in VEAP on June 30, 1985, may enroll in this program prior to April 1, 1987, and requiring the Department of Defense to notify servicemembers, to the maximum extent feasible, of this extended opportunity for participation in VEAP.

On-job training under the post-Vietnam era veterans' educational assistance program

S. 1887 (section 206), but no House bill, would amend various provisions of chapter 32 of title 38, relating to VEAP, and add to that chapter a new section 1633, entitled "Apprenticeship or other on-job training", to permit individuals training under VEAP to pursue programs of apprenticeship or other on-job training with benefits paid in a manner similar to that proposed for under the New GI Bill (see discussion of section 301, above).

The compromise agreement (section 310) contains this provision with an amendment relating to the rate at which benefits are to be paid to conform with the manner in which benefits are to be paid for this type of training under the New GI Bill (see the same discussion).

Duration of and limitations on entitlement to post-Vietnam era veterans' educational assistance

S. 1887 (section 207), but no House bill, would amend section 1632 of title 38, relating to the delimiting period for the use of VEAP benefits, to provide, in the case of a veteran who has been prevented from initiating or completing a program of education under VEAP because of a physical or mental disability not the result of the veteran's own misconduct, for the extension of the basic 10-year delimiting period by an amount of time equal to the amount of time that the disability prevented the veteran from pursuing a program of education.

The compromise agreement (section 311) contains this provision.

Educational and vocational counseling

S. 1887 (section 208), but no House bill, would amend section 1663 of title 38, relating to educational and vocational counseling under various VA educational assistance programs, to require that veterans rated incompetent by the VA be provided with educational and vocational counseling prior to their selection of a program of education or training under chapter 30, 32, or 34.

The compromise agreement (section 312) contains this provision.

Delimiting period under the survivors' and dependents' educational assistance program

S. 1887 (section 209), but no House bill, would amend section 1712 of title 38, relating to the period of time during which benefits may be paid to an eligible spouse under the Survivors' and Dependents' Educational Assistance Program (chapter 35), to allow an eligible spouse to elect, subject to the Administrator's approval, a date for beginning the 10-year period of chapter 35 eligibility that is earlier than the date on which the VA made the eligibility determination but not earlier than the date of the event that created the spouse's eligibility.

The compromise agreement (section 313) contains this provision.

Elimination of the requirement for an education plan for survivors and dependents

S. 1887 (section 210), but no House bill, would amend section 1720 of title 38, relating to educational and vocational counseling for survivors and dependents training under the chapter 35 program, to delete the requirement that an educational plan be submitted by a parent or guardian on behalf of a child before benefits are awarded to the child.

The compromise agreement (section 314) contains this provision.

Measurement of certain noncollege degree courses

S. 1887 (section 211), but no House bill, would amend section 1788 of title 38, relating to the measurement of courses as full time or part time for the purposes of payment of VA educational assistance allowances, to permit measurement in a manner comparable to courses or individual classes that are part of programs leading to a standard college degree of both (1) a non-college degree program that is offered by an accredited institution of higher learning and is in the same general field with predominantly the same curriculum as a degree program offered by the same institution, and (2) individual classes leading to a standard college degree that are required as part of a non-college degree program.

The compromise agreement (section 315) contains this provision with an amendment permitting only courses offered by a fully-accredited institution to be measured in this manner.

Payment of educational assistance for certain less-than-half-time training

S. 1887 (section 212), but no House bill, would amend section 1780 of title 38, relating to payment of VA educational assistance allowances for less-than-half-time training, to require that payment of educational assistance allowances for less-than-half-time training be made not later than the end of—rather than during—the month following the month in which an enrollment certification is received.

The compromise agreement (section 316) contains this provision.

Prohibition of benefits under more than one educational assistance program

S. 1887 (section 213), but no House bill, would amend section 1781(b) of title 38, relating to certain restrictions on educational assistance benefits, to bar concurrent receipt of benefits for different programs of education pursued under two or more VA-administered educational assistance programs.

The compromise agreement (section 317) contains this provision.

The Committees note that section 110 of H.R. 3747 contains a provision comparable to the Senate provision.

Reporting requirements for educational institutions

S. 1887 (section 214), but no House bill, would amend section 1784 of title 38, relating to certain reporting requirements applicable educational institutions under VA educational assistance programs, to permit the institutions to delay until the end of the term, quarter, or semester in submitting the certification of the enrollment of eligible VA students in the case of independent study pursued on a less-than-half-time basis, when there is no feasible means for the institution to monitor changes in or termination of enrollments.

The compromise agreement (section 318) contains this provision with an amendment requiring an educational institution to notify veterans at the time of enrollment if such a procedure is being used.

Prohibition of a term-by-term certification requirement

S. 1887 (section 215), but no House bill, would further amend section 1784 of title 38 to prohibit the implementation of any requirement that an educational institution

certify the enrollment of VA students every term or semester for purposes of receipt of VA educational assistance.

The compromise agreement (section 319) contains this provision.

The compromise agreement (section 305) also amends section 1434 of title 38, relating to program administration under the New GI Bill, to conform to this prohibition. This amendment is derived from section 105 of H.R. 3747, as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986, which would prohibit the VA from requiring monthly certifications of enrollments of VA students under the New GI Bill.

Commission To Assess Veterans' Education Policy

S. 1887 (section 216), but no House bill, would establish a Commission on Veterans' Education Policy (with representatives of the education community, the VA, the VA's Advisory Committee on Education, and the Congress) to study, and to submit within 18 months a report on, issues relating to the administration of VA educational assistance programs, including, but not limited to (1) the need for distinctions between certificate and degree courses, (2) measurement of the pursuit of training, (3) the vocational value of correspondence training, and (4) innovative and nontraditional programs of education.

The compromise agreement (section 320) contains this provision with an amendment requiring that the members of the Commission be appointed by March 1, 1987, and that the Commission's study and report include consideration of courses that result in the achievement of continuing education units.

Technical and clerical amendments

S. 1887 (section 217) would make a series of minor technical amendment to provisions of title 38 relating to VA programs of educational assistance.

The compromise agreement (section 321) contains these provisions with an amendment adding certain other technical amendments. The latter amendments are derived from section 110 of H.R. 3747, as ordered reported by the House Committee on Veterans' Affairs on July 29, 1986.

PART B—EMPLOYMENT AND OTHER PROGRAMS

Employment Rights of Certain Individuals

H.R. 2798, but no Senate bill, would amend Section 2021(b)(3) of title 38, relating to retention in employment or promotion of individuals who are members of a Reserve component of the Armed Forces, to provide protection against discrimination for such members in initial employment.

The compromise agreement (section 331) contains this provision.

Veterans' readjustment appointments

H.R. 4384 and S. 2422 (section 104) would amend section 2014(b) of title 38, relating to veterans' readjustment appointments, to extend the authority for such appointments. H.R. 4384 would extend the authority through December 31, 1991. S. 2422 would extend the authority through September 30, 1988. In addition, H.R. 4384 would increase the maximum grade level at which appointments may be made from GS-9 to GS-11, eliminate the 14-year education limitation applicable to Vietnam-era veterans who do not have a service-connected disability, and provide that a service-connected disabled veteran of the Vietnam era who has more than 14 years of education shall be given preference for an appointment over other Vietnam-era veterans who have more than 14 years of education.

The compromise agreement (section 332) contains a provision extending the authority for veterans' readjustment appointments for 3 years and 3 months, through December 31, 1989, with no further changes in the program.

Extension of program of independent living services and assistance

S. 2422 (section 103), but no House bill, would amend section 1520(a) of title 38, relating to the VA's pilot program of independent living services and assistance, to extend the program for 3 years (fiscal years 1987 through 1989) for veterans who have service-connected disabilities so severe that achievement of a vocational goal is *currently* not reasonably feasible, make certain conforming changes, and require the Administrator to provide statistical data to the Committees on Veterans' Affairs, not later than February 1, 1989, regarding participation in the program by veterans during fiscal years 1987 and 1988, along with any recommedations for administrative or legislative action.

The compromise agreement (section 333) contains this provision. In addition, the compromise agreement would remove the word "pilot" from the title of the program.

TITLE IV—HOUSING PROGRAMS AND NATIONAL CEMETERIES

PART A—HOUSING

Specially adapted housing

Both S. 1887 (section 301) and H.R. 2344 (section 5) would amend sections 801 and 802 of title 38, relating to specially adapted housing grants for certain disabled veterans, to provide that such grants are also to be made to eligible disabled veterans (with service-connected blindness or loss or loss of use of both hands) to assist in the acquisition of a residence already adapted with special features determined by the Administrator to be necessary for the veteran by reason of the veteran's disability. The maximum amount of such grants would be equal to the lesser of the fair market value of the special features or $6,000.

The compromise agreement (section 401) contains this provision.

Credit underwriting and loan processing standards

S. 1887 (section 302), but no House bill, would amend section 1810 of title 38, relating to loans guaranteed by the VA for the purchase or construction of a home, to require the Administrator to prescribe regulations which establish credit underwriting standards to be used in evaluating VA home loans, and standards to be used by lenders in obtaining credit information and processing VA home loans. Under the Senate bill, the Administrator would be required to establish credit underwriting standards that include debt-to-income ratios, criteria for evaluating the reliability and stability of the veteran applicant's income, and procedures for ascertaining the monthly income required by the veteran to meet the anticipated loan payments. Such standards would be required to be in accordance with the loan underwriting principles and application procedures generally accepted and used by commercial lending institutions with respect to loans with comparable security arrangements. Lenders making VA-guaranteed loans would be required to certify that the loan was made in compliance with the credit information and loan processing standards established by the Administrator. The Senate bill would provide for a civil penalty (the greater of twice the VA's loss or an amount up to $10,000) to be paid by any lender who knowingly and willfully makes a false certification with respect to compliance with these standards. The Administrator would be given the authority to waive the credit underwriting standards if the Administrator determines that a veteran applicant is a satisfactory credit risk. Finally, under the Senate bill, the Administrator would be prohibited from making loans for the purchase of a property unless the purchaser meets the credit underwriting standards established for VA-guaranteed loans.

The compromise agreement (section 402) contains these provisions with an amendment deleting the requirement for credit standards for VA-guaranteed loans to be the same as those used by lending institutions for non-VA loans with comparable security agreements.

Foreclosure information

S. 1887 (section 304), but no House bill, would amend section 1816 of title 38, relating to procedures on default on VA-guaranteed home loans, to require additional action by the Administrator and holder of a VA-guaranteed loan. Under the Senate bill, the holder of a VA-guaranteed loan would be required to promptly notify the Administrator of any failure of the veteran to make, in full, 2 monthly payments. The Administrator would then be required to notify the veteran of the new requirement that the holder of a loan in default initiate foreclosure proceedings within 15 days after the veteran has failed to make, in full, 4 monthly payments. The Senate bill would also relieve the VA of liability for interest accrued on a loan in default between the time when foreclosure proceedings were required to have been initiated and such time as they are. Finally, under the Senate bill, the Administrator would be required to identify the common factors contributing to defaults on VA-guaranteed loans and include the findings in this regard in the VA's annual report to Congress.

The compromise agreement (section 403) is derived from the Senate bill.

The compromise agreement would require the Administrator to identify the common factors contributing to defaults on VA-guaranteed loans and include findings in this regard in the VA's annual report to the Congress and require a separate analysis, and reporting thereon, of delinquent loans which had previously been assumed by another party.

Competitive contracting requirements

S. 1877 (section 305), but no House bill, would amend section 1820(b) of title 38, relating to contract requirements for services and supplies, to conform the threshold amount at which contracts must be formally advertised to the amount specified in section 5 of title 41, United States Code.

The compromise agreement (section 404) contains this provision.

Authority to transfer funds

S. 1887 (section 305), but no House bill, would amend section 1823 of title 38, relating to the Direct Loan Revolving Fund (DLRF), to require the Secretary of the Treasury to transfer from the DLRF to the Loan Guaranty Revolving Fund such funds as the Administrator determines are not needed in the DLRF, and to require the Administrator to notify Congress when such transfers take place.

The compromise agreement (section 405) contains this provision.

Use of attorneys in home loan foreclosures

S. 1887 (section 307), but no House bill, would amend section 1830(a) of title 38, relating to the use of attorneys in court, to authorize the Administrator to acquire the services of fee-basis attorneys, without the concurrence of the Attorney General, to exercise the right of the Federal government to bring suit to foreclose a VA-guaranteed loan and/or to recover possession of any property acquired by the VA.

The compromise agreement (section 406) contains this provision.

Appraisals

S. 1887 (section 308), but no House bill, would further amend chapter 37 of title 38 to add a new section 1831, relating to value appraisals of property that would secure loans made or guaranteed by the VA. Under the Senate bill, the Administator would be required to prescribe standardized examinations and qualifications to be used in determining whether to approve an appraiser to make appraisals on a fee-basis for the VA. The Administrator would also be required to consult locally with representatives of the mortgage lending community for the purposes of developing and maintaining lists of appraisers approved to appraise property for the VA, and to select appraisers on a rotating basis for that purpose. After the appraisal is performed, the Administrator would be required to provide a copy of the appraisal report to the prospective lender before issuing a Certificate of Reasonable Value (CRV) for that property. Under the Senate bill, the lender would have the option of requesting a second appraisal to be performed by an approved VA fee-basis appraiser of the lender's choice which would be required to be considered by the Administrator prior to the issuance of a CRV. Finally, the Senate bill would require the Administrator to establish fee limitations for appraisals that are not below the prevailing market rates.

The compromise agreement (section 407) is derived from these provisions. Under the compromise agreement, the Administrator, after consultation with representatives of the mortgage lending community, would be required to prescribe uniform qualifications to be met by appraisers performing appraisals for the VA. The compromise agreement contains the provisions concerning the development and maintenance of the lists of approved appraisers, and the rotating selection process. The agreement also contains the provisions allowing for a second appraisal to be furnished to the Administrator by the proposed lender, but prohibits the cost of such appraisal to be incurred by the prospective veteran purchaser. The compromise provides that the veteran be afforded the same opportunity at the veteran's expense to provide the Administrator with an additional appraisal performed by an approved VA appraiser. Under the compromise agreement, the VA would issue a CRV after the initial appraisal is performed, and if, within a specified length of time prescribed by the Administrator, a second appraisal is provided to the VA, the VA would consider the appropriateness of issuing a revised CRV. Finally, the provision relating to minimum fees to be paid to appraisers is deleted.

The Committees note that nothing in this provision is intended ot change current law, or VA regulations or practices, with respect to the VA's use of its own staff appraisers.

Furnishing information to real estate professionals to facilitate the disposition of properties

S. 1887 (section 309), but no House bill, would further amend chapter 37 of title 38 to add a new section 1832 requiring the Administrator to furnish to real estate brokers and other real estate professionals information on the availability of property for disposition and the procedures used by the VA to dispose of such property.

The compromise agreement (section 408) contains this provision.

Home loan origination fee

H.R. 2344 (section 6), but no Senate bill, expresses the sense of the Congress that the 1-percent loan origination fee currently charged under section 1829 of title 38 to veterans using their VA loan guaranty entitlement should not be increased as has been proposed by the Administration.

The compromise agreement (section 409) contains a provision derived from this provision. Under the compromise agreement, the Congress makes no findings with regard to the 1-percent loan origination fee and simply expresses the sense of the Congress that the fee should not be increased above the 1-percent level. The agreement also reflects that current law calls for section 1829 of title 38 to sunset on October 1, 1987.

Loan guaranty amount

S. 1887 (section 303), but no House bill, would amend sections 1810 and 1811 of title 38, relating to the maximum amount of land-guaranty entitlement available to eligible veterans, to increase such entitlement from $27,500 to $33,500.

The compromise agreement does not contain this provision.

Task force on property management and disposition

S. 1887 (section 310), but no House bill, would require the Administrator to establish a task force for the purpose of developing effective methods for the exchange of information between the VA and the real estate community on efficient property management and dispositon and to advise the Administrator on ways to improve the manner in which the VA manages and disposes of property.

The compromise agreement does not contain this provision.

The Committees recognize that the VA is currently working to establish more effective property management and disposition practices and intends to closely monitor its efforts.

Property management and disposal pilot program

S. 1887 (section 311), but no House bill, contains a provision relating to a property management and disposition pilot program. Under the Senate bill, the Administrator would be required to contract with one or more commercial organizations for the purpose of determining the effectiveness, feasibility and desirability of contracting with such organizations to manage and dispose of VA-acquired property.

The compromise agreement does not contain this provision.

The Committees recognize that the VA is currently taking steps to examine the possibility of implementing such a program.

Acquisition of foreclosed properties

S. 2422 (section 111), but no House bill, would amend section 1816 of title 38, relating to procedures on default and foreclosure, to prohibit the Administrator from accepting conveyance of the title to a property securing a VA-guaranteed loan which has been foreclosed unless the Administrator determines that the VA is likely to be able to sell such property within 12 months after the date of foreclosure at a price which is economically advantageous to the government.

The compromise agreement does not contain this provision.

However, the Committees did receive from the Congressional Budget Office an estimate of the cost of implementing such a provision. The CBO estimate indicated that the provision would be cost effective, and for that reason that Committees intend to monitor the VA's property acquisition practices and to request the Congressional Budget Office to undertake an economic assessment of the VA's current practice in this regard and of the effects of such a provision.

PART B—NATIONAL CEMETERIES

National cemetery grave markers

Both S. 1887 (section 401) and H.R. 2344 (section 3) would amend section 1004 of title 38, United States Code, relating to the administration of the National Cemetery System, to specify what types of grave markers are to be used. The House bill would require that, with respect to markers for the graves of persons who die after September 30, 1985, all markers in National Cemeteries be upright except where a request is made for a flat marker; in the case of such request, the individual would be buried in cemetery sections required to be designated for graves with flat markers. The House bill would also provide that during the period October 1, 1985, through December 31, 1985, the Administrator could waive the requirement for upright markers in the cases of individuals being buried during that period in a cemetery having no section designated for graves with upright markers and could deny requests for flat markers in a cemetery having no section designated for flat markers. Finally, the House bill would require that, not later than January 1, 1986, the Administrator designate in each National Cemetery an area where flat markers are to be used and an area where upright markers are to be used.

The Senate bill would generally require that after June 30, 1986, all new markers in National Cemeteries be flat, but would require that (1) the Administrator designate space in each National Cemetery (except for those established before January 1, 1986, in which upright markers have never been used) for the use of upright markers, and (2) in the case of an individual who dies after July 1, 1986, an upright marker be used if a request were made for one and space were available in a designated section.

The compromise agreement (section 411) would require upright markers in all National Cemeteries for interments which occur after January 1, 1987, with two exceptions. First, the requirement for upright markers would not apply to cemeteries closed or scheduled to close prior to September 30, 1991, as indicated in the VA materials submitted in justification of the President's budget for fiscal year 1987. Second, the compromise would permit the Administrator to continue to furnish flat markers in an open section where flat markers are being used on the date of enactment, until the section is completed.

Reports on the National Cemetery System

Both S. 1887 (section 402) and H.R. 2344 (section 2) would amend section 1000 of title

38, relating to the National Cemetery System, to require certain reports on the system. The House bill would require the Administrator to submit an annual report which would be required to include a 5-year plan for National Cemetery construction and expansion, a list of 10 areas n which the need for additional burial space for veterans is the greatest, and general plans for expansion of the system. The Senate bill would require the Administrator to submit two reports (one 18 months and one 60 months after enactment) on the National Cemetery System and to include in each a plan for operation of the system through the year 2000, trends through the year 2020, a list of 10 areas in which the need for additional burial space for veterans is the greatest, and general plans for any anticipated expansion of the system.

The compromise agreement (section 412) follows the Senate provision with the first report required within 90 days after the date of enactment.

Memorial areas in Arlington National Cemetery

S. 1887 (section 403), but no House bill, would amend chapter 75 of title 10, United States Code, to authorize the Secretary of the Army to place memorials in Arlington National Cemetery to honor the memory of certain servicemembers and veterans, otherwise eligible for burial in Arlington National Cemetery, whose remains are not available for interment.

The compromise agreement (section 413) contains a provision adding this authority to chapter 24 of title 38.

Authority to establish national cemeteries

Both H.R. 4345 and the Senate amendment to H.R. 4345 contained provisions relating to the establishment of certain national cemeteries. The House bill would authorize the Administrator to establish a national cemetery in or near Cleveland, Ohio. The Senate amendment would specify that the existing authority of the Administrator under chapter 24 of title 38 to develop and acquire cemeteries includes, but is not limited to, the authority to establish new national cemeteries to serve the needs of veterans and their families in 10 specified regions of the United States as well as in any State where there is no open national cemetery.

The compromise agreement (section 414) contains the Senate amendment.

Establishment of a national cemetery in northern California

H.R. 2344 (section 4), but no Senate bill, would require the Administrator to accept a donation of a certain tract of land in Merced County, California, and to establish a National Cemetery on such land.

The compromise agreement does not contain this provision.

The Committees note that the Administrator has decided administratively to take these actions.

TITLE V—ADMINISTRATIVE PROVISIONS

Clarification of requirement for a detailed plan and justification for administrative reorganization

S. 1887 (section 501), but no House bill, would amend section 210(b)(2) of title 38, relating to the manner in which the VA may undertake certain administrative reorganizations, to provide a definition of the "detailed plan and justification" which the VA must provide to the Congress before the VA is permitted to implement certain administrative reorganizations.

The compromise agreement (section 501) contains this provision.

Collocation of regional offices and medical centers

S. 1887 (section 506), but no House bill, would require the VA to submit a plan and timetable for the collocation as soon as practicable of 7 DVB regional offices to the grounds of VA Medical Centers. The VA would be required to report to the Congress on the costs and savings, advantages and disadvantages of such collocations. The report could also include an assessment of the advantages, disadvantages, and costs of combining regional offices located near each other.

The compromise agreement (section 502) contains this provision except that the plan must be submitted by March 1, 1987, the regional offices to be collocated must be located in the same metropolitan area as the Medical Center with which they would be collocated, and the authority for the VA report to assess the advantages and disadvantages of combining regional offices located near each other is deleted.

Effective date of discontinuance of certain benefits paid to incompetent individuals

S. 1887 (section 504), but no House bill, would amend section 3203(b)(1)(A) of title 38, relating to the interruption of benefit payments to incompetent institutionalized veterans without dependents due to the size of their estates. The Senate bill would increase, from $1500 to $6000, the amount allowed in such a veteran's estate before payment of compensation or pension would be interrupted. Under the Senate provisions, interrupted benefit payments would be resumed when the value of the estate falls to $200 rather than the $500 provided by current law.

The compromise agreement (section 503) is derived from this provision. The compromise agreement would amend section 3203 to make interruption of benefits effective on the first day of the month following the institutionalization of such an incompetent veteran without dependents.

Administrative debt collection by offset of benefits

S. 2422 (section 116), but no House bill, would amend section 3101 of title 38, relating to the non-assignability of benefits payable by the VA and limitations on the collection of debts by offset or otherwise, to permit the VA to collect, by means of offset from compensation or pension, certain overpayments in military retired or retainer pay, or overpayments resulting from participation in the Survivor Benefit Plan (SBP) or Retired Servicemen's Family Protection Plan (RSFPP). Such collection would be limited to veterans who would be in receipt of military retired or retainer pay were it not for their election to waive retired or retainer pay in order to receive VA disability compensation. The military service department must attempt collection and determine the debt to be uncollectable before requesting VA collection by means of offset.

The compromise agreement (section 504) contains this provision with an amendment limiting it to debts resulting from a retired servicemembers' failure to make required SBP or RSFPP payments.

The Committees note that, while the compromise agreement does not provide for collection of debts in retired or retainer pay accounts, such a provision would be reconsidered if submitted by the Administration as part of a package also providing for collection by the Department of Defense of debts owed by servicemembers or retirees to the VA as well as collection by the VA of debts owed to the Department of Defense.

Disclosure of financial information by fiduciaries

Both H.R. 5299 (section 201) and S. 2422 (section 114) would amend section 3202(b) of title 38, relating to financial information provided to the VA by fiduciaries entrusted with the management of the veterans' benefits of incompetent or minor beneficiaries, to make clear that the VA may suspend payments to a fiduciary who fails to provide the VA an accounting of all the funds and assets of the beneficiary which are known to the fiduciary.

The compromise agreement (section 505) contains this provision.

Location of VA regional offices

H.R. 2343 (section 2), but no Senate bill, would require the VA to maintain at least one VA regional Office in each state to process claims for disability and death compensation, pension, and educational benefits and to process applications for home loans.

The compromise agreement does not contain this provision.

The Committees note that this provision was initiated in response to an Administration proposal to consolidate the 58 current regional offices into 3 central locations. This consolidation proposal is apparently no longer under consideration, but the Committees express the view that a future proposal for such a consolidation would be viewed with disfavor.

Definition of active duty status for National Guard operational duty

H.R. 2343 (section 6), but no Senate bill, would amend section 101(22)(c) of title 38, relating to the definition of "active duty", to expand the definition of "active duty", for purposes of eligibility for benefits provided by title 38, to include active duty for training performed for operational purposes by National Guard members in Active Guard and Reserve and Active Duty Support status.

The compromise agreement does not contain this provision.

Definition of the Vietnam era

S. 1887 (section 502), but no House bill, would amend the definition of the Vietnam era in section 101(29) of title 38 to add the period from February 21, 1961, through August 4, 1974, in the case of veterans who served in the Republic of Vietnam during that period.

The compromise agreement does not contain this provision.

Waiver of waiting period for administrative reorganization

S. 2422 (section 115) would waive the waiting period prescribed by present section 210(b)(2) of title 38—which provides, in part, that the VA may not in any fiscal year implement certain administrative reorganizations unless the Administrator, not later than the date on which the President submits the budget for that year, provides a report containing a detailed plan and justification for the reorganization—with respect to a reorganization involving the transfer of the Presidential Memorial Certificates (PMC) program from the VA's Office of Administration to the VA's Department of Veterans' Benefits (DVB) and of the Audio Visuals Service (AVS) from the VA's Office of Administration to the Office of the Associate Deputy Administrator for Public and Consumer Affairs.

The compromise agreement does not contain this provision.

The Committees note that on October 1, 1986, the VA transfer of the PMC program to DVB occurred and that, on September 26, 1986, the VA notified the Committees that it had decided to postpone the transfer of the AVS.

TITLE VI—EXEMPTION OF CERTAIN PROGRAMS FROM BUDGET REDUCTION

Treatment of certain veterans' programs under Balanced Budget and Emergency Deficit Control Act of 1985

H.R. 5299 (section 202), but no Senate bill, would add two new sections to title 38, United States Code, to exempt from across-the-board reductions under the Balanced Budget and Emergency Deficit Control Act of 1985, Public Law 99-177, or any other law requiring those kinds of general reductions, certain veterans' benefit programs, principally those available to veterans with service-connected disabilities. The House bill, effective with respect to fiscal year 1987 and subsequent fiscal years, would exempt from any such "sequestration" reduction under Public Law 99-177 the following VA benefits payable as the result of a disability which was incurred or aggravated during military service or a death resulting from a service-connected cause:

1. Specially adapted housing benefits and mortgage protection life insurance for veterans who require special accommodations in their home as a result of a service-connected disability.

2. Burial benefits for veterans who die as a result of a service-connected disability.

3. Grants for automobiles and adaptive equipment to permit veterans with severe disabilities to acquire or operate motor vehicles.

4. Vocational rehabilitation assistance for certain veterans with service-connected disabilities.

5. Educational benefits payable to dependents of veterans with service-connected disabilities rated totally disabling and to survivors of veterans who die of service-connected causes. The House bill would provide that the amounts for the payment of these exempted benefits would be excluded in the computation of the amount to be sequestered from an account from which any of the above benefits are paid.

The House bill would also exempt from sequestration, effective with respect to fiscal year 1986 and subsequent fiscal years, VA home loan guaranties and insurance policy loans under the various VA-administered life insurance programs. In addition, the House bill would exempt, effective with respect to fiscal year 1987 and subsequent fiscal years, the VA Special Therapeutic Rehabilitation Activities Fund and the Canteen Service Revolving Fund from any mandatory reduction under Public Law 99-177.

With respect to two programs, GI Bill education assistance and non-service-connected burial benefits, for which no exemption is proposed, the House bill would modify the manner in which any sequestration would be carried out in fiscal year 1987 or subsequent fiscal years. Instead of sequestration reductions being made in all payments made while a sequester order is in effect, as under current law, the reductions would be made in payments for education or training pursued, and for deaths that occurred, during the period that the order is in effect.

The compromise agreement (section 601) contains these provisions with an amendment limiting to only fiscal year 1987 the exemptions for vocational rehabilitation and survivors' and dependents' education benefits; postponing to fiscal year 1987 the effective date for the exemption for insurance policy loans; deleting the exemption for VA home loan guaranties; and requiring that, in the event of a sequester affecting the home loan guaranty program, the VA submit to the Committees a monthly report on the guaranty program's current and projected activity levels during the fiscal year involved. With the exception of the fiscal year 1987 exemption for dependents' and survivors' education benefits, S. 2885 as reported on September 27, 1986, by the Senate Committee contained provisions to exempt the same programs, as well as a provision to require the loan guaranty report.

In conjunction with the provision linking sequestration reductions in the non-exempt programs to the period during which the event giving rise to the payment occurred rather than the period during which payment is made, the compromise agreement would require that the amounts of the reductions which would occur after the end of the sequester period be counted in determining the benefit reductions required in order to satisfy the sequestration.

TITLE VII—MISCELLANEOUS

H.R. 5047, but no Senate bill, would amend various provisions of title 38 and other provisions of law to eliminate gender-based language distinctions and make technical corrections.

The compromise agreement (title VII) contains these provisions.

The Committees note that none of the amendments to eliminate gender-based language distinctions are intended to have a substantive effect.

FIREFIGHTERS TO BE HONORED AT NATIONAL MEMORIAL SERVICE

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. WALGREN. Mr. Speaker, on Sunday, October 12, 1986, 122 career and volunteer firefighters who lost their lives in the line of duty during 1985 will be honored at the National Fallen Firefighters' Memorial located on the campus of the National Fire Academy in Emmitsburg, MD. Of these, 14 lived and worked in the Commonwealth of Pennsylvania.

Annually, on the Sunday immediately following National Fire Prevention Week, a ceremony is conducted at the National Fallen Firefighters' Memorial to pay tribute to those brave men and women of the fire service who died in the previous year. During this service, attended by family members and fellow firefighters from across the country, a plaque listing the name of each fallen firefighter is unveiled and made a permanent part of the memorial.

I hope you will join me in honoring the 122 firefighters who lost their lives in the noble tradition of unselfish service to their community. The names and addresses of the 14 Pennsylvania firefighters are listed below:

John F. Moore, Cochranton Volunteer Fire Department.

Robert Binder, Edinboro Volunteer Fire Department.

John C. Edwards, Hunlock Creek Volunteer Fire Company.

Phillip R. Eicke, Kingston Fire Department.

Carmen A. Lettieri, McKeesport Fire Department.

Katherine M. Hippensteel, New Oxford Fire Company.

H. Gordon Walker, Norristown Fire Department.

Donald G. Jacobs, Reading Bureau of Fire.

Francis C. Lewis, Russell Volunteer Fire Department.

John J. Durco, Sr., Salem Township Volunteer Fire Company 2.

Jack Greer, Spangler Volunteer Fire Company.

Frank Poatsy, Upper Salford Volunteer Fire Company.

Thomas J. Gibson, Union Fire Company.

Vernon H. Harmon, Valley Inn Volunteer Fire Department.

IN HONOR OF MONTY BASGALL

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. LEVINE of California. Mr. Speaker, last Sunday Monty Basgall ended his distinguished 14-year career as a coach with the Los Angeles Dodgers and his superb 27-year career with the Dodger organization.

During his service with the Dodgers, Monty has served as a scout, minor league manager, and major league coach.

For almost a decade and a half Monty has been a key ingredient in the Dodgers efforts to build one of the most successful and admired organizations in baseball. He is known as one of the finest teachers in the game. His star pupils have included Steve Garvey, Ron Cey, Bill Russell, Davey Lopes, Jim Lefebvre, and Ted Sizemore.

In addition to his impressive accomplishments as a coach, Monty had a distinguished playing career as a second baseman in Pittsburgh Pirates and Dodger organizations. I remember watching Monty when he was a second baseman with the Hollywood Stars. I have been cheering for him since I was 8 years old.

Mr. Speaker, Monty Basgall is a man I am proud to call my friend. He is a remarkable man and a recognized leader in his profession.

I ask my colleagues to join with me in paying tribute to Monty Basgall and wish him and his beautiful wife, Nita, well in their retirement and future endeavors.

FASTERS GIVE LIFE TO CONTRA DEBATE

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. EDWARDS of California. Mr. Speaker, there are four men on the steps of the Capitol

who have made a moral commitment to ending our illegal war in Nicaragua. Charlie Litkey, Duncan Murphy, George Mizo, and Brian Wilson, all veterans of the Vietnam conflict and World War II, are fasting and praying for peace. These four men have all committed their lives to making a difference. I have met with these men, and was struck by their strength, sincerity, and determination. Americans need the good judgment and wisdom of these brave men.

The vast majority of the American people are opposed to U.S. involvement of any kind with the outlaw counterrevolutionaries of Nicaragua. The American people don't want to give the Contras money for gun running, kidnaping, and drug trafficking. These illegal acts contradict America's basic values of freedom, fairness, and the rule of law.

I am very grateful to Charlie, Duncan, George, and Brian, for their courageous stand has revitalized the debate on Contra aid. Yet, our time is short. Very rapidly, our involvement in Nicaragua is deepening. It is now time to reaffirm our strong opposition to this senseless war. The suffering must be stopped, and the quest for peace must be resumed with a new vigor.

I am proud to stand with these four Americans against our war in Nicaragua.

THE STOCKHOLM PACT: A STEP IN THE RIGHT DIRECTION

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. GARCIA. Mr. Speaker, the recent signing of the pact in Stockholm on movement of troops in Europe by 35 European and North American nations did not signal the end of the cold war, but it was a positive step toward reducing East-West tensions.

As chairman of the North Atlantic Assembly's Civilian Affairs Committee, I have come to appreciate more fully how much that tension weighs heavily on our European allies, and how significant the pact is to their own sense of security. While we in the United States may look to the Helsinki accords as primarily a document on human rights, to our European allies it is much more. The Stockholm past is the fruition of that belief.

I am submitting for the RECORD an article from the September 28 edition of the New York Times on the pact for my colleagues' perusal. I think it gives a fair description of the importance of the Stockholm pact.

STOCKHOLM PACT IS "A BLOW FOR PEACE" AND REAGAN'S FRIENDS

(By James M. Markham)

There was an ambivalent mood of elation and anxiety in some European capitals last week. After almost three years of deliberation in Stockholm, diplomats from 35 nations had agreed to a landmark accord, dealing with the movements of military forces, that could make war less likely on the continent. This produced some elation.

"It's literally a blow for peace," remarked a top British foreign policy adviser, a man not given to gushing. Although not in itself a disarmament agreement, the Stockholm pact contains a precedent that could usefully apply to future arms-control understandings, between Moscow and Washington. For the first time, the Soviet Union has agreed to on-site inspections—in this instance, permitting observers from other nations to be flown into areas of military maneuvers to make sure that an attack is not imminent.

The 35 signatories—all the countries of Europe, east and west, except Albania, plus the United States and Canada—also promised to give notice six weeks in advance of military maneuvers involving at least 13,000 toops or 300 tanks. Five years ago, this provision would have made it awkward for the Soviet Union to hold the maneuvers it staged in Poland aimed at intimidating the militant Solidarity movement.

For skeptics, who recall that NATO observers at past Warsaw Pact exercises were handed glassless binoculars by their East European hosts, it remained to be seen how the three annual inspection challenges allowed each nation under the new pact would be implemented.

Agreement in Stockholm had nearly foundered after the Soviet delegation refused to countenance a proposal that foreign planes fly observers to the sites of maneuvers. When the American delegation dug in on this point, Chancellor Helmut Kohl and Prime Minister Margaret Thatcher intervened with President Reagan, urging flexibility. The British and West German leaders recalled that an American hard line had sabotaged a 35-nation human rights gathering at Bern in May, making it difficult for them to persuade home audiences that America stood on the side of East-West cooperation. Mr. Reagan gave the word to relent on the airplane issue, and the way was cleared for a breakthrough.

These frictions hint at the differing American and West European perceptions of the so-called "Helsinki process," which was initiated in the Finnish capital in 1975 when heads of state and government signed a Final Act that turned out to be the high-water mark of détente. The Stockholm and Bern conferences—and a full-scale review conference that assembled for the first time in Vienna last week—are all offspring of the Final Act.

Yet, particularly after Stockholm, the United States is determined that the human rights aspects of the Helsinki document be given vigorous emphasis, not just in paper commitments but in deeds. At Vienna, an American push on human rights will seek to counter the Soviet interpretation of Helsinki as a document about security. The detention in Moscow of the American journalist Nicholas S. Daniloff, moreover, has injected actually into a British proposal for a Final Act follow-up conference on the news media.

Despite the Daniloff case, a sense that Washington and Moscow are groping toward a second summit meeting is a political boon for Mr. Kohl, who faces elections in January, and Mrs Thatcher, who may call one later next year. And, if the shimmering outlines of a superpower accord on medium-range missiles become firmer, the German and British leaders are poised to argue that NATO steadfastness and sticking with Mr. Reagan have paid off in terms of Soviet concessions.

ETHNIC TURKS IN BULGARIA

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FEIGHAN. Mr. Speaker, Amnesty International is concerned about reports that ethnic Turks have been imprisoned, forcibly resettled or deliberately killed during a campaign of enforced assimilation of the ethnic Turkish minority in Bulgaria. Such forced assimilation is in contravention of a number of international obligations, most notably article 27 of the International Covenant on Civil and Political Rights which was ratified by Bulgaria on September 21, 1970. This Covenant states:

In those states in which ethnic, religious, or linguistic minorities exist, persons belonging to such minorities shall not be denied the right—in community with the other members of their group—to enjoy their own culture, to profess and practice their own religion, or to use their own language.

The official Government-sponsored campaign by Bulgaria to stamp out every vestige of the ethnic identity of its Turkish minority continues. It has involved extreme brutality in forcing the Turks in Bulgaria to abandon their true identities, their language, their culture, and even their names. This ugly campaign, which has included rape and murder, has been denounced by every recognized international human rights authority—such as Amnesty International and Helsinki Watch—as well as by the European Community and by our own Government.

Jack Anderson has published two accounts of this Bulgarian travesty in the July 21 and August 2 issues of the Washington Post. I submit copies of those accounts for the RECORD:

[From the Washington Post, Aug. 2, 1986]

TORMENT OF BULGARIA'S TURKS DESCRIBED

The barbaric treatment of Bulgaria's large Turkish minority by the communist government in Sofia is designed with one goal in mind: to root out every vestige of Turkish culture, including language, characteristic names and the Moslem religion.

A classified State Department cable last month recounted the emotional testimony of ethnic Turkish eyewitnesses describing the horrors of life in Bulgaria to a committee of the Council of Europe meeting in Istanbul. The cable notes that some of the witnesses were "at times near hysteria" as they told of the primitive brutality practiced on their relatives and friends in the Turkish communities of Bulgaria.

Our associate Lucette Lagnado has seen the cable with the harrowing descriptions by the witnesses. Here are excerpts:

A woman named Gungordu, who was born in Bulgaria and left in 1978, returned in 1984 to visit her parents and other relatives. Her stay, in a hotel tightly controlled by Bulgarian police, was limited to seven days. It was more than enough.

Gungordu said her native province of Kurdzhali, which is 75 percent Turkish, seemed to be in mourning. "Names had been violently changed," she said. "They were beating people. They were wounding people. They were holding people by the neck on

the ground, forcing them to sign [documents implementing the name changes]."

Old people were beaten, including an 85-year-old, she testified, and when wounded ethnic Turks were taken to hospitals, "doctors and nurses forced people to sign." She quoted the authorities as telling the victims, "You are Turks no longer. . . . You cannot speak Turkish anymore."

Almost breaking down at one point, Gungordu cried out: "We cannot get letters. We cannot telephone. Our old people die calling out our names! They [government officials] even removed tombstones from the graves to change names."

A woman named Urtun recalled her 1983 visit to her family in Bulgaria. "My 63-year-old father [was] not served in stores because he does not speak Bulgarian. People [were] tied with ropes and pulled by trucks for refusing to change their names. People [were] being beaten with guns and sticks for resisting the name-change campaign." She said she could "stand it only for one week."

A man named Bilaloglu, also from a village in Kurdzhali, said the anti-Turkish campaign began in 1984. "There was genocide," he said. "There was torture." He recounted one chilling incident: "Soldiers and dogs once surrounded my village. Then the soldiers, in teams of two or three, went to each house, forcing us to sign a document changing our names."

Bilaloglu, who later escaped into Greece, said that every one of the Turks' religious customs were outlawed and that special signs were posted at bus stops forbidding the use of the Turkish language.

Bilaloglu said his children were taken away by the Bulgarian government. "I have been told they will be returned in 10 years," he said, "but I do not know the situation now. I do not know what is happening."

[From the Washington Post, July 21, 1986]

BULGARIA SUPPRESSES TURKISH MINORITY

(By Jack Anderson and Dale Van Atta)

Cultural genocide is being systematically practiced against Bulgaria's Turkish minority by the communist regime. Those who resist the government's attempts to stamp out all traces of Turkish language and customs, and the minority's adherence to the Moslem religion, are either imprisoned or shot.

The plight of Bulgaria's ethnic Turks, who number about 1 million, or nearly 10 percent of the population, is described in cables to the State Department from the U.S. Embassy in Sofia. Our associate Lucette Lagnado has seen the cables and interviewed experts on the subject. Here's what she learned about this little-publicized tragedy:

The communist regime does not acknowledge that there are Turks in Bulgaria. One embassy cable noted that the government "eliminated from statistical existence more than 1 million persons previously identified as [Turks]." This official creation of "unpersons" is "a socio-political feat of truly Orwellian proportions," the cable commented.

In the past two years, the embassy reported, there have been "well-documented . . . police terror tactics used to isolate remote villages and force inhibitants to change their full names from Islamic to Slavic/Christian Bulgarian names."

The embassy reported violence when ethnic Turks resisted attempts to eradicate their cultural identity. The militia, backed by the army, entered Turkish communities and used "deadly force to reduce resistance," an embassy cable stated, adding: "There were several reported cases of mass civil violence, which resulted in hundreds of deaths and many more injuries."

While some resisters were imprisoned on political charges, this relatively mild treatment was reserved for the "Turkish minority elite—party officials, teachers, etc.," the embassy reported. Most of the recalcitrant ethnic Turks were subjected to naked force. "Refusal to agree quickly to a name change was met by the documented cases of summary execution. . . . Individual killings seem to have been more widespread."

As the poorest, least assimilated and worst-treated of any minority in Bulgaria, ethnic Turks are considered easy targets for Khomeini-style Moslem fundamentalism—a possibility that frightens the communist rulers. The embassy has received "reports of razed mosques and . . . pressure against fundamental Islamic religious practices such as circumcision and funerals."

Turkish-language publications were once numerous and widely read by the ethnic minority. But last year the government stepped in and the publications were "abruptly published only in Bulgarian," the embassy reported. At the same time, Turkish-language radio broadcasts were eliminated.

The communist regime prudently applies its anti-Turkish discrimination to military service. As the embassy has explained: "The Bulgarian constitution's alleged 'equal treatment' of . . . citizens does not apply to the Turks when it comes to military duty. The Turks are placed into uniformed labor battalions and are not entrusted with weapons."

THE 25TH ANNIVERSARY OF BELAIR AT BOWIE, MD.

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. HOYER. Mr. Speaker, 25 years ago this month, the first family moved into a new community then known as Belair at Bowie, MD. Until that time, Bowie had been a small community of less than 1,000 people, near the famous Belair Stables. In the next few years, it was to become one of the largest cities in the State of Maryland.

In one sense, the development of Bowie has been typical of many of American suburbs. It started as a community of young families. Over the years the population has aged, and we are now seeing a new generation of Bowie citizens moving in. In the wave of development that is coming to many American suburban areas, Bowie is also becoming a place to work, as well as to live. Its population is expected to double by the end of the century.

I am sure that a new influx of citizens will share the same commitment to excellence that has been Bowie's hallmark. The first families of Bowie, and all those who followed, have wanted the best for their children, and they set out to get it. It is a community of joiners, home to church groups, civic organizations, Little League teams, teen clubs and swim clubs. In more recent years, it has grown to have a number of active senior citizen groups.

Political activism was also a hallmark of this new Bowie. For a community so young, it has developed a rich political history. It has developed an outstanding municipal government and has sent distinguished and capable people to the State legislature.

Mr. Speaker, when Bowie citizens gather this coming weekend to mark this 25 year milestone, they will be celebrating instead those most cherished of American values, family and community. This is a well-earned Silver Jubilee Celebration. Together they have built a home of which they are justly proud. I know you and the other Members of the House will want to join me in sending our heartiest congratulations.

SCOTT HOFFMAN, JR., A HERO

HON. BEVERLY B. BYRON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mrs. BYRON. Mr. Speaker, I rise today to recognize a young boy from Hagerstown, MD, who, through the use of the Heimlich maneuver, saved the life of his babysitter.

On the evening of September 10, 8-year-old Scott Hoffman, Jr., was sitting at the dinner table with his 3-year-old sister, Shawna, and their babysitter, Geraldine Shank. Suddenly Ms. Shank began choking on a piece of pork chop. She ran to the sink and attempted to dislodge the meat herself. Scott, realizing that she couldn't breath, applied the maneuver by hitting her between the shoulder blades and then wrapping his arms around and pushing his fist into her stomach below the rib cage. The meat dislodged.

Ms. Shank has credited Scott with saving her life. Scott said that he learned the Heimlich maneuver last year at Old Forge Elementary School from his teacher, Ms. Sally Snowberger. Ms. Snowberger decided to demonstrate it to her class after reading a newspaper account of a boy who saved a playmate's life by using the maneuver.

I would like to commend Scott for his heroism. His quick thinking averted a tragedy. Scott's action makes us all proud.

INDIA GIVES AID TO NICARAGUA

HON. WILLIAM W. COBEY, JR.

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. COBEY. Mr. Speaker, Nicaraguan Dictator Daniel Ortega recently decorated Prime Minister Rajiv Gandhi of India with the country's highest award—the Order of Augusto Cesar Sandino. Ortega was in New Delhi on a State visit in September.

The Indian Prime Minister had earlier announced a $10.4 million aid package to help rebuild the Nicaraguan economy. Thus, it seems that India has reached a state where it has a surplus in foreign aid. Since 1983, we have given India approximately $613 million in economic assistance. More than 75 percent of

this amount was in grants. Now, India is giving economic aid to the Nicaraguan Government while completely ignoring the terror the Sandinistas are spreading in our own backyard. It is time that we end our aid to India until it stops supporting the spread of communism in Central America and until it ends its internal repression of Sikhs in Punjab.

At a banquet for Ortega, Indian President Zail Singh said, "It is a great mistake to see these historic changes as inspired by foreign powers, ideologies, or intrigues." I would like to draw the attention of the Indian President to some "historic changes" that are taking place in one of the Indian States and in one of the ethnic communities to which Mr. Zail Singh claims to belong. I am talking about the great struggle that the Sikh nation has been involved in since the beginning of this decade. It is the culmination of a struggle the Sikh nation has been involved in for hundreds of years.

Seeking justice and equality and the pursuit of happiness are the inalienable rights of all human beings—regardless of race, color, creed, sex, or religion.

The Indian President claims that the revolt against the Sandinistas in Nicaragua is engineered by foreign powers, that the Sandinista regime is a popular one and not supported by foreign elements. But what is happening in India's Punjab is attributed to foreign powers and intrigues. We are told that only a handful of terrorists are behind this unfortunate situation. But if that were the case, the Government of India wouldn't need six army divisions and massive numbers of paramilitary forces to handle the situation in Punjab.They would not bar the entry of foreign visitors and journalists to that part of the country. The visas of foreign visitors to India are stamped "not Punjab" as if Punjab was not part of India. Perhaps the Indian Government feels that Punjab's secession has already been accepted psychologically and that it will only be a matter of time before it actually occurs. More than 20,000 Sikhs have been killed by the Indian Army and security forces since June 1984, but the handful of terrorists still persists.

Is there a violation of human rights in India? According to the State Department's annual report on human rights, "No international investigations of the human rights situation in India are known to have been conducted since 1978." In view of the serious allegations by one of its respected minorities and the reports of continued violence, an investigation should be held.

But it is my understanding that India will not allow it. It is my understanding that the Government of India rejected a request by some Members of Congress to have an opportunity to look into the situation. If India has nothing to hide, why is it reluctant to open its doors in Punjab to the objective eyes of the United Nations or other international investigators?

There are several independent Indian human rights organizations, including the Citizens For Democracy. In September a year ago, the CFD released a booklet, "Report to the Nation: Oppression in Punjab." This document was banned the very next day after its release. As the preface to the U.S. edition puts it, "the authoritarian Indian Government, afraid of the truth regarding rape, torture, and massacre by Government forces during and after the invasion of the Golden Temple reaching the people, promptly banned the publication, arrested the publisher, and confiscated all available copies." Fortunately, however, copies of this book reached the United States. I suggest it be read by all those sincerely concerned about the abuse of human rights, because this is what has been happening in India for the past 2 years, and on a massive scale at that.

There are reports of fake police encounters where police kill Sikh youths in "search and destroy" type of operations and then claim that they were killed in an alleged "terrorist encounter." And of course, there was the barbaric attack on the Golden Temple in Amritsar by the Indian Army in June 1984. To protest against this dreadful act, many Sikhs returned their awards to the President of India, while others have resigned from their seats in Parliament, State legislatures and other elected bodies. Some officers have left their lucrative positions in the Government. One of them is Sardar Simranjit Singh Mann. A distinguished member of the Indian Police Service, his last assignment was as group commandant of the Central Industrial Security Force in Bombay. The bloodshed in Punjab has gone on too long and too far to go unnoticed in this country.

Finally, I would like to commend the efforts of Dr. Gurmit Singh Aulakh. Dr. Aulakh is the president of the International Sikh Organization. So my colleagues in the House will better realize the awful plight of the Sikhs in India, I ask that the text of his remarks before the National Press Club on June 6 be printed in the RECORD.

STATEMENT OF GURMIT SINGH AULAKH, PH.D., PRESIDENT, INTERNATIONAL SIKH ORGANIZATION, INC.

I am Dr. Gurmit Singh Aulakh, President of the International Sikh Organization, Inc., an organization representing the interests of Sikhs worldwide.

Our purpose today is simple. We are calling on the media and the American people to shine the light of truth into the dark corners of our homeland where thousands of our people are being systematically eliminated by the Indian government.

The brutality is part of Rajiv Gandhi's consistent government policy to persecute all religious minorities and set up a Hindu state. Just as the Buddhists in India have been methodically removed from the mainstream of Indian society, so are the Sikhs being brutalized now. And while the Sikhs are bearing the brunt of this terrible violence, other minorities are suffering as well—Christians, Moslems and the lower classes of Hindus are also targeted. We want this genocide to stop.

As you remember, two years ago the Indian government attacked the Golden Temple, our most sacred place. Many innocent worshippers were killed.

It is true that there are radical extremists, as in any passionate cause there will be a handful of zealots, but one of the problems the Sikhs are having with their world image is that the Indian government has infiltrated most Sikh organizations. These agents are performing acts contrary to Sikh philosophy but for which Sikhs receive the blame. Sikhs throughout the world are shocked and outraged at the actions of both the extremists and those posing as Sikhs. We cannot forget, nevertheless, that the attack on the Temple was uncalled for. It was akin to the Italian Army invading the holiness of the Vatican.

The genocide against innocent Sikhs has not abated in two years. The goal of our cause is fourfold:

Freedom of religion

Freedom of speech

Freedom to control or own destiny and peace.

We have faith that you will judge fairly and delve beyond false stereotypes to see the facts and the truth.

We are here to do all we can to provide you with any further sources of information which you may require. The international Sikh Organization, Inc. is establishing an information base for the use of the media, scholars, etc. in an attempt to monitor and make available the facts of what is happening in India.

Thanks to your pursuit of the truth the Indian government was forced to lift the news blackout in the Punjab a year ago which had allowed it to continue committing atrocities outside the watchful eyes of the free world. Unfortunately, that news blackout has been re-imposed.

Gandhi remains a part of the communist sphere who actively supports terrorism. According to the Christian Science Monitor Gandhi allows terrorist training camps to operate in India for international dispersal. He endorses the Soviet invasion of Afghanistan and recognizes as legitimate the Communist Vietnamese puppet government in Cambodia.

He is a master of propaganda, such as recently appointing two so-called Sikhs to serve in his Cabinet. The truth is that one of these men has been excommunicated from the Sikh religion and neither adheres to the tenants of the Sikh code—one of truthfulness, peace and brotherhood. Gandhi's appointments were not a gesture of reconciliation towards Sikhs but a media stunt which has not worked.

The Sikhs have a deep respect for individual human rights and our beliefs makes us strongly anti-communist. Gandhi visited Moscow last year where he pledged friendship and cooperation. History has shown that it is difficult for any religious people to live under a communist government and the Sikhs are no exception.

What is happening in India is a violation of human rights, denial of true civil liberties and persecution of religious beliefs.

Tomorrow, on the anniversary of the Indian government's invasion of the Golden Temple, the American and Canadian Sikh community will gather in San Francisco, New York and here in Washington, D.C. to appeal to the free world to help us stop the violence in India.

We urge you not to turn a deaf ear to what the Indian government purports to be an "internal matter". It is not an "internal matter" when innocent, defenseless human beings are dying for their beliefs. It is a matter of human rights, of freedom, and we ask for your help.

A PARENT'S RIGHTS

HON. PATRICIA SCHROEDER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mrs. SCHROEDER. Mr. Speaker, on September 16 and September 23 the Members of this House were witness to some disinformation. Opponents to H.R. 4300, the Family and Medical Leave Act, have substituted make believe for reality. I would like to set the record straight. The following is an article I wrote on "A Parent's Rights," published this month in Minnesota magazine. The strength of the facts alone demonstrate beyond a doubt that legislation like H.R. 4300 is imperative. Perhaps that is why the opposition is so desperate.

A PARENT'S RIGHTS

(By Patricia Schroeder)

Numbers rarely speak for themselves; and yet, where women and work are concerned, they have never been so convincing. Between 1947 and 1980, the number of women in the labor force increased by 175 percent, while for men the number rose by only 43 percent. Today, well over one half of all women work outside the home, making up nearly 44 percent of the labor force. The most dramatic contrast between now and 40 years ago, however, is not just the large number of women in the labor force but the growing number of mothers: they account for more than 60 percent of all wage-earning women.

If demography is destiny, a closer look at this burgeoning group reveals an even more striking picture of the future. More than 80 percent of women in the work force are of childbearing age; and 93 percent are likely to become pregnant during their working careers.

The biggest problem that new mothers face is whether they will be reemployed in the same or similar position after the birth of their child. The Pregnancy Discrimination Act of 1978 took one step toward solving this problem, requiring that serious pregnancy-related health conditions be treated like any other serious short-term health condition. Unfortunately, legislation is limited. In the absence of a federal requirement to provide disability coverage to employees, women are treated equally well or poorly, depending on the availability of a disability leave policy. The legislation is further constrained because employers with fewer than fifteen employees are exempt from the law.

A 1980 Columbia University study found that for 250 companies it examined, only 72 percent of the employers guaranteed that a woman could return to her job and retain her seniority if she took maternity leave. A more recent preliminary study done by the Catalyst Career and Family Center found that 95 percent of its respondents provided a temporary disability policy; of the women covered, only 39 percent received full wage replacement, while 52 percent were eligible to take an unpaid child-care leave.

Although heartening news is that women in large companies (70 percent of those responding employ more than 2,500) receive important disability and job protection benefits, least protected are women in smaller companies, who work in part-time or female-dominated jobs.

Pregnancy and parental leave are not, however, simply women's issues; they are a family issue. Women work out of economic necessity. In 1985, both parents had to work to maintain the standard of living that their parents could enjoy on one income. According to 1983 data, 25 percent of married wage-earning women had husbands who earned less than $10,000, while close to 40 percent had husbands earning less than $15,000. The typical family painted by Norman Rockwell is vanishing: women are increasingly responsible for providing family incomes where they are the sole heads of households. In 1984, women headed 10.3 million families, representing 16 percent of American families. One-half of the 45.6 million children in two-parent families have both parents in the work force.

Perhaps the most critical time for a family comes when a child becomes seriously ill—a time when parents feel the need to be at home or in the hospital with their child. More serious medical conditions require constant care, and parents believe that they are the ones who should provide it. Yet too few parents have the flexibility at the work place to make this decision and are instead faced with having to choose between job security and caring for their children. Thus, for the 24.8 million children in two-working-parent families, flexible options could ensure that parents can continue to provide the care so essential to a child's well-being.

But help for working families is at best uneven. At present, no national policy provides job-protected leave for parents for parental care purposes. A bill that I am sponsoring, the Parental and Medical Leave Act of 1986, would do just this.

It would establish parental leave for the birth or adoption or serious illness of a dependent son or daughter. It establishes a minimum standard for job-protected leaves below which an employer may not fall. Employees would be permitted to take up to eighteen weeks' leave over a two-year period. The leave is to be unpaid but requires that an employer continue health insurance coverage on the same basis as prior to the leave. Most important, upon returning to work, an employee is to be restored to the same or similar position with benefits and seniority continuing as though the employee had not taken leave. An employee has the option of substituting paid vacation or sick leave for unpaid leave.

The Parental and Medical Leave Act would cover all employees in the private sector except those employers employing five or fewer employees. Federal, state, and local government employees would all be guaranteed protection under this legislation. In the event of discriminatory treatment, plaintiffs, will be able to pursue civil or administrative enforcement.

We must promote the stability and economic security of families and American workers. By providing an unpaid leave with job protection, this legislation provides families with essential options to meet familial concerns and responsibilities. It establishes leave where none may have existed before, and it guarantees a degree of economic security by ensuring job protection. Most important, it allows families to plan ahead and gives meaning to a government committed to the American family—a family in which both parents work outside the home.

Finally, the Parental and Medical Leave Act of 1986 would allow the United States to shake itself of a static model of the American family in which the father works and the mother stays at home. Policymakers and analysts must work to bring public policy into line with the current reality of the 1980s. By creating more flexible work options for America's working parents, we can begin to bridge the gap between work and home. No longer will job or economic security be traded against the needs of the family.

A BILL TO AMEND THE AUTHORITY OF THE U.S. GEOLOGICAL SURVEY

HON. JOHN McCAIN

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. McCAIN. Mr. Speaker, for more than 100 years, the U.S. Geological Survey has been an effective part of the Federal Government. Its work has, among other things, played an important role in the successful development of the Western United States, the area of the country I represent. The work of the Geological Survey has provided invaluable information on which private individuals, local communities, and States have based decisions about the best use of their scarce resources. The Geological Survey is a scientific entity. It has no significant regulatory responsibilities, and very few congressionally mandated "fires" to fight in carrying out its work.

Today, I am convinced that the scientific approach which the Geological Survey brought to bear on discovering the natural resources of the United States should be put to work in giving us solid scientific information about the condition of our biological environment.

In the past 15 or so years, the Federal Government has adopted a series of major statutes designed to protect the environment—the Clean Air Act, the Clean Water Act, the National Environmental Policy Act, the Resource Conservation and Recovery Act—to name only a few.

In each of these necessary and desirable statutes, Congress mandated the construction of a regulatory program or process, asked that it be based on the best scientific evidence available, and that it should be put into place on the earliest reasonable timetable. As described below, the implementation of these laws has had its limitations and could be improved in some respects.

The Environmental Protection Agency, the implementing agency for many of these regulatory statutes, has been pressed for personnel and funding almost since its creation. Given the urgency of its regulatory mission, the EPA has a limited capacity to support high quality, long-term, scientific research on the environment and the effects of its programs. In addition, the amount of environmental protection we get is also sometimes a function of the amount of information available when environment statutes are enacted. Many of the regulatory programs now in place are very specific and relatively limited in the environmental harm or harms they require protection against. Yet hindsight has shown us that certain environmental problems were different, more complex or more severe, than we originally thought—take ground water as an exam-

ple. Many of the major environmental statutes might have been passed and implemented sooner and with greater deliberation and, possibly, lower social cost, if we had had better information about the state of the environment.

In my view, having put the environmental regulatory program generally into place, Congress now needs to require the Federal Government to turn its environmental attention to the longer term. Many environmental problems do not occur overnight—DDT poisoning, and ground water contamination, for example, occurred over long periods of time before they became apparent. In addition, many newer environmental problems are international in scope, or involve complex interactions between different aspects of the environment. We need to be better prepared with respect to future environmental problems than we often were for dealing with past environmental problems. At the same time, the availability of better information about the environment should significantly improve the implementation of existing regulatory programs.

THE CASE OF ACID RAIN

The acid rain problem is a classic example of the difficulties we face. I favor regulatory legislation to control the problem of acid rain now, but in doing so, I acknowledge the substantial scientific uncertainties which beset this issue. These uncertainties have already required at least two major National Academy of Sciences studies and a massive Federal environmental research program on the subject, all done after the fact. In addition, I believe everyone who is familiar with the problem of acid rain recognizes that it is going to require the imposition of significant economic and social costs to deal with it—probably ranging into billions of dollars. That is why I was surprised to find that the Federal Government did not have available very good information about many aspects of the basic science underlying this problem, and that a considerable amount of the information on which decisionmaking has relied so far was compiled for wholly unrelated reasons by private industry or academic researchers.

I believe we need to give an agency of the Federal Government the responsibility for giving us independent, reliable information about the condition and quality of the biological environment. I believe the Geological Survey is the right agency in which to vest that responsibility. My bill would give the Survey that mandate, and the necessary funding and authority. I envision a small, highly qualified scientific group which would develop, support, review, analyze, and help coordinate the biological environment research activities of the Federal Government, with an eye to giving us the kind of information we will need to deal with present and future environmental problems.

In addition, in this legislation, I have proposed that the Survey carry out several specific projects related to this general mission. One of these, water quality research, is an extension of a current mission of the Geological Survey. The other, a study of western acid rain problems, is clearly needed and does not appear to be getting properly done within the existing Federal acid rain research framework.

I realize there will not be substantial legislative action on the bill this year. However, because of interest in this problem, I am introducing this legislation for the purpose of stimulating discussion about the best way in which the Federal Government might address the problem I believe exists. It may be, for example, that a different agency or agencies should handle these responsibilities or that different authorities and funding levels should be made available.

As drafted, this bill does not require new expenditures by the Federal Government. Instead, it requires funding be made available by cuts in other parts of the Federal budget. In a time of fiscal austerity, I believe it is a question of priorities. We can achieve the savings necessary to fund this program if we can achieve a solid enough consensus that it is necessary to go forward with it.

We don't want to be caught unprepared when we have the next problem like acid rain; we need to take action now to give us the information we need to respond when the time is right to act, not after the damage is done.

IPG RECOMMENDATIONS FOR VIENNA CSCE

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. PORTER. Mr. Speaker, as a founding member of the International Parliamentary Group [IPG], an organization comprised of 700 members of Parliaments in 16 nations including the United States, Canada, and Europe, I would like to share with you the recommendations formulated by IPG members for the Vienna Review Conference on Security and Cooperation in Europe. The Vienna Conference will review compliance with all aspects of the Helsinki Final Act by the 35 signatory states.

My colleagues in the IPG and I believe that as East-West relations to continue to improve, Soviet human rights performance must remain squarely on the bilateral and multilateral agenda of all democratic nations in their dealings with the U.S.S.R.

The IPG recommendations for the Vienna Review Conference are based on the proposals submitted by the democratic nations at the CSCE human rights experts meetings held in Ottawa, Canada; Budapest, Hungary, and Bern, Switzerland, in 1985–86. These recommendations are offered as a means of improving Soviet human rights performance as a framework for a unified human rights policy among democratic nations at the Vienna Review Conference.

IPG RECOMMENDATIONS FOR THE VIENNA REVIEW CONFERENCE

I. Basket I, Principle VII—"Respect for human rights and fundamental freedoms, including the freedom of thought, conscience, religion or belief"

A. The participating States will take necessary action to remove legal and administrative measures so as to ensure in practice the right of all their citizens, individually or in groups, effectively to monitor implementation of these documents, and to express their views on any question concerning implementation.

B. The participating States will pay special attention to the elimination of discrimination against the individual believer wherever this occurs. They will create an atmosphere of tolerance and respect for all matters, relating to freedom to profess and practice religion or belief, alone or in community with others, in public or in private.

C. The participating States will engage in consultations with the religious faiths, institutions and organizations, in order to reach a better understanding of the requirements of religious freedom and to take action to ensure their fulfillment. They will act to guarantee, inter alia: the right to give and receive religious education individually, collectively or through religious organizations, including the freedom of parents to transmit their religion or belief to their children; the freedom of the individual believer or communities of believers to establish and maintain contact and hold assemblies in common with fellow believers, including those of other countries; to produce, acquire, receive, import and make full use of publications and other materials concerning the profession and practice of religion or belief, and to use the various media for religious purposes.

D. The participating States will, to the maximum extent possible, respond positively to requests to observe legal proceedings. They will admit observers or provide full explanations as to why observers may not be admitted.

E. The participating States will work toward the reduction in length of incommunicado detention to a minimum.

F. The participating States will improve and increase the opportunities for representatives of non-governmental humanitarian organizations to visit prisoners.

G. The participating States will ensure that individuals are protected from psychiatric practices which violate human rights and fundamental freedoms.

II. Basket III—"Cooperation in humanitarian and other fields"

A. Cooperation and exchanges in the field of culture:

1. The participating States will remove legal and administrative measures, such as censorship, which constitute barriers to creation and dissemination in different fields of culture.

2. The participating States will remove restrictions on obtaining, possessing, reproducing, publishing and distributing materials related to the different fields of culture, including books, publications, films and videotapes, as well as use of typewriters, word processors and copying machines.

3. The participating States will permit unimpeded reception of broadcasts and place no restrictions on the right of individuals to choose freely their sources of broadcast information and culture.

4. The participating States will abstain from placing undue obstacles to access to direct broadcasting satellites transmitting radio and television programs, including those of a cultural nature.

5. The participating States will: protect the unique identity of national minorities and foster the free exercise of cultural rights by persons belonging to them; ensure in practice unhindered opportunities for these persons independently to maintain and develop their own culture in all its aspects, including religion, cultural monuments, historical artifacts, language, litera-

ture; and to ensure unhindered opportunities for them to give and receive, individually or collectively, instruction in their own culture, especially through the parental transmission of language, religion and cultural identity to their children.

B. Human Contacts:

1. The participating States will: deal favorably with applications from their citizens or nationals who are also recognized as citizens or nationals by another state to leave in order to visit that state or settle there; give special attention to requests for exit documents submitted to reunite minors with their parents; facilitate the exit of persons for the purpose of family reunification; simplify the application procedures for family reunification.

2. The participating States will: abolish, for their nationals, the requirement to obtain an exit visa in order to leave their country and issue exit visas for foreigners residing on their territory as expeditiously as possible; publish within one year all laws, regulations and procedures concerning decisions to permit their citizens to leave their country, and to help make the laws in force accessible to all strata of the population; remove legal and other obstacles restricting contacts on their own territory between their citizens and resident or visiting citizens of other states.

3. The participating States will: remove existing impediments which prevent individuals and the institutions and organizations which they have freely established and joined from maintaining contact, communication and organizational ties with similar organizations in other participating states without need of official sponsorship or approval; guarantee the freedom of transit of postal communication, thus ensuring the rapid and unhindered delivery of personal mail; ensure all the conditions necessary to carry on rapid and uninterrupted telephone calls, including the use and development of direct dialing systems wherever it is possible, and respect the privacy and integrity of all such communications.

NATO AND KEEPING THE PEACE

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. GARCIA. Mr. Speaker, as chairman of the North Atlantic Assembly's Civilian Affairs Committee, I have come to appreciate more and more the importance of NATO. It is in that light that I am submitting for the RECORD a copy of a letter on NATO published in the New York Times written by Bill Danvers of my staff.

I agree with Bill's assessment that as long as NATO helps to keep the peace, it deserves our support.

[From the New York Times, Sept. 25, 1986]

NATO ENDURES BECAUSE IT HELPS KEEP THE PEACE

(By Bill Danvers)

TO THE EDITOR: James Reston makes some important points on the future of the North Atlantic Treaty Organization in "Politics and the Alliance" (column, Sept. 10), but the answer to the question he poses—will the alliance hold together after Ronald Reagan's Presidency?—is yes.

The British Labor Party's platform raises some concern over how a Labor-led government would change Britain's role in the alliance, but in an alliance of democracies, chance and change are part of the price of keeping the alliance democratic.

The question of whether or not the rise of left-leaning governments in Western Europe would signal the demise of NATO has another side. It is important to remember that Socialist-led governments in West Germany and Italy helped secure the recent deployment of Pershing missiles in Western Europe. In addition, President François Mitterrand of France, a Socialist, was also supportive of the deployment.

Further, Prime Minister Felipe Gonzalez of Spain, also a Socialist, originally ran for office on an anti-NATO platform, but changed his position after being elected. Indeed, he lobbied hard, placing his considerable political prestige on the line, to insure that Spain would remain in NATO. It is also important to note that the Prime Minister is part of a new wave of political leaders in Europe. He is not part of the generation of Atlanticists like James Callaghan and Denis Healey that Mr. Reston mentions.

None of this is to say that Mr. Reston is wrong in his assessment that the alliance faces potential problems and that debate should take place on those problems. But that debate should not take place in an atmosphere fraught with anxiety over the undoing of NATO.

For nearly 40 years, NATO has survived a number of crises including the 1954 Suez crisis, France's withdrawal from NATO's integrated command, periodic moves in Congress to bring home American troops, the West European peace movement's attempt to stop the deployment of Pershing missiles in Western Europe, and constant pressure by the United States for an increase in defense spending by other alliance nations. Chances are that it can survive foreseeable changes in the governments of Britain, West Germany or any other alliance nation as well.

NATO may be forced to rethink its strategy in the next decade. There is certainly some sentiment among alliance political leaders to put more emphasis on conventional, as opposed to nuclear, deterrence. There is also interest in an increased European commitment to its own defense. If both of these trends were to gain increased acceptance, then NATO would certainly change, but not necessarily for the worse.

Because NATO is primarily a political organization, it will always be subject to political changes. It is in that light that I submit that any future debate on the alliance should include prominent members of the successor generation—that generation of political leaders succeeding Helmut Schmidt and Denis Healey no matter what their political perspective. NATO can be strengthened, even renewed through such dialogue.

The NATO Secretariat should also make better use of the North Atlantic Assembly, an international organization of alliance nation parliamentarians, which includes representatives from most leading political parties in alliance nations. Since the assembly's members actively participate in parliamentary and Congressional debate on issues affecting NATO, and since many assembly parliamentarians are members of the successor generation, the North Atlantic Assembly could be a useful conduit for future debate on NATO.

NATO has succeeded for as long as it has because it has been able to convince member nations, regardless of the political perspective of their governments, that it is there to keep the peace. As long as that remains the bottom line, it should be able to weather the approaching winds of change.

WILLIAM C. DANVERS,
Washington, Sept. 11, 1986.

U.S. TRADE POLICY AND THE MOSS TALKS

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FEIGHAN. Mr. Speaker, on October 27 and 28, Japanese negotiators will be in Washington for a second round of Market-Oriented, Sector-Specific [MOSS] talks on the opening of Japanese markets to auto parts made in the United States. There is a gross imbalance in auto-parts trade between the two countries: U.S. firms are faced with closed doors in the Japanese auto industry, while Japanese parts suppliers are greeted by a wide-open welcome on this side of the Pacific.

This imbalance stems from longstanding exclusionary business practices on the Japanese side. Their automakers and parts suppliers are linked in exclusive "family" networks that effectively lock out foreign competition. The test of the MOSS talks will be whether they stop these anticompetitive practices and give U.S. parts makers a fair chance to sell to Japanese manufacturers. The proof of change will come when the cash of registers of American firms start ringing up a fair share of sales to the Japanese.

Congress is about to adjourn as we head home to campaign for the November 4 elections. However, congressional pressure for action on this fair-trade issue will not abate. Members of Congress will be watching to see whether the administration has a trade policy that can produce not just rhetoric but results.

AMERICA'S SECURITY IS THREATENED BY DEPENDENCE ON FOREIGN OIL

HON. DICK CHENEY

OF WYOMING

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. CHENEY. Mr. Speaker, I am pleased to introduce today the Energy Security Policy Act of 1986. Recognizing that America's growing dependence on foreign oil threatens national security, the bill would impose a fee on oil imports to stimulate more domestic oil exploration and production.

Last year, the United States obtained a little less than a third—31.5 percent—of its total crude oil needs or imports. But by August of this year, the amount of crude oil we imported to meet our needs jumped to 41 percent. We are importing far more oil today than we did just before the 1973 oil crisis, and we are even more vulnerable to the effects of having the supply cut off.

OPEC's clearance-sale prices have seriously hurt the American oil and gas industry. But the problem isn't confined to Wyoming or the

other oil producing States. The collapse of oil prices has now reached to every sector of the Nation's economy. American banks have loaned billions to domestic oil ventures. And when prices drop, the security of the loan goes down, too.

This Nation's 2.5 million oil royalty owners will lose nearly $6 billion this year, and that includes many people whose pension funds are based on oil. Layoffs in the industry have a ripple effect in the rest of the economy, and the unstable price of oil has led to widespread uncertainty and discouraged spending by companies that use oil.

Cheap oil prices have failed to stimulate the economy. Second quarter growth was only 0.6 percent, hardly any growth at all. The average rate of growth for the economy in the first half of the year is just 2.2 percent. Lower oil prices have not encouraged more American exporting. Nor have they had their predicted effect of reducing the Nation's budget deficit.

In Wyoming, unemployment continues to run ahead of the national average. The State's adjusted unemployment rate for August was 9.3 percent, compared to a national rate of 6.8 percent. The city of Casper, where I live, clearly shows the problem. Natrona County's unemployment rate for August stood at 11 percent, and the county continues to have the largest number of unemployed people in the State—over 3,800.

Not only have low oil prices failed to have a salutary effect on the economy, they have also lead us to turn increasingly to foreign supplies—a source that is no more dependable now than it was in 1973. It still takes a tanker a month to get from the Persian Gulf to the United States. Oil shipments can be delayed by weather, by accident, or by terrorism.

OPEC's manipulation of world oil prices threatens the economic and strategic interests of the United States. The continued pressure of low prices has seriously diminished the capacity of the domestic oil and gas industry, and we need that industry to provide a secure source of energy.

To restore ability to oil pricing, the Energy Security Policy Act of 1986 would impose a variable fee on imported oil and petroleum products. It would be triggered whenever the price of oil drops below $24 a barrel. The fee would equal the difference between $24 and the world price of oil. Imported refined products would be assessed 20 percent more, because American refiners pay more in environmental control costs. The fee would be adjusted for inflation, tied to the changes in the gross national product.

Within 90 days after enactment of the bill, the President would be required to send Congress a report with his recommendations for keeping a secure supply of energy for the United States. His report would include actions the President considers necessary to protect the United States from the threat of dependence on foreign oil imports.

I realize that half a dozen oil import fee bills have already been introduced by some of my oil State colleagues in the House and the Senate. But the Energy Security Policy Act of 1986 differs from all of them, in varying ways. It imposes a variable fee, because a maximum $4 fee would not provide a sufficient incentive to the domestic petroleum producer when the world price is as low as it has been in the past several months.

Unlike some measures, this bill would not progressively diminish the import fee in 5 years. A phaseout provision would weaken the fee at the very moment when it might begin to do some good. And the requirement that the administration present recommendations for a national energy policy demonstrates that the goal of this bill is a stable energy price, not simply higher oil prices.

Mr. Speaker, I realize time is late in this Congress for action on an import fee. However, I am introducing this bill to demonstrate my support for the concept and to help encourage discussion and thinking on the issue both on Capitol Hill and at the White House. I strongly believe that unless the domestic oil industry can be revived, particularly the independent producers and oil well service infrastructure, we may be forever perilously tied to insecure foreign supplies for energy.

IN HONOR OF A GRAND LADY ON HER 104TH BIRTHDAY

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. LANTOS. Mr. Speaker, I rise today to pay tribute to a wonderful lady who, on Sunday, October 12, celebrates 104 years of a life of service and inspiration to our Nation.

Ida Johnson Campbell was born in 1882 in Virginia City, MO, the third child and the first daughter, in a family of nine children. Virginia City is long since gone from the Missouri map, but the life it gave to Ida Johnson still glows brightly. The eldest daughter of hard working but struggling Missouri farmers at the close of the last century, Ida learned as a young girl to nurture and care for others, to assume heavy responsibility, and to put work before play. She used to say, laughingly, to the children who came into her extenaded family after her own children were grown, "A man works from Sun to Sun, but a woman's work is never done." Indeed, she only recently accepted her own retirement. Having taught Sunday school all her life, she decided at 90 to take a back seat as a student rather than the front seat as the teacher.

Ida Johnson broke the mold of farm women in her family by going to tiny Odessa College after grammar school, becoming the first teacher in her family. This was a model to be followed by many who came after. Younger brothers and sisters, her own son and daughters, grandchildren, and nieces and nephews came under the influence of her love of books and learning long after she ceased to be a salaried teacher. One of these nieces, a testimony to her influence, is on my own congressional staff.

In those days, of course, only single women could teach. Therefore, when Ida married the dashing young farmer, Henry Campbell, in 1908 she gave up teaching for homemaking to begin her marriage in Happy, TX, returning in a few years to a farm in Missouri. This happy union lasted more than 50 years and produced 3 children, 6 grandchildren, and 15 great-grandchildren.

A staunchly devout and religious woman, she taught her children and those of others to see clearly right from wrong; to set goals for themselves and use self-discipline to work toward them; to count the value of life by what is in the mind and the heart rather than what one possesses; to persevere in the face of failure and to be humble in the face of success; to accept adversity, setbacks, and even tragedy with stoicism and strength; and above all to love the human family as the children of God. This legacy has left its deep imprint on our society in the amazing record of achievement of her progeny. Each one is carrying on with distinction in the modern world the values and ideals held up to them by this family matriarch. Her roots are in the Earth and her spirit has soared far above the farmfields for a richer harvest in human values than most of us can hope for. While her years have been many, the contributions of her life may be measured as much in the quality as in the quantity of days.

On this, her 104th birthday, I ask my colleagues in Congress to join me in sending "Happy Birthday" greetings to Ida Johnson Campbell and recognizing in her life the abiding strength of our Nation.

A TRIBUTE TO EUGENE S. SOSNICK

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FAZIO. Mr. Speaker, I rise today to pay tribute to Mr. Eugene S. Sosnick, the chairman and president of the Capital Cigar and Candy Co. of Sacramento. A successful businessman, accomplished sportsman and acclaimed community leader, Mr. Sosnick will be the recipient of the Lorillard Citizenship and Leadership Award when the California Association of Tobacco and Candy Distributors holds its annual conference next month.

Eugene S. Sosnick was born to Melvin and Celia Sosnick in Detroit, MI, on June 4, 1931. The Sosnick family soon moved to San Francisco, where Eugene's father started a tobacco and candy distribution company. The youngest of three boys, Gene attended public schools in San Francisco and graduated from the city's George Washington High School in 1949.

Gene then entered Stockton Junior College, where he exhibited excellence at the game of basketball. Although his 5-foot, 7-inch frame was relatively short for a basketball player, Sosnick attained All Conference, All Northern California and All American honors. In his sophomore year, "Sos" led the Stockton Junior College Mustangs to fifth place in the national small college finals and set a single season scoring record of 403 points.

Gene continued his winning ways at the College of the Pacific, where he was again recognized as an All Conference, All Northern California, and All West Coast player. Sosnick set more scoring records, at COP, exceeding a school high 400 points in his first season. At

the end of his senior year Gene was selected to tour Central and South America with the West Coast College All Star Team.

In recognition of his outstanding contribution to UOP atheltics, Gene Sosnick was inducted this year into the University of the Pacific Hall of Fame, where he joined UOP coaching great Amos Alonzo Stagg, football star Dick Bass and Los Angeles Raiders Coach Tom Flores.

After graduating from Pacific in 1954 with a business administration degree, Gene joined his father and older brothers in the family business. By that time the Melvin Sosnick Co. was the dominant wholesale distributor in the bay area, with facilities in San Francisco and Oakland. In 1959, Gene assumed responsibility for his own branch when the company purchased the Capital Cigar Co. of Sacramento.

With distributorships throughout northern California and Nevada, the Sosnick Co. is now the State's leading tobacco and candy wholesaler north of the Tehachapis, topping $300 million in annual sales. Under Gene's skillful leadership the Sosnick's Capital Cigar & Candy Co. serves customers in 15 northern State counties from its 60,000 square-foot warehouse in West Sacramento.

Despite his demanding business schedule as chairman of the board of the Sosnick Co., Gene Sosnick has managed to devote a great deal of time to civic, religious and philantropic endeavors. In the Sacramento community, Gene has made important contributions to a number of charitable pursuits. He is past president and chairman of the Sacramento Saints and Sinners, an organization which raises money for local needy causes. Gene is responsible for the Max Baer Playground in Sacramento, where hundreds of children participate in the Police Athletic League's Boxing Program. As a member of B'nai Israel Synagogue, Sosnick donated a library to preserve documents which chronicle the history of Sacramento's Jewish community.

In Ashkalon, Israel, Gene Sosnick built a preschool in the memory of his patents. The Sosnicks also established a trust and scholarship fund to research eye diseases at Technion University in Haifa.

Over the years, Gene has continued his strong interest in sports. For several years Sosnick volunteered as an assistant coach for Sacramento State University's basketball team. He is also the past owner of the Sacramento Solons, Sacramento's first professional baseball team.

Mr. Speaker, I think my colleagues will agree that my good friend Eugene Sosnick is an excellent choice to receive the Lolliard Citizen and Leadership Award. I join his family, friends and business associates in commending him for his many accomplishments thus far, and wish him many healthy and active years to come.

NUCLEAR INDUSTRY PULLS PLUG ON PRICE-ANDERSON

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. MARKEY. Mr. Speaker, in the aftermath of the horrible accident at Chernobyl, many Americans are asking what will happen here in the event of a nuclear accident. Yesterday, the nuclear industry gave the answer: The truth is too important to be debated on the floor of the House of Representatives.

After the Chernobyl accident, many were shocked to discover that Federal law limits the amount of money victims can receive in the event of a nuclear accident to just $600 million—not enough money to pay for the cleanup of the accident at Three-Mile Island.

This law, the Price-Anderson Act, puts a lead shield around nuclear utilities while exposing victims of nuclear accidents to unlimited damages. For the past 6 months, three committees have been working to change the law, due to expire next year. We have been trying to increase the protection available to victims. We have worked day and night to remove the burden from victims and to place it on the shoulders of the utility industry.

The three committees managed to resolve many of their differences. The handful of controversial subjects were left to be resolved by amendments on the floor. Today, we should be debating that bill to increase protection for victims of nuclear accidents.

But yesterday, the nuclear industry pulled the plug on this important bill. Their reason: They did not want liability for a nuclear accident to be debated on the floor of the House. They were afraid to let the representatives of the people examine this issue and vote their conscience. They were afraid of democracy, knowing that this denial of protection to nuclear accident victims cannot stand up to the scrutiny of legislative debate.

If the Price-Anderson law expires next year, the nuclear industry has only itself to blame. We were willing to debate this issue and let the voice of the House be heard. The nuclear industry was not. And the real losers in this game of legislative muzzling is the American people who live near the 100 nuclear plants in this Nation.

CONGRESSIONAL SALUTE TO THE HONORABLE CATHERINE A. ZAZZALI OF BELLEVILLE, NJ, RECIPIENT, 1986 OUTSTANDING TEACHER AWARD OF THE AMERICAN ASSOCIATION OF TEACHERS OF SPANISH AND PORTUGUESE

HON. ROBERT A. ROE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. ROE. Mr. Speaker, on Saturday, October 25 residents of the township of Belleville, my congressional district and State of New Jersey will join with the members of the New Jersey Chapter of the American Association of Teachers of Spanish and Portuguese [AATSP] in testimony to an esteemed educator and good friend—the Honorable Catherine A. Zazzali of Belleville, NJ—whose standards of excellence in teaching our young people has earned her the highly prestigious honor of being selected from a group of nationwide candidates to receive the 1986 Outstanding Teacher Award of the American Association of Teachers of Spanish and Portuguese.

In announcing the selection of Miss Zazzali for this highly meritorious award, the president of the New Jersey chapter of AATSP, the Honorable William M. Price, stated:

Miss Zazzali truly exemplifies what an outstanding teacher is—someone who inspires students, who challenges them, who incorporates global understanding into her teaching, someone who motivates critical thinking, who exhibits leadership and participates in local, State, national and international activities.

Mr. Speaker, AATSP was founded in 1917 and is comprised of teachers of Spanish and Portuguese languages and literature and others interested in Hispanic culture. With a membership of 11,000 and local chapters numbering 74, the national headquarters is located in Mississippi State University, State College, MI. In addition to operating a placement bureau and maintaining an exchange of communications registry, the organization sponsors a national honor society, Sociedad Honoraria Hispanic [SHH] and national Spanish examinations for secondary school students.

SHH was founded in 1953 and has a membership of 30,000 secondary school students doing superior work in Spanish classes. The honor society also presents college scholarship awards, sponsors trips to Mexico and Spain and has its national headquarters at the Christopher Columbus High School, Maimi, FL. The highlight of the AATSP's annual national competition among secondary school teachers of Spanish is the presentation of the AATSP Outstanding Teacher Award.

Mr. Speaker, when you reflect upon the fact that the cultural, historical, and economic achievements—even the basic health, well being, and longevity—of a State and Nation depend in large measure upon how well we educate each generation charged with the trust of carrying out its responsibilities and traditions, we can indeed be proud of Catherine Zazzali's outstanding contribution to the quality of life and way of life for all of our people.

At the high school level Miss Zazzali has:

Taught for 25 years at Paramus High School in Paramus, NJ;

Been supervisor of foreign languages for the past 3 years;

Established the local chapter of the American Field Service to encourage the international exchange of students;

Established the local chapter of the National Spanish Honor Society;

Developed and taught the advanced placement program of Spanish literature at Paramus High School;

Developed and taught a course of practical Spanish for the noncollege-bound student;

Chaperoned many groups of students to Spain; and

Been supervisor of the English as a second language program at Paramus High School.

At the national level Miss Zazzali has:

Been Eastern regional director of the National Spanish Honor Society;

Been elected to the national board of directors of the National Spanish Honor Society;

Been elected the vice president of the National Council of the Spanish Honor Society; and

Served on the nominating committee for the national officers of the National Spanish Honor Society.

Mr. Speaker, it is indeed appropriate that we reflect on the deeds and achievements of our people who have contributed to the quality of life here in America. As we gather together on October 25 in tribute to Catherine Zazzali's leadership endeavors and personal commitment dedicated to the teaching of our young people, we do indeed salute the 1986 recipient of the Outstanding Teacher Award of the American Association of Teachers of Spanish and Portuguese—the Honorable Catherine A. Zazzali of Belleville, NJ.

MARION "REX" HARRIS RECEIVES MINORITY ADVOCATE AWARD

HON. CARDISS COLLINS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mrs. COLLINS. Mr. Speaker, this week is Minority Enterprise Development Week. In observance a luncheon was held on October 7 to recognize several members of the minority business community. I would like to bring to the attention of my colleagues a recipient of one of these awards.

Mr. Marion "Rex" Harris of the International Domestic Development Corp. received the National Minority Advocate of the Year Award. The award was presented at the luncheon by the Minority Business Development Agency, an agency of the Department of Commerce.

International and Domestic Development Corp. [IDDC] was organized in 1976 and, as a leading minority-owned business, has a long and successful history of economic development. The capabilities of IDDC and its associated firms include producing, processing, and marketing coal for domestic and export markets; export port development; medical and health commodities and commodity-related services in education and training; agricultural development—including research and expansion—and construction; banking and finance.

Mr. Harris has worked at getting minorities into salaried and nonsalaried jobs in government and the private sector through his business endeavors, making him an excellent choice for the Minority Advocate of the Year. I would like to congratulate Mr. Harris on his accomplishments.

IT IS TIME FOR A FULL INVESTIGATION INTO NORTHERN IRELAND POLICE

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. BIAGGI. Mr. Speaker, in my capacity as chairman of the bipartisan 115-member Ad Hoc Congressional Committee for Irish Affairs, I, together with 21 of my colleagues in the House, sent a telegram yesterday urging the British Government to conduct a new and independent investigation into the conduct and procedures of the main police force in Northern Ireland.

This telegram stems from a variety of disturbing actions which have taken place over the past several months in the six northeast counties of Ireland which are under the direct rule of Northern Ireland. This includes the commencing of an investigation into allegations that the Royal Ulster Constabulary, the main police force in Northern Ireland had employed a "shoot to kill" policy in more than 35 separate shooting incidents involving civilians since 1982.

For most of the past year, the initial inquiry was headed by a respected police official from Manchester, England, John Stalker. His investigation was progressing when he was abruptly suspended from his duties because of what the New York Times called "vague" charges of "misusing his police vehicle and of having as a longtime friend, a businessman who had no criminal record but who might have associated with suspicious people in the view of accusers never fully identified by the police." Mr. Stalker was investigated; the charges were dropped; he was reinstated to his police position, but was removed from the RUC investigation.

The timing of the Stalker suspension was significant. He was close to filing a preliminary report which would cite scores of RUC officials as being culpable in the investigation based on the shoot to kill allegations. Specifically, it was charged that Stalker was removed from the investigation after he repeatedly requested Northern Ireland officials to obtain a police tape recording of one incident involving the killing of an unarmed civilian by policemen who claimed that the individual was in fact armed.

The removal of Stalker resulted in a stalling of the overall probe. In early August, I wrote to Secretary of State George Shultz to convey my concerns about the status of the probe. In their response the Department expressed their concern about the long delayed investigation and indicated their intention to "carefully monitor all developments."

Last week, the London-Based International Human Rights Group Amnesty International accused the British Government with failure to conduct a proper investigation into the RUC. They cited 34 shooting incidents in question including 18 unarmed civilians who may have been victims under the RUC policy.

It is my strong contention that if we are to make progress toward a lasting political solution in Northern Ireland, then we must put an end to all violence in Northern Ireland. This includes the always cited civilian violence, but also the little mentioned official violence. The allegations directed against the RUC represent serious charges which would represent the most reprehensible form of official violence I could imagine. The allegations must be investigated quickly and thoroughly.

It should be noted for the record that the Royal Ulster Constabulary since 1979 has been under a suspension which bars the shipment of any further U.S. arms or ammunition to them pending a full review of U.S. policy. This followed an amendment I offered to the 1980 Department of State appropriations bill which called for the cutoff of aid on the grounds that it violated section 502(b) of the Foreign Assistance Act dealing with human rights.

We as a nation are far more deeply involved in the future of Northern Ireland than we were in 1979. We have this year alone appropriated first time United States economic aid to Northern Ireland and Ireland. We do so with a sincere commitment of trying to advance the cause of peace and justice in Northern Ireland. That cause and that goal cannot be achieved if the British Government engages in a policy of whitewashing allegations of abuse of power by its security forces. That is the perception, if not the reality, of the situation with the RUC probe at the present time. I am hopeful that the bipartisan display of concern reflected in those of my colleagues who have cosigned this telegram to British Secretary of State for Northern Ireland, Tom King, will lead to a credible probe into these most serious of allegations.

The text of the telegram and those who have signed it follows immediately.

[From the Western Union Telegram]

OCTOBER 6, 1986.

Hon. TOM KING,
Secretary of State for Northern Ireland, Northern Ireland Office, Whitehall, London, England.

DEAR SECRETARY KING: We, the undersigned, join with Amnesty International in urging you to convene a new and independent investigation into the conduct and procedures of the Royal Ulster Constabulary. Of special concern to us are the charges that the RUC employed a "shoot to kill" policy in more than 35 separate shooting incidents involving civilians since 1982.

We deeply regret the circumstances which led to the abrupt termination of a preliminary report on this subject filed by John Stalker. This action appeared to represent an attempted whitewash of widespread findings of wrongdoings on the part of certain RUC officers. There must be an end to all violence in Northern Ireland. The allegations against the RUC would suggest that a disturbing level of official violence exists in Northern Ireland. These allegations must be answered; and if wrongdoing is found, swift and certain punishment must follow.

Mario Biaggi, Chairman, Ad Hoc Congressional Committee for Irish Affairs, Thomas Manton, M.C. (D-NY), Robert Borski, M.C. (D-Pa), Al Waldon, M.C. (D-NY), Matthew Rinaldo, M.C. (R-NJ), John Bryant, M.C. (D-Tx), William Coyne, M.C. (D-Pa), James Oberstar, M.C. (D-Minn), Barney Frank, M.C. (D-Mass), Gary Ackerman, M.C. (D-NY), James Howard, M.C. (D-NY), Albert Bustamante, M.C. (D-Tx), Charles Schumer, M.C. (D-NY), Joseph DioGuardi, M.C. (R-NY), Timothy Penny, M.C. (D-Minn), Sander Levin, M.C. (D-Michigan), Norman Lent, M.C. (R-NY), Hamilton Fish, M.C. (R-NY), Peter Kostmayer, M.C. (D-Pa), Mervyn Dymally, M.C. (D-Cal), Major Owens, M.C. (D-NY).

TRIBUTE TO THE HONORABLE TOM KINDNESS

SPEECH OF

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 7, 1986

Mr. MAZZOLI. Mr. Speaker, it is a pleasure for me to join my colleagues in this special order paying tribute to Congressman TOM KINDNESS of Ohio, who is retiring from the House at the conclusion of this session.

I have had the privilege of serving with TOM on the Judiciary Committee since he was elected to the House 12 years ago. We both came to the committee at the same time, and over the years, we have worked closely on numerous pieces of legislation on a wide range of issues, from beginning to end of the legislative process. I have only the highest respect for TOM—his ability to speak forcefully and fight hard for his ideals.

And, as a member of the Government Operations Committee, TOM KINDNESS has aggressively sought to ensure that the Government's business is conducted in a sound economical and efficient manner.

The people of Ohio's Eighth Congressional District have been served with distinction by TOM KINDNESS. The House of Representatives loses an intelligent, principled, and hard-working legislator—and a good friend. I wish you, TOM, good fortune, health, and happiness in all your future endeavors.

CONGRESSIONAL CALL TO CONSCIENCE VIGIL

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FRANK. Mr. Speaker, the oppression of the Soviet Jews continues unabated, and it is important for us to keep their plight in the public view. I would like to remind Members of the continuing struggle of Vladimir Lifshitz. He is a Soviet Jew who was forced to resign his job as head of the National Research Institute of Jewry, simply because he applied to emigrate from the U.S.S.R. to Israel.

Mr. Lifshitz was denied an exit visa on the grounds that it was against the interest of the Soviet state. Mr. Lifshitz was not satisfied, and subsequently wrote a letter to the Supreme Soviet claiming that his rights under Soviet law had been violated. Continuing to protest, Lifshitz renounced his Soviet citizenship, went on a hunger strike and later demonstrated in front of the Leningrad Soviet of People's Deputies Building. Only minutes after he held up a sign which read "Free Me From Citizenship of the U.S.S.R.," he was taken into custody.

Between August and November 1984, Lifshitz wrote a number of letters to personal friends in the United States, England, and Israel detailing the ordeal of his son Boris, who had been denied entrance to the university—and who has since lost a medical deferment for military service—because of Lifshitz's protests. Only two of these letters was ever received abroad. The others were intercepted by Soviet officials. Lifshitz was charged with slandering the Soviet state.

Lifshitz obtained Israeli citizenship and continued his emigration appeal to Soviet officials to no avail. He again went on a hunger strike to protest the unlawful treatment of Jewish activists and the denial of rights guaranteed them under the Soviet Constitution. During a preliminary investigation Mr. Lifshitz did not enjoy choice of counsel, and at trial he was not allowed to submit additional written documents that would strengthen his case.

I agreed to represent Lifshitz in a legal capacity and signed a brief on his behalf rebutting all charges. Despite an outpouring of congressional support, Lifshitz was convicted on March 19, 1986. At the trial more than 100 supporters of Mr. Lifshitz, including his family members and a representative of the U.S. consulate, were denied entrance to the courtroom. Basic rights were violated and testimony manipulated, as a witness later complained that she had been threatened with the imprisonment of her son if she did not testify against Lifshitz.

While awaiting appeal Lifshitz was kept in a cell 10 meters square with 10 other criminals. He complained of headaches and high blood pressure, but his requests to see a doctor were denied. On April 16 his sentence of 3 years in a labor camp was upheld by the Supreme Soviet. He has since been relocated to a camp in Kamtschaka near Japan, where he often is required to haul metal sheets weighing up to 75 pounds. Under this strain and in response to his wife's continued letters to Soviet officials, Mr. Lifshitz is now in the hospital.

Mr. Lifshitz's son Boris, having only recently been released from the hospital with an ulcer, has been drafted by the Soviet Army and sent to a region in the north. His ulcer has since required medical attention and he has been in and out of the hospital numerous times. He is unable to get a discharge.

Mr. Speaker, I would like to make special note of the efforts of the gentleman from New Jersey [Mr. COURTER] and the Senator from Ohio [Mr. METZENBAUM] on Mr. Lifshitz's behalf. It is crucial that the victims of Soviet repression realize that we in the West have not forgotten them.

POLITICAL MOVEMENT ON TAIWAN

HON. DANTE B. FASCELL

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FASCELL. Mr. Speaker, for many years members of the Foreign Affairs Committee, as well as other Members of Congress, have been concerned about martial law that has continued for decades on Taiwan. The movement toward a more open and democratic system has been very slow. It has experienced several setbacks. Yet, the perpetuation of martial law has continued to tarnish what should otherwise be a shining Asian success story.

This year, however, there has been some movement on Taiwan that we should acknowledge. Today's report in the Washington Post suggests that President Chiang Ching-kuo is preparing to lift martial law. Earlier this year, special committees were established in the Nationalist KMT Party to examine major political problems such as martial law and elections. The Government has also encouraged dialog with the opposition.

Last week an opposition party—the Progressive Democratic Party—was formed on Taiwan composed of many respected and dedicated citizens in that land. While I do not believe we should endorse any one party over any other, we can nevertheless applaud the opening and extension of the political process and express our hope for further unconstrained development along peaceful directions.

Clearly the people of Taiwan deserve adequate representation befitting the modern state that Taiwan has become. To do so, they will need to perfect their own institutions and procedures. Recent developments give grounds for optimism that positive political change is underway.

TRIBUTE TO JAMES H. GOSNELL

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. HALL of Texas. Mr. Speaker, it has been said "a tree is best measured when it is down." The city of Whitewright, the county of Grayson, the State of Texas—and the Nation—said goodbye last Thursday to James H. (Sonny) Gosnell—who had been a mighty oak tree for all who loved and needed him throughout his life.

Sonny was a total success in every facet of life. He was a loving and devoted husband to Doretha; a warm and steady and adoring father of Judy, and a dependable and caring brother to his three sisters, Ruth, Gladys, and Marcell, and their families. We, here in Congress, send our special love and prayers to Judy—who has many friends on the Hill, in the House family, and in the Texas State Society and the Texas Breakfast Club—entities she served during her tenure in Washington, DC.

Through the strength, support, and love Sonny drew from Doretha and his family—he extended his success and service into every other field of life—his church, his friends, his business, and in the field of public service. Sonny Gosnell loved his church and served it well as a 50-year member, a 16-year director of Sunday school, deacon and faithful attender and financial supporter; Sonny was an organizer and director of banks, agribusiness expositions, a supporter and president of the chamber of commerce, the United Fund, a leading director of the Grayson County Airport Board, and owner of Whitewright Grain & Elevator Co., O.K. Feed Mill; at one time owned and operated Farmer's & Ranchers Service Center in Sherman—all accomplished at a time when he farmed over 800 acres of land.

In addition to family, church, and business, Sonny found time for his friends—and they, in turn, recognized his leadership in the White-

wright FFA and 4-H chapter for 25 years continuous service.

He was a Scottish Rite Mason—and was a past master of the Whitewright Masonic Lodge. He and his friends made possible the Grayson County Jail-Justice Center; Sonny was president of the Grayson County Crime Commission and served as a director to the Friends of Sam Rayburn Board—an organization dedicated to the memory of Sonny's great and personal friend—the late Sam Rayburn.

So, Mr. Speaker, and Members of Congress, Sonny Gosnell climbed the hill of success—family, church, business, public service—and friends. We have a street named after Sonny at the Grayson County Perrin Air Force Airport—a signal honor bestowed on Sonny Gosnell by admiring friends. Those same friends, in overflowing numbers, said their last earthly goodbyes to Sonny, September 25, 1986.

Sonny Gosnell left behind him a legacy of serving, of giving, and of loving. I personally will never forget this kind man and this kind family.

Men such as Sonny Gosnell—like the mighty oak trees of the forest—are best measured when they are down. We only wonder at how they grew so strong and sturdy, and shaded so many lives—in such a relatively short time. Sonny was always busy—but he always had time for others. May God's richest blessings rest with Sonny and his family and his many friends.

MINORITY ENTERPRISE DEVELOPMENT WEEK

HON. NICHOLAS MAVROULES

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. MAVROULES. Mr. Speaker, the land of opportunity has fulfilled its promise to several individuals being honored this week. Over two dozen minority entrepreneurs from across the Nation will be awarded for their achievements as part of Minority Enterprise Development Week. These people are proof that the American dream can still come true, and they are a shining example to the 600,000 other small minority run businesses in the United States.

People of all nationalities are drawn to the United States by the promises of opportunity. Often, however, these promises are not met because many of the newcomers find themselves at a clear disadvantage and cannot compete effectively in the business world.

One of our jobs, as legislators, is to help insure that all people have equal access to opportunity in the marketplace. Certainly, we cannot guarantee success to each and every business venture. However, we can guarantee a chance to each person to prove his or her capability. We are responsible for enabling our Nation to remain the land of possibilities for everyone with a dream of success.

Being alert to the adversities that minority firms must overcome each and every day must continue to be an ongoing project for us. Nevertheless, we must be prepared to do even more than that. We must continue to take careful yet profitable steps toward maintaining a climate that is favorable to the growth and well being of small business in the United States.

Set-asides and the 8(a) program of the SBA have made it possible to involve small and minority businesses in the Government procurement process. Such programs allow minority firms to prove their capability through Government contracts, and assist them in their transition into the private sector.

I am pleased to be able to congratulate the award winners this week, and I extend a helping hand to all minority businesses in an effort to bridge the gap between the dream and reality of economic success.

THE ONGOING STRUGGLE OF SOVIET JEWS

HON. JAMES H. SCHEUER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. SCHEUER. Mr. Speaker, as the President prepares for his upcoming Summit Meeting with Soviet leader Mikhail Gorbachev, let us remember the desperate struggle of the Soviet Jews, who continually suffer unjustly under the oppressive Soviet State.

Jews in the Soviet Union continue to be subjected to an official campaign of harassment, intimidation, and physical abuse, not unlike Nazi policies of the 1930's.

The terrible plight of Jews in the Soviet Union is one of the most shameful wholesale violations of human rights in the world today.

There is, however, a growing grassroots movement here in this country dedicated to addressing the plight of Soviet Jews.

Today, leaders of this movement are meeting here in the Nation's Capital to alert us to the ongoing struggle of Soviet Jews, and I join them in urging the President to make the issue of Soviet Jewry a priority at the upcoming summit.

These dedicated individuals work continually to organize and mobilize the public to take action for the cause of Soviet Jews.

They understand that silence on the issue is our greatest enemy.

Jews have become the targets of increasingly harsh and virulent anti-Semitic attacks in the Soviet-controlled media, despite the Soviet Union's pledge as a signatory of the 1975 Helsinki Agreement, to "recognize and respect the freedom of an individual to profess, alone or in a community, a religion or belief in accordance with the dictates of their conscience."

As each day goes by, the suffering continues.

We have an obligation, as Members of Congress, to call upon the Soviet Union to abide by its treaty commitments.

We must not, we will not, be silent on the plight of Soviet Jews.

TRIBUTE TO ROBERT CAMPI

HON. ROBERT J. MRAZEK

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. MRAZEK. Mr. Speaker, I rise today to pay tribute to Robert Campi, a constituent of Long Island's Third Congressional District who has devoted his life to the musical enrichment of others.

Mr. Campi's efforts on behalf of the arts have been enormous. For more than 25 years, he has performed as a professional opera singer. Traveling to schools and libraries all over Long Island, Bob Campi has consistently impressed audiences with the strength and diversity of his talents.

In addition to performing, he has also taught our children. As a New York State certified teacher, he has taught music in Nassau County for more than 12 years. He also holds school music programs in which he discusses the history of music and performs selections in four languages.

Mr. Speaker, I was fortunate enough to hear Bob perform recently. His artistic contribution to the Long Island community has been invaluable, and I am pleased to bring his accomplishments to the attention of my colleagues today.

CHERNOBYL REVISITED: WILL THE SUNKEN SOVIET SUBMARINE POLLUTE THE OCEAN?

HON. WM S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. BROOMFIELD. Mr. Speaker, a few months ago, the Russians treated the world to a nuclear powerplant disaster. As radiation drifted around the globe, the Kremlin minimized the bad effects of that accident. Yesterday, a Soviet sub sank off our coast with nuclear reactors and missiles on board. Again, the Russians are telling us "not to worry." Chernobyl clearly polluted the atmosphere. What will the sunken submarine do to the ocean? In spite of what the experts say, I am very concerned.

The Soviets fouled up again. A fire broke out aboard one of their nuclear subs. The fuel in one of the nuclear missiles on board may have ignited. Although the reactors in the ship appear to be intact, are the Soviet authorities leveling with us this time? What will the sea water eventually do to the radioactive materials aboard the ship? These are questions that all of us must ask in light of the less than honest handling of the Chernobyl disaster by Mr. Gorbachev.

The Russians cut corners in their nuclear powerplant reactor designs as well as in their submarines. Regretfully, the Soviets do not use lead and other materials to shield their submarine reactors. By doing this, they save on weight and increase the speed of their submarines. In the high-stakes game of reactor design and missile systems, safety is criti-

cal. The Russians should put safety first so that we don't damage our fragile environment. The world doesn't need another Chernobyl.

CONGRATULATIONS TO IMMACULATE CONCEPTION SCHOOL

HON. MARTIN FROST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FROST. Mr. Speaker, I want to take just a moment to commend Immaculate Conception School located in my district in Grand Prairie, TX.

On September 12 of this year, Immaculate Conception School was one of only 60 private schools nationwide to be honored with the 1985–86 U.S. Exemplary Private School Award. School principal, Diane Cooper, traveled to Washington and received flags from President Reagan and Secretary of Education, William Bennett, at a special White House ceremony.

I am very proud of the excellent educational opportunities being provided to children in my district by Immaculate Conception School. I commend the school administration and teachers for their fine work and look forward to congratulating them in person when I return to Grand Prairie.

CRACK DOWN ON CRACK

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. RANGEL. Mr. Speaker, I rise to commend WABC–TV in New York for the initiative it has taken in publicizing the need to halt the spread of crack.

We all know that crack is the newest and most insidious addition to the drug culture. It is cheaper than cocaine, and more addictive. Young people who experiment with crack often become habitual users because of its highly concentrated narcotic effect. They become addicts before they know what is happening.

Television is a very useful medium for spreading the word in the war on drugs. Young people watch television, and their parents are made aware of events through public service announcements. Therefore, when a station as influential as WABC declares its support for antidrug efforts, the public's interest is dutifully served.

I would like to submit the text of WABC's editorial for inclusion in the CONGRESSIONAL RECORD.

The text of the editorial follows:

CRACK DOWN ON CRACK

The Bronx district attorney says that 50% of the robberies in the borough are committed by those who are feeding a drug habit. That's half of all the crime in the Bronx and you can see the crime wave reaching into other boroughs and into poor communities alike.

Cocaine abuse has reached epidemic proportions and in it's cheaper more potent form called crack it's running the lives of our children. Children as young as 10 have used and are being sold crack. The evidence is there to show that just one hit can make you an addict. And the drug invasion is growing.

The fact is that cocaine smuggled into the U.S. has increased from 25 tons to 125 tons each year for the last 5 years. News studies show cocaine-related hospital emergency room admissions rose 94% since 1983.

So what are we going to do about it? We hope that you feel as mad as we do about the drugs and dealers. They must be driven out of our communities, away from our kids. We here at Channel Seven join the local clergy, government and community leaders in our own effort to Crack Down on Crack. Only if we work together can we win this battle.

TRIBUTE TO MARCO CANGIALOSI

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. TORRICELLI. Mr. Speaker, I rise in honor of Marco Cangialosi on the occasion of his recognition by the readers of "Il Progresso" as a prominent Italian American.

Mr. Cangialosi migrated to the United States from Marineo, Italy, as a young man of 24. He and his two brothers founded the Dor-Win Manufacturing Co. From a small business in Lodi, Mr. Cangialosi has branched out to five locations with a national reputation as a manufacturer of windows and doors. A proud moment came this past year when Dor-Win windows and doors were used to renovate the Statue of Liberty.

Mr. Cangialosi has been honored by his native land of Italy for his fund-raising efforts for the victims of earthquakes in 1980–83. He has worked diligently to raise funds for the renovation of old schools and historic landmarks in Marineo.

His fellow citizens are also keenly aware of Mr. Cangialosi's many efforts on their behalf. He was named "Man of the Year" in 1980 by the Kiwanis Club of Lodi. In 1982, he was the recipient of the Italian-American Forum of Lodi's "Man of the Year Award." In 1984, he received the Humanitarian Award from the Italian Tribune Newspaper in Newark, NJ, and was honored in the Columbus Day Parade.

Mr. Cangialosi has given of himself for his fellowman. We are proud of his years of benevolent caring, both for the land of his birth and for his adopted country. I am pleased and honored to be able to recognize his many achievements on the floor of the Congress of the United States.

ELWOOD "BUD" HILLIS

HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 1, 1986

Mr. STOKES. Mr. Speaker, I would like to thank my colleagues, Representatives VISCLOSKY, SHARP, HILER, COATS, BURTON, MYERS, MCCLOSKEY, HAMILTON, and JACOBS for reserving this time for Members to pay tribute to my distinguished colleague in the House of Representatives, ELWOOD "BUD" HILLIS, who is retiring after 16 years of service to the citizens of the Fifth District of Indiana.

BUD HILLIS and I have enjoyed a friendship that transcends our sitting on opposite sides of the aisle. Bud's secretary, Jean Gosa, one of Capitol Hill's most charismatic staff persons was the link to the beginning of our friendship. He and I have passed the time of day on many occasions discussing something Jean has done. She has been a great asset to his office and my staff and I have enjoyed our relationship with him and Jean.

BUD is also highly respected on Capitol Hill for his fine work and dedicated service to his constituents. He has served on the Veterans' Affairs Committee since 1971 and on the Armed Services Committee since 1975 and has labored diligently to protect the interests of the men and women who have served our Nation in battle.

Mr. Speaker, the House of Representatives is losing an outstanding Member with the retirement of BUD HILLIS. He is an admired and respected Member of Congress, and his presence will be missed. I join with my colleagues in wishing BUD the best of luck on his retirement from the House of Representatives.

BICENTENNIAL OF PHILLIPSTON, MA

HON. SILVIO O. CONTE

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. CONTE. Mr. Speaker, I rise today to pay tribute to a great little town in my district, Phillipston, MA. This holiday weekend Phillipston will be celebrating its bicentennial, and the town will be reveling in its rich New England heritage. This community of 950 people was incorporated as a town on October 20, 1786, but its history dates back to when it and Templeton were part of Narragansett Grant No. 6. This grant was made to soldiers who served in the wars against the Narragansett Indians.

Phillipston is one of those towns which is the backbone of New England, where hard-working people take great pride in their town. It is a quaint, rustic village with New England charm, where travelers can always count on a good meal at the Fox Run Restaurant.

A full schedule is on slate this weekend in Phillipston. There will be a pumpkin viewing and weigh-in on the steps of the Congregational Church, a beard judging, a colonial encampment on the town common, numerous road races, native American dances and demonstrations. There will also be a viewing of a film on a subject which is very dear to me, Shays' Rebellion, and on the final day of the celebration there will be a mile-long parade.

Mr. Speaker, I know that many people in Phillipston have put much time and effort into this celebration, and I am sure that their hard work will result in a successful and enjoyable day for all. The people of Phillipston have good reason to be proud of their town, and I

am pleased to pay tribute to Phillipston on the event of its bicentennial.

ON PATENT AND TRADEMARK OFFICE AUTHORIZATION BILL

HON. JACK BROOKS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. BROOKS. Mr. Speaker, I wish to express my support for the amendments to the Patent and Trademark Office authorization bill (H.R. 2434) agreed to by the House on October 2. I would like to thank the gentleman from Wisconsin, Mr. KASTENMEIER, for his leadership in reaching the compromise with the Senate on this measure. The gentleman from California, Mr. MOORHEAD, also deserves commendation for his assistance in working out the compromise.

The bill as originally passed by the House contained an amendment I offered that prohibited the Patent and Trademark Office from expending any user fees to acquire any automatic data processing resources during the 1986 to 1988 period. My amendment was based on the need to obtain more thorough congressional review of the automation activities at the Office.

I have been concerned, as have been other members of the Judiciary Committee, by findings of the Comptroller General in two reports concerning automation activities of the Patent and Trademark Office.

In April 1985, the Comptroller General reported on automation of trademark operations. The report stated that, in attempting to automate its trademark operations, the Office did not: First, thoroughly analyze user needs; second, adequately assess the cost effectiveness of its systems; third, properly manage three exchange agreement contracts; and fourth, fully test one of its systems before accepting it from the contractor. This year, the Comptroller General issued a report on the patent automation activities at the Office. The 1986 report revealed serious deficiencies in the planning and execution of the large program for automating the patent search files, which has an estimated cost of some $800 million by the end of the century.

The Senate bill adopted a different approach for obtaining oversight of their automation activities. The Senate added a provision requiring the Commissioner of Patents and Trademarks to report key deployment decisions to the House and Senate Committees on the Judiciary at least 90 calendar days before the date of implementation.

The compromise bill approved this week retains the Senate reporting requirement along with a modified version of my amendment prohibiting the funding of automation activities by user fees. The compromise provides that in fiscal years 1987 and 1988, automatic data processing resources shall not be funded with more than 30 percent user fee money.

User fee policies of the Patent and Trademark Office have been considered by the Congress several times in recent years. The most recent fee legislation was in Public Law 96-517 in 1980 and Public Law 97-247 in 1982. The report issued by the House Judiciary Committee in 1980 endorsed a policy of employing user fees to support certain operations and appropriated funds to support other operations. The report stated that, "the acquisition or replacement of equipment where such acquisition or replacement involves substantial capital outlays," should be supported by appropriated funds rather than user fees.

My amendment and the compromise adopted on October 2 is consistent with this approach of using appropriated funds, rather than user fees, for capital outlays. The automation programs at the Patent and Trademarks Office will, in large measure, involve capital expenditures over the next decade. The compromise bill adopted this year, with its 30-percent limitation on user fees, is consistent with the capital/noncapital approach. "Capital" expenditures has a well-established meaning in the lexicon of Federal Government accountants. Under the accounting rules promulgated by the General Accounting Office, it has been estimated that at least 70 percent of the PTO's automation programs will involve capital expenditures over the next several years. Thus, the compromise cap of 30 percent user fees roughly equates to the amount of noncapital expenditures that these computer projects will entail.

I am gratified that the compromise bill also includes a provision along the lines of one I sponsored originally to prohibit the Patent and Trademark Office from entering into any new agreements for the exchange of items or services relating to automatic data processing resources through fiscal year 1988. The bill also precludes the Office from continuing existing agreements for the exchange of such items or services. This provision responds to concerns raised in the Comptroller General's 1985 report on automation of trademark operations.

While I support the need to automate the outdated and inadequate paper files at the Patent and Trademark Office, which I understand contain over 25 million patent and trademark documents, I believe the oversight committees of the Congress must take a more active role in assuring that the automation programs are being managed effectively and are consistent with all applicable laws and regulations. We have a responsibility both to the taxpayers and to the users of the patent and trademark systems. My colleagues and I, therefore, plan to pursue this matter further next year through continued oversight of the Patent and Trademark Office and the Department of Commerce. We must be sure that the Office is fulfilling its purposes of encouraging innovation and investment that will strengthen the national economy and improve our citizens' lives.

TOLEDO VISITING NURSE SERVICE—85TH ANNIVERSARY

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Ms. KAPTUR. Mr. Speaker, the family is the central institution in the American way of life. Although family structure is changing, most people are born into, grow up in and die within the context of a family. Yet, societal changes and anticipated demographic trends are affecting the traditional familial approach to caring for elderly and disabled family members. Home health care will increasingly play a role in this evolution.

I am particularly pleased with the long history of nonprofit agencies' involvement in home health care. One such program, the Visiting Nurse Service of Toledo, OH, has been offering nursing and health care assistance to the elderly, as well as physical, speech and occupational therapy and maternal and child health care in my community since the turn of the 20th century.

One of the greatest contributions made by nonprofit home health agencies is the access they provide to quality health care for all patients, regardless of the individual's ability to pay. Of the 48,000 visits made by the Toledo VNS in 1984, over 11,000 were not fully reimbursed. Thanks to the partnership this agency has forged with private individuals, other community service organizations and local businesses, over $473,000 in free home care services were provided to the medically needy in 1985. The Toledo Visiting Nurse Service is truly an integral part of our community's, and our Nation's, commitment to affordable, accessible health care.

The Visiting Nurse Service has made an invaluable contribution to Toledo during its first 85 years. I applaud the many achievements of the VNS and wish them continued success into the 21st century.

FATHER DANIEL EGAN

HON. HAMILTON FISH, JR.

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. FISH. Mr. Speaker, on October 24, 1986, Mount Saint Mary College, Newburgh, NY, will honor a pioneer and leader in the war against drug abuse, Father Daniel Egan, S.A.

Father Egan, 71, a Catholic priest for 40 years and a member of the Antonement [Franciscan] Friars from Garrison, NY, has worked with young drug addicts for more than 30 years. He has written articles, appeared on television, lectured throughout the country, and testified before governmental hearings on the subject of drug addition.

In 1970, he founded New Hope Manor, a drug rehabilitation center for teenage girls at Graymoor in Garrison, NY, which is the motherhouse of the Atonement Friars. Father Egan has presented his alcohol/drug prevention program for students from the fifth through ninth grades in more than 200 schools since developing it in 1981.

Mount Saint Mary College is presenting Father Egan its Aquinas Award during the school's Second Annual Soiree Eclatante, a dinner dance, at the Thayer Hotel at West Point, NY.

The award is well deserved. When Father Egan first became involved in fighting drug abuse, the world of drugs was a remote one for him. But no one could say Father Egan was a slow learner. The streets became his

classroom, the shooting galleries became his parish, and the woman addicts of New York City were his parishioners.

He was appointed by President Kennedy as a member of the first White House Conference on Drugs. Many of his early recommendations about the treatment of GI addicts have been enacted into legislation, and he continues to testify before local, State and Federal hearings on crime and drug abuse.

Recently, Father Egan has devoted much of his time to drug abuse prevention and education.

I am proud to recognize his contributions and ask my colleagues to join me in congratulating Father Egan on his past successes and to wish him well in his future endeavors.

SOCIAL SECURITY/MEDICARE

HON. LES AuCOIN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 8, 1986

Mr. AuCOIN. Mr. Speaker, recently, the mayor of New York presented James Roosevelt, chair of the National Committee to Preserve Social Security and Medicare, with an official resolution of commendation.

This is an honor well deserved. Since founding the national committee in 1982, Mr. Roosevelt has done much to raise the consciousness of Americans and the level of national debate regarding issues that affect older Americans.

Now, I don't always agree with the positions taken by the committee. But I do respect the hard work they do. And there's no question that they get results. The committee's national newspaper, Saving Social Security and a special legislative alert system keep the committee's 3 million members up to date regarding actions in Congress. Over the past 3 years, nearly 9 million petitions, letters, and phone calls have been made to Members of Congress. The national committee staff also works with Washington policymakers and presents testimony at hearings pertaining to Social Security or health care issues.

Members of the National Committee to Preserve Social Security and Medicare have spent long hours working to increase funding for home care and hospice programs and beef up research into the causes and treatment of Alzheimer's disease.

In Oregon, as across the United States, we're witnessing the graying of the population. Along with the increase in the number of people over the age of 60 comes an increased need to develop cost-effective ways to provide for health and retirement care. The national committee recognizes this change, and is working to make sure that reforms aren't made at the expense of elderly individuals who depend on Federal health benefits.

I would like to commend the committee for its work, and to wish Mr. Roosevelt and other committee members the best of success in the days ahead.

RULE ON HOUSE JOINT RESOLUTION 668, INCREASING THE STATUTORY LIMIT ON THE PUBLIC DEBT

HON. DAN ROSTENKOWSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. ROSTENKOWSKI. Mr. Speaker, I wish to serve notice, pursuant to the rules of the Democratic caucus, that I have been instructed by the Committee on Ways and Means to seek less than an open rule for the consideration by the House of Representatives of the Senate amendments to House Joint Resolution 668, increasing the statutory limit on the public debt.

PAUL KOTROTSIOS KEEPS DELAWARE VALLEY GREEKS INFORMED

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. FLORIO. Mr. Speaker, recently, I attended a meeting of Greek-Americans from the Delaware Valley area and had the pleasure of meeting Paul Kotrotsios, an enterprising and conscientious young man who is the general manager for the Greek Radio Network of America.

The Greek Radio Network provides news to the Greek community of Pennsylvania, New Jersey, Maryland, and Connecticut. It not only provides the community with news about Greece but also serves a worthwhile mission of preserving the Greek language, culture, and tradition which are all valued so highly by Greek-Americans and by our society in general.

In managing this network, Paul has exemplified professionalism and concern for his fellow community members. I would like to direct the attention of my colleagues to an example of this concern that has been displayed by the station since a powerful earthquake racked the Greek city of Kalamata, leaving 20 dead, 35,000 homeless and leveling three-quarters of the city. Several days after the earthquake hit, Paul Kotrotsios and his colleagues began broadcasting round-the-clock news about the quake for 4 days providing both a public service for Greek-Americans with relatives and friends in the area and a humanitarian service in mustering donations for necessary relief efforts.

I would like to applaud Paul Kotrotsios and the Greek Radio Network of America for their efforts and commend the following Philadelphia Inquirer article to my colleagues' attention:

[From the Philadelphia (PA) Inquirer, Sept. 27, 1986]

ON THE AIR FOR FUNDS FOR GREECE

(By Mary Jane Fine)

There is a wall map of Greece beside Paul Kotrotsios' desk. A colored pushpin marks the city of Yiannena, which once was his home, just as other pushpins mark the former homes of other employees of the Greek Radio Network of America, based in Media.

The red pin stuck into the southern city of Kalamata is there for a different reason: It marks disaster.

Ever since Sept. 13, when an earthquake measuring 6.2 on the Richter scale severely damaged the seaside city, the cable radio station has directed its efforts toward relieving the town's distress. For four days beginning Sept. 15—when a second, lesser quake hit—it broadcast round-the-clock news and fund-raising appeals.

Nearly two weeks later, it continues to broadcast live reports from Greece twice a day, as well as hourly requests for donations. To date, contributions total about $23,000.

"They're facing some serious problems right now," said Kotrotsios, 31, the station's general manager, "and now it's still summer in Greece. Consider a month from now when it's cold, rain, even snow."

The station's listeners have good reason to be interested in the news broadcasts, the interviews, the public service announcements and the musical dedications for and about Kalamata. Most are Greek-Americans, eager for news of home or worried about the fate of relatives.

Kotrotsios estimates that 110,000 Greeks live within 50 miles of Philadelphia. The station also is heard in Maryland and Connecticut. In addition, a satellite dish can pull in the signal "anywhere in the United States and Canada," he said.

Several days ago, the station decided to broaden its appeal for assistance, distributing flyers outside the tightly knit Greek community. Station officials reasoned that wide media coverage of an earthquake in Italy several years ago resulted in widespread assistance.

"Are we avoiding the situation?" Kotrotsios asked, noting how little media attention the Greek quake has attracted. "Are we closing our ears?

He went on to recite Kalamata's disaster statistics: Three-quarters of the city leveled, with 30,000 to 35,000 people homeless, 20 dead, hundreds seriously injured, all the major buildings damaged.

"The people are living outside in the fields, in tents," said Peggy Mylonas, president of the Peloponnesian Society of Philadelphia and a recent guest on the radio station. "The army is feeding them. Even the church services are taking place outside."

By a stroke of good fortune, the city averted even greater disaster, she said. Hundreds, perhaps thousands, of people were at the seashore the night of the first quake, celebrating the inauguration of a new boat line between Kalamata and Crete.

"People were lucky they were not in their houses," Mylonas said.

Before the earthquake, Kotrotsios said, Kalamata was a fishing community as well as an exporter of olives, olive oil and "the famous figs of Kalamata."

On Wednesday, the station's listeners heard the mayor of Kalamata, interviewed by a Greek correspondent, thank "the Greeks abroad" for "their care and help."

Listening to a reply of the tape, Kotrotsios nodded and then spoke about the importance of his listeners' link with their past—embodied in news from home, in announcements of local Greek festivals, in the music of the station's 5,000-album collection.

The station's mission, he said, is "to help people to preserve the language and the

great Greek customs, the history and all that . . . but also the help people get adjusted in this new world, because it is a world of opportunity and freedom.

TRIBUTE TO CHARLES H. NORCHI

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. TRAFICANT. Mr. Speaker, today I rise to pay tribute to Charles H. Norchi, executive director of the Ohio Medical Relief Assistance to Afghanistan, a constituent of mine and a former graduate of John F. Kennedy High School in Warren, OH.

As executive director of the Ohio Medical Relief Assistance to Afghanistan [OMRATA], Mr. Norchi is currently finalizing plans to establish a front-line medical clinic within the Soviet war zone in Afghanistan. This medical clinic will be staffed by three physicians and will be providing much-needed medical assistance to refugees, primarily children, who have been injured by Soviet attacks and Soviet "toy grenades". These toy grenades do not kill but result in the loss of limbs to these poor innocent individuals.

Prior to his efforts to help the refugees in Afghanistan, Mr. Norchi was a news reporter for the Independent News Alliance covering the war in Afghanistan. Back in 1979 he received his bachelor of arts degree in government from Harvard University. Most recently, Mr. Norchi received his law degree from Case Western Reserve University School of Law in Cleveland.

I want to commend Mr. Norchi for his dedicated efforts to help the courageous refugees in Afghanistan. Through the establishment of a medical clinic inside Afghanistan, Mr. Norchi is demonstrating his strong conviction to provide vital medical care to these individuals. These refugees have overcome tremendous odds against a Soviet and Afghan military force, far superior in manpower and weaponry. However, these people are committed to the defense of this land. With this courageous effort, great personal pain and suffering has been endured. Mr. Norchi's work to locate a medical clinic in this wartorn region is a sign of admiration and dedication to these refugees. I applaud Chuck Norchi for his conviction and dedication to this cause.

PROFILE OF SENATOR ALAN CRANSTON

HON. TONY COELHO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. COELHO. Mr. Speaker, as elected officials, we all know of the pressures of public life, and the need to maintain credibility among the electorate. Senator ALAN CRANSTON, perhaps more than any other California politician, has been able to deal with those pressures, and to keep a consistent public image by sticking to the principles he has long held. Not only the voters of California, but the press as well, admire Senator CRANSTON for his record of public service, as exemplified by this profile in the Los Angeles Herald-Examiner:

CRANSTON

(By Dave Lesher)

WASHINGTON.—Sen. Alan Cranston took off his jacket and sat casually on a couch in his office, legs crossed, and leaning over until his elbow rested on the middle cushion. As he talked, he snacked on a banana and milk.

Nearby, a large color television was tuned to the ongoing Senate roll call vote on President Reagan's controversial nomination of conservative Indiana Judge Daniel Manion to the federal bench.

Although Cranston was among the loudest liberal voices opposing Manion, he smiled after the appointment narrowly passed. On his vest-pocket scorecard, scrawled with his own pluses and minuses, he had accurately predicted the vote of every individual senator and the resulting 49–49 tie.

"On any issue that comes up, I can pick up a list of the 100 senators and mark about 70 percent of them, the way they're going to vote," he boasted. "I just know enough about them to know how they're going to vote on a given issue."

Cranston, 72, is clearly in his element on Capitol Hill. He walks among his colleagues on the Senate floor like a member of the varsity. In his office, he is comfortable enough to often work in his socks or slippers.

There are few who know every nuance of the congressional game—the personalities, the tactics, the rules—as well as Cranston. He has become a reference tool for the nation's Democratic leadership.

That's why his peers have unanimously elected him Democratic whip for five consecutive two-year terms, more than any other Democrat in 50 years.

"You don't get that job unless your colleagues realize you know your business," said Paul Allen, an aide to Massachusetts Sen. Edward Kennedy. "He is an excellent navigator."

He has won the respect of his colleagues while retaining personal habits that cut against the grain of the stereotypical politician.

Cranston is a reserved man who goes about his business with a lack of emotion that belies the tension of his job. One of his aides, speaking on the condition of anonymity, said, "It's one of the most frustrating things about dealing with Alan as a member of his staff—he doesn't talk very much. He's shy, he's almost awkward, but what he's doing is listening."

Cranston is proud of his reticence and, as evidence, recites a poem he has carried in his wallet for more than 40 years. It begins, "A leader is best when people barely know that he exists."

Rather than join Washington's active social scene after work, Cranston's escape is exercise. He lifts weights in the Senate gym and sometimes runs wind sprints around the Capitol. He also maintains his extraordinary shape by following a modified Pritikin diet that is heavy on fruits and vegetables.

His outside interests are few. Although a millionaire, he is excruciatingly modest with his money. In Los Angeles, he recently drove to a West Side restaurant in his battered, 14-year old Chevy Camaro with mag wheels. He handed the keys to a valet in a parking lot filled with Porsches and Mercedes.

But then, that's his new car. In Washington, he drives from his townhouse on Capitol Hill in a green 1965 Dodge Dart.

"I don't believe in buying new cars," Cranston said, as if buying cars was a philosophy to be believed in.

His all consuming passion, quite simply, is politics. And he has plotted a career of legendary proportions, not only in Washington but in his home state as well.

A third-generation Californian whose grandfather started the family's still-lucrative real estate business by building Victorian homes in San Francisco 100 years ago, Cranston has been a major player in the Golden State political scene for more than 30 years.

Since 1958, he has won five out of seven statewide campaigns, three by huge margins. While the 1980 Reagan landslide was defeating incumbent Democrats from coast-to-coast, Cranston waltzed to victory, becoming the first member of his party elected to a third Senate term in California.

Now seeking a fourth term, Cranston shows no signs of losing steam. He has remained hungry in his job.

That is partly because he is unusually dedicated to his liberal principles. But most of all, Cranston enjoys the chesslike part of the game—plotting "their" moves vs. "our" moves, calibrating attacks and counterattacks.

He is most animated when recalling the close fights in which a combination of team strategy, backroom bargaining, threats and promises shaped the outcome of a major national issue.

As a survivor in an arena where foes can be devious and deceptive, he is no stranger to hardball tactics. He's not afraid to muscle his competition with a show of force or to use inferences that walk the line on credibility.

He recently ran a television ad on South African apartheid that linked the position of his Republican challenger, Rep. Ed Zschau, with far-right conservatives Jesse Helms and Jerry Falwell. Zschau—who, unlike Helms or Falwell has supported limited sanctions against South Africa—angrily denounced the commercial as "sleazy."

When he was questioned recently about his tactics, Cranston reiterated a 1983 comment. "I play tough," he said. "I don't think I go overboard or am unfair."

In addition to being tough and hard-working, Cranston's trademark is his consistent adherence to liberal principles. Nor has there been any backsliding with age. Last year, he received a 100 percent rating from the nation's most prominent liberal lobby group, Americans for Democratic Action.

He was an outspoken liberal when it was popular—like 1968, when he first won election to the Senate on an anti-Vietnam War platform.

And he was an outspoken liberal when it was not popular—the 1950s, when he organized a liberal wing of California Democrats; the 1980s, when he ran for president with a "peace and jobs" message.

His commitment to his ideals is a major reason he has a loyal staff, many of whose members have worked for him at least 10 years. His dedication, coupled with his effectiveness as a politician, has given him a well-established credibility for accomplishing his goals.

His aides stay "because when you speak for Alan Cranston, you get things done,"

said Kam Kuwata, an 11-year employee. "He is a very goal-oriented person."

Cranston's management of his staff is a key to his success as a Senate leader. He is skilled at delegating responsibility so he can focus his attention.

Even in his re-election campaign, he has given almost complete responsibility to his staff. His role is basically to be a sounding board.

"I have a tremendous amount of loyalty because I think he instills that," Kuwata said. "He's always given me personal challenges."

One task he does not delegate is working on the phones. He is fabled for his "pocketful of dimes" and his complete lack of compunction about asking contacts to donate money for one cause or another.

On the road, it's almost as if he has a magnetic attraction to phone booths. He inevitably asks his drivers on campaign swings to stop at the nearest telephone. With barely 10 minutes to spare before a recent late-night flight, Cranston pondered whether it was appropriate to call a possible contributor in New York shortly before midnight.

"Maybe not," he decided.

Cranston has compiled a list of Democratic contributors not only lucrative to his campaigns, but vital to Democratic candidates nationwide, said David Johnson, director of the Democratic Senatorial Campaign Committee.

As a result, Johnson said that among national Democratic leaders, "anybody Alan Cranston wants to help (him) is going to help because he has done so much to help" the party establishment.

Bill Wardlow, his 1980 campaign manager, said flatly, "Alan Cranston is one of the best fund-raisers in the United States. He works harder at it than anybody I've ever seen."

For all his skill as a Senate headcounter and money-raiser, however, there is an enigmatic element to Cranston's political success story. By his own account, he is not the type of leader who inspires an audience or commands attention.

Part of it is a manner of style, or lack of it.

As a speaker, his mannerisms and tone are stilted. He sometimes uses his finger to keep his place when using a prepared text. He occasionally misplaces the emphasis in a sentence.

Lately, Cranston has been getting public-speaking lessons. He rehearses important speeches in front of his advisers. He's been coached to look at his audience when talking.

In a television-dominated age, Cranston's baldness and gaunt look also work against him. One of his oldest friends and allies, former California Gov. Pat Brown, speculates that Cranston probably wouldn't stand a chance of being elected if he were running today for the first time.

Jerry Warburg, his foreign-affairs adviser, said, "He is not a natural-born leader or pretty face. He has had to work to develop his leadership skills."

The question naturally arises:

How has he been able to keep winning elections in California?

He has benefited, as his detractors are quick to point out, from three weak Republican opponents in his past Senate races: Max Rafferty in 1968, H.L. Richardson in 1974 and Paul Gann in 1980. They were so conservative that Cranston easily won large chunks of GOP votes.

Perhaps more importantly, though, is that without threatening his core of support among liberals, Cranston quietly and carefully forged a solid link with the California business community.

Said Cranston. "It's unrealistic not to support business."

In the past, Cranston has fought for bills favoring the state's huge defense industry, banks, agribusiness and Silicon Valley.

In this election year, he lobbied for a component in the tax reform bill that would have given a roughly $50 million tax break to the Los Angeles-based Unocal oil company. Unocal wanted government credit for a huge debt it had acquired in fighting a hostile takeover attempt.

On the Senate floor, one of Cranston's liberal Democratic colleagues, Ohio Sen. Howard Metzenbaum, successfully defeated the Unocal break, calling it "a blatant giveaway."

Cranston is himself a former businessman. He worked with the family realty business in Los Altos, a small town about 50 miles south of San Francisco where he still owns several commerical properties (and which his opponent Zschau, ironically, now calls home). It was a brief career, but it left him worth just over $1 million.

His grandfather established the firm shortly after coming to San Francisco as one of the first passengers on the Transcontinental Railroad in 1870. His father took over the business after quitting Stanford University's law school.

In 1905, the San Francisco earthquake leveled his dad's office and the family started over in Los Altos before Alan was born. He grew up with a younger sister, Ruth Eleanor, on a 15-acre property with an orchard, several farm animals, a swimming hole and a panoramic view of San Francisco Bay.

He enrolled at Stanford, where he became a star sprinter on the track team. After his sophomore year in 1934, he and a friend toured Europe and saw the early evidence of Adolf Hitler's rise to power.

One night in Munich, he stood for an hour in the cold to get a close-up glimpse of Hitler. As he watched, an adoring crowd swarmed around the Fuhrer.

It was a heady experience for someone who had just turned 20.

Pursuing his childhood dream of being a foreign correspondent, Cranston dispatched stories for the hometown Los Altos Register-Leader, often with an editorial edge. In one he wrote, "The young as well as the old support Hitler. And when the former grow old enough to really count, if he survives till then, Hitler's power will be unlimited."

After college, Cranston returned to Europe as a wire service reporter based in Rome, making $12.50 a week. From there, he saw fascism blossom and World War II approach during the late 1930s.

Today, he says the images of that period are still the driving force behind his political beliefs.

It is the major reason he gives for first becoming a Senate candidate. And just last month, arguing on the Senate floor for sanctions against South Africa, he referred to his years in Europe. "At that point in my life I decided I would oppose all forms of discrimination and bigotry, especially in government," he said.

Cranston was married shortly after he returned to the United States in 1938 and he and his wife had two sons, Robin and Kim.

At the start of the war, he worked in a government propaganda job in Washington and was made the liaison for minority groups. He eventually joined the Army and wrote for the service newspaper from the homefront.

Motivated by the desire to prevent another Hitler, Cranston wholeheartedly embraced the concept of some form of sovereign global government.

While in the Army, he wrote an acclaimed book about the Senate's rejection of the League of Nations following World War I. In it, he said his purpose was to help ensure a similar failure would not follow World War II.

When the war was over, his book earned him an invitation to a seminar in New Hampshire on world government. The meeting was attended by some of the nation's leading scholars and politicans and eventually led to the creation of the United World Federalists.

Cranston served three terms as president of the UWF, traveling throughout the world to meet national leaders and discuss the possibility of a sovereign world government to ensure peace. One of his meetings was with a young Soviet official, Andrei Gromyko.

He also succeeded in convincing 20 state legislatures to pass a resolution urging the United States to enter a world government

In 1952, he resigned from the UWF leadership and returned to Los Altos to work in the family business. He also immediately got involved in state politics.

California's Democratic Party was in a shambles. Discouraged by years of failure at the polls, there as virtually no party organization.

Cranston formed several regional Democratic organizations to aid Adlai Stevenson's 1952 presidential race. After Stevenson was beaten by Dwight Eisenhower, Cranston called the regional leaders together in 1953 for a forum to discuss the party's problems.

The meeting resulted in the founding of the California Democratic Council, with Cranston elected president. He already had his eyes set on a Senate bid. But he remained with CDC until 1957 when he quit to run for state controller, an office he viewed as an interim step to his goal.

CDC had become the state's most powerful Democratic organization and helped sweep Cranston into office and Pat Brown into governor's chair. When Reagan overwhelmed Brown in the governor's race eight years later, he described CDC's membership as "a bunch of militant, left-wing radicals."

Cranston's first bid for the Senate ended with his loss in the 1964 Democratic primary, a race he made while retaining the controller's job. He then lost that post as a consequence of Reagan's 77 landslide.

He emerged as the leading Democratic Senate candidate in 1968 largely because few others saw much point in taking on the respected, moderate Republican incumbent, Thomas Kuchel. But Kuchel was upset in the GOP primary by Max Rafferty, paving the way for Cranston's victory in the fall.

During the past decade, his personal life has been marked by several traumatic events.

He divorced his first wife, Geneva, seven years ago. She died a few years later after suffering a paralyzing stroke, In 1981, his oldest son, Robin, was killed when he was struck by a van in the street outside his home.

Cranston's second wife. Norma, suffers from Parkinson's disease. Though she frequently travels with him, she generally does not appear at public events with him.

His friends and associates say Cranston rarely talks about his personal setbacks. "He internalizes it and feels that he must keep moving on," said an aide.

Cranston did pause to memorialize his late son, and he did so in a way that was special to him. He spoke of his feelings and shared his grief on the Senate floor.

CONGRESSIONAL SALUTE TO ALFRED BALDWIN

HON. GUS YATRON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. YATRON. Mr. Speaker, I rise today to pay tribute to Alfred Baldwin of Lansford, PA. Mr. Baldwin, better known to his friends as Freddo, will be presented with the AMVETS Distinguished Veteran Award on October 26, 1986. This important honor is in recognition of Mr. Baldwin's leadership role in the Lansford chapter of AMVETS.

Freddo Baldwin was born and raised in Lansford. He was an exceptional athlete, receiving a number of awards for football, basketball, and track at Lansford High School and at Bordentown Military Institute. He is also a fine scholar and after studying at Bordentown, he finished his education at Penn State. After college, Mr. Baldwin served in the Air Corps during World War II. He flew many missions over Japan and was recognized for his courage with the Air Medal with three oak leaf clusters and the Distinguished Flying Cross. He returned to Lansford after the war and went to work for the LNC Co. Freddo retired in 1984, after serving for 22 years as a business representative with the International Ladies, Garment Workers Union.

Mr. Baldwin, his wife, Beatie, and son, Blair, were always active in community affairs. He is an active member of the English Congregational Church, the Lansford Italian Club, the Lansford Masonic Lodge and the Lehigh Valley Club of Allentown. Freddo is most deeply involved with veterans, organizations. He is a member of the American Legion Post No. 123 and is now serving his second term as commander of the AMVETS Babinetz-Horowski Post No. 83 in Lansford. His election to this post is a tribute to Freddo's commitment and dedication to his fellow veterans. Freddo's selection for the AMVETS Distinguished Veteran Award is further recognition of his outstanding work.

I commend Mr. Alfred Baldwin for his selection for the AMVETS Distinguished Veteran Award. It is indeed an honor for which he can be justifiably proud. I know that my colleagues will join me in honoring Freddo Baldwin on this important occasion and in wishing him the best of luck in the future.

TRIBUTE TO TOM KINDNESS

SPEECH OF

HON. RICHARD T. SCHULZE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 7, 1986

Mr. SCHULZE. Mr. Speaker, TOM KINDNESS has been a dedicated and serious lawmaker for more than 20 years, serving the citizens of Hamilton on its city council and as mayor, and serving all Ohio residents as a member of the State house of representatives and as a U.S. Representative. I know TOM KINDNESS, and I can tell you he's given those people representation of the highest caliber.

TOM is a man for detail when it comes to issues—he has to have all the facts. And when he makes a decision to support or oppose you, there's one thing of which you can be certain—he won't budge. A fencesitter he isn't. If he thinks you are wrong, by George, he'll take you on. If he thinks you are right, he backs you up all the way.

The people of Ohio generally, and of the Eighth District specifically, have been well represented since TOM was first elected to the House in 1974. He cares deeply about their problems and works tirelessly to help the manufacturing towns of Butler County, and the farming regions of Van Wert and Mercer Counties.

We are going to miss TOM KINDNESS, the serious student of the law and loyal Ohioan. We are also going to miss TOM KINDNESS, the fun-loving musician. TOM never turns down a friendly request to strum his banjo for a farewell or birthday party for a friend, and I know there have been many occasions where he's been asked to perform. Well, I can't play a farewell for you, TOM. I don't know how to strum or pluck a guitar or banjo. But I hope these words will sound as sincere without a musical background—farewell, good friend and peer. I wish you and Averil the very best in whatever you undertake. And I thank you for all you have given me in the way of friendship and knowledge in our 12-year association.

EDITORIAL ADDRESSES WEINBERGER'S COMMENTS ON BRITISH LABOR PARTY'S DEFENSE PROPOSALS

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 9, 1986

Mr. BEREUTER. Mr. Speaker, leaders of the British Labor Party recently criticized Defense Secretary Weinberger's comments on the danger to the security of Western Europe and NATO should the Labor Party platform's proposal scrapping nuclear weapons be implemented.

An editorial in the Omaha World Herald underscores this danger and supports the U.S. Defense Secretary's right to speak up on this proposal. This Member wishes to have his colleagues see these comments and requests permission to have the editorial reprinted in full:

[From the Omaha World Herald, Oct. 1, 1986]

IT MIGHT HAVE UPSET LABORITES, BUT WEINBERGER RIGHT TO SPEAK

Leaders of the British Labor Party have accused U.S. Defense Secretary Caspar Weinberger of interfering in British politics when he criticized Labor's policies. But Weinberger is right to criticize. The party's proposal to eliminate Britain's nuclear deterrent forces is a threat to the security of Western Europe.

A Labor victory in next year's elections is not considered out of the question. Recent polls indicated that Labor led both the incumbent Conservatives and the Liberal-Social Democratic alliance.

Labor's platform calls for scrapping Britain's nuclear weapons, which have given Britain its own nuclear deterrent separate from those of the United States and France. Among the specific targets of the Labor cutback would be a $12.8 billion order for U.S. Trident systems.

In addition, the Laborites would shut down U.S. nuclear bases in England. U.S. nuclear cruise missiles, installed in Britain and other North Atlantic Treaty Organization nations to counter the Soviet buildup in intermediate-range missiles, would be removed from Britain.

If Britain, which is one of NATO's leading members, demonstrated a lack of will to be involved in the protection of Western Europe through nuclear deterrence, chances are that leftist groups in other NATO countries would step up their campaign for disarmament. In terms of troops, tanks and other tools of conventional war, Western Europe would be no match for the Soviet Union and its allies. If the Soviets no longer had to fear nuclear retaliation, the security of Western Europe could become a joke.

Weinberger has a valid point. Britain has traditionally accepted the responsibility to assist in the defense of the Western democracies. If the British people elected leaders who were pledged to turn away from the country's traditional role as a nuclear power, NATO could be weakened and the security of Western Europe reduced.

HOUSE OF REPRESENTATIVES—*Friday, October 10, 1986*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Our best thoughts, O God, hope for a day when people will know security in their lives and in the depths of our hearts we yearn for peace. As the leaders of our world meet to find the ways of understanding, we ask Your blessing upon them and we earnestly pray that Your good word of grace and Your benediction of peace will mark their meetings. Even as we pray for the leaders of the nations, may each of us seek to do Your will that justice will roll down as waters and righteousness like an ever flowing stream. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Secretary be directed to communicate to the President of the United States and to the House of Representatives the order and judgment of the Senate in the case of Harry E. Claiborne and transmit a certified copy of same to each.

The message also announced that the Senate having tried Harry E. Claiborne, U.S. district judge for the district of Nevada, upon four Articles of Impeachment exhibited against him by the House of Representatives, and two-thirds of the Senators present having found him guilty of the charges contained in the First, Second, and Fourth Articles of Impeachment: It is therefore,

Ordered and adjudged, That the said Harry E. Claiborne be, and he is hereby removed from office.

The message also announced that the Senate had passed without amendment bills, joint resolution, and concurrent resolution of the House of the following titles:

H.R. 2067. An act to validate conveyances of certain lands in the State of California that form part of the right-of-way granted by the United States to the Central Pacific Railway Company;

H.R. 2921. An act to authorize the Secretary of Agriculture to issue permanent easements for water conveyance systems in order to resolve title claims arising under Acts repealed by the Federal Land Policy and Management Act of 1976, and for other purposes.

H.R. 3352. An act to transfer certain real property to the City of Mesquite, NV;

H.R. 5496. An act to designate certain National Forest System lands in the State of Georgia to the National Wilderness Preservation System, and for other purposes;

H.J. Res. 735. Joint resolution to designate December 11, 1986, as "National SEEK and College Discovery Day"; and

H. Con. Res. 391. Concurrent resolution calling on the Governments of the Soviet Union, Poland, and Czechoslovakia to cease activities causing harmful interference to the broadcasts of Voice of America and RFE/RL, Incorporated.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3838) "An act to reform the internal revenue laws of the United States."

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 593) "An act for the relief of the Merchants National Bank of Mobile, Alabama."

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 1082) "An act granting the consent of Congress to the Arkansas-Mississippi Great River Bridge Construction Compact."

The message also announced that the Senate agrees to the amendment of the House to the amendments of the Senate to the bill (H.R. 2032) "An act to amend the Securities Exchange Act of 1934 to provide improved protection for investors in the Government securities market, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the bill (S. 2506) "An act to establish a Great Basin National Park in the State of Nevada, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the bill (S. 565) "An act to direct the Secretary of Agriculture to convey, without consideration, to the Town of Payson, Arizona, approximately 30.96 acres of Forest Service lands," with an amendment.

The message also announced that the Senate had passed bills and joint resolutions of the following titles, in which the concurrence of the House is requested:

S. 511. An act to change the name of the Loxahatchee National Wildlife Refuge, Florida, to the Arthur R. Marshall Loxahatchee National Wildlife Refuge;

S. 786. An act to establish an Information Age Commission;

S. 1209. An act to establish the National Commission to Prevent Infant Mortality;

S. 2266. An act to establish a ski area permit system on national forest lands, and for other purposes;

S. 2370. An act to authorize the Francis Scott Key Park Foundation, Inc., to erect a memorial in the District of Columbia;

S. 2852. An act to authorize the Secretary of Transportation to release restrictions on the use of certain property conveyed to the Peninsula Airport Commission, Virginia, for airport purposes;

S. 2890. An act to designate the United States Courthouse for the Eastern District of Virginia in Alexandria, Virginia, as the "Albert V. Bryan United States Courthouse";

S. 2914. An act to extend through fiscal year 1988 SBA Pilot Programs under section 8 of the Small Business Act;

S.J. Res. 359. Joint resolution to designate March 17, 1987, as "National China-Burma-India Veterans Association Day"; and

S.J. Res. 407. Joint resolution designating November 12, 1986, as "Salute to School Volunteers Day."

The message also announced that pursuant to Executive Order 12131 of May 4, 1979, as extended by Executive Order 12551 of February 21, 1986, the Chair on behalf of the Vice President appoints Mr. Andrews, to the President's Export Council.

The message also announced that pursuant to section 301(b)(1)(D) of Public Law 99-371, the President pro tempore appoints Dr. Frank Bowe, of New York, from private life, and Peter B. Greennough, of New York, from private life, to the Commission on Education of the Deaf.

ELECTION OF MEMBERS TO CERTAIN STANDING COMMITTEES OF THE HOUSE

Mr. MICHEL. Mr. Speaker, by direction of the Republican Conference, I call up a privileged resolution (H. Res. 584) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 584

Resolved, That the following named Members be, and they are hereby, elected to the following standing committees of the House of Representatives:

Committee on Armed Services: Representative HILLIS of Indiana, (to rank below Mrs. HOLT);

Committee on Education and Labor: Representative DORNAN of California.

The resolution was agreed to.

A motion to reconsider was laid on the table.

ICELAND AND HUMAN RIGHTS

(Mrs. COLLINS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. COLLINS. Mr. Speaker, it is my sincere hope that the meeting in Iceland between President Reagan and General Secretary Gorbachev is successful. While the two leaders debate the technical issue of arms control, however, it is important that they not forget the human issue of justice.

Eleven years ago, the Soviet Union signed the Helsinki accords and agreed to respect human rights and fundamental freedoms, including the freedom of thought, conscience, religion, or belief. Since that time, Moscow has engaged in numerous violations of Helsinki—including the political abuse of psychiatry, legal restrictions on organized religious life, the repression of the cultural heritage of Jews and other minorities, the denial of family reunification, and the closing of contacts between Soviet citizens and the outside world.

Mr. Speaker, if arms control is to work, if world peace is to be a reality—Moscow must adhere to the basic human rights outlined in the Helsinki accords. If Mr. Gorbachev wants to reform his nation, as he says he does, he must stop persecuting those who exercise their religious beliefs.

All Americans are deeply concerned with human rights. Freedom and justice are the ideals on which our Nation is based and abuses of these rights deeply offend our principles. As a freedom loving people, we know that human rights provide a solid foundation for international treaties.

To make this clear, I am introducing a resolution, expressing the sense of the Congress that, in his upcoming meeting with General Secretary Gorbachev, the President should insist that the Soviet Union safeguard the human rights of its citizens, allow additional Jewish emigration, and protect cultural and religious rights within its borders.

This resolution sends an important message to the Soviets. It demonstrates America's longstanding commitment to human rights. And it will show Mr. Gorbachev what the American Congress already knows, that world peace will only be possible when world justice is a reality.

THE CONGRESS WANTS JUSTICE FOR MR. IVEZAJ: IS YUGOSLAVIA LISTENING?

(Mr. BROOMFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROOMFIELD. Mr. Speaker, congressional and diplomatic pressure is building on Yugoslavia to release Mr. Peter Ivezaj, the Michigan resident who received a long jail term in that country. I hope that Yugoslavia is listening and understands our deep concern about this and other human rights cases.

The bill calling for the temporary suspension of most-favored-nation status for Yugoslavia is receiving overwhelming support. "In just 24 hours, the bill that Chairman FASCELL and I sponsored has nearly 150 cosponsors. Our Michigan Senators also introduced similar legislation in the Senate.

Most-favored-nation status would be denied to that country until Mr. Ivezaj, and two other Americans are freed. The Yugoslav Government's policy of arresting visiting Americans and denying them consular access must stop. This foolishness has gone on far too long.

I am heartened to know that the Yugoslav Embassy obtained a copy of the bill. I hope that the government of that country appreciates our real concern about the tragic imprisonment of these Americans.

I am still working to get more members to cosponsor the bill. Obviously, pressure is building. I trust that they are listening in Belgrade.

STAUNCHING THE FLOW OF ILLEGAL IMMIGRATION

(Mr. SCHEUER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHEUER. Mr. Speaker, last night this House passed a historic immigration reform bill. It was not perfect, but it was a great sight better than what we have now.

There is one glaring defect to the bill: It turns on this enormous magnet of legalization, of amnesty, while our borders are totally porous.

I have been suggesting an amendment for the last 5 years in this House that would delay the date of amnesty until a Presidential Commission certified that our borders were reasonably secure.

Senator SIMPSON accepted this amendment in his bill and, as amended by Senator METZENBAUM, it would delay amnesty for no longer than 3 years until such a commission certified that our borders were secure.

I very much hope that the conferees will hold on to that amendment, and I hope that the House will make it its first order of business next year to staunch the avalanche of illegal immigration that will result when this amnesty is passed. The 1982 date is meaningless. Anybody who is here in this country can take advantage of amnesty because forged identity cards are easily available. Whole packets of identity can be purchased with ease on both sides of our Southwest border.

So if we do not do something to firm up those borders, the moment amnesty is effective, we will be inundated with illegal aliens who want to come over here to take advantage of the same American opportunities, the same American freedoms that our ancestors sought generations ago.

We cannot afford it; our capacities are limited; our absorptive capability is limited.

We are not doing enough for the poor people, the hopefully aspiring who are in our midst now.

So let us firm up our borders and have an immigration policy that protects the rights of those who seek entry legally, rather than an unworkable system and porous borders that reward anyone from the developing world who wishes to crash through illegally.

ARNIE'S INSPIRATION: "JOE" McDADE, NOW WORLD CUP CHAMPION OF GOLF

(Mr. HORTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HORTON. Mr. Speaker, we have a sports celebrity in our midst. Usually mild-mannered JOE MCDADE, our esteemed colleague from Pennsylvania, proved to be the "spark" behind Arnold Palmer's masterful play when Arnie, JOE and their foursome won the Chrysler World Cup Pro-Am Division, held last month in Potomac, MD. Leading the way to victory, JOE birdied the first hole. The throngs following the foursome could feel victory, only 17 short holes away. JOE, himself, could sense the inevitability of the championship.

Arnie, meanwhile, was feeling the pressure. His famous "Arnie's Army" following, was quickly becoming the "McDade Mob." Reacting to the pressure like only Arnie can do, he calmly approached the tee of the third hole, picked a middle iron, and swacked a clean shot toward the hole. With but a single bounce, Arnie's ball dropped into the cup—a hole in one. A golfer's dream.

Few who witnessed this historic event, which was followed by another Palmer ace on the same hole the very next day, would deny that JOE MCDADE, the Pride of Scranton, PA, playing the round of his life, was almost singularly responsible for Arnie's hole in one. If it hadn't been for JOE'S outstanding playing, Arnie wouldn't have been inspired.

Those golfers or golfing fans interested in the full details of this magnificent and inspiring tale would do well to get to JOE quickly. For, as all great sporting tales do, this one will undoubtedly grow in magnitude with each passing day. By year's end, it will be Arnie who provided the moral support and kept JOE'S feet to the fire,

and JOE who clinched the victory with his hole in one.

Congratulations, JOE, on your memorable and inspiring victory. Congressman JOE MCDADE is now World Cup Champion of Golf. Eat your heart out, MARTY RUSSO.

COMMERCE DEPARTMENT IS EXPORTING U.S. JOBS

(Mr. TALLON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TALLON. Mr. Speaker, just when you think you've seen it all, this administration comes up with something to top it.

I have a copy of a brochure describing an event the U.S. Department of Commerce, through the United States Trade Center in Mexico City, is sponsoring in Acapulco to encourage U.S. companies to relocate their assembly plants in Mexico.

This brochure highlights the Mexican in-bond program which appeals to industrialists because of low wages and benefits that allow goods to be imported without payment of Mexican duty, and finished products to be exported to the United States with tariffs only on the value added in Mexico.

Mr. Speaker, we have pleaded with the administration to formulate and implement a strong trade policy. But evidently the Commerce Department didn't realize we meant an American trade policy.

We want to have good relations with our neighbors to the south, but that doesn't go so far as giving away our American jobs.

Our Government's sponsorship of the export of American jobs is contrary to the legitimate, practical State and Federal programs designed to fight unemployment here at home and retrain our displaced workers.

The brochure for the event shows two hot air balloons in the colors of Mexico and the United States and the words, "where Mexican business and American business can rise to new heights."

I believe a better slogan would be "where the administration of this great Nation declares total surrender in its trade policy."

The hot air balloons are appropriate as the Department of Commerce is apparently only concerned with shipping American jobs over the border.

Mr. Speaker, we should be outraged at the attitude shown by the Department of Commerce in sanctioning this event, and the illogical use of American taxpayers' money.

I call on my colleagues to join me in voicing our opposition to the Secretary of Commerce, Mr. Baldrige.

OCCAM'S RAZOR

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, William Occam was a philosopher of 13th century England. He is credited with the philosophical maxim, known as Occam's razor, which is this: "Entities are not to be mutiplied without necessity", or: "It is vain to do with more what can be done with fewer."

The money supply in this country is increasing at the annual rate of 14 percent, well above the target range the Federal Reserve Board has set for itself. The monetarists were obviously wrong when they predicted that such an extensive monetary expansion would inevitably spill over in the commodity markets, as a result of the operation of Occam's razor. Prices are ebbing, not rising, to the chagrin of American farmers and other exporters.

Yet, the dollar is getting ready for Occam's razor. After all, the excess dollars could spill over in the stock market or in the bond market. We would do well to remember the last devastation Occam's razor caused in response to the dollar-proliferation of the 1920's; namely, the Great Depression of the 1930's.

The 20th century English thinker, Bertrand Russell, interpreted Occam's razor as saying that if everything in some science can be explained without assuming this or that hypothetical entity, then there is no ground for assuming it. The philosopher added: "I have myself found this a most fruitful principle in logical analysis."

Mr. Speaker, the price explosions of the 1970's, and the price implosions of the 1980's, can be fully accounted for in terms of the anchorless dollar, as it is tossed around by an angry sea. Price swings are merely a mirror image of the waxing and waning dollar, even as they act as the wrecker's ball in destroying productive effort in this country. We behave rather foolishly when we try to rationalize these market aberrations by attributing them to this or that combination of export interests abroad. We have only ourselves to blame for our folly of setting the dollar adrift, causing the present price instability, and for the even greater folly of refusing to drop the golden anchor.

MR. PRESIDENT, WE WILL BE HEARD

(Mrs. BOXER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOXER. Mr. Speaker, I fully support the President in his presummit meeting, but I must ask this question: Where is it written in the Constitution that when our President goes to a presummit meeting, Congress folds up its tent and plays dead? That is what the President wants.

Well, I am sorry, Mr. President, we will be heard. We will not be part of your disinformation campaign whether it is telling the American people that there was no trade for Mr. Daniloff or that there is no CIA involvement in Nicaragua or that this Congress is responsible for the deficit when it was your policy of 130-percent increase in military spending coupled with your tax loopholes that caused this problem.

We will be heard on arms control as well as waste control at the Pentagon. We are no stronger when we pay $7,000 for coffee pots and muzzle whistleblowers.

Mr. President, why do you not take our arms control policy ideas to the summit and use them in the spirit in which they were offered, the spirit of peace and patriotic common sense?

THE SOVIET CONCILIATORY STANCE

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, the Soviet media blitz is on. Earlier this week they reannounced their plan to withdraw air defense troops from Afghanistan. It took them over 6 years to figure out the freedom fighters there did not have an air force.

Today's Washington Post carries the headline "Soviets Conciliatory, Allow Jewish Dissident to Emigrate." Mr. Gorbachev must be chuckling all the way to the bargaining table.

The Post says General Secretary Gorbachev is "conciliatory" for permitting Inessa Flerov to leave the Soviet Union to give a bone marrow transplant to her brother who is dying of leukemia in Israel. Little is made of the fact that Mr. Gorbachev stood in the way of their reunification until this moment.

Mr. Speaker, let's remember that 98 percent of the Soviet troops sent to Afghanistan remain there after almost 7 years of bloody warfare. Let's remember that despite the recent release of Yuri Orlov, 99 percent of Soviet Jews remain captive behind the Iron Curtain. As long as a brief exception for propaganda's sake is portrayed as conciliatory, there is little hope for the hundreds of thousands denied their basic human rights in the Soviet Union and Afghanistan.

□ 1015

EXPO MAQUILA 1986

(Mr. KOLTER asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. KOLTER. Mr. Speaker, I am speaking once again about Expo Maquila 1986. Since Tuesday, when I first exposed this to my colleagues here, I had a meeting with the Department of Commerce. We found that the Mexican Government pays these working people, mostly young men and young women, $1 an hour which includes benefits.

And what are the benefits? The benefits include holidays off, transportation to and from work, meals, dances, and sporting events.

This is the first time in history that this program is being sponsored totally by the U.S. Department of Commerce. The Commerce Department says this program will keep American companies from completely moving out of these United States.

So far we have lost in the month of September 38,000 jobs, 38,000 manufacturing jobs, and throughout the year of 1986, we have lost over 200,000 jobs.

This has to stop. We must not allow our tax dollars and our time and effort to send U.S. jobs abroad.

Let us say, "adios" to this misguided program.

DISINFORMATION CAMPAIGNS

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, the gentlewoman from California a few minutes ago referred to what she called the President's disinformation campaign. In listening to the gentlewoman's speech, I have to believe that she is conducting a disinformation campaign of her own.

First of all, the gentlewoman blames the President for the deficit. Well we cannot spend 1 dime of money, the President cannot and the country cannot, without this Congress approving. We are the people who approve the spending, and we will be approving spending of major significance in the hours just ahead of us here. I wonder where that fits into the gentlewoman's speech.

The gentlewoman blamed this Government for CIA involvement in Nicaragua. The only people saying that are the Soviet-backed Sandinistas. Evidently, the gentlewoman believes them rather than her own Government.

I really question when people come to the floor with what has to be labeled as disinformation campaigns of their own.

WHO IS REALLY TYING THE PRESIDENT'S HANDS?

(Mr. DICKS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DICKS. Mr. Speaker, I am dismayed by reports that internal conflicts within the administration may once again prevent any real movement toward an arms control agreement at the meeting between the President and Mr. Gorbachev in Iceland this weekend.

I fervently hope that those elements among the President's advisers who oppose any arms agreement have not lost what is a golden opportunity for progress.

It is important to make perfectly clear to the American people who it is that is really tying the hands of the President in Iceland.

It is not the Congress. Nothing in the package of amendments passed by the House has any relation to the area of greatest potential immediate progress, the issue of intermediate nuclear forces.

On that question, it is the hard-line faction within the administration that is doing everything possible to block progress. They are the ones warning the President of the dangers or reaching any agreement.

This administration has already shown it is very adept at disinformation campaigns. Let's not be fooled by this latest smokescreen. If no concrete progress comes from the Iceland meeting, it will not be those of us in Congress who want real arms control who will be sipping champagne, it will be the hardliners at the Pentagon.

OUR TAX DOLLARS GOING TO ORTEGA VIA INDIA

(Mr. BURTON of Indiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURTON of Indiana. Mr. Speaker, it was brought to my attention yesterday that we are giving India approximately $600 million in aid, American taxpayers' dollars. I found out that a couple of weeks ago, in fact, last week, the Prime Minister of India invited Daniel Ortega, the Communist dictator of Nicaragua, to his country and gave him $10 million in aid.

Mr. Ortega then got on a plane and flew to Peking, probably to buy weapons from the Chinese Communists.

Can you imagine that, American taxpayers' dollars are going to buy weapons to fight people who are fighting for freedom in Central America? It is unbelievable.

It is one thing to directly aid and abet an enemy, but to use American taxpayer's dollars to aid the Communists in Central America is unforgivable, but it is happening.

I urge this body to reevaluate its foreign policy toward India. We should not give them 1 dime as long as they are using our taxpayers' dollars to subsidize the Communists in Central America.

IT IS UP TO US TO ACT, AND TO ACT NOW

(Mr. GRAY of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRAY OF Pennsylvania. Mr. Speaker and colleagues, this Congress is coming to a close and we are making history by passing tax reform and immigration bills, but yet there is one continued problem that faces us that we have not completed action on, and I am becoming completely discouraged that we are not going to be able to meet our responsibilities, and that is the deficit and deficit reduction.

Right now reconciliation is being held up over whether we are going to defend the investment bankers and the oil industry or whether or not we are going to hold poor families together by providing for unemployed parents being able to stay in the home.

It seems to me, ladies and gentlemen of this body, that we are at a very critical stage where we must determine whether we are going to live under the Gramm-Rudman guidelines and meet the threshold.

It is my hope that next week or today, the committees of jurisdiction will work out their disagreements, that the other body would stop defending the oil industry and also the investment bankers, and support the poor families in their efforts to stay together, so that we can conclude the deficit reduction package that will exceed over $12 billion and bring us down to the Gramm-Rudman targets, and thus we will be able to go home and tell our constituents that we have met those targets, we have taken definitive action.

It is up to us to act, and to act now.

AMERICA IS LOSING BUSINESSES AND LOSING JOBS

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, I just heard the gentlemam from South Carolina [Mr. TALLON] saying they lost 450 manufacturing jobs. I do not know what the big news is about that. We keep hearing it every day.

It takes me back, though, to an amendment that I was able to pass to the defense that passed this House 241 to 163, that gives a weighted advantage to American firms. It was literally shot down in the other body, and I knew it would be. I was told by our conferees that there was no way of keeping it.

I am not laying blame on the other side today. I am not laying blame, and it is very unpopular on my side. They elected us here to temper the policies of the White House. We have not done it. We have not provided that balance.

And where Mr. TALLON is upset about the Commerce Department's activity to take American businesses to Mexico, I received an anonymous packet that shows where Packard Electric will develop five more plants in Mexico, and not near the border, they are moving inside. They have one plant in West Germany because they are getting a tax break. And they will have a fixed population work force in America, folks, which means through attrition, when a person retires, they will use their job in America. I think it is high time that if we have to appeal to this side of the aisle, you were elected to temper that other side. I do not blame them. I now lay blame on my own side.

THE B-1 STRATEGIC AIR COMMAND PENETRATOR AIRCRAFT

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend their remarks.)

Mr. DORNAN of California. Mr. Speaker, in defense, little things happen all around this world that we really are not tracking or aware of in this body.

In the history of the U.S. Air Force, October will go down as a prime month for that select few who protect our way of life.

On the first of this month, the first B-1 Strategic Air Command penetrator aircraft went on active duty alert armed with nuclear weapons to maintain the peace in this world. It was at Dyess Air Force Base, in Mr. STENHOLM's district in Texas. The pilot was Capt. John Schilstrom; the copilot, Capt. Richard Davis; the offensive systems officer, Capt. Steven Clark; the defensive systems officer, Capt. Timothy Young. The proud commander of that 96th Bombardment Wing is Col. Bob Dempsey; and the commander of the 15th Air Force out in my area at March Air Force Base is Lt. Gen. James E. Light.

We could have had this plane standing alert 5 years earlier if it was not for the confusion about defense in this body. With a 5-year delay, but better than never, we will have a total complement of combat-ready aircraft at Dyess Air Force Base by December 1986, Ellsworth by September 1987, Grand Forks a few months after that, and McConnell, KS, will have a complement of their B-1 aircraft totally arrived between February 1988 and June of next year.

□ 1025

I thank all the Members that supported this great aircraft and gave our young pilots in the Strategic Air Command something other than a kamikaze mission and it is too bad that we cannot replace every B-52 within the next few years. I look forward to supporting the B-2, that is the Stealth bomber program.

I tell my friends in the Air Force: Get around to naming the B-2 and stop calling it by its test designation.

WE DO NOT BELIEVE IN PAYING MORE AND GETTING LESS

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, the high noon stakes keep going on and we see everybody wanting to emulate Clint Eastwood or John Wayne or whatever, threatening to close down Government; threatening to do all sorts of things.

Let us put the record straight: No. 1, the President is in Iceland and his hands are not tied. We have not coupled the arms control agreements to any of the short-term continuing resolutions that will keep this Government going. I think we should make that very clear because a lot of disinformation is going out on that issue.

No. 2, to close this Government down you will not save money. Once again, I remind this body that my subcommittee has finished an extensive study showing it will cost $62 million a day to close this Government down. That is a very high ticket price for that kind of political theater.

This body will do everything it can do to keep the Government running. We do not believe in paying more and getting less. That is exactly what will happen if the President refuses to keep it going.

So I hope we keep the facts straight and I hope we do not get into some kind of stampede mentality that just costs money and gets us less and angers taxpayers more.

THANKS, MR. SPEAKER

(Mr. MONTGOMERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONTGOMERY. Mr. Speaker, during your distinguished administration as Speaker of the House, you have provided great leadership and support for many programs to enhance the lives of millions of Americans. No group of citizens have benefited more from your service than our Nation's veterans and their families, and they will never forget you.

Never once have you wavered in your support of veterans legislation and hundreds of bills have passed this House and become law during your years as Speaker. One of your greatest accomplishments has been to bring back the new GI bill for the young men and women who serve in the Armed Forces. I have talked with hundreds of service personnel since we enacted the bill in late 1984, and once again bright men and women are joining the services because of the new GI bill.

Before you leave the House, on behalf of these men and women and some 28 million living veterans, and 55 million dependents of veterans, I would like to say, "thank you, Mr. Speaker."

ELECTION OF MEMBERS TO CERTAIN STANDING COMMITTEES OF THE HOUSE

Ms. OAKAR. Mr. Speaker, I offer a privileged resolution (H. Res. 585) and ask for its immediate consideration.

The Clerk read the privileged resolution, as follows:

H. RES. 585

Resolved, That the following named Members be, and they are hereby, elected to the following standing committees of the House of Representatives:

Committee on Armed Services: Neil Abercrombie, Hawaii;

Committee on Public Works and Transportation: Mario Biaggi, New York; and

Committee on Veterans' Affairs: Charles W. Stenholm, Texas.

The resolution was agreed to.

A motion to reconsider was laid on the table.

GODSPEED AND GOOD LUCK, NEIL

(Ms. OAKAR asked and was given permission to address the House for 30 seconds.)

Ms. OAKAR. Mr. Speaker, I wanted to simply pay tribute to NEIL ABERCROMBIE of Hawaii, who, in his brief stay in Congress has cast very momentous votes. So much so that there is an important article in the New York Times about him. He is one of the finest Members that I have served with.

We will really miss him and we want to wish him well. Godspeed and good luck, NEIL.

COMMUNICATION FROM THE SENATE

The SPEAKER laid before the House the following communication from the Senate:

Ordered, That the Secretary be directed to communicate to the President of the United States and to the House of Representatives the order and judgment of the Senate in the case of Harry E. Claiborne and transmit a certified copy of same to each.

JUDGMENT

The Senate having tried Harry E. Claiborne, United States District Judge for the District of Nevada, upon four Articles of Impeachment exhibited against him by the House of Representatives, and two-thirds of the Senators present having found him guilty of the charges contained in the First, Second, and Fourth Articles of Impeachment: it is therefore,

Ordered and adjudged, That the said Harry E. Claiborne be, and he is hereby removed from the office.

WE OWE IT TO OURSELVES AND TO THE AMERICAN PEOPLE

(Mr. LEVINE of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVINE of California. Mr. Speaker, in the wake of the downing of an American transport plane by the Nicaraguan Army, persistent reports of Saudi Arabian funding of the Contras have once again surfaced in the press.

Some months ago, the press reported that the Saudis have been funneling substantial funds to the Contras. These reports said that the Saudi support of the Contras was part of the 1982 AWAC's sale and were being coordinated by former high-ranking American defense officials.

My hometown newspaper, the Los Angeles Times, yesterday cited a Contra official as the source of its story. Newsday ran a similar story citing Pentagon sources. While both the State Department and the Saudi Government have denied these stories, it certainly appears that something is going on here. These renewed press reports deserve to be fully investigated by the appropriate committees of the Congress.

Frankly, Mr. Speaker, I do not know what the facts are in this case, but I do believe that we in this House have a responsibility to get to the truth. We owe it both to ourselves and to the American people.

SUPPORT THE UNEMPLOYED PARENT PROGRAM

(Mr. FORD of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. FORD of Tennessee. Mr. Speaker, I rise in support of the Unemployed Parent Program that is a part of the reconciliation that has been reported from the House Ways and Means Committee. I understand that on the other side of the Capitol in the other body now there has been talk from some of the leaders that reconciliation cannot come back to the House floor until such time that we would drop the unemployed parent provision.

I certainly would hope that my colleagues here in the House would send a very clear message to our colleagues on the other side of the Capitol communicating that we need the Unemployed Parent Program. It is a program that we have had in reconciliation for the past 3 years. I do not see why half of the States of this Nation who have opted out to not participate in the Unemployed Parent Program to say to the profamily, structured families of this Nation that a father has every right to live in the household, to be with his children. We should not deny the children of this Nation in half of the States that their father must leave the home in order for them to be eligible for Aid to Families with Dependent Children.

I certainly would urge my colleagues here in the House to let us be firm on that issue and hopefully that the Members of the other body will send back in that conference reconciliation that they will recede to the House and agree that the father in fact should be a part of the family structure.

□ 1035

INTERFERENCE WITH VOTERS' RIGHTS

(Mr. FRENZEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FRENZEL. Mr. Speaker, judging by a recent editorial, the Washington Post seems to believe that vote fraud and ballot-stuffing are rare and isolated instances in American politics.

Unfortunately, that is not the case. According to undisputed testimony before the Senate Judiciary Committee, more than 100,000 fraudulent votes were cast in the city of Chicago in the 1982 election. The 1982 gubernatorial race was decided by approximately 5,000 votes. There have been numerous vote-buying indictments in the Eighth Congressional District of Indiana arising out of the 1984 election which the Democrat Members of Congress say was won by four votes by the present Democrat Congressman. Last year, a State representative in Hawaii was sentenced to a 5-year jail term for voter registration fraud.

Two Members of this House from Louisiana have resigned under indictment or threat of indictment, and one of them was sent to jail.

The emperors in the glass palace at the Washington Post seem to be dressed in their normal suit of clothes. It is about time for them to take a serious look at the problem.

The worst inference with voters' rights in this country is if one's vote is invalidated by the vote of a tombstone, lightpost, a fire hydrant, a filling station, or an empty lot. It is about time we got to work on this problem.

REQUEST FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 751, FURTHER CONTINUING APPROPRIATIONS, 1987

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that the Committee on Appropriations be discharged from further consideration of the joint resolution (H.J. Res. 751) making further continuing appropriations for the fiscal year ending September 30, 1987, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the joint resolution.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

Mr. CONTE. Mr. Speaker, reserving the right to object, I ask the chairman if he would consider changing the date of the resolution from October 15, to Saturday, midnight, October 11.

There is still some hope that we can reach an agreement in conference today, but on my side of the aisle the leadership feels that an extension through the 15th will simply grind everything to a halt for the next few days and we will go home for the weekend and we will not get much done until again on Tuesday.

Mr. WHITTEN. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from Mississippi.

Mr. WHITTEN. Mr. Speaker, I would be glad to consider it; however, I would not be able to agree. I am glad to have a recess while we discuss the wisdom of continuing it to Saturday.

Mr. CONTE. Mr. Speaker, on behalf of the leadership, I object.

The SPEAKER. Objection is heard.

PROVIDING FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 751, FURTHER CONTINUING APPROPRIATIONS, 1987

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 583 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 583

Resolved, That upon the adoption of this resolution it shall be in order to consider the joint resolution (H.J. Res. 751) making further continuing appropriations for the fiscal year ending September 30, 1987, and for other purposes, in the House, debate on the joint resolution shall continue not to exceed one hour, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations, and the previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except one motion to recommit.

The SPEAKER. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, I yield the customary 30 minutes to the gentleman from Ohio [Mr. LATTA], and pending that, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 583 is the rule providing for the consideration in the House of House Joint Resolution 751 making further continuing appropriations for the fiscal year ending September 30, 1987.

Mr. Speaker, the rule provides 1 hour of general debate, equally divided between the chairman and ranking minority member of the Committee on Appropriations, and provides for one motion to recommit.

Mr. Speaker, what this is, is an extension of the current continuing resolution that the House passed on Wednesday October 8, through Wednesday October 15, 1986. A basic 5-day extension that would allow the funding of nonessential Government services through the holiday weekend.

Mr. Speaker, this resolution is a result of an agreement between both majority and minority members on the Appropriations Committee, that will allow the conferees more time to continue to work out any differences and ultimately reach an agreement for a final spending bill.

Mr. LATTA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this rule makes in order a resolution to extend the continuing resolution appropriation until October 15, 1986. According to testimony in the Rules Committee, this is the same language passed by the House and signed by the President 2 days ago, except for the date change. There is no language in this resolution dealing with air traffic controllers or any other extraneous material.

Mr. Speaker, the existing extension of the continuing appropriation expires at midnight tonight. If nothing is done the Government will be without funds tomorrow morning.

Mr. Speaker, this rule provides for consideration in the House. That means the continuing resolution appropriation extension can be debated for up to 1 hour. But no amendments will be in order. The rule does provide for one motion to recommit. However, because of the limited scope of this resolution extending the continuing appropriation, about the only things that could be changed by a motion to recommit with instructions would be the October 15 date or the addition of a limitation on the use of the funds.

Mr. Speaker, I will support this rule so that the House may have an opportunity to work its will on still another extension of the continuing appropriation.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER. The question is on the resolution.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 265, nays 115, not voting 52, as follows:

[Roll No. 458]

YEAS—265

Abercrombie	Edwards (CA)	Luken
Ackerman	Emerson	MacKay
Akaka	English	Manton
Alexander	Erdreich	Markey
Anderson	Evans (IL)	Martin (IL)
Annunzio	Fascell	Martin (NY)

□ 1100

Mr. FAWELL changed his vote from "yea" to "nay."

Mr. BONKER changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERMISSION TO HAVE UNTIL MIDNIGHT MONDAY, OCTOBER 13, 1986, TO FILE CONFERENCE REPORT ON H.R. 5234, DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS, 1987

Mr. YATES. Mr. Speaker, I ask unanimous consent that the managers may have until midnight, October 13, 1986, to file a conference report on the bill (H.R. 5234) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1987, and for other purposes.

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Illinois?

There was no objection.

FURTHER CONTINUING APPROPRIATIONS, 1987

Mr. WHITTEN. Mr. Speaker, pursuant to House Resolution 583 I call up the joint resolution (H.J. Res. 751) making further continuing appropriations for the fiscal year ending September 30, 1987, and for other purposes, and ask for its immediate consideration.

The SPEAKER pro tempore. The Clerk will report the joint resolution.

The Clerk read the joint resolution, as follows:

H.J. RES. 751

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That section 102(c) of the joint resolution of October 9, 1986 (Public Law 99-464) is hereby amended by striking out "October 10, 1986" and inserting in lieu thereof "October 15, 1986".

The SPEAKER pro tempore. Pursuant to House Resolution 583, the gentleman from Mississippi [Mr. WHITTEN] will be recognized for 30 minutes and the gentleman from Massachusetts [Mr. CONTE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Mississippi [Mr. WHITTEN].

Mr. WHITTEN. Mr. Speaker, I yield myself such time as I may require.

Mr. Speaker, this is a short-term extension of the existing continuing resolution to carry forward Government programs until next Wednesday, October 15, at midnight.

This is a one-word resolution. It strikes out the reference to October 10 and insert October 15, 1986. No other changes are made to the current CR, which the President signed and is in place.

I would remind my colleagues that the continuing resolution which I just made reference to does not carry the so-called controller language that the President objected to and which caused a veto the other day. This extension does not carry that language.

Our conferees, and I hope Members will listen to this, continue to meet. We are making progress. Senator HATFIELD, the chairman of our conference, with my approval, announced that he would be able to conclude conference this afternoon and produce a bill that will go to the President, hopefully agreeable, but at any rate it will move. That would give time to do the necessary paperwork to bring the conference agreement to the House floor Tuesday morning.

This extension for 5 days should be noncontroversial. It continues the ordinary operations of the Government until next Wednesday, and it should avoid a Government shutdown.

Mr. Speaker, I reserve the balance of my time.

Mr. CONTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, so that the House knows at least where I am coming from, there will be a motion to recommit on this side of the aisle offered by the gentleman from California [Mr. LEWIS] to extend the CR until midnight Saturday. Should that motion not prevail, and I am not urging anyone else to follow me, I will vote for the resolution of the gentleman from Mississippi [Mr. WHITTEN] to extend the CR until Wednesday.

Why do I feel that we should have it until midnight tomorrow night? I think that we should keep everyone's feet to the fire. As I said earlier this week, in a colloquy with the gentleman from Texas [Mr. WRIGHT], I think that we are moving in the right direction. Last night we had reports to the full conference. There were only three subcommittees who had a significant number of items in disagreement; they were Defense, Foreign Operations, and Commerce-Justice-State.

Then there were other subcommittees who had other items not as substantial as those in disagreement, and it looked like we were making some progress.

However, I feel that if we go to the 15th, the Congress will adjourn here at I understand 3 o'clock, and the conferees will go home. They will go home for Saturday, Sunday, and Monday, and then come back Tuesday, and I think that we will be in here again next Wednesday for another continuation of the CR. This is unfortunate.

Let me say this: Even though there has been progress, there are a lot of real big issues out there about which the administration keeps calling and saying, "If any one of these single items are in the bill we will not sign the continuing resolution."

Let me give a couple. There is the PATCO issue. I keep telling OMB that the PATCO issue is in the Senate and the House, in both versions. I do not know how you are going to get the PATCO issue out of there. There is double breasting in the Health and Human Services Subcommittee. There is labor protection in regard to the merger of the airlines. With any one of those, they say, there is going to be a veto.

Then of course we have the six issues that they are complaining about in the Defense appropriation, not even to mention, the amount of money in the Defense appropriation, of course. The one that is in complete disarray is Foreign Operations. Everything is broken down there between the House and the Senate. So we have some real difficult, knotty problems.

Again, and I do not want to sound like a broken record, and I am looking at the next Speaker of the House, I hope that the 100th Congress will do the right thing. I hope that we will not be in this quagmire that we are in right now.

□ 1110

We are at a point where we cannot legislate any more. The first thing we ought to do is repeal Gramm-Rudman-Hollings. It is not working. The other thing we ought to do is repeal the Budget Act. It is not working.

We just cannot keep going on shoving these things back on the burner. I just hope that the debt limit comes to the floor with an open rule so that I can tack on some amendments to repeal both of those laws so that we can come into the 100th Congress and we will be a streamlined Congress.

What we have set up here is another bureaucracy in the Budget Act which tied up all of the appropriation bills over there until they had a 302 allocation. And here we are in the second week, coming into the second week of the new fiscal year and we have not passed one appropriation bill.

I wonder what Gorbachev will be thinking when he sits down with President Reagan over in Iceland. You want to talk about these big issues. You cannot even run the Government over there. The Government is at a standstill. It is a joke.

Mr. HOPKINS. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my good friend, the gentleman from Kentucky.

Mr. HOPKINS. Mr. Speaker, I appreciate my colleague yielding.

There are some of us, however, that feel that we might be better off if we repealed the Appropriations Committee in this place.

Mr. CONTE. Mr. Speaker, as usual, the gentleman from Kentucky has really done his homework.

Mr. GEKAS. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my friend, the gentleman from Pennsylvania.

Mr. GEKAS. Mr. Speaker, does the gentleman have any indication as to the intention of the President with respect to this particular CR if we should pass one that is now on the floor?

Mr. CONTE. The only thing I can say is he left for Iceland. On the steps of the plane he said that he did not want any more extensions.

Well that is fine and dandy, but let us face the realities. You might get away with no extension because of Saturday, Sunday, and the holiday Monday. But you come in here and you shut that Government down Tuesday, and you are going to be paying about $100 million a day wasted, right down the drain like corn down a rathole because you do not have a continuing resolution.

We do not have money to spend for a new pair of shoes around here.

Mr. WRIGHT. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to my friend, the gentleman from Texas.

Mr. WRIGHT. I thank my friend for yielding. The suggestion about abolishing House committees wholly aside, I would like to engage my friend in a colloquy.

My friend from Massachusetts is a soft-spoken gentleman, and I know we all want to hear his wisdom. I just ask my friend, we all want to pass this bill and we all want to pass it as soon as we can, and there is progress being made. It is frustrating that the progress has not been made more rapidly, obviously.

But does it not really make sense to the gentleman from Massachusetts that we extend it until Tuesday or Wednesday, given the fact that even if it were resolved in conceptual form in the committee today it still would take until next week to put it into legal form? And given the fact further that the other body has already adjourned for the weekend, and they are just in pro forma session today and will not be in session tomorrow. So does it not really make sense that we go ahead and extend it until Tuesday or Wednesday of next week so that we do not have to come in here and look like we are in total disarray and do this same thing all over again?

Mr. CONTE. Well, if the other body is in a pro forma session, how are they going to handle this continuing resolution?

Mr. WRIGHT. That is a good question. I am sorry to say I do not have the answer to that.

While we are abolishing things, maybe we could consider——

Mr. CONTE. We might as well not even act on this if they are not going to act on it.

Mr. WRIGHT. At least, if they were unable to take action on it, the House would be on record. If the Government came to a crashing halt, it would not be on our head.

Let me just remind the gentleman of our colloquy 2 days ago in which I think we both agreed that Tuesday was a more realistic expectation than Friday. The gentleman and I had a colloquy in the RECORD and the gentleman from Massachusetts agreed at that time. I said would the gentleman agree that Tuesday is a more realistic expectation, and the gentleman from Massachusetts, Mr. CONTE, said he could not agree more. Mr. Speaker, I think Tuesday would be more reasonable. Then I said would he agree that if we give you an extension until Friday, which we agreed to do, and then would do our dead level best to try to find some common ground on which we could satisfy it, and then come back, and if we were not successful extend it again, and the gentleman from Massachusetts:

> Certainly, I would give the gentleman my word on that, and then come Friday afternoon around this time if it looks like we are not going to come to a settlement, then I would support my good chairman and have another continuing resolution which brings us in to some other day next week.

That is where we are now.

Mr. CONTE. Let me respond to that. If I correctly remember, that was around 3 o'clock in the afternoon.

Mr. WRIGHT. 2:20.

Mr. CONTE. It was 2:20 in the afternoon, and here we are at 11:15 in the morning.

Certainly the gentleman heard me in the colloquy with my chairman. I would prefer to make it midnight and will vote to make it midnight Saturday. If that fails, then I will support the chairman to make it Tuesday.

Mr. WRIGHT. I thank the gentleman.

Mr. LOTT. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I am glad to yield to the gentleman from Mississippi.

Mr. LOTT. Mr. Speaker, the conferees I know have been meeting. Are you going to resume meeting soon?

Mr. CONTE. They are supposed to, yes, Agriculture is supposed to be meeting. Commerce is supposed to meet.

Mr. LOTT. Are we making progress? The gentleman was saying last week, I think the chairman was saying progress was being made, agreements were being reached in transportation, in HUD, and all of these other areas.

Mr. CONTE. We are making progress. I reported that three committees have not reported because they have major, major differences. All of the other committees have reported with certain exceptions. Public Works has a couple of problems with Senator HATFIELD on the nuclear waste dump, which I hope the House is not going to get into.

Mr. LOTT. I certainly agree on that.

Mr. CONTE. If any of you have been targeted, you ought to be following this one. This is a real hot issue.

Then there are a lot of other issues out there that I mentioned, double-breasting, PATCO, labor protection.

Mr. LOTT. Were those not the same issues that were holding us up a week ago and will be holding us up a week from now if we allow it to continue to just drag on? Let me ask the gentleman that.

Mr. CONTE. A week ago today we had not settled anything, so we have made some progress. We are moving very quickly, at a snail's pace.

Mr. LOTT. Then we are really down to the same issues that we knew we would wind up being deadlocked on days or weeks ago, right? I mean they are the things like PATCO and nuclear waste and arms control and a few things like that. But will the conferees meet tonight and tomorrow?

Mr. WHITTEN. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the chairman, the gentleman from Mississippi.

Mr. WHITTEN. Mr. Speaker, of course I cannot speak for the leadership on this side or that side, but I would call attention to the fact that I stated a while ago when perhaps many people did not hear it. In the first place, may I say all subcommittees are meeting, trying to resolve those differences.

But last evening, Senator HATFIELD, who is chairman of our conference this year, announced that he will be able to conclude conference this afternoon and produce a bill that will go to the President, hopefully agreeable, but at any rate it will move. That would give some time to do the necessary paperwork to bring the conference agreement to the House floor on Tuesday for a vote.

The Senator announced yesterday that those places where they were in disagreement at this stage or by this afternoon, it is evident that they are not going to agree until the last minute.

Mr. LOTT. That is right, and that is my point.

Mr. WHITTEN. I am telling the gentleman what he said, which meant that if there is disagreement, he agrees that we are going to have a vote, and then the outcome will be brought before the floor for a decision by the House itself.

□ 1120

Mr. LOTT. Mr. Speaker, if the gentleman will yield just one more moment, to make my key point, and that will be it.

The conferees are never going to agree until the last minute. They are not going to agree until we say not one more second, not one more extension,

not now, not tomorrow—let us get this thing over with. We will be here next Thursday if we keep granting these extensions.

Mr. WHITTEN. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, we can talk big and mean every word of it, but we still have to deal with our colleagues—we can make strong statements here and we are very serious and sincere about them, but there is another body in this Congress; we cannot speak for them.

Mr. LEWIS of California. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman.

Mr. LEWIS of California. Mr. Speaker, it is my intention at the end of the debate to present a motion to recommit to change the date from Wednesday to the 11th.

The reason for doing that, even though I totally agree with the point made by Mr. LOTT a moment ago, these extensions are crazy. Nonetheless we should attempt at least to pass a resolution that might be acceptable to the administration; so we keep the pressure on our committees and try to get our work done by Saturday night.

Otherwise, it is very clear that the majority of the committee people around here will wander off, go home; we will get back to meeting maybe on Wednesday. We will be through all next week. Either we close the Government down for a month or another continuation will take place.

I will present that motion and I urge its adoption.

Mr. CONTE. Mr. Speaker, I want to make one observation based on the colloquy the two gentleman from Mississippi had.

The gentleman from Mississippi [Mr. WHITTEN], my chairman, is absolutely right. It takes two to tango. Let me give you one example: This House passed my amendment on a farm payment limitation unanimously. We have been in that conference on agriculture, and the chairman over there on the other side just will not even discuss the thing. Will not discuss it.

We discussed it once yesterday morning, and then he keeps on saying: "We'll take it to the full conference. We'll take it to the full conference." Hoping that some way, somewhere, at midnight or 3 o'clock in the morning, he is going to be able to kill that amendment which is only a tiny, tiny little step forward in trying to clean up that farm program that this year alone, in CCC payments, has cost us over $26 billion.

The presses down there in the Bureau of Engraving are not going to be able to roll fast enough next year to pay the money that we need for the farm program, in 1985. That is just one example.

Mr. LEWIS of California. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman.

Mr. LEWIS of California. Mr. Speaker, extending that point, it is most disconcerting that the leadership around here, on the other side of the aisle, is attempting to suggest that the reason we have this problem, this immediate and urgent problem, is because the President wants to somehow close down the Government.

The fact is, we are in this position because our committees have been holding their hands for the entire year doing very little of the work that we have to get done.

At the last moment, we are attempting to use the CR, a half a trillion dollar bill, to authorize every special project and item that the average leader around here thinks is important for his district and for himself.

The CR should not be used for this purpose. Let us put our feet to the fire and get our work done.

Mr. MYERS of Indiana. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman.

Mr. MYERS of Indiana. Mr. Speaker, here again the Appropriations Committee is caught in a winch. We all want to get out of here. The Appropriations Committee wants to get out just as badly as any of you; but just as the chairman and the ranking member have said, we are attempting to do this, but we have run into so many problems with the other body. They had the impeachment proceedings; they could not meet with us for about 3 days. We just could not have the opportunity to meet, to work out these problems.

As the ranking member said, we have several really large problems today to work out. We are attempting to do that. Now you can beat your chest down here and say "No more extensions." Who are you hurting?

Are you hurting Members of this Congress? No; we will be here; we will be paid. You are hurting the people who are completely innocent; the Border Patrol, Immigration and Naturalization Service; the Federal Bureau of Investigation, who have to work, no assurance they are going to be paid; you are going to be hurting the people around the country in military service; the cooks, the caretakers, the guards, all of these people who in some way are going to have to be told "Well, on a promise, you are going to be paid."

Those are the innocent people here. By not extending this, you are not putting any pressure on the Appropriations Committee, not in the least. Because we are going to move as rapidly as we and the other body can get together and work out these differences.

So let us be reasonable and let us extend the thing up until next Tuesday or Wednesday, and do it right.

Mr. CONTE. Mr. Speaker, if I can ask the gentleman from Indiana [Mr. MYERS] a question: If we shut down the Government tonight can we pay for the gasoline on Air Force One to get the President back?

Mr. MYERS of Indiana. That is exactly right. It happened years ago, you know, when Congress did not appropriate for the fleet; sent it half way around the world.

It just does not make any sense not to extend it reasonably. Because the time, if nothing else, just the time to get paperwork done and do it right. Do you folks want another Gramm-Latta where things were printed in there, telephone numbers? Let us do it right. It is going to take time; we all want to get home, but let us do it right.

Mr. CONTE. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. BROOMFIELD] to speak out of order.

YUGOSLAVIA SET TO FREE AMERICAN DETAINEES

(Mr. BROOMFIELD asked and was given permission to speak out of order for 1 minute.)

Mr. BROOMFIELD. Mr. Speaker, I have got some very, very good news for the Congress; and I think they deserve a great deal of credit. I have just received word from our American Ambassador in Yugoslavia, John Scanlon, that not only Peter Ivezaj of Detroit, MI, but the other two that we have been concerned about will be freed within 24 hours.

I want to say that I believe it was the result of the heavy congressional pressure and more than 150 Members indicated their support when I offered the bill, along with Congressmen FASCELL and HERTEL and YARTON and SIMONS yesterday for cutting off the most-favored-nation status.

I think that, along with the State Department's efforts, have brought this result, and I want to send my best wishes to the Ivezaj family. Their nightmare is now over.

All of you know the background of it; he had been sentenced for 7 years; and I believe that the Yugoslav Government has seen the light. Let us hope that we do not have any more cases of innocent human beings being held for no reason.

I hope that these problems are over once and for all, Mr. Speaker. Welcome home, Peter and the others.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. HERTEL] to speak out of order.

CONGRATULATING THE HOUSE ON QUICK RESPONSE TO THE HOSTAGE-TAKING IN YUGOSLAVIA

(Mr. HERTEL of Michigan asked and was given permission to speak out of order for 1 minute.)

Mr. HERTEL of Michigan. Mr. Speaker, I just want to commend the ranking member of the Committee on Foreign Affairs, Mr. BROOMFIELD, my Michigan colleague, and the chairman of the Foreign Affairs Committee for doing so much work and spending time daily on the release of this hostage from Yugoslavia.

Ms. FIEDLER. Mr. Speaker, will the gentleman yield?

Mr. HERTEL of Michigan. I yield to the gentlewoman from California.

Ms. FIEDLER. Mr. Speaker, I, too, would like to express my appreciation to Congressman BROOMFIELD for the outstanding job he has done. One of those three hostages happens to have been a constituent of mine, and I am extremely pleased that he has been successful in implying the necessary leverage to make certain that they are freed, and let us hope that this does not see a repeat in the future.

Mr. HERTEL of Michigan. Mr. Speaker, we are joyous that our Americans are going to be coming home, and while we are in the midst of this debate right now, and considering some of the partisanship that goes on in the last few weeks and during the entire session, I want to remind the citizens of this country how we can work together in a bipatisan fashion and how this Congress can agree and come together so completely.

Over 150 Members, within 24 hours, were so angered by these hostages being taken that they cosponsored the bill that we introduced yesterday. That shows how we can move quickly and in a unified fashion for freedom for our American citizens.

I congratulate this House.

Mr. WHITTEN. Mr. Speaker, I yield 4 minutes to the gentleman from Iowa [Mr. SMITH].

□ 1130

Mr. SMITH of Iowa. Mr. Speaker, I am amazed that we hear the same rhetoric here today we heard a year ago without putting your finger on one of the main reasons why we are here. The defense authorizing committee is 1 year behind on its authorizations. It did not even start hearings until February on the 1987 authorization, and that was a year late. They should have started hearings on the 1988 authorization. Right now, downtown they have already sent the requests to OMB for the 1988 authorization for defense, and they do not have an authorization bill for a guideline. They make up their own. They will start the hearings in February on the 1988 authorization when we have already gotten up here the appropriation request. That is a year late. It is irrelevant. There are no guidelines. So we wait around here until August to bring out a bill that is a year late, tack on some things that are policy issues onto that bill and let that bill hold us up. We should ignore the bill if it is a year late. The only way to do that is to do what the gentleman from Florida, Mr. FASCELL, chairman of the Committee on Foreign Affairs, did when he became chairman of the Committee on Foreign Affairs, he had 2-year authorization bills, two of them back to back. He is ahead now. They are sending up their appropriations requests in February based upon an authorization that was used as a guideline that they had to go by.

So it is about time we focus on the real issue around here, and that is to get the authorizations in in time so that the appropriation requests are based upon that.

Mr. STRATTON. Mr. Speaker, will the gentleman yield?

Mr. SMITH of Iowa. Yes, I yield to the gentleman from New York.

Mr. STRATTON. I thank the gentleman for yielding.

Mr. Speaker, I think the gentleman forgets that the House Budget Committee is the one that sets the standards for the expenditures of all of the committees and the Budget Committee, as the gentleman from Massachusetts has indicated, has been the real problem. We do not get a chance to know what the figure is from the Budget Committee until March or the middle of April.

Mr. SMITH of Iowa. Well, the gentleman is talking about setting the limits for the expenditures. The gentleman is not dealing with the limits for expenditures, you are dealing with the guidelines for the Defense Department. That is the problem. You cannot deal with appropriations in an authorization bill. It ought to be separate.

We ought to have to go by the guidelines in the authorization bill and you leave the appropriations to the Appropriations Committee.

Mr. STRATTON. We have the same guidelines you have.

GENERAL LEAVE

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the consideration of House Joint Resolution 751, and that I may include tabular and extraneous matter.

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 583, the previous question is ordered.

The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. LEWIS OF CALIFORNIA

Mr. LEWIS of California. Mr. Speaker, I offer a motion to recommit with instructions.

The SPEAKER pro tempore. Is the gentleman opposed to the joint resolution?

Mr. LEWIS of California. Mr. Speaker, I am opposed.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. LEWIS of California moves to recommit House Joint Resolution 751 to the Committee on Appropriations, with instructions to that committee to report the joint resolution back to the House forthwith, with the following amendment: In line 5, strike "October 15" and insert in lieu thereof "October 11".

The SPEAKER pro tempore. Does the gentleman from California [Mr. LEWIS] wish to debate his motion?

Mr. LEWIS of California. I do not, Mr. Speaker.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

Pursuant to the provisions of clause 5 of rule XV, the Chair announces that he will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device, if ordered, will be taken on the question of passage of the joint resolution. Members will record their votes by electronic device.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 158, nays 222, not voting 52, as follows:

□ 1145

Mr. FEIGHAN changed his vote from "yea" to "nay."

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. MATSUI). The question is on the passage of the joint resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. DANNEMEYER. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. The Chair will remind the members that this will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 235, noes 143, not voting 54, as follows:

[Roll No. 460]

□ 1155

Mr. COBLE changed his vote from "aye" to "no."

So the joint resolution was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

EXTENDING EXCLUSION FROM FEDERAL UNEMPLOYMENT TAX OF WAGES PAID TO CERTAIN ALIEN FARMWORKERS

The SPEAKER pro tempore. The unfinished business is the question of passage of the bill (H.R. 5679) to extend the exclusion from Federal unemployment tax of wages paid to certain alien farmworkers, on which further proceedings were postponed on Thursday, October 9, 1986.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on passage of the bill.

The bill was passed.

A motion to reconsider was laid on the table.

NATIONAL BUREAU OF STANDARDS AUTHORIZATION ACT, FISCAL YEAR 1987

Mr. WALGREN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 4354) to authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1987, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "National Bureau of Standards Authorization Act for Fiscal Year 1987".

AUTHORIZATION FOR PROGRAM ACTIVITIES

SEC. 2. (a) There are authorized to be appropriated to the Secretary of Commerce (hereinafter referred to as the "Secretary") for fiscal year 1987, to carry out the activities performed by the National Bureau of Standards, the sums set forth in the following line items:

(1) Measurement research and Standards, $36,582,000;

(2) Materials Science and Engineering, $21,228,000;

(3) Engineering Measurements and Standards, $35,875,000;

(4) Computer Science and Technology, $7,500,000; and

(5) Research Support Activities, $22,768,000.

(b) Notwithstanding any other provision of this or any other Act—

(1) of the amounts authorized under subsection (a), $1,900,000 is authorized only for steel technology;

(2) of the amount authorized under paragraph (3) of subsection (a), $3,470,000 is authorized only for the Center for Building Technology and $5,402,000 is authorized only for the Center for Fire Research;

(3) of the amount authorized under paragraph (4) of subsection (a), $1,000,000 is authorized only for Computer Security Activities;

(4) of the amount authorized under paragraph (5) of subsection (a), $6,763,000 is authorized only for the Technical Competence Fund; and

(5) of the amount authorized under paragraph (5) of subsection (a), $6,500,000 is authorized only for the design, equipment, and construction of the Cold Neutron Research Facility.

(c)(1) Funds may be transferred among the line items listed in subsection (a) so long as the net funds transferred to or from any line item do not exceed 10 percent of the amount authorized for that line item in each subsection.

(2) In addition, the Secretary may propose transfers to or from any line item exceeding 10 percent of the amount authorized for that line item in subsection (a); but a full and complete explanation of any such proposed transfer and the reason therefor must be transmitted in writing to the Speaker of the House of Representatives, the President of the Senate, and the appropriate authorizing committees of the House of Representatives and the Senate, and the proposed transfer may be made only when thirty calendar days have passed after the transmission of such written explanation.

(d) The National Bureau of Standards shall seek reimbursements of not less than $500,000 from other Federal agencies to expand its efforts in support of basic scientific research on the atmospheric, climatic, and environmental consequences of nuclear explosions and nuclear exchanges.

OFFICE OF PRODUCTIVITY, TECHNOLOGY, AND INNOVATION

SEC. 3. In addition to the sums authorized by section 2, there is authorized to be appropriated to the Secretary for fiscal year 1987 the sum of $2,248,000 for the activities of the Office of Productivity, Technology, and Innovation.

NATIONAL TECHNICAL INFORMATION SERVICE

SEC. 4. In addition to the sums authorized by sections 2 and 3, there is authorized to the Secretary for fiscal year 1987 the sum of $500,000 for the patent licensing activities of the National Technical Information Service.

AVAILABILITY OF APPROPRIATIONS

SEC. 5. Appropriations made under the authority provided in this Act shall remain available for obligation, for expenditure, or for obligation and expenditure for periods specified in the Acts making such appropriations.

FINANCIAL ASSISTANCE TO CURRENT AND PROSPECTIVE EMPLOYEES

SEC. 6. (a) In order to secure the services of the broadest possible range of talent in carrying out the programs of the National Bureau of Standards, the Act of March 3, 1901 (15 U.S.C. 271-278h) is amended by redesignating section 18 as section 19 and by inserting after section 17 the following new section:

"SEC. 18. The Director is authorized to expend up to 1 per centum of the funds appropriated for activities of the National Bureau of Standards in any fiscal year, as the Director may deem desirable, for awards of research fellowships and other forms of financial assistance to students at institutions of higher learning within the United States who show promise as present or future contributors to the mission of the Bureau. The selection of persons to receive such fellowships and assistance shall be made on the basis of ability and of the relevance of the proposed work to the mission and programs of the Bureau.".

(b) The amendments made by subsection (a) shall be effective October 1, 1986.

ASSESSMENT OF EMERGING TECHNOLOGIES REQUIRING RESEARCH IN METROLOGY

SEC. 7. The Board of Assessment of the National Bureau of Standards programs shall include, as part of its annual review, an assessment of emerging technologies which are expected to require research in metrology to keep the Bureau abreast of its mission, including (but not limited to) Process and Quality Control, Technology Transfer, Engineering Databases, High-Performance Composites, Advanced Ceramics, Fiber Optics, Microwave Metrology, Bioprocess Engineering, and Advanced Computing Concepts. Such review shall include estimates of the cost of the required effort, that required staffing level, and the period over which the research will be required.

POST-DOCTORAL FELLOWSHIP PROGRAM

SEC. 8. (a) The Act of March 3, 1901 (15 U.S.C. 271-271h), as amended by section 6 of this Act, is further amended by redesignating section 19 as section 20 and by inserting after section 18 the following new section:

"SEC. 19. The National Bureau of Standards, in conjunction with the National Academy of Sciences, shall establish and conduct a post-doctoral fellowship program which shall be organized and carried out in substantially the same manner as the National Academy of Sciences/National Research Council Post-Doctoral Research Associate Program that was in effect prior to 1986, and which shall include not less than twenty nor more than forty new fellows per fiscal year.".

(b) The amendments made by subsection (a) shall be effective October 1, 1987.

PROCESS AND QUALITY CONTROL AND CALIBRATION PROGRAMS

SEC. 9. (a) The Director of the National Bureau of Standards shall hold discussions with representatives of Federal agencies, including the Department of Defense, the Department of Energy, the National Aeronautics and Space Administration, the Federal Aviation Administration, the National Institutes of Health, the Nuclear Regulatory Commission, and the Federal Communications Commission which use (or the contractors of which depend on) the process and quality control and calibration programs of the Bureau, and with companies, organizations, and major engineering societies from the private sector, in order to determine the extent of the demand for research and services under such programs, the appropriate methods of paying for research and services under such programs, and the willingness of Federal agencies and the private sector to pay for such research and services.

(b) Within six months after the date of the enactment of this Act, the Director shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report of the Director's findings based on the discussions held under subsection (a), together with recommendations for such legislative actions as may be needed to implement a comprehensive Federal process and quality control and calibration program.

DEMONSTRATION PROJECT RELATING TO PERSONNEL MANAGEMENT

SEC. 10. (a)(1) The Office of Personnel Management and the National Bureau of Standards shall jointly design a demonstration project which shall be conducted by the Director of the National Bureau of Standards.

(2) The demonstration project shall, except as otherwise provided in this section, be conducted in accordance with section 4703 of title 5, United States Code, and shall be counted as a single project for purposes of subsection (d)(2) of such section.

(3) Subject to subsections (f) and (g) of section 4703 of title 5, United States Code, the demonstration project shall cover any position within the National Bureau of Standards which would otherwise be subject to—

(A) subchapter III of chapter 53 of title 5, United States Code, relating to the General Schedule;

(B) subchapter VIII of chapter 53 of title 5, United States Code, relating to the Senior Executive Service; or

(C) chapter 54 of title 5, United States Code, relating to the Performance Management and Recognition System.

(b) Under the demonstration project, the Director of the National Bureau of Standards shall provide that—

(1) the rate of basic pay for a position may not be less than the minimum rate of basic pay, nor more than the maximum rate of basic pay, payable for the pay band (as referred to in paragraph 3)) within which such position has been placed;

(2) the minimum and maximum rates of basic pay for each pay band shall be adjusted at the times, and by the amounts, provided for under subsection (c);

(3) positions shall be classified under a system using pay bands which shall be established by combining or otherwise modifying the classes, grades, or other units which would otherwise be used in classifying the positions involved;

(4) employees shall be evaluated under a performance appraisal system which—

(A) uses peer comparison and ranking wherever appropriate; and

(B) affords appeal rights comparable to those afforded under chapter 43 of title 5, United States Code;

(5)(A) the rate of basic pay of each participating employee will be reviewed annually, and shall be adjusted on the basis of the appraised performance of the employee; and

(B) subject to subsection (c)(4)(A)(i), the adjustment under subparagraph (A) in any year in the case of any employee whose performance is rated at the fully successful level or higher shall be at least the percentage adjustment taking effect under subsection (c) (3) in such year;

(6) appropriate supervisory and managerial pay differentials (which shall be considered a part of basic pay) shall be provided;

(7) performance-recognition bonuses, and recruitment and retention allowances, shall be awarded in appropriate circumstances (but shall not be considered a part of basic pay);

(8) there shall be an employee development program which includes provisions under which employees may, in appropriate circumstances, be granted sabbaticals, the terms and conditions of which shall be consistent with those applicable for members of the Senior Executive Service under section 3396(c) of title 5, United States Code (excluding paragraph (2)(B) thereof);

(9) payment of travel expenses shall be provided for personnel to their first post of duty in the same manner as is authorized for members of the Senior Executive Service under section 5723 of title 5, United States Code, at the discretion of the Director; and

(10) the methods of establishing qualification requirements for, recruitment for, and appointment to positions shall, at the discretion of the Director, include methods involving direct examination and hiring.

(c)(1) For the purpose of this subsection, the term "compensation" means the total value of the various forms of compensation provided, including—

(A) basic pay;

(B) bonuses;

(C) allowances;

(D) retirement benefits;

(E) health insurance benefits;

(F) life insurance benefits; and

(G) leave benefits.

(2) The Director of the National Bureau of Standards shall, by contract or otherwise, provide for the preparation of reports which, based on appropriate surveys—

(A) shall include findings as to—

(i) the extent to which, as of the commencement of the demonstration project, the overall average level of compensation provided with respect to positions under the demonstration project is deficient in comparison to the overall average level of compensation generally provided with respect to positions involving the same types and levels of work in the private sector; and

(ii) with respect to each year thereafter, any net increase occurring during such year in the extent of the deficiency in the overall average level of compensation provided with respect to positions under the demonstration project, as compared to the overall average level of compensation generally provided with respect to positions involving the same types and levels of work in the private sector; and

(B) shall recommend a single percentage by which basic pay for all positions under the demonstration project must be increased so that, when considered in conjunction with the other forms of compensation generally provided, any net increases determined under subparagraph (A)(ii) will be eliminated.

(3) Whenever the Director of the National Bureau of Standards receives a recommendation under paragraph (2)(B), the Director—

(A) shall increase the minimum and maximum rates of basic pay for each such pay band by the lesser of—

(i) the percentage recommended; or

(ii) the overall average percentage of the adjustment in the rates of pay under the General Schedule under section 5305 of title 5, United States Code, for the period involved; and

(B) if and to the extent that funds are available for the purpose, may further increase those minimum and maximum rates—

(i) to make up for any part of the difference between the respective percentages under subparagraph (A), if the percentage under subparagraph (A)(ii) is the lesser; and

(ii) after making up for the entirety of any difference determined under clause (i) (including from any previous year), to eliminate any part of any remaining deficiency as originally determined under paragraph (2)(A)(i).

(4)(A) Notwithstanding any other provision of this section—

(i) the maximum rate of basic pay payable under any pay band may not exceed the rate of basic pay payable for level IV of the Executive Schedule; and

(ii) the amount of basic pay, bonuses, and allowances paid during any fiscal year to any employee participating in the demonstration project may not, in the aggregate, exceed the annual rate of basic pay payable for level I of the Executive Schedule.

(B)(i) Any amount which is not paid to an employee during a fiscal year because of the limitation under subparagraph (A)(ii) shall be paid in a lump sum at the beginning of the following fiscal year.

(ii) Any amount paid under this subparagraph during a fiscal year shall be taken into account for purposes of applying the limitation under subparagraph (A)(ii) with respect to such fiscal year.

(5) Notwithstanding any other provision of this section, the demonstration project shall be conducted in such a way so that, with respect to the 12-month period beginning on October 1, 1986, the total cost to the Government relating to providing compensation to participating employees shall not exceed the total cost which would have resulted if this section had not been enacted.

(6)(A) If the minimum rate of basic pay for a pay band, after an increase under paragraph (3)(A), exceeds the rate of basic pay payable to an employee whose position would otherwise be within such pay band, the employee's position may, notwithstanding subsection (b)(1), be placed in the next lower pay band.

(B) Placement of a position in a lower pay band under subparagraph (A) shall not be considered a reduction in grade or pay for purposes of subchapter II of chapter 75 of title 5, United States Code, or a comparable provision under the project.

(d)(1) The rate of basic pay for an employee serving in a position at the time it is converted to a position covered by the demonstration project may not be reduced by reason of the establishment of such project.

(2)(A) Each employee referred to in paragraph (1) shall be paid—

(i) in the case of an employee serving in a position under the General Schedule on the date the position becomes covered by the demonstration project, a lump-sum pro rata share of the equivalent of any within-grade increase which would have been due the employee under section 5335 of title 5, United States Code, computed as provided in subparagraph (B), and

(ii) in the case of an employee serving in a position subject to chapter 54 of title 5, United States Code, on such date, a lump-sum pro rata share of the equivalent of the employee's merit increase which would have been due under such chapter, computed as provided in subparagraph (B), taking into account the performance requirements applicable to such increase.

(B) For purposes of subparagraph (A), the pro rata share of an equivalent increase referred to in such subparagraph shall be computed through the day before the date referred to in such subparagraph.

(e)(1)(A) In carrying out section 4703(h) of title 5, United States Code, with respect to the demonstration project, the Office of Personnel Management shall provide that such project will be evaluated on an annual basis by a contractor. Such contractor shall be especially qualified to perform the evaluation based on its expertise in matters relating to personnel management and compensation.

(B) The contractor shall report its findings to the Office in writing, After considering the report, the Office shall transmit a copy of the report, together with any comments of the Office and any comments submitted by the National Bureau of Standards, to—

(i) the Committee on Post Office and Civil Service, and the Committee on Science and Technology, of the House of Representatives; and

(ii) the Committee on Governmental Affairs, and the Committee on Commerce, Science, and Transportation, of the Senate.

(2) The Comptroller General shall, not later than 4 years after the date on which the demonstration project commences, submit to each of the committees referred to in paragraph (1)(B) a final report concerning such project. Such report shall include any recommendations for legislation or other action which the Comptroller General consider appropriate.

(f) The authority to enter into any contract under this section may be exercised only to such extent or in such amounts as are provided in advance in appropriation Acts.

(g) The demonstration project shall commence not later than January 1, 1988.

Mr. WALGREN (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

Mr. WALKER. Mr. Speaker, reserving the right to object, we had hoped that some of these things would not get in the way of what is another potential vote, but since it has been brought up, I will yield to the gentleman from Pennsylvania [Mr. WALGREN] for a very short explanation of the bill.

Mr. WALGREN. I thank the gentleman for yielding to me.

Mr. Speaker, this is the authorization for the National Bureau of Standards that has been worked out with the Senate and the Committee on Science and Technology.

Mr. Speaker, I urge the House to adopt H.R. 4354. The measure before us incorporates funding levels agreed to by the House and Senate authorizing committees, and the administration through the Office of Management and Budget.

Although there remains broad agreement that the National Bureau of Standards is deeply underfunded when measured either by historical standards or the breadth of its mission, the agreement reached in this bill is worth supporting because it will put an end to a destructive philosophical disagreement between the Congress and the administration over a number of activities at the Bureau of Standards. This conflict has had a devastating impact on the morale of the critical Bureau programs in fire and building research as well as the Institute for Computer Sciences and Technology. It also has delayed unreasonably the construction of the cold neutro source facility which will instantly transform NBS into a world-class materials research center.

As is clear from the three letters I am submitting for the RECORD along with the written statement of Congressman FUQUA, the compromise contains the following elements:

Total funding at the President's request—$123,953,000—which is only $32,000 below the original House-passed authorization.

Reductions of $500,000 each in funding for the Center for Fire Research and the Center for Building Technology, which is a total cut of over 10 percent in funding for these Centers. The administration had sought originally to eliminate the Centers. The original House and Senate bills retained current funding.

A reduction of $2.5 million or about 25 percent for the Institute for Computer Sciences and Technology. The administration had sought originally a cut of about $5.0 million from recent levels. The original House and Senate bills retained current funding. This cut would be directed at the Open Systems Interconnection Program of ICST, because the private sector is greatly expanding its efforts in this area.

Provide funding of $6.5 million to begin construction of the Cold Neutron Research Facility, which is just enough to commit to construction at full scale. The administration had sought originally $10 million. The original House bill authorized "such sums"; the Senate bill made no mention of the project and the project was unlikely to start absent this compromise.

In return, the Office of Management and Budget has agreed to:

Propose no further cuts in fire, building, or computer science programs for the remainder of this administration.

Propose no reorganization of the Fire and Building Centers.

Treat the fire, building, and computer science programs identically to all other NBS programs.

The NBS bill continues to:

Fund new initiatives in ceramics, fiber optics, and scientific computing.

Permit the NBS Director to establish a China Lake-style salary experiment for 5 years.

The debate over NBS has been grueling for all parties, but we believe we have reached an agreement that simultaneously secures the future of the fire, building, and computer programs, and allows construction of the Cold Neutron Facility.

It should be stressed that this agreement in no way indicates any diminution in congressional support for the Center for Fire Research, the Center for Building Technology, and the Institute for Computer Sciences and Technology. Reluctantly, we accepted a final reduction in the Center's budget to secure their long-term prospects, to free them from a morale destroying stepchild existence and to free up money for the Cold Neutron Facility, which we have long supported in principle. We trust that these parts of the Bureau will now remain with equal status with the rest of the Bureau, that they will be able to put forth new initiatives on a par with the rest of the Bureau, and in time regain their former health, size, and strength.

NBS is too valuable to be lost, partially eliminated, or left unstable. This bill, while far from perfect from any vantage point, gives us a chance to end past disagreements in a way that has short- and long-term benefits for one of the Government's true national treasures. I urge my colleagues to look at the immense benefits of passing this legislation that far outweigh the short-term setbacks the bill of necessity contains and join me in giving their wholehearted support to what without exaggeration can be termed landmark legislation for the agency it authorizes.

I urge my colleagues to send H.R. 4354 on to the President.

EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, September 30, 1986.

Hon. DOUG WALGREN,
U.S. House of Representatives,
Washington, DC.

DEAR MR. WALGREN: This is to confirm recent staff discussions on the National Bureau of Standards (NBS) authorization and appropriation bills.

The Office of Management and Budget (OMB) and the Department of Commerce will support a total NBS budget authorization of $123,953,000 for FY 1987. This level will include $6.5 Million for initiation of the Cold Neutron Facility and reductions from the pre Gramm-Rudman-Hollings FY 1986 operating levels of $.5 Million for the Fire Program, $.5 Million for the Building Program and $2.5 Million for Computer Sciences and Technology. There will also be reductions of $1.5 Million in the Competence Program and $1.641 Million in the Post Doctoral Program. Neither the Department of Commerce nor OMB will propose further programmatic reductions in the Fire, Building, and Computer Sciences Programs in FY 1987, FY 1988 or FY 1989. In the case of across-the-board budget changes such as reductions the President must make to achieve Gramm-Rudman-Hollings deficit targets or a subsequent sequester, these programs will be treated the same as the other NBS programs.

Our commitment is, of course, contingent on successful implementation of this compromise in both the final authorization and appropriation for NBS in FY 1987.

Sincerely,

CAROL T. CRAWFORD,
Associate Director for Economics and Government.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON SCIENCE AND TECHNOLOGY,
Washington, DC, September 30, 1986.

Hon. CLARENCE J. BROWN,
Deputy Secretary,
U.S. Department of Commerce,
Washington, DC.

DEAR BUD: We want to thank you for your efforts toward reaching a compromise on the buget for the National Bureau of Standards (NBS). Without your persistence and determination, this agreement could never have been negotiated.

The debate over NBS has been grueling for all parties, but we believe we have reached an agreement that simultaneously secures the future of the fire, building and computer programs, and allows construction of the cold neutron facility.

We want to stress that this agreement in no way indicates any diminution in Congressional support for either the Center for Fire Research or the Center for Building Technology. We reluctantly accepted a final reduction in the Centers' budgets to secure their long-term prospects and to free up money for the cold neutron facility, which we have long supported in principle. Again, this decision to accept the compromise represents absolutely no change whatsoever in Congressional policy.

Indeed, we expect the position of the Centers to improve. The Administration has pledged that the Centers will henceforth be on equal footing with all other NBS divisions. They will be eligible for competence fund money and any proposed new initiative will be given fair and thorough consideration. They will receive annual adjustments to base and increase for inflation on a par with all other sections of NBS. The Administration has also pledged not to merge or reorganize the two Centers through FY 1989.

These understandings, along with the guarantee that no further budget cuts will be proposed for the Centers for the remainder of this Administration, should give the two Centers the long-sought stability they need to function property.

There are no contingencies in this agreement, no escape clauses; the guarantees must be iron-clad.

This agreement should be a great step forward for the entire Bureau. With this dispute behind us at long last, we look forward to working with you to build the Bureau to proper strength.

This is a goal we all share. Your ability to hammer out this difficult agreement should bode well for our future endeavors.

With warmest regards,

Sincerely,

DOUG WALGREN,
Chairman, Subcommittee on Science, Research and Technology.

SHERWOOD BOEHLERT,
Ranking Republican Member, Subcommittee on Science, Research and Technology.

CONGRESS OF THE UNITED STATES,
Washington, DC, September 30, 1986.

Hon. JAMES MILLER,
Director, Office of Management and Budget, Executive Office Building, Washington, DC.

DEAR MR. MILLER: We want to clarify the agreement of the Office of Management and Budget (OMB) and our Committees have reached on the budget for the National Bureau of Standards.

In keeping with this agreement, our authorization bill for Fiscal Year 1987 will provide:

	Million
Measurement, research and standards	$36.582
Materials science and engineering	21.228
Engineering measurement and standards	35.875
Institute for computer sciences & tech	7.500
Research support activities	22.768
Total	123,953

These figures include:

Center for Fire Research	5.402
Center for Building Technology	3.470
Competence Fund	6.763
Cold Neutron Research Facility	6.500

In exchange for our agreeing to make these budget changes, the Office of Management and Budget promises not to propose any further cuts in fire, building or computer science in FY 1987, 1988 and 1989. Furthermore, these programs will be treated like any other NBS program.

The appropriations bill must also have the agreed upon cuts in fire, building and computer sciences, and initial funding for the Cold Neutron Research Facility, for this agreement to take effect.

We are pleased we have been able to reach this agreement.

With warmest regards,

Sincerely,

John C. Danforth, Chairman, Senate Committee on Commerce, Science and Transportation; Ernest F. Hollings, Ranking Democrat, Senate Committee on Commerce Science and Transportation; Slade Gorton, Chairman, Subcommittee on Science, Technology, and Space; Donald W. Riegle, Jr., Ranking Democrat, Subcommittee on Science, Technology, and Space.

Don Fuqua, Chairman, House Committee on Science and Technology; Manuel Lujan, Jr., Ranking Republican Member, House Committee on Science and Technology; Doug Walgren, Chairman, Subcommittee on Science, Research and Technology; Sherwood Boehlert, Ranking Republican Member, Subcommittee on Science, Research and Technology.

Mr. WALKER. Mr. Speaker, I would ask the gentleman, this has been cleared by everyone; is that correct?

Mr. WALGREN. If the gentleman will yield, Mr. Speaker, it is my understanding that there should be no objection to this bill.

Mr. FUQUA. Mr. Speaker, I urge adoption of the bill before us today, which represents an agreement between the House Committee on Science and Technology and the Senate Committee on Commerce, Science and Transportation.

The agreement provides total funding at the President's request level of $123,953,000. In fact, the total is slightly below the original House and Senate levels and the pre-Gramm-Rudman 1986 budget.

The amounts contained in this bill will permit the NBS to fund new initiatives in ceramics, fiber optics, and scientific computing.

I am also very pleased that the other body has agreed to accept the personnel system amendment contained in the House bill. This will permit the NBS Director to establish an agencywide demonstration of a flexible salary and pay board system, modeled on the recommendations of the Federal Laboratory Review Panel of the White House Science Council which was chaired by David Packard.

For the last 5 years, I have worked with my colleagues on the House Science Committee to overturn administration proposals to either eliminate or cut the heart out of the fire and building centers and the Institute for Computer Science and Technology.

I am pleased to be able to report that the bill contains language acceptable to the OMB which finally resolves these issues.

Specifically, the agreement includes the following:

Cuts in funding for the Center for Fire Research and the Center for Building Technology of $500,000 each. The administration had sought originally to eliminate the centers. The original House and Senate bills retained current funding.

A cut in funding for the Institute for Computer Sciences and Technology of $2.5 million. The administration had sought originally a cut of about $5.0 million from historic levels. The original House and Senate bills retained current funding.

Funding of $6.5 million to begin construction of the Cold Neutron Research Facility. The administration had sought originally $10 million. The original House bill authorized "such sums;" the Senate bill made no mention of the project.

In return, the Office of Management and Budget has agreed to:

Propose no further cuts in fire, building or computer science programs for the remainder of this administration.

Propose no reorganization of the fire and building centers.

Treat the fire, building and computer sciences programs identically to all other NBS programs.

I want to make it clear for the record that the acceptance of these cuts does not represent a shift in congressional support for NBS's fire, building, and computer programs! Rather, as we stated in a letter to OMB Director, Jim Miller and Deputy Commerce Secretary, Bud Brown, these cuts were accepted with the main goal of bringing long-range stability to these programs.

Finally, within these austere budget times, we have worked to come up with a bill that provides stability to ongoing programs and funds important new initiatives.

I urge my colleagues to accept the agreement represented in H.R. 4354 and send it to the President.

Mr. WALKER. Mr. Speaker, I withdraw my reservation of objection.

Mr. BOEHLERT. Mr. Speaker, this bill is a watershed for the National Bureau of Standards. With it, we believe we are putting behind us years of acrimonious, counterproductive wrangling between Congress and the administration that has crippled the Bureau.

While the National Bureau of Standards may be a mystery to many Members of this body, its work is of vital importance to our Nation. The Bureau is the country's oldest national laboratory and the one most responsive to industry.

Its work is critical to maintaining our economic competitiveness. That means jobs. Its work in such areas as computer sciences, fiber optics, and ceramics define the frontiers of research.

An equally important part of the Bureau's mission is work that improves the health and safety of all Americans. This research, performed primarily by the Center for Fire Research and the Center for Building Technology, is indispensable and would not be conducted by any other group or institution.

The agreement between the House Committee on Science and Technology, the Senate Committee on Commerce, Science and Transportation; and the Office of Management and Budget embodied in this bill finally recognizes this dual mission of the National Bureau of Standards.

For the past 5 years, the administration has proposed the elimination of the fire and building centers and Draconian cuts in the Institute for Computer Sciences and Technology [ICST].

With the passage of this bill, the administration has pledged, in writing, not to propose any future cuts whatsoever in those three vital programs. It has further agreed to treat the three centers as equal partners in the Bureau. This should end the uncertainty which has made planning and hiring next to impossible in those programs.

In return for those commitments from OMB, we have agreed to reduce funding for the fire and building centers by $500,000 each and for computer sciences by $2.5 million. This money will contribute to the $6.5 million now authorized for the Cold Neutron Research Facility—A project desperately sought by materials science experts and long supported in principle by the Congress.

I want to emphasize that these cuts were accepted with the greatest reluctance after arduous negotiations for the sole purpose of bringing long-range stability to the affected programs. These cuts do not represent any weakening of congressional support for the Bureau's fire, building, and computer programs, but are designed rather to improve the long-term prospects of those programs. We have made this clear in letters to OMB Director Jim Miller and Deputy Commerce Secretary Bud Brown.

This bill will also improve the future health of the Bureau in some other ways. The committee is extremely proud of the China-Lake style salary system permitted under this bill. The Bureau has had great difficulty attracting and retaining top scientists and engineers because its salaries were significantly below those available in the priviate sector. This bill will give management the flexibility it needs to build the best possible research staff.

In short, this bill should put the Bureau back on the road to long-term stability and health. The overall budget for the lab is still woefully low. But within the constraints imposed by the President's budget and the deficit crisis, we have come up with a measure that funds important new initiatives, provides greater management flexibility, and protects vital health and safety programs. The result should be more Americans working—and working and living more safely.

I'd like to thank all the people who made this possible, particularly our subcommittee chairman, DOUG WALGREN, and his Senate counterpart, SLADE GORTON, the Department of Commerce, and the Office of Management and Budget, and the House Committee on Post Office and Civil Service.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Pennsylvania?

There was no objection.

A motion to reconsider was laid on the table.

□ 1205

INDIAN HEALTH CARE AMENDMENTS OF 1985

Mr. UDALL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1426) to authorize and amend the Indian Health Care Improvement Act, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

(For the Senate amendment, see Senate proceedings of October 8, 1986, at page S15572.)

The Clerk read the House amendment to the Senate amendment, as follows:

Strike all of section 714 and renumber the succeeding section accordingly.

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Arizona?

Mr. STRANG. Mr. Speaker, reserving the right to object, and I will not object to concurring in the Senate amendment to H.R. 1426 with a further amendment, I would like to yield to the gentleman from Arizona [Mr. UDALL], chairman of the committee, to explain his amendment.

Mr. UDALL. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I yield to the gentleman from Arizona.

Mr. UDALL. Mr. Speaker, the most serious problem on our Indian reservations is health. For 6 years, our committee and the Committee on Energy and Commerce, under the leadership of the gentleman from California [Mr. WAXMAN], have tried to find solutions to better the progress toward Indian health.

Mr. Speaker, this is a simple, but significant amendment. It strikes a provision added to the bill by the Senate.

There is a growing controversy on the question of whether the responsibility of the Indian Health Service to provide health care to Indians is a primary responsibility or is residual to all other health resources available to Indian people.

The administration's policy is that IHS services are residual.

Others, including certain counties in the State of Montana, have taken the position that IHS services are primary and county health services are residual.

In the 98th Congress, similar legislation was vetoed by the President because of the inclusion of a provision which provided that, in the State of Montana, IHS services are primary and the county services are residual.

A recent decision of the district court in Montana has held that county services are residual to IHS services. The administration has appealed this decision to the circuit court which has stayed the effect of the district court decision.

The Senate amendment would, in effect, circumvent the court's stay and provide that, during the pendancy of this litigation, IHS in that judicial district will be considered primary and the counties' services residual.

This administration has made very clear that, if this provision is retained, this very important legislation will, again, be vetoed.

We simply cannot let that happen, Mr. Speaker.

Therefore, this amendment will strike that section of the bill as passed by the Senate.

Mr. STRANG. Mr. Speaker, reclaiming my time, 2 years ago, Congress sent to the President a similar bill which the President vetoed. The first provision cited in that statement was the Montana provisions relating to the relationship of the Indian Health Service with that State. Again, the other body, for the sake of one or two individuals, has added to the bill another Montana provision. I have been informed by the administration that inclusion of the Montana provision assures the bill of a veto. I strongly support the chairman's motion to delete this provision and return the bill to the other body. If this needed bill must die, I believe we should place the responsibility where it lies, with the Members of the other body, and not with the President. Mr. Speaker, I would like to place in the RECORD a letter from an Indian leader on benefits of tribes, which supports this position. While I do not agree with all the provisions of the bill before us, I be-

lieve on the whole it is a good bill that will benefit Indian tribes and their members. The Indian people are in desperate need of improved health care and H.R. 1426 will go far to assist Indian people.

I would prefer to go to conference on the bill, but it appears that time is running out. I may seek changes in the act in the next Congress. I commend the chairman for his patience in this matter.

WASHOE TRIBE OF
NEVADA AND CALIFORNIA,
Gardnerville, NV, October 7, 1986.

Hon. JOHN MCCAIN,
Committee on Interior Affairs, House of Representatives, Washington, DC.

DEAR CONGRESSMAN MCCAIN: I respectfully request that you insist on a Conference Committee when the Indian Health Care Amendments bill comes before the House of Representatives.

A Conference Committee is necessary in order to remove the "Montana" provisions from the bill. The Department of Health and Human Services has made their position on Senator Melcher's amendment quite clear: the President will veto the bill if any version of the Montana provisions are contained. Such a veto would be consistent with existing federal Indian policy.

So many people including you, and the tribes, have worked too hard for too many years on this important Indian health legislation to have it jeopardized by the Montana provisions.

Sincerely,

ROBERT L. FRANK,
Chairman, Washoe Tribe of Nevada and California.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. UDALL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

HOULTON BAND OF MALISEET INDIANS SUPPLEMENTARY CLAIMS SETTLEMENT ACT OF 1986

Mr. UDALL. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 2750) to establish a property tax fund for the Houlton Band of Maliseet Indians in furtherance of the Maine Indian Claims Settlement Act of 1980, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

Mr. STRANG. Mr. Speaker, reserving the right to object, will the gentleman explain the legislation?

Mr. UDALL. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I yield to the gentleman from Arizona.

Mr. UDALL. Mr. Speaker, this bill resolves a problem growing out of the Maine Indian Claims Settlement Act of 1980.

Under that act, a land acquisition fund of $900,000 was established for the Houlton Band. However, expenditures from that fund could not be made until the tribe and the State of Maine reached an agreement on the capacity of the tribe to pay taxes or payments in lieu of taxes on lands acquired.

With earned interest, the acquisition fund now totals $1,800,000. S. 2750 simply directs that $200,000 of this fund be transferred to a separate fund to be administered by the Secretary of the Interior for the purpose of insuring that such taxes or payments will be made.

Enactment of the bill represents no costs to the United States.

Mr. STRANG. Mr. Speaker, further reserving the right to object, I yield to my colleague, the gentlewoman from Maine [Ms. SNOWE].

Ms. SNOWE. Mr. Speaker, I rise to express my support for S. 2750. This bill amends the Maine Indian Land Claims Settlement Act of 1980 in order to establish a tax fund for the Houlton Band of Maliseet Indians of Houlton, ME.

I would like to express my appreciation to Mr. UDALL, Mr. STRANG, and Mr. MCCAIN, for their assistance in bringing this measure before the House for consideration.

The tax fund will be used to pay taxes, fees, and payments in lieu of property taxes owed by the band to the State. The fund will be started with $200,000 of earned interest from the land acquisition fund set up by the Settlement Act. This transfer will not diminish the purchasing power of the acquisition fund, which originally held $900,000 and now contains $1.9 million.

The Houlton Band has few economic assets and the purchase of land will allow the band to move forward with their economic development plans. This measure will allow them to complete the purchase of land currently being held in trust by the Government. Without this legislation, the band cannot purchase the land they need to start their reservation.

This bill, which is supported by Maine's entire congressional delegation, is the result of many years of negotiations between the band and the State of Maine, as a result of the Settlement Act. The Maine State Legislature has passed legislation supporting the establishment of such a fund. S. 2750, also, enjoys the support of the Department of the Interior.

Mr. Speaker, this bill is the first step on the band's road to self-sufficiency and I urge its speedy consideration and passage.

Mr. STRANG. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2750

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Houlton Band of Maliseet Indians Supplementary Claims Settlement Act of 1986".

DEFINITIONS

SEC. 2. For purposes of this Act—

(1) The term "Houlton Band Tax Fund" means the fund established under section 3.

(2) The term "Houlton Band trust land" means land or natural resources acquired by the Secretary of the Interior and held in trust by the United States for the benefit of the Houlton Band of Maliseet Indians in accordance with section 5(d) of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1724(d); 94 Stat. 1789).

(3) The term "amended Maine Implementing Act" means the Maine Implementing Act (defined in section 3(e) of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1722(e); 94 Stat. 1787)) as amended by—

(A) the "Act to amend the Maine Implementing Act with respect to the Houlton Band of Maliseet Indians", enacted by the State of Maine in chapter 675 of the Public Laws of 1981, and

(B) the State of Maine in chapter 672 of the Public Laws of 1985.

(4) The term "Secretary" means the Secretary of the Interior.

(5) The term "Houlton Band of Maliseet Indians" has the meaning given to such term by section 3(a) of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1722(a)).

HOULTON BAND TAX FUND

SEC. 3. (a) There is hereby established in the United States Treasury a fund to be known as the Houlton Band Tax Fund in which shall be deposited $200,000 in accordance with the provisions of this Act.

(b)(1) Income accrued on the land acquisition fund established for the Houlton Band of Maliseet Indians pursuant to subsections (c) and (d)(1) of section 5 of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1724; 94 Stat. 1789) shall be transferred to the Houlton Band Tax Fund. No transfer shall be made under this subsection if such transfer would diminish such land acquisition fund to a balance of less than $900,000.

(2) Whenever funds are transferred to the Houlton Band Tax Fund pursuant to paragraph (1), the Secretary shall publish notice of such transfer in the Federal Register. Such notice shall specify when the full

amount of $20,000 has been transferred to the Houlton Band Tax Fund.

(c) The Secretary shall manage the Houlton Band Tax Fund in accordance with the first section of the Act of June 24, 1938 (25 U.S.C. 162a), and shall utilize the principal and interest of such Fund only as provided in subsection (d) and for no other purpose.

(d) Notwithstanding the provisions of section 3727 of title 31, United States Code, the Secretary shall pay out of the Holton Band Tax Fund all valid claims for taxes, payments in lieu of property taxes, and fees, together with any interest and penalties thereon—

(1) for which the Houlton Band of Maliseet Indians are determined to be liable under the terms of section 6208-A(2) of the amended Maine Implementing Act,

(2) which are final and not subject to further administrative or judicial review, and

(3) which have been certified by the Commissioner of Finance and Administration of the State of Maine as valid claims (within the meaning of section 6208-A(2) of the amended Maine Implementing Act) that meet the requirements of this subsection.

(e) Notwithstanding of any provision of law, if—

(1) the Houlton Band of Maliseet Indians is liable to the State of Maine or any county, district, municipality, city, town, village, plantation, or any other political subdivision thereof for any tax, payment in lieu of property tax, or fees, together with any interest or penalties thereon, and

(2) there are insufficient funds in the Houlton Band Tax Fund to pay such tax, payment, or fee (together with any interest or penalties thereon) in full, the deficiency shall be paid by the Houlton Band of Maliseet Indians only from income-producing property owned by such Band which is not held in trust for such Band by the United States, and such Band shall not be required to pay such tax, payment, or fee (or any interest or penalty thereon) from any other source.

(f) The Secretary shall, after consultation with the Commissioner of Finance and Administration of the State of Maine and the Houlton Band of Maliseet Indians, prescribe written procedures governing the filing and payment of claims under this section and section 6208-A of the amended Maine Implementing Act.

HOULTON BAND TRUST LAND

SEC. 4. (a) Subject to the provisions of section 3 of this Act, the Secretary is authorized and directed to expend, at the request of the Houlton Band of Maliseet Indians, the principal of, and income accruing on, the land acquisition fund established for such Band under subsections (c) and (d)(1) of section 5 of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1724; 94 Stat. 1789) for the purpose of acquiring land or natural resources for such Band and for no other purpose. Land or natural resources so acquired within the State of Maine for such Band shall be held in trust by the United States for the benefit of such Band.

(b)(1) Land or natural resources acquired with funds expended under the authority of subsection (a) and held in trust for the benefit of the Houlton Band of Maliseet Indians may be alienated only by—

(A) takings for public use pursuant to the laws of the State of Maine as provided in subsection (c),

(B) takings for public use pursuant to the laws of the United States,

(C) transfers authorized by section 5(g)(3) of the Maine Indian Claims Settlement Act of 1980 (25 U.S.C. 1724(g)(3); 94 Stat. 1791), or

(D) transfers made pursuant to an Act or joint resolution of Congress.

All other transfers of land or natural resources acquired with funds expended under the authority of subsection (a) and held in trust for the benefit of such Band shall be void ab initio and without any validity in law or equity.

(2) The provisions of paragraph (1) shall not prohibit or limit transfers of individual use assignments of land or natural resources from one member of the Houlton Band of Maliseet Indians to another member of such Band.

(c)(1) Land or natural resources acquired with funds expended under the authority of subsection (a) and held in trust for the benefit of the Houlton Band of Maliseet Indians may be condemned for public purposes by the State of Maine, or any political subdivision thereof, only upon such terms and conditions as shall be agreed upon in writing between the State and such Band after the date of enactment of this Act.

(2) The consent to the United States is hereby given to the State of Maine to further amend the amended Maine Implementing Act for the purpose of embodying the agreement described in paragraph (1).

(d)(1) Lands and natural resources may be acquired by the Secretary for the Houlton Band of Maliseet Indians only if the Secretary has, at any time prior to such acquisition—

(A) transmitted a letter to the Secretary of State of the State of Maine stating that the Houlton Band Tax Fund contains $200,000, and

(B) provided the Secretary of State of the State of Maine with a copy of the procedures for filing and payment of claims prescribed under section 3(f).

(2)(A) No land or natural resources may be acquired by the Secretary for the Houlton Band of Maliseet Indians until the Secretary—

(i) files with the Secretary of State of the State of Maine a certified copy of the deed, contract, or other conveyance setting forth the location and boundaries of the land or natural resources to be acquired by the Secretary, or

(ii) files with the Secretary of State of the State of Maine a certified copy of any instrument setting forth the location and boundaries of the land or natural resources to be acquired.

(B) For purposes of subparagraph (A), filing with the Secretary of State of the State of Maine may be made by mail and, if such method of filing is used, shall be considered to be completed on the date on which the document is properly mailed to the Secretary of State of the State of Maine.

The Senate bill was ordered to be read a third time, was read a third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. UDALL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

NATIONAL FORESTS OF NEVADA ENHANCEMENT ACT OF 1986

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the bill (H.R. 5277) to transfer certain public lands in Nevada to the Toiyabe, Humboldt, and Inyo National Forests, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

□ 1215

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Ohio?

Mrs. VUCANOVICH. Reserving the right to object, Mr. Speaker, would the gentleman from Ohio explain what is involved in this legislation?

Mr. SEIBERLING. Mr. Speaker, will the gentlewoman yield?

Mrs. VUCANOVICH. I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, I have an amendment in the nature of a substitute for this bill, which I will offer. The amendment has been cleared with the minority and with the entire delegation from the State of Nevada.

This bill would enact a part of a nationwide interchange of responsibilities between the Federal Government's two principal multiple-use land managing agencies—the U.S. Forest Service of the Department of Agriculture and the Bureau of Land Management of the Department of the Interior. The idea of that interchange of responsibilities was to increase the efficiency and cost-effectiveness of land management by these two agencies by creating more manageable units and eliminating duplication of services.

This bill would do that in the manner agreed to by the Forest Service, the BLM, the State delegation, and the Governor. While the administration would prefer to our dealing with the entire, nationwide interchange proposal they have proposed, they testified at our hearing on this bill that enacting this bill would have no adverse affect on agency personnel, on agency budgets, or on their ability to carry out their work.

The bill was introduced by Representative HARRY REID for himself and our colleague BARBARA VUCANOVICH, and they have both agreed to the amendment, which consists of technical changes including additional, clarifying language requested by the administration.

In short, I wish to support the efforts of our colleagues HARRY REID

and BARBARA VUCANOVICH in this matter, and I want to congratulate them for working hard to get this matter of great concern to their constituents worked out so that it can be enacted into law in this Congress.

Mr. REID. Mr. Speaker, will the gentlewoman yield?

Mrs. VUCANOVICH. I yield to the gentleman from Nevada.

Mr. REID. Mr. Speaker, I rise in strong support of H.R. 5277, the National Forests of Nevada Enhancement Act of 1986, which I introduced, and is endorsed by the entire Nevada congressional delegation.

The legislation will transfer more than 500,000 acres of Federal lands in Nevada, currently administered by the Bureau of Land Management, to the U.S. Forest Service.

A brief outline of the development of this proposal is warranted. In June 1985, the U.S. Forest Service and the BLM announced a proposal to interchange managment of about 30 to 35 million acres of land and underlying minerals. The purpose of the proposed interchange was to improve the managment of public lands and national forests, enhance public service, and reduce agency costs.

The proposed "landswap" caused an uproar in Nevada. Under the original plan, Forest Service lands in Nevada would shrink to less than 1 million acres, while the BLM would manage 4.5 million acres. The Departments of Interior and Agriculture also held public hearings in Nevada last summer to gauge the public's sentiments about the landswap. The public hearings brought out near-unanimous opposition to reducing Forest Service lands in the State. Too many serious questions remained; ranging from concerns about agency funding, quality of managment, the status of revenues to State and county governments, and possible environmental degradation.

Following public input and further deliberation, the U.S. Forest Service and BLM developed a new interchange proposal affecting 12 Western States and two Eastern cities, allowing Nevada to retain all of its existing National Forests and converts BLM lands to the U.S. Forest Service.

Congressional approval of the omnibus interchange proposal, which shifts 18 million acres of BLM land to the Forest Service and 16 million acres of Forest Service land to the BLM, is not forthcoming. In other words, support for the Federal Lands Administration Act, introduced last spring, is virtually nil.

At the urging of the National Forest Task Force of Nevada, the Nevada delegation introduced this legislation to enlarge and enhance our valuable Forest Service lands. Specifically H.R. 5277 transfers BLM lands to the U.S. Forest Service in the Spring Mountains adjacent to Mount Charleston and lands in the eastern Sierras. H.R. 5277 also transfers 23,000 acres of Forest Service-administered lands in the Toiyabe National Forest to the Bureau of Land Management.

The National Forests of Nevada Enhancement Act is also supported by the Governor of Nevada, the board of commissioners of Clark County, and the Mount Charleston Town Advisory Board. The transfer does not affect existing water rights, any wilderness review underway by the BLM or the Forest Service, and will not alter the existing division of responsibility for mining activity on Forest Service land.

Aside from the bill's obvious advantages of providing more efficient management and cost savings, I must point out a positive and important benefit. If passed, the National Forests of Nevada Enhancement Act will increase the green on the map of Nevada, adding to our State's image. Our State's natural resources will be improved for the benefit of present and future generations.

For these reasons, Mr. Speaker, I urge favorable action on this widely supported proposal.

Mrs. VUCANOVICH. Mr. Speaker, further reserving the right to object, I simply want to rise in support of H.R. 5277, the National Forests and Public Lands of Nevada Enhancement Act of 1986, as amended. This bill is the result of a united, bipartisan Nevada task force and will facilitate an interchange of lands between the Bureau of Land Management and the Forest Service. The amended bill has the support of the entire Nevada delegation, the chairman of the Subcommittee on Public Lands, and the BLM and Forest Service.

The purpose of the original omnibus interchange bill, proposed in 1985, was to improve management efficiency of public lands. It also would have virtually eliminated Nevada's two national forests, the Toiyabe and the Humboldt. The citizens of Nevada felt an urgent need to protect and preserve their forests and created the National Forest Task Force of Nevada, of which I am a member, to develop an alternative to the proposed interchange.

Members of the task force came to Washington in January of this year and met with the Nevada delegation, the Forest Service and the BLM. A decision was made at that meeting to add to, rather than subtract from, Nevada's precious national forests. It was also decided at that meeting to add acreage to the BLM from the Forest Service for management efficiency.

Mr. Speaker, the people in Nevada are very supportive of this interchange. They have demonstrated the power of the people in their willingness to get involved and find an alternative to a proposal that was not in the best interest of Nevadans and I applaud their endeavors.

Mr. Speaker, I would like to thank the gentleman from Arizona [Mr. UDALL] and the gentleman from Ohio [Mr. SEIBERLING] for their cooperation in moving this bill. H.R. 5277 is noncontroversial and is supported by the entire Nevada delegation and I hope this body acts favorably so that we may pass it to the other body and they will have the opportunity to act before the end of this congressional session.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. MATSUI). Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the bill, as follows:

H.R. 5277

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Forests of Nevada Enhancement Act of 1986".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) the public lands transferred by this Act contain valuable natural resources (such as watershed, range, outdoor recreation and wildlife habitat) which will be enhanced by the professional, multiple-use management of the United States Forest Service;

(2) the public which utilize these natural resources will be benefited by such management;

(3) the public lands transferred by this Act are adjacent to existing national forests and, in many cases, are part of the same watersheds and mountain ranges, placing the management of these lands under the administration of one agency, the Forest Service, will improve efficiency and be cost effective; and

(4) there is a consensus in Nevada as shown in public hearings held throughout the State that these lands should be added to the national forests.

(b) PURPOSE.—The purpose of this Act is to transfer to the Forest Service, United States Department of Agriculture, certain public lands in Nevada currently administered by the Bureau of Land Management, United States Department of the Interior. These public lands are contiguous to the Toiyabe, Humboldt, and Inyo National Forests and will become National Forest System lands.

SEC. 3. TRANSFER OF PUBLIC LANDS TO THE FOREST SERVICE.

(a) TRANSFER.—(1) The public lands designated for inclusion in the National Forest System on a map entitled " ", dated , and numbered , are hereby transferred to the Secretary of Agriculture and shall become part of the Toiyabe National Forest, the Homboldt National Forest, or the Inyo National Forest (as the case may be). Such lands shall be administered in accordance with the laws, rules, and regulations applicable to the national forests.

(2) The lands referred to in paragraph (1) include the following lands administered by the Secretary of the Interior:

(A) Lands in the Spring Mountains adjacent to Mount Charleston.

(B) Lands in the eastern Sierras.

(C) Lands on the east of the Ruby Mountains.

(D) Lands adjacent to the Utah border and Mount Moriah.

(b) BOUNDARIES OF TOIYABE, HUMBOLDT, AND INYO NATIONAL FORESTS.—(1) The boundary of the Toiyabe National Forest, the Humboldt National Forest, and the Inyo National Forest is hereby modified to reflect the transfer of lands under subsection (a).

(2) For the purpose of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-9), the boundary of the Toiyable National Forest, the Humboldt National Forest, and the Inyo National Forest, as modified by this subsection shall be treated as if it were the boundary of those National Forests as of January 1, 1965.

(c) MAP.—The map referred to in subsection (a) shall be on file and available for public inspection in the offices of the Chief, Forest Service, Department of Agriculture, and the Director, Bureau of Land Management, Department of the Interior. The Secretary of Agriculture may make changes to the map to correct technical errors.

SEC. 4. WILDERNESS SUITABILITY.

(a) BLM STUDY AREAS.—Any area or portion thereof designated as a Bureau of Land Management Wilderness Study Area (Mount Stirling, NV-050-401; LaMadre Mountains, NV-050-412) on the map referred to in section 3(a)(1) which is made a part of the National Forest System by this Act and for which a wilderness suitability study is complete or underway on the date of enactment of this Act, shall be managed by the Secretary of Agriculture in accordance with the provisions of section 603(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1782) until Congress designates that area as wilderness or releases if from further wilderness consideration.

(b) ROADLESS AREAS NOT RECOMMENDED AS WILDERNESS.—Any roadless area or portion thereof which is made a part of the National Forest System by this Act and which has been considered but not recommended for designation as wilderness pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712) shall be deemed to have been adequately considered for wilderness for the purposes of the initial land management plans hereafter required for such lands by section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604). The Secretary of Agriculture shall not be required to manage such area to preserve wilderness values or to review the wilderness option before the revision of such plans, but the Secretary shall review the wilderness option for such area when such plans are revised.

(b) NO ADDITION TO THE NATIONAL WILDERNESS PRESERVATION SYSTEM.—Nothing in this Act shall be construed to add lands to the National Wilderness Preservation System.

SEC. 5. WATER RIGHTS.

(a) PRIOR EXISTING WATER RIGHTS.—Nothing in this Act shall be construed to expand or diminish any water right of the United States under State or Federal law which the United States had, or may be determined to have had by purchase, reservation, or otherwise, before the date of enactment of this Act.

(b) NO FEDERAL RESERVED WATER RIGHTS BY REASON OF TRANSFER.—The designation and withdrawal of newly established national forest lands by this Act shall not create any reserved water rights in the United States by reason of this Act with respect to those lands.

(c) RIGHT TO ACQUIRE AND DISPOSE OF WATER RIGHTS.—Nothing in this Act shall affect the right of the United States or any person to acquire or dispose of water or water rights under applicable law.

SEC. 6 MANAGEMENT OF MINERAL RESOURCES.

Nothing in this Act shall be construed to change the law governing the management of subsurface mineral resources.

SEC. 7. ADMINISTRATIVE APPEALS.

With respect to the lands transferrd by section 3(a), any formal administrative appeal, adjudication, or review pending on the date of enactment of this Act shall be completed by the Secretary of the Interior, except that the Secretary of Agriculture may exercise final administrative review.

SEC. 8. DEFINITIONS.

As used in this Act—

(1) the term "public lands" means the lands administered by the Bureau of Land Management, United States Department of the Interior, as defined in section 103(e) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701(e)); and

(2) the term "National Forest System" means the lands administered by the Forest Service, United States Department of Agriculture, and has the same meaning as defined in section 11 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)).

AMENDMENT IN THE NATURE OF A SUBSTITUTE OFFERED BY MR. SEIBERLING

Mr. SEIBERLING. Mr. Speaker, I offer an amendment in the nature of a substitute.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. SEIBERLING: Strike all after the enacting clause and insert in lieu thereof:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Forests and Public Lands of Nevada Enhancement Act of 1986".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the public lands transferred by this Act contain valuable natural resources (such as watershed, range, outdoor recreation and wildlife habitat) which will be enhanced by the professional, multiple-use management of the United States Forest Service; and that certain national forest lands would be enhanced by the professional multiple-use management of the Bureau of Land Management;

(2) the publics which untilize these natural resources will be benefited by such adjustments in management;

(3) the public lands transferred by this Act to the Forest Service are adjacent to existing national forests and, in many cases, are part of the same watersheds and mountain ranges, and placing the management of these lands under the administration of one agency, the Forest Service, will improve efficiency and be cost effective; that similar efficiency and cost effectiveness will result from transfer of certain forest lands to the Bureau of Land Management and;

(4) there is a consensus in Nevada that these lands should be added to the national forests and that some national forest lands should be transferred to the Bureau of Land Management for management.

(b) PURPOSES.—The purposes of this Act are—

(1) to transfer to the Forest Service, United States Department of Agriculture, certain public lands in Nevada currently administered by the Bureau of Land Management, United States Department of the Interior. These public lands are contiguous to the Toiyabe and Inyo National Forests and will become National Forest System lands.

(2) to transfer to the Bureau of Land Management, United States Department of the Interior, certain lands in Nevada currently administered by the Forest Service, United States Department of Agriculture. These lands are contiguous to other public lands and will be managed as such.

SEC. 3. TRANSFER OF LANDS.

(a) TRANSFER OF PUBLIC LANDS TO THE FOREST SERVICE.—Effective 180 days after the enactment of this Act, the approximately 531,000 acres of public lands designated for inclusion in the National Forest System on two maps entitled "Nevada Interchange-A-1" and "Nevada Interchange-B-1" and dated October, 1986, are hereby transferred to the Secretary of Agriculture and shall become part of the Toiyabe National Forest or the Inyo National Forest.

(b) BOUNDARIES OF TOIYABE AND INYO NATIONAL FORESTS.—

(1) The boundary of the Toiyabe National Forests and the Inyo National Forest is hereby modified to reflect the transfer of lands under subsection (a).

(2) For the purpose of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-9), the boundary of the Toiyabe National Forest and the Inyo National Forest, as modified by this subsection, shall be treated as if it were the boundary of those National Forests as of January 1, 1965.

(c) TRANSFER OF FOREST SERVICE LANDS TO THE BUREAU OF LAND MANAGEMENT.—Effective 180 days after the enactment of this Act, the approximately 23,000 acres of national forest lands identified for management by the Bureau of Land Management on a map entitled "Nevada Interchange-A-1" and dated October, 1986, are hereby transferred to the Secretary of the Interior.

(d) MAPS.—The maps referred to in subsection (a) and subsection (c) shall be on file and available for public inspection in the offices of the Chief, Forest Service, Department of Agriculture, and the Director, Bureau of Land Management, Department of the Interior. The Secretaries of Agriculture and the Interior may make changes to the maps to correct technical errors.

(e) Effective 180 days after enactment of this Act, lands transferred by subsection (a) of this section to the jurisdiction of the Secretary of Agriculture shall be subject to the planning requirements of section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, and lands transferred by subsection (c) of this section to the jurisdiction of the Secretary of the Interior shall be subject to the planning requirements of the Federal Land Policy and Management Act of 1976. All transferred lands shall continue to be managed in accordance with plans in effect on the date of enactment of this Act until considered in plans developed under applicable provisions of law. If no plans are in effect on the date of enactment of this Act, the respective transferred lands shall be managed in a manner consistent with other national forest or public lands, as the case may be, in the vicinity until a plan is developed under applicable provisions of law. Nothing in this Act shall of

itself require the amendment or revision of the existing plans governing public lands or national forest affected by the addition of or deletion of lands transferred by this Act.

SEC. 4. WILDERNESS SUITABILITY.

(a) BLM STUDY AREAS.—Any area or portion thereof designated as a Bureau of Land Management Wilderness Study Area (Mount Stirling, NV-050-401; LaMadre Mountains, NV-050-412) on the map referred to in section 3(a) which is made a part of the National Forest System by this Act shall be managed by the Secretary of Agriculture in accordance with the provisions of section 603(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1782) until Congress designates that area as wilderness or releases it from further wilderness consideration.

(b) ROADLESS AREAS NOT RECOMMENDED AS WILDERNESS.—Any roadless area or portion thereof which is made a part of the National Forest System by this Act and which has been considered but not recommended for designation as wilderness pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S. 1712) shall be deemed to have been adequately considered for wilderness for the purposes of the initial land management plans hereafter required for such lands by section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604). The Secretary of Agriculture shall not be required to manage such area to preserve wilderness values or to review the wilderness option before the revision of such plans, but the Secretary shall review the wilderness option for such area when such plans are revised.

(c) Any roadless areas on national forest lands, or portions thereof, recommended by the Secretary or Agriculture for wilderness which will be transferred to the jurisdiction of the Secretary of the Interior pursuant to section 3(c) of this Act, shall be managed by the Secretary of the Interior in accordance with the provisions of section 603(c) of FLPMA, or other specific statutory direction.

(d) NO ADDITION TO THE NATIONAL WILDERNESS PRESERVATION SYSTEM.—Nothing in this Act shall be construed to add lands to the National Wilderness Preservation System.

SEC. 5. MANAGEMENT OF MINERAL RESOURCES.

Nothing in this Act shall be construed to change the law governing the management of mineral resources.

SEC. 6. ADMINISTRATIVE APPEALS.

With respect to the lands transferred by section 3 any formal administrative appeal, adjudication, or review pending on the date of transfer of jurisdiction under this Act shall be completed by the Secretary of the Department in which it was initiated except that the Secretary of the Department having jurisdiction over the land pursuant to this Act may exercise final administrative review.

SEC. 7. VALID EXISTING RIGHTS.

(a) Nothing in this Act shall affect valid existing rights of any person under any authority of law as of the date of enactment of this Act.

(b) Authorizations to use lands transferred by this Act which were issued prior to the date of transfer shall remain subject to the laws and regulations under which they were issued: Provided, that such laws and regulations will be exercised by the Secretary to whom jurisdiction over affected lands has been transferred by this Act. However, renewals and extensions shall be subject to the laws and regulations pertaining to the agency which has jurisdiction over the land at the time of renewal or extension. The change of administrative jurisdiction resulting from the enactment of this Act shall not in itself constitute a basis for denying the renewal or reissuance of any such authorization.

SEC. 8. DEFINITIONS.

As used in this Act—

(1) the term "public lands" means the lands administered by the Bureau of Land Management, United States Department of the Interior, as defined in section 103(3) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701(e)); and

(2) the term "National Forest lands" or "National Forest System lands" means the lands administered by the Forest Service, United States Department of Agriculture, and has the same meaning as defined in section 11 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)).

SEC. 9. ADMINISTRATION OF RECEIPTS.

The acreage added to the Toiyable and Inyo National Forests in the State of Nevada by this Act shall not be counted in determining the distribution of the Twenty-Five Percent Fund between the States of California and Nevada under the Act of May 23, 1908, as amended. Provided, however, that the acreage added to these forests shall be counted in the distribution of the Twenty-five Percent Fund between the affected counties in Nevada.

Mr. SEIBERLING (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from Ohio [Mr. SEIBERLING].

The amendment in the nature of a substitute was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

NATIONAL FOREST SKI AREA PERMIT ACT OF 1986

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2266) to establish a ski area permit system on national forest lands, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. STRANG. Mr. Speaker, reserving the right to object, will the gentleman explain what is involved here?

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, this bill would modernize the system by which the Government leases national forest lands for ski areas. The House passed a virtually identical bill (H.R. 4489) last July, on suspension of the rules.

That bill was introduced by our colleague TIM WIRTH of Colorado and cosponsored and supported by many Members on both sides of the aisle.

The only change from the text of the bill as it passed the House is the insertion of a sentence clarifying that, as existing law already requires, the Government should charge fair market value for these permits. This is a change in which I and the many cosponsors of the bill concur, and I urge the Members to consent to the passage of the bill.

Mr. WIRTH. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I yield to my colleague, the gentleman from Colorado.

Mr. WIRTH. Mr. Speaker, I thank the gentleman for yielding and I want to thank him for his great help in the passage of this legislation.

The gentleman from Colorado [Mr. STRANG] and the gentleman from New Mexico [Mr. RICHARDSON] have helped to move this legislation through the House with what I believe to be record time from the point of introduction to the point of passage today. This passage and the cooperation on the bill results from working on both sides of the aisle and working with the other body, who as the chairman of the subcommittee pointed out, was concerned about some issues relating to fair market value, which have also been very carefully worked out.

The thrust of this legislation, if the gentleman will yield further, will help us to provide greater economic stability for not only the ski industry, but the western slope of the State of Colorado, represented in large part by the gentleman from Colorado who had so kindly yielded.

The recreation job base is enormously important to our State. It is approximately a $4 billion job base and the stability provided to this major in-

dustry through the passage of S. 2266 will be very, very helpful.

Finally, in working through the legislation we have worked with sportsmen's groups and with wildlife groups taking care of the concerns that they have, some justifiable concerns that were worked out through the subcommittee action, again with special reference and thanks to the gentleman from Colorado [Mr. STRANG].

Mr. Speaker, I thank the gentleman for yielding.

Mr. STRANG. Mr. Speaker, further reserving the right to object, I thank the gentleman for his explanation.

I would like to point out to the Members of this body that this bill is critical to American skiing and particularly to skiing, in my district, which has 30 areas, 17 percent of all the skiing in the United States.

I congratulate the gentleman from Colorado [Mr. WIRTH] for his hard work and I thank the chairman of the subcommittee for his diligent attention to this bill.

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. STRANG. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, as a skier myself, I have a special incentive to promote this bill.

I thank the gentleman.

Mr. STRANG. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate bill, as follows:

An act to establish a ski area permit system on national forest lands, and for other purposes.

S. 2266

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Forest Ski Area Permit Act of 1986".

SEC. 2. PURPOSES.

The purposes of this Act are to—

(a) provide a unified and modern permitting process for nordic and alpine ski areas on national forest lands;

(b) provide for ski area permits which more closely reflect the acreage and other physical requirements of modern ski area developing; and

(c) provide a permit system which will be more commensurate with the long-term construction, financing, and operation needs of ski areas on national forest lands.

SEC. 3. SKI AREA PERMITS.

(a) LAW APPLICABLE TO PERMITS—The provisions of the Act of March 4, 1915 (16 U.S.C. 497) notwithstanding, the term and acreage of permits for the operation of nordic and alpine ski areas and facilities on National Forest System lands shall henceforth be governed by this Act and other applicable law.

(b) AUTHORITY.—The Secretary of Agriculture (hereinafter referred to as "the Secretary"), is authorized to issue permits (hereinafter referred to as "ski area permits") for the use and occupancy of suitable lands within the National Forest System for nordic and alpine skiing operations and purposes. A ski area permit—

(1) may be issued for a term not to exceed 40 years;

(2) shall ordinarily be issued for a term of 40 years (unless the Secretary determines that the facilities or operations are of a scale or nature as are not likely to require long/term financing or operation), or that there are public policy reasons specific to a particular permit for a shorter term;

(3) shall encompass such acreage as the Secretary determines sufficient and appropriate to accommodate the permittee's needs for ski operations and appropriate ancillary facilities;

(4) may be renewed at the discretion of the Secretary;

(5) may be cancelled by the Secretary in whole or in part for any violation of the permit terms or conditions, for nonpayment of permit fees, or upon the determination by the Secretary in his planning for the uses of the national forests that the permitted area is needed for higher public purposes;

(6) may be modified from time to time by the Secretary to accommodate changes in plans or operations in accordance with the provisions of applicable law;

(7) shall be subject to such reasonable terms and conditions as the Secretary deems appropriate; and

(8) shall be subject to a permit fee based on fair market value in accordance with applicable law.

(c) RULES AND REGULATIONS.—Within one year after the date of enactment of this Act, the Secretary shall promulgate rules and regulations to implement the provisions of this Act, and shall, to the extent practicable and with the consent of existing permit holders, convert all existing ski area permits or leases on National Forest System lands into ski area permits which conform to the provisions of this Act within 3 years of the date of enactment of this Act.

(d) Nothing in this Act shall be deemed to amend, modify or otherwise affect the Secretary's duties under the National Environmental Policy Act, or the Forest and Rangelands Renewable Resources Planning Act as amended by the National Forest Management Act, including his duties to involve the public in his decisionmaking and planning for the national forests.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

CONVEYING CERTAIN PROPERTY TO THE TOWN OF PAYSON, AZ

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 565) to direct the Secretary of Agriculture to convey, without consideration, to the town of Payson, AZ, approximately 30.96 acres of Forest Service lands, with a Senate amendment to the House amendments thereto, and concur in the Senate amendment to the House amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendment to the House amendments, as follows:

Page 2, after line 11 of the House engrossed amendment, insert:

SEC. 5. Section 205 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1715(c)) is amended—

(1) in the first sentence of subsection (c) by striking out "Lands and interests" and inserting in lieu thereof "Except as provided in subsection (e), lands and interests"; and

(2) by adding at the end thereof the following new subsection:

"(e) Lands acquired by the Secretary pursuant to this section or section 206 in exchange for lands which were revested in the United States pursuant to the provisions of the Act of June 9, 1916 (39 Stat. 218) or reconveyed to the United States pursuant to the provisions of the Act of February 26, 1919 (40 Stat. 1179), shall be considered for all purposes to have the same status as, and shall be administered in accordance with the same provisions of law applicable to, the revested or reconveyed lands exchanged for the lands acquired by the Secretary.".

SEC. 6. Notwithstanding any other provision of law, the Secretary of the Interior, if he determines it necessary and appropriate for the purpose of consummating an exchange of lands or interests therein under applicable law, is hereby authorized and directed to revoke the withdrawal under the First Form by Order of the Secretary of the Interior dated December 14, 1904, and as interpreted by Order of Interpretation of the Secretary of the Interior dated May 19, 1964, insofar as said withdrawal applies to Section 31 (Lots 1, 2, 3, W½E½, E½NW¼ SE¼SE¼) T. 5 N., R. 7 E., Gila and Salt River Meridian, Arizona.

SEC. 7. Notwithstanding any provision of law or order based thereon, the Secretary of the Interior, at the request of the Secretary of Agriculture, is authorized to take such actions (including but not limited to the revocation of withdrawals and the issuance of patents) as may be necessary to facilitate and consummate a land exchange in Idaho known as the Mesa Falls Exchange, as described in a Land Exchange Notice by the Department of Agriculture published in the Post-Register newspaper published in Idaho Falls, Idaho on November 12, 1985 (p. B-5), if the Secretary of Agriculture decides to proceed with such exchange.

Mr. SEIBERLING (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment to the House amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Ohio?

Mr. STRANG. Reserving the right to object, Mr. Speaker, and I will not object, will the gentleman from Ohio [Mr. SEIBERLING], my chairman, please explain what is involved.

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I am happy to yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, S. 565 deals with the transfer of certain lands in Arizona to the State, a county, and a town. The House passed the bill after making some amendments. The Senate has now returned the bill with amendments. The Senate amendments have all been passed by the House already as parts of other measures, and are noncontroversial provisions dealing with land management authorities of the Department of the Interior.

I believe we should go ahead and concur in the Senate amendments and clear the bill for the President.

Mr. STRANG. Mr. Speaker, I thank the gentleman for his explanation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the matter just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

RELEASING CERTAIN RESTRICTIONS IN CONVEYANCE OF LAND TO THE TOWN OF JEROME, AZ

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1593) to direct the Secretary of the Interior to release on behalf of the United States certain restrictions in a previous conveyance of land to the town of Jerome, AZ, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page, 2, line 3, strike out "4978894" and insert "497894".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. STRANG. Reserving the right to object, Mr. Speaker, will the gentleman from Ohio please explain what is involved?

Mr. SEIBERLING. Mr. Speaker, will the gentleman yield?

Mr. STRANG. I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, this bill has been returned with a technical amendment that corrects a typographical error. The bill is purely a housekeeeing bill. I urge concurrence in the Senate amendment so the bill can be cleared for the President.

Mr. STRANG. Mr. Speaker, I thank the gentleman for his explanation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the matter just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

□ 1230

ADDITION OF CERTAIN LANDS TO HAWAII VOLCANOES NATIONAL PARK

Mr. VENTO. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 2320) to amend an act to add certain lands on the Island of Hawaii to Hawaii Volcanoes National Park, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from Minnesota?

Mr. LAGOMARSINO. Mr. Speaker, reserving the right to object, I rise in support of S. 2320, to add approximately 5,600 acres to the Hawaii Volcanoes National Park through donation or exchange. The land parcel, known as tract 22, is adjacent to the park and has been identified for acquisition by the National Park Service for several years. It is presently a wilderness rain forest which provides prime habitat for several species of rare native birds.

The Park Service has been unable to acquire tract 22 due to a 1938 law which allows acquisition of land parcels adjacent to the park by donation only. When the landowner recently proposed geothermal activities on tract 22, the State of Hawaii acquired the tract through a land exchange. S. 2320 allows the Secretary to acquire tract 22 through an exchange by conveying to the State an approximately equal amount of Federal land in Hawaii that is considered surplus by the General Services Administration.

Mr. Speaker, tract 22 certainly qualifies as an appropriate addition to the Hawaii Volcanoes National Park due to its outstanding natural features. By exchanging this land parcel for surplus Federal land, only minimal Federal funds will need to be expended to complete the acquisition. This is particularly important due to the limited Federal appropriations available for land acquisition. During this difficult time of fiscal constraints, it is critical that we consider other methods to acquire important additions to our National Park System, such as the land exchange proposed in S. 2320.

The Subcommittee on National Parks and Recreation held a hearing in June on a House companion bill to S. 2320. The testimony at the hearing reflected substantial public support for the measure. The Interior and Insular Affairs Committee favorably reported S. 2320 on October 7.

For these reasons, I urge all of my colleagues to support S. 2320.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. LAGOMARSINO. I yield to the gentleman from Minnesota.

Mr. VENTO. I thank the gentleman for yielding.

Mr. Speaker, I wish to speak today in support of S. 2320, a bill to amend an act to add certain lands on the island of Hawaii to Hawaii Volcanoes National Park. The Senate passed this bill on September 10.

S. 2320 would allow the land exchange process to proceed so that eventually the 5,650 acres of tract 22 can become part of Hawaii Volcanoes National Park. The James Campbell estate, previous owner of tract 22, desired to develop its energy resources. The State of Hawaii has already exchanged this land for other State lands to ensure that the resources of tract 22 are protected, while giving the James Campbell estate other land some 10 miles distant. Tract 22, on the park's north boundary, has long been the park's highest land acquisition priority. This tract of virgin ohia and fern rain forest also provides habitat for several endangered species. Without this legislation we risk geothermal development immediately adjacent to the park.

The proposed three-way land exchange, already entered into in good faith by the State of Hawaii and the James Campbell estate, provides us an example of a creative if complicated means of ensuring that precious resources are well protected even as private and State landowners are the 1938 legislation that established the park to allow for land exchange as well as donation.

I have recently received a letter from the State of Hawaii telling me that the State board of land and natural resources terminated and voided the Kahauale'a geothermal resource subzone, in the Kilauea upper east rift zone and the Kahauale'a Conservation District use permit, an action confirmed by the Third Circuit Court for the State of Hawaii when it dismissed six appeals related to this land. The result is that no geothermal development may take place on tract 22 or the surrounding land, thereby protecting tract 22's subsurface rights.

By passing this legislation, we allow this exchange process to proceed in a manner to protect the resources in tract 22. The acquisition of tract 22 will also have the effect of providing greater protection for the rest of the park, and by ensuring that energy development will take place far from this magnificent place that is part of our heritage, Hawaii Volcanoes National Park.

I note that the entire Hawaii delegation wants this legislation, and that the National Park Service has long sought it. I want to thank DANNY AKAKA for his leadership and concern for the protection of park resources. He and his staff worked diligently on this legislation—the park will benefit from his efforts. I also want to thank JACK BROOKS and his staff for their close scrutiny of this bill and for their assistance.

Mr. Speaker, I urge my colleagues to support S. 2320.

Mr. AKAKA. Mr. Speaker, I rise in support of S. 2320, a bill which will enable Hawaii Volcanoes National Park to acquire a 5,650-acre tract adjacent to its present boundaries.

The parcel of land, which is presently unused, has been the National Park Service's acquisition priority in the Pacific area since 1951. This tree-fern rain forest, populated with native ohia, contains the habitat of the endangered Hawaiian Hawk and Hawaiian Ou as well as several other species found only in the Hawaiian archipelago. Congress identified the parcel as suitable for potential wilderness in 1978. Except for its non-Federal status, the tract possesses all the necessary attributes for wilderness designation.

Over the past 5 years, this important tract of land has been the focus of geothermal activities. In early 1982, its owner revealed plans for large-scale geothermal development on the land. Approximately 50 geothermal wells were proposed as close as 1,000 feet from the park boundary. Four proposed powerplants were to be located within 4,000 feet of the park. While the State of Hawaii recognizes the need to develop alternatives to nonrenewable energy resources and has emphasized this need through State legislation, we also recognize the importance of maintaining the integrity of Hawaii's largest national park. The adverse effects of geothermal emissions, surface disturbance, noise, odor, and vista impairment in close proximity to the park would have serious consequences. Such development would cause the deterioration of native plant and animal communities, fragmentation of the ohia fern forest essential for endangered native bird survival, degradation of the wilderness quality of the east rift and Kalapana extension areas, and destruction of present and future visitors' perceptions of the park.

After 2 years of searching for a means to satisfy these competing interests, a solution has been found that will allow geothermal development while removing its adverse effects from the immediate vicinity of the park. In December 1984, on the recommendation of the State board of land and natural resources, the owner of this tract was encouraged to consider a land exchange with the State of Hawaii. At the same time, the State encouraged the National Park Service to find a way of acquiring the tract for inclusion into Hawaii Volcanoes National Park. The State of Hawaii then began to consider the possibility of a three-party land exchange with the Federal Government that would allow the National Park Service to acquire this important parcel contingent upon the State and the landowner moving forward with their two-party exchange.

After several meetings among the State, the National Park Service, and the landowner, such an agreement was achieved. On April 18, the State of Hawaii and the landowner consummated their exchange, whereby tract 22 was acquired by the State in exchange for State land located farther downslope from the park. The State has indicated that it is willing to convey tract 22 to the Federal Government for park purposes in exchange for appropriate Federal land. However, Congress must enact legislation to allow the Department of the Interior to become a third party to this exchange agreement.

The benefits of this legislation are self-evident. First, the 5,650-acre tract of virgin rain forest would become part of the Hawaii Volcanoes National Park, offering protection to endangered species and popular visitor attractions, allowing representation of this unique ecosystem in the National Park System, and facilitating National Park Service administrative control over the land for the purposes of public safety. Second, and equally important, geothermal development could proceed in an area well removed from the park. Furthermore, geothermal development could proceed immediately without the burden of continued hearings, protests, appeals, and threats of court actions which have held development to a standstill over the past 4 years. Third, there would be no need to seek major appropriations from Congress for the acquisition of the land at a time when budget considerations are on the minds of every Member of Congress. Finally, the more than 2½ million visitors that come to the Hawaii Volcanoes National Park from all parts of our Nation each year will enjoy the benefit of an appropriate expansion of the State's natural treasures.

Mr. LAGOMARSINO. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2320

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ADDITION TO HAWAII VOLCANOES NATIONAL PARK.

The Act entitled "An Act to add certain lands on the island of Hawaii to the Hawaii National Park, and for other purposes" (52 Stat. 781; 16 U.S.C. 391b) is amended by adding at the end the following new section:

"SEC. 5. (a) Notwithstanding any other provision of this Act, the Secretary of the Interior (hereinafter referred to as the 'Secretary') is authorized to acquire by donation, donation or exchange the land and interests therein comprising approximately 5,650 acres and identified as tract number 118/22 on the map entitled 'Recommended Land Acquisition', in the Hawaii Volcanoes National Park Land Protection Plan as recommended May 17, 1985, which plan shall be on file and available for public inspection in the office of the Director, National Park Service, Department of the Interior, Washington, D.C. and the Office of the Superintendent, Hawaii Volcanoes National Park, Hawaii.

"(b) In exercising his authority to acquire the real property referred to in subsection (a) by exchange, the Secretary may accept title thereto and in exchange therefor he may convey to the grantor of such real property title to any United States Government real property under his administrative jurisdiction, other than real property within or administered as a part of the National Park System, in the State of Hawaii which he determines is suitable for such exchange. The values of the properties exchanged shall be approximately equal, or if they are not approximately equal, the values shall be equalized by the payment of money to the grantor or to the Secretary as the circumstances require. In no circumstance shall an equalization payment exceed one fourth (25 percent) the appraised value of the real property referred to in subsection (a). Any money paid to the Secretary shall be deposited as miscellaneous receipts in the Treasury of the United States.

"(c) Real property owned by the State of Hawaii or any political subdivision thereof may be acquired only by donation or exchange.

"(d)(1) In order to facilitate the acquisition of the real property referred to in subsection (a) by exchange, notwithstanding any other provision of law, upon request of the Secretary, the Administrator of General Services shall transfer to the Secretary, without reimbursement, administrative jurisdiction over any excess or surplus United States Government real property in the State of Hawaii for purposes of such and exchange.

"(2) For the purposes of a land exchange with the State of Hawaii, the Secretary shall consult with the State of Hawaii in the process of identifying suitable exchange

lands belonging to the United States Government.

"(3) For the purposes of a land exchange with the State of Hawaii, real property owned by the United States Government and selected for use in a land exchange shall not be from among those lands ceded to the United States Government.

"(e) The real property acquired by the Secretary pursuant to this section shall be administered by the Secretary as part of Hawaii Volcanoes National Park, subject to the laws and regulations applicable to the Park.

"(f) There is hereby authorized to be appropriated up to $700,000 to carry out the purpose of this section.".

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

APPOINTMENT OF CONFEREES ON H.R. 3810—IMMIGRATION CONTROL AND LEGALIZATION AMENDMENTS ACT OF 1986

MOTION OFFERED BY MR. MAZZOLI

Mr. MAZZOLI. Mr. Speaker, pursuant to House Resolution 580, I move that the House insist on its amendments to the Senate bill, S. 1200, and request a conference with the Senate thereon.

The SPEAKER pro tempore. The question is on the motion to instruct offered by the gentleman from Kentucky [Mr. MAZZOLI].

The motion was agreed to.

MOTION OFFERED BY MR. LUNGREN

Mr. SENSENBRENNER. Mr. Speaker, I offer a motion to instruct.

Mr. LUNGREN. Mr. Speaker, I offer a motion to instruct.

The SPEAKER pro tempore. The gentleman from California [Mr. LUNGREN] is senior on the Judiciary Committee and is recognized.

The Clerk read as follows:

Mr. LUNGREN moves that the managers on the part of the House, at the conference on the disagreeing votes of the two Houses on the bill, S. 1200, be instructed to recede to the Senate from section 305 of the House bill entitled "Eligibility of Certain Agricultural workers for Legal Assistance" under which certain non-immigrant workers admitted or permitted to remain in the United States for agricultural labor or service are made eligible for legal assistance under the Legal Services Corporation Act.

The SPEAKER pro tempore. The gentleman from California [Mr. LUNGREN] is recognized for 1 hour.

Mr. LUNGREN. Mr. Speaker, in the immigration bill that we discussed at length yesterday and finally passed, there was one area that was not subject to discussion, that was not allowed to be debated, but yet is one that I think is controversial, and as a matter of fact is extemely important.

The House has spoken on this matter before, and that is the question of the coverage of authority given to Legal Services. Legal Services Corporation, which is a corporation which is funded by the Federal Government, is one which allows services to be given to those who are unable to afford legal services on their own.

We have had debates on this floor about the extent of Legal Services. We have had debates on this floor as to the amount of funds that ought to be committed to Legal Services.

Suffice it to say that those who support Legal Services would suggest that we have not at this point in time funded it to the level that they believe in, because they suggest that they cannot perform all the legal services that are to be performed for the people intended.

On the other hand, there has been a very strong argument on this floor before that Legal Services Corporation ought to do that which we wish it to do, to provide legal services for those who cannot afford to have them themselves. We have in the past made a number of restrictions with respect to the ambit of authority given to the Legal Services operators.

The gentleman from Florida [Mr. MCCOLLUM] has in the past carried legislation on this floor which has passed which has said, among other things, that Legal Services Corporation attorneys should do the work for American citizens and American nationals and not for H-2 workers.

Why do we say that? H-2 workers are workers who are in a true sense guestworkers. They are brought in here after a certification has been made by the person seeking those workers that they are needed because domestic workers cannot be found; that in bringing them here they will not undercut the prevailing wage; that they cannot undercut the housing requirements that are made, if in fact that is a condition of employment; that they cannot undercut the work conditions.

And we have said on this floor in our votes before that that ought not be a group of people given taxpayers' attorneys that are otherwise supposed to help American citizens and nationals who are here that are unable to pay themselves.

As a result, that has not been allowed. Yet in this bill what we have said is for the very first time H-2 workers will have Legal Services representation.

When H-2 workers are in the United States, those workers are protected by their own country. They are allowed to come here in agreement with the U.S. Government, and they are the people who are to protect them. They are represented by the respresentatives of their own Government, and there is no need at that point in time for Legal Services Corporation attorneys to be given that particular representation.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I am happy to yield to the gentleman from New York.

Mr. SCHUMER. Mr. Speaker, I would just like to clarify that the gentleman's motion to instruct applies to legal services for the H-2 workers in the bill, but not for legal services for the other agricultural workers.

Mr. LUNGREN. For those that are in section 305 of the House bill.

Mr. SCHUMER. Is that all?

Mr. LUNGREN. Eligibility of certain agricultural workers for legal assistance. And it is my understanding that the debate that went on within the circles outside of the Congress and inside the Congress before we came to the floor went to the question of whether H-2 workers would be provided legal services assistance.

Mr. SCHUMER. Correct.

Mr. LUNGREN. That is the point to which this instruction goes. That is the intention of the author.

Mr. SCHUMER. So it is not the intention of the author to affect legal services for the so-called Schumer workers. Is that accurate?

Mr. LUNGREN. That is correct. It is directed at the H-2 workers.

Mr. SCHUMER. I thank the gentleman.

Mr. LUNGREN. So, Mr. Speaker, it seems to me that what we ought to do is remain consistent here in the House of Representatives. I recall that just a week ago a Member of Congress from the other side of the aisle representing an area of North Carolina came to the floor and talked to us about the problem that small farmers, very small farmers, were having with the local Legal Services Corporation attorneys who had managed to get around the restriction that we had placed in the law in a previous Congress. In fact, he recited to us some letters received by some of those small farmers in his district in which the letters basically said, "If you don't give us so much money in settlement we will keep you tied up in court."

He referred to that I believe as a type of legal blackmail. That is his assessment of it, and it seems to me under those circumstances that we ought to have our conferees instructed on that important question.

Mr. DAUB. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I am happy to yield to the gentleman from Nebraska.

Mr. DAUB. Mr. Speaker, I want to follow up on the question asked a moment ago with respect to the Schumer amendments and the effect of the motion to instruct.

What about the category of those who may become eligible under the Schumer amendment but that in fact are not permanent residents for a period of time?

Mr. LUNGREN. It is my understanding that they would not be affected by this.

Mr. DAUB. So they would be able to get legal services even though they do not even have their green card, under certain circumstances?

Mr. LUNGREN. They would be able to get legal services at the time they received their green card. I will have to confess to the gentleman——

Mr. DAUB. At the time they get their green card.

Mr. LUNGREN. I will have to confess to the gentleman that I am uncertain of the point with respect to the temporary status period.

□ 1440

Mr. DAUB. So it would be my hope that we do not, by the colloquy we have just had for the record on your motion, which I support, remove from consideration in conference the refinement of the issue whether legal services ought to be available until that point that one becomes of legal status in this country.

Mr. LUNGREN. It is not my intention at this point in time to make any decision with respect to this body on that question. This goes to a specific area of the H-2 agreements that were reached, a dispute that was raised as to whether some people signed off on it or did not sign off on it. I was certainly not a party to that. The gentleman from Florida [Mr. MCCOLLUM] whose amendment has been adopted into law in previous Congresses was not a party to any such agreement, and we think that since that has been presented on the floor, and the Congress has made a decision on that, that we ought to indicate to the conferees that we hope that they will remain consistent with respect to the decision made by this House in a previous year.

Mr. DAUB. If the gentleman will continue to yield, I think that the gentleman from California [Mr. LUNGREN] makes a very good point, I must say to my colleagues, and that is that we ought not to confuse even the limited funding now some argue is given to Legal Services with a new sort of category, and dilute those funds, and be unable to manage the system under current circumstances, and as to the question of whether or not those who have not yet achieved permanent residence under any portion of the bill we are sending to conference would get the services of Legal Aid. That, as I understand it from the gentleman, remains an open question for conference.

Mr. LUNGREN. That is my understanding.

Mr. DAUB. I thank the gentleman.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I am happy to yield to the gentleman from Kentucky, for purposes of debate only.

Mr. MAZZOLI. I thank the gentleman for yielding.

Let me just shift focus for just a moment away from H-2, whether it is for legal services for H-2 workers or legal services for temporary workers to permanent residents, and let me shift to the task before the Congress.

We hope we might get started on a conference perhaps later on this week or sometime next week and maybe report back to the House the completed bill on the very vexing and nettlesome topic of immigration reform. I would just hope that the body would not bind the hands of the conference members, the conferees, despite their feeling on legal services and whether it should be extended to H-2 workers or not.

The question is the conference committee has a very difficult task ahead of it, and if it goes into conference with one or two hands tied behind its collective back, then of course the opportunity of getting an agreement, which we are all looking for, in the short time left in the 99th Congress becomes all the more clouded. I would just implore the men and women of the House just to understand your conferees go into that conference aware of the House position on issues, both by way of votes and by way of informal agreements and conference calls and conversations. We are not unaware of the problems that some Members have with legal services. Let us have the opportunity, the freedom, to go into the conference and make some agreements. You always have an opportunity to vote up or down on what we eventually conclude.

So rather than tie us going in, let us have the freedom to make our agreements, in your name, and then report to you a completed product. At that time then you will have an opportunity to have a referendum on whether we have done our job correctly or incorrectly

So with the greatest respect to my friend from California, with whom I have worked in harness and in tandem for a long time in seeking an immigration bill, let us just urge the House not to agree to this instruction. Let us go in uninstructed, unimpeded, free to make the decisions we have to make and report a bill back to you in due course.

Mr. LUNGREN. I thank the gentleman for his comments, and if I thought we were going into conference completely unimpeded with total freedom and flexibility to deal with this issue, I would not bring it up. But I fear that may not be the case, and that is a deep concern that I have. To be told at some point in time that some people understood a certain thing was to be the case, and then to suggest to those of us who have been involved in this issue before, who have prevailed on this issue before on the floor and all the way to legislation that somehow we may be heard, but we may not be effective, and may have no influence is something very difficult for us to accept.

The House has not had an opportunity to speak on this issue in the context of the bill. Some of us thought it should. We were unsuccessful in that, and to be told now that we ought to give conferees a full freedom, which is what I would like; which is what I would like, if I could have it stipulated on the record that there is going to be full freedom on this issue, then I will be happy to withdraw my request, but I doubt we could get that commitment.

Mr. BERMAN. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I am happy to yield to the gentleman from California, for purposes of debate only.

Mr. BERMAN. Mr. Speaker, I thank the gentleman for yielding. I was going to ask the gentleman from California a question.

There were several other provisions of the legislation that we adopted last night that were not subject to an amendment under the rule under which we considered the bill. Is the gentleman's motion to instruct directed to any of those, or has he picked out one particular issue that he is focusing on here and is just going to leave it at that, to achieve that particular purpose?

Mr. LUNGREN. I knew if the gentleman sat here long enough and heard the reading of the instruction he would understand exactly what I was doing, and the gentleman has very correctly described what I am doing. Yes, I have picked one of those out.

Does the gentleman wish to speak further?

Mr. BERMAN. If the gentleman will continue to yield, yes.

Mr. LUNGREN. I am happy to yield to the gentleman from Califorina, for purposes of debate only.

Mr. BERMAN. I thank the gentleman for yielding. I do not consider this motion worth too much, although the gentleman who made it has a great deal of respect, in my opinion, and deserves it for the work he has done on this whole legislative effort.

But the motion seeks to undo one part of an elaborate negotiation that took place over many days last spring with respect to our current law on H-2. This is a program where the U.S.

Government sanctions bringing in foreign guest workers to harvest crops in certain parts of this country, particularly at this time in the Eastern United States, but in a program that has been utilized more and more in other parts of the country as well. Under that agreement a number of changes were made in the law, including changes sought passionately and through the immigration bill in both the other body and in the House version as introduced not only in this year but in the last session of Congress as well, changes to streamline the program, changes to bring in the Secretary of Agriculture, changes to alter different aspects of the protections now contained in regulations to protect those workers.

Part and parcel of that agreement was an understanding that the H-2 workers would be entitled if they otherwise qualified, and only if they otherwise qualified, to legal services representation, because without that, the protections contained for those workers, the housing protections, the domestic, the transportation of protections, the piecework rate and adverse impact wage rates protections become utterly meaningless. The fact is the history of the abuses in that H-2 program, which has been documented time and time again, cannot be corrected without effective representation, as you could easily contemplate guest workers coming here for a short period of time, hoping to come back again, anxious to pick up a wage considerably higher than the wage they might be making in their own country, have no individual ability and no effective collective ability to enforce the protections that the U.S. law is supposed to guarantee them. So from that point of view, with all of the different tradeoffs made in this compromise, legal services were agreed to, and soon after the passage of that bill from the Judiciary Committee the H-2 growers' representatives went back to some of their coalition members and apparently got some heat for making this commitment and now have turned everything on its head, tried to argue this is no longer a part of the agreement, and in a quite unscrupulous fashion this group of people is now urging people who are not party to the negotiations, and I want to make it very clear the gentleman from California was not party to that negotiation, there is nothing involved in the conversations that I have had with him that would in any way bind him to the position of this bill, but that group, in what I consider to be unscrupulous fashion, is now seeking to undo a position that they agree to in detailed negotiations and for which they got numerous changes in existing law; changes they have been seeking for years and years.

□ 1250

I again remind everyone that this is a nonbinding instruction, but urge that if you consider the merits of the very specific proposal, that the instruction be defeated.

Mr. LUNGREN. Mr. Speaker, I yield to the gentleman from New York [Mr. SOLOMON].

PERSONAL EXPLANATION

Mr. SOLOMON. Mr. Speaker, I was called back to my district last night unavoidably, and I missed the last several votes, including final passage of the immigration bill.

I just want to say that in my district, which stretches from West Point almost to Lake Placid along the Hudson River, we have many ethnic groups, Italian, Irish and many others, who have waited patiently all their lives for their families to come over and I for one oppose any kind of amendments and any kind of legislation that would in any way give amnesty to or legalize illegal aliens in this country.

Had I been present, I would have voted "no" on final passage of the bill.

Mr. LUNGREN. Mr. Speaker, I yield to the gentleman from Nebraska [Mr. DAUB].

Mr. DAUB. Mr. Speaker, I would like to emphasize what we are about to do here. If you vote for the gentleman's motion to instruct, you are saying that in conference we want to insist on not allowing legal aid, tax-paid legal services, for H-2 guest-workers.

No other country takes care of our guest-workers' legal expense from their treasury, and it does not seem to me appropriate that we take care of guest-workers' legal expenses when they are here. So I hope that Members of Congress will support the gentleman's motion.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I yield to the gentleman.

Mr. SCHUMER. Mr. Speaker, I appreciate the gentleman yielding to me.

Mr. Speaker, I rise in opposition to the motion to instruct. I rise on two grounds. One is that as the gentleman, the chairman of the subcommittee and the gentleman from California [Mr. BERMAN] has said, that this conference is going to be a difficult conference. There are lots of issues outstanding; many different balances, and as we all know with immigration: "It ain't over 'til it's over; and it ain't over yet."

So we do have lots of problems, and anything that does tie the hands of the conferees, although it is perfectly legitimate for the gentleman from California [Mr. LUNGREN] to bring up this resolution; but anything that ties the conferees' hands just drops things, in my opinion, a notch in terms of the chances of getting a bill.

I was impressed last night—I think one could not fail to get impressed—with the overwhelming desire of this House to pass real and true and humane immigration reform.

The second point that I would make is substantive. Legal services—we dispute many different issues, and no one side has a higher moral ground than the other on any of them, in my opinion; people have different views.

The issue of legal services really means something very dear and near, at least to me. That is that you can give people all the rights you want, but if they have no way to enforce those rights, those rights are meaningless.

So we can write into the law that you must do this and must do that; but we all know that the INS is terribly overburdened; we all know that the Department of Agriculture, the Department of Labor are overburdened; they have been subject to cuts recently.

If you do not have some kind of way for the migrant laborer to enforce the law, then they are useless.

So what I would say to the good gentleman and gentlewomen in this Chamber is, if we are not going to have legal services, why kid ourselves? Why not just abolish all the laws that are supposed to protect these folk; because if you do not have legal services, the laws are unenforceable and useless.

Mr. LUNGREN. Mr. Speaker, I thank the gentleman for his comments. I might just say, though, that these other countries, from whence these people come, represent these folks. They get the representation of their own government. They can make complaints to their own government; their own government can represent them, can pay for the attorneys involved.

That is the way it has been in the past; that is the way we would assume it would continue in the future. We have made sure, in the H-2 changes that we have made, that it is a better working program from both the standpoint of the worker and the employer.

So since we have put in statute more precise language, which used to be subject merely to regulation, if they have a complaint it is easier for their government to represent them with respect to those specific complaints.

I again ask the question of this House: Do you think that we have an abundance of legal services available to the poor people of America? If you do, and you think we have extra time for them to work and extra money for them to use, representing people because they are not representing enough now, then I guess you would vote down my motion to instruct.

Since they have this time they might as well do it for people who are

not citizens of this country who are here as guest-workers, who are here as a result of contractual agreements our country has with their country.

Evidently we believe that their countries do not have the resources to defend their own people; and we must use taxpayers' dollars to do that.

Mr. Speaker, I think that Members should be able to vote on that.

The other thing I would say is, I keep hearing "Don't tie us up in conference." I believe that. If the gentleman from New York will take the microphone at this time and tell me that we are not tied up on this issue going into conference, and that he will make sure that we visit it anew in conference, and that it is not predestined where we are going in conference, I will be happy to say this motion to instruct is frivolous.

Mr. BERMAN. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I yield to the gentleman from California. I asked the gentleman from New York, but I will be happy to yield to the gentleman from California [Mr. BERMAN].

Mr. BERMAN. Mr. Speaker, is the gentleman indicating that if he is assured that in conference this is not an issue in the sense of the issues we discussed I guess it was the day before yesterday on the Schumer proposal, where Senators and Congressmen got together and said, "We agree on a package," and that makes that issue now predetermined. If the gentleman is asking, "Is this issue not in that category?" he would indicate that his own motion is frivolous and withdraw it?

Mr. LUNGREN. Mr. Speaker, I appreciate the gentleman's comments. Since he has brought up that conversation we had, I guess I feel free to mention that conversation and others we have had in which you said we are free to consider it as long as you were assured that you have enough votes in the conference to prevail.

Now, that is not what I refer to as freedom. I understand freedom as meaning, "We will actually go in there and we will work on it." When I am told that I am allowed to have something brought up, as long as I am assured I am going to lose by the positions taken by the people on the conference, that bothers me a little bit; and I think the gentleman can understand, being as concerned about minority rights as I know he is in general, I know he would be concerned about minority rights in particular in this House.

Since I find myself in the minority party and I recognize being in conference, it is not apt to be selected to make sure that my position prevails. I just want to make sure it is not selected that my position has to absolutely lose when my position is the position this House has carried in a full and open date and free vote.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I yield to the gentleman.

Mr. SCHUMER. Mr. Speaker, I would say to the gentleman that there is a set of issues that as the gentleman from California knows, and it is not a secret any more, that every person at least in the room that we negotiated in said, "We agree this issue is settled."

I do not believe, it is not my recollection of the meeting and I am sure it is not either gentleman from California's, that legal services for H-2 is among them. That if someone were to bring it up we would say, "Hey, we've decided that. We're not going back over old ground."

By the same token, it is perfectly within the gentleman from California's right to go to those who appoint the conferees and look and see what kinds of conferees and what their views are on certain issues, and I assure the gentleman, even though I am not privy to the discussions that, knowing how this place operates, that the gentleman from New York [Mr. FISH] and the chairman of the committee, Mr. RODINO, and the Senator from Wyoming [Mr. SIMPSON,] and the ranking minority member of the subcommittee, Mr. METZENBAUM, are all choosing conferees, looking at how the votes were going to come out. It would be sort of foolhardy to choose conferees who would not uphold the positions of the Houses or who would not be flexible enough to come to an agreement.

Mr. LUNGREN. I appreciate that. All I am trying to do is find out what the will of the House is so that we can be better informed; some would say instructed; I guess I would like to have a motion to inform conferees how the Members of the House feel on this, because I suspect when we are in conference, I will be reminded that motions to instruct are not binding.

Recognizing they are not binding, I wonder why Members on that side would not allow us to have the Members vote. It is a very, very simple question: Do you believe the foreign workers who are here under a contractual agreement between the United States and their country, ought to get taxpayers attorneys so they can pursue lawsuits against American citizen employers.

□ 1300

That is really the question here. They do have the ability at the present time to be represented by their own government or by legal representation hired by their own government. That is true now; it will continue to be true with one major exception. We have better defined the obligations and protections for the workers here and they have a better opportunity now to represent them than they did before. For that I thank the gentleman from California.

Mr. MORRISON of Connecticut. Mr. Speaker, will the gentleman yield?

Mr. LUNGREN. I yield to the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. I thank the gentleman for yielding.

I think it is important if the gentleman is not going to find his own motion frivolous, that we get on the record a little bit of why that it is important that these H-2 workers have this representation. The first thing that is most important that the gentleman's statement overlooks is that the way that the current law is written with respect to legal services, it is not only Federal funds that cannot be used to represent H-2 workers, but legal services programs with private support and with private funds that seek to represent these workers cannot use those funds under the current law.

Mr. LUNGREN. If I may reclaim my time, so what the gentleman is saying is that under current law as passed by a previous Congress, legal services are not afforded H-2 workers.

Mr. MORRISON of Connecticut. That is absolutely correct; there is no question about it.

Mr. LUNGREN. This would change present law.

Mr. MORRISON of Connecticut. There is no question about it.

Mr. LUNGREN. Providing a benefit they do not receive now in taxpayer-supported attorneys.

Mr. MORRISON of Connecticut. If the gentleman would yield further, I think the gentleman is handly underscoring a point that needs underscoring. We would not be here discussing it nor would it be an important amendment to the bill if it were not a change of current law. It is a change of current law that has not always been the case. H-2 workers at an earlier time did receive representation and should receive representation.

I think the gentleman from California [Mr. BERMAN] has been quite eloquent on the point that legal rights without legal representations are meaningless. The gentleman from California [Mr. LUNGREN] has underscored the ability of foreign governments to advocate on behalf of H-2 workers for their rights. The problem with that, I think, can be seen analogously in our own context. People who are accused of discrimination or have problems with discrimination, workers in this country feel they are being discriminated against.

Both State and Federal Government in this country have government agencies specifically designated to look into those matters. The Equal Employment Opportunity Commission on the Fed-

eral level. Yet no one here has thought that that was adequate in order to have those individual rights vindicated. We have provided for private right of action so that people can be represented and use our courts in order to enforce their rights. To say that some foreign government could do a better job with these foreign workers than can be done with our own enforcement agencies on behalf of our citizens really is not believable.

We have a serious problem of rights that are given U.S. law to these people who are here for the convenience of the U.S. economy. For those people to be denied a realistic way to enforce their rights, I think, is a great mistake.

And I emphasize that it is not only the use of Federal funds but private funds used by legal services programs that is forbidden under current law. It would seem to me all ought to want to make sure that these H-2 rules are obeyed and not violated, and to have legal services available is the best way to do that.

Mr. LUNGREN. I reclaim my time so that I may ask the gentleman a question: Do you believe legal services operations are funded to the extent necessary to take care of the poor people in America who are American citizens?

Mr. MORRISON of Connecticut. The gentleman knows the answer to that question, and the answer is quite clear; of course they are not adequately funded.

Mr. LUNGREN. I appreciate the answer of the gentleman.

Mr. MORRISON of Connecticut. Let me just continue to answer the question of the gentleman.

We have delegated at the Federal level the priority decisionmaking to local boards of directors and local bar associations. What we are doing in this change in the law, in the bill as we passed it last night, is to allow those boards of directors in setting priorities for their limited resources including privately raised funds and State funds as well as Federal funds, to choose, if they believe it is a priority, to choose to represent H-2 workers. That local determination will govern, not a national determination.

Mr. LUNGREN. OK. I will take back my time to suggest to my colleagues that yesterday we had a vote on the question of subsidized housing, taxpayer-paid housing. Most people recognize we do not have enough subsidized housing.

The question was, Should a preference be given to American citizens if you do not have all the housing that is necessary? This House said loud and clear, "Yes, you ought to give a preference." What we are saying here is that on taxpayer supported legal services we intend that to go to American citizens, not to foreign workers who are here on a contractual agreement between their country and the United States who have rights and they can have those rights presented in court by attorneys paid for by themselves or by their governments. And it should not be taxpayer-paid money to support attorneys to sue Americans by foreign workers who are here under a contractual agreement. That is the question. I think we have the opportunity to present it.

Mr. LUNGREN. Mr. Speaker, I move the previous question on the motion.

The previous question was ordered.

The SPEAKER pro tempore (Mr. GRAY of Illinois). The question is on the motion to instruct offered by the gentleman from California [Mr. LUNGREN].

The motion was agreed to.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Without objection, the Chair appoints the following conferees:

From the Committee on the Judiciary, for consideration of the entire Senate bill and House amendment: Messrs. RODINO, KASTENMEIER, SEIBERLING, MAZZOLI, SYNAR, FRANK, SCHUMER, SMITH of Florida, BERMAN, BOUCHER, BRYANT, FISH, MOORHEAD, LUNGREN, MCCOLLUM, SHAW, and DEWINE.

From the Committee on Agriculture, solely for consideration of sections 121-125. 202(h), 203, and 304 of the Senate bill and sections 116, 121, 204, 301-305, and 701 of the House amendment: Messrs. PANETTA, HUCKABY, and MORRISON of Washington.

From the Committee on Education and Labor, solely for consideration of section 101(d), 121-25, 202(h), 203, 304, 402, and 604 of the Senate bill and sections 101, 121, 201(h), 204, 301-305, 316(d), 402, 403, and 701 of the House amendment: Messrs. HAWKINS, FORD of Michigan, and JEFFORDS.

From the Committee on Energy and Commerce, solely for consideration of sections 125(b), 202(h), 203, 304 and 404 of the Senate bill and sections 121, 201(d), 201(h), 204, 404, and that portion of section 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Messrs. DINGELL, WAXMAN, and DANNEMEYER.

From the Committee on Ways and Means solely for the consideration of sections 121(a), 121(g), 121(h), 124(c), 125(b), 202(h), 203, 304, 404, and 602 of the Senate bill and sections 121, 201(h), 204, 302(b), 402, 404, 407, 601, 701, and that portion of 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Messrs. FORD of Tennessee, PEASE, and DAUB.

From the Committee on Rules, solely for the consideration of section 604(b) of the Senate bill and section 811 of the House amendment, and modifications committed to conference: Mr. BEILENSON and Mr. TAYLOR.

As an additional conferee, solely for consideration of title VIII of the House amendment, and modifications committed to conference: Mr. MOAKLEY.

There was no objection.

EXPRESSING CONGRESSIONAL SUPPORT FOR AWARDING OF ELLIS ISLAND MEDAL OF HONOR

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the concurrent resolution (H. Con. Res. 381) expressing the support of the Congress for the awarding of the Ellis Island Medal of Honor as a symbol of the Statue of Liberty Centennial Celebration, and ask for its immediate consideration.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. GILMAN. Mr. Speaker, reserving the right to object, I do not object but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation I yield to the gentleman from New York [Mr. BIAGGI] who is the chief sponsor of House Concurrent Resolution 381.

Mr. BIAGGI. I thank the gentleman.

Mr. Speaker, I want to thank the chairman of the committee, the gentleman from New York, Mr. GARCIA, and the ranking member, the gentleman from New York, Mr. GILMAN, for their expeditious treatment of this legislation.

Mr. Speaker, House Concurrent Resolution 381 expresses the support of Congress for the awarding of the Ellis Island Medal of Honor as a symbol of the Statue of Liberty Centennial Celebration scheduled for the weekend of October 27.

The Ellis Island Medal of Honor is designed to recognize and honor the contributions made to our Nation by all of our various heritage groups. Approximately 80 medals will be awarded on the night of October 27 in New York to individuals who have "lived a life dedicated to the American way while preserving the values and tenets of a particular heritage group."

The Ellis Island Medal of Honor is to be awarded by the Statue of Liberty Ellis Island Foundation as well as the New York Statue of Liberty Centennial Commission in cooperation with the National Ethnic Coalition of Organizations. To that end I wish to pay a special tribute to Statue of Liberty Ellis Island Foundation President William May and William Fugazy, honorary chairman of NECO. These individuals worked long and hard to develop the

idea and reality of these medals which will be of such value to those fortunate enough to receive them.

It should be noted that these medals were in part necessitated by an unfortunate procedure which took place during the Fourth of July celebration at the Statue in New York. During those festivities, 12 Liberty Medals were awarded. The individuals selected, while all meritorious, represented only about 20 percent of our Nation's ethnic groups. This despite the intent of these medals to pay tribute to the contribution that ethnic Americans have made to our Nation over the past 100 years.

The Ellis Island Medal of Honor, we trust, will help serve to correct that omission and provide an equally appropriate honor to a more representative group of honorees.

It is critical to remember that we are a nation whose people have strong ties to many homelands. It is the contributions of America's heritage groups—all of them collectively, that has made this Nation strong. That is the intent behind the Ellis Island Medal of Honor—to pay tribute to all.

I urge my colleagues to support this request for passage of House Concurrent Resolution 381.

Mr. GILMAN. Mr. Speaker, further reserving the right to object under my reservation, I am pleased to rise in strong support of House Concurrent Resolution 381, endorsing the awarding of the Ellis Island Medals of Honor. I want to take this opportunity to thank the gentleman from New York [Mr. BIAGGI], for introducing this measure, and for his dedication and leadership in the fight for equal rights for the minority citizens in Northern Ireland. Mr. BIAGGI is renowned for his dedicated work as chairman of the Congressional Ad Hoc Committee on Irish Affairs, in focusing the attention of the Congress on the vital role our Nation can fulfill in facilitating a just and lasting peace in Northern Ireland.

On October 28, 1986, in honor of the 100th anniversary of the Statue of Liberty's actual dedication, there will be an official rededication ceremony in New York. On that day, the Ellis Island Medal of Honor will be awarded to individuals who exemplify the ideal of living a life dedicated to the American way while preserving the values and tenets of their own heritage.

The Ellis Island Medal of Honor will be awarded to those individuals who have made special contributions to the reinforcement of the bonds between a heritage group and the people of its land of origin. These individuals will be further distinguished by their service to humanity in their chosen field, profession, or occupation.

As my colleagues may recall, earlier this summer, when the winners of the Statue of Liberty-Ellis Island Foundation's Medals of Liberty were announced, the group of 12 did not include members of many of the country's largest ethnic groups. At the October 28, ceremony in New York, approximately 80 medals will be awarded, with at least one medal being awarded to a member of each heritage grouping that had a population of 200,000 or more in the 1980 census.

I would like to commend the Statue of Liberty-Ellis Island Foundation, the New York Statue of Liberty Centennial Commission, and the National Ethnic Coalition of the Organizations for their efforts in establishing the Ellis Island Medal of Honor.

Accordingly, I urge my colleagues to join me in support of this resolution which endorses these very special awards.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection?

The Clerk read the concurrent resolution as follows:

H. CON. RES. 381

Whereas on October 28, 1986, in honor of the actual dedication of the Statue of Liberty, there will be an official rededication ceremony in New York;

Whereas on that occasion the Ellis Island Medal of Honor, to be awarded by the Statue of Liberty Ellis Island Foundation and the New York Statue of Liberty Centennial Commission in cooperation with the National Ethnic Coalition of Organizations, will be presented to a group of distinguished American citizens;

Whereas the Ellis Island Medal of Honor will be awarded to individuals who exemplify the ideal of living a life dedicated to the American way while preserving the values and tenets of a particular heritage group;

Whereas the Medal will be awarded to individuals who have made special contributions to the reinforcement of the bonds between a heritage group and the people of its land of origin; and

Whereas the Medal will be awarded to individuals for distinguished service to humanity in any field, profession, or occupation: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress of the United States endorses and supports the awarding of the Ellis Island Medal of Honor, on October 28, 1986, as an appropriate symbol of the Statue of Liberty Centennial Celebration.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

SEASONAL AGRICULTURAL WORKER PROGRAM

(Mr. WEAVER asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. WEAVER. Mr. Speaker, I have requested this time in order to engage in a colloquy with the gentleman from New York [Mr. SCHUMER].

Mr. Speaker, I would like to clarify the purpose of his Seasonal Agricultural Worker Program. As I understand the program, it is intended to benefit growers of perishable agricultural commodities. Section 302 of this bill defines "seasonal agricultural services" as "field work related to * * * fruits and vegetables of every kind and other perishable commodities."

As I interpret this definition, it would not include trees grown for lumber as a perishable commodity, nor would it cover forestry services such as tree planting, tree thinning, and related forestry labor. Is that interpretation correct?

I yield to the gentleman from New York.

Mr. SCHUMER. The gentleman is correct. Forest practices and forestry labor are in no way covered by the Seasonal Agricultural Worker Program or the definition of "seasonal agricultural services."

Mr. WEAVER. If the gentleman would yield further: As the gentleman knows, trees grown for lumber are not considered an agricultural commodity under longstanding interpretations of the Fair Labor Standards Act. While forestry labor is sometimes included in the definition of agriculture, this has been done only in broad remedial statutes like the Migrant and Seasonal Agriculture Worker Protection Act. The gentleman's program, as I understand it, is not remedial in nature and therefore including forestry labor or trees grown for lumber within its provisions would be inappropriate. Is that correct?

Mr. SCHUMER. The gentleman is correct. This program does not cover trees grown for lumber or forestry labor, nor is it intended to cover them.

Mr. WEAVER. I thank the gentleman for clarifying the scope of his Seasonal Agricultural Worker Program.

□ 1315

NATIONAL WOMEN VETERANS RECOGNITION WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 311) designating the week beginning November 9, 1986, as "National Women Veterans Recognition Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 311

Whereas there are more than one million one hundred and eighty thousand women veterans in this country, representing 4.2 per centum of the total veteran population;

Whereas the number and proportion of women veterans will continue to grow as the number and proportion of women serving in the Armed Forces continue to increase;

Whereas women veterans through honorable military service often involving hardship and danger have contributed greatly to our national security;

Whereas the contributions and sacrifices of women veterans on behalf of this Nation deserve greater public recognition and appreciation;

Whereas the special needs of women veterans, especially in the area of health care, have often been overlooked or inadequately addressed by the Federal Government;

Whereas this lack of attention to the special needs of women veterans has discouraged or prevented women veterans from taking full advantage of the benefits and services to which they are entitled as veterans of the United States Armed Forces; and

Whereas recognition of women veterans by the Congress and the President through enactment of legislation declaring the week beginning on November 9, 1986, as "National Women Veterans Recognition Week" would serve to create greater public awareness and recognition of the contributions of women veterans, to express the Nation's appreciation for their service, to inspire more responsive care and services for women veterans and to continue and reinforce important gains made in this regard in the last two years as a result of the designation of the first and second National Women Veterans Recognition Week in November of 1984 and 1985: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning on November 9, 1986, is designated "National Women Veterans Recognition Week". The President is requested to issue a proclamation calling upon all citizens, community leaders, interested organizations, and Government officials to observe that week with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

DISTRICT OF COLUMBIA JUDICIAL EFFICIENCY AND IMPROVEMENT ACT OF 1985

Mr. DYMALLY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3578) to provide permanent authority for hearing commissioners in the District of Columbia courts, to modify certain procedures of the District of Columbia Judicial Nomination Commission and the District of Columbia Commission on Judicial Disabilities and Tenure, and for other purposes, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments.

(For text of the Senate amendments, see page 28588 of the CONGRESSIONAL RECORD of October 3, 1986.)

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. WALKER. Mr. Speaker, reserving the right to object, I do so just to ask the gentleman if this piece of legislation has been cleared by the minority leader.

Mr. DYMALLY. Mr. Speaker, if the gentleman will yield, it has been cleared by the gentleman from Virginia [Mr. BLILEY] who is in support of it, and the staff will so indicate.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, each piece of legislation coming out here right now is supposed to have clearance of the minority leader, the gentleman from Illinois [Mr. MICHEL], his personal clearance. Has this been personally cleared by Mr. MICHEL?

Mr. DYMALLY. I have been instructed that it has been cleared.

Mr. WALKER. Mr. Speaker, under my reservation of objection, I yield to the gentleman from California [Mr. DYMALLY] to explain H.R. 3578.

Mr. DYMALLY. Mr. Speaker, I thank my distinguished colleague for yielding.

Mr. Speaker, this bill, H.R. 3578, passed the House on October 28, 1985. It is the culmination of a great deal of scrutiny and give and take by the local courts, the city council, the bar association and of course, the respective committees of this Congress, which reported this legislation.

H.R. 3578, the District of Columbia Judicial Efficiency Act of 1985, improves the administrative operations of the local courts. It provides permanent authority for hearing commissioners in the District of Columbia Superior Court and establishes procedures for their selection and discipline. This change would bring the District law into compliance with the requirements of the Child Support Enforcement Amendments of 1984 (Public Law 98-378).

It also reorganizes the court's audit responsibilities, authorizes the District of Columbia appellate court to consider certified questions of law from State courts of appeal about District of Columbia law, amends procedures for judicial nomination and tenure review and eliminates the chief judge of the U.S. Court of Appeals for the District of Columbia as the presiding officer of the panel which selects the public defenders service board of trustees. It would make the chief judge of the District of Columbia Court of Appeals the presiding officer.

The Senate amendments make several changes. It deletes section 2 of H.R. 3578—which would have required the U.S. attorney for the District of Columbia to make an annual report regarding prosecutions in the District. The Senate found this provision unnecessary since a statistical report was already being made on the same subject by that office.

Second, it requires the chief judge of the superior court and the board of judges to monitor the conduct and exercise discipline of hearing commissioners. It also requires the chief judge of the superior court to conduct a study of the revised hearing commissioner system and report its findings to the appropriate House and Senate committees within 1 year of this bill's enactment.

The Senate amendments would also limit a retired judge to a 1-year period after retirement in order to request to be appointed as a senior judge from the District of Columbia Commission on Judicial Disabilities and Tenure.

The Senate bill would require retired judges serving as senior judges to be reviewed every 4 years regarding his or her suitability to continue in that capacity. Judges 74 and over would have to be reviewed every 2 years.

Currently retired judges are grandfathered for 180 days from the date of this enactment.

The Senate amendment guarantees that senior judges are compensated at the same daily rate as active judges. Thus, senior judges will be compensated at the same rate for the same amount of work.

I would add, the Senate amended its reported committee bill to remove the chief judge of the Court of Appeals for the District of Columbia Circuit from the panel which selects the board of trustees of the public defender services, and to designate the chief judge of the District of Columbia Court of Appeals as the presiding officer of that panel.

This is consistent with the House passed bill. While substantive, this change in no way diminishes the independence of the public defender service. This amendment is consistent with home rule in the District and as the Senate vote suggests, the chief judge of the local court of appeals is the more appropriate presiding judge of that panel. His or her dependence in that role is in no way compromised merely because he is chief judge of the District of Columbia Court of Appeals

as opposed to the U.S. Court of Appeals, for the District of Columbia.

Mr. Speaker, this bill is the product of a great deal of legislative time, resources and scrutiny. Undoubtedly, it will greatly improve judicial efficiency in District of Columbia. I also take this opportunity to commend the gentleman from Virginia, who contributed a great deal to this legislation. Thus, the recommendation on this side of the aisle is that we accept and concur in the Senate amendments. I urge my colleagues to join me in supporting this bill.

Mr. WALKER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DYMALLY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

NATIONAL INSTITUTES OF HEALTH CENTENNIAL YEAR

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 395) to designate the period October 1, 1986, through September 30, 1987, as "National Institutes of Health Centennial Year," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 395

Whereas the National Institutes of Health over the past 100 years, has grown from a one-room laboratory of hygiene within the Stapleton Marine Hospital on Staten Island, New York, to become one of the largest and most respected biomedical research centers in the world;

Whereas the National Institutes of Health, as an agency of the Department of Health and Human Services, is the Nation's flagship in mankind's continuing battle to conquer disease;

Whereas the National Institutes of Health continuously contributes to the discovery of new knowledge that leads to longer lives and better health for all people;

Whereas the National Institutes of Health provides national leadership in a critical partnership of the Government, academic, and private sectors;

Whereas the National Institutes of Health conducts research in its own laboratories, supports the research of non-Federal scientists in universities, medical schools, hospitals, and other public, private, and voluntary research institutions throughout this country and abroad;

Whereas the National Institutes of Health fosters training and career development of future research scientists, sponsors the enhancement of research resources, and promotes improvements in biomedical communications;

Whereas the National Institutes of Health facilitates the assembly of United States and foreign biomedical scientists and promotes the exchange of scientists and scientific information between the United States and other countries;

Whereas the National Institutes of Health supported the work of 60 Nobel Prize winners before their selection as laureates;

Whereas the National Institutes of Health has contributed to the great strides of the past 100 years in the control and virtual worldwide elimination of epidemic diseases such as cholera, smallpox, yellow fever, and bubonic plague, and the prevention in this country of childhood diseases such as diphtheria, polio, tetanus, and pertussis;

Whereas the National Institutes of Health has stimulated biomedical research that has played a role in the 70-percent reduction in the death rate in the United States since 1900;

Whereas the National Institutes of Health has pioneered new methods for the detection and treatment of diseases and has promoted their widespread dissemination into medical practice;

Whereas grantees and scientists of the National Institutes of Health work at the forefront of biomedical technologies that open up new opportunities in medical research;

Whereas the next 100 years will undoubtedly see the National Institutes of Health lead the world in ways of promoting health and preventing disease;

Whereas the Congress of the United States has consistently supported the National Institutes of Health to maintain America's preeminence in medical research; and

Whereas the Congress of the United States looks to the National Institutes of Health for progress in overcoming the diseases that afflict the people of this country: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the period of October 1, 1986, through September 30, 1987, is designated as "National Institutes of Health Centennial Year", and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such year with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL CORRECTIONAL OFFICERS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 594) to designate the week beginning May 4, 1986, as "National Correctional Officers Week," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 594

Whereas American correctional officers who work in our jails and prisons are currently responsible for the containment and control of over six hundred thousand prisoners;

Whereas correctional officers must protect inmates from violence while encouraging them to develop skills and attitudes that can help them become productive members of society following their release;

Whereas the morale of correctional officers is affected by many factors, and the public perception of the role of correctional officers is more often based upon dramatization rather than factual review;

Whereas good job performance requires correctional officers to absorb the adverse attitudes present in confinement while maintaining themselves as professionals in order to have their actions appreciated and accepted by the public at large;

Whereas correctional officers had been similarly honored by many States and localities in 1984 and 1985;

Whereas correctional officers had been similarly honored by a joint resolution of the Senate and House of Representatives of the United States in Congress assembled in 1984 and 1985; and

Whereas the attitude and morale of correctional officers is a matter worthy of serious congressional attention: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States in Congress assembled, That the week beginning May 4, 1986 hereby is designated "National Correctional Officers Week" and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

AMENDMENT OFFERED BY MR. GARCIA

The Clerk read as follows:

Amendment offered by Mr. GARCIA: Page 2, line 3, strike "May 4, 1986" and insert "May 3, 1987".

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from New York [Mr. GARCIA].

The amendment was agreed to.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed.

TITLE AMENDMENT OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Speaker, I offer an amendment to the title.

The Clerk read as follows:

Title amendment offered by Mr. GARCIA: Amend the title to read as follows: "A joint resolution to designate the week beginning May 3, 1987 as 'National Correctional Officers Week'."

The title amendment was agreed to.

A motion to reconsider was laid on the table.

NATIONAL PEARL HARBOR REMEMBRANCE DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 322) to designate December 7, 1986, as "National Pearl Harbor Remembrance Day" on the occasion of the anniversary of the attack on Pearl Harbor, and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but I would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation of objection, I yield to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I rise in strong support of House Joint Resolution 524, designating December 7, 1986, as "National Pearl Harbor Remembrance Day" and I take this opportunity to thank the distinguished gentleman from Minnesota [Mr. STANGELAND] for introducing this resolution which will allow Americans of all ages to honor and remember those who lost their lives in the Pearl Harbor massacre.

Early on the morning of Sunday, December 7, 1941, the Empire of Japan launched a brutal and unprovoked attack on the U.S. Navy, Army, Air Force, and Marine bases at Pearl Harbor, HI. Over 2,400 Americans were killed and 1,200 wounded on that fateful day—the day that President Roosevelt said "will live in infamy."

It was not until after World War II ended that the American people were fully apprised of what a severe, crippling blow the attack on Pearl Harbor inflicted on our defenses. The cream of our Navy and our Army in the Pacific were virtually wiped out in one devastating blow.

But what the Japanese Empire did not count on was the galvanizing effect that dastardly attack would have on the American people. Prior to December 7, the role of the United States in world affairs was the topic of intense debate. That debate ended as the bombs fell. All Americans became united in the effort for victory with a vigor and determination unknown in any American conflict, before or since.

The ultimate tragedy of Pearl Harbor was the fact that it could have been foreseen and prevented. Candidates for graduation at the Japanese military academies had been asked to plan an attack on Pearl Harbor as part of their final examinations each year since 1931. The Japanese secret code had been broken, and the State Department was aware that an attack was imminent. However, the location of the strike was not known, and so our commanders were not notified in a timely fashion.

This does not mean, however, that our 3,600 casualties were killed or wounded in vain. The heroism demonstrated that fateful Sunday morning did much to inspire millions of Americans on to greater sacrifice and heroism which was necessary for our ultimate victory.

Every 5 years, on December 7, the survivors of Pearl Harbor reunite at Pearl Harbor. This year will mark the 45th anniversary of Pearl Harbor and our thoughts will be with those survivors and their families, as well as the families who have lost sons and daughters in that conflict. Accordingly, I urge my colleagues to support this resolution designating December 7 as "National Pearl Harbor Remembrance Day" and to encourage their communities to conduct appropriate observances.

Mr. HANSEN. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Hawaii [Mr. ABERCROMBIE].

Mr. ABERCROMBIE. Mr. Speaker, I rise in support of this joint resolution, and thank all of my colleagues here for presenting it.

National Pearl Harbor Remembrance Day, of course, has great meaning for us on the Island of Hawaii. It has particular meaning for me. Pearl Harbor is with the district which I represent.

I want to remind all here that service to our country came from Hawaii in World War II after Pearl Harbor, the most decorated unit in the entire U.S. Armed Forces, the 442d Regiment, of which our senior Senator, Mr. INOUYE, was a member and our other Senator, Mr. MATSUNAGA.

I am sure that many in this body know, and I hope that everyone in the country recognizes, that many from Hawaii gave their lives. Not only were they the most decorated, but in terms of the wounds that took place it was one of the most grievous combat regiments in the U.S. Armed Forces.

□ 1325

Hawaii, I think because of the service that was rendered to our country after Pearl Harbor, was in the forefront with respect to commanding the attention of the country once statehood was given to Hawaii in 1959. I think the people of our Nation remembered the service that had been performed by people in the then Territory of Hawaii as it became a State.

Mr. Speaker, it is a great pleasure for me today to rise and ask that we receive unanimous consent for National Pearl Harbor Remembrance Day.

Mr. HANSEN. Mr. Speaker, I withdrew my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 322

Whereas on the morning of December 7, 1941, the Imperial Japanese Navy and Air Force launched an unprovoked surprise attack upon units of the Armed Forces of the United States stationed at Pearl Harbor, HI;

Whereas over two thousand four hundred citizens of the United States were killed in action and one thousand one hundred and seventy-eight were wounded in this attack;

Whereas President Franklin Delano Roosevelt referred to the date of the attack as "a date that will live in infamy";

Whereas the attack on Pearl Harbor marked the entry of this Nation into World War II;

Whereas the people of the United States owe a tremendous debt of gratitude to all members of our Armed Forces who served at Pearl Harbor, in the Pacific Theater of World War II, and in all other theaters of action of that war; and

Whereas the veterans of World War II and all other people of the United States will commemorate December 7, 1986, in remembrance of this tragic attack on Pearl Harbor: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That December 7, 1986, the anniversary of the attack on Pearl Harbor, is designated as "National Pearl Harbor Remembrance Day" and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States—

(1) to observe this solemn occasion with appropriate ceremonies and activities; and

(2) to pledge eternal vigilance and strong resolve to defend this Nation and its allies from all future aggression.

The Senate joint resolution was ordered to be read a third time, was read

the third time, and passed, and a motion to reconsider was laid on the table.

GAUCHER'S DISEASE AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 352) to designate the week beginning September 7, 1986, as "Gaucher's Disease Awareness Week," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate Joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, I would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. SMITH of Florida. Mr. Speaker, as the sponsor of House Joint Resolution 615, I am pleased to support this bill to designate the week of October 19, 1986, as "National Gaucher's Disease Awareness Week." A companion bill, Senate Joint Resolution 352, passed the Senate on October 3, 1986.

Gaucher's disease is the most prevalent among seven genetic disorders known to primarily affect Jewish populations. As many as 1 in 12 Jewish persons may be a carrier of Gaucher's disease which means that an estimated 1 child in every 600 born could have the disease.

Gaucher's disease is caused by the body's failure to produce an essential enzyme. The absence of this enzyme causes the body to store abnormal quantities of lipids in the liver and spleen and can have an adverse effect on tissues in the body, especially bone tissue. Commonly associated symptoms include an enlarged spleen, unusual bruising or bleeding, and bone and joint pain.

There is no known cure for Gaucher's disease nor any successful treatment. The National Gaucher Foundation was established to promote and support Gaucher's research and increase public awareness regarding this disease.

I thank my colleagues for joining me in cosponsoring this resolution and focusing much needed attention on understanding and finding a cure for this disease.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 352

Whereas Gaucher's disease is caused by the failure of the body to produce an essential enzyme;

Whereas the absence of such enzyme causes the body to store abnormal quantities of lipids in the liver and spleen and frequently has an adverse effect on tissues in the body, particularly bone tissue;

Whereas among Jewish persons, Gaucher's disease is the most common inherited disorder affecting the metabolism of lipids, which are one of the principle structural components of living cells;

Whereas there is no known cure for Gaucher's disease and no successful treatment of the symptoms of the disease;

Whereas the increased awareness and understanding of Gaucher's disease by the people of the United States can aid in the development of a treatment and cure for the disease;

Whereas the National Gaucher's Disease Foundation provides funds for research in the United States with respect to the disease; and

Whereas research and clinical programs with respect to Gaucher's disease should be increased: Now, therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning September 7, 1986, is designated "Gaucher's Disease Awareness Week", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

SHAYS' REBELLION WEEK AND SHAYS' REBELLION DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 10) to designate the week beginning January 19, 1987, as "Shays' Rebellion Week" and Sunday, January 25, 1987, as "Shays' Rebellion Day," and ask for its immediate consideration in the House.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation of objection, I yield to the distinguished gentleman from Massachusetts [Mr. CONTE], who is the chief sponsor of House Joint Resolution 10.

Mr. CONTE. I thank the gentleman for yielding to me.

Mr. Speaker, I want to take this opportunity to thank my good friend, the gentleman from New York [Mr. GARCIA], and the gentleman from Utah [Mr. HANSEN] for bringing this resolution to the floor. I also wish to thank all of my colleagues here who signed this resolution.

Mr. Speaker, as sponsor of this legislation, it gives me great pleasure to see House Joint Resolution 10, which will designate the week of January 19, 1987, as "Shays' Rebellion Week" and Sunday, January 25, as "Shays' Rebellion Day," brought to the floor of the House for consideration.

This weekend, in Daniel Shays' hometown of Pelham, MA, I will be joining the people in honoring the bicentennial of the rebellion, and I think it is proper for Congress to join us and the many other people paying tribute to this important part of our Nation's heritage.

Shays' Rebellion was a farmers revolt against many of the injustices which were present in the young Nation under the Articles of Confederation. Taxes were high and many farmers were in debt. Sound money was scarce, and the courts were dealing out harsh penalties on the indebted farmers.

Daniel Shays and his men were not malcontents. Most of them had served America in the Revolutionary War, and Shays was even awarded a sword from Lafayette for his service.

One would have to imagine that Shays was extremely proud of this sword, but due to the economic problems of the time he was forced to sell it.

While Shays' Rebellion was put down by Federal forces, it had a profound effect on our Nation. Shays' Rebellion demonstrated both the injustices and weaknesses of the system under the Articles of Confederation, and helped pave the way for our beloved Constitution.

Mr. Speaker, I am proud to support this legislation, and hope for its immediate approval.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 10

Whereas January 25, 1987, marks the bicentennial of the final uprising in western Massachusetts of Daniel Shays and his men, during a period of unrest in the years following the Revolutionary War;

Whereas the landowners of western Massachusetts felt they were unduly burdened because money was scarce, taxes were high, punishments for debts were severe, and the government was unresponsive;

Whereas Shays led the dissatisfied landowners in a series of attacks to stop debt procedures in local courts;

Whereas on January 25, 1787, a major confrontation occurred in Springfield when the militia wounded, killed, and caught several of Shays' rebels as they stormed the arsenal;

Whereas the uprisings of Shays' Rebellion exposed the problems in the existing form of government to the people of America and

prompted a meeting of delegates in Philadelphia to correct the weaknesses of the Articles of Confederation; and

Whereas Shays' Rebellion was instrumental in bringing about the writing of the Constitution of the United States: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning January 19, 1987, is designated as "Shays' Rebellion Day". The President is requested to issue a proclamation calling upon the people of the United States to observe such week and day with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL SOCIAL STUDIES WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 232) to designate October 6, 1986, through October 10, 1986, as "National Social Studies Week," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution,

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. RUSSO. Mr. Speaker, I rise today in support of House Joint Resolution 410, legislation which I introduced last year that would designate the week of October 6 through 10, 1986, as "National Social Studies Week."

Two years ago, America suddenly seemed to discover that there were problems in our public schools, and that our children were graduating from high school poorly prepared for the job market in our changing economy. I strongly supported this renewed interest in our education system, and I lauded efforts to provide greater incentives for schoolteachers, to toughen up education standards, and to reintroduce some degree of moral guidance into the schools. Nothing is more precious to America than its next generation, and nothing we in Congress could do would be more important than to ensure that it receives an excellent education.

Since that time, we have begun to make progress toward the kind of education system that this country must have. The Federal Government, the States, and local school boards have all willingly entered the battle to improve our schools. However, our work has just begun—it's vital now that we not slacken our pace or reduce our efforts. There's no quick fix available, and there's no end to our effort, however. Consequently, we in Congress have to constantly remind ourselves and our constituents of the importance of education and of the need for continued effort. One of the ways that we can do this is through the use of such commemorative legislation as House Joint Resolution 410 to focus the country's attention on the value of our schools. In today's fast-moving global economy Americans need to know not only the three R's—reading, writing, and arithmetic. They also have to know about the world they live and work in.

The postwar world is a much smaller, more interdependent one, in which America has a central role. It's important for Americans to know about other countries and their cultures, important because what goes on in those other countries affects American jobs, and important in a broader sense because democracy requires an informed, intelligent electorate.

The other body has already passed identical legislation introduced by Senator PAUL SIMON of Illinois. I urge my colleagues in the House to act today and pass this very worthwhile legislation.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 232

Whereas national attention should be focused on the exemplary efforts of social studies teachers in the United States: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That October 6, 1986, through October 10, 1986, is designated as "National Social Studies Week", and that the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe the week with appropriate ceremonies, programs, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL ADULT IMMUNIZATION AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 396) to designate the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. ROYBAL. Mr. Speaker, I rise today in support of House Joint Resolution 700 which designates the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week."

Once again we are threatened with a serious flu and pneumonia epidemic. It strikes hardest among the elderly and chronically ill and may claim up to 40,000 American lives this year alone. Many of these elderly Americans will fall prey to these preventable diseases simply because they were unaware that an inoculation—a simple shot—could save their lives.

Pneumococcal pneumonia is the sixth leading cause of death in the United States. This microorganism attacks more than a half million Americans each year and is responsible for 25,000 to 30,000 deaths. And it is the Nation's elderly and chronically ill who are most at risk. For those over 60, the incidence of pneumonia increases significantly. For the fragile old—those over 75—the death rate is 10 times greater.

Influenza is another great threat to our Nation's elderly. Since the mid-1950's we have seen 16 influenza epidemics that have taken 10,000 or more American lives in each epidemic. Again this year, elderly Americans will be challenged by this bug. But they can be protected with a safe and effective vaccination.

House Joint Resolution 700 will officially recognize the ongoing national campaign designed to educate and motivate all Americans—especially the elderly—to protect themselves through immunization. This resolution designates the week of October 26, 1986, as "National Adult Immunization Awareness Week." A companion bill, sponsored by Senator ORRIN G. HATCH, has passed the Senate. The bipartisan support for this resolution is evidence of the recognition that it is time for national leadership to help eradicate these deadly and crippling infectious diseases by supporting the National Adult Immunization Awareness Week.

House Joint Resolution 700 will put Congress on record behind this campaign. It calls on the President to proclaim the week of October 26 for observance by all Americans of the need to inoculate against flu, pneumonia, and other diseases for which adults are at risk. Our goal is to motivate the elderly to take their shots before the start of the flu season. This awareness week can help prevent the loss of many precious American lives.

I am pleased to have been the original author of House Joint Resolution 700 on August 11, 1986, and to be able to report that we now have over 150 cosponsors of the resolution in the House of Representatives.

Mr. LELAND. Mr. Speaker, I would like to take this opportunity to voice my support for House Joint Resolution 700. This resolution would designate the week of October 26, 1986 as "National Adult Immunization Awareness Week."

It is important that we publicize the need for Americans to be immunized against infectious diseases so as to aid in the control and eradication of such illnesses. Passage of this resolutin would set the stage for a public cam-

paign to raise awareness of the necessity of immunizations.

I encourage my colleagues to vote in favor of the passage of House Joint Resolution 700 and give a boost to efforts to improve the health standards of this country.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 396

Whereas influenza and pneumonia are among the top killers of American adults, especially elderly Americans;

Whereas fewer than 12 percent of the adult population is adequately protected against these diseases or against other highly infectious diseases including measles, rubella, diphtheria, and hepatitis B;

Whereas less than half of Americans over 60 are inoculated against the deadly tetanus toxoid;

Whereas the lives of tens of thousands of American adults could be spared this year simply by taking vaccines that are approved as safe and effective by the United States Food and Drug Administration and are readily available to the public; and

Whereas the Surgeon General of the Public Health Service has repeatedly called on this Nation to prevent the massive costs of health care through a program of preventive health care, of which a major role is played by inoculation against infectious diseases: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of October 26, 1986, through November 1, 1986, is designated as "National Adult Immunization Awareness Week". The President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL KIDNEY PROGRAM DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 367) to designate September 24, 1986, as "National Kidney Program Day," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object; I would simply like to inform the House the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 367

Whereas, the tens of thousands of Americans suffering from irreversible kidney disease are treated by Medicare's End Stage Renal Disease (ESRD) Program;

Whereas, this program has assured that every American suffering from otherwise fatal kidney failure has access to lifesaving dialysis or transplantation therapy;

Whereas, ESRD beneficiaries may remain economically productive and are able to continue to make irreplaceable contributions to family, community and country;

Whereas, this extraordinarily successful program has a special significance as an example of the power of partnership between Government and the healthcare industry in dealing with catastrophic illness; and

Whereas, this partnership has achieved economy in health services without compromising quality of care or social responsibility: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized and requested to designate the day of September 24, 1986, as National Kidney Program Day and call upon the Federal, State, and local government agencies and the people of the United States to observe such day with the appropriate programs, ceremonies, and activities.

AMENDMENT OFFERED BY MR. GARCIA

Mr. GARCIA. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. GARCIA: Page 2, line 4, strike "September 24, 1986," and insert "October 23, 1986,".

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from New York [Mr. GARCIA].

The amendment was agreed to.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed.

Amend the title so as to read: "Joint resolution to designate October 23, 1986, as 'National Kidney Program Day'."

A motion to reconsider was laid on the table.

□ 1335

NATIONAL BOWLING WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 620) designating the week beginning January 4, 1987, as "National Bowling Week," and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 620

Whereas bowling is one of the oldest and most popular indoor family sports in the world and is played in more than 79 nations;

Whereas people have computed in some form of bowling for thousands of years;

Whereas many immigrants brought a form of bowling from their homeland during the birth of America;

Whereas bowling has contributed to the social fabric of the United States with 8,000,000 people participating as members of local bowling organizations in more than 2,800 cities and towns across our land;

Whereas bowling is played in 8,300 bowling centers, virtually in every community in the Nation; and has emerged as the longest running, most highly rated individual sport television series on Saturday;

Whereas bowling is the largest indoor participation sport in the United States with over 69,000,000 Americans bowling each year; and

Whereas bowling is an excellent form of exercise and recreation for all people regardless of age: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning January 4, 1987, is designated "National Bowling Week". The President is requested to issue a proclamation calling upon the people of the United States to observe that week with appropriate ceremonies and activities.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REQUEST FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 316, DESIGNATING THE SQUARE DANCE AS THE NATIONAL FOLK DANCE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the joint resolution (H.J. Res. 316) designating the square dance as the national folk dance of the United States for 1985 and 1986, and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. DELAY. Mr. Speaker, reserving the right to object, I understand there has been testimony against this bill, and I object.

The SPEAKER pro tempore. Objection is heard.

NATIONAL ALOPECIA AREATA AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 299) to designate the week of December 7, 1986, through December 13, 1986, as "National Alopecia Areata Awareness Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S. J. RES. 299

Whereas alopecia areata is a serious disease affecting approximately two million people;

Whereas alopecia areata, which usually afflicts children and young adults, causes severe and often permanent hair loss;

Whereas the coordinated efforts of support groups in forty-two States have helped thousands of people cope with the physical and emotional problems caused by alopecia areata;

Whereas much of the trauma associated with alopecia areata could be reduced through greater public awarness, understanding, and education; and

Whereas the cause of alopecia areata is unknown, and promising research efforts to find a cure for the disease should be promoted: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of December 7, 1986, through December 13, 1986, is designated as "National Alopecia Areata Awareness Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with approriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL BURN AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 410) to designate the period commencing February 9, 1987, and ending February 15, 1987, as "National Burn Awareness Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York.?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 410

Whereas the burn problem in the United States is the worst of any industrialized nation in the world;

Whereas burn injuries are one of the leading causes of accidental death in the United States;

Whereas every year approximately two million people are victims of burn injury in the United States;

Whereas of these injuries, seventy thousand are hospitalized and account for nine million disability days annually;

Whereas approximately twelve thousand people die from burn injuries;

Whereas deaths resulting from burn injuries increased in 1985;

Whereas the rehabilitative and physchological impact of burns are devastating;

Whereas children, the elderly, and the disabled are most likely to suffer serious burns;

Whereas it is estimated that approximately 75 percent of all burns could be prevented by proper education of children and adults; and

Whereas there is a need for an effective national program that deals with all aspects of burn prevention: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the period commencing February 9, 1987, and ending February 15, 1987, is designated as "National Burn Awareness Week" and the President is authorized and requested to issue a proclamation calling upon the people of the United States and all Federal, State, and local government officials to observe such week with appropriate programs and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PERMISSION TO HAVE UNTIL MIDNIGHT SUNDAY, OCTOBER 12, 1986, TO FILE CONFERENCE REPORT ON H.R. 6, WATER RESOURCES, CONSERVATION, DEVELOPMENT, AND INFRASTRUCTURE IMPROVEMENT AND REHABILITATION ACT OF 1985

Mr. STANGELAND. Mr. Speaker, I ask unanimous consent that the managers may have until midnight Sunday, October 12, 1986, to file the conference report on the bill (H.R. 6) "to provide for the conservation and development of water and related resources and the improvement and rehabilitation of the Nation's water resources infrastructure."

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

PERMISSION TO HAVE UNTIL MIDNIGHT, MONDAY, OCTOBER 13, 1986, TO FILE CONFERENCE REPORT ON S. 1128, CLEAN WATER ACT AMENDMENTS OF 1985

Mr. STANGELAND. Mr. Speaker, I ask unanimous consent that the managers may have until midnight, Monday, October 13, 1986, to file the conference report on the Senate bill (S. 1128) "an act to amend the Clean Water Act, and for other purposes."

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

NATIONAL ADOPTION WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 306) to designate the week beginning November 23, 1986, as 'National Adoption Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation, I yield to the distinguished gentleman from New Jersey [Mr. SMITH], who is the chief sponsor of House Joint Resolution 651.

Mr. SMITH of New Jersey. Mr. Speaker, House Joint Resolution 651 designates Thanksgiving week—November 23 to 29, 1986, as "National

Adoption Week" and is intended to focus attention on the benefits of adoption to children, parents, and society in general. Similiar legislation was approved by the Senate in April of this year.

Mr. Speaker, each year more than 100,000 children are adopted in the United States. For these children, adoption represents a chance to grow up in a home, with a family, among parents who love them. In my view, Mr. Speaker, nothing is more important, no one more precious, or vulnerable than children. For millions, adoption is their last best hope for a happy childhood.

National Adoption Week will, I believe, be very useful in highlighting the adoptable status of approximately 50,000 children with special needs—children who are older, handicapped, in sibling groups, or members of minorities—who are legally free for adoption. Passage of this resolution will send a message to the American people—these children with special needs are our children, too. They belong in families and we have a responsibility for them.

Mr. Speaker, as members know, most aspects of adoption are governed by State law. Landmark legislation, however, was adopted in 1980 in the form of the Adoption Assistance and Child Welfare Act—Public Law 96-272. This law made numerous changes in the child welfare services and foster care programs. It also established the Adoption Assistance Program, a federally matched adoption subsidy for special needs children.

Today there are more than 2 million couples ready, willing, and eligible to adopt a child. The average wait for a newborn or very young child, however, is painfully long—5 to 7 years.

In light of this, many prospective, adoptive parents now look overseas to adopt and the number of foreign-born children eligible is rising. The Immigration and Nationality Act, as amended, governs the admission of foreign-born children into the United States. Foreign adoptions generally take place in one of two ways. The first method is for the parents to work through a U.S.-based international, child-placing agency, which usually completes the adoption in the child's home country and brings the child to the United States. The second approach is for the adoptive parents to work directly with a foreign, child-placing entity, and either have the child brought to the United States for adoption, after all foreign and domestic requirements are fulfilled, or to journey to the child's country of origin and carry out the adoption there.

Just let me note here, Mr. Speaker, that every child desperately needs a home.

Every child needs the stability and guidance of loving parents.

Every child needs the sense of genuinely belonging, of being cared for, of being wanted.

National Adoption Week enables us all to applaud the generosity of adoptive parents, to commend assisting organizations such as the Adoptive Parents Committee, and to continue focusing on reforming the law to ensure that our adoption policies are the best we can craft.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 306

Whereas the week of November 23 has been commemorated as "National Adoption Week" for the past ten years;

Whereas we in Congress recognize the essential value of belonging to a secure, loving permanent family as every child's basic right;

Whereas approximately fifty thousand children who have special needs—school age, in sibling groups, members of minorities, or children with physical, mental, and emotional handicaps—are now in foster care or institutions financed at public expense and are legally free for adoption;

Whereas the adoption by capable parents of these institutionalized or foster care children into permanent, adoptive homes would insure the opportunity for their continued happiness and long-range well-being;

Whereas public and private barriers inhibiting the placement of these special needs children must be reviewed and removed where possible to assure these children's adoption;

Whereas the public and prospective parents must be informed of the availability of adoptive children;

Whereas a variety of media, agencies, adoptive parent and advocacy groups, civic and church groups, businesses, and industries will feature publicity and information to heigthen community awareness of the crucial needs of waiting children; and

Whereas the recognition of Thanksgiving week "National Adoption Week" is in the best interest of adoptable children and the public in general: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of November 23 through November 29, 1986, hereby is designated "National Adoption Week", and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL HOME CARE WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 339) to designate the week of November 30, 1986, through December 6, 1986, as "National Home Care Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 339

Whereas organized home health care services to the elderly and disabled have existed in this country since the last quarter of the eighteenth century;

Whereas home health care, (including skilled nursing services, physical therapy, speech therapy, social services, occupational therapy, health counseling and education, and homemaker-home health aide services), is recognized as an effective and economical alternative to unnecessary institutionalization;

Whereas caring for the ill and disabled at home emphasizes the dignity and independence of the individual;

Whereas the Federal Government has supported home health services since the enactment of the medicare program, with the number of home health agencies providing services increasing from less than five hundred to more than five thousand; and

Whereas many private, public, and charitable organizations provide these and similar services to millions of patients each year preventing, postponing, and limiting the need for institutionalization and enabling such patients to remain independent: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of November 30, 1986, through December 6, 1986, is designated as "National Home Care Week", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe the week with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

MADE IN AMERICA MONTH

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 392) to designate the month of December 1986 as "Made in America

Month," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. CONTE. Mr. Speaker, as a sponsor of House Joint Resolution 688, along with my good friend from North Carolina [Mr. HEFNER], I rise in strong support of its passage.

This resolution would heighten public awareness on the importance of buying American by designating December as "Made in America" month.

Over the years, "Made in America" has been synonomous with quality because of the pride, skill, and craftsmanship of the American worker.

The American consumer, aware of that proud tradition, has consistently indicated that he or she would prefer to "buy American" if given a choice.

This resolution, by paying tribute to that history of dedication and commitment that makes American products unique, carries an important message.

And with record trade deficits each of the last 3 years, it is particularly timely.

Mr. Speaker, I am proud to join with the gentleman from North Carolina, and with the American manufacturer and worker, in marking December as "Made in America" month.

As we turn into 1987, let this resolution send forth the message that "Made in America" still stands for pride and quality, and that it remains the smart buy to "buy American."

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution.

S.J. RES. 392

Whereas the trade deficit in our country in 1985 reached a record level of $418,500,000,000;

Whereas the 1986 trade deficit is predicted to increase still further;

Whereas over 1,661,000 jobs have been lost in the manufacturing sector since 1972 as a direct result of imports;

Whereas imports now account for more than 20 per centum of all manufactured products sold in the United States;

Whereas imports continue to grow at an increasing rate and constitute a larger and larger percentage of all manufactured goods sold in this Nation;

Whereas the manufacturing sector of the United States economy is shrinking dramatically as a result of imports;

Whereas a continuing flood of imports of manufactured goods could permanently reduce the manufacturing capacity of our Nation and, as a direct result, threaten our ability to respond to a national emergency and make the United States highly vulnerable to embargoes of a wide range of products necessary for the national defense and the smooth functioning of the national economy;

Whereas there is little awareness of the country of origin of most products sold in the United States; and

Whereas United States consumers should be aware of the impact that their purchase decisions could have on their own jobs and the economy as a whole: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized and requested to issue a proclamation designating the month of December 1968, "Made in America Month" and to call upon Federal, State, and local government agencies, and the people of the United States to observe the month with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

FREEDOM OF INFORMATION DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 414) to designate March 16, 1987, as "Freedom of Information Day," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 414

Whereas a fundamental principle of our Government is that a well-informed citizenry can reach the important decisions that determine the present and future of the Nation;

Whereas the freedoms we cherish as Americans are fostered by free access to information;

Whereas many Americans, because they have never known any other way of life, take for granted the guarantee of free access to information that derives from the First Amendment to the Constitution of the United States;

Whereas the guarantee of free access to information should be emphasized and celebrated annually; and

Whereas March 16 is the anniversary of the birth of James Madison, one of the Founding Fathers, who recognized and supported the need to guarantee individual rights through the Bill of Rights: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That March 16, 1987, is designated as "Freedom of Information Day", and the President is authorized and requested to issue a proclamation calling upon Federal, State, and local government agencies and the people of the United States to observe such day with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

COMMEMORATING 100TH ANNIVERSARY OF BIRTH OF FIRST PRIME MINISTER OF STATE OF ISRAEL, DAVID BEN-GURION

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 422) commemorating the 100th anniversary of the birth of the first Prime Minister of the State of Israel, David Ben-Gurion, and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I will not object, but would simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 422

Whereas David Ben-Gurion is a man of great historical importance, not only to the Jewish people but also to all people striving for freedom;

Whereas his leadership made realizable in-gathering of the exiles that brought millions of homeless Jews scattered throughout the world to Israel where they were united both with each other and with their ancient homeland;

Whereas the Declaration of Independence of the State of Israel, a milestone in the life of David Ben-Gurion, echoes the American Declaration of Independence in its recognition of the universal equality of man;

Whereas as Israel's first Prime Minister and Minister of Defense, Ben-Gurion led the newly formed state through its most difficult period, directing the desperate efforts to secure Israel's survival and independence;

Whereas his pragmatic solutions to Israel's overwhelming problems, paralleled with his desire to create a society based on justice and peace, guided the fledging state and formed the values on which Israel rests

today and the basis for what Israel strives for in the future;

Whereas Ben-Gurion's vision of the Greening of the Desert through the application of science and technology continues to be an important aspect of Israel, as well as a factor that can help solve food production problems in arid regions all over the world;

Whereas 1986 marks the hundredth anniversary of the birth of David Ben-Gurion, leader of his people for two generations; and

Whereas the United States and Israel share many of the same fundamental values of democracy and freedom, and a common history of accepting immigrants from all over the globe: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Congress, in this the centennial of David Ben-Gurion's birth joins in the celebration of this great statesman, urges all Americans to take note of this commemoration, and applauds the David Ben-Gurion Centennial Committee of the United States of America in its work promoting the yearlong national celebration of David Ben-Gurion and his achievements.

(b) The President is authorized and requested to issue a proclamation in honor of this celebration.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 1345

NATIONAL ARTS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 304) to designate the week of November 16, 1986, through November 22, 1986, as "National Arts Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. GREEN. Mr. Speaker, I would like to invite my colleagues to join with me in commemorating National Arts Week from November 16 through November 23, 1986. During this week, many special events and performances will be held to celebrate America's rich and diverse artistic heritage, to focus attention on the importance of the arts to our way of life, and to encourage corporate and individual investment in artistic activities.

The arts in America give expression to our national identity and contribute to our national mental health. They let us stand apart from the sometimes grim realities of life, to escape and to refresh our spirit. Paradoxically, the arts also allow us an increased understanding of the human condition.

In its first year, National Arts Week 1985 was very successful; more than 800 public arts events took place in each of the 50 States, with 100 proclamations from Governors and mayors across the country. This year, we hope for even greater support, and plan to focus particular attention on arts at the local level. By doing so, we can help create a permanent base of community support for the arts which can sustain them in this era of constraints on Federal funding.

The entire U.S. arts community has joined to support National Arts Week in a public/private partnership that encompasses Federal and State arts agencies, a special corporate committee, national arts groups, arts services organizations, and, particularly, local arts groups.

I should like to thank my colleagues who have cosponsored this important legislation and to express my special thanks to my distinguished colleague, the gentleman from California, Mr. COELHO, who has been of so much assistance in bringing the bill to fruition. I am also very grateful to my colleague from New York, Mr. GARCIA, for bringing House Joint Resolution 693 to the floor with such dispatch. It is my pleasure to sponsor this legislation and to commemorate the role of the arts in America.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 304

Whereas the performing arts, the visual arts, and literature are central to human expression;

Whereas our identity as a people and as a Nation is expressed through the arts;

Whereas support of the arts has been a partnership of Federal, State, and local government entities, business, and individuals;

Whereas a congressionally declared National Arts Week provides a focal point to celebrate the diverse cultural heritage of the United States and the vitality of contemporary writers, artists, and performers; and

Whereas a congressionally proclaimed National Arts Week brings together the public and private sectors to restate support of the arts: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of November 16, 1986, through November 22, 1986, is designated as "National Arts Week" and the President is authorized and requested to issue a proclamation calling upon the citizens of the United States to observe such week with appropriate programs and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL WOMEN IN SPORTS DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 418) to designate February 4, 1987, as "National Women in Sports Day," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 418

Whereas women's athletics is one of the most effective avenues available through which women of America may develop self-discipline, initiative, confidence, and leadership skills;

Whereas support and fitness activity contributes to emotional and physical well-being and women need strong bodies as well as strong minds;

Whereas the history of women in sports is rich and long, but there has been little national recognition of the significance of women's athletic achievements;

Whereas the number of women in leadership positions of coaches, officials, and administrators has declined drastically over the last decade and there is a need to restore women to these positions to ensure a fair representation of women's abilities and to provide role models for young female athletes;

Whereas the bonds built between women through athletics help to break down the social barriers of racism and prejudice;

Whereas the communication and cooperation skills learned through athletic experience play a key role in the athlete's contributions at home, at work, and to society;

Whereas women's athletics has produced such winners as Flo Hyman, whose spirit, talent, and accomplishments distinguished her above others and exhibited for all of us the true meaning of fairness, determination, and team play;

Whereas early motor-skill training and enjoyable experiences of physical activity strongly influence life-long habits of physical fitness;

Whereas the athletic opportunities for male students at the collegiate and high school level remain significantly greater than those for female students; and

Whereas the number of funded research projects focusing on the specific needs of women athletes is limited and the information provided by these projects is imperative to the health and performance of future women athletes: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That February 4, 1987, is hereby designated as "National Women in Sports Day", and the President is authorized and requested to issue a proclamation calling upon local and State jurisdictions, appropriate Federal agencies, and the people of the United States to observe the

day with appropriate ceremonies and activities.

Ms. SNOWE. Mr. Speaker, as the sponsor of House Resoluton 740, I rise in support of Senate Joint Resolution 418, which would designate February 4, 1987 as "National Women in Sports Day."

It is time to nationally recognize the significance of women's athletic achievements. By drawing attention to women in sports, we recognize the importance not only of our nationally known women athletes, but all women who participate in sports and physical conditioning programs. These athletic activities promote women's emotional and physical well-being, and build bonds between women that help to break down the social barriers of racism and prejudice.

National Women In Sports Day, while recognizing the outstanding accomplishments of women in sports, will also point to the fact that women students still have far fewer opportunities for atheletic achievements than men at the same institutions. Colleges now spend more than 16 percent of their athletic budgets on women—up from 2 percent in 1972; the number of women in intercollegiate sports has grown from 16,000 in 1972 to more than 150,000 today. While I applaud the progress that has been made over the last 15 years, I believe we must also acknowledge the large inequities that still exist for women in the area of sports.

National Women in Sports Day will be a step toward giving women in sports the recognition and attention they deserve. Hopefully, this day will encourage more women to experience the pleasure of sports activity that develops life-long habits of physical fitness.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

COMMEMORATING THE BICENTENNIAL ANNIVERSARY OF THE FIRST PATENT AND FIRST COPYRIGHT LAWS

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 169) to commemorate the bicentennial anniversary of the first patent and the first copyright laws, and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 169

Whereas the Constitution empowers Congress "To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries";

Whereas the enforcement of this constitutional principle through specific patent and copyright laws merits special recognition;

Whereas the first patent bill signed into law on April 10, 1790, and the first copyright bill was signed into law on May 31, 1790, and we will recognize the bicentennial anniversary of these laws in 1990: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That special recognition be given during 1990, the bicentennial year of the first patent and the first copyright laws, and the President is authorized and requested to issue a proclamation upon the enactment of this joint resolution calling upon the people of the United States to foster such recognition through appropriate educational and cultural programs and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

SALUTE TO SCHOOL VOLUNTEERS DAY

Mr. GARCIA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate joint resolution (S.J. Res. 407) designating November 12, 1986, as "Salute to School Volunteers Day," and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, further reserving the right to object, I rise in support of Senate Joint Resolution 407 which designates November 12, 1986, as "Salute to School Volunteers Day."

Mr. Speaker, over 4 million unpaid citizen volunteers in thousands of our classrooms coast to coast enhance the quality of education of our instructional staff. This resolution recognizes and honors "the magnitude of quality and selflessness" of those who, in a long and honorable American tradition volunteer to help others.

These volunteers are a vital component in our education system today. They assist the professional educators in providing an effective educational experience as well as quality instruction.

Communities all across this country encourage business, civic groups, and local organizations to create a partnership with their schools.

Thousands of State and community volunteers have enriched student learning through their hard work and dedication while assisting our professional educators.

Senate Joint Resolution 407 provides national recognition of and support for this school volunteers movement which is now sweeping our country. They are helping our dedicated professional educators to reach and teach our children and young people who will determine the quality of America's future.

Mr. Speaker, I ask my colleagues to join me in supporting this resolution which salutes our school volunteers.

Mr. FORD of Michigan. Mr. Speaker, I am pleased to rise in support of the joint resolution designating November 12, 1986 as "Salute to School Volunteers Day."

The resolution provides national recognition of and support for one of the truly remarkable features of the school reform movement which is now sweeping the country, namely, an explosion of citizen volunteerism on behalf of better schools for our children.

Sparked by the National School Volunteer Program, spontaneous local school-sponsored efforts, and a host of school-business partnerships and adopt-a-school programs in hundreds of communities, volunteers—over 4 million of them—are helping our dedicated professional staffs to reach and teach the children and youth who will determine the quality of America's future.

The resolution recognizes and honors "the magnitude, quality and selflessness" of those who, in a long and honorable American tradition, volunteer to help others. I believe that it will encourage more school districts and States to setup volunteer efforts and, in that way, tap the wisdom and skills of millions of Americans who care about our schools.

I urge my colleagues to adopt this joint resolution providing that November 12, 1986 be observed throughout the Nation as "Salute to School Volunteers Day."

I am particularly pleased that the resolution under consideration is identical to House Joint Resolution 706 which I introduced on August 12, 1986.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution as follows:

S.J. RES. 407

Whereas the success of America's schools stems from the competence and dedication of their instructional staffs, combined with the commitment of students, parents, and other community members;

Whereas citizen volunteers are a vital component of an effective educational experience, assisting professional educators to deliver quality instructional services;

Whereas many States and communities have demonstrated that citizen volunteers in the classroom enhance, extend, and enrich student learning as they contribute to the work of dedicated professional educators;

Whereas numerous communities encourage groups, such as business and civic groups, to create mutually beneficial working partnerships with their schools, thus offering positive support from the community which, in turn, both encourages staff and benefits the students;

Whereas the Congress recognizes that four million unpaid citizen volunteers in thousands of classrooms coast to coast contribute daily to the enhancement of the quality of instruction in our schools and thus, to the development of an educated citizenry; and

Whereas the magnitude, quality, and selflessness of these contributions of America's citizen school volunteers merit the highest appreciation and gratitude: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That November 12, 1986, is designated as Salute to School Volunteers Day", and the President is authorized and requested to issue a proclamation calling on the people of the United States to observe such day with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read the third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ELIMINATING REQUIREMENT RELATING TO DECENNIAL CENSUSES OF DRAINAGE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2722) to amend title 13, United States Code, to eliminate the requirement relating to decennial censuses of drainage, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Page 1, lines 5 and 6, strike out "drainage." and inserting in lieu thereof a period" and insert "drainage" ".

Page 1, after line 9, insert: (b) The heading of subchapter II of chapter 5 of title 13, United States Code, is amended by striking out "DRAINAGE".

Page 1, line 10, strike out "(b)" and insert "(c)".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker, I shall not object, but rise in support of H.R. 2722, to amend title 13, United States Code, to eliminate the requirement relating to decennial censuses of drainage.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

A motion to reconsider was laid on the table.

ESTABLISHING COMMISSION ON THE BICENTENNIAL OF THE CONSTITUTION OF THE UNITED STATES

Mr. GARCIA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3559) to amend the Act establishing a Commission on the Bicentennial of the Constitution of the United States to clarify the status of employees of the Commission, to raise the limits on private contributions, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page 3, line 15, after "logo", insert:

Such rules and regulations shall provide, among other things, that all projects, goods, and services as to which use of the logo is authorized shall be educational or commemorative, and shall relate to the bicentennial of the United States Constitution, the establishment of the Federal Government, or the Bill of Rights, and none of such projects, goods or services shall exploit the United States Constitution or the Bill of Rights. The purpose of the Commission in authorizing use of the logo shall not be primarily or exclusively to raise funds.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Reserving the right to object, Mr. Speaker; however I shall not object, but rise in support of H.R. 3559, to amend the act establishing a Commission on the Bicentennial of the Constitution of the United States to clarify the status of employees of the Commission, to raise the limits on private contributions, and for other purposes.

Mr. Speaker, under my reservation, I yield to the gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. Mr. Speaker, I rise to compliment the majority side and the minority side, not only the members of the committee, but the members of their excellent staffs for bringing to a happy conclusion the legislation that makes it possible for the U.S. Commission on the Bicentennial celebration of the Constitution to go forward in an orderly manner so that next year in 1987 we will be able to celebrate the signing of the Constitution, and in 1988 the ratification of the Constitution, and in 1989, of course, the establishment of the Government, including this branch of Government.

Mr. Speaker, I extend my congratulations and my gratitude to each of you and to all of you and I am very pleased to have had this opportunity to say so.

Mr. HANSEN. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from New York [Mr. GARCIA].

Mr. GARCIA. Mr. Speaker, I thank my colleague, the gentleman from Utah, for yielding.

I would just like to say that I think the best thing that the Bicentennial Commission on the Constitution has ever done is appoint our colleague from this Chamber, the gentlewoman from Louisiana, because she has done more for that Bicentennial Commission than any other person in this Congress. I think it is a tribute to her and her hard work.

Mr. HANSEN. Mr. Speaker, further reserving the right to object, I concur in the remarks of the gentleman from New York.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the various pieces of commemorative legislation just adopted.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

LEGISLATIVE SCHEDULE

(Without objection, Mr. WALKER was allowed to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, I have asked for this time for the purpose of ascertaining the schedule from the majority leader, and I am very glad to yield to the distinguished majority leader to indicate to the House what the schedule for the upcoming week may be.

Mr. WRIGHT. Mr. Speaker, the schedule is that upon completion of today's session, we will be adjourned until noon on Tuesday next. Monday is Columbus Day and Yom Kippur, so we will adjourn upon conclusion of our business today until Tuesday noon.

There are 10 bills that are listed on the Suspension Calendar, as follows:

S. 740, Emergency Wetlands Act;

S. 1352, Sikes Act reauthorization;

H.R. 4531, Wetlands Loan Act;

H.R. 4175, maritime authorizations;

H.R. 2205, Korean War Memorial bill;

H.R. , Small Business Administration Pilot Program extension;

S. 2245, Export Administration authorization;

H.R. 3113, conference report on Coordinated Operations Agreement, Suisun Marsh Preservation Agreement and Small Reclamation Projects Act;

H.R. 1390, El Portal Leases, California; and

S. 2216, designate September 17 as Constitution Day.

There may be others. We will debate those bills, and postpone any votes until the conclusion of the debates.

Members should be advised that there will be three conference committee reports to be considered, one on the water resources bill, one on surface transportation, and one on the clean water amendments. Those are three significant pieces of legislation. Taken in tandem with the bill passed this week by the House on the cleanup of spills, they amount to significant environmental programming.

Members must expect that there will have to be action on the debt limit extension, on the budget reconciliation bill, and on the continuing appropriations. Once those are concluded, we would expect to adjourn sine die. We hope that might occur by midweek.

Mr. WALKER. Mr. Speaker, I thank the gentleman.

Just a couple questions, with regard to additional bills that might be put on the Suspension Calendar, can the gentleman give us some idea as to what kind of notice we might get about additional bills, since most of the Members will not come back to town until Tuesday morning?

Mr. WRIGHT. Well, at this point it is a little difficult to say. I do not know of any other bills, to tell the gentleman the truth. There may be some, however, because always at this point in the session the leadership discovers bills lying around ready for action that it had not anticipated, so I do not have any way of knowing.

Mr. WALKER. I would assume that would be brought, though, onto the calendar in accordance with the regular procedure of working with the minority leader for adequate notice.

Mr. WRIGHT. Yes. We will do our very best not to spring any surprises; but the majority leader is likely to be surprised himself when he discovers what is on the calendar.

Mr. WALKER. Well, I thank the gentleman.

The conference reports listed, are they likely to come up on Tuesday?

Mr. WRIGHT. We hope they can. We think they have either been completed or are at a stage where completion is clearly anticipated by the end of the day.

It is my understanding that the Rules Committee is in the process of drafting rules for all three and that those rules anticipate the presentation of the conference reports on Tuesday.

Mr. WALKER. So we would certainly get the rule on the conference reports on Tuesday and perhaps the conference reports themselves.

With regard to the budget reconciliation bill, it is my understanding that will have to be voted on in the Senate before we would get it, which means that it will be likely that we would not get the budget reconciliation bill until Wednesday, is that the likelihood.

Mr. WRIGHT. Well, it is altogether possible that it may be Wednesday. It is conceivable that it may be Tuesday.

It is my understanding that there is some movement in the direction of an agreement, but I am not at liberty to promise.

Mr. WALKER. But we are correct that the Senate would have to act first, the other body would have to act first on that legislation?

Mr. WRIGHT. Well, the gentleman may be absolutely correct.

Mr. WALKER. With regard to the debt limit extension, that will have to follow the budget reconciliation bill, so that could possibly come as late as Thursday?

Mr. WRIGHT. I think the debt limit extension might come earlier than that. The Rules Committee has a rule prepared to present on the debt limit extension.

I think I may have misled the gentleman in my reference to three bills on which rules already have been prepared by the Rules Committee. The third one to which I had reference was not the surface transportation bill, but rather the debt limit extension instead.

So far as I know, there is no rule yet on the surface transportation bill.

Mr. WALKER. So the gentleman would anticipate the debt limit extention perhaps as early as Tuesday or Wednesday?

Mr. WRIGHT. Yes, indeed.

Mr. WALKER. And the continuing appropriations resolution, is it my understanding that because of potential scope problems that we would probably have to have a rule for it before it could come to the floor?

Mr. WRIGHT. I imagine that a rule would be necesary for the continuing resolution.

Mr. WALKER. And the one item that I noticed was not on the gentleman's list of potential conference reports is the drug bill. Does the gentleman have any information about what the House might expect in terms of having a drug conference report before us next week?

Mr. WRIGHT. Well, I do not have any information that is not available to other Members.

I think we have two clear possibilities, either that the other body would accept our bill as we passed it, a matter that most Members of the House would prefer, no doubt, or that they might change or remove one or more portions of it and return it with those changes. I do not know which to anticipate.

I have talked with the majority leader and the minority leader of the other body and I have no clear signal as to what to expect.

Mr. WALKER. So what we might really expect is further action on Senate amendments, is that more likely?

Mr. WRIGHT. That is possible.

Mr. WALKER. One other question that occurs to this gentleman as I look at the list, are we anticipating that we will finish next week and that Congress can adjourn sine die by the end of the week, whatever that end of the week might be?

Mr. WRIGHT. I should be very disappointed if we are not able to do that. I know all Members desire to do that. I believe I see light at the end of the tunnel. I think we ought to anticipate being able to finish by Wednesday, or if not, then by Thursday.

□ 1400

I cannot make that ironclad promise, of course, because to do so would be to speak for a lot of other Members, but I think that any reasonable expectation would look toward our being able to adjourn sine die next week.

Mr. WALKER. Members should keep their schedules in the district flexible at least through Thursday?

Mr. WRIGHT. That would be my advice.

Mr. WALKER. I thank the gentleman for the schedule.

ADJOURNMENT TO TUESDAY, OCTOBER 14, 1986

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at noon on Tuesday next.

The SPEAKER pro tempore (Mr. GRAY of Illinois). Is there objection to the request of the gentleman from Texas?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR DISAGREEING TO THE SENATE AMENDMENT TO HOUSE JOINT RESOLUTION 668, PUBLIC DEBT INCREASE

Mr. BEILENSON, from the Committee on Rules, submitted a privileged report (Rept. No. 99-988) on the resolution (H. Res. 586) providing for taking the joint resolution (H.J. Res. 668) increasing the statutory limit on the public debt with the Senate amendment from the Speaker's table and disagreeing to the Senate amendment, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING CERTAIN POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 6, WATER RESOURCES CONSERVATION, DEVELOPMENT, AND INFRASTRUCTURE IMPROVEMENT AND REHABILITATION ACT OF 1985, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. BEILENSON, from the Committee on Rules, submitted a privileged report (Rept. No. 99-989) on the resolution (H. Res. 587) waiving certain points of order against the conference report on the bill (H.R. 6) to provide for the conservation and development of water and related resources and the improvement and rehabilitation of the Nation's water resources infrastructure, and against the consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING CERTAIN POINTS OF ORDER AGAINST CONFERENCE REPORT ON S. 1128, CLEAN WATER ACT AMENDMENTS OF 1985, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. BEILENSON, from the Committee on Rules, submitted a privileged report (Rept. No. 99-990) on the resolution (H. Res. 588) waiving certain points of order against the conference report on the bill (S. 1128) to amend the Clean Water Act, and against the consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

DESIGNATION OF HON. THOMAS S. FOLEY TO ACT AS SPEAKER PRO TEMPORE TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS UNTIL NOON, TUESDAY, OCTOBER 14, 1986

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
October 10, 1986.

I hereby designate the Honorable THOMAS S. FOLEY to act as Speaker pro tempore to sign enrolled bills and joint resolutions until noon on Tuesday, October 14, 1986.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

Without objection, the designation is agreed to.

There was no objection.

PERMISSION TO FILE CONFERENCE REPORT ON S. 2638, NATIONAL DEFENSE AUTHORIZATION ACT, FISCAL YEAR 1987

Mr. RAY. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the bill, S. 2638, the National Defense Authorization Act for fiscal year 1987.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

GENERAL LEAVE

Mr. RAY. Mr. Speaker, I ask unanimous consent that all Members be permitted 5 legislative days in which to extend their remarks and to include therein extraneous material on the bill, H.R. 4354, which passed the House today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

DEDICATION OF THE JOHN F. KENNEDY MEDICAL CENTER IN CHICAGO

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Mr. Speaker, I rise to call to the attention of my colleagues in the House of Representatives the dedication on October 23, 1986, of the John F. Kennedy Medical Center, located in the 11th Congressional District of Illinois which I am honored to represent.

Formerly known as the Northwest Hospital, this medical institution has provided outstanding quality health care for more than three decades for the people of the city of Chicago, and its renaming has been inspired by the numerous improvements in services and many accomplishments of the hospital during the last few years. Exemplifying the spirit of our late President, John F. Kennedy, the executive director of the hospital, Peter Rusin, obtained the endorsement of the Kennedy family in renaming the hospital in honor of President Kennedy.

A copy of the board of trustees resolution renaming the hospital follows:

RESOLUTION OF THE BOARD OF TRUSTEES OF NORTHWEST HOSPITAL

Whereas, for the past several years, Northwest Hospital has undergone structural and personnel changes, including but not limited to the reorganization of the Laboratory, X-Ray, Anesthesia, Emergency Room and Physical Therapy Departments; and

Whereas, the medical staff has been restructured and now has a youthful, energetic image reflecting the religious, ethnic and democratic characteristics of the neighborhood; and

Whereas, former President of the United States, John F. Kennedy, symbolized the characteristics of youth, energy, progress and integrity, and further, because of his support and concern for the health and welfare of the American public, he utilized his influence for the promotion of programs for the benefit of increased and improved health care for all people; and

Whereas, the hospital serves persons of all ages, ethnic and religious beliefs, regardless of race, color or creed; and

Whereas, the hospital is vitally concerned with furnishing the best possible medical and hospital care for those patients; and

Whereas, the officers and trustees of the hospital have voiced their admiration for the late John F. Kennedy and for his ideals and concern for those citizens in need of medical attention; and

Whereas, the trustees of the hospital deem it appropriate and fitting that the name of the hospital be changed to reflect their admiration and appreciation for the efforts made by John F. Kennedy on behalf of quality health care; and

Whereas, it is appropriate and fitting that this name reflects the new beginning of this hospital which has risen from the changes mentioned above; and

Whereas, the name John F. Kennedy symbolizes our mission of providing a high quality, cost effective continuum of health care services, which is accessible to all, and which meets the needs of our community: Now therefore, be it

Resolved by the Trustees of the hospital that the name of Northwest Hospital be changed to John F. Kennedy Medical Center, and that all legal steps statutorily required be taken to effectuate such change in the spirit of the recitals of the preambles forming part of this Resolution.

During the last 6 years, Northwest Hospital has restructured and improved several of its medical departments, and has engaged in an ambitious plan to develop new programs and acquire the latest medical technology, which will enable the John F. Kennedy Medical Center to provide our community with the most advanced medical services available. A summary of the major improvements and accomplishments of the Northwest Hospital since 1980 follows:

MAJOR ACCOMPLISHMENTS AT NORTHWEST HOSPITAL SINCE 1980

ORGANIZATION/ADMINISTRATION

Completed reorganization of the Board of Trustees.

Appointed Mrs. Lucy Wolski as assistant administrator.

Completed extensive management reorganization which included the appointments of six vice presidents.

Engaged the services of Kevin B. Tynan and Associates, marketing firm, to reassess and develop marketing strategy.

Engaged the services of Coopers and Lybrand, management consulting firm, to assist in long-range strategic planning.

MEDICAL DEPARTMENT CHANGES

Re-organized Anesthesia Department. Dr. Anastacio Saavedra, formerly of the University of Illinois, appointed director of anesthesia.

Restructured Radiology Department. Dr. Perry Rudich, formerly of Michael Reese Hospital, appointed director of radiology.

Appointed Dr. Ebrahim Amir-Mokri as director of surgical and clinical pathology.

Appointed Dr. Michael Rosenberg as director of emergency room services.

Dedicated Endoscopy Lab in the name of the late Dr. Eli Samet.

Completed development of strong quality assurance and physician peer review process.

NEW DEPARTMENTS

Extended Care Unit, Family MedCenter, Free-to-Be Child Care Center, Gift Gallery, Medical Library, Same-Day Surgery Department, and 24-hour Surveillance Unit.

DEPARTMENTS RESTRUCTURED AND OR WITH NEW DEPARTMENT HEADS

Accounting, Dietary, Marketing, Medical Records, Microbiology, Pharmacy, Physical Therapy, Quality Assurance, Respiratory Therapy, Social Service, and Training and Education.

MAJOR EQUIPMENT ACQUISITIONS

Northwest Hospital was first hospital in Chicago to implement computerized cardiac monitoring system (CAMS).

Cardiac Resuscitator put into use.

PHYSICAL PLANT CHANGES

Emergency Room moved to a new location with 15 patient stations, 2 fully equipped trauma rooms, and ENT (ear, nose and throat) area.

Seven story pavilion completed with 16 surgical suites, 170 patient beds, 12 surgical intensive care beds, 16 recovery beds, 20-bed surgical surveillance area, and offices, classrooms, auditorium.

Major Avenue annex opened to house business functions.

Remodelled employee and guest dining room, lobby and patient lounges.

Built an eight-level garage providing free parking for outpatients, visitors and employees.

Remodelled Physical Therapy, Obstetrics and Pediatrics departments.

Dedicated new chapel to Lillian and A. L. Salzman.

OTHER DEPARTMENTAL CHANGES

Computerized Medical Laboratory.

Expanded Physical Therapy department.

Implemented triage system of patient care to expedite emergency services.

Computerized patient admitting system.

COMMUNITY HEALTH PROGRAMS

First Children's and Adult Health Fairs.

Launched series of extensive community health events.

Screenings, cataract and glaucoma, hearing, diabetes, blood pressure, prostate cancer, skin cancer, colo-rectal cancer, testicular cancer, lectures, eye health, arthritis, medication, Medicare, sexuality, and other topics.

Mr. Speaker, on the occasion of the dedication later this month of the John F. Kennedy Medical Center in Chicago, I congratulate executive director Peter Rusin, the members of the board of trustees, and all of the members of the staff at the hospital, as well as the dedicated volunteers, for their exemplary efforts in providing our community with the very best in health care, and I extend to them my best wishes for future success as they continue to serve our community and the city of Chicago by providing in the future, as they have in the past, the finest and most up-to-date hospital and medical services.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House the gentleman from Texas [Mr. LELAND] is recognized for 5 minutes.

Mr. LELAND. Mr. Speaker, I was unavoidably detained off the Hill on official business during rollcall votes 458 and 459. Had I been present I would have voted yea on rollcall 458 and nay on rollcall 459.

ARKANSAS SHOWING THE WAY TO AFFORDABLE HOUSING

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas [Mr. ALEXANDER] is recognized for 5 minutes.

Mr. ALEXANDER. Mr. Speaker, this week the affordable housing work of two groups of West Memphis and Crittenden County Arkansans earned national recognition. I bring this to the attention of the House because I believe my colleagues will be interested in their accomplishments.

On Monday Samuel R. Pierce, Jr., U.S. Secretary of Housing and Urban Development, as a part of the observation of the International Year of Shelter for the Homeless, announced awards to 150 local projects, spotlighting their efforts to improve shelter and services for low-income people. Two of these awards went to projects based in West Memphis. Both involve not only West Memphians, but people from other parts of Crittenden County.

The oldest of the efforts has generated affordable housing in a Neighborhood Development Area of southeastern West Memphis. The second project is West Memphis Private/Public Sector Home Imnprovement Program which aids low-income homeowners to obtain affordable home improvements.

The oldest of the projects, Affordable Housing—the Crittenden County Experience, took root in 1982 nutured by lessons learned through a U.S. Department of Housing and Urban Development sponsored demonstration at Harvard Yard in Crittenden County.

West Memphis homebuilders and industry leaders Don Butler and Jack Avery recognized the desperate need for affordable housing for potential low-income home buyers. They were convinced that members of the Crittenden County Home Builders Association could successfully transfer the experience of Harvard Yard to nearby West Memphis if State and local regulations could be improved to allow new construction on smaller-sized residential lots.

Under the leadership of Don, who is now president of the Arkansas Home Builders Association, and Jack, who is president of the Crittenden County Home Builders Association, the CCHBA convinced West Memphis officials to give it a try. Thus far, about 40 low-income home-buyer affordable houses have been built in the southeastern section of West Memphis. And, similar homes are going up elsewhere in the city and Crittenden County.

The attractive homes range in price from $22,900 for a two-bedroom house to $38,800 for a three-bedroom, two-bath house.

So successful has been the Crittenden County experience with construction of affordable housing, local builders are regularly requested to provide briefings and technical assistance to their colleagues and to local government leaders in Arkansas and many places across the Nation.

In 1985, the National Association of Home Builders awarded the Crittenden County Home Builders Association first place in its small associations in the builder category for working with the U.S. Department of Housing and Urban Development and local and State government officials to eliminate unnecessary construction regulations in connection with accomplishing the affordable housing program.

That same year, NAHB gave its "Building Better Communities" Grand Award, in the nonbuilders category, to John Suskie manager of the Little Rock office of HUD. He was recognized for promoting use throughout Arkansas of innovative methods and solutions employed in the Harvard Yard demonstration.

The West Memphis Private/Public Sector Home Improvement Program is a private and public sector cooperative program sponsored by the Community Housing Resources Board of West Memphis, Inc. This program won 1 of 16 Special Merit Awards presented by Secretary Pierce.

In January 1985, the West Memphis Community Development Agency proposed the program which brings together low-income homeowners, lending institutions, and home improvement contractors.

In addition to officers and executive board members of the Community Housing Resources Board, primary participants in the affordable home improvements project include low-income homeowners, representatives of private sector lenders, five small construction firms and the West Memphis city government.

During the first 18 months of the program, more than 70 homeowners, most of whom live in predominantly black, lower income neighborhoods were enabled to improve their homes. The project hopes to increase this number to 90 by the end of this year.

The partnership works with program applicants to pull together a combination of grant and loan funds and contributions by the homeowners. Thirty-eight of the first group of families participating obtained private sector loans, 28 families were able to make cash contributions to the cost of their home improvement repairs, and 7 received a basic emergency grant of $1,500 each.

West Memphis' Community Development Agency uses Federal community development block grant funds to make home improvement grants, to assist with loan financing and to pay a portion of unforseen job costs arising from problems identified after the private sector loan closing.

The average cost of the home improvement jobs has been $5,150. The range of monthly loan repayments has been $30 to $100, with

the average being $57 per month. Other statistics of interest in connection with this program include:

Forty percent of the households involved had incomes below the poverty level;

Ninety percent of the households have had incomes below the HUD very-low-income-limits;

Ninety percent of the households have been headed by minorities;

Eighty percent of the households have been headed by women; and,

Seventy percent of the households have been headed by persons who are 60 years old or older.

All such programs have their share of statistics, but the bottom line of this program is people. Comments from two participating homeowners show the kind of impact it is making on the lives of the participating families. "Before, the children would hide from school friends passing by," one homeowner said in talking about the improvements to the family's home. "Now, they hurry home from school and sit proudly on the front steps."

Another homeowner participating had the following to say: "It would rain in the house, and I'd jump out of bed to put down all my pots and pans to catch the leaks. I was so used to doing this that I still wake up at night before remembering that it's not going to rain in my house any more. I praise the Lord!"

In addition to aiding low-income homeowners to afford home repair improvements, the program is designed to provide employment and training for minority contractors and the workers.

The workers use low-cost materials and traditional construction techniques and skills to demonstrate methods of accomplishing affordable home improvements.

This week's awards to the two West Memphis programs have demonstrated that sheer hard work, determination, innovation and cooperation between the private and public sectors can provide affordable home buying and home repair improvement opportunities for low-income Arkansans and Americans.

At this time, I would like to make a part of the RECORD the summaries on these two programs which were published by HUD in connection with the awards made by Secretary Pierce.

AFFORDABLE HOUSING—THE CRITTENDEN COUNTY EXPERIENCE

Local builders Don Butler and Jack Avery, recognizing the desperate need for decent housing in the southeastern section of West Memphis and demonstrating the marketability of the affordable housing concept, obtained permission from West Memphis officials to build such housing on available lots in this Neighborhood Development Program area. The affordable housing concept, a scaled-down version of the "typical" American home, is designed to provide decent shelter with sufficient amenities and visual appeal to be marketable but at a price affordable to lower income people. When constructed in existing lower income neighborhoods as in-fill, it is an extremely practical means of improving the neighborhood and increasing the housing supply for lower income people. Since 1984 almost 40 homes have been built in the area. The lowest price for a two-bedroom home was $22,900; the highest price for a three-bedroom, two-bath home was $38,800.

In many cases, dilapidated and condemned housing was torn down to provide buildable lots for these new units, and in a few instances individuals who owned the lots used their value as down payment and closing costs for the new home. Families who do not have enough cash for the down payment and closing costs may provide some or all of it through a "sweat equity" program, which allows them to do a part of the work, such as interior painting or landscaping, and receive credit for the value of their work toward the cash necessary for the required investment. Over 90 percent of the purchasers are first-time home buyers. Some were previously living with parents; several are single-parent households. Without the availability of these units, home ownership would have been an impossibility for most.

The project significantly increases the availability of decent housing for lower income people in West Memphis and is an ongoing process that will continue to provide new housing. Funding for the project is through various FHA subsidies and Community Development Block Grants. The housing in this project is made affordable primarily through design considerations for eliminating waste and the relatively small size of the units. Also, constructing the homes in a developed area with existing infrastructure and on small lots helps to hold down cost. Since this housing project involves new housing construction, it has a substantial impact in the community through the construction jobs that it generates.

WEST MEMPHIS PRIVATE/PUBLIC SECTOR HOME IMPROVEMENT PROGRAM

The Community Housing Resources Board of West Memphis, Inc., demonstrates the feasibility of a private/public sector home improvement program. In January 1985, the Community Development Agency (CDA) of West Memphis began to outline a new program that would make it easier for low-income homeowners to obtain home improvement loans from private lending institutions. Following 3 months of planning, the first private sector home improvement loan was made. Since then, 71 households have been able to improve their homes because of this partnership of low-income families, two local lending institutions, five small construction firms, and the CDA. Improvements in the predominantly black lower income neighborhoods of West Memphis are evident. By January 1987, the West Memphis private/public home improvement program will have helped approximately 90 low-income homeowners repair their houses.

The partnership also provides employment and training for minority contractors and their work forces. Traditional construction techniques, methods, and skills applied by local workers using low-cost materials serve to demonstrate and extend affordable construction practices. Private lenders and low-income homeowners gain first time experience in dealing with one another. In addition to learning to manage their loans, the owners are instructed in the maintenance of their homes. In its totality, including the use of construction standards appropriate to affordable housing repair, the West Memphis private/public partnership constitutes a new local policy for the encouragement of affordable improvements to existing housing.

NEW IDEAS VERSUS NEW TAXES: THE CHOICE FOR 1986

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia [Mr. GINGRICH] is recognized for 60 minutes.

Mr. GINGRICH. Mr. Speaker, I do not intend to take all of the time, but I appreciate your recognizing me.

Mr. Speaker, this special order is entitled "New Ideas Versus New Taxes: The Choice for 1986."

The key choice for America in 1986 is whether to move forward to new ideas and an opportunity society, or back to the liberal welfare state government of the 1970's, and pay for it through new taxes. The real choice is the future versus the past.

The 99th Congress might be called "the inconclusive Congress." It has been inconclusive because power in America is trapped between the will of the people and the will of the liberal welfare state government and interest groups.

In 1984, the American people voted, 49 States to 1, for new ideas in an opportunity society at the Presidential level. In 1984, the opportunity society candidate, Ronald Reagan, received 59 percent of the popular vote. He received an overwhelming majority in every region: 54 percent in the East, 60 percent in the Midwest, 63 percent in the West, and 62 percent in the South.

Reagan's popular victory was the fourth victory won against the liberal welfare state in the last five Presidential elections.

Analysts forget that Lyndon Johnson's 1964 landslide was the last mandate for a liberal welfare state in American elections. In 1968, the two antiliberal welfare state candidates, Nixon and Wallace, received 57 percent of the vote, while Humphrey, the liberal welfare state candidate, only received 43 percent of the vote. While the Nixon-Humphrey race was close, it has been clear in consequent elections that Wallace's 14 percent was an antiliberal welfare state vote, because they have all gone against the liberal Democrats in every Presidential election since.

In 1972, the liberal welfare state candidate, George McGovern, only received 38 percent of the vote.

In 1976, the choice was confused by the fact that Jimmy Carter had campaigned as a populist, commonsense, Southern Democrat, who won the nomination by opposing liberal candidates. In the fall election, many conservative Democrats found Carter acceptable, and he received 50 percent of the national vote, to Ford's 48 percent. However, note that even with a Southern semiconservative candidate, the Democrats could only receive 50 percent of the vote, and that is the high-water mark for the Democratic Party in five elections for President.

By 1980, the liberal welfare state was collapsing, with 13-percent inflation, 22-percent interest rates, rising unemployment, American helicopters burning in the Iranian desert, a Soviet Army in Afghanistan, and a Communist government taking over Nicaragua.

The American people in 1980 rejected the liberal welfare state and the Democrats. The Democratic nominee received only 41 percent of the vote in 1980.

In 1984, the liberal Democrats promised to raise taxes and to return to weakness in foreign policy, and the American people repudiated them. Walter Mondale received only 39 percent of the popular vote.

Thus, in the five Presidential elections since 1968, the Democrats have averaged only 42 percent of the vote. Fifty-eight percent of the American people have rejected the liberal welfare state Democratic Party on the average for five Presidential elections. That is a 20-year pattern of almost three out of every five Americans rejecting the liberal welfare state and its primary advocate, the liberal Democrats at the Presidential level.

If for 20 years the American people have been voting against the liberal welfare state, how has it survived? Even more incredibly, how has the liberal welfare state managed to grow and have taxes raised on the American people to finance it?

Consider how remarkable an achievement the liberal welfare state survival is. For 20 years the American people have voted against the past and for the future. For 20 years, the American people have voted to protect their family budgets against tax increases.

□ 1410

For 20 years, the American people have voted to shrink the Federal budget rather than the family budget. For 20 years, the American people have voted to shift from welfare to work fare.

Despite the clear 58-percent vote for change, the liberal welfare state has survived and flourished. Indeed, the liberal welfare state has grown and taxes have gone up.

Today, the Federal Government takes up a greater share of our incomes than ever before in peacetime.

How has the liberal welfare state avoided the popular will and how is it that the American people have voted for 20 years by 58-percent margins to go in one direction while their Government has gone in a different direction? The answer is to be found in the reality of incumbent advantage.

As David Broder wrote last spring, it is clear that incumbent advantage has slowed down the rate of political realignment. The Presidency is now the office most open to the popular will. Senate seats have shown themselves to be fairly open to popular will. In 1980 there was a decisive shift of Senate seats away from liberal welfare state Democrats and toward opportunity society Republicans. In 1980, Senate incumbents were about 5 times as vulnerable to change as House incumbents.

Today the U.S. House of Representatives is the least vulnerable to change of the three elected Federal offices. Where the Founding Fathers expected the House to be the people's House and, in fact, the most open to change, it has become the incumbent's House and is now the least exposed to the people's will.

How did this happen? After the 1974 Watergate elections the Democrats found themselves in possession of a number of Republican seats because of the unique circumstances of that election, the combination of the oil price shock, the economic pain, and Watergate itself. Freshman Democrats were both very numerous and very scared. They knew that if the elections in 1976 were held as they normally would be, if the incumbent had the normal advantages that 30,000 or 40,000 Democrats would be defeated because they were occupying very Republican seats, that they held only because of scandal and recession.

The result was that the freshman Democrats decided their No. 1 challenge was to build up the incumbent advantages so that they would never face a fair fight. There was a deliberate effort in 1975 and 1976 to increase the office staffs, to increase the mailing privileges, to increase the amount of money available for travel to give the incumbent in effect an official tax paid campaign in addition to what they would face during the election cycle. The result was that in race after race in 1976 and beyond Democrats who were very liberal retained seats in Republican districts that are very conservative. In fact, this incumbency advantage has developed to such a degree that in 1984 Ronald Reagan carried more Democratic seats than he carried Republican seats. Literally, the President of the United States carried more Democratic congressional districts than he carried Republican congressional districts or than there are Republican congressional districts. Ronald Reagan carried 182 Republican congressional districts and he carried 189 Democratic congressional districts. If it had been a parliamentary election in the British or the German sense, the Republican margin in the House today would be 391 seats. But, in fact, because of reapportionment, because of incumbent advantages, because of approximately $1 million in publicity, direct mail, staff, office accounts and other advantages, no incumbent runs as an equal. I say this as a Republican and it is true for all of us.

But if the Congress has been in a 20-year cycle of voting against Democrats, it is the liberal welfare state Democratic incumbents who have been peculiarly helped by being helped through reapportionment and State legislatures, and through incumbent advantages of the taxpayer paid accounts to have an advantage. If you consider this willingness to use, in effect, official advantages to try to rig the election by ensuring that the average voter does not have a really fair choice, that the incumbent Democrats will first start with about $1 million in advantages, and those built up over the years, and then the election starts so that the challenger has almost no real hope of running a serious competitive race in most congressional districts right now, then you can understand why the country, the Nation, the American people can vote 58 percent against the liberal welfare state again and again and again, while at the same time House Democrats just ignore the votes and go about voting for tax increases, for a bigger liberal welfare state and for more government.

In this same setting, the same psychology of the incumbents being able to ignore the will of the people, one has to look at the current argument about whether or not people who are dead or people who have moved away should be taken off the voting rolls. There has been a remarkable process in the last 2 weeks in Democrats with a totally straight face have argued that taking dead people off the voter rolls is clearly an effort to intimidate voters, in effect, that there is a civil right to vote after you die.

Why are they making this argument? The reason is very simple. They know, according to the U.S. attorney for northern Illinois, that in 1982 Democrats stole about 100,000 votes; that is, in the election for Governor in Illinois, which was won by about 5,000 votes, the Democratic candidate received approximately 100,000 votes of people that had either died or moved away. Expressways have been voted, vacant lots have been voted, empty buildings have been voted, and in one case I can cite a person who died and voted in six consecutive Democratic primaries after they were dead, no mean achievement.

In that setting, let me suggest that had the dead and the moved voters not been voted illegally that the Democratic nominee for Governor would have lost by 105,000, a rather significant difference between a very close squeaker of 5,000 and the much larger loss of 105,000.

In Louisiana, in the last decade, two Members of the U.S. House of Representatives have resigned from their seats under indictment for stealing an election. One of the two subsequently

went to jail for having stolen an election.

In Indiana just this year Democractic election officials in southern Indiana have been indicted by a Federal grand jury for buying votes and for being involved in trying to steal an election.

This is a very important question. If one of the purposes of a democracy is to have only live voters allowed to vote and to have honest elections where your vote counts, it is very clear at the national level when the margin is 58 percent against the liberal welfare state and 42 percent for the liberal welfare state Democrats that it is impossible to steal a national election on that scale. But when that popular will gets down to a local congressional race or a local State legislative race, 5,000 illegal votes, 5,000 dead voters can make a big difference. In effect, the incumbency advantage and the dead voter, former voter advantage of legal elections that are stolen are two of the major ways in which the liberal welfare state Democrats have propped up the past.

The process that is underway is fascinating. If you think about it, the Republican Party has become a opportunity society party of the future, a party of new ideas, a party trying to change the Government. We are out trying to encourage young people to register to vote because we are getting something like 65 percent of the young people who register to vote Republican.

At the very same time, the Democratic Party, which has become the party of the past, a Democratic Party that props up a liberal welfare state that is now 30 or 40 years old, that party seeks to keep people voting after they die so that, in effect, the Democratic Party wants to use the votes of the dead to seize power from the votes of the young so that they can continue the Government of the past and stop the development of the future.

In this setting, one of the statements made by the U.S. attorney from northern Illinois is particularly important. He said the only way you can ensure honest elections is to purge voting rolls every 2 years so that there is not a pool of dead and moved voters for the local official to use illegally on election night. If the only people on the rolls are real people who are really eligible to vote, then the election official, even if he is tempted to steal the election, finds it very difficult to set up an election theft. But if you have a voter roll that has 20,000 or 50,000 or 100,000 dead people and people who have moved away sitting on that roll, then the temptation for a liberal welfare state Democrat to save the past by voting the past is very, very powerful indeed.

□ 1440

Now in that setting, we should be reminded of Lord Acton's warning that "power tends to corrupt, and absolute power tends to corrupt absolutely." There was a certain level of chutzpa in having machine Democrats, people who had been elected in a long tradition that goes back to Tammany Hall, to the Cook County machine of Mayor Daley in Chicago, to the stolen elections in Texas of Lyndon Johnson.

To have those kinds of machine Democrats go to the news media with a straight face and pretend that the right of dead people to stay on the rolls is a civil rights issue, only at a time when they had lost any sense, I think, of reasonable, common morality could a politician go and make the case with a perfectly straight face that it is wrong to take dead people and people who have moved away off the rolls, and it is wrong to be concerned, to have an honest election.

The fact is, the Democrats do not have much choice. When you are faced with five consecutive repudiations by the American people at the Presidential level, when it is clear in every poll that the American people want workfare, not welfare, that the American people want smaller government, not higher taxes; that the American people want a strong foreign policy, not the weakness of the liberal welfare state.

When it is clear from every poll that the values and the dreams of the American people rest in an opportunity society future, not a liberal welfare state past, then if you are the Democrats, you have a very difficult time finding a majority coalition.

The fact is, the Democrats want to protect the liberal welfare state Government of the 1970s; the Republicans, and I think the American people, want to create the opportunity society of the 1990s.

Why is this all so important? How does it relate to 1986? This is not just a game; what Frank Kent in a book written in the twenties called The Great Game of Politics. This is the fundamental choice of the American people between the past and the future. It is the fundamental choice of the baby boom generation and its children, of where do we go as a country in the nineties.

To understand how fundamental that choice is, let me carry you back to 1965. Measure in your own mind if I am describing America as you have lived through if for the last 21 years:

Around 1965 the baby boom generation had gained enough momentum and was large enough to begin asking a series of questions, questions that emerged through the sit-in movement, through the free speech movement, through the antiwar movement. There are essentially five of them:

First of all, they said isn't it true that Government creates jobs better than free enterprise, and all of the Socialist professors said yes it is.

Second, they said isn't it true that high technology is more dangerous rather than beneficial. And the left said yes it is.

Third, they said isn't it true that you can't really allow those yokels to have power and we need centralized bureaucracies that are smart to protect us from all of those dumb local governments. The left said yes it is.

Fourth, they said isn't it true that traditional values are old-fashioned and that drugs and radical lifestyles really involve no risks. The left said that's exactly right.

Fifth, finally they asked isn't it true that the world is not dangerous, American leadership is just paranoid. The left said you're exactly right, the world is Epcot Center and the United States is a bully.

The fact is that on all five of the major questions asked by the baby boom generation the American left was fundamentally wrong. But the left was also very powerful for 15 years. And what happened? All of you lived through this and can measure it from your own memories.

By 1980, we had a President whose drug adviser was fired for illegally prescribing drugs. Remember Peter Bourne, people have forgotten him but he was Jimmy Carter's drug adviser. Why do I blame the left for the current drug crisis. Because when the Presidential adviser says "of course we're going to legalize heroin" and goes around illegally prescribing drugs, that helped create the mess we are in. The average young person watching the Carter administration's drug adviser had to be misled. After all, if the President's drug adviser does it, it can't be that bad.

Second, we had tried Government domination of enterprise and it had failed. By 1980, we were at 13 percent inflation, 22 percent interest rates. Do some of you remember these figures? We were heading into the worst unemployment crisis since the Great Depression. By 1980, the American dollar was disintegrating so fast that Italian hotels wouldn't take greenbacks—that was literally true.

Furthermore, our military capability collapsed. When Reagan used the U.S. Navy to send the warning to Qadhafi by bombing Libya, I made the comment that we could not have done that in 1980 because the Navy couldn't have found Libya but that was not bad because they didn't have any bombs anyway.

But remember 1980? American helicopters burning in the Iranian desert. The Soviet Army invading Afghanistan. Communists taking over Nicaragua, while we were told by the liberals

"they're not really Communists, they're just good guys who use the wrong code words."

What was the left's answer. It was the famous "Malaise speech." Remember the Carter attitude? We are all going to live in misery, but as a liberal he promised you it would be equal misery. And the left already had a plan for misery stamps.

If you think I exaggerate how bad it was, as a freshman in 1979, I helped fight against gasoline rationing. Remember the left's energy analysis? At $5 a gallon for gasoline—they were only off by a factor of 10—working people will not be able to afford getting to work. Therefore the left said the only solution is to take power out of your pocketbook and put it in the bureaucrat and let them issue you gasoline stamps.

And if you think I exaggerate, I'll show you the debates in which the liberal Democrats said just that.

Now what happened? Luckily we live in a free society. The average American is not necessarily sophisticated but is reasonably wise—wise enough to buy cars, and buy houses, and find jobs, and drive to work without a wreck most mornings. The average American can do lots of things we don't think about when we get academics into a room to analyze popular opinion. In 1980, the average American said, "Let me understand. I have this unknown, untested guy from California and I have this known tested product that is destroying the country, how should I vote this fall?"

They decided that guaranteed failure was probably not a good idea.

Thus, in 1980 they elected a new team. And in a very shocking upset, they gave Republicans control of the U.S. Senate and they elected a guy who, I will say to you, no one thought would be as great a President as he is.

The truth is that Ronald Reagan now ranks as one of the two or three greatest Presidents in the 20th century with Franklin Roosevelt. He is an extraordinary figure.

The first time I sensed he was going to be extraordinary was the January 1981 day he was sworn in. Sitting up there on the Capitol steps for the inaugural. The Sun was beginning to shine. Word began to pass among us that the American hostages had left Iranian airspace literally while we were sitting there. And Reagan said one sentence that no one on the left could have said. And I'll repeat it to you and you tell me if it's not exactly right.

He said, and I quote: "We have every right to dream heroic dreams, after all we're Americans."

And nobody on the left could have said that because, in the first place, the idea of heroics is romantic and left wingers are no longer romantic, they're cynical. In the second place, nobody on the left could have said that because to suggest that being American is special is nationalistic and chauvinistic and nobody on the left wants to be those things. And in the third place, it was optimistic and the left had given up optimism sometime around 1968.

Yet the country at the gut level reacted because it was what we've always been. It was what made us different. We're not different because we're white or black or yellow or brown. We're not different because we're men or women, or young or old. We're different because we grow up in a fantasy called the American dream.

We're different because we actually believe at some deep gut level that the world can be different, that we can transcend race, nationality, ethnic background, and we can reach out and together create a world that's exciting and dynamic that our children can have a bigger pie and a better hospital that it can all work.

The job is to roll up your sleeve and go to work and not just argue with each other.

And that's different than any other dream on the planet. And we had forgotten that for awhile. We had lost our way.

□ 1430

Ronald Reagan also poses a problem for our generation. Ronald Reagan saved America from the collapse of the liberal welfare state. He literally turned us around psychologically, economically, politically. And that is the most any one person can do for a country of 250 million people.

And to expect him to turn us around, pull us back from the brink, and create the nineties is more than is reasonable to expect of one man, even a giant.

What he has really done is bought time for our generation to get our act together. He has bought us a few years to look out there and see Japan, and Taiwan, and Korea, to look at Germany and to say to ourselves do we want to roll up our sleeves again, do we want to go back and compete or do we want to run and hide and decay like Great Britain?

It's a very real choice we face in the next decade. Let me give you one example: Last year in a test that was conducted, 75 percent of the Japanese scored higher in mathematics than the top 5 percent of Americans. We have a very simple choice in an emerging information industrial society. Either we clean up our process of education so that we're able to compete head to head or we quit the world market. No big complicated choice.

We're not going to stay in the game in the world market when 75 percent of their students are better prepared for the computer age than the top 5 percent of our children.

And you can go through study after study. The Japanese graduate 500 lawyers a year, we graduate 30,000. As the most litigious society on the planet, we're not going to be able to both sue our entrepreneuers and expect them to create jobs. We face a very serious choice, do we want to reform our litigious system or do we want to decay and hide from the world market?

We have doubled the share of our gross national product that goes to health care. We have also dramatically expanded the quality of life for people as we get older. But we better start thinking through how we're going to have dramatic reductions in the cost of health care with less bureaucracy and less red tape. I do not want cost containment I want improved product and less cost. That's the American tradition, something better for less that is what entrepreneurial capitalism and technology are all about.

And that's very different from the mess we're drifting into, which is an increasingly bureaucratized, increasingly socialized, increasingly redtaped medical system. So you take case after case and you can say to yourself, if you're honest about the future, we have to change. Now a lot of people will tell you that politicians should never talk about change. Change, they say, scares people, and it may if you're not Americans.

You know, the other great President of the 20th century, Franklin Delano Roosevelt, a man who had had polio, who could stand only with braces and only with enormous effort, said in his first inaugural we have nothing to fear but fear itself. I think it is in that tradition that Ronald Reagan, who was at one time a Franklin Delano Roosevelt New Deal Democrat, that Ronald Reagan would have said that change is American; to continue to adapt to develop his America.

Let me tell you what I have been saying to older people, because they are statistically the people most afraid of change.

I have been asking people at the American Association of Retired Persons meetings, "How many of you have ever lived in a house that never had electricity?" In Cedartown, two-thirds of the people raised their hands. In Hapeville, one-third raised their hands. Now, think about that for just a moment. Right now today in Cedartown, GA, two-thirds of the folks I was talking with at one time in their life lived in a house without electricity. In one lifetime they went from no electricity to lights, refrigerators, freezers, microwave ovens, videotape recorders, cable television, electric toothbrushes, air-conditioning. In their lives they have experienced change, and they know that most of the time for most Americans change has been progress.

Now that we have agreed that change is American, let us talk about the next cycle of change.

Because none of us have to be afraid of change as long as we are rationally talking about it and we are controlling it. The only changes we have to fear are the changes that come out of the dark because our politicians don't have the guts to tell us about the future.

There have to be major areas of fundamental, discussable change, including health care, education, the welfare system, the process of retirement, mutual trade and the world market, the military, drugs, you can walk through them step by step.

Let me bring this back just for a moment to the whole notion that our history is a very simple one and one that I hope all Americans think about. We are a Nation made up of people who had the courage to cross the oceans when there were no airplanes or steamships. We are a nation made up of people whose ancestors underwent incredible privation for freedom. Some people have driven a greater distance today than would have been possible to move across by covered wagons in a month.

I used to teach the oldest men's class at First Baptist in Carrollton. One of the men in the 1920's followed an oxcart from Tennessee to Carrollton on a dirt road. As late as 1950, Georgia 166 from Carrollton to Atlanta was not paved. The world has changed remarkably in two generations. It can change remarkably in the future.

We need an agenda for America that lets our children and grandchildren have a chance to be free, to be prosperous, to be safe.

In closing, before I yield, let me just say I think the central issue for 1986 is simple: raising taxes to prop up the welfare state keeps us tied to the past. Raising taxes lets the Democrats, who have dominated the House since 1954, avoid the serious changes in the Government they created.

I can appreciate with a Speaker who was first elected to public office in 1936, whose career was devoted to building the liberal welfare state it is hard to change. I can understand why next year with a new Speaker who will have been first elected to office, I believe in 1948, who spent his career building a liberal welfare state it is difficult to change. But the thing the American public should demand is that the election on Election Day 1986 is a choice between the future and the past, it is a choice between taking a no-tax-increase pledge to force the Government to change or those people who want to prop up the past by raising taxes and taking money out of the pocket of the American people.

I would be glad to yield to my friend from Kansas.

Mr. GLICKMAN. First of all, I want to thank you for yielding. I do consider you my friend even though we are on opposite sides of the aisle but our names are right next to each other on the board. So whenever I look for the name Glickman to vote, I see the name Gingrich right above me. Even though we somtimes do not vote the same way, I am sure we have the same goals in mind, which is a prosperous and healthy America.

It is just that as I was listening to the gentleman and that while there are some things I can agree with, I must agree with his characterization in one respect where the gentleman made a statement that he said it demonstrated a degree of hyperbole. I must tell the gentleman I felt there was a remarkable, rather substantial amount of hyperbole in his statement. It reminded me of the old H.L. Mencken quote, "for every complicated problem there is a simple and a .wrong solution." The gentleman has the interesting way of characterizing all of America's problems as somehow dealing with the "liberal Democratic welfare state." In effect, when you go down and look at the way people vote on the floor of this House, there is a demonstrable lack of difference on major votes between Republican and Democrats. In fact, when you look at where most Members of Congress are on issues and where most members of the public are on issues, there is a demonstrable place in the middle of the political spectrum with respect to almost all Americans and most people in this particular Chamber that we serve in. As a matter of fact, most people are pretty pragmatic. That is the great nature of America as we are willing to look and experiment for change.

I just noticed in the CONGRESSIONAL RECORD itself, the gentleman is talking about no taxes. I noticed the gentleman voted for the Superfund bill; so did I. That raises $8.5 billion worth of taxes. But we know that we had to raise those revenues in some capacity to clean up toxic wastes in America so that folks would not be exposed to carcinogenic wastes and other toxic wastes. Nobody wanted to do that but we knew, and the gentleman must have known, because he and I voted the same way on this bill, to clean up toxic wastes in America. I guess my point is I respect what the gentleman is saying, but I think there is a lot of empty air in what he is saying. He knows as well as I do this is a complicated country with a lot of complicated problems. Most Americans have gravitated toward the center, toward the responsible middle in dealing with these problems; both Democrats and Republicans are. Most people want a government that pretty much leaves them alone but do want to be protected against bigness, against antitrust violations. They want to have a remarkable amount of service in terms of electricity, power, water, transportation, those kinds of things. So I guess my closing point, and then I am sure the gentleman will want to respond, is that his remarks are interesting, but I do not think they have very much substance to them.

Mr. GINGRICH. Let me comment for a second because I am fascinated by the way you managed to frame this. In the first place, as I mentioned in my remarks, 58 percent of the America people in the average Presidential election from 1968 to the present voted against the Democratic nominee. Now, 58 percent is a reasonably big margin. That is literally true. Fifty-eight percent on the average, not the landslide, on the average voted against the Democratic nominee if you take 1968, 1972, 1976, 1980, and 1984 and you combine them.

Mr. GLICKMAN. I might characterize it differently, 58 percent voted for the Republican nominee.

Mr. GINGRICH. It does not work out that way because of the Wallace vote and the Anderson vote.

The point I am making which I think is fundamental, and I guess I take exception to what the gentleman said: if you take all the spending bills in this House in the course of 2 years, take the National Taxpayers Union rating, for example, for this year, which is rated now, unlike the past, by volume, by scale; the top 10 percent of big spenders, every single one of them is a Democrat; the bottom 10 percent, every single one of them, the least spenders, are Republicans. There is just no question that is true.

Mr. GLICKMAN. Well, first of all, I would argue with the characterization of the gentleman. I have lived here for 10 years, and I see that the old reference to Everett Dirksen, I once heard a story about him when he was in the Senate, the Senate majority leader—minority leader at that time, and he was putting some money in the water bill, and his colleague, Paul Douglas, said to him, "Everett, I thought you were a conservative, I thought you did not like to add Federal spending. I thought you were a man of principle." Everett responded, "I am a man of principle but my first principle is flexibility."

The fact of the matter is that is true regardless of whether you are a Republican or a Democrat, and I do not like to see anybody hide behind labels whether they are extraneous labels to their party or to themselves, because the fact of the matter is, if I may just finish and go on, no matter how you characterize how Members vote, for the most part Members vote what is best for their districts, for their States, and for their country. That is what we are elected to do up here. I just think the gentleman's characterization about—a certain characteriza-

tion of people on one side and certain on the other side is just not true, totally.

Mr. GINGRICH. The gentleman would not accept as a generalization in the legitimate sense—maybe because I was a college teacher although I was a history teacher and not a political scientist—but the gentleman would not accept as a generalization that it is fair to say that the Democratic Party is likely to have more people favorable to the liberal welfare state than the Republican Party.

Mr. GLICKMAN. I would not because I do not know what the liberal welfare state means in the way you define it.

Mr. GINGRICH. I will give you an example out of the CONGRESSIONAL RECORD. I got up on the floor this year and I offered the amendment to put into the bill the Reagan Workfare Program. There were 183 vote for that amendment, most of them Republican, a few conservative Democrats. There were 220-some votes against that amendment; overwhelmingly they were Democrats.

I would say it is a fair characterization to say that on that day in this House that Republicans were collectively mostly willing to vote for workfare, Democrats collectively were mostly willing to vote against workfare.

Mr. GLICKMAN. OK, now if we may examine that, because in the Agriculture Committee I am working on the workfare concept.

If you look at the Reagan Workfare Program, it offers virtually no flexibility for the States, offers them a great financial disadvantage in getting the program started. But if the gentleman is saying there are certain Members who reject workfare just from a knee-jerk reaction, there may be, and they are wrong, they are wrong.

Mr. GINGRICH. And they tend to be Democrats.

Mr. GLICKMAN. That I will not agree with. I am saying the question you have to define is, Can you demonstrate we can devise as good programs that work?

Mr. GINGRICH. Now, wait, I just have to go on with this because I am fascinated. The gentleman would not agree that, if we did a content analysis of the debate in the last 4 years, that overwhelmingly the largest number of people who ideologically rejected workfare would happen to be Democrats.

Mr. GLICKMAN. I cannot agree with that because I have not seen the statistics. I think it misses the point. I think the point is that we should be working toward reaching a consensus on the issues.

Mr. GINGRICH. But we disagree.

Mr. GLICKMAN. The gentleman's methodology is to polarize.

Mr. GINGRICH. Wait a second. Let me give you one more example. Your nominee for President in 1984.

Mr. GLICKMAN. You mean the Democratic Party nominee.

Mr. GINGRICH. Well, you are a Democrat, and I assume you voted for Mondale.

Mr. GLICKMAN. All right.

Mr. GINGRICH. I know you do not like labels, but you are a Democratic Member of the House.

Mr. GLICKMAN. I accept my nominee, but the way you characterize it, it was like my brother, my sister, my father. He was my nominee for President.

Mr. GINGRICH. The gentleman makes a good point. The nominee of the Democratic Party, 1984, said, fair enough, that in his judgment, and I paraphrase him, he wanted to be honest, taxes have to go up; and he will tell you right now he will do it, and the only difference is Reagan will not tell you but he is going to do it, too.

Now, a number of us on my side of the aisle, and I served on the Republican National Platform Committee that year, a number of us, the gentleman is correct, literally decided to force a choice. We said, "no"; we said as bad as the deficit is, the deficit is not as bad as a massive tax increase, and there is a difference, I think the gentleman will concede, between those funds necessary, about $1.5 billion a year to take care of a public health problem like toxic waste, and a $60 billion tax increase like a colleague of yours was suggesting.

Mr. GLICKMAN. Wait a second now. Did you sign the no-tax-increase pledge?

Mr. GINGRICH. Which is very specific. It says no tax increase on 15- and 28-percent individual rates and no tax increase on the 34-percent corporate rate.

Mr. GLICKMAN. Your colleague from New York, Mr. KEMP, in voting against the Superfund bill indicated the reason why he did that is because he had signed the no-tax-increase pledge.

Mr. GINGRICH. He takes the pledge. The pledge itself is to the rates in the new reform bill.

Mr. GLICKMAN. So it is a very specific pledge.

Mr. GINGRICH. Very specific. Frankly designed over the next 10 years to freeze rates and create a national understanding that you do not raise those rates.

□ 1445

Mr. GLICKMAN. So the gentleman does not view raising taxes other than income taxes to be subject to your pledge.

Mr. GINGRICH. I happen, for example, to favor user fees. I think there are a lot of things we should consider.

Let me carry it back for a second, because I think the gentleman's points are legitimate.

I think the country ought to choose between fundamentally changing the welfare state of fundamentally paying for it. I agree with half of George Wells' argument. Walter Mondale came forward, legitimately, and said, hey, I am a liberal welfare state Democrat, I believe in government, I want more money. We campaigned on the grounds that you ought to have a whole series of reforms, and the work fair plan was one of them, and you should not raise taxes. That is not a consensus issue. That is a fundamental confrontation between a liberal welfare state approach and an opportunity society approach that are different. I mean there is not a compromise ground in the middle. There may be compromises to get to the ultimate destination, but there are really two very different destinations.

Mr. GLICKMAN. I might say to my colleague from Georgia that I venture to say that if we sat down and we discussed issues on a program-by-program basis, whether it has to do with regulation of banks or transportation or other kinds of things, there would not be very much difference between us.

But I guess what I object to is this incredibly extremist rhetoric on the gentleman's part where you characterize and define somebody called liberal welfare state, which, of course, has a pejorative title; then the gentleman characterize opportunity society which has this most incredible fairy tale title.

Mr. GINGRICH. But in the 1950's, liberal welfare state was an academic term, it was not pejorative.

Mr. GLICKMAN. We do not live in the 1950's, and the gentleman knows that that does not exist right now.

Mr. GINGRICH. It has become a pejorative because we have gotten to know it. But in fact it originally was a set of ideas that said let us raise taxes, create a bureaucracy and it will deliver government.

Mr. GLICKMAN. If the gentleman will yield, I really think the fact of the matter is, I go back to this point, that this kind of argument, while I suppose it is interesting for politicians to talk about, does not necessarily do the people any good, people who are facing bank foreclosures because of farm problems, people are facing lack of air service, rail service because of transportation problems in America, the kinds of things that affect average folk in this country. When they need government help, they could really care less whether you are called a liberal welfare state person or an opportunity society person. They want government that helps then take care of themselves and protect them from big,

bad, greedy businesses, big, bad, greedy government.

I have this feeling by talking in the kind of hyperbolic terms we are talking about today, we do not get any closer to reaching solutions to the kinds of problems that average folks face at home.

Mr. GINGRICH. The gentleman's party created a great national majority that has lasted a long time, because you had a President who talked about the New Deal. He said we are going to create a whole series of interesting ideas and interesting new programs. I am confident there were Republicans in that generation who got up and said, "What does the New Deal mean?" But every American had sort of a gut instinct that Franklin Roosevelt had a direction of an activist government. It is legitimate for politicians to talk in symbolic language to create a frame of thoughts.

Let me go back to the point the gentleman just made. Frankly, I have to say that not only are our names close together up there, but the gentleman from Kansas represents a more moderate Democrat than the majority which controls his caucus. The fact is parties do tend to have sort of centers of gravity. The center of gravity of the House Democratic Party is today on the left. It is on the left on foreign policy. It is on the left on taxes. The gentleman's caucus would vote for a tax increase in the morning. They would come back for a special session on Monday if they thought Reagan would sign it.

Mr. GLICKMAN. That is, of course, why the Speaker of the House has brought a tax increase down to this floor in the last 4 years.

Mr. GINGRICH. Reagan has said he will veto it.

Five leading Democrats in the House have said we ought to have a tax increase.

Mr. GLICKMAN. That is like the ads I see on TV that five doctors on a desert island say that they would prefer Anacin over aspirin. It is an irrelevant statistic.

Mr. GINGRICH. We are talking about the Speaker, the majority leader, the chairman of the Ways and Means Committee, the head of the conference and a senior member of the Budget Committee. These are not random back-bench Democrats we picked off in the corner and got drunk. These are very serious leaders of the National Democratic Party. And I do not disagree with them from their value system. If you believe in a liberal welfare state, you ought to pay for it.

Mr. GLICKMAN. If the gentleman will yield, I do not think that is any way believing the liberal welfare state. That is being a prudent, responsible, balanced person, whether in business, whatever government you have, you ought to pay for it.

Mr. GINGRICH. My point, as I said earlier, maybe before the gentleman came to the floor, is in 5 consecutive elections, 58 percent of the people have voted, on the average, have voted against the Presidential candidate of bigger government. I think that is a fair summarization.

Mr. GLICKMAN. I do not accept that characterization. During the same period of time, a majority of votes have been cast for Democrats in congressional and senatorial races.

Mr. GINGRICH. I also made the point in this House, maybe before the gentleman got here, that there are two big factors to that. One of them is the enormous incumbency advantage that the class of 1974 created as soon as it got here. As the gentleman knows, it is incredibly hard to beat an incumbent who does not get real sloppy; I mean just the weight of paid staff, direct mail; second, gerrymandering which, in balance, marginally helps your party; and third, an issue which came up last week, which is in some States and in some districts, people have voted who are dead. I mean in close races in Indiana in the seat where the gentleman was seated, they have now indicted enough officials involved in enough votes that it is clear the Democrat could have won.

Mr. GLICKMAN. Wait a second. The gentleman is speaking in Orwellian language now. I do not countenance vote fraud whereever it occurs in this country. The gentleman cannot paint that with a brush on either political party in this country.

Mr. GINGRICH. Oh, come on.

Mr. GLICKMAN. It is ridiculous.

Mr. GINGRICH. It is not ridiculous.

Mr. GLICKMAN. It is ridiculous. But I guess we could get into a——

Mr. GINGRICH. Let me ask you because I am quite serious, this is at a good government level, and I think the gentleman will agree with me, who controls, most of the big city machines?

Mr. GLICKMAN. I do not know the answer to the question, because there are a lot of Republican mayors being elected around this country.

The point is most public officials are honest. Most State officials are honest around the country, period.

Mr. GINGRICH. But it was estimated, for example, in Illinois in 1982 by the U.S. attorney that 100,000 votes were cast by people who do not exist.

Mr. GLICKMAN. I have not seen the report.

Let me go back to just one thing, because I am going to have to run. I appreciate the gentleman yielding me the time.

I guess my point in all this is go back to the situation that we have a lot of problems in America, problems that affect average people, problems of trade deficits, banking, transportation and opportunity in the future. I do not want my party to be the party of the status quo and not accept change. I think that is wrong, and I do not think you could find very many people in my party who want to pursue that mode.

But the fact of the matter is the American people do not want to hear blame. They figure there is enough blame and historical hyperbole to go around 100 times over. They want a country that moves forward, and they want solutions to their problems.

I hope that the dialog produces that kind of result, and I appreciate the gentleman yielding to me.

Mr. GINGRICH. I was glad to yield.

I just want to say that I hope next week to bring to the floor 30 or 40 specific proposals for change that have been killed in the subcommittee or committee by the Democratic Party in the House, each of which were to save money.

My only point is to make the case that the Reagan administration and the new ideas Republicans who really think opportunity society really is more than hyperbole really have been trying to move forward a whole wave of change. And it is very, very difficult to get it through in a Democratic House that has been dominated, as I said, by a Speaker who was first elected to office in 1936 and a majority leader who was first elected to office in 1948, and whose natural instincts are to protect the liberal welfare state they created.

Mr. Speaker, I yield to the gentleman from New York [Mr. TOWNS].

Mr. TOWNS. Mr. Speaker, I thank the gentleman for yielding to me.

I came over because the gentleman mentioned on several occasions user fees. I would like to ask the gentleman a question. When the gentleman talks about raising taxes and you say you are against raising taxes, but I think I hear the gentleman say that he would be for user fees.

If the gentleman is for user fees, does not the gentleman think that hurts the people who really need the help, the poor farmers around this country who are reaching out and asking for help in almost every way possible. If we come up with user fees, we are really hurting the folks who we should try to help.

□ 1455

Mr. GINGRICH. I appreciate very much the gentleman's intervention. Let me give you an example of the user fee that is totally appropriate.

That is whether or not the Coast Guard should be reimbursed when it tows in some clown whose yacht ran out of fuel because he did not check before he left the port. Now we have had a system where the Coast Guard will go out and free of charge will tow you in, frankly, for public safety reasons, we do not want you to drown be-

cause you are stupid, but I would ask you the question: If a man can afford a pretty fancy motor yacht and he is 25 miles offshore and because he either was not paying attention or he got a little sloppy or something he has to get towed in, is it really fair for people in your district, most of whom, I suspect, do not own yachts, is it fair for them to have to pay through General Treasury so the Coast Guard is available to go get that guy's yacht, or should we charge a user fee to that guy and say you are going to pay your share of the cost of the Coast Guard coming out here to get you?

Mr. TOWNS. If the gentleman will yield, but what does that really do when you look at the total deficit? When you look at the problems that farmers are having in this country today, what does that really do?

Mr. GINGRICH. You have raised, I think, the central question here. My impression is, and in my own life my experience has been that when a family gets in trouble financially that in fact nickels and dimes do add up. You do learn to be a lot more careful. That if we save, let us say, I am guessing, $70 million, almost nothing by the standards of Washington, but a lot for people in your district, $70 million on that user fee. If we find other appropriate user fees, and user fees by themselves are not going to solve the whole problem. But they are going to raise, the administration proposed, collectively $4.5 or $5 billion. A billion; now billions are moderately big. Five billion dollars is a step in the right direction.

Now, the other thing I would like to see us do, frankly, is rethink from the ground up, virtually the entire Government. Before I want to ask a single family in your district to pinch pennies in their family budget because we raise their taxes, I want to pinch pennies in this city, in this Government.

I will give you an example which normally you would expect to come more from a liberal Democrat. I think procurement in the Pentagon is ridiculous. I think it is crazy the way we procure goods. I think it is crazy. I am not going to go out here and say to your family or your neighborhood, "I am going to raise taxes $750 because we cannot find guys smart enough to buy a $50 toilet seat, so they are buying $800 toilet seats." I am just not going to do it.

Mr. TOWNS. I can understand that and I will agree with you. I think the thing that disturbs me deeply is that when we talk about user fees we generally talk about the driver's license, the marriage license, we talk about boats or yachts or anything of that nature. We talk about the things that really hurt people that are barely making it.

Mr. GINGRICH. Were you in the State legislature? Because the two you mention, driver's licenses and marriage licenses would be at the State level and I frankly have never studied that; I think you have made a good point.

Mr. TOWNS. The point I am making is that we set the tone and if we begin to behave that way here, what will happen in terms of local governments; that is the thing I am talking about. I think that we need to face up to some real issues here. That we have tremendous deficit; how do we close it?

You know as well as I do that the only way to close is to look for revenue. We cannot cut our way out of this mess.

Mr. GINGRICH. Let me ask you something because I really appreciate your coming over and discussing this with me. Are you really prepared to go back home to your district and say to people who are working hard and who work really for take-home pay, they do not work for gross income; they work for the money left on Friday after the Government takes the taxes.

Are you prepared to say to them that in your best judgment we in the Congress have done a good enough job at squeezing waste out of Government and rethinking Government and that we are going to use their pennies wisely? Do you not down deep have to go back home and say, "Look, we do not have the Pentagon really trimmed up, we do not have health care really debureaucratized, we have not really solved these other problems, but I am going to raise taxes anyway because, frankly, it is just too big a job and I cannot get waste out of Washington so I am going to make you get waste out of your family budget."

Does this not sort of bother you that we waste as much money as we do in this city and you would suggest raising taxes?

Mr. TOWNS. The point is that when you talk about waste, that is a separate issue. You know as well as I do that one of the areas that we have a lot of waste in is the defense budget. You know as well as I do. I have looked at it from day one and I continue to say that, that we need to begin to look at some reform and to do some things in some areas that could be cut.

In the meantime, while we are not thinking about that, what are we going to do for poor people in this country that cannot make it? That, as we approach the winter there are people that cannot afford to buy oil. Do we not have an obligation and responsibility in Government to reach and to provide services for those people?

We have people who are homeless in this country that have no way of getting a home. At the same time, we are cutting money out of HUD. I just do not understand our thinking. You seem to be a person that, every now and then, you show great compassion and I am always excited when that happens, but when you look at what is happening in the direction that we are moving in, I think it would have to disturb you as well as it disturbs me.

Mr. GINGRICH. It does. I appreciate the "every now and then," but let me ask you a question. I assume you were talking about heating oil which, as a Georgian, we frankly do not buy a whole lot of it, but is it not fair to say that, from the standpoint of the poor, dropping the price of gasoline from about $1.20 a gallon—in my area right now it is about 60 cents a gallon—that that helped the average poor person, of course, not in New York City where they tend to take the subway more than the car, but the comparable drop in heating oil price, that in fact ending inflation or bringing it down to 2 percent a year, bringing interest rates down from 22 percent to where we have TV ads right now for 2.9 percent financing for cars. Do not those things in the general economy help tremendously for that poor person who is out there who has barely enough money to go to work and now they are only paying 59 or 60 cents a gallon where they were paying $1.20 a gallon under Jimmy Carter. Does that not make a big difference?

Mr. TOWNS. I agree that makes a big difference, but I think the point I really want to make and the point that I came to the floor to make is that as we look at our plans and as you continue to ask people to sign up, do not lose sight of those people who are unemployed, those people who are underemployed, those people who can barely make it because of the lack of income.

When you get people to sign the pledge, ask them to please think about those folks in the process.

Mr. GINGRICH. Before you leave, I want to ask you about one other thing because you have touched on something that really bothers me, and I want to talk about this for a second.

One of the reasons I am so strongly in favor of a no tax increase pledge is that I have seen the record now for the last 46 months where we have created something like 12 million new jobs. We have not done all we should, we certainly have problems in agriculture, we have problems in oil, but it is true that in the last 46 months we have created 12 million new jobs. That has helped everybody; black, white, yellow, brown; we are a little better off.

I guess part of what I mean by an opportunity society is the, what I think is a fact, that private entrepreneurs are more likely to create jobs in Brooklyn or Queens or the Bronx or Manhattan than the Government is. That if we can keep tax rates at 34 percent for corporations and 28 and 15 for individuals, we liberate the energy

and the drive and the creativity of all of those rising young people who want to get out there and invent a job and create a factory and do the things that employ the very people that you describe.

You watch France for a second, and the French tried socialism under Miterrand in 1981, 1982, and 1983 and it failed so badly they are now trying Reaganomics. You look at Hong Kong and Taiwan and Singapore and South Korean and Japan and you see this surge of new jobs.

I guess all I would ask my good friend is, and I do not want to put you on the spot but, is it not fair to say that for a poor black living in the central city, if we could have an explosion with enterprise zones and with lower rates and with new money available and new drive and entrepreneurship, that is more likely in the next decade to create the real job that they keep for a lifetime than another Government program.

Mr. TOWNS. But it will not happen unless there is some incentive, and that is the thing that bothers me. If you do not have any incentives, business is not going to come into major urban areas to create any job. I think we are kidding ourselves if we think they are going to do so. When you eliminate the kind of special incentives for them to do it, they are not coming.

Let me just say this in closing. As you continue to encourage people to sign your pledge, do not forget as you do that to think about the people that are homeless, the people that have no jobs, the people that are starving in the United States of America. When you show me that you are committed to that cause, I will sign your pledge, too.

Mr. GINGRICH. I think that is fair and frankly that is one reason that I wish we could have passed enterprise zone bills this year to create the incentive in the inner city to create the jobs.

I just want to say in closing, and I hope this dialog has been helpful to my colleagues.

I really do think the choice in 1986 is between the past and future. It is between propping up a liberal welfare state that was created in the 1960's and 1970's or moving forward to an opportunity society. It is between raising taxes to pay for the Government of the past or refusing to raise taxes and forcing the politicians in Washington to rethink the welfare state, to move toward workfare, toward privatization, toward less bureaucracy and less redtape, and toward a system that I think is vital because our generation has to make use of the time Ronald Reagan has bought us.

We are faced in the 1990's with a very severe challenge of competing economically with West Germany and Japan; competing military with the Soviet Union. If we are going to be competitive again, we have to rethink a great deal the way we do business. We have to have much better education, much better health care, a much more efficient and effective government, and we are going to have to get the job done.

If we raise taxes, we take the pressure off of the liberal welfare state politicians and let them avoid that difficult, complex process.

□ 1505

If we refuse to raise taxes, we then send the signal to Washington, go out and find a new idea, go out and find the new approaches, get the system to work so you can live within a trillion dollar budget because, frankly, a trillion dollars is enough. We ought to be able to get the job done for a trillion dollars if we will get smart and roll up our sleeves and reform the system until it works.

COLA'S

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia [Mr. RAY] is recognized for 30 minutes.

Mr. RAY. Mr. Speaker, there has been considerable controversy between the various groups of Federal employees, Federal retirees, and military retirees, concerning the inequity and unfairness of the manner in which the Federal Government treats cost of living increases [COLA's].

For instance, Federal employees complain that their pensions are taxable, yet Social Security benefits are in large part tax free.

In addition, it has been pointed out by many Federal and military retirees that they are being discriminated against in having their COLA's denied because some 37 million Social Security recipients expect to receive a COLA in 1987, which will cost at least $2 billion.

I completely agree. Fairness and equity are important and are not being practiced in this instance. No COLA's, in my opinion, should be given to any group during times of national financial trauma.

For 1987, the budget assumes with the President's blessing, a 1 to 1.3 percent COLA for all Social Security recipients, but the Gramm-Rudman-Hollings legislation could preclude military retirees and civil service retirees from receiving a COLA again for the second time in 2 years.

These groups complain about the unfairness, the inequity, and uncertainty of this treatment, and I agree that the Government is simply not being fair.

I will point out later in my presentation a glaring inequity between the pay of Federal employees and COLA's of Federal retirees.

Take the case of two Federal employees in late 1969.

No. 1 retires at an annual benefit of $10,000.

No. 2 begins a job at an annual salary of $10,000.

Seventeen years later in 1986, No. 1 has a Federal retirement of $29,700 because of COLA increases.

No. 2 has a salary of $23,000 at his Federal job, $6,700 less than his retired colleague. No. 1 is making more in retirement than No. 2 is working.

I don't want to demean Federal retirees in any fashion, in fact I salute them for their past service to America. I have fought to maintain their 3-year basis recovery rule in the tax bill and I will continue to work for them.

It is also my impression that the Federal retirees to their credit are willing to forgo the COLA's during deficit years on two conditions.

Those conditions are,

First, that all retirees, including social security recipients, forgo them, in a fair and equal manner.

Second, that the cuts are meaningful and that they directly contribute to a decrease in the deficit.

There is an area in which Federal employees are definitely being discriminated against. As I have pointed out, they have not received the same percentage increase that retirees have through the years. That doesn't make sense to me, since Federal employees who are working today are buying homes, educating children, paying Federal income taxes, and paying into the current retirement fund.

This, of course, means that when the 7-percent retirement deduction is taken from a civil servant's check each month, it is sent indirectly to a retiree. If Federal workers stop paying into the retirement fund, more dollars would have to be allocated from general revenues to meet the Government's obligation to pay benefits as required by law.

Let me astound you with a tale of percentage increases during the years 1969 to 1986, provided by the Congressional Research Service.

The Consumer Price Index, which we use to measure how much we pay for the items that we need to live, increased by 193 percent during these 17 years.

The Federal civil service pay has lagged behind at 133 percent.

Federal and military retiree benefits with COLA's have increased by 197 percent.

The private sector average wages have increased by 193 percent.

Social Security benefits, because of general benefit increases and COLA's, have increased by 260 percent, far in excess of the rise in the cost of living over that period.

In order for me to better explain the effects that COLA's have on the

budget and to the recipients, I want to display the following charts, with facts provided by the Congressional Research Service.

Let me draw some examples for you based on that information:

Looking at chart 1 you will note that a 30-year civil service retiree who retired at 55 with a base retirement benefit of $10,000 in late 1969 would be drawing an income of $29,700 in 1986—an increase of 197 percent.

The same retiree with a base retirement of $20,000, 53 percent of a $38,000 salary, would now have a retirement income of $59,400, an increase of 197 percent.

CHART 1.—CONGRESSMAN RICHARD RAY AGGREGATE INCREASE IN CIVIL SERVICE RETIREES BENEFITS

Annual benefits Dec. 1969	Annual benefits 1986	Percentage increase
$10,000	$29,700	197
$20,000	$59,400	197

Turning to chart 2, a military retiree who retired in 1970 and whose first annual retirement benefit payment was $10,000 would now be receiving $29,700.

A military retiree at $25,000 would receive $74,300, an amount higher than the highest paid general schedule employee, which is $68,700. This represents an almost 200-percent increase in 16 years.

Civil Service and military retirees were authorized automatic COLA's in 1962 and 1963 respectively. Social Security recipients have received periodic increases since 1950. However, in 1972 the Congress guaranteed annual COLA's to Social Security recipients beginning in 1975 if the 3 percent CPI trigger were cleared.

CHART 2.—CONGRESSMAN RICHARD RAY AGGREGATE INCREASE IN MILITARY RETIREES BENEFITS

Annual benefits Dec. 1969	Annual benefits 1986	Percentage increase
$10,000	$29,700	197
$25,000	$79,400	197

Flipping now to chart 3, it shows that over the last 17 years, Social Security benefits have increased over 260 percent because of COLA's and increases. In the years 1970–72 Social Security recipients received an increase in their benefits of over 50 percent.

The average Social Security recipient who retired in late 1969 with a base benefit of $1,000 would now be receiving $3,600. A retired couple receiving $2,500 in 1969 would now be receiving $9,000.

CHART 3.—CONGRESSMAN RICHARD RAY—AGGREGATE INCREASE IN CIVIL SERVICE RETIREES BENEFITS

Annual benefits Dec. 1969	Annual benefits 1985	Percentage increase
$1,000	$3,600	262
$2,500	$9,000	262

Turning to the final chart you will note that there is a bigger difference between retirees and current employees with regard to the comparison of their salaries and benefits. While the CPI has gone up 193 percent and Federal retirees benefits have increased 197 percent, Federal civil service pay has lagged behind with only 133 percent increase over the same 15 years. For example, a civil servant, who retired December 31, 1969 making $10,000, would currently be receiving $23,000. Another Federal employee earning $20,000 would now be earning $46,700.

CHART 4.—CONGRESSMAN RICHARD RAY—AGGREGATE INCREASE IN CIVIL SERVICE PAY

Annual salary Dec. 1969	Annual salary 1986	Percentage increase
$10,000	$23,000	133
$20,000	$46,700	133

I am frequently criticized for not supporting cost of living increases.

My reason being the treacherous national debt and the philosophy that it's all right to continue spending $5 for every $4 of income, which has driven America into the category of a debtor nation.

It's my impression that the general public, including retirees, doesn't understand how generous the Federal retirement programs are and how costly they are.

I can understand why the Federal and military retirees get up-in-arms when COLA's are delayed. COLA's are contributing significantly to their retirement income and they add up to "megabuck" expenses for the taxpayers, who, by the way, are also beginning to grumble about the cost.

It's obvious that a cap on COLA's must take place. I would urge the leaders and members of Federal retiree organizations to take the initiative in this respect, before the goose that laid the golden egg is killed by the debt and the deficit.

I am seriously concerned that the financial stability of America is in such jeopardy that many basic programs, including basic pensions, could be in danger. To fund COLA's in the financial deficit atmosphere of the 1987 budget may be politically feasible but it is not sound policy.

In some cases, farmers, textile workers, housewives, small business people and others who have retired, many involuntarily have no retirement pensions. Some 100,000 farmers may have to leave their livelihoods in 1987 with only limited unemployment benefits, if even that.

We are all familiar with the plight of textile workers of which over 400,000 have been laid off, many with meager benefits, the majority with none.

The Social Security law currently does not allow for a COLA when inflation—as mirrored in the Consumer Price Index—does not rise above 3 percent.

The budget committees and the legislative bodies are sensitive to election year politics and have included veterans benefits, railroad retirees, civil service retirees, veterans compensation and other retirement programs which all add up to more than $5 billion if paid at the expected increase.

This is done at the same time that Gramm-Rudman-Hollings seeks to balance the budget by 1991 and mandates that Federal borrowing cannot exceed $144 billion for 1987.

Cost of living adjustments, along with other fringe benefit expenses, should be constrained, if funding them will cause the basic pensions and other programs such as education, health care, and essential quality of life programs to be endangered.

With or without Gramm-Rudman, increases or cuts or perhaps both will be necessary between 1986 and 1991 to bring the country's spending into balance with its income.

If Gramm-Rudman is successful, it will be nothing short of a miracle and if so the big job will begin in 1991, when we should focus on and begin reducing the $2 trillion debt, which we have a moral responsibility to face up to.

It's my opinion that America is at a crossroads from which there might be no return. Thus, we as Americans have an opportunity and a responsibility, at this time, to make Gramm-Rudman or a program of fiscal responsibility work.

It's not the best statute and we could have passed better legislation, but it is the only law in existence which forces this country to focus on the fiscal responsibility which has built America and which is imperative if we are going to save America as we know it.

The Congress has finally passed a budget—meeting the 1987 Gramm-Rudman spending levels, but I'm discouraged that we failed to make hard spending cuts to meet the levels and, instead, used a smoke-and-mirror process to project spending reductions which may not happen. A national magazine last week called the budget—Government by Gimmick!

For too many years, America has been over-generous, and indeed wasteful, to the point of using up the re-

sources of the future and obligating the incomes of not only the present generation but for the millions of yet unborn children and grandchildren who deserve as much opportunity as we do in this wonderful land. Instead they must shoulder the debt that we have incurred.

While I believe, as I have previously said, that to pay annual COLA's during deficit years is a bankrupting program, if we are going to do so, working Federal employees should be given a higher priority and percentage than retirees. Again, they are buying their homes, educating their children and paying into the retirement fund so retirees can draw their higher basic pensions.

Quoting from an article by Bruce Bartlett of the Heritage Foundation on April 16, 1986,

Legislation designed to hold the elderly harmless from inflation actually gave them an enviable inflation bonus. At the same time, however, the real wages of working people, whose taxes pay for Social Security benefits, were falling.

Average weekly earnings, adjusted for inflation, tumbled from $145 in 1973 to $125 in 1984, while average monthly Social Security benefits climbed from $166 to $197 in the same period.

For example: Average weekly earnings fell to $139 in 1974, $135 in 1979, $124 in 1981, and $125 in 1983. Meanwhile, average Social Security benefits rose to $170 in 1974, $181 in 1979, $188 in 1981, and $197 in 1983.

So, I would prefer that we simply postpone all automatic increases until the country is operating within its income and without a deficit.

I urge all Americans to join me in this effort in these dire financial straits. We simply cannot do business as usual, but instead must make sacrifices.

We must all do our share to remove from our country the unwelcome title of the largest debtor nation in the world.

Mr. Speaker, I am inserting the following chart into the RECORD, to which I referred earlier.

INCREASES IN SOCIAL SECURITY BENEFITS, FEDERAL CIVILIAN AND MILITARY RETIREMENT, MILITARY PAY, FEDERAL PAY, VETERANS COMPENSATION, AVERAGE WAGES, AND THE CONSUMER PRICE INDEX

Year	Social security			Federal/civilian military retire			Federal pay			Military pay [1]		
	Month	Percent	Amount	Month	Percent	Amount	Month	Percent	Amount	Month	Percent	Amount

MY ADVICE TO THE PRIVILEGED ORDERS AND THE CRIME KING CONTINUES TO BE KING

The SPEAKER pro tempore (Mr. ABERCROMBIE). Under a previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 60 minutes.

Mr. GONZALEZ. Mr. Speaker, I wish to advise the Speaker as well as some of my colleagues who may be listed as following me that it is not my intention to utilize 1 hour. In fact, I believe that no more than 15 minutes should suffice for me to discuss the matter that impels me to seek this special order.

For about more than 2 years I have spoken out on what I generally label as "King Crime." The reason was that things happened back in the district that I felt also transgressed the purely local or parochial situation, but rather reflected a national, a greater issue that was permeating the entire Nation, and that was the insidious, pervasive presence of the most sophisticated organized crime and criminal activity, much of it, if not that which was the most powerful and richest, so sophisticated that with otherwise legitimate business fronts, very, very few, even some officers of corporations that fronted or in effect were owned by organized crime themselves were not aware first to anticipate what just in a matter of 1 year and a half became a national energy crisis. It seems to me that our communities are small, but nevertheless vital links in this chain of either strength or weakness, and as has long been said, no chain is any stronger than its weakest link and our Nation is really not that strong, but what it is brittle and susceptible to very grave social dislocations and the presence of this pervasive kind of pattern of illegality which eventually leads to such things as this out-of-control traffic in drugs, murder, homicide, prostitution, which are all tied in and are natural consequences of what we have allowed to happen in our country, and even in the case of what happened just a few years after I initiated my concerns, spoke out, at the time I spoke here on the forum, not only here but back home, I had critics who said, "What's this all about? Why do you want to importune the Congress about this?"

□ 1530

Then of course things happened in the intervening years, culminating in the attempted assassination or murder of the assistant district attorney for the Federal judicial district in western Texas, which is part and parcel of that western district that comprises my own district.

Then, following that, I spoke to the House continuously, demanding that that attempted murder of the assistant Federal district attorney be really investigated, that the culprits and those behind them particularly be rooted out, prosecuted vigorously, and punished in accordance with the magnitude of the crime, only to find that even there I received criticism.

Then, when this same assistant Federal district attorney, who had been the object of this try, not now in that part of the county that is in my district, but which at one time was, because my district comprised the entire county, I nevertheless raised my voice, because I predicted that this was only the beginning of more serious attempts.

I felt that the issue was the intimidation of the third branch of our Government, the judiciary, at least in those areas in which the feeling was secure on the part of these powerful, powerful criminal masterminds and these criminal corporate heads of the syndicate who felt so brazen that they thought such could be done, and in fact they did.

We had a period of about 2 years in which the judiciary and all of the employees in the judiciary were in effect compelled to have U.S. marshal surveillance and custody or care or some kind of security, until I was informed on the occasion of the visit of the assistant district attorney who came, of all things, to Washington to receive a commendation from the Justice Department, and for the first time called, and I met him.

I was very much apprehensive when he said that the Federal district judge that worked mostly in that area, in the El Paso area of the western judicial district, had said that he was going to remove his U.S. marshals, and in fact had done so just a few weeks before.

I urged the district attorney to go back and plead with the judge to recall the marshals, because I felt that the threat was very present. To me it was very present. To me it was very clear. Sure enough, the very Tuesday following, on May 28, to be precise, 1979, to be exact, the judge was murdered—the first kind of crime against the judiciary of this kind in the entire history of the American judiciary.

So I then took the floor, and for 2 years, and sometimes meeting absolute obstruction, I imposed on the then President, who went so far as to send his special assistant, who brought his DEA liaison man at the White House and sat in my office and said, "Well, what is it you want?"

I said:

What do I want? It's not what I want, it's what I think we owe the American people, and that is that at least on the Federal level, you have some coordination of effort between the Federal agencies and the State and the local agencies. But I'll settle if you can just coordinate your Federal agencies.

In the meantime, another mysterious crime, which to this day has been relegated to the dust of history, took place, and that was the mysterious lingering death or coma and eventual death of the Drug Enforcement Administration man in the Mexico City bureau, who had been arrested in a San Antonio hotel for bribery under very peculiar circumstances, and then immediately transported about 80 miles north to Kerr County for security purposes until his lawyer complained that he did not have access, and they brought him back to the county jail in Bexar County, in San Antonio. He had not been there 1 day before he was given a peanut-butter-and-jelly sandwich, went into a coma, never got out of that coma, and died 6 months later. The man never had a chance to have his day in court on any kind of an accusation.

Nevertheless, the case was closed as if he had been guilty.

Who would think that one would choke up on a peanut-butter-and-jelly sandwich and go into a coma and die 6 months later, that that was strictly a normal, natural occurrence. Well, if anybody believes that, of course, they are ready to believe in the tooth fairy.

The reason that I am bringing this up is that after speaking for 2 years, finally, to me the biggest satisfaction was having 1 day, a Friday, in my hometown, in my home, a phone call from Washington from the Director of the FBI, Mr. Webster, who said:

We're calling you because we give you credit, more than anybody else, for having helped us at least resolve this, and we're giving you a little advance information that in about 4 hours, we will announce the first indictments in this case. I am happy about all of that.

I then, after that, did not speak out.

I now speak because, rather than having closed out this case, the fact remains that to me it still remains very much unsolved. I must also remind everybody interested that the attack and the attempted killing of the assistant Federal district attorney has not been resolved. However, there is no question about it, it was connected.

Then we had the trial of some of those that were indicted. However, I am firm in my opinion that those above those that were apprehended—the hit man was finally flushed out—but those who made the contract with the hit man were in my opinion middle. There are higher and more powerful forces behind.

What was the issue? The issue was what I had anticipated in going before the grand jury and speaking out in the local press about the existence of the opening of what became known later as the brown heroin trade. When the French Connection was closed, much due to the efforts of Santa Barrio, the DEA agent that died as I said after a coma, after eating a peanut-butter-

and-jelly sandwich, which I think ought to disturb all mothers who are accustomed to giving that to their children—it is their usual fare—that we better look out here and see, maybe we should have some nutrition expert investigate all of this.

Nevertheless, the point remains that a pattern has continued. The bombing, for instance, or the blowing up of an automobile belonging to a colleague of mine not too far from the area in which I reside naturally was a matter of concern. This followed not too long after the FBI had reported a contract on my life for $35,000, and then refused to give me a report.

I had to go through the Freedom of Information in order to glean something, and discovered to my amazement that not only had that been one time, the one that I was asking information about, but that the FBI had knowledge of three prior threats that had been made but never once had been reported to me.

□ 1540

And what is more important, they had a most interesting dossier ever since I had been in the State senate. So when the bombing of this Congressman, a colleague of ours from Texas who does not represent a district in the immediate vicinity of mine, but the bombing having taken place right in the heart of my district, I naturally made sure that there would be some Federal presence, and I requested the San Antonio Police Department, at that time the head of the homicide division, who had been a long-time friend, our friendship going back to when he started his career and I was the chief juvenile probation officer for Bexar County, so that when some officers and some administrators and some people say, "Well, what is your source of information," well it goes back to the day that I was in law enforcement, and that is part and parcel of it.

In the case of this gentleman who headed the division on homicide and who has since retired, I ask him to please make sure that the Federal agents and agencies who have a presence under the responsibility of the code, as amended by title 18. However, that case disappeared into the dust of history, but it did not from my mind.

Then comes the incident just a few weeks ago in which a very bizarre homicide was recorded, one San Antonio policeman killing another policeman and the circumstances surrounding. So I then wrote Director William Webster a request that he please have the Federal Bureau of Investigation look into the circumstances surrounding this pattern of behavior because I felt that constituents who belonged to a certain segment of my society had been exposed by the actions of this particular police officer and some in his association.

I will place in the RECORD the letter that I received in reply to my request. My letter was dated September 4 and the letter dated September 24 which I received day before yesterday by way of reply from Director Webster, and also my reply to this letter as of October 9, yesterday, to Director Webster.

The letters referred to follow:

U.S. DEPARTMENT OF JUSTICE,
FEDERAL BUREAU OF INVESTIGATION,
Washington, DC, September 24, 1986.

Hon. HENRY B. GONZALEZ,
House of Representatives,
Washington, DC.

DEAR CONGRESSMAN GONZALEZ: I have received your letter of September 4th expressing your concern regarding recent incidents involving officers of the San Antonio Police Department and requesting an FBI investigation. We are currently looking into the matter involving the shooting of Officer Stephen Smith. In view of your knowledge and interest, we believe it would be beneficial for FBI representatives to discuss with you the shooting incident and the other matters you mentioned. I understand my colleagues in San Antonio have been in contact with your local office regarding such a meeting, and I hope your schedule will permit you to meet with our representatives at the earliest possible date. I can assure you that we will diligently follow up on any information which would indicate a possible violation of Federal law falling within our investigative jurisdiction.

Thank you for your interest and for advising me of your concerns.

Sincerely yours,

WILLIAM H. WEBSTER,
Director.

HOUSE OF REPRESENTATIVES,
Washington, DC, October 9, 1986.

Hon. WILLIAM H. WEBSTER,
Director, Federal Bureau of Investigation,
Department of Justice, Washington, DC.

DEAR DIRECTOR WEBSTER: I am glad to know that the Federal Bureau of Investigation is "looking into" the matters raised in my letter to you dated September 4. However, my concern is not much assured for I do not have the sense that the Bureau has given this inquiry the status or urgency it deserves. Clearly the conduct of Officer Stephen Smith most probably violated the rights of a large number of individuals. It seems likely that this conduct was known by others and had been known for some time. Yet as far as I can ascertain there is no effort to investigate the very broad and grave implications raised by Officer Smith's strange death, let alone the questions that arise by the appearance that his activities were known but left undisciplined.

My staff did of course advise me of the request your representatives made for a meeting. Aside from the fact that my schedule does not now permit me the time to arrange such a meeting, I do not feel it would be productive. I am asking the Bureau to use it resources to investigate fully circumstances that suggest substantial problems in a major police department. I do not have access to the information and resources that you do. If I do acquire any data that might be useful I will immediately convey it to you. My request was, and I reiterate it, for the Bureau to investigate the incident and its implications, so that the integrity of the San Antonio Police Department can be assured and the people of the city may have confidence in the professionalism, efficiency and conduct of their police.

With every good wish, I am

Sincerely,

HENRY B. GONZALEZ,
Member of Congress.

Mr. GONZALEZ. The point is that what we have reached is a point in our history that I think is more troublesome than perhaps any other, and that is where a sophisticated, highly organized crime has been able to gather such power that it has even greater power than our duly constituted law enforcement agents because they have infiltrated our Government, they have infiltrated our political system, they have infiltrated and now have substantial interests in business that otherwise has very honorable fronts. With this kind of combination, how can we ask a poor policeman, how can we ask even an FBI agent? This is the reason why in our society we can have such a thing as the disappearance and the presumable homicide or death of such a person as Jimmy Hoffa who still is a sort of a mystery, and the reason is that Jimmy Hoffa was involved in the highest, the intricacies of involement not only with organized crime of the highest type but with political forces in our Government and political parties, and because even our President does not escape the shadow of suspicion because the first $4 million that President Reagan made in Hollywood were the result of moneys that enabled him to be received by a going concern in Hollywood that was heavily infiltrated by organized crime. It has always been a well-established fact that Hollywood generally has had an unwholesome pervasive presence of organized crime.

So what I am saying is that I hope that we can have the kind of backing of our law enforcement agents that can help us in the communities that do not have the resources to have a comprehensive look into and safeguarding against these very, very powerful forces that operate intrastate, interstate, and internationally against which a poor local municipal police force does not have a chance.

Mr. Speaker, I yield back the balance of my time.

PARTNERS IN PREVENTION

The SPEAKER pro tempore (Mr. ABERCROMBIE). Under a previous order of the House, the gentleman from Minnesota [Mr. STANGELAND] is recognized for 30 minutes.

Mr. STANGELAND. Mr. Speaker, drug abuse and its prevention are uppermost in the mind of much of America today. I rise today to speak about a drug prevention program in my district known as PIP-fests; Partners in Prevention Festivals. This program started in 1981 as an outgrowth of the

Partner's Institute at the Unversity of Minnesota Duluth, and funded through a grant awarded by the U.S. National Institute of Drug Abuse. The first program was held in Little Falls, MN, and is on going at the present time. In 1982, a corporation called PIP-Fest International was formed and today that organization does its business as Partners In Prevention. The leaders locally are volunteers.

Partners in Prevention is an experienced group of professionals providing programs, directed at adolescents and adults, that offer schools, communities, businesses and service organizations a proven, cost- and time-effective method which presents alternatives to drug abuse through the promotion of emotional and physical health. Partners in Prevention is a primary prevention organization providing high school students and concerned adults with an experience that helps them better understand themselves and others, improve their communication skills, and raise their self-esteem. This helps to minimize the abuse to drugs as well as enhance already present leadership skills. Those attending the PIP-festivals programs will have the opportunity to become life-long partners with chemical abuse prevention and healthy living.

Partners in Prevention is currently experiencing its 6th consecutive year of growth and expansion. There are 20 high school PIP-festivals targeted for this school year and new programs are currently being written and developed for high school athletes, for adults and for families. There is a continuing need for extending the network of people who are interested in preventing chemical abuse.

Mr. Speaker, I think that it's important to note that this program is one that is generated by public involvement and concern about the drug problem facing our Nation. All the money in the world won't solve the drug problem unless the public at large is educated and takes part in rejecting this menace from our streets and neighborhoods forever. Partners in Prevention is a program which reaches our children in every segment of our society. It encourages parents and their children to fight against drugs by developing a lifestyle that raises one's self-esteem, confidence and leadership skills.

Partners in Prevention stresses beating drug use to the punch. By its very name PIP attempts to prevent drug abuse before it becomes a problem. As any expert in the field of drug abuse can tell you prevention is not only the best way in dealing with the drug problem at large, but it is also the most cost effective. Prevention also eliminates the side effects to drug abuse such as violent crime, runaways and broken families, not to mention the broken dreams of the parents and friends of the drug abuser.

The idea of combining the family element into this program reaches deep to the core of what America is all about. Taking care of one's family should be, and is the No. 1 priority for each and everyone of us. PIP does just that by opening up the lines of communication between parents and their children. Mr. Speaker, how many times have we heard it said by drug users: "* * * if somebody had just told me they cared. * * *." With this program parents and children learn how to express their feelings in a way that enables both parties involved to show that they care.

Mr. Speaker, Partners in Prevention is a program that has worked. For 6 years it has been preventing drug abuse and contributing to the lives of hundreds of people who want to say no to drugs. I urge my fellow colleagues to encourage the development of similar programs in their own States if they don't already exist.

Mr. Speaker, I am submitting for the record the full text of a letter I received from the vice president of Partners in Prevention, Mr. Dave Sjoblad, in case other Members would like to contact him and find out more on just how their program works.

Members may also contact my office for more information as well.

The letter referred to follows:

PARTNERS IN PREVENTION,
Little Falls, MN, September 2, 1986.

Hon. ARLAN STANGELAND,
Longworth House Office Building,
Washington, D.C. 20515

DEAR MR. STANGELAND: Thank you again for visiting us at Partners In Prevention. We appreciate your time and the support you showed for our program. We are especially pleased that you agreed to read us into the Congressional Record. Enclosed you will find the document which we would like you to read. If there are any questions or suggestions you may have, please feel free to contact our office.

Good luck in the coming election.

Sincerely,

Dave Sjoblad, *Vice President.*

PARTNERS IN PREVENTION

PIP-Fests, Partners In Prevention-Festivals, started in 1981 as an outgrowth of the Partner's Institute at the University of Minnesota Duluth, and through a grant awarded by the United States National Institute of Drug Abuse. The first program was held in Little Falls, Minnesota. In 1982, a corporation called PIP-Fest International, Inc. was formed and today that organization does its business as Partners In Prevention.

Partners in Prevention is an experienced group of professionals providing programs, directed at adolescents and adults, that offer schools, communities, businesses and service organizations a proven, cost- and time-effective method which presents alternatives to drug abuse through the promotion of emotional and physical health. Partners in Prevention is a primary prevention organization providing high school students and concerned adults with an experience that helps them better understand themselves and others, improve their communication skills, and raise their self-esteem. This helps to minimize the abuse of drugs as well as enhance already present leadership skills. Those attending the PIP-Fest programs will have the opportunity to become life-long partners with chemical abuse prevention and healthy living.

A PIP-Fest is a weekend retreat filled with activities whose primary goal is to prevent chemical abuse among adolescents. In large group settings, students and adults are provided with information about building relationships, healthy ways of dealing with feelings, chemical dependency as a family disease, the art of listening and helping others solve problems, maintaining self-esteem and chemical abuse prevention. In small groups, they have an opportunity to personalize the large group presentations and to practice communications skills. The PIP-Fest weekend is a time for students and adults to learn more about themselves, to learn how to show care and support for others and to learn new ways to have fun without using chemicals.

In the past five years there have been over 60 PIP-Fests in four States and one Canadian Province. Almost 10 thousand high school adolescents have attended. The program has proven to be an effective one. By addressing the issues of awareness, self-esteem and alternatives to chemical use, many young people and adults have been given the power to say "no" to drugs.

Partners in Prevention is currently experiencing its sixth consecutive year of growth and expansion. There are 20 high school PIP-Fests targeted for this school year and new programs are currently being written and developed for high school athletes, for adults and for families. There is a continuing need for extending the network of people who are interested in preventing chemical abuse. Partners in Prevention can be contacted by writing to P.O. Box 43, Little Falls, MN 56345. Telephone 612-632-2165.

□ 1550

PROTECTING THE AMERICAN CONSUMER AND MANUFACTURER AGAINST FAULTY FOREIGN-MADE GOODS

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Maryland [Mrs. BENTLEY] is recognized for 60 minutes.

Mrs. BENTLEY. Mr. Speaker, yesterday I introduced a bill to require the posting of a surety bond with respect to products manufactured in foreign countries or customs unions. This legislation is an effort to give the American consumer and manufacturer protection against fraudulent, shoddy, or—possibly—dangerous products produced and imported from abroad.

At the present time, there is no legal recourse against bad performance for the consumer of foreign products whether the item is a component part of a computer or an airplane engine or whether it is a chain saw sold directly through our retail outlets to the public.

There is a tremendous liability involved here which is going uncovered.

Our domestic manufacturers are being hammered into the ground on the costs of product liability. In this litigious society—which is modern America—the necessity for liability insurance is a given and built in additional cost for all American products.

We are told that in order for our American products to compete against foreign products inside our own markets, they must be competitively priced. The cost of protecting the American public by providing liability coverage is carried by only the manufacturers of "made in America."

This is not fair to American producers, Mr. Speaker, but more than that, it is not fair to the American consumer.

Increasingly we are seeing counterfeit products coming in from abroad. For a long time we have heard of fraudulent fashion items such as handbags, clothing, perfumes, and trendy watches. But, now the stories are becoming grimmer. We are hearing about fraudulent bolts and screws—industrial fasteners—which have found their way into nuclear powerplants, helicopters, and defense systems.

The extent of this inundation is so great that the question of quality control becomes moot. In one operation dealing with the Space Program, the engineer in charge of quality control examined eight bins of size 8 bolts with the correct markings for heat tolerance. Selecting one bolt, at random, from each bin, he tested for accuracy of the markings.

All eight were counterfeits. All had come from the Philadelphia Disc Supply Depot which feeds our total defense industrial base effort.

Good quality control would mandate throwing the bad fasteners out, but we have gotten ourselves into the situation that at this point in time, the counterfeits are such a great part of our internal supplies, that the bad bolts would only be replaced by more fraudulent bolts.

What is happening in the civilian sector we can only speculate. But, if it is anything like what is happening in the defense sector, we certainly need some kind of legislation which will make the guilty parties liable for their fraud.

American insurers and manufacturers should not be responsible for accidents caused by counterfeit component parts buried in the depths of some malfunctioning engine of an airplane or bus. The way our system of international justice works right now, the liability would fall totally on the American producer because he is the only one covered by liability which can be reached by our court system.

My legislation, originally cosponsored by Mr. MURTHA of Pennsylvania; from Ohio, Mr. KASICH, Ms. KAPTUR, and Ms. OAKAR; from West Virginia, Mr. RAHALL; from Connecticut, Mrs. JOHNSON; from Pennsylvania, Mr. CLINGER; and from Maryland, Mrs. BYRON and Mr. DYSON would create a surety bond equal to 20 percent of the value of all the products imported from that producer.

This would serve to establish the validity of the foreign manufacturer and in case of bad performance or fraudulant representation, create a pool of money against which recovery of loss or damages can be made.

This legislation, I would hope, should begin to shake out the fraudulent manufacturers right away. Fly-by-night importers or producers would not be likely to post a bond for what would be tantamount to immediate forfeiture.

As we moved into the global economy at the beginning of this decade, many of the standards of U.S. manufacturing—which had grown up through years of American industrialization—were taken for granted. In opening up our market to foreign products, we forgot that U.S. law for years had been policing us through liability legislation into standardization of quality.

If shoddy or dangerous products were produced, the U.S. justice system allowed the consumer to "get at" the guilty producer.

I would judge that now over 50 percent of what we are purchasing is outside of that system of justice. The global village needs some way of holding accountable those international manufacturers and importers who operate not only outside of the moral law, but operate outside of U.S. jurisdictional law.

I hope we have found the way. I also hope that many of my colleagues will come aboard along with me and the several original cosponsors of this legislation. We think it is an idea whose time has come.

COMMUNICATION FROM THE HONORABLE CHARLES O. WHITLEY, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from Hon. CHARLES O. WHITLEY:

HOUSE OF REPRESENTATIVES,
Washington, DC, October 7, 1986.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, U.S. House of Representatives, U.S. Congress, Washington, DC.

DEAR MR. SPEAKER: I herewith tender my resignation as a member of the 99th Congress representing the Third Congressional District of the State of North Carolina to be effective at midnight, December 31, 1986.

This letter is being executed in triplicate originals with one being directed to you; one to the Governor of North Carolina; and one to the Sergeant at Arms of the United States House of Representatives.

Please advise if any additional action is required on my part to effectuate the official termination of my status as a United States Representative at the time specified herein.

Respectfully,

CHARLES O. WHITLEY,
Member of Congress.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. TRAXLER (at the request of Mr. WRIGHT), for today, on account of medical reasons.

Mr. BOLAND (at the request of Mr. WRIGHT), for today, on account of a necessary absence.

Mr. RAHALL (at the request of Mr. WRIGHT), for today, on account of official business.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

Mr. STRATTON, for 60 minutes, on October 15.

(The following Member (at the request of Mr. DELAY) to revise and extend his remarks and include extraneous material:)

Mr. LEACH of Iowa, for 5 minutes, today.

(The following Members (at the request of Mr. RAY) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.
Mr. LELAND, for 5 minutes, today.
Mr. ALEXANDER, for 5 minutes, today.
Mr. DICKS, for 60 minutes, today.
Mr. BYRON, for 60 minutes, today.
Mr. HOYER, for 60 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. DELAY) and to include extraneous matter:)

Mr. SOLOMON.
Mr. FRENZEL in five instances.
Mr. LIGHTFOOT.
Mr. CONTE.
Mr. HUNTER.
Mr. GOODLING.
Mr. CLINGER.
Mr. MCCANDLESS.
Mr. GEKAS in two instances.
Mr. BEREUTER in two instances.
Mr. LEWIS of California.
Mr. STUMP.
Mr. DIOGUARDI.
Mr. MCKERNAN.

(The following Members (at the request of Mr. RAY) and to include extraneous matter:)

Mr. ENGLISH.
Mr. LANTOS.
Mr. MAZZOLI.
Mr. BORSKI.

Mr. LAFALCE.
Mr. MARKEY.
Mr. RODINO.
Mr. LELAND.
Mr. KILDEE in two instances.
Mr. FRANK.
Mr. MURTHA.
Mr. COELHO.
Mr. WYDEN.
Mr. LEHMAN of California.
Mrs. SCHROEDER.
Mr. ABERCROMBIE.
Mr. RAY.
Mr. GARCIA.

SENATE BILLS AND JOINT RESOLUTIONS REFERRED

Bills and joint resolutions of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 786. An act to establish an Information Age Commission; to the Committees on Government Operations and Science and Technology.

S. 1209. An act to establish the National Commission to Prevent Infant Mortality; to the Committee on Energy and Commerce.

S. 2055. An act to establish the Columbia Gorge National Scenic Area, and for other purposes; to the Committees on Interior and Insular Affairs and Agriculture.

S. 2370. An act to authorize the Francis Scott Key Park Foundation, Inc. to erect a memorial in the District of Columbia; to the Committee on House Administration.

S. 2452. An act to designate the U.S. Post Office to be constructed in Barnwell, SC, as the "Solomon Blatt, Sr., Post Office Building"; to the Committee on Post Office and Civil Service.

S.J. Res. 359. Joint resolution to designate March 17, 1987, as "National China-Burma-India Veterans Association Day"; to the Committee on Post Office and Civil Service.

S.J. Res. 407. Joint resolution designating November 12, 1986, as "Salute to School Volunteers Day"; to the Committee on Post Office and Civil Service.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 1598. An act for the relief of Steven McKenna;

H.R. 2182. An act to authorize the inclusion of certain additional lands within the Apostle Islands National Lakeshore;

H.R. 2224. An act to amend the Immigration and Nationality Act to permit nonimmigrant alien crewmen on fishing vessels to stop temporarily at ports in Guam;

H.R. 4212. An act to provide for the reauthorization of the Deep Seabed Hard Mineral Resources Act, and for other purposes;

H.R. 5016. An act for the relief of Sueng Ho Jang and Sueng Il Jang;

H.R. 5073. An act to amend the Toxic Substances Control Act to require the Environmental Protection Agency to promulgate regulations requiring inspection for asbestos-containing material in the Nation's schools, development of asbestos management plans for such schools, response actions with respect to friable asbestos-containing material in such schools, and for other purposes;

H.J. Res. 17. Joint resolution to consent to an amendment enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920;

H.J. Res. 438. Joint resolution to designate October 31, 1986, as "National Child Identification and Safety Information Day";

H.J. Res. 517. Joint resolution providing for reappointment of David C. Acheson as a citizen regent of the Board of Regents of the Smithsonian Institution; and

H.J. Res. 666. Joint resolution expressing the sense of Congress in support of a commemorative structure within the National Park System dedicated to the promotion of understanding, knowledge, opportunity and equality for all people.

SENATE ENROLLED BILLS SIGNED

The SPEAKER announced his signature to enrolled bills of the Senate of the following titles;

S. 816. An act to establish the Pine Ridge National Recreation Area and Soldier Creek Wilderness in the State of Nebraska, and for other purposes, and

S. 2048. An act to encourage international efforts to designate the shipwreck of the R.M.S. *Titanic* as an international maritime memorial and to provide for reasonable research, exploration, and, if appropriate, salvage activities with respect to the shipwreck.

ADJOURNMENT

Mrs. BENTLEY. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 3 o'clock and 58 minutes p.m.) under its previous order, the House adjourned until Tuesday, October 14, 1986, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4327. A letter from the Director, the Office of Management and Budget, transmitting a cumulative report on rescissions and deferrals of budget authority, pursuant to 2 U.S.C. 685(e) (H. Doc. No. 99-278); to the Committee on Appropriations and ordered to be printed.

4328. A letter from the General Counsel, Department of Energy, transmitting a notice of meetings related to the International Energy Program to be held on October 14, 1986, at the offices of UNESCO, Paris, France; to the Committee on Energy and Commerce.

4329. A letter from the Secretary of the Interior, transmitting the 1985 report on the state of domestic mining, minerals, and mineral reclamation industries, including a statement of the trend in utilization and depletion of these resources, pursuant to 30 U.S.C. 21a; to the Committee on Interior and Insular Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. FUQUA: Committee on Science and Technology. Report on the traffic alert and collision avoidance system: a technological contribution to air safety (Rept. 99-987). Referred to the Committee of the Whole House on the State of the Union.

Mr. DERRICK: Committee on Rules. House Resolution 586. Resolution providing for disagreeing to the Senate amendment to House Joint Resolution 668 (Rept. 99-988). Referred to the House Calendar.

Mr. PEPPER: Committee on Rules. House Resolution 587. Resolution waiving certain points of order against the conference report on H.R. 6 and against the consideration of such conference (Rept. 99-989). Referred to the House Calendar.

Mr. MOAKLEY: Committee on Rules. House Resolution 588. Resolution waiving certain points of order against the conference report on S. 1128 a bill to amend the Clean Water Act, and against the consideration of such conference report (Rept. 99-990). Referred to the House Calendar.

SUBSEQUENT ACTION ON A REPORTED BILL SEQUENTIALLY REFERRED

Under clause 5 of rule X the following action was taken by the Speaker:

H.R. 5406. The Committee on the Judiciary discharged from further consideration of H.R. 5406; H.R. 5406 referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. WYDEN (for himself, Mr. WILLIAMS, and Mr. GOODLING):

H.R. 5690. A bill to amend the Older Americans Act to authorize grants to States for demonstration projects that provide to older individuals services in return for certain volunteer services provided to other individuals; to the Committee on Education and Labor.

By Mr. WYDEN:

H.R. 5691. A bill to establish a preference for nondevelopment items in nondefense Government procurement; to the Committee on Government Operations.

By Mr. ABERCROMBIE (for himself, Mr. MILLER of California, Mr. DOWNEY of New York, Mr. AKAKA, Mr. HOWARD, Mr. YATES, Ms. MIKULSKI, Mr. YOUNG of Missouri, Mr. LEHMAN of Florida, Mr. WALDON, Mr. MARTINEZ, Mr. MCCLOSKEY, Mr. WOLPE, Mr. TOWNS, Mr. FAUNTROY, Mr. BUSTAMANTE, and Mr. EVANS of Illinois):

H.R. 5692. A bill to amend chapter XIV of the Comprehensive Crime Control Act of 1984, relating to victims of crime, to provide funds to encourage States to implement protective reforms regarding the investiga-

tion and adjudication of child sex abuse cases which minimize the additional trauma to the child victim and improve the chances of successful criminal prosecution or legal action; to the Committee on the Judiciary.

By Mr. DUNCAN:

H.R. 5693. A bill to amend the Internal Revenue Code of 1954 to restore prior law for purposes of claiming a dependency exemption where, under a pre-1985 instrument, the noncustodial parent provides $1,200 or more for the support of a child; to the Committee on Ways and Means.

By Mr. PICKLE (for himself, Mr. ANTHONY, Mr. FUQUA, Mr. BARTON of Texas, Mr. ARCHER, Mr. DUNCAN, and Mr. DICKS):

H.R. 5694. A bill to amend the Internal Revenue Code of 1986 to allow a charitable contribution deduction for certain amounts paid to or for the benefit of an institution of higher education; to the Committee on Ways and Means.

By Mr. WAXMAN:

H.R. 5695. A bill to assure the appropriate and safe use of artificially produced growth hormones; to the Committee on Energy and Commerce.

By Mr. MILLER of California (for himself and Mr. LEACH of Iowa):

H. Con. Res. 409. Concurrent resolution expressing the support of Congress for the petition drive of the National Forum requesting a televised educational forum on nuclear arms issues; to the Committee on Energy and Commerce.

By Mr. MICHEL:

H. Res. 584. Resolution electing Representative HILLIS of Indiana to the Committee on Armed Services; and Representative DORNAN of California to the Committee on Education and Labor; considered and agreed to.

By Ms. OAKAR:

H. Res. 585. Resolution designating membership on certain standing committees of the House; considered and agreed to.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 442: Mr. LEWIS of California.

H.R. 3842: Mr. COURTER, Mr. DURBIN, Mr. GEKAS, Mr. GEPHARDT, Mr. HUTTO, Mr. SPRATT, Mr. STRATTON, Mr. CARR, and Mr. MOODY.

H.R. 4025: Mr. DUNCAN.

H.R. 5067: Mrs. VUCANOVICH.

H.R. 5272: Mr. TORRICELLI.

H.R. 5512: Mr. TORRICELLI and Mr. RUSSO.

H.R. 5535: Mr. MCEWEN, Mr. FOWLER, Mr. BRYANT, Mr. FRENZEL, Mr. KOLTER, Mr. KINDNESS, Mr. DARDEN, Mr. BUSTAMANTE, Mr. ROWLAND of Georgia, Mr. GARCIA, Mr. SOLOMON, Mr. RANGEL, and Mr. THOMAS of Georgia.

H.R. 5587: Mr. FEIGHAN, Mr. VENTO, and Mr. WORTLEY.

H.R. 5588: Mr. HAYES, Mr. WOLPE, Mr. FROST, and Mr. WEBER.

H.R. 5596: Mr. ROEMER, Mr. WORTLEY, and Mrs. BENTLEY.

H.R. 5603: Mr. BUSTAMANTE, Mr. HUBBARD, Mr. ROWLAND of Georgia, Mr. THOMAS of Georgia, and Mr. KOLTER.

H.R. 5604: Mrs. HOLT, Mr. CHENEY, Mr. FIELDS, Mr. GARCIA, Mr. MONSON, Mr. MARTINEZ, Mr. MITCHELL, Mr. SMITH of New Jersey, Mr. LEATH of Texas, Mr. LEWIS of Florida, Mr. LAGOMARSINO, and Mr. SHELBY.

H.R. 5618: Mr. FAZIO, Mr. GRAY of Illinois, and Mr. RANGEL.

H.R. 5683: Mr. DORNAN of California, Mr. KEMP, Mr. GILMAN, Mrs. BENTLEY, Mr. DREIER of California, Mr. GREGG, Mr. GEKAS, Mr. DUNCAN, Mr. DAUB, Ms. FIEDLER, Mr. KILDEE, Mr. CRANE, Mr. BURTON of Indiana, Mr. MCKINNEY, Mr. BONIOR of Michigan, Mr. HENRY, Mr. VANDER JAGT, Mr. PURSELL, Mr. FORD of Michigan, Mr. LANTOS, Mr. PASHAYAN, Mr. LAGOMARSINO, Mr. TAYLOR, Mr. HYDE, Mr. SUNDQUIST, Mr. MILLER of Washington, Mr. CONTE, Mr. HAMMERSCHMIDT, Mr. HILLIS, Mr. SCHAEFER, Mr. ZSCHAU, Mr. BROWN of Colorado, Mr. YOUNG of Alaska, Mr. CARR, Mr. SCHUETTE, Mr. SILJANDER, Mr. LEVIN of Michigan, Mr. DAVIS, Mr. WOLPE, Mr. MICHEL, Mr. EMERSON, Mr. WEBER, Mr. LUNGREN, Mr. MILLER of Ohio, Mr. COMBEST, Mr. BADHAM, Mr. LEACH of Iowa, Mr. LEWIS of California, Ms. SNOWE, Mr. QUILLEN, Mr. LIVINGSTON, Mr. SAXTON, Mr. MADIGAN, Mr. SCHUMER, Mr. LEVINE of California, Mr. LOTT, Mr. CARNEY, Mr. WALKER, Mr. ROTH, Mr. ECKERT of New York, Mr. HORTON, Mr. LEWIS of Florida, Mr. PETRI, Mr. LENT, Mr. CROCKETT, Mr. HUNTER, Mr. BIAGGI, Mr. SMITH of Florida, Mr. PERKINS, Mr. DARDEN, Ms. OAKAR, Mr. RAHALL, Mr. SISISKY, Mr. MICA, Mr. HUGHES, Mr. HUBBARD, Mr. DINGELL, Mr. DASCHLE, Mr. LOWRY of Washington, Mr. LUKEN, Mr. LELAND, Mr. DE LUGO, Mr. APPLEGATE, Mr. BROWN of California, Mrs. BOXER, Mr. BUSTAMANTE, Mr. RANGEL, Mrs. SCHROEDER, Mr. ORTIZ, Mr. WEAVER, Mr. GLICKMAN, Mr. MILLER of California, Mr. SKELTON, Mr. STRATTON, Mr. TRAFICANT, Mr. TORRES, Mr. ATKINS, Mr. MOAKLEY, Mr. TAUZIN, Mr. GOODLING, Mrs. MEYERS of Kansas, Mr. BILIRAKIS, Mr. LUJAN, Mr. STRANG, Mr. RITTER, Mr. REGULA, Mr. ROGERS, Mr. SPENCE, Mr. YOUNG of Florida, Mr. MCCOLLUM, Mrs. MARTIN of Illinois, Mr. BEREUTER, Mr. MCDADE, Mr. IRELAND, Mr. GUNDERSON, and Mr. COLEMAN of Missouri.

H.J. Res. 244: Mr. WIRTH and Mr. IRELAND.

H.J. Res. 681: Mr. SYNAR, Mr. MURTHA, Mr. ANTHONY, and Mr. STRATTON.

H.J. Res. 693: Mr. VENTO, Mr. MICA, Mr. HENDON, and Mr. MONTGOMERY.

H.J. Res. 706: Mr. FRENZEL.

H.J. Res. 740: Mr. ROBERTS, Mr. MOODY, Mr. COLEMAN of Texas, Mr. BARNARD, Mr. LOTT, Mr. DELAY, and Mr. RALPH M. HALL.

H.J. Res. 745: Mrs. BOGGS.

H. Con. Res. 129: Mr. OXLEY, Mr. MCEWEN, Mr. LEACH of Iowa, Mr. COMBEST, Mr. KASICH, Mr. BOLAND, and Mr. MATSUI.

H. Con. Res. 407: Mr. BLILEY, Mr. RICHARDSON, Mr. GEPHARDT, Mr. DIXON, Mr. FAZIO, Mr. BONER of Tennessee, Mr. SCHEUER, Mr. BRUCE, Mr. KRAMER, Mr. WALDON, and Mr. SAXTON.

H. Res. 488: Mr. SAXTON, Mr. SCHUETTE, Mr. STENHOLM, Mr. WHITEHURST, Mr. SHUMWAY, Mr. BARTON of Texas, Mr. PARRIS, and Mr. HUGHES.

H. Res. 566: Mr. HOWARD, Mr. ABERCROMBIE, Mrs. COLLINS, Mr. STOKES, Mr. CONYERS, Mr. HAWKINS, Mr. DIXON, and Mr. SAVAGE.

H. Res. 573: Mr. SOLOMON, Mr. BADHAM, Mr. CHAPPIE, Mr. DAVIS, Mr. EVANS of Iowa, Mr. FISH, Mr. GOODLING, Mr. HANSEN, Mr. LEACH of Iowa, Mr. LUJAN, Mr. MOLINARI, and Mr. SWEENEY.

H. Res. 581: Mr. SOLARZ, Mr. WHEAT, Mr. MANTON, Mr. FRANK, Mr. WORTLEY, Mr. FUSTER, Mr. STOKES, Mr. FAUNTROY, Mr. ACKERMAN, Mr. GARCIA, Mr. LUNDINE, and Mr. HAYES.

SENATE—*Friday, October 10, 1986*

(Legislative day of Monday, October 6, 1986)

The Senate met at 10 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

God of Abraham, Isaac, and Israel, it seems providential that the Senate has faced its painful, difficult duty during Rosh Hashana—a time of penitence and dedication to the reign of freedom, justice, and peace—in anticipation of Yom Kippur, Day of Atonement. Thank you Merciful Father, for faithful public servants who honored their stewardship with such sober, reverent demeanor. Having fulfilled their heavy responsibility, may each Senator find rest in the assurance that he acted on obedience to conscience and may each be renewed for the business confronting the Senate these final days. Infuse this place with your wisdom, peace, and love that the 99th Senate may adjourn without regrets and with satisfaction of a job well done.

Lord of history, be with President Reagan as he meets with General Secretary Gorbachev. Guide these two world leaders to understanding, reconciliation, and friendship which will bless all the peoples of the Earth. In the name of the Prince of Peace, we pray. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able and distinguished majority leader, Senator ROBERT DOLE of Kansas, is now recognized.

Mr. DOLE. Mr. President, I thank the distinguished Presiding Officer, the President pro tempore, Senator THURMOND of South Carolina.

SCHEDULE

Mr. DOLE. Mr. President, under the standing order, the leaders have 10 minutes each followed by special orders for Senator HAWKINS, Senator PROXMIRE, and Senator BAUCUS for not to exceed 5 minutes each; and morning business not to extend beyond the hour of 11 a.m. with Senators permitted to speak therein for not more than 5 minutes each.

Following morning business, there are a couple of things we would hope to do today. One is to take action on the drug bill. There are a number of options available. I am not certain any of them are good, but there are a number of options available.

Second, we would like to complete action today on reconciliation. I am not certain how near we are to working out the final two or three differences in an enormous package. But, there are still two or three differences where the views are strongly held on both sides, and I am not certain. The last information I had was that Senator PACKWOOD and Senator LONG had sent another offer over to the House Ways and Means Committee. That was late last evening. As far as I know there has been no report. But if we can do that today, it would certainly be helpful. I hope we can complete our work by Wednesday evening of next week.

I have been visiting some with Senator BIDEN on some way to deal with certain provisions in the drug bill. We hope to convene a meeting later today with Senator THURMOND, Senator BIDEN, Senators on each side of the aisle who played the primary roles in the drugs legislation, Senator HAWKINS, Senator CHILES, and others to see if we can work out some agreement to take action on the drug bill.

TRIBUTE TO SENATOR RUSSELL B. LONG

Mr. DOLE. Mr. President, those of us who have been around the Senate for any length of time know that friendships here are built on special ground. Party affiliation has very little to do with it. It is more a matter of mutual interest, trust, and respect, and we know that as a very select group of American citizens we bear a special responsibility. We rely as friends on those who understand and respect that responsibility.

So it is an honor and a joy for me to call RUSSELL LONG a friend—one of my best friends in the Senate. And his retirement from this body after 38 years of service will create a void that will be hard if not impossible to fill—for me, the people of Louisiana, and for the Nation.

RUSSELL LONG learned politics at the knee of his father and his uncle. So I learned what I know about the Senate and what makes it and its Members run by sitting next to RUSSELL in the Finance Committee.

His knowledge of U.S. tax law is unparalleled. His mastery of Senate rules and procedures legendary. But perhaps his most unique ability is an uncanny sense of what it takes to get something done, and when to do it. It is a form of art—one many of us strive for, but few achieve.

That night back in 1980, when Howard Baker called to tell me I would be chairman of the Finance Committee in January, I said, "That's great, but who's going to tell RUSSELL."

The transition was not an easy one for either of us. But it was made smoother by RUSSELL'S accessibility and affability. It also helped that both of us appreciate how important it is to have a sense of humor. I tend to favor one-liners, and RUSSELL tends to favor down-home Louisiana anecdotes. Whatever the style, both of us, I think, understand that while what we do here in the Senate is very serious—it is dangerous to take ourselves too seriously.

When he announced his retirement, RUSSELL said, "Every Senator should decide for himself at what point he thinks he should retire. After 36 years here I've made that decision."

I do not disagree with Senator LONG'S contention, though I do regret his decision. The Senate has changed in many ways over the years RUSSELL LONG has served here. But it has not changed so much that we cannot recognize and revere a man as special as RUSSELL LONG.

NICARAGUA

Mr. DOLE. Mr. President, I want to add to some previous comments I made yesterday about the Americans now being held captive by the Sandinistas.

First, in all the hullabaloo about the incident—and the phony Sandinista charges of "CIA involvement" continue to dominate the headlines—the press is giving scant mention to one important fact. If the House leadership had not stonewalled and stalled for months and months on the Contra aid package that both bodies passed in identical form long ago, then official American aid would long since have been going to the Contras.

Private efforts like those in which Mr. Hasenfus was directly involved would not be going on at all. I thought our system was supposed to be one where the majority rules. In this case, the majority in both Houses, a bipartisan majority in both Houses, has

spoken and spoken in favor of giving the Contras aid.

□ 1010

I believe it is about time that the willful minority—and again that is a bipartisan minority—who happen to be the ones who control the flow of work, particularly in the House, stand aside and let the majority prevail. I find the same people as I watch television at night condemning America and our credibility in Nicaragua are the same ones who have been stonewalling aid to the Contras. You cannot have it both ways. We voted in the Senate two or three times. They voted in the House, And we are still waiting for official aid to the freedom fighters in Nicaragua.

The other point I want to make is this: The headlines are screaming about this one American. It is unfortunate. He is there. About this one American who is trying to help the Contras. But so far I have not seen a word in the papers or heard anything at all on television about what I understand are hundreds of private Americans down in Nicaragua right now helping the Sandinistas.

I do not know what that tells you. It tells me something. If one American helps somebody who wants their freedom, that is headlines. It is not positive; it is negative. But what of all those who are down there helping Daniel Ortega? I do not question the right of these private citizens to do what they are doing, nor do I challenge their motivation—that is up to them. But there seems to be so much hue and cry about Mr. Hasenfus, people raising the Neutrality Act and who knows what else, that maybe it is time we focus some attention on the broader question of Americans, private Americans, involved down there on either side or on both sides.

If we are going to focus on those who are helping the Contras, let us focus on those who are helping the Sandinistas. I asked that this question be raised this morning in the Foreign Relations Committee briefing on the Hasenfus case and I intend to pursue it directly with the administration in the days ahead.

There is almost a frenzy, a panic, in the media to build some gigantic story out of the fact that private American citizens were helping those who want freedom in Nicaragua. I did not know that wanting freedom was such a bad thing.

But I do not see any effort by anyone in the media who is taking a look at what is happening on the other side, or is questioning why Congress has not acted and why we have not helped the Contras.

As I said earlier, had we done what the Congress, in a bipartisan majority said we should do months and months ago, this story would not be on the front page. There would not be any story.

So if anyone is at fault for the predicament we find some of these hapless Americans in, with now two having lost their lives, it is not the administration. The larger question, I believe, if we are going to have an examination of what Americans are doing in Nicaragua, is let us examine both sides, and let us do what we can to free the American who is held captive now by the Sandinistas.

I watched him on television last night. I am not certain be was telling the truth. When you are paraded around by Sandinista goons what are you supposed to tell the American people? He said he worked for the CIA. Did he? I do not know. Maybe we ought to find out.

But if we do that, I think we also, in fairness to the American people who watch the news, who do not believe it all but who watch it and read it, who know there is a liberal tilt to most of it, maybe we ought to hear the other side, too.

RECOGNITION OF MINORITY LEADER

The PRESIDENT pro tempore. The able and distinguished democratic leader, Senator ROBERT BYRD, of West Virginia, is recognized.

Mr. BYRD. I thank the Chair.

THE ADMINISTRATION'S "BORROW AND SPEND" ECONOMIC PROGRAM

Mr. BYRD. Mr. President, this administration's "borrow and spend" economic program has created a veneer of prosperity at a great cost to our future. With President Reagan as the architect, we are building a shining city on a hill that has all the permanence and soundness of the storefronts for a cowboy movie.

For its entire 5 years, this administration's economic program has been controversial. As the economy has become increasingly weak over the last 2 years, the administration has been left with fewer and fewer economic success stories. Now it seems reduced to saying, "Well, at least we have managed to avoid a recession." With each day's economic news, even that feat seems more in doubt.

Back in 1981, we were told that adoption of the administration's supply side program would unleash an unprecedented boom in our economy. Savings and investment would soar, jobs would become plentiful, unemployment would shrink, output and productivity would turn robust, and Government revenues would come pouring in and wipe out the deficit.

As the economy has moved up and down over the last 5 years, so have evaluations of the administration's program. For the first year-and-a-half of the administration's program, the economy took a nose dive steeper than any recession since the Great Depression. Then, for the next 18 months, the economy staged a strong recovery going in to the elections of 1984.

It has now become apparent that the steep upward climb of 1983 and the first half of 1984 did not indicate that the administration's Economic Program would fulfill its long-term promises. Those 18 months of strong growth represented only a rebound which was steep on the upside only because the preceeding recession had been so steep on the downside.

We now have 2 more years of experience by which to judge the legacy of Reaganomics. Although we have avoided recession these last 2 years, all the key indicators of the economy's basic health—employment, real income, GNP, productivity, industrial production, savings, and investment—have stagnated or declined. We must also confront key indicators of the economy's basic sickness: First, uncontrolled trade deficits; second, foreign borrowing; third, an explosion of private and public debt; and, fourth, recent sharp declines in the measures of investor and consumer confidence.

During this administration, the economy has performed even more poorly than it did during the 1970's. The economy was jolted by two recessions and two oil shocks during the decade of the 1970's and turned in a lackluster 2.8-percent average annual growth in real GNP. For the last 2 years, we have not had a recession or major shock to the economy, but we have managed only a 2.5-percent rate of growth. For the 5 years of this administration, we have averaged only 2.2 percent growth.

Employment gains have also been sluggish during this administration. During the 1970's, we were expanding jobs by an average of 2.4 percent annually. If that rate had been maintained throughout this administration, we would have created 14.2 million additional jobs by now. That is 44 percent more than the 9.9 million jobs that have actually been added during the Reagan term.

Our standard of living depends directly on raising our productivity. Unfortunately, during this administration, the rate of increase in productivity has fallen short of the abysmal 1.3-percent rate of the 1970's. The last 2 years have seen a scant 0.8-percent rate of increase in our productivity, less than 1 percent.

With the slowdown in both jobs and productivity, there has been a squeeze on real income growth. Real after tax income of American families grew by 3.3 percent a year during the 1970's. If that rate had been maintained during this administration, American families

would be taking home an additonal $38 billion in income this year. That would be an additonal $430 per American family.

When the administration's supply side program began, the most glowing promises were reserved for savings and investment. Unfortunately, the performances of both savings and investment have been more dismal than anything else. Investment in plant and equipment has grown at half the rate of the 1970's. For manufacturing and mining alone, such investment is actually lower today than it was when this administration took office. Those two sectors would be spending 21 percent more on plant and equipment today if they had increased their spending at the same rate they did in the 1970's.

The large tax cuts granted to corporations and high-income people have not boosted savings as promised. Corporations have spent their tax cuts primarily on mergers, stock buy-backs, dividends, and bonuses for top management. Meanwhile, households are saving much less than they did 5 years ago and the percentage of their income saved has hit the lowest level since the hoarding spree at the outbreak of the Korean war.

Despite the poor health of the economy, Americans have increased both private and public purchases by 20 percent over the last 5 years. That far exceeds the 12-percent growth in national production and income. An unprecedented expansion in debt has permitted families, businesses, and government to increase purchases much more than their incomes, profits, and tax revenues would otherwise permit.

In the last 2 years, the real debt burden of the Federal Government has grown at a 13-percent rate and the private sector has almost kept pace. Nonfarm businesses have added to their real debt load at an 11-percent rate and the burden for households has been compounding at a 9-percent rate.

Just as these individual sectors have been borrowing and spending beyond their means, the Nation as a whole has been spending much faster than it has increased production and income. This shows up in the explosion in the trade deficit and foreign debt. When this administration took office, the Nation was running a modest surplus in its current account, the broadest measure of payments and receipts for trade in goods and services. This year we are expected to run a current account deficit of roughly $130 billion. In the last 6 years, our exports have dropped. To finance our huge surge in imports, we have been forced to sell more than $600 billion in domestic assets.

All this borrowing and spending might be justified if the Nation had chosen to invest heavily to raise our future standard of living. Sadly, the fact is that, the exact opposite has occurred. As I noted earlier, businesses have actually slowed their investment in plant and equipment during this period. Just as important, we have lagged in our investment in education and training. In the last 5 years, we have cut Federal support for retraining programs in half and aid to education by 16 percent, in real terms.

One of Aesop's best-known fables contrasts the grasshopper and the ant. The grasshopper lived for the moment and put nothing away for the future. Meanwhile, the ant carefully stored away food for the winter. We all know who survived the winter and lived to prosper.

Mr. President, this administration has promoted the grasshopper's economic policy for the Nation. We must make a permanent sacrifice of tens of billions of dollars a year just to service our new foreign debts. Instead of strengthening our capacity to pay those debts, we have cut back our investments in people and equipment. We shall pay dearly for this shortsighted policy in coming years. We all know who survived the winter and lived to survive.

Mr. President, I yield the floor.

Mr. PROXMIRE. Mr. President, I congratulate the Democratic leader for his fine speech on the economy, made in spite of a very painful cold.

It is true we have suffered lower growth, less real wages, less full-time employment, poor productivity, as the Senator has so well said, a full-fledged farm depression, more debt—Federal, corporate, and private, personal—than we have ever had in our history, at every level.

Mr. President, we have a miserable trade balance, an almost ruined textile industry, as the Presiding Officer knows better than anybody in the Senate, and a totally ruined shoe industry.

So, Mr. President, I think the Democratic leader made an excellent speech this morning, right on target. I think he is completely right and the facts are undeniable.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDENT pro tempore. Under the previous order, the Senator from Wisconsin [Mr. PROXMIRE] is recognized for not to exceed 5 minutes.

STAR WARS—THE ROAD TO NOWHERE

Mr. PROXMIRE. The President's latest proposal on star wars in his speech at the United Nations on September 22 would provide for 5 years of research within the limits of the Anti-Ballistic Missile Treaty. It would then provide for 2 years of superpower negotiations about how to share the results of that SDI research between the superpowers and then 6 months' notice before canceling restraints against production of the star wars hardware and its deployment. If this sounds like a reasonable proposition, it is because you have not been following the pronouncement of star wars officials. The President is offering nothing. He gives the illusion of making a concession to the Soviets by slowing the star wars timetable. Is he? No way. The timetable for star wars announced by the President is not slower than the present star wars timetable. It is much faster.

When will star wars, in fact, be ready for deployment? The best informed and also one of the most optimistic experts on star wars is the man who is directing the project, Gen. James Nathanson. He has said that we could not deploy star wars until 1996. The 1996 estimate is almost surely very optimistic. Here we have the most technologically complex military project in history. It will also be far and away the most expensive. An impressive array of experts tell us the computer software necessary to operate this project as a coherent and successful defense is impossible. Scientific and military experts consistently tell the Senate Appropriations Committee that the cost of building and deploying the hardware will exceed $1 trillion and will take 10 years or more to produce and move into orbit after research is completed 10 years from now.

So what does this mean? This means that if—and it's a very big if, indeed—if research has been completed successfully 10 years or so from now and if the impressive majority of scientific experts are wrong when they say the software problem for such an immense and complex scientific project is insoluble, the star wars project might go ahead as early as 1996. But that is less than half the problem. A much bigger part of the problem is whether the Congress that is in office 10 years from now will be willing to spend $100 billion a year in 1986 dollars on a project the President had said we will share with the Soviet Union.

Just think of it, Mr. President, this means that the President and the Congress we elect in 1988 must support full funding of star wars as the cost continues to increase sharply in each successive year. It means the President and the Congress elected in 1992 must also have the same prostar wars commitment. And it means the President who moves into the oval office in 1996 and the Congress must also continue to favor full funding. And the cost goes on.

The President and Congress elected in the year 2000 must also accept the $100 billion annual cost. Keep in mind that the Congress has not given the

President anything like the increased funding for star wars he has called for. This year, for example, the President called for an 80-percent increase in funding. What will he get? About 10 percent, if he's lucky. But the President has to date been asking for $4 or $5 billion. How will Congress react when he needs and calls for $100 billion?

And, Mr. President, this never ends. Former Defense Secretary Harold Brown is today probably the outstanding independent expert in this field. He served as director of the Livermore Lab. He is a world-class physicist. And, of course, he was Secretary of Defense for 4 years. What does this expert tell us of the continuing cost of star wars for maintenance and modernization once it is deployed? Brown has told us that the cost would be $100 billion each and every year in 1986 dollars in perpetuity. That is right—forever.

Mr. President, one of the phoniest aspects of the administration's position is that the Soviets would agree to a big quid pro quo in return for being able to share the star wars technology. The obstacles to this country in building, deploying and successfully operating a star wars system are immense. In the judgment of many experts they are insuperable. The obstacles for the Soviets taking advantage of the star wars technology are much greater.

This country could painfully afford to spend $1 trillion for a star wars system even though that system has about 1 chance in 10 of succeeding. The Soviets could not. This country could afford to spend $100 billion a year to modernize and maintain such a system. The Soviets could not. This country is at least 30 years ahead of the Soviet Union in computer fabrication, operation, and maintenance. Even if we gave the Soviets our star wars computer technology, they could not maintain and operate it.

So what would they do if we proceeded with our star wars missile defense? The answer is simple. They would have no choice. They would build up their offensive missiles to overcome it. That is a sure thing. Why a sure thing? Because the credibility of their deterrent would be at stake. Their status as a superpower would be on the line. They would have no choice except to reject star wars and go sled length for an offensive capability that would penetrate it, underfly it, overwhelm it, spoof it.

Would they succeed? The odds are overwhelming that they would. Most of our independent experts believe star wars could not work. But Mr. President, we would never know. No President of the United States would be able to rely on a system that could never be tested under actual combat conditions, a system that had so little support in the independent, scientific community.

So, what would be this country's response to the predictable Soviet offensive nuclear build up? That's easy. We would match it or surpass it. So star wars would do one thing for sure. It would make effective nuclear arms control impossible. The Soviets would never accept an arms control agreement that would limit or reduce the credibility of their offensive deterrent once we begin to construct and deploy an antimissile system designed to nullify that deterrent. And this is precisely what star wars is designed to do.

So, Mr. President we have a choice. We can spend $1 trillion to build and deploy star wars and $100 billion every year in perpetuity to modernize and maintain it and we will kill arms control in the process. Or we can stop the star wars project and rely on two things to keep the peace: First, a credible American nuclear deterrent—that has kept the peace for 40 years. And, second, a steady progress in arms control that would make the deterrent as stable and invulnerable as possible; arms control that would continue to take every step to prevent the prospect of accidental war and arms control that would limit as much as possible the spread of nuclear weapons.

THE MYTH OF THE DAY

Mr. PROXMIRE. Mr. President, the myth of the day is that Senators control their political campaigns. A few years ago, a campaign for a U.S. Senate seat in essence reflected the views and personalities of the candidates.

These campaigns were "seat-of-the-pants" affairs. A candidate who was well known in the State or district could gather a few friends and mount a serious campaign. To win, you went out and pressed the flesh. Money was important, but it was seldom an insurmountable obstacle. Hard work, and a good pair of shoes, were more important.

What about today's campaigns? You might as well compare Thomas Edison to American Telephone & Telegraph Co., better known as AT&T. Mr. Edison was an entrepreneur while AT&T is a giant corporation, as are many of today's campaigns.

The candidate is surrounded not by a few friends, but by a horde of campaign consultants. These consultants advise the candidate on what to say, how to smile, and where to go. They design the campaign commercials and raise the money to get those commercials broadcast.

Raising money becomes the most important function of the campaign. Without money, first of all, those campaign consultants rapidly lose their enthusiasm. Then media "buys" disappear. Finally, the candidate is left adrift and must resort to a desperation move—going out and meeting the voters. The campaign, at least among the smart money set, has become a joke.

Today's smart campaigns seem to want to hide the candidate. All that money is spent not to identify the candidate but to sell him or her. Hard work becomes less important, cute television more so.

The ultimate danger to this trend is not that voters will be deceived and elect "brand X" candidates. The ultimate danger is that political debate, which literally involves life and death issues, will be debased beyond repair. Down that road lurk demagoguery and demagogues.

Mr. President, there are some hopeful signs that this trend toward corporate campaigns may be cresting. Money, how it's raised and spent, what it buys, and what is sold to raise it has become an issue in a number of campaigns. The voters may well decisively reject this new approach. That would be a happy day for this country.

□ 1030

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. GRASSLEY). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1040

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, no Senator seeks recognition at this point. I ask unanimous consent that I may speak out of order.

The PRESIDING OFFICER. Without objection, it is so ordered.

GOVERNMENT CREDIBILITY

Mr. BYRD. Mr. President, State Department spokesman and Assistant Secretary of State for Public Affairs Bernard Kalb resigned Wednesday with an eloquent dissent to the administration's disinformation program.

The administration is right about our national disgust for the likes of Qadhafi, but it is wrong in assuming that anything goes. It is wrong in assuming that the American people share the discouraging view that a good end justifies any means.

Playing fast and loose with the truth is a dangerous course for the officials of any government based on trust. Qadhafi is a gnat in comparison to the importance of the faith of our people in their government. Once a lie is discovered, can the words of the perpetrator ever be heard again without skepticism?

I regret that the administration did not better evaluate the consequences of misleading the press in terms of future credibility. At this point in our history, when trust in elected officials is already at a low point, the problem need not be exacerbated. The greatest mistake we who believe in a democratic government can make is to lose sight of the fundamental pillars of our way of life because of the heat of the moment. Certain trust cannot be violated without serious and far-reaching costs.

The Washington Post's October 8 edition reports the crash of an aircraft, shot down in Nicaragua. On the same page that the Post reports charges of CIA involvement by the Nicaraguan Government and assertions by the wife of an American survivor that her husband worked for the CIA, the Post reports a denial of any CIA involvement by the administration. Coming on the heels of the disinformation campaign, can anybody read these accounts with any confidence in the denial? This is not the first time that the Reagan administration has applied its own standard of truth. David Stockman "cooked" the numbers, destroyed the integrity of the budget process, gave us the magic asterisks, and gave us the deficits bleeding our Nation's future. The contrast between word and deed is, I fear, deepening within this administration. Saying that a summit is not a summit, that a deal is not a deal, that a swap is not a swap, serves to reinforce the perception that the truth to this White House is only what the administration thinks it ought to be on any given day.

Words have meaning. When they lose their integrity, they lose their meaning and are no longer believed. When there is no longer faith in the integrity of the leadership of a nation the essential bond that binds that nation together is lost.

Those of us who have been in politics for a long time certainly understand the art of putting the best face on a case. But, when the administration foolishly compromises its credibility and the international credibility of our country by deliberate means, it damages us all and it does the citizens of this Nation a grave disservice.

I urge that a closer look be taken at the consequences of promulgating "disinformation" by those at the White House who make public pronouncements. The resignation of Mr. Bernard Kalb in protest on October 8 should drive home a hard lesson. Trust once lost is a hard commodity to regain, and the loss of that trust will have ramifications for Mr. Reagan, his successor, and indeed, for all public officials.

It has taken years for us to recover from the national trauma of Watergate. Those of us who hold public trust should not make the egregious mistake of deliberately misleading the people. No cause excuses that violation. No end justifies that means.

Mr. President, I ask unanimous consent to have printed at this point in the RECORD the resignation announcement by State Department spokesman Bernard Kalb on Wednesday, October 8, 1986.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

RESIGNATION ANNOUNCEMENT BY STATE DEPARTMENT SPOKESMAN BERNARD KALB

BERNARD KALB. I'm a little later than usual, but sometimes these things do happen. I just want to share some thoughts with you against the background of what Chuck said about an hour or so ago.

Much to my surprise, and perhaps to a lot of other people, I've been in this job as spokesman and as Assistant Secretary of State for Public Affairs for almost two years, a journalist-turned-spokesman. The guidelines that go with the job were set forth by Secretary Shultz: No lies, no misleading, to be as forthcoming as possible within security constraints. I've sought to abide by those guidelines. I've sought to expand the frontiers of official disclosure; that is, by handling (?) a newsman's requirements in the building to try to get out as much information as possible.

You may have felt at times that I was offering you more calories than vitamins. But I did not, in keeping with the Secretary's credo and my own credo, I did not throw in any artificial additives. But now a controversy has swirled up around a question of credibility. According to a published report, there was a memo forwarded by the National Security Advisor that talks about what is called in this report a disinformation program. I take it you've read it in the newspapers.

So you face a choice—as an American, as a spokesman, as a journalist—whether to allow one's self to be absorbed in the ranks of silence, whether to vanish into unopposed acquiescence, or to enter a modest dissent. In taking this action, I want to emphasize that I am not dissenting from Secretary Shultz, a man of integrity, a man of credibility. Rather, I am dissenting from the reported disinformation program.

I'm concerned about the impact of any such program on the credibility of the United States. Faith in the word of America is the pulse beat of our democracy. Anything that hurts America's credibility hurts America. And then, on a much, much, much lower level, there's the question of my own credibility, both as a spokesman and a journalist—a spokesman for a couple of years, a journalist for more years than I want to remember. In fact, I sometimes privately thought of myself as a journalist masquerading as a spokesman. In any case, I do not want my own credibility to be caught up, to be subsumed in this controversy.

It seems that in the last few days the controversy has dropped off, or so it seems. I even read a story about Western Europe apparently shrugging off the story. The controversy may vanish, but when you are sitting alone, it does not go away. And so I have taken this step of stepping down.

A couple of other things I'd like to say at this point. I want to say that I remain grateful to Secretary Shultz for having offered me the honor, a couple of years ago, of serving our country. It has been a rare, it has been a precious experience to have had the opportunity to be with him as he sought to advance America's interests, to make the world safer for us all. To me, he is a monument of credibility, integrity, courage, strength. And I've encountered these same qualities with my other colleagues here in the State Department.

I'd like to take a moment, too, to thank the Secretary for the kind words he said about me that Chuck shared with you a little while ago.

And a final word, if I may, that my best wishes go to the President and the Secretary as they get ready for Iceland, that they succeed in their continuing efforts to advance the cause of peace.

That's about what I have to say.

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, seeing that no other Senator wishes recognition, I wish to speak on another subject, out of order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. I thank the Chair.

□ 1050

PRAYER AND THE SENATE

Mr. BYRD. Mr. President, as the 99th Congress draws to a close, I want to express my appreciation to our Chaplain, Dr. Halverson, for his contributions to our daily work here in the Senate.

Some people do not understand the Senate Chaplain's place in and significance to the Senate's life. The prayers that initiate each day's meeting of the Senate have a long history, however, and are, I believe, a vital part of the Senate's heritage, tradition, and atmosphere.

Chancellor Otto von Bismarck once remarked that, "Anybody who loves sausage or the law should never watch either being made."

That epigram is quite realistic, and perhaps as a result of that truth, we have our daily invocation by the Chaplain or by a guest minister.

During the Constitutional Convention nearly 200 years ago, divisions, wrangles, disputes, animosities, and quarrels hit such a peak that, at times, the very existence of the new American Republic seemed threatened.

At that point, Benjamin Franklin, who was the oldest member of that gathering, stood to his feet one day and addressed the chair in which sat Gen. George Washington, the future first President of the Republic.

Franklin said to Washington and to the illustrious gathering about him:

Sir, I have lived a long time. And the longer I live, the more convincing proofs I see that God still governs in the affairs of men. If a sparrow cannot fall to the ground without our Father's notice, is it possible that we could build an empire without our Father's aid? I believe the sacred writings, sir, which say, "except the Lord build the house, they labor in vain that build it.

Except the Lord keep the city, the watchman waketh but in vain."

Franklin went on to say:

I move you, sir, that henceforth we begin our deliberations with prayer, else we shall succeed no better than did the builders of Babel.

So that wise gathering heeded the admonition of that wise man, Benjamin Franklin, and henceforth there was prayer at the beginning of each day's deliberations.

The result was that out of the convention evolved the greatest document of its kind that was written, the Constitution of the United States.

Upon the closure of that convention, Dr. Franklin was approached by a lady who, coming up to him, said, "Dr. Franklin, what have you given us?" His response, "A Republic, Madam, if you can keep it."

Well, a part of keeping that Republic, Mr. President, is our remembrance of the Divine Being who watches over this Nation, who watches over it and guides it. We must not forget that the people who founded this Republic and those who founded the colonies before it, who hewed the forests before that, and who carried—from the shores of the Atlantic Ocean across the Alleghenies, across the prairies, to the great Pacific—an axe, a bag of seed, a rifle, and a Bible believed in an omnipotent God who would guide their footsteps and favor their undertakings.

Those founders of this Republic believed in a higher power. Some were Catholics, some were Jews, some were Methodists, Presbyterians, Episcopalians, Baptists, Lutherans, Quakers, men and women of all denominations and descriptions, but whatever their denominational faiths, their beliefs in God were unshakeable.

That was the kind of faith that built this great Nation. That is the kind of faith that, in Dr. Franklin's words, "will preserve this Republic."

We find that spiritual awareness running like a long, unbroken thread throughout the history of our country, as President after President, from George Washington to Ronald Reagan, have referred to a divine providence, all of them in their inaugural addresses.

Wise, experienced man that he was, Franklin saw his colleagues becoming swamped in regional pettiness and lost in legal trivia. Franklin realized that many in the Constitutional Convention were losing sight of the importance of giving our country a philosophical foundation and a framework based on an eternal perspective. The daily prayer that Franklin suggested was intended to shed the light of the divinity on the mundane job of writing a constitution, paragraph by paragraph and article by article. Thus, Franklin reminded his colleagues of the sacred work that they were about.

The process of legislating today is not much more attractive perhaps than when Bismarck made his observation or when Franklin made his suggestion. But I believe that we have proved Franklin correct every day by beginning our deliberations with prayer.

Too often, like our predecessors in the Constitutional Convention, we can become bogged down in the intricacies of our work. Parliamentary procedures, quorum calls, amendments, concurrent resolutions, joint resolutions, simple resolutions, everything that we do here has a purpose. But sometimes even Senators can lose sight of the great goals toward which we are laboring in our legislating, bill by bill, amendment by amendment, hearing by hearing, and conference by conference. The Chaplain's prayer helps keep our eyes focussed and our hearts tuned to a much clearer frequency, and to help us to be steadier in our larger purposes.

We need only again to turn to the inscription over this door back of me and fronting the Presiding Officer. Over that door are the words "In God we Trust."

In God we trust. This kind of Biblical perspective on life allows our daily concerns in this Chamber to assume more realistic proportions and helps us not to lose sight of the vast forest while we are tangled in the legislative underbrush.

Mr. President, I am a firm believer in the principle of the separation of church and state. Around the world, we witness the catastrophes wrought by sectarian bitterness, particularly when one sect subverts the power of the state to its own advantage. The arm of the state should never be an appendage of one sect or another.

But though I believe in the separation of church and state, I do not believe in the exclusion of God from our national life, or the divorce of religious and eternal principle from the legislative process. Indeed, like Benjamin Franklin, I believe that no nation can fully succeed without divine involvement in its affairs or in the lives of its people. Throughout our history, eternal inspiration has played a decisive role in American life. That is appropriate, and that should be a matter of gratitude and a cause for thanksgiving by all Americans.

Again, then, I thank Dr. Halverson for his sincere labors to remind us each day of our responsibility to God and to cast our work together in the Senate in the light of God's judgment. The prism of Biblical faith changes man's view of truth, legislative or otherwise. In their invocations, Dr. Halverson and those guests who are invited here from time to time stand before us to keep our minds set on the high calling that is ours, and they help us to steer this Nation aright. For that service, I and all of our colleagues are grateful.

The Lord is my shepherd; I shall not want.

He maketh me to lie down in green pastures: he leadeth me beside the still waters.

He restoreth my soul: he leadeth me in the paths of righteousness for his name's sake.

Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.

Thou preparest a table before me in the presence of mine enemies: thou anointest my head with oil; my cup runneth over.

Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the Lord forever.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. THURMOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business with statements therein limited to 5 minutes each.

The Senator from South Carolina.

ORDER VITIATING SPECIAL ORDERS FOR SENATOR HAWKINS AND SENATOR BAUCUS

Mr. THURMOND. Mr. President, I understand the two special orders, one by Senator HAWKINS and one by Senator BAUCUS, have been canceled.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1120

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DURENBERGER). Without objection, it is so ordered.

THE SENATE CHAPLAIN

Mr. GRASSLEY. Mr. President, I had the opportunity while I was presiding over the Senate to listen to the statement of the Senate Democratic leader on the role of the Chaplain in the U.S. Senate, and a dissertation on the spiritual foundation of our Nation.

I want to compliment the Senate Democratic leader for that statement. Hopefully in the process of my complimenting him and bringing the atten-

tion of other Members to the statement, it will be read by those who could not hear it and also, hopefully, even people beyond the Senate paying considerable attention to it. I think it is very important and very worth noting when a person as important in the leadership of the country as the Senate Democratic leader states those standards and reminds all of us as to the heritage of our country. I want to particularly compliment him for that role he just played, and also to say that I very much agree with his statement and only wish that I had had the opportunity to be here on the floor and to expand on it at that particular time.

LOWER COLORADO WATER SUPPLY ACT

Mr. JOHNSTON. Mr. President, H.R. 5028, the Lower Colorado Water Supply Act, is an excellent piece of water legislation. It is necessary because the city of Needles, CA, and various individuals will soon lose their Colorado River water supplies as a result of full operation of the central Arizona project. The bill would authorize the Bureau of Reclamation to drill wells near the All-American and Coachella Canals—which are connected to the Colorado River—for purposes of tapping a large aquifer that has developed from canal seepage and natural ground water. Water from the aquifer would be placed into the canals, thus allowing the city of Needles and other beneficiaries to make equivalent withdrawals from the Colorado River.

Mr. President, this bill should satisfy even the harshest critics of the Reclamation Program. The authorization is for the relatively small sum of $1.8 million. The portion of this cost not allocated to Federal beneficiaries is reimbursable with full interest. Under the provisions of an amendment to be offered by Senator METZENBAUM, the bill will also require operation and maintenance expenses to be paid on a current basis and require the city of Needles and other incorporated entities to provide 20 percent up-front cost shares.

I think that this legislation is demonstrably in the public interest and urge its passage.

TRIBUTE TO SENATOR PAUL LAXALT

Mr. HECHT. Mr. President, the adjournment of the 99th Congress brings to a close the Senate career of PAUL LAXALT. I am sorry to say he is leaving this great body, Mr. President, because in the over 20 years of our friendship, PAUL LAXALT has been a true friend and adviser and I will miss his presence greatly.

As Nevada's favorite son, Mr. President, PAUL LAXALT has proven that the spirit of the West is transplantable to this body. He lent that spirit to the Reagan revolution which has brought about a strong and revitalized economy, renewed worldwide respect, and peace and prosperity at home. He has accepted the call of his President in difficult international situations, and has successfully led his party to increased prosperity and stature.

While PAUL has served his country above and beyond the call, Mr. President, his first and foremost commitment has always been to Nevada. PAUL LAXALT has shown the world that Nevada is one of our most beautiful States and has contributed greatly to making Nevada one of America's fastest growing. I attribute these facts to the very presence of PAUL LAXALT as a Member of the U.S. Senate, but even more to his stature as a truly American leader in the tradition of our greatest statesmen.

We of this body, Mr. President, will miss PAUL LAXALT. His record is a legacy for us all to serve by. In the near future, Mr. President, I have an inclination that PAUL LAXALT will once again accept the call to leadership of this great Nation. We send him off with all best wishes.

TRIBUTE TO SENATOR BARRY GOLDWATER

Mr. HECHT. Mr. President, the 99th Congress could not come to a close without acknowledging the brilliant and distinguished career of my good friend from Arizona, Senator BARRY GOLDWATER. In 1963, Mr. President, it was BARRY GOLDWATER who's call to conscience instilled in me what it was to be a conservative. He extolled the virtues of why America must have a strong defense and defend her borders from aggression, why we must exercise fiscal restraint at the Federal level to keep America prosperous, and why we must fight tyranny in the form of communism wherever it rears its ugly head. He is known to us and the Nation as "Mr. Conservative" and no more fitting label could be applied to what he stands for and the way he has served in public life.

Mr. President, BARRY GOLDWATER is a man of wisdom and uncanny commonsense. He is one of our most respected and inspirational Members who I am sure will go down in the history books as one of this bodies greatest and most valued Senators. BARRY GOLDWATER will be missed as an honest and sure voice, Mr. President, and while we regret his departure, we wish him all the very best for the future.

THE CLAIBORNE IMPEACHMENT TRIAL

Mr. DECONCINI. Mr. President, an impeachment trial is a rare event, thankfully. Our corps of Federal judges on the whole are a marvelous collection of people who exhibit the combination of intelligence, fairness, and integrity. It is a sad day for them and for the country when we are made aware that a Federal judge has so conducted himself that a jury finds beyond a reasonable doubt that the judge is guilty of a felony. Our duty in the legislative branch, first to bring articles of impeachment and then to conduct a trial, must follow if the convicted individual has not resigned.

Having observed Judge Harry Claiborne over a number of days during hearings of the Special Impeachment Committee that received evidence, and having observed the various witnesses before that committee and reviewed the written record of events related to Judge Clairborne's activities, I concluded that Harry Claiborne violated his high position of public trust and must be removed from office.

The evidence that he violated the criminal tax laws is overwhelming. Let me briefly summarize some of the factors that led me to this conclusion.

I will begin with tax year 1980. This was the year that Claiborne changed from his accountant and friend of 30 years, Mr. Joseph Wright, to Jerry Watson of Creative Tax Planning. For the second straight year, Claiborne engaged in what may be described as surreptitious cash transactions by cashing a large check at a local casino rather than depositing it in his bank.

For the taxable year 1980, Claiborne substantially understated his taxable income. He failed to recognize a $214,812 capital gain, and failed to report $87,912 in legal fee income. This was in addition to his salary as a Federal judge, $54,000, and his investment income of $2,751. On this income well in excess of $300,000, Claiborne paid a total tax of $1,103. His tax liability, had it been paid as required by law, would have been $97,864. It is inconceivable to me that this would not have raised questions in Claiborne's mind.

Other factors on this return are also most troubling. The errors that were made just happened to be on forms that are not ordinarily reviewed by the IRS in their automatic data verification. The offsetting of ordinary income against supposed capital losses on schedule D defies belief. The attempt to take a capital loss of $250,000 on a sale that never occurred is preposterous. The wholesale miscalculation of the sale of his home—all errors being in his favor, naturally—simply adds to list factors that make me believe that Claiborne knowingly and willfully winked at obvious errors on

his tax return that redounded to his benefit.

Claiborne was also convicted by a jury for willful violation of the tax laws as they related to his 1979 return. In short, the evidence is that Claiborne again underreported his income from legal fees by about one-half. Claiborne received approximately $44,000 in legal fees from his former legal associates. He reported a little over $22,000 of this to his accountant. Contrary to his long held practice of cashing checks received for legal work, he cashed 8 of the 14 checks he received in 1979, at local casinos.

The total amount of legal fee income in 1979 is variously reported by Claiborne. In a letter of circa March 1, 1979, to his account, Claiborne claimed legal fee income of $45,371; in a letter Claiborne claims to have sent to Wright on April 11, but which Wright has no knowledge of, Claiborne claims income of $41,073; on his May 15, judicial ethics disclosure form he listed income of $23,050; and finally, on his tax return he listed income of $22,332. Four different figures within 100 days. The net result was that Claiborne underreported his income by approximately $18,000.

Claiborne was convicted for his violations of the tax law for 1979 and 1980, but these years only appear to be a part of a much larger pattern of underpayment of his taxes. In 1978, he was required to pay a tax deficiency of approximately $75,000 on his 1977 return; we have discussed his underreporting in 1979 and 1980; but yet again in 1981, as a result of his claim of a tax loss carryforward from 1980, he offset, illegally, $40,000 in ordinary income against this capital loss, as well as taking the $3,000 deduction he would have been entitled to if the underlying transaction has not been fraudulent. It certainly appears that Claiborne engaged in a long-term pattern of tax evasion and misrepresentation.

Mr. President, throughout the proceedings, I have been troubled by what I sense is an evasion by Judge Claiborne of the issues for which he is being tried. As the chairman of the House Managers stated during his presentation, Judge Claiborne wants us to try everybody but Harry Claiborne. His testimony before the full Senate is devoid of any comment of explanation concerning his 1980 return; it does not try to explain how he justified his payment of just over $1,000 in taxes in 1980 when every indicator pointed toward payment of a higher amount. Indeed, just weeks before he filed his return he had written a check to the IRS for over $20,000 when he assumed his liability to the Government for that year would be about $43,000 in total. His testimony doesn't explain why, when in 1979, his accountant, Joseph Wright, asked him for checks for $16,000 and $4,000 to pay his 1979 tax liability and make his quarterly payment of estimated taxes for 1980, he instead gave Wright checks for $8,000 and $2,500.

One excuse we did hear from the judge was that he was overworked. Now, I can sympathize with many Federal judges I know who do put in long and strenuous hours, but the statistical record reflects that Harry Claiborne didn't even match the average productivity of his brethren. For example, in 1979, Claiborne disposed of 185 cases, the national norm was 325; in 1980, Claiborne disposed of 303 cases while his brethren averaged 349; it was the same again in 1981 with Claiborne at 245 and the national average being 384; and again in 1982 with the national average being 409, for Claiborne it was 351. I realize that statistics don't always truly reflect workload, but a multiyear sampling like this certainly might lead one to conclude that Claiborne wasn't quite the dynamo of judicial activity that he portrays.

Finally, I would like to express my overall concern about Judge Claiborne's fitness and integrity to serve on the Federal bench. Symptomatic of this general concern are the actions taken by Judge Claiborne in the *Matter of the Sealed Affidavit; U.S.* v. *Joseph Agosto; U.S.* v. *the United States District Court for the District of Nevada,* 600 F.2d 1256 (1979). This was a case in which Judge Claiborne unsealed and released to Oscar Goodman, a 131-page master affidavit describing an ongoing Federal investigation of substantial proportion. A similar affidavit had been sealed by another Federal judge until a later date "to avoid disrupting the nationwide investigation of which the Las Vegas investigation was a part." In so releasing these documents, I believe Judge Claiborne exercised extremely poor judgment. I say this with the greatest of understatement. In looking back upon the seeds of the distrust with which the Las Vegas strike force viewed Judge Claiborne, this event may well have been the catalyst to later aggressive behavior on their part. It is clear that the strike force concluded that the judge, by releasing this information, had not merely engaged in poor judicial judgment, but possibly in actions a good deal more sinister in their import.

Mr. President, I would like to conclude by praising Senators MATHIAS and SARBANES for the diligence and fairness with which they conducted the committee of 12 that received evidence in this case. Every effort was made to give Judge Claiborne the greatest possible latitude in seeking evidence and witnesses. At all times these gentlemen, as chairman and cochairman, exhibited the highest values associated with due process and the rights of the individual. The same can also be said for the other members of the committee. The high level of discussion and interest in the rights of the individual and fair play carried over to the closed Senate debates and I congratulate my colleagues for their professionalism.

Finally, I would be remiss if I didn't heap particular praise on the Senate Legal Counsel's office so ably headed by Michael Davidson. Mr. Davidson was thoroughly professional at all times, under the most trying of circumstances, and battling legal issues for which no precedents existed. At all times he has been a credit to the legal profession and to the Senate. He was ably assisted by Ken Benjamin, Nancy Bradshaw, Morgan Frankel, Sarah Fox-Jones, and Barbara Thoreson. We appreciate their dedicated public service and that of the staff of the Rules Committee.

I also want to thank Bob Feidler, counsel to the Senate Judiciary Committee, who has worked closely with me on this matter, and two outstanding legal interns with the committee, Brad Kerby and Doug Drury, for all their assistance.

TRIBUTE TO SENATOR GARY HART

Mr. HATFIELD. Mr. President, as we wind down the 99th Congress, our range of emotions is somewhat limited. We have been worn to weariness by long days filled with elation, frustration and sometimes resignation. But despite our numbness, we still are aware of the impending loss of six retiring Senators, including the senior Senator from Colorado.

GARY HART came to the U.S. Senate with an established record as a creative thinker equally at home discussing local issues or debating global policy. He has honed a keen knowledge of politics from the grassroots level on up to the national level. In his two terms, GARY has gained the respect of the Members of this Chamber and gained national prominence because of his commitment to finding solutions to difficult problems.

Despite our placements with respect to the center aisle, GARY and I often have found ourselves in agreement regarding matters of military and foreign policy. GARY has long spoken out for the need to gain agreement with the Soviet Union to curb the nuclear arms race. His critiques of our conventional defense system have shed new light on the argument that "more is not necessarily better" when it comes to weaponry; he has challenged us to rethink our military policy.

For the past 17 years the United States has had a moratorium on production of lethal nerve gas weapons. GARY and I have worked side-by-side to deny the administration the option

of replacing our existing stockpile. Together we shared the belief that these terrible weapons should never again be used on mankind. I will miss a trusted ally in this cause.

I doubt that GARY is foresaking politics to pursue a career as a full-time mystery writer. As he leaves the U.S. Senate and follows a new path, I am hopeful that my friend and colleague will find personal satisfaction and success, and I wish him all the best.

RETIREMENT OF SENATOR BARRY GOLDWATER

Mr. HATFIELD. Mr. President, I do not look forward to adjournment because it will mark the close of the distinguished Senate careers of a number of my colleagues and friends. One such friend is the Senator from Arizona, Senator BARRY GOLDWATER. Known as a Senator who is truly "one of a kind," he has been one who has never lost perspective or taken himself too seriously during the time I have known him.

My relationship with Senator GOLDWATER began in 1964 when I was a delegate to the Republican National Convention. At the time I was Governor of the State of Oregon. Although I went to the convention as a committed Rockefeller delegate, I left as a supporter of the Goldwater/Miller ticket.

During the many weeks of campaigning for the Goldwater/Miller ticket, I was frequently asked if I had changed my political views? People found it difficult to reconcile my positions on the issues of the day with my strong support for BARRY GOLDWATER. No, Mr. President, I had not changed my views. My support for BARRY GOLDWATER in 1964 was not based on his adhering to my political philosophy or on my adopting his philosophy. My support was on the basis of his strong character and personal integrity and devotion to the decentralization of Government, which transcended our political differences.

Throughout our service together in the Senate, my deep respect for the distinguished Senator from Arizona has remained constant. In characteristic fashion, Senator GOLDWATER has always been fair and forthright. Although our differences on issues at times have been very strong, he has not allowed those differences to rupture our relationship.

Mr. President, the Senator's high degree of integrity, strong convictions and dedication to public service over the years have been the backbone of his successful political career. His willingness to hold firm to his convictions of what America should be, at home and abroad, has been a powerful example to us all. The retirement of the Senator from Arizona will be a loss to the Senate and to the Nation.

TRIBUTE TO SENATOR THOMAS EAGLETON

Mr. BOREN. Mr. President, when THOMAS EAGLETON first began his political career as circuit attorney in St. Louis, he was often referred to as Missouri's "boy wonder." During 30 years of public service, Missouri's "boy wonder" has evolved into an outstanding legislator whose service to his State and our Nation will not be forgotten. The end of the 99th session of Congress will signify the end of Senator EAGLETON's third and final term in this body and we wish him well in his future endeavors.

Senator EAGLETON has earned the respect of his colleagues through his consistent dedication to the people of Missouri and to his country. The vast knowledge which he has brought to a variety of issues has contributed to his legislative success. He is that rare breed of politician who is willing to do what he believes is right rather than what is politically popular or personally advantageous at the time.

A man of indominatable spirit, THOMAS EAGLETON is recognized as one of the most effective Senators in floor debate. His ability to bring clarity and insightfulness to even the most complex issues is respected by Democrats and Republicans alike.

Senator EAGLETON has played a key role in the enactment of several pieces of significant legislation in the past 15 years. During his years as a member of the Labor and Appropriations Committees, TOM EAGLETON has led the way in providing improved services to our Nation's elderly. He was a primary figure in establishing the National Institute on Aging and for expanding the services available to the elderly under the Older Americans Act.

Senator EAGLETON's concern for the U.S. involvement abroad has prompted him to take an active role in a wide-range of foreign policy issues. THOMAS EAGLETON has worked with determination to establish limits on the President's war-making powers. In 1973 he led the successful campaign to cut off funds for the United States bombing of Cambodia. In 1974 Senator EAGLETON was instrumental in the passage of the Turkish arms embargo after Turkey used American-supplied weapons in its invasion of Cyprus. As a member of the Senate Foreign Relations Committee, Senator EAGLETON has remained actively concerned over United States foreign policy, with particular regard for our role in the conflict in Lebanon.

THOMAS EAGLETON is a man of enormous personal courage and public dedication. His notable abilities and perserverance as a legislator have earned him both the respect and the admiration of his colleagues. His popularity in his home State of Missouri has never been challenged. I join with the other Senators and Members of Congress in expressing our deep appreciation to Senator THOMAS EAGLETON for his outstanding service to our country.

TRIBUTE TO SENATOR BARRY GOLDWATER.

Mr. BOREN. Mr. President, when the 99th Congress adjourns it will mean that this body must say farewell to one of its most esteemed and senior Members, Senator BARRY GOLDWATER of Arizona. His contributions to our Nation as a Senator will be sorely missed.

Senator GOLDWATER is a man of principle and of the utmost integrity. His personal political philosophy, which includes a staunch belief in the free enterprise system and in individual freedom over Government regulation, has made its mark on our Nation. He has worked diligently to preserve our Nation's military strength.

I have been honored that he has been the principal coauthor with me of campaign finance reform legislation to limit the amount of political action committee money going into Federal election campaigns. His support of this much-needed reform will be missed next year when we renew our battle to gain enactment of this change in our campaign laws.

As chairman of the Senate Armed Services Committee, this year Senator GOLDWATER has accomplished what would have earlier been termed an impossible task—the most comprehensive reorganization of the Department of Defense in DOD history.

When asked recently by a newspaper reporter what I would term the greatest success of the 99th Congress, I cited Senator GOLDWATER'S Pentagon reorganization bill. This legislation, which Senator GOLDWATER pursued with a single-minded purpose, will do much to eliminate the parochial views of the separate branches of the armed services that presently often impede interservice cooperation and the giving of coherent military advice to the President. It does so by granting more authority to the Chairman of the Joint Chiefs of Staff and other major Pentagon entities who are charged with coordinating the operations of the separate services.

Senator GOLDWATER has also served this body and his Nation for 4 years as chairman of the Senate Select Committee on Intelligence, where he took an active role in the important congressional oversight responsibilities of U.S. intelligence activities.

As a member of the Senate Small Business Committee, Senator GOLDWATER has propounded his staunch belief in the free enterprise system and his feeling that our economy is better off with less Government regulation of private business. He has said

that unless overburdensome Government regulation is stopped, "This country will face a full-fledged economic collapse of its free institutions."

During his service as chairman of the Commerce Subcommittee on Communications in 1981, Senator GOLDWATER successfully gained passage of legislation to deregulate the telecommunications industry. Later, in 1984, he won passage of a bill to establish a national policy for cable television.

Senator GOLDWATER has supported a constitutional amendment to require a balanced Federal budget and has continually recognized the importance of our Nation's energy independence to our overall national security, opposing a windfall profits tax and supporting deregulation of oil.

Senator GOLDWATER started his political career while managing his family's department store in Phoenix when he was elected to the Phoenix City Council in 1949. In 1952, he defeated Senate Majority Leader Ernest W. McFarland to take his seat in the U.S. Senate, interrupting his Senate service only once, between 1964–68 to run for President of the United States on the Republican ticket in 1964.

He is a graduate of Staunton Military Academy and attended the University of Arizona. He served in the U.S. Army Reserves and Air Force Reserves for 37 years, attaining the rank of major general USAFR.

Senator GOLDWATER has served his country and this body at great personal sacrifice. I first met Senator GOLDWATER while I was still a college student and had the privilege of introducing him to a forum at Yale University. Since then I have been privileged to count him as a personal friend. His encouragement has meant a great deal to me. His example of absolute integrity and devotion to principle has exerted a substantial influence upon countless young people who aspired to be public servants in the highest and best sense.

Within the U.S. Senate as an institution, BARRY GOLDWATER has himself been an institution. His hard-working ways, unfailing support of his political philosophy and principles, and his honest, no-nonsense remarks about the direction our country should be taking can never be replaced.

I have no doubt that Senator GOLDWATER will continue to make contributions to our country in his new role in the private sector. I join all my colleagues in this body in thanking Senator GOLDWATER for his service to his State, his Nation, and to the U.S. Senate.

□ 1200

DEATH OF BILL TESINSKI

Mr. MELCHER. Mr. President, this evening in Great Falls, MT, there will be the funeral services for Bill Tesinski who is 38 years of age and met a very tragic and untimely death a few days ago.

Bill Tesinski was a mechanic at the City Motors in Great Falls for some 19 years, half of his life, and of late he has been an amateur photographer of some note. Over the past weekend Bill was involved in attempting to take some pictures in Yellowstone National Park. No one witnessed his death. It occurred because of a grizzly bear. Bill was not attempting to take pictures of grizzly bears. He was attempting to take pictures of elk when this accident, this tragic accident occurred.

He had been missing from home for a couple days and it was unexplained. He was thought to be taking pictures in other areas of Montana.

The remains of Bill Tesinski were found by park rangers in Yellowstone near Canyon when they became aware of the presence of a female grizzly who had returned to the area, having spent most of the summer in that particular area with her two cubs. The grizzly had been removed from there by the park rangers to a considerable distance to the eastern edge of Yellowstone National Park. So when she was collared with a signaling device, that was picked up by the park rangers monitoring the signaling devices and the park rangers went there just to see where she was. They found the grizzly or saw the grizzly bear from a distance and it was dragging off something and upon coming closer they found that it was the remains of Bill Tesinski.

The grizzly bear was shot and killed then as is the management practice of the park rangers in Yellowstone when it happens to be a grizzly that attacks a human being.

□ 1210

I talked to the family to offer my condolences.

RESOLUTION URGING GRIZZLY BEAR STUDY

I am now submitting in the Senate today a sense-of-the-Senate resolution that I believe might help avoid tragedies like this in the future.

Mr. President, all of us in the country and perhaps throughout the world want to protect this endangered species, the grizzly bear. But we also want to alleviate the conflict between grizzly and man.

The sense-of-the-Senate resolution that I am submitting today merely instructs the Secretary of the Interior, using both Federal and private wildlife biologists, to institute an investigative study in one or more experimental programs in managing grizzly bears in the Yellowstone National Park with a set of goals.

The first and most primary goal is to avoid the conflict between man and grizzly bears. I would hope that we can have enlightened management of grizzly bears and avoid such tragedies as befell the Tesinski families. To his parents and to his daughters, Shantal Lee Tesinski and Monique Marie Plant, I offer my heartfelt condolences.

The resolution is as follows:

Resolved, That it is the sense of the Senate that the Secretary of Interior using federal and private wildlife biologists shall institute an investigative study and one or more experimental projects in managing grizzly bears in Yellowstone National Park with these goals:

1. Avoiding conflict between man and grizzly bears.
2. Assuring stability of the numbers of the Yellowstone Park grizzly aggregation.
3. Documenting the nutritional needs of grizzlies necessary for normal reproduction.
4. Determining whether the effects of eco-center management would contribute to alleviate conflict and secure grizzly nutrition.

Mr. MELCHER. Mr. President, I ask unanimous consent that an article by Bert Lindler of the Great Falls Tribune staff be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Great Falls Tribune, Oct. 8, 1986]

MISSING GREAT FALLS MAN DEAD IN PARK

(By Bert Lindler)

A Great Falls wildlife photographer missing since Saturday evening in Yellowstone National Park was found dead Tuesday morning by rangers who killed a grizzly bear standing near his partially consumed body.

Park officials were withholding the man's name pending notification of next-of-kin.

Yellowstone rangers noticed the man's car parked along the road between Canyon and Lake both Saturday and Sunday.

When the car was still there late Sunday night, rangers ran a license check to see if they could find out why the car hadn't been moved.

Monday afternoon rangers were able to contact friends and relatives who told them the man had left Great Falls Friday and expected to return Saturday evening. They thought he had been taking pictures in the Crazy Mountains and had reported him missing there.

A hasty search was begun Monday evening while a major search was planned for Tuesday. At 7 a.m. Tuesday rangers aided by a helicopter, search dogs and horses were preparing for the search.

Meanwhile, rangers with a radio receiver picked up the signal of Bear No. 59, a radio-collared sow grizzly whose signal had been noticed in the area the day before. The grizzly has been in the Canyon area most of the summer, where she grazed in meadows along the roadside with her two cubs.

Although hundreds of tourists watched her, she is never known to have shown any form of aggression other than normal defense of her cubs, said Dan Sholly, the park's chief ranger.

Two rangers went to check on Bear 59 as preparations for the search continued. They found her standing above and dragging what appeared to be a body.

When they notified search leaders, other rangers armed with rifles came and killed the bear, Sholly said. An autopsy showed that the bear had consumed parts of a human body.

A camera with a zoom lens was on a tripod that had been knocked over. The film in the

camera is being developed and may help determine what happened, Sholly said.

An autopsy is being performed on the man's body, he said.

The body was found at 7:40 a.m. near Otter Creek about one-half mile from the Grand Loop Road between Canyon and Lake.

Bear No. 59 was first trapped as a subadult in 1980 at the employee's trailer park near Canyon. She was trapped again in 1981 and twice more in 1984.

On Sept. 4 she and her two cubs were trapped near Canyon and moved to the eastern boundary of the park because they had been feeding on garbage. Ten days later she had returned to the Canyon area without her cubs.

She was seen along the roadsides in the area as recently as Friday, Sholly said.

This summer when hundreds of people were watching the bear and her cubs along the roadsides, rangers kept the crowds away from the bears, Sholly said.

"We don't care to have people and bears in close proximity to each other," Sholly said, but the park didn't want to chase off either the bear or the bystanders.

Mr. MELCHER. Mr. President, the name of the deceased in this article is Bill Tesinski. He is survived by his father, John Tesinski, his mother, Terri Knott Madler, and his daughters, Shantal Lee Tesinski and Monique Marie Plant.

Mr. President, I thank the Chair, I suggest the absence of the quorum.

The assistant legislative clerk proceeded to call the roll.

□ 1300

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. DOLE. Mr. President, let me indicate to my colleagues who may be listening in their offices or in conferences that we know there are probably a dozen or more meetings going on between the House Members and Senators. I also know that there are some Senators on each side who have commitments outside Washington, DC today or late today. They would like to know precisely what may happen.

The only problem is I cannot tell them precisely what may happen. We had hoped by now to have the reconciliation measure before the Senate, and act on it today. I was advised not long ago that it is probably not going to happen today because there is still a rather firm area of disagreement between the Senate Finance Committee, bipartisan I might add, and the House Ways and Means Committee. We have gone as far as to call Don Regan in Iceland yesterday afternoon. He spoke with me, Senator LONG, and Senator PACKWOOD.

□ 1340

We have not seen any resolution of that.

The other area that is certainly of concern to every Member, and we want to act on it, is the drug enforcement bill. There is a bipartisan agreement on this side except for one provision, the death penalty in certain extreme cases. There are meetings going on as I speak concerning some way to resolve that issue so we do not hang up that very importance piece of legislation.

There is some possibility we might be able to take some action on that today.

I hope to be in a position to indicate to my colleagues within the hour whether that is going to happen.

Finally, there is the brief extension of the continuing resolution. Again, reflecting the views of the President, he does not wish to sign another extension of a continuing resolution, not even for 1 day or 2 days, unless he can be assured that we are making some progress on the overall continuing resolution.

I know the House passed an additional continuing resolution that would extend through Wednesday midnight. I must say at this point we have no plans to take that up. There will be a meeting at 5 o'clock of the conferees of the Appropriations Committee of the House and the Senate. If they can give us some reading at 6 or 7 o'clock that they are about to wrap up the big continuing resolution, we might then be able to address the short term. I would hope we could do that on a voice vote.

I regret that we are not in a position to tell Members that we are finished for the day. I would guess there is a 50-50 chance we may be, but I would not want any Member leaving and missing a vote, or suggesting that we had not been candid. I just do not know.

There are a number of Senators talking to House Members and other Senators to see whether they can bring their matters to the attention of the Senate yet this afternoon. I just cannot be any more explicit than that. If somebody has to go, just go, but he might miss a vote or two.

Mr. DIXON. If the leader will yield, does he anticipate any votes tomorrow?

Mr. DOLE. I do not anticipate any votes tomorrow. There will not be a Monday session.

Mr. BYRD. Does the majority leader anticipate a session tomorrow?

Mr. DOLE. There could be a pro forma session if we file cloture on the House message on the drug bill. We would come in for that either tomorrow or Monday, but I think it might be better to come in tomorrow for a brief moment so that the cloture motion could be acted upon by Tuesday.

Mr. BYRD. Do I hear the majority leader saying if there are any rollcall votes this afternoon they will be in relation to the drug bill in all likelihood?

Mr. DOLE. I think I am prepared to say that. I understand there is very little hope of having the reconciliation matter before us today.

Mr. BYRD. And, further, that we should know within the hour?

Mr. DOLE. I would hope so. I know the distinguished Senator from Delaware is on the floor. He has been meeting with a number of Senators. I know that the staff on each side, the Republican and Democratic staff members, worked up until 10 or 11 o'clock last night and worked again this morning. They have now completed a bipartisan amendment which we can offer to the House message. The whole area of disagreement in the whole amendment is the death penalty. I do not know how that will be resolved at this point.

Mr. BYRD. I thank the majority leader.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1400

Mr. ROCKFELLER. Mr. President, I ask unanimous consent that the quorum call be rescinded.

The PRESIDING OFFICER (Mr. GOLDWATER). Without ojection, it is so ordered.

UNITED AGAINST DRUGS

Mr. ROCKEFELLER. Mr. President, based on recent events, the American people have the right to question just how committed the Congress is to enacting major antidrug legislation. The fact that the Senate and the House of Representatives have yet to reach an agreement on a final package at this very late date sends a disturbing message to the public—namely, that we may allow election year politics or individual agendas to get in the way of acting on what we have all recognized as one of the Nation's most serious problems, drug abuse.

As someone who has been actively involved in writing the Senate's drug legislation, I know what enormously hard work and leadership have gone into working out a bipartisan approach to the drug problem. Twelve days ago, a sound, ambitious, thoughtful bill was passed by the Senate—thanks to the willingness of Members on both sides of the aisle to make concessions, reach agreements on numerous issues, and refrain from insisting on controversial or divisive proposals. I

thought that we had succeeded in doing what we had intended to do to initiate a major war on our Nation's drug problem.

But then, we got signals from our colleagues in the House of Representatives that they would not accept our bill nor participate in a conference to hammer out a final package. Most troubling is the condition placed by the House and supported by some of our colleagues in the Senate—that the death penalty must be included in its drug legislation.

Thus, Mr. President we are at an impasse. For reasons which I respect, some of our Senate colleagues have indicated that they will filibuster the drug bill if it contains the death penalty. I support capital punishment—only under, however, the most stringent circumstances sanctioned by the Supreme Court. But I do not believe that the proposed federally-mandated death penalty should determine the fate of the drug bill. In my view, we will do a major disservice to the American people if we let this single, tremendously divisive issue prevent us from conducting the war on drugs that we have declared and promised in these recent months. The irony is that the death penalty is already legal and used in many States across the country. However, the resources, the programs, and the mandate to fight drugs are not yet in place—that is what our legislation intends to do—and they will not be until we pass a comprehensive drug bill.

Mr. President, there is a great deal at stake. We have the opportunity to pass legislation to eradicate drugs in other countries, to stop traffickers and smugglers at our borders, to take swift and harsh action against these and other drug-related criminals, to educate our citizens about the dangers of drugs, and to provide treatment to help children and individuals recover from their dangerous use of drugs. Now is the time to take historic action against drug abuse. To delay any longer runs the risk of losing the momentum and bipartisan support needed to achieve this critical objective. If we permit the death penalty issue or political posturing to block the passage of an anti-drug bill, I believe we would perform a grave injustice, and would deserve the American people's cynical reaction to any further claims we might make about wanting to do something to end the drug crisis. I urge my colleagues in the Senate and the House to join together and mount a united front against drugs.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HARKIN. Mr. President, I ask unanimous consent that further proceedings under the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

EUGENE HASENFUS AND THE DOWNING OF THE C-123

Mr. HARKIN. Mr. President, as more news of the Hasenfus mission unfolds, it is becoming apparent to this Senator that the Reagan administration is playing an elaborate and dangerous game of hide and seek.

It is a game of hide and seek with the truth;

It is a game of hide and seek with the law; and

It is a game of hide and seek with the American people.

Yesterday, the distinguished Senator from Minnesota, the chairman of the Senate Intelligence Committee, challenged the White House to disclose what it knows about the Hasenfus mission. I join him in making that challenge.

It is time that this administration step out of the closet and come clean about whatever role it may have had in the Hasenfus incident.

Before beginning the third in a series of questions—this is the third day I wish to pose some questions about this issue—I want to send a single and simple message to the Nicaraguans: "Two wrongs don't make a right."

I ask the government in Managua to adhere to international law and permit the U.S. consul in Managua to visit Mr. Hasenfus.

The Nicaraguans should obey international law. That law provides that our Embassy in Nicaragua ought to have access to Mr. Hasenfus in the most expedient and forthright manner. The Nicaraguans should obey the law, even though this administration has not necessarily obeyed international law in the past.

Furthermore, I am appalled by the manner in which the Nicaraguans presented the coffins carrying the two dead Americans to the American Embassy in Managua. Reports have it that the two bodies were incinerated or cremated and then delivered on a cattle truck and dumped in front of the door of the Embassy in Managua.

Mr. President, this administration's refusal to respect the rules of civilized behavior by continuing to support a war that kills of thousands of Nicaraguans does not in any way excuse the Sandinistas from violating acceptable laws of behavior.

While I do not condone or in any way sanction what those Americans were doing in carrying out their covert war against the Government of Nicaragua, nonetheless, two wrongs do not make a right; and the Nicaraguan Government's reported action in handling the coffins of the two dead Americans violates what I consider to be the norms of civilized behavior.

On Wednesday and Thursday, I asked a series of questions regarding what assistance, if any, the U.S. Government provided the Hasenfus flight. Since my statement, Eugene Hasenfus has stated that his supply flights were directly supervised by members of the Central Intelligence Agency in El Salvador.

In response to the question of whether any Defense Department or U.S. Government employee assisted Hasenfus in loading his C-123 cargo plan, Hasenfus responded: "Two Cuban naturalized Americans that work for the CIA did most of the coordination for the flights and oversaw all of our housing, transportation, also refueling and flight plans."

Hasenfus identified the naturalized Cubans as Max Gomez and Ramon Medina.

Furthermore, Hasenfus claims that the entire operation at Illopango, consisting of 24-26 employees, is a "company"—or CIA—operation.

Is this truth or fiction, Mr. President?

I believe the American people ought to have a right to know; the administration should come forward and give us the facts concerning the CIA operations at Illopango.

Hasenfus and his two flight companions, Wallace Sawyer and William Cooper, all had Salvadoran Air Force ID cards identifying them as U.S. military advisers. It is my understanding that the U.S. Embassy in San Salvador reviews all such cards before they are granted to Americans.

Was our Embassy in San Salvador involved in any way with Mr. Hasenfus, his associates, and the other Americans flying arms supply missions for the Contras? Was the U.S. military group in San Salvador aware of these supply flights, and did the milgroup assist these flights? It is one thing to know about them, which obviously would not be a violation of the law. It is quite another thing if they helped them in any way to load or refuel. That would be a violation of the law.

Who financed the Hasenfus mission? An October 9 Newsday story charges that the Hasenfus flight had been paid for by Saudi Arabian funds. Cost of the cargo, salaries of the crew, and the chartering and equipping of the plane was less than $250,000, according to U.S. defense source. Is this truth or fiction? Were the Saudis involved or were they not?

The man who organized the flight, and who established the connections between the Saudis and the Contras was retired Air Force Maj. Gen. Richard Secord. Secord, an adviser to Secretary of Defense Weinberger until he

retired in May 1983, was the administration's chief pointman for the sale of AWACS to Saudi Arabia in 1981.

The person, who allegedly connected Secord to the Contras, however, was Col. Oliver North. North was also involved in the AWACS sale and has since been charged with being the administration's pointman for coordinating private U.S. support for the Contras.

Colonel North now works for the National Security Council.

Mr. President, is the Newsday piece accurate? If so, was the U.S. Government aware of secret Saudi support for the Contras, and did it provide advice or support for this arrangement?

Or, perhaps, are we chasing the wrong rabbit? Does the CIA really know about this? Maybe they do but perhaps the CIA has not been involved. Maybe they have not broken any laws. Has the White House done an end run around the Agency and gone through the National Security Council and through Colonel North and to retired Gen. Richard Secord in arranging these flights? The administration has to come clean on this.

The Hasenfus missions raises another series of questions regarding the complicity of our allies in the region.

An October 9, Baltimore Sun story reports that three to five flights take off every week from a restricted part of the air base at Illopango, El Salvador's main air base. The ID tags worn by Hasenfus were signed by Gen. Rafael Bustillo, head of the Salvadoran Air Force. Documents recovered from the Hasenfus flight show the registry numbers of five Contras supply planes based at Illopango.

President Duarte and the Salvadoran military have issued strong denials to these charges. But they apparently are concerned enough about operations at Illopango to have ordered Salvadoran Treasury Police to hold for 2 hours an Associated Press reporter and her Salvadoran photographer for taking unauthorized pictures of the airbase.

Hasenfus' charges about Salvadoran involvement—fact or fiction, Mr. President?

Mr. President, I ask unanimous consent to have printed at this point in the RECORD an article that appeared in the October 9 Baltimore Sun, entitled "Salvadoran Role in Supplying 'Contras' Starts to Come Into the Open."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

SALVADORAN ROLE IN SUPPLYING "CONTRAS" STARTS TO COME INTO THE OPEN

(By Chris Norton)

SAN SALVADOR, EL SALVADOR—El Salvador's position as a transfer point for supplies to U.S.-backed "Contras" has long been an open secret, say informed sources here.

President Jose Napoleon Duarte, however, adamantly denied yesterday that a C-123 twin-engine cargo plane shot down over Nicaragua had taken off from El Salvador. "We have no information on that. I have asked the [armed forces] high command, and they say no." President Duarte said.

Still two of the Americans killed in the crash allegedly were carrying cards giving them access to a restricted part of San Salvador's Ilopango air base, which is used by both the Salvadoran air force and civilian planes.

Ilopango personnel say that three to five flights take off every week from a restricted part of the air base used by the Americans. These flights are believed to be used to supply the U.S.-backed Nicaraguan contra forces.

U.S. government officials deny that the plane was theirs and say that the plane belonged to the private contra-aid group called the United States Council for World Freedom, headed by retired U.S. Maj. Gen. John K. Singlaub. One of the Americans who died, however, also carried a business card from the State Department's Humanitarian Aid Office in Washington, which had been a channel for funds for the contras.

Informed sources say that the Salvadoran air force has given the contras the use of several warehouses to store shipments before they are reloaded onto smaller planes bound for the contras. These sources say that permission to use the warehouses was given by the head of the Salvadoran air force, Gen. Rafael Bustillo, the powerful rightist commander closely linked to the contra effort.

Sources say that the rebels have used Ilopango at least since 1984, and probably earlier, to ship supplies to ex-Sandinista contra leader Eden Pastora, who was based in Costa Rica. Bombing raids in 1984 against Nicaragua also were believed to have originated at Ilopango.

CIA supplies to Mr. Pastora, however, were cut off when he resisted merging his forces with the main CIA-supported contra force, the Nicaraguan Democratic Force (FDN), claiming that they were controlled by former officials of ousted dictator Anastasio Somoza's National Guard.

Late in 1985, contra flights out of Ilopango reportedly picked up again after the Honduran government restricted contra shipments through its territory in what many observers say was an attempt to extract more U.S. aid.

On April 24, 1985, five European and U.S. mercenaries were captured in Costa Rico trying to link up with the FDN contras. U.S. citizen Steven P. Carr said that he was brought from Miami to Ilopango on a large DC-3 cargo plane loaded with weapons for the rebels.

The Salvadoran government officially denies aid to the contras. It is not known whether the aid is official government policy or merely carried out on the private initiative of General Bustillo.

Although President Duarte is commander-in-chief of the armed forces, top military officers such as General Bustillo have wide leeway to operate in areas related to national security.

On June 14, Panamanian authorities seized a large shipment of weapons originating in East Germany. At first the destination was a mystery, but the bill of lading revealed that the cargo—2,000 AK automatic rifles, 1,500 anti-tank rockets and 38 four-wheel-drive military trucks—was bound for the Salvadoran military. The real destination of the AK assault rifles was believed to be the contras, because the Salvadoran army uses the U.S. made M16 rather than the Eastern bloc-style AK rifle, which is the contras' standard weapon.

□ 1420

Mr. HARKIN. Mr. President, the President and his advisers again are straining their credibility if they want us to believe all of the denials. Furthermore, I find it even more incredible that some of my colleagues are being asked to swallow the charge that Congress, because of its failure to approve the Contra funding, is responsible for this fiasco.

We are being assailed that since we did not fund the Contras we brought this on ourselves. I find that hard to believe.

As I remarked yesterday, Mr. President, in the words of Lewis Carroll, this story is getting curiouser and curiouser as we go along.

Mr. KERRY. Mr. President, will the Senator yield?

Mr. HARKIN. I am delighted to yield to my colleague.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KERRY. Mr. President, I would like to congratulate my colleague and really call to the attention of the Senate the service that he is performing in continuing to ask what are very serious questions about this particular flight.

I think most of us who have been following the situation in Central America understand that this administration has made it very clear about how grateful they are to these private groups that have been literally circumventing the U.S. Congress, and it is clear that they could not do so if it were not for that encouragement.

I wonder if my colleague shares with me the belief that there are many, many unanswered questions which raise serious questions in and of themselves about this administration's willingness to adhere to the law, about the whole question of whether or not the constitutional process of the Congress having stated an intent and having it abused, that subversion does not represent a fundamental breach of trust and faith with respect to that relationship?

Mr. HARKIN. I thank my colleague from Massachusetts. I think he is quite right to point out that what good does it do us to pass the Boland amendment or laws restricting the CIA if in fact the White House will do an end run, through the National Security Council or other agencies to support the Contras.

So, you wonder just how many "i's" do we have to dot, how many "t's" do we have to cross, just how specific we have to be in instructing the administration what our policy ought to be.

The Boland amendment which restricts the kind of aid that can be provided the Contras, has been skirted. It looks like an end run has been done. As the Senator from Massachusetts has pointed out, trying to find the truth of this is like chasing the cheshire cat. It is there for a minute and then it is gone. There are all kinds of shady things going on with this administration's policy.

As the distinguished Senator from Vermont has said, perhaps a lot of these things are going on with a "wink and a nod" from the administration. I find that not in keeping with the constitutional processes of government.

Mr. KERRY. I share my colleague's feeling. I know that we learned today that Mr. Hasenfus apparently was receiving some $3,000 a month or so per mission that was placed in a bank account.

I think we could answer a lot of the questions if the administration were to help us in getting that bank record and trying to determine where that money came from and who is paying this money.

This Senator certainly finds it no small coincidence that three former employees of the CIA are flying a plane which was formerly contracted with the CIA which is dealing with a couple of people who are formerly the CIA, all simultaneously coming together in this one mission that winds up with the first prisoner of war of this conflict in Central America.

I think that when the Congress of the United States says we do not want direct or indirect assistance that that law ought to be upheld. I think the administration ought to be held accountable on this and I hope we are going to continue to ask those questions.

Mr. HARKIN. I would appreciate my colleague's response on this observation. I know the Senator from Massachusetts, myself, and most of our colleagues in this body have been very supportive of Napoleon Duarte of El Salvador, of his efforts to bring democracy to El Salvador, in trying to return that country to its feet.

We all have the highest respect for President Duarte, and it appears now we may be putting him in a very difficult situation.

In fact, if the U.S. Government were not involved in refueling and resupplying and helping the aircraft that fly out of Ilopango, then the Salvadorans must be responsible. That puts the El Salvadoran Government in a very difficult position with their Central American neighbors.

So it seems now we have the worst of both possible worlds. There is shadiness about the truth of U.S. involvement, and there is the question of Salvadoran involvement in this operation.

Does the Senator from Massachusetts have any observations on this matter?

Mr. KERRY. Again I think it just raises the question of what is happening here. Everybody is denying that they have anything to do with this aircraft. Yet this aircraft has a lot of weapons in it. It turns out that in the wallet of one of the dead crewmen is the name on a business card of a Mr. Robert Owen. We know that Mr. Robert Owen is involved with the Humanitarian Assistance Program. He has connections to Mr. Oliver North at the National Security Council. That is a well-known fact as a matter of public record. And the question is why is somebody who is transporting those weapons carrying that business card? What are the connections? Is there in fact through that wink and the nod the carrying out by these individuals of almost a tacit Government program? Even though it is obviously not directly Government, it is with such clear approval and such permissiveness that it becomes quasi-governmental.

I think these are questions which Congress, if it cares about the laws that it passes and if it cares about the separation of powers and the appropriate treatment of the Constitution, that has to be answered.

Mr. HARKIN. Let me ask the Senator another followup question. Perhaps we are chasing the wrong rabbit here. Perhaps the Central Intelligence Agency is being painted with a brush with which they ought not to be painted. Perhaps the CIA has in fact adhered to the law.

Does the Senator think that it could be possible that the Hasenfus and similar operations could be run out of the White House, through the National Security Council, by people like Colonel Norton and retired General Second; that the NSC could be doing an end run around the CIA. Maybe we ought to be looking at the National Security Council, and not the Central Intelligence Agency.

Mr. KERRY. This Senator has made it very clear as a matter of public record and reiterated again today that I think the pertinent individuals from the National Security Council ought to be brought before us. The Foreign Relations Committee is conducting an investigation and I hope the chairman of that committee will in fact, in his effort, which I think is a genuine and clear one to try to get the answers, call the appropriate people before us, put them under oath, and take the appropriate testimony. I am confident if we do that, we can lift a cloud.

I think the Senator has a point. I think it may be that these groups have been operating in conjunction with the approval of the administration and that the CIA has had former employees conceivably just part of that network because they are there and available, but again, we do not know the answers to these things. I do not know the answers. I know the Senator does not.

The Senator sat in on a long classified briefing today. While it helped in some respects and cleared up certain things, it raised a lot of other questions.

I think again before the CIA is put in the position of managing $100 million of lethal assistance and before we go into this whole new phase of our policy in Central America, we ought to lift the cloud. The CIA ought to be cleared of any wrongdoing if in fact it can be so that we do not proceed into this next phase with a sense of mistrust about the willingness of the CIA to in fact carry out our restrictions with respect to 20 kilometers from any action and no military personnel being involved in the line of fire.

I wonder why is it that we, Congress, have been willing to set a restriction on the military's ability to come into harm's way and yet we are willing to take other Americans and put them in harm's way. I mean what is the difference? It seems to me that it is clear that America one way or another is getting involved dangerously in this conflict and that the American people have made it clear that they do not want it, they do not want it in surrogate subgroups that are somehow supposedly volunteer efforts.

What average American can go out and get an airplane, fly it out of Miami, land it in Illopango Air Base in El Salvador, pick up a crew, fly over to Honduras, get some weapons, fly it down without someone in the United States Government or the CIA, or some kind of winking, saying, "Yes, there goes that flight. We know what that is doing. That is resupplying the Contras."

□ 1430

Now, if that is not approval, if that is not condoning it, if that is not saying we like that—let me tell you something: If the United States Government did not allow it, if that plane were flying down there to supply the Nicaraguans, do not think for an instant that it would have been allowed to land at one of those places or that it would have gotten off the ground. So it is clear that this represents a policy effort to circumvent the law of this country.

I think we have a responsibility to understand how that happens and who has been responsible for it. I thank my colleague for a chance to discuss this.

Mr. HARKIN. I thank my colleague.

I end on this note by saying the more I read about this and the more I hear about it and the more I look into it, it becomes almost more and more apparent to this Senator that we have got some people down at the White House, perhaps in the National Securi-

ty Council, who have been watching too many Rambo movies. And, quite frankly, they are unprofessionals, they do not know how to handle things like this. And what they are doing is they are giving not only our country a bad name, I think they are giving the professionals in the Central Intelligence Agency and in other areas a bad name. They are painting them with their brush. And it is better to leave it to them rather than these so-called Rambo-types in the White House who are trying to carry this thing out.

I thank the Chair. I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KERRY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1520

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. MATHIAS). Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. BYRD. Mr. President, I ask unanimous consent to speak out of order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I take the floor at this time because no other Senators are seeking recognition. I will be happy to yield the floor at any time there is business to be transacted.

I am hoping that we can very soon indicate to our colleagues whether or not there will be rollcall votes this afternoon. Meanwhile, I would like to address my remarks at this time, briefly, to one of our departing Members.

SENATOR CHARLES McC. MATHIAS

Mr. BYRD. Mr. President, in saying farewell to Senator CHARLES "MAC" MATHIAS, this Chamber says goodbye to a member of a family that is steeped in a wealth of political history. His great-grandfather, for example, was a State senator who ran on Abraham Lincoln's ticket in 1860, and his grandfather was a State senator who campaigned with Theodore Roosevelt for the Bull Moose ticket.

But in saying farewell to Senator MATHIAS, this Chamber says goodbye to a Senator who himself is personally steeped in a wealth of political accomplishments and history.

Mr. MATHIAS was first elected to the Senate in 1968 after having served four terms in the U.S. House of Representatives.

As a Senator, MAC MATHIAS has served on the Senate Judiciary and Foreign Relations Committees, as well as on the Aeronautical and Space Sciences Committee, the Joint Committee on the Library, the Government Affairs Committee, and the District of Columbia Committee.

He has been the chairman of the Joint Committee on Printing, the Committee on Rules and Administration, the Judiciary Subcommittee on Criminal Justice, the Subcommittee on Governmental Efficiency, and the District of Columbia Committee. While on the Foreign Relations Committee, he served as chairman of the Subcommittee on International Economic Policy.

Senator MATHIAS has been a forceful advocate of election law reform and copyright protection laws. As a proponent of a long-range energy policy, he has encouraged science and industry to develop new sources of energy. He was one of the original architects of the war powers resolution.

He has been involved deeply as Rules Committee chairman in assuring that the Senate as an institution functions properly and efficiently so that this great body can conduct and complete the vital work American voters send us here to do. All of us owe him a debt of gratitude for his tireless efforts in this respect.

But it will be for his accomplishments in the fields of human and civil rights that Senator MATHIAS will be long remembered and because of which he will occupy an important place in American history. The legislation he proposed resulted in the historic Civil Rights Act of 1964—which we now know propelled the cause of social and political equality for blacks, and freedom and democracy for all Americans.

Because of his effective work for the betterment of all Americans, Senate majority leader, Mike Mansfield, once called Senator MATHIAS "The conscience of the Senate." No one disputed that well-earned label.

Because of his successful work on behalf of the people of his beloved State of Maryland, and for all Americans, Parade magazine, February 15, 1977, rated him as "one of the most industrious, intelligent, and brilliant legislators" in the Nation. No one disputed that, either.

Senator MATHIAS' social conscience has occasionally put him at odds with Members of his own political party, including Presidents of his own party. But Senator MATHIAS has never been at odds with the people of Maryland who have appreciated him as much as he loves them.

In his 1974 election, he received 57 percent of the vote. This was the highest voting percentage that a Member of his party received in a Senate race that year.

In his 1980 election, Senator MATHIAS received the largest number of votes any elected official has ever received in the history of his State.

I have personally appreciated and highly regarded the Senator from Maryland. As I have said before, on August 11, 1986, in the CONGRESSIONAL RECORD, this great Senator and outstanding American has been one of the "most cooperative, most decent, most principled Members of the Senate." He has shown that grace, integrity, objectivity, reason, and statesmanship are integral parts of his character and how much those attributes on the part of a Senator can contribute to this body. For these and other reasons, I have always regarded his friendship as one of the most valuable intangible rewards of my own service in the Senate.

□ 1530

Now Senator MATHIAS leaves us. His departure from the affairs of our Nation creates a deficit in leadership and wisdom that will be difficult to correct, fulfill, and replace. But his accomplishments will forever be a part of the history of this Chamber and of American history.

I understand that he will probably retire to his restored, 200 year-old farm, "Bullskin." I am sure that he will be happy there. For one thing, the farm is so close to the great State of West Virginia that I am sure it is beautiful, comfortable, and very, very pleasant. And as a citation he received from Washington College upon receiving an honorary doctor of law degree noted:

> He [Senator Mathias] is a man of many parts, comfortable in Washington, yet happiest on his Appalachian farm where he raises sheep and other animals.

His gain will certainly be our loss because we lose a Member who has contributed mightily to the good of this Chamber and the well-being of the United States. He will be fondly remembered for the effective, hard-worker that he is, and for the kind spirited person that he is and always will be. I will personally miss him here, as will many other Senators.

Mr. President, I was saying only yesterday to another Senator as I spoke of Senator MATHIAS, and I said this with the greatest of care and very measured thought. Senator MATHIAS is a Senator—this is what I said yesterday to another Senator—he is a Senator who very well could have been one of those who sat in the first Congress of the United States in those first 2 years of the Senate's history. I said he very well could have been one as I have pictured him, a gentleman, wise, analytical, careful, thoughtful, forward looking, a man of vision, he could

71-059 O-87-13 (Pt. 21)

have sat among our illustrious forebears in that Constitutional Convention in 1787.

I can easily see in my imagination a Senator MATHIAS among those men of that day. That is the way I feel about MAC MATHIAS.

We cannot help but to extend our fond and sincere hopes for happiness and contentment, so richly deserved, to MAC and his wife Ann, and my good wife Erma and I extend to MAC and to Ann our good wishes for a very happy, satisfactory, retirement and along with these words go our good wishes for these things: work for your hands, a straight path for your feet, a coin for your purse, a song in your treetop at morning, sunshine on your windowpane at evening, soft rains for your garden, a hand of friendship on your latchstring, happiness in your hearts, love at your fireside and God's blessing always.

The PRESIDING OFFICER (Mr. MATHIAS). Under the rules and the precedents of the Senate, it is impossible for the Chair to respond, but if it were otherwise, he would.

The Senator from Ohio.

Mr. GLENN. Mr. President, I wish to associate myself in spades with those remarks of our distinguished minority leader of the Senate.

In looking at those leaving I know of no one who will leave a bigger gap as a Senator here than MAC MATHIAS. He is not a showboat. He is not out here all the time trying to just pick up on what may be the next press release. He is one of the most thoughtful Senators we have and in that respect he will be sorely missed.

I certainly do wish to associate myself with that eloquent speech by the distinguished minority leader.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

□ 1550

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PACKWOOD addressed the Chair.

The PRESIDING OFFICER (Mr. HECHT). The Senator from Oregon.

BILL DIEFENDERFER, CHIEF OF STAFF, COMMITTEE ON FINANCE

Mr. PACKWOOD. Mr. President, it is seldom in life that one has the opportunity to view from a distance, let alone work closely with, pure genius. It has been my pleasure to work with such a man. That is Bill Diefenderfer, chief of staff of the Senate Committee on Finance.

I first met Bill Diefenderfer in May of 1979 just after I had become ranking member of the Senate Commerce Committee. He came to work as minority counsel for the committee. It was one of those lucky events that happens to you only occasionally in life. Bill and I stayed together for almost 4 years through 1983 when Bill left the Commerce Committee for what I'm sure he thought would be a long stint in private life.

When I had the good fortune, however, to be elected chairman of the Finance Committee, I asked Bill to return as chief of staff. He willingly left private life, but came back only with the promise that he would "see the tax reform bill through." Little did he know what kind of a promise he was undertaking. It wasn't going to be a year and the usual tax bill. It turned out to be a year and three-quarters and the most extraordinary tax bill passed since the Internal Revenue Code was adopted in 1913. It was passed in large measure due to Bill Diefenderfer's leadership. His intellectual capacity is matchless. His political intuition is unrivaled. His wisdom is without peer. And my friendship for him is eternal. Not in my lifetime will I again know his equal. When he leaves, the Government will have lost an extraordinary servant. Hopefully, his departure will be temporary and he will return again soon. I would welcome him back anyplace, anytime, and under any circumstances.

ARMS CONTROL AND THE SUMMIT

Mr. BYRD. Mr. President, I congratulate the distinguished managers of the Department of Defense authorization bill for fiscal year 1987, for achieving an acceptable compromise with the House on the range of arms control and strategic systems provisions in that bill. In particular, I congratulate the statesmanship of the House leadership in reaching an accommodation with the President on the matter of the SALT II no-undercut policy, and, furthermore, the very significant achievement which has been accomplished—a major breakthrough on the issue of nuclear testing. The distinguished Senator from Georgia, [Mr. NUNN] is to be congratulated for his efforts and creativity in bringing about this result, as is the distinguished Senator from Virginia [Mr. WARNER].

Mr. President, for the first time since President Reagan took office, the administration has agreed to request Senate advice and consent on the ratification of the two nuclear testing treaties which were signed, but have languished since the mid-1970's. Furthermore, and of great importance, the administration has agreed to propose formal negotiations with the Soviets on the matter of a comprehensive nuclear testing ban when those two testing treaties have been ratified, as is likely they will be. This finally puts the administration or record supporting a policy which was promoted by every President since Mr. Eisenhower.

This action will serve to undercut the Soviet propaganda campaign, which has been underway for some 13 months, on the subject of a nuclear testing moratorium. It will serve to put the Soviets on the defensive, to test the willingness of Mr. Gorbachev to engage in real arms control.

On the matter of cutting through the central strategic system sublimits of the SALT II Treaty, I believe there is a strong consensus in both Chambers that the United States should not be the first to break through those limits. Therefore, the fact that this conference agreement on the DOD bill does not bind the administration to adhere to those limits—but urges him to do so—I believe it would be a great mistake for the administration to scuttle the key terms of that agreement. It would hand Mr. Gorbachev a pretext for breaking through those ceilings, and it would run against American national security interests. This legislation also contains a study which I added as an amendment on the floor which requires a detailed assessment by the Joint Chiefs of Staff as to the military impacts of breaking through those ceilings. I expect that this study will be comprehensive, and will be of help in determining the detailed impacts of such a breakthrough on our security.

Mr. President, there are many other features of the armed services bill which can be commended here. The SDI compromise, amounting to about 15 percent real growth over last year, seems to me to be a fair compromise. The Midgetman system will go to a full-scale development in fiscal year 1987. The agreement retains a provision I offered, as well, to cap the B-1B Bomber Program at 100 aircraft and to pursue the Stealth bomber with dispatch.

I believe the action by the conferees and by the leadership in both Chambers today is very commendable, is in the national interest, and will help the President at the summit. All Americans can unite behind these provisions, and behind their President in Iceland. We all wish him well in his discussions with Mr. Gorbachev.

DEPARTMENT OF LABOR EXECUTIVE LEVEL CONFORMING AMENDMENTS

Mr. PACKWOOD. Mr. President, I would first like to turn to Calendar No. 977, S. 2864.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

A bill (S. 2864) to provide for a Deputy Secretary of Labor, an Assistant Secretary of Labor for Administration and Management, three additional Assistant Secretaries of Labor, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 3271

(Purpose: To make a modification with respect to Assistant Secretaries to make a technical correction)

Mr. PACKWOOD. Mr. President, I send a technical amendment to the desk on behalf of Senator HATCH and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Oregon [Mr. PACKWOOD], for Mr. HATCH, proposes an amendment numbered 3271.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In the amendment to section 5315 of title 5, United States Code, made by section 2(b)(2), strike "(9)" and insert "(10)".

In section 2(e), strike out "Act" and insert "section".

Mr. PACKWOOD. Mr. President, I move adoption of the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3271) was agreed to.

The PRESIDING OFFICER. The bill is before the Senate and open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill (S. 2864) was ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 2864

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. This act may be cited as the "Department of Labor Executive Level Conforming Amendments of 1986".

SEC. 2. (a)(1) Section 1 of the Act of April 17, 1946 (60 Stat. 91; 29 U.S.C. 552), as amended, is amended by striking out "Under" wherever it appears in such section and inserting in lieu thereof "Deputy".

(2) Section 5313 of title 5, United States Code, is amended by inserting at the end thereof:

"Deputy Secretary of Labor.".

(3) Section 5314 of title 5, United States Code, is amended by striking:

"Under Secretary of Labor.".

(4) Any reference to the Under Secretary of Labor in any law, rule, regulation, certificate, directive, or other document in force on the date of enactment of this Act shall be deemed to refer and apply to the Deputy Secretary of Labor.

(b)(1) Section 2 of the Act of April 17, 1946 (60 Stat. 91; 29 U.S.C. 553), as amended, is amended by striking out "five" in the first sentence of such section and inserting in lieu thereof "nine".

(2) Section 5315 of title 5, United States Code, is amended by striking:

"Assistant Secretaries of Labor (5)." and substituting therefor:

"Assistant Secretaries of Labor (10), one of whom shall be the Assistant Secretary of Labor for veterans' Employment and Training.".

(3) Any reference in any law, regulation, certificate, directive, or other document to the Assistant Secretary of Labor for Veterans' Employment in force on the date of enactment of this Act shall be deemed to be a reference to the Assistant Secretary of Labor for Veterans' Employment and Training.

(c)(1) Section 3 of Reorganization Plan No. 6 of 1950 is repealed.

(2) Section 5316 of title 5, United States Code, is amended by striking:

"Assistant Secretary of Labor for Administration.".

(d) Section 5316 of title 5, United States Code, is amended by striking:

"Assistant Secretary of Labor for Veterans' Employment.".

(e) Subsection (c) of this section shall become effective on the day upon which the individual who is the incumbent of the position abolished by such subsection, as of the date of enactment, ceases to hold the position.

(f)(1) The incumbent in the position of Under Secretary of Labor on the date of enactment of this Act may serve as Deputy Secretary of Labor at the pleasure of the President after such date and the amendments made by subsection (a)(2) shall apply to such incumbent.

(2) The incumbent in the position of Assistant Secretary of Labor for Veterans' Employment on the date of enactment of this Act may serve as Assistant Secretary of Labor for Veterans' Employment and Training at the pleasure of the President after such date and the amendments made by subsection (b)(2) shall apply to such incumbent.

Mr. PACKWOOD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AUTHORIZATION ACT

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the Senate now turn to the consideration of Calendar 1019, H.R. 5495, the NASA Authorization Act.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

A bill (H.R. 5495) to authorize appropriations to the National Aeronautics and Space Administration, and for other purposes.

The PRESIDING OFFICER. Without objection, the Senate will proceed to its immediate consideration.

The Senate proceeded to consider the bill.

AMENDMENT NO. 3272

(Purpose: To make an amendment in the nature of a substitute)

Mr. PACKWOOD. Mr. President, I send an amendment to the desk on behalf of Senator GORTON in the nature of a substitute, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Oregon [Mr. PACKWOOD], for Mr. GORTON, Mr. DANFORTH, Mr. RIEGLE, Mr. PRESSLER, and Mr. HOLLINGS, proposes an amendment numbered 3272 in the nature of a substitute.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The text of the amendment is printed in today's RECORD under "Amendments Submitted."

□ 1610

The PRESIDING OFFICER. The question is on agreeing to the amendment in the nature of a substitute.

The amendment in the nature of a substitute (3272) was agreed to.

Mr. GORTON. Mr. President, today I offer for consideration H.R. 5495, as an amendment in the nature of a substitute. This bill authorizes appropriations for the National Aeronautics and Space Administration [NASA] for research and development; space flight, control, and data communications; construction of facilities; and research and program management; and for other purposes in fiscal year 1987.

Mr. President, this bill reflects a coordinated effort on the part of the Committee on Commerce, Science, and Transportation and the House Committee on Science and Technology. Furthermore, it represents an authorization which, I believe, incorporates the best elements of S. 2714, fiscal year 1987 the NASA authorization bill that the Senate Commerce Committee reported on August 14 and H.R. 5495, the fiscal year 1987 NASA authorization bill that the House passed on September 25. Moreover, this bill authorizes the funding that addresses NASA's post-*Challenger* budget requirements and provides the policy direction that should enable our Civil Aeronautics and Space Program to move to the front once again among space-faring nations.

The Commerce Committee's bill and this bill before us are the products of considerable preparation and deliberation on the part of several of our colleagues. Accordingly, I wish to express

my appreciation to the chairman of the Commerce Committee, Senator DANFORTH; the ranking Democrat on the Commerce Committee, Senator HOLLINGS; the ranking Democrat on the Subcommittee on Science, Technology, and Space, Senator RIEGLE; and Senator PRESSLER, for their roles and effort in preparing this legislation.

Mr. President, at no other time in the history of our Space Program has funding for NASA been more crucial than it is now. Without the availability of the shuttle until, at least, early 1988, and with the untimely accidents of two of our major expendable launch vehicle systems this year, our Space Program has been faced with the grim reality of being unable to gain access to space. Yet, this is no reason for any of us to give up; NASA has brought in new leadership and is in the process of restoring the shuttle to flight readiness. NASA cannot do the job, however, without adequate support from Congress, and this is where we can contribute to this space recovery plan.

This authorization bill gives NASA the resources to make the necessary changes to the shuttle system and to continue the ongoing scientific and technological programs which will use the shuttle once it is flight-ready. Even though we will not be able to fly for another 18 months at the earliest, there still remain many other programs and activities which, if properly funded, will yield productive and meaningful scientific and technological returns. Consequently, these programs take on an even greater significance during the shuttle downtime.

This bill, which I offer on behalf of Senators DANFORTH, HOLLINGS, RIEGLE, and PRESSLER, authorizes $8.598 billion, a funding level that is consistent with NASA's revised fiscal year 1987 budget request of $7.966 billion and the Commerce Committee's authorization of $7.795 billion. The funding levels of this bill, the Commerce Committee's bill, and the administration's revised fiscal year 1987 budget request are quite similar, with the exception of three items, which I will describe below.

The first of these three items is an authorization for continued funding for the Advanced Communications Technology Satellite [ACTS] Program, which the administration has annually opposed and has excluded from the fiscal year 1987 budget request. The Commerce Committee bill authorizes $85 million for ACTS and the bill before us authorizes $80 million. Since the ACTS Program was initiated in fiscal year 1985, Congress has supported this program as a critical element in our Nation's efforts to stay in the forefront of the development of Communications technologies. Therefore, consistent with prior years' actions, the Commerce Committee included the ACTS Program in its fiscal year 1987 NASA authorization bill, and funding for the ACTS programs is included in this bill that has been developed with the House Science and Technology Committee.

The second of these additional authorizations in $272 million for the purpose of replacing the space shuttle *Challenger* and other associated equipment lost in the *Challenger* accident. The Commerce Committee had authorized the construction of this orbiter on the conditions that the President make such a recommendation and that the funding for the replacement is made available in addition to that provided in the committee bill. The purpose of this second condition was to ensure that NASA's other programs were not raided to support this replacement activity. Now, the President has requested additional budget authority of $272 million to replace the orbiter and associated equipment lost in the accident. Also, the Senate has approved in the fiscal year 1987 continuing resolution appropriations bill the appropriation of $2.96 billion from Department of Defense [DOD] funds for the replacement of the *Challenger* and other equipment lost in the accident.

Mr. President, I would like to make it clear that we do not pretend to have the authority in the NASA authorization bill to authorize appropriations for DOD. The purpose of this authorization, nevertheless, is to indicate support for the replacement orbiter and to endorse the Senate-approved plan to appropriate DOD funds for the replacement orbiter.

Mr. President, the third additional authorization that accounts for the difference between this bill's authorization and that of the Commerce Committee and the administration's revised budget request is $531 million, which represents the amount of shuttle services payments that DOD is scheduled to pay NASA in fiscal year 1987. The Senate Appropriations Committee, however, has deleted this payment from the fiscal year 1987 DOD appropriations bill and has made available these funds in the HUD-Independent Agencies Subcommittee appropriations bill.

By way of background, under the terms of a current agreement between NASA and the Department of Defense [DOD], DOD annually pays to NASA a predetermined reimbursement for shuttle services. The scheduled fiscal year 1987 reimbursement to NASA is $531 million. Due to the fact, however, that the shuttle will not fly until 1988, at the earliest, and that DOD already has made payments to NASA sufficient to support 10 future DOD shuttle flights, the Senate Appropriations Committee has deleted from its fiscal year 1987 DOD appropriations bill this reimbursement of $531 million.

I should point out that there is no disagreement among NASA, DOD, or OMB that this reimbursement is obviated due to the downtime of the shuttle and due to the credit balance that DOD has already established with NASA for the 10 future shuttle missions. After the accident, however, NASA, DOD, and OMB agreed that DOD should still make the payment in fiscal year 1987 as the most effective way to support our national space recovery plan. Furthermore, NASA, DOD, and OMB agreed that NASA would credit DOD in the fiscal year 1988 budget process for this fiscal year 1987 payment.

Mr. President, I would like to remind my colleagues that on August 7, after the Armed Services Committee had excluded this shuttle services payment from the DOD authorization bill, the Senate voted to restore this payment to the DOD authorization bill. Therefore, there should be no doubt as to the will of the Senate that NASA should receive these payments.

Now, an agreement has been reached between the HUD-Independent Agencies Appropriations Subcommittee and the Defense Appropriations Subcommittee, whereby the Defense Appropriations Subcommittee has agreed to pay for the replacement of the space shuttle *Challenger* and the HUD-Independent Agencies Subcommittee has agreed to compensate NASA for the shuttle services payments that the DOD Appropriations Subcommittee has deleted from its bill. Therefore, the purpose of this additional authorization of $531 million is to authorize these critical funds that the Appropriations Committee has agreed to provide, yet through a different subcommittee bill.

Mr. President, I cannot overstate the importance of this reimbursement to NASA. It represents almost 7 percent of NASA's total budget. As evidenced by the August 7 amendment to the DOD authorization bill, the Senate has already recorded its support for NASA's receipt of this reimbursement. Now, circumstances have placed this reimbursement on a different playing field, and the authorization of this reimbursement must be approved once again to permit NASA to address the post-accident requirements and to give our Space Program a chance to get back on track. Without this reimbursement, NASA will have to delay even further the flight-readiness of the shuttle, a delay which could have serious implications not only for our Civil Space Program but also for our national security.

Mr. President, I should point out that with the exception of the $272 million authorization for the replacement orbiter and the $531 million authorization to compensate for the anticipated loss in DOD shuttle services

payments, the funding in this bill before us is almost identical to that of the Commerce Committee's bill. The $272 million authorization is identical to the President's request and plays a critical role in our national space recovery plan. The $531 million authorization is consistent with the actions of the Appropriations Committee and, likewise, is critical to NASA and our Nation's space recovery plan.

Now I will briefly mention some of the major programs funded in this fiscal year 1987 NASA authorization bill.

This bill authorizes $515 million for space transportation capability development which supports, among other things, NASA's Spacelab Program, the orbital maneuvering vehicle, and the development of alternative upper stage options for NASA's planetary programs. This bill provides $410 million for the Space Station Program, an authorization which is identical to the administration's request. This funding will keep the Space Station Program on schedule so that actual development may begin in fiscal year 1987 and so that the program will continue to enjoy strong international and commercial support.

In this bill, NASA's space science programs are authorized at a funding level of $978 million. This funding level maintains the scientific teams which are critical to the eventual success of the scientific missions that were scheduled for launch in 1986 and whose launch will be delayed for as much as 2 or 3 years. This bill also maintains the administration's budget request in space science research and analysis, which provides an important lifeline between NASA's space science programs and our universities and colleges.

Also, space applications is authorized at a level of $552 million. These programs support critical research and development in advanced communications technologies, the observation and study of the Earth and its surrounding environment, and the development of new and better materials and products through space-based processing. Included in this authorization is a new start for the ocean topography experiment [Topex], a joint program with the French to study the circulation of the world's oceans.

The authorization in this bill provides $376 million for NASA's aeronautical research and technology programs, which is identical to the administration's budget request. Our support of these programs is critical to maintaining a competitive U.S. position in the global arenas of aeronautical technology and sales.

Funding for the second new start in this authorization bill is provided in transatmospheric research and technology. This program is NASA's contribution to the joint NASA/DOD Program, the National Aerospace Plane Program, which, if successful, could revolutionize our ability to enter space and transport passengers around the globe. This authorization of $40 million, which is $5 million below the budget request, enables NASA to conduct on schedule its technology analysis in new propulsion systems and in advanced materials, both of which are critical to the success of this program.

This bill's authorization for NASA's space flight, control, and data communications programs is $3,096 million, a funding level which is $27 million more than the budget request. These programs support, among other things, the operations of our Space Shuttle Program and will also provide the primary support for the recovery of our shuttle launch capability. I should point out that at this time, NASA is unable, understandably, to define precisely all of the costs associated with this effort. There may eventually be more, but this authorization bill supports NASA's space recovery requirements that have been currently identified.

Mr. President, as we all know, NASA is studying various options to improve the shuttle's solid rocket motors [SRM]. This study effort has followed two tracks—one is to redesign the SRM by using the existing hardware and the other is to upgrade the SRM by creating an entirely new design. This bill requires the NASA Administrator, upon completion of this study effort, to report back to Congress in March 1987 with a decision on whether NASA intends to redesign the existing SRM or to upgrade the SRM with an entirely new design. If the decision is to redesign the existing SRM, the Administrator is required to issue an RFP for a second source. If the decision is to upgrade the SRM to an entirely new design, the Administrator is required to issue an RFP for a single source for this upgraded design, with the understanding that a second source for this upgraded design would be considered in the future after the upgraded design is tested and found valid.

The purpose of this provision is for NASA to determine if a second source for the shuttle's SRM provides certain economic efficiencies or, otherwise, is in the national interests. This provision does not force NASA to establish a second source; it simply requests NASA to consider the feasibility of establishing a second source for future SRM's.

I would like to mention another provision of this bill which has been carefully worked out with the House Science and Technology Committee, and that provision refers to the role of the shuttle. This provision reaffirms the shuttle as the primary launch system for manned missions and missions needing the unique capabilities of their shuttle. It also states that the shuttle shall be available for the launch of foreign and commercial payloads that do not necessarily require the unique capabilities of the shuttle.

As we all know, the administration announced on August 15 that the shuttle would no longer launch foreign and commercial payloads that are not shuttle unique or that are not associated with overriding national security or foreign policy interests. The intent of this administration announcement is, among other things, to creat a more favorable environment for a viable U.S. commercial expendable launch vehicle [ELV] industry, a goal that I also share. I am concerned, however, that by prohibiting the shuttle from launching these foreign and commercial payloads, just to narrow the competition, we could unintentionally drive some of these payloads into the arms of our foreign competitors, whose own launch systems are subsidized and thereby hold an economic advantage over any U.S. commercial launch system.

The purpose of this provision in this bill is to ensure that, in the face of growing international competition in the world launch market, the shuttle will be available in case a U.S. domestic ELV industry is unable to compete effectively or is otherwise unable to provide a launch for a particular payload. While I support the creation of a viable U.S. ELV industry, I believe that, especially in the formative years of this industry, the United States should not "place all of its eggs in one basket" in terms of relying solely on this new industry to compete with foreign launch systems.

Mr. President, due to the *Challenger* accident, we are now experiencing the worst-case scenario of having relied on a national launch capability with a single point-of-failure. Due to this single-launch-system policy, we have an incredibly long list of payloads whose launches are being delayed from 2 to 3 years. We cannot afford ever again to become solely dependent on a single launch system and risk being unable to gain access to space. Accordingly, this bill recognizes the importance of a mixed fleet of space shuttles and ELV's and also recognizes that some Government payloads are better served by an ELV launch than by a shuttle launch. Furthermore, this bill requires the NASA Administrator to report to Congress a plan on intends to use ELV's and how its use of ELVs can be carried out in a manner that fosters the development of a competitive domestic ELV industry.

Mr. President, this bill also reestablishes a White House National Aeronautics and Space Council, one form of which existed from 1958 to 1973. The interest in reestablishing this Council has grown out of the frustra-

tion that Congress has experienced this year as the administration's senior interagency group [SIG] on space deliberated on a space recovery plan. The Congress has been ill-informed throughout the year as to the options and considerations being discussed by the SIG. Therefore, to create better communication between Congress and the administration regarding space policy issues, the Commerce Committee approved the reestablishment of the National Aeronautics and Space Council.

In reestablishing this Council, this bill would designate the Vice President as Chairman of the Council. The rest of the NASC would be composed of the NASA Administrator; the Secretaries of Defense, State, Commerce, and Transportation; and the Director of Central Intelligence. The purpose of reestablishing the NASC is to elevate space policy issues on the national agenda and to provide for a more timely and appropriate resolution of aeronautical and space policy issues.

This bill would also direct the NASA Administrator to review the report of the National Commission on Space and provide to the relevant committees of Congress a long-range implementation plan, including a specific agenda for the next 5 years. At a time when we are looking for specific direction for our Space Program, such a plan would be an immeasurable assistance to the Congress as we attempt to restore our once unchallenged Space Program to its position of preeminence.

This bill also includes technical amendments to the Land Remote Sensing Commercialization Act of 1984, Public Law 98-365. The amendments clarify the intent of some of the act's provisions and define relationships between Federal agencies, remote sensing data users, and private system operators as responsibility for the Federal Government's Landsat system is transferred to private hands.

The most significant of these technical amendments allows system operators to provide free or discounted data for research purposes, as opposed to commercial purposes. The act's requirement that data be disseminated on a nondiscriminatory basis prohibited such distinction between research and commercial users of data, and inhibited the availability of data for researchers. The amendment will encourage development of new data applications without threatening the commercial viability of private remote sensing systems.

This substitute bill includes authorization for the atmospheric and satellite programs of the National Oceanic and Atmospheric Administration [NOAA]. These programs include the public warning and forecast activities of the National Weather Service; atmospheric and hydrological research; and procurement, operation, and data management of NOAA's weather satellite systems. The Commerce Committee reported S. 2708, which authorizes the same programs, and the funding levels authorized in the substitute bill are those provided by the Senate Appropriations Committee. I remind my colleagues that full authorization has been provided for the National Climate Program, Public Law 99-272, and commercialization of NOAA's land remote sensing satellite, Landsat, system (Public Law 99-62), and this bill does not authorize those programs.

Section 27 of this bill creates the position of NOAA chief scientist, to be appointed by the President and confirmed by the Senate. I am happy to include this provision at the request of Senators WEICKER and HOLLINGS, as I was an original cosponsor of their bill to create this position.

Finally, Mr. President, as our colleagues consider this bill and any other funding bill related to our Space Program, I would like to mention one other element of our Space Program that often goes unnoticed. That element is public opinion. In the wake of the *Challenger* accident, it is easy to lose sight of the many successes of NASA and the contributions made by our Space Program to the well-being and standard of living of all Americans. Also, it is easy to assume that public support for our Nation's space endeavors has diminished. It is, therefore, reassuring to see reflected in a recent national public opinion survey a broad and strong statement of support from the American people on behalf of U.S. space activities, including manned space exploration.

The public opinion poll was conducted by Market Opinion Research in early August, after the Rogers Commission had completed its report and before the President recommended the replacement of the orbiter. Rather than a waning of public support and enthusiasm, the poll found an overall increase in public support when compared with the results of an earlier survey taken in January, before the *Challenger* accident. Some key highlights from the poll include:

85 percent support building a new shuttle and pressing ahead with the civilian space program;

89 percent support resuming Shuttle flight operations, knowing that there will always be risks associated with manned space flight;

69 percent support proceeding with the NASA space station program;

52 percent disagree that space program expenditures should be cut, and responses to three different questions demonstrated more than 56 percent support significant increases in the NASA budget; and

83 percent support the policy of encouraging private industry to provide space services.

Mr. President, I ask unanimous consent that the executive summary of this opinion survey that provides further detail on the range of issues addressed and the public's responses be printed in the RECORD.

Mr. President, the needs of our Space Program are immediate, crucial, and vast. This authorization bill provides a funding level which will meet NASA's post-accident requirements and needs as we know them today, but to authorize any less would be tantamount to advocating a second-class Space Program. Our Space Program is at a crucial juncture, and to shortchange NASA at the time of its most urgent need should not even be an option to consider. Therefore, I urge my colleagues to support this authorization bill for NASA. Our civilian Space Program has recorded a rich history of unprecedented achievements, and there is no reason why we should expect any less from our Space Program of the future.

I ask my colleagues to approve by unanimous consent the bill before us, H.R. 5495, an amendment in the nature of a substitute. If we take a minute to reflect on the importance of our Space Program over the past 28 years and beyond, we will all recognize that we have no option other than to provide our continued support for our Space Program through passage of this important legislation.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SUMMARY OF MARKET OPINION RESEARCH SURVEY OF AMERICAN ATTITUDES TOWARD THE SPACE PROGRAM

In August, 1986 Market Opinion Research conducted a telephone survey of 1200 adult Americans to investigate their attitudes toward the space program and related issues. This brief summary presents the key findings from the August survey. The findings are also compared with the results of an earlier study of American attitudes toward space conducted in January, 1986.

These two surveys—one conducted prior to the Shuttle Challenger accident and the other conducted prior to President Reagan's announcement of his decision to build a replacement shuttle—represent a unique perspective on American attitudes toward the space program.

(Overall, the U.S. public strongly supports the American space program and wants it to move ahead.)

The public was given a number of different opportunities to register approval for the program—by stating whether they approved (agreement = 70 percent) of the civilian space program, whether the civilian space program should be continued (76 percent) and whether it should be expanded (57 percent). Now that the Rogers Commission has finished its work, the public was asked, can the space program proceed? Nearly three quarters of the public want the program to proceed. Americans believe that manned flight should be resumed (89 percent), since experts state that there will always be some risks associated with space shuttle flights. Eighty five percent (85 per-

cent) of the American people believe there should be a replacement shuttle and astronauts and certain key civilians should travel on the shuttle (76 percent agree).

These findings are consistent with the results of polls conducted by the television networks and the national news organizations that have also confirmed an increase in public support for the space program (from 63 percent before the accident to 70 percent today). The initial, post-accident wave of emotional support appears to have receded to today's level of a 7-percent-plus increase in support over early Janaury.

(The U.S. public views the space shuttle as a key element in achieving payoffs from the space program.)

Americans overwhelmingly agree with the statement that obtaining benefits for medicine, industry and science requires a replacement shuttle for the Challenger (79 percent). They also agree with the statements that a replacement shuttle is needed to avoid abandoning the benefits that are attainable from the investment in the space program to date (73 percent); and that we should avoid wasting money in the long run by saving money now and limiting the program with three shuttles (67 percent). The public agrees that without the replacement shuttle, U.S. space capabilities would be crippled (63 percent); and without a replacement, the U.S. will "fall further behind the Soviet Union" (58 percent). A plurality of the public believes in a balanced program.

(The American public favors the space station as a long term U.S. space goal.)

The American public supports a number of different long term goals for the space program. A majority of the public agrees that a U.S. mission to Mars should be a goal for the civilian space program (56 percent); and a majority agree that a joint U.S.-Soviet Union manned mission to Mars should be a goal of the space program (58 percent). An even stronger majority (78 percent) believe that a manned earth orbiting space station and unmanned exploration of the planets should be a goal of the U.S. space program.

(Support for NASA's new space station program has increased since January, 1986.)

Americans favor NASA's new space station program by a margin of sixty-nine percent (69 percent) to fifteen percent (15 percent) today as compared with fifty-eight percent (58 percent) to twenty-five percent (25 percent) before the Challenger accident. Three out of four men (76 percent) approve of the space station. Two out of three women (63 percent) approve of the government's plans. Support from men has increased eleven percent (11 percent) and from women to fifteen percent (15 percent). At the same time, a larger number of men than women state that they are aware of other countries that are planning or currently operating a manned space station. Twice as many men as women state that they are aware of such foreign activity.

(Americans support increasing funding for NASA's civilian space program.)

Far more Americans disagree (52 percent) than agree (34 percent) with the statement that expenditures for America's civilian space program should be cut back. A solid majority (60 percent) believes that the U.S. government should spend "whatever is necessary to maintain U.S. leadership in space."

When asked whether NASA's spending on the space program should be increased from seven-tenths of one percent of the annual federal budget to about one percent of the total federal government's budget to maintain U.S. leadership in space following the Challenger accident, a strong majority (59 percent) outnumbers those who disagree by more than two to one. When the cost of this small percentage increase is explained to be about two billion dollars a year, more in the current and next several years, a strong majority still outnumbers those who disagree by a significant margin (56 percent to 30 percent).

CHIEF SCIENTIST AMENDMENT TO H.R. 5495

Mr. HOLLINGS. Mr. President, I am pleased that an amendment has been included in H.R. 5495, the NASA authorization bill, that would create within the National Oceanic and Atmospheric Administration [NOAA] the position of Chief Scientist. This new post will take the place of the current Associate Administrator position.

Mr. President, I know my colleagues are aware of the major role I played in the establishment of NOAA back in 1970. Since that time, I have followed the agency's progress with great interest. I have worked to develop its program and budgets through my work on the Commerce and Appropriations Committees. And I remain committed to the goals and ideals that led to the formation of the agency 16 years ago. This is why today I am keenly interested in the replacement of the Associate Administrator position in NOAA with that of a Chief Scientist.

It simply makes good sense to require that someone in NOAA's upper management have direct scientific experience relevant to the agency's work. NOAA has numerous scientific responsibilities vital to the national interest—natural resource conservation, weather forecasting and public warning, aviation and marine safety, the national geodetic network, and oceanic and atmospheric research and services. To successfully accomplish these various missions, NOAA has a vast array of scientific expertise in a number of areas. The Chief Scientist's job will be to coordinate NOAA's internal talent and act as liaison to the scientific community outside of NOAA. In addition, the Chief Scientist will be the principal scientific adviser to the NOAA Administrator.

I think this change is a good idea and urge my colleagues to join with me in support of H.R. 5495 and the establishment of the post of the Chief Scientist in NOAA.

Mr. RIEGLE. Mr. President, I strongly endorse H.R. 5495, as amended, and ask my colleagues to do the same.

H.R. 5495, as amended, represents the best effort on the part of the Senate and the House to draft a bill that addresses the short-, mid-, and long-term programmatic and policy requirements of the Civilian Space Program. This bill is an improvement over the committee-reported legislation, and all Members of the House Science and Technology Committee and the Senate Committee on Commerce, Science, and Transportation should be complimented for their contributions to this legislation. The final bill combines the comprehensive policy provisions of the House with the necessary budget decisions of the Senate. The end result is a bill that should do much to put NASA back on track.

I am especially pleased that the final bill includes most of the initiatives originally included in the Civilian Space Program Restoration Act, H.R. 5495, a bill I introduced with the other distinguished Democratic Members of the Subcommittee on Science, Technology, and Space—Senators HOLLINGS, GORE, and ROCKEFELLER. In particular, I am pleased that the fiscal year 1987 NASA authorization bill before the Senate makes 10 critical decisions.

First, it authorizes $272 million for a new orbiter as requested by the President. These funds were not included in the committee-reported measure, despite the fact the hearing record strongly justified funding of an orbiter, and I am pleased they are included in this bill.

Second, this measure authorizes an additional $531 million to accommodate the Senate-passed fiscal year 1987 HUD-Independent Agencies Appropriations bill assumption concerning the importance of the DOD reimbursables to NASA corrective activities. In particular, these moneys will help ensure timely resolution of the shuttle fixes and the review of all critical items on the shuttle.

These two items combined, the orbiter and reimbursables, represent the basic budgetary difference between the Senate Commerce Committee-reported authorization of $7.795 billion and the bill before the Members today which is at $8.598 billion.

Third, the bill fully funds the fiscal year 1987 budget request for space station, $410 million, to maintain the competitive posture of the Nation and to initiate the next logical step in space.

Fourth, the bill reestablishes the National Aeronautics and Space Council in the White House—a Riegle/Hollings initiative in the Senate—and puts space policymaking in the right hands and at the right level. The Council is the key policy provision included in this bill, and I believe it could do more for the future of the Civilian Space Program than any other provision included in the bill.

Fifth, it requires NASA to include a separate line item for safety in the budget submission—a Gore initiative—and highlights the overall importance of safety, reliability, and quality assurance to the space program.

Sixth, it requires NASA to submit an implementation plan for the recommendations of the National Commission on Space, the Paine Commission, and to assist the Congress in develop-

ing a blueprint for the Civilian Space Program.

Seventh, H.R. 5495 includes technical amendments to the Land Remote-Sensing Commercialization Act that should clarify any confusion about the use of experimental data.

Eighth, it emphasizes the importance of future technology development activities by increasing the advanced space research and technology development account above the fiscal year 1987 budget request.

Ninth, it establishes a practical process with reasonable criteria for second sourcing redesigned solid rocket motors or competing upgraded solid rocket motors to ensure competition, quality control, technical integrity, and adequate base of production.

Tenth, and finally, the bill states that NASA must do its best to honor existing launch service agreements and that foreign and commercial communications satellites should not be totally banned from the shuttle. Where it is impossible to accommodate these payloads with existing agreements on the shuttle, I believe every effort must be made to encourage these payloads to fly on domestic ELV's. I realize these statements do not conform totally with the current White House position, but I am reluctant to say foreign and commercial communications satellites may "never" fly on the shuttle. Already, there exists a shuttle-related industry of users, upper stage manufacturers, and payload processors whose prior investments cannot be totally ignored. The use of the shuttle as a "secondary" commercial launch service is a concept that should not be perceived as inimical to a domestic ELV industry. Rather, it should be seen as an insurance policy to retain the leadership of the U.S. in launch service markets and as an important tool of U.S. foreign policy.

For the next 5 years, I fully realize there are limited flight opportunities on the shuttle. I also realize there is a consensus the shuttle should never again be treated as a commercial airliner and that future flight rates will be more conservative in order to ensure safety, reliability, and quality control. Therefore, in the short term, the number of flight opportunities for foreign and commercial communications satellites is minimal. However, space policy must be visionary, not shortsighted. The shortsightedness of trying to make the shuttle fully operational had devastating consequences. Let's not let our shortsightedness concerning launch policy jeopardize U.S. technological leadership in space or the U.S. share of the launch services market.

To ensure such a visionary policy, the National Aeronautics and Space Council must be reestablished, and it will be if H.R. 5495 is signed into law. It's interesting to note there are some persons in the administration who equate the Council with a renunciation of the current space policymaking apparatus, and there are some Members of Congress who equate the Council with an endorsement of the current executive branch space policymaking procedures. Personally, I see reestablishment of the Council as a statement of two critical facts: First, our space program is critical to the economic well-being and national security of the United States; and second, space policy formulation should be done at the highest level of Government. I also believe the Council will provide for a more open policymaking environment and that the creation of the user adivsory group will help the private sector and Federal Government retain the viable partnership that has been a key element of the space program. In addition, the Council will provide the best possible forum for the comprehensive discussion of the future launch requirements of the U.S. Government—civil and military—and the Council will ensure the formulation of a comprehensive advanced technology development plan to meet those future requirements. The Nation's space program needs the Council, and I hope that the fiscal year 1987 NASA authorization bill will reestablish this much needed policymaking mechanism.

Mr. President, let me indicate that there were several House provisions we are unable to accommodate in the fiscal year 1987 NASA authorization bill due to time constraints, jurisdictional problems or other legislative obstacles. In particular, I would like to address the House patent law provisions for inventions made in outer space. This is an issue the Senate must address, and I would like to indicate that I intend to introduce legislation on this matter at the start of the next session of Congress. Hopefully, the House and Senate will be able to enact legislation early next year in this area that will clarify the applicability of U.S. patent law provisions to activities in outer space and facilitate activities on the future space station.

In closing, let me say that overall H.R. 5495 is a blend of the House and Senate provisions and an excellent piece of legislation. The $8.6 billion provided in this measure reflects NASA's fiscal year 1986 level of activity and the minimum requirements of the Civilian Space Program. It is still uncertain in the appropriations process as to where funding for a new orbiter and reimbursables will be included. But it is certain that NASA requires a total of $8.6 billion in fiscal year 1987 to put the Civilian Space Program back on track.

Mr. President, this has not been an easy year for NASA or the space program. The shuttle disaster was an incomprehensible loss. However, the bill before you today, H.R. 5495 as amended, and the policy and budgetary provisions of this legislation represent an important step in restoring NASA and the space program to its former stature.

I urge my colleagues to support this measure, and I urge my colleagues to continue to support our Civilian Space Program. The dreams of Dick Scobee, Mike Smith, Judy Resnik, Ellison Onizuka, Gregory Jarvis, Ronald McNair, and Christa McAuliffe must not be forgotten because they are our dreams and our children's dreams.

Mr. GORE. Mr. President, I rise in support of this legislation. As my colleagues are well aware, this has been a difficult year for the Space Program. The *Challenger* accident and the resulting disclosures have shown that the Space Program was not in the fine condition we all believed. We have a need to fulfill, and that is to put NASA back on the footing it was during the 1960's.

This authorization bill begins us in that direction.

It gives the agency enough of a boost beyond the administration request so that they have a realistic chance of implementing the recommendations of the Rogers Commission.

It calls for the restoration of our national space council, and independent policy body that would wrest control of the Space Program from the White House, and avoid the torpor and indecision we experienced this summer.

Lastly, I call on NASA to report to Congress every year on the level of commitment to quality assurance, which has been in such a disastrous, yet untraceable, decline since the days of Apollo.

This legislation is a good compromise, and it deserves our support.

NOAA

Mr. HOLLINGS. Mr. President, sections 22 through 26 of this amendment to H.R. 5495 contain fiscal year authorizations for the atmospheric and satellite programs of the National Oceanic and Atmospheric Administration. These funding levels are consistent with Senate and House appropriations actions for NOAA programs.

Among the important matters covered by these five sections are the NOAA share of the tri-agency next-generation weather radar program known as NEXRAD, procurement of advanced systems for meteorological data processing and communications, continued research on localized severe weather, and the Program for Regional Observing and Forecasting Services. In addition, the authorizations permit NOAA to maintain its existing system of polar-orbiting and geostationary weather satellites. These kinds of activities form the backbone of NOAA's

operational meteorology and atmospheric research.

On July 16 of this year, the Senate passed my STORM resolution [S. Con. Res. 137], which is aimed at helping Americans safeguard their lives and property from the effects of violent weather. The resolution's prime objective is a comprehensive program of operations and research to bring about major improvements in the forecasting and warning of tornadoes, flash floods, hail storms, and other severe storms that occur in a localized area. The resolution also focuses on the need to keep up NOAA's hurricane prediction capability, especially by means of the geostationary satellites and hurricane reconnaissance flights.

The modest authorization levels provided in this amendment are a step toward the fulfillment of the goals embodied in the STORM resolution. There is little doubt that we must do all we can to maintain an effective warning and forecast capacity for hurricanes and localized severe weather like tornadoes. In South Carolina, we have had ample experience with both types of weather. I urge my colleagues to work with me now and in the future to ensure the continued existence of such a capacity.

CHIEF SCIENTIST FOR THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Mr. WEICKER. Mr. President, I rise in support of section 27 of S. 2714, which would designate the Associate Administrator of the National Oceanic and Atmospheric Administration [NOAA] as Chief Scientist.

The appointment of a Chief Scientist to replace the Associate Administrator's position will assure that NOAA has the benefit of having someone in upper management with direct scientific experience relevant to the agency's activities. The Chief Scientist would act as the principal scientific adviser to the Administrator, and would be required to have experience in oceanic, atmospheric, or other scientific disciplines important to NOAA's missions. It only makes sense that creating a Chief Scientist position will strengthen the agency's scientific direction.

Mr. President, this language is supported by the administration. I am pleased at the inclusion of this section in the bill, so that NOAA can continue as the principal agency within the Federal Government for the administration of the Nation's civilian marine and atmospheric programs.

Mr. ROCKEFELLER. Mr. President, I am pleased that the House and Senate have a common version of the NASA authorization bill ready for final approval. For members of the authorizing committees, the problems posed by the *Challenger* disaster have been exceptionally difficult. The budgetary consequences of the accident, along with the grounding of the shuttle for at least 2 years, are clearly enormous. Virtually the entire NASA budget is affected by these developments in some way, and it may take years for us to fully understand the ramifications.

The legislation before us begins the process of reassessing the needs of the Space Program in the wake of the accident. In most major respects, the bill resembles the proposal I supported in the Commerce Committee. The authorization levels, overall, are more realistic than those reported by the committee: they explicitly provide for the procurement of a fourth orbiter and address the issue of DOD reimbursements to NASA—amounting to over half a billion dollars in fiscal 1987—for future military missions on the shuttle.

But beyond the multitude of technical and managerial problems confronting NASA, *Challenger* exposed a pervasive lack of direction in the Civilian Space Program. The Shuttle Program had become almost an end in itself, rather than a means of achieving the goals of space exploration. Under considerable pressure to hold down costs, NASA was striving to reach a flight rate—by the end of this decade—that produced greater efficiencies in the operation of the shuttle. But the spirit and focus that had guided the agency through the Apollo period and other triumphs was missing.

Solving this problem is clearly a long-term proposition, well beyond the scope of this authorization bill. But it should be a central responsibility for us, who serve on the authorizing committee, to decide what it is we want the Space Program to accomplish. I'd like to see an ambitious blueprint: I'm intrigued, for example, by the vision of the future described in the Paine Commission report. The Commission proposes a fascinating sequence of activities—progressing from present plans to develop a space station to manned outposts on the Moon and Mars in the next century. It's exciting to think that during our lifetimes we might see people living and working in space for extended periods of time. And it's the kind of agenda that could inspire our youth and generate new interest in math, science, engineering and other fields on which our technological advancement depends.

The gains to our society from space exploration are potentially enormous. The zero-gravity conditions in space provide an ideal laboratory for certain kinds of scientific inquiry: processes can be studied which accelerate the development of new medicines and new materials. Technology developed for the Space Program can also have important applications on this planet: scientists are looking, for example, at whether remote-sensing technology developed by NASA can be helpful in predicting the spread of malaria and other epidemics in underdeveloped countries. If we have the foresight to make a strong enough commitment to the Space Program, I'm convinced that we can greatly expand our knowledge of the universe, advance our technological development, and make discoveries that could substantially improve the quality of life here on Earth.

The danger is that our commitment of resources to space exploration won't come close to matching the level of our aspirations. The Paine Commission, for example, recommended an immediate tripling of NASA's expenditures on technological research, to parallel the kind of effort made during the Apollo period. But our present struggle in the Congress is to prevent cuts in NASA's budget. This authorization allows for an increase in NASA's R&D budget, but—apart from space station research—not on the scale proposed by the Commission.

This bill, as I have indicated, starts the process of rebuilding the Civilian Space Program, It does not address all major policy issues, nor settle the fundamental question of the program's priorities. But if viewed as a beginning, and a response to some of the problems posed by the shuttle accident, the effort is commendable, and deserves the support of the full Senate.

Mr. DANFORTH. Mr. President, I rise in support of H.R. 5495, the fiscal year 1987 NASA authorization bill that is presented as an amendment in the nature of a substitute. I also am pleased that this bill has been developed in cooperation with the House Science Technology Committee. Furthermore, it is encouraging to note that the funding levels and the other provisions of this bill are, by and large, acceptable to the House Science and Technology Committee.

Due to the January 28 accident of the space shuttle *Challenger,* our Space Program is faced with the difficult task of reconstituting our national space launch capability, as well as that of modifying missions and activities to reflect the results of the accident. NASA has made a strong start in undertaking this task. NASA has made considerable progress in redesigning the shuttle's solid rocket motors and in establishing the management and leadership that is especially critical during this recovery period.

However, we should not overlook the fact that Congress has certain responsibilities during this recovery period, and providing NASA with the necessary resources is unquestionably, one of our most important responsibilities. This authorization bill will fulfill that responsibility and help get our space program back on track.

This bill's authorization of $8.598 billion supports, among other things, the redesign of the shuttle's solid

rocket motor and the other changes required to improve the safety and performance, as identified in the post-accident examination of the space shuttle system. Also, this authorization provides continued support for the Space Station Program, which will ultimately enable many grander opportunities for space exploration and development. This bill's space station authorization of $410 million will allow NASA to initiate the development of the space station in fiscal year 1987, a milestone which, in and of itself, should enhance the international and commercial participation in this program.

In addition, I am pleased that this bill authorizes $40 million for a new start for the National Aerospace Plane Program, which would revolutionize our ability to deliver payloads to orbit and eventually transport passengers from one end of the globe to the other. Also, this authorization provides $376 million for NASA's Aeronautical Research and Technology Programs, the purpose of which is to conduct the aeronautical research that is too risky and whose payoffs are too distant for the commercial aviation industry to undertake. This authorization for aeronautical research and technology should help maintain the technological base for the United States to remain competitive in the global arena of aeronautical sales and technology.

Mr. President, since the shuttle is not expected to resume flying until, at the earliest, the first quarter of 1988, many of our space science initiatives are being delayed for several years. Regrettably, what was to have been our "Year of Space Science," with the shuttle launch of the Hubble Space Telescope and the planetary missions—Galileo and Ulysses, has now evolved into a year in which NASA has had to refocus its space science and applications efforts and resources.

Yet, NASA's Space Science and Applications Programs still engage in meaningful and productive work during this shuttle recovery period. Therefore, I am pleased that this bill authorizes $1,534.6 million for NASA's Space Science and Applications Programs and provides the administration's request in the Research and Analysis Programs and in other Space Science and Applications Programs which have a direct link to the space science and applications programs of our universities and colleges.

Without restating the elements of this bill which the Chairman of the Subcommittee on Science, Technology, and Space, Senator GORTON, has already mentioned, I believe that it is important to note that this bill responds to NASA's revised budget requirements that reflect the effects of the *Challenger* accident, as we know them today. Admittedly, these revised fiscal year 1987 requirements may change as NASA defines more precisely the actions needed to recover from the accident; yet, for the time being, this bill will enable NASA to address adequately the necessary fixes required to restore our space launch capability.

Mr. President, I also would like to comment on the authorization in this bill to restore $531 million in Department of Defense [DOD] shuttle services payments that have been deleted by the Defense Appropriations Subcommittee in its fiscal year 1987 DOD appropriations bill. I feel compelled to remind our colleagues how on August 7, after the Armed Services Committee had deleted from its fiscal year 1987 DOD authorization bill these payments to NASA, the full Senate restored that funding.

Now, the issue of this payment has shifted from the defense authorization and appropriations subcommittees to the committees that fund NASA. The Appropriations Committee has agreed that the Defense Appropriations Subcommittee provide funding to replace the *Challenger* and that the HUD-Independent Agencies Appropriations Subcommittee make available in its funding for NASA the DOD shuttle services payments of $531 million. This $531 million authorization in the bill before us is consistent with the actions of the HUD-Independent Agencies Appropriations Subcommittee and, more importantly, authorizes funding for NASA that is nothing short of critical. If these funds are not made available to NASA, it will be tantamount to imposing on NASA an across-the-board reduction of almost 7 percent. If we are serious about having anything more than a second-class space program, we will approve this bill and the restoration of these DOD shuttle services payments to NASA.

I should point out, also, that the intent of this amendment is not to allow NASA to renege on an obligation. After the *Challenger* accident, NASA, OMB, and DOD all agreed that the most effective way to recover from the shuttle accident is for DOD to honor this fiscal year 1987 payment to NASA and for NASA to "credit" DOD in the fiscal year 1988 budget process. I believe that this makes perfectly good sense. NASA should not be forced to endure yet another hardship by absorbing on such short notice the loss of this anticipated revenue.

Mr. President, as we all know, on September 9, the President submitted a formal budget request of $272 million for a replacement orbiter. This authorization bill acknowledges that request and, in a manner that is consistent with the Commerce Committee's authorization bill, provides a specific authorization of $272 million to replace the *Challenger.*The restoration of our shuttle fleet to four orbiters is absolutely critical if our space launch capability is to provide anything more than a marginal capability.

Mr. President, finally, I call to the attention of the U.S. Senate the efforts of students of Gladden Elementary School in Belton, MO, on behalf of our space program.

These young students worked for many months collecting pennies to help replace the space shuttle *Challenger.* As a result, they have presented to the President of the United States $759.78—the sum of the thousands of pennies contributed by schoolmates and fellow Belton citizens.

I am proud of the Gladden Elementary students and commend them for the fine job they have done.

Mr. President, I would like to take this opportunity to commend the chairman of the Subcommittee on Science, Technology, and Space, Senator GORTON; the ranking democrat of the Commerce Committee, Senator HOLLINGS; the ranking Democrat of the Science, Technology, and Space Subcommittee, Senator RIEGLE; and Senator PRESSLER for their diligence and cooperation in developing the Commerce Committee's bill and the revised bill before us. The committee and the House Science and Technology Committee have worked extremely hard to blend together the most reasonable elements of each bill. I believe that this bill provides NASA the necessary authorization to address the problems identified with the *Challenger* accident. It also ensures that NASA's other aeronautical and space programs have the support necessary to achieve the same measure of success that the Nation and the world have come to expect from NASA. I urge my colleagues to accept this bill as an affirmation of our continued support for the future of our Space Program.

Mr. HOLLINGS. Mr. President, I support passage of the fiscal year 1987 NASA authorization bill, H.R. 5495, and I ask my colleagues to do the same.

Mr. President, the bill before the Senate today is the result of several weeks of informal negotiations between House and Senate Members and represents a concerted effort to pass a NASA authorization in a most critical year for the civilian space program. The bill is not perfect. But considering the events of the past year and the ramifications of the shuttle disaster, it is a best effort to put the civilian space program back on track.

H.R. 5495, as amended, tries to respond to NASA's needs—fiscal, programmatic and policy needs—in a pragmatic and responsible manner. The bill also tries to lay a firm foundation for future civilian space activities by reestablishing the National Aeronautics and Space Council and by re-

questing an implementation plan for the recommendations of the National Commission on Space—the Paine Commission.

Mr. President, the events of January 28 will not easily be forgotten by this Member, the families of the *Challenger* crew, NASA, or the Nation. It was a tragedy of the worst type—an avoidable tragedy! As a result of this tragedy, we realized that there were many lessons to be learned. First, and perhaps most importantly, was the fact that safety, quality control and reliability must constantly be the hallmarks of the manned space program. Second, the success of any major program is an open line of communications between all players, at all levels. Never again can we have a breakdown of communications such as that which occurred on January 27-28, 1986. Third, competition is a key element in maintaining the overall technical performance and quality of critical shuttle components. Sole source contracts must be carefully scrutinized, and where possible, second sourcing should be pursued. Fourth, the shuttle is and always will be a research and development vehicle. It was never intended to be a commercial airliner, and its treatment as such led to unrealistic schedules and phenomenal launch pressures. Finally, it must be recognized that assured access to space is critical to the economic and national security of the country. Never again can the Congress endorse an administration policy that lets budget presssures force reliance upon a sole launch system, especially a man-rated system.

I am pleased to say that H.R. 5495, as amended, tries to address each of these lessons in one way or another. It places a proper emphasis on safety, and it highlights the need for a higher level space policymaking forum—the National Aeronautics and Space Council. It also includes a reporting requirement as to the feasibility of using expendable launch vehicles (ELVs) for Government payloads and establishes a sensible procedure for second sourcing redesigned solid rocket boosters or competing upgraded solid rocket boosters. The bill also provides an adequate level of funding for anomaly resolution activities and the review of all critical items on the shuttle. The bill is a best effort to add a sense of realism to the goals and objectives of the Nation's space program without displacing the agency's ability to dream.

Mr. President, H.R. 5495, as amended, is not a cure-all. But it does represent a concerted effort on the part of the members of the House Science and Technology Committee and the Senate Commerce Committee to deal with a most complex set of issues at a most critical moment in the history of the civilian space program. At this juncture, there is a real and apparent need to meet the requirements of NASA and the civilian space program, to manifest the resolve to maintain U.S. technological leadership in space.

H.R. 5495, as amended, is a first step in that direction, and it is a step that must be taken.

Mr. HOLLINGS. Would the chairman of the Subcommittee on Science, Technology and Space yield for a question concerning section 11 of the fiscal year 1987 NASA Authorization bill?

Mr. GORTON. I am glad to yield to the ranking member of the Senate Commerce Committee.

Mr. HOLLINGS. Am I correct to say the bill before the Senate today instructs NASA to initiate a request for proposal for a second source producer of solid rocket motors or, and I emphasize the word "or," a request for proposal for an open competition for an upgraded version of the solid rocket motors once the Administrator has determined which course of action will be pursued to fix the shuttle?

Mr. GORTON. The Senator is correct.

Mr. HOLLINGS. Am I also correct to say that the bill has established criteria for the selection of the second source manufacturer of redesigned solid rocket motors, as well as for the manufacturer of upgraded solid rocket motors?

Mr. GORTON. Once again, the Senator is correct in his interpretation of the language. The bill indicates that the Competition in Contracting Act should be referenced for the selection criteria. In particular, section 2304(b)(1) of title 10 of the United States Code is applicable in the case of second sourcing, and section 2304(a)(1) of title 10 of the United States Code is applicable in the case of a competition for an upgraded solid rocket motor.

Mr. HOLLINGS. There is language in subsection (B) of section 11 that indicates the Administrator of NASA may not sign or extend a production contract for a follow-on solid rocket motor, be that a redesigned version or an upgraded version, until he has issued a request for proposal for either the redesigned solid rocket motor or the upgraded solid rocket motor. In addition, subsection (f) of section 11 indicates that if the administrator intends to sign or extend such a follow-on contract, he must notify the Congress of his intentions and then wait 30 days during which either House of Congress is in session.

Am I correct to assume that this language was included to ensure the creation of a competitive procurement process for solid rocket motors?

Mr. GORTON. The Senator is correct. Once the Administrator has thoroughly assessed the proposed solid rocket booster fix and submitted his findings to the Congress according to the reporting requirement found in subsection (a) of section 11, it is my understanding a competitive selection process will be initiated.

Mr. HOLLINGS. At the same time, am I correct to assume that if the Administrator finds that additional solid rocket motors are required and there is still no alternative source, he can enter into an extension of Buy II with the current manufacturer so that the shuttle fleet is not adversely affected?

Mr. GORTON. It is clear that in the case of either a second source of the redesigned solid rocket motor or an upgrade of the motor, there could be a period when the current manufacturer is the only possible supplier of solid rocket motors. In such a situation, the Administrator may extend or sign a new production contract with the encumbent pursuant to the conditions found in subsection (f)—that is, the notification of Congress of the planned procurement and then a 30-day waiting period.

Mr. HOLLINGS. I thank the chairman, I just wanted to be perfectly clear about the gap filler provisions and to be sure that they did not provide a vehicle whereby the intent of section 11 was diluted.

Finally, Mr. President, for those Members who have not had time to read the General Accounting Office report "Space Shuttle: NASA's Procurement of Solid Rocket Boosters," I would like to read a statement from that report so they will understand why I feel so strongly about second sourcing:

> When the Government becomes dependent on a sole source of supply for a critical subsystem on a large and long-term program such as the shuttle, the contractor may not have the incentive to identify and correct problems in areas such as quality control and safety. The Government does not have maximum leverage to ensure correction of problems. The chance of winning a Government contract or the threat of losing it provides a key incentive for greater efficiency and effectiveness.

I think the chairman of the subcommittee will agree, it is the intention of our committee to reestablish safety, reliability, and quality as the hallmarks of NASA. Hopefully, section 11 of the fiscal year 1987 NASA Authorization is another step in that direction. I thank the subcommittee chairman for yielding and for his discussion of this issue.

Mr. HEFLIN. I rise in support of the fiscal year 1987 NASA authorization bill that is being considered today in the Senate.

Mr. President, as we all know, these are difficult times because of the excessive Federal deficits and the budgetary pressures that exist for all programs. Each and every committee as well as each and every member has been called upon to do their fair share to reduce the Federal deficit and to get our economy back on track.

With this thought in mind, the Subcommittee on Science, Technology, and Space has an even greater burden to bear—that of the tragic and numbing loss of the space shuttle *Challenger.* The loss of the *Challenger* is still fresh in our minds and still weighs heavily on our hearts. Yet in the aftermath of mourning, the Nation's Space Program, much like the firebird, must and will go ever onward to reach new plateaus and new horizons in the eternal quest for the understanding of our cosmos and our place in it. With the recent release of the space shuttle manifest and the beautiful vision of the space shuttle *Atlantis* from the launching pad at Kennedy Space Center, NASA appears to be heading in the right direction.

I must note that I am most pleased that the Subcommittee on Science, Technology, and Space of the Senate Commerce Committee was able to draft a bill that complies with the deficit reduction program while simultaneously protecting the civilian Space Program and our techological leadership in space in light of the *Challenger* accident. I salute my good friend, Senator GORTON, the chairman of the Subcommittee on Science, Technology, and Space, and the ranking member of this subcommittee, Senator RIEGLE, for another job well done.

I also salute my good friend, the ranking member of the full committee, Senator HOLLINGS, for the invaluable input he has made to this bill. His knowledge of the appropriations, budget and authorization process, combined with his knowledge of our civilian Space Program, helped immensely with the formulation of this authorization bill being recommended for NASA in fiscal year 1987. Mr. President, in April 1985, I made a statement which appears in the RECORD. In that statement, I indicated that:

> The United States must vigorously pursue several space and technology areas if we are to remain strong economically and technologically. Our investment in these areas is an investment in the future of humanity's possibilities. We must continue to push frontiers of space and technology, expanding humanity's horizon for the benefit of all.

Mr. President, this is indeed what we need to do and the fiscal year 1987 NASA authorization bill is a step in the right direction.

Let me give you an idea of what I mean.

First, the bill before us today, despite extreme budget pressures, provides strong support for the space station—a permanently manned facility which would fly in low Earth orbit. This program should do much to help with the development of material science, biotechnology, electronic and chemical engineering advances, as well as provide valuable information that will improve manufacturing processes and the quality of life here on Earth.

The bill authorizes $400 million for the space station for fiscal year 1987. While this is $10 million below NASA's budget request, the Appropriations Committee in its HUD and Independent Agencies appropriations bill, through which NASA is funded, has fully funded the Space Station Program. I commend the Appropriations Committee for this action.

Second, the bill recognizes the importance of the Materials Processing Program, a program which I am pleased to say several universities in my State are intimately involved. This program fully funds the fiscal year 1987 NASA budget request of $43.9 million. While I am in total agreement with the sponsors that this is still not enough and that more support is required if the United States is to be competitive with the Europeans and the Japanese in this critical area. I think the bill correctly establishes the priority nature of activity by granting the fiscal year 1987 request.

Also, I completely agree with the committee in its approval of NASA's programmatic decision to use the shuttle down time to modernize its microgravity related equipment. This will effectively utilize this resource to enable a more productive materials processing in space program. When shuttle flights resume, this effective use of resources should enable a more productive and reliable materials processing in space program and should facilitate the technological and commercial development of space.

Third, once again, the bill correctly prioritizes NASA's activities. It also points to the basic reality that the research of today represents the discoveries and break-throughs of tomorrow and that the United States must train its university students if we are to be competitive in future world markets.

This is one of the reasons that I have cosponsored a bill introduced by my distinguished colleague from Texas, Senator BENTSEN, which would establish a Space Grant College Program. The program will provide financial and other assistance for space-related projects administered by a space grant university. Senator BENTSEN's bill will establish a system that will coordinate the national needs and the research efforts of our colleges and universities related to space. Undoubtedly, the Senate will not have time to take up the space grant college bill in this Congress. However, it is my hope that the 100th Congress will consider and pass the space grant college legislation.

Fourth, the bill is able to significantly reduce NASA's fiscal year 1987 budget request in an equitable manner but without terminating any of the major programmatic activities. In this manner, the United States will be able to continue to push the frontiers of space and to expand our knowledge of the universe. In a like manner, we will be able to continue to support necessary space applications experiments that represent the commercial markets of tomorrow.

Fifth and finally, the bill is able to provide funding for the only 1986 new start included in NASA's budget request—the orbital maneuvering vehicle [OMV]. This initiative is critical to the development of space infrastructure which is required to do space science experiments and commercial space activities in low Earth orbit. the OMV will also be used to reboost the Hubble Space Telescope, one of NASA's most exciting.

Mr. President, this bill helps pave the way to the future while at the same time, helping to reduce the Federal deficit. It is a bill that I am pleased to support and a bill that I urge my colleagues to likewise support.

Thank you, Mr. President.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and the third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time and passed.

Mr. PACKWOOD. I move to reconsider the vote.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that Calendar No. 1012, S. 2714, the companion bill, be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

REVISION OF BOUNDARIES OF OLYMPIC NATIONAL PARK AND OLYMPIC NATIONAL FOREST

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the Senate turn to consideration of Calendar No. 1033, S. 2351, dealing with the Olympic Forest.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. There is no objection, Mr. President.

The PRESIDING OFFICER. The bill will be stated by title.

The bill clerk read as follows:

> A bill (S. 2351) to revise the boundaries of Olympic National Park and Olympic National Forest in the State of Washington, and for other purposes.

The Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources, with an amendment to

strike all after the enacting clause and insert in lieu thereof, the following:

SECTION 1. (a) The boundary of Olympic National Park, Washington, is hereby revised to include within the park—

(1) all submerged lands and waters of Lake Ozette, Washington, and the Ozette River, Washington;

(2) all surveyed and unsurveyed islands lying off the coast of the State of Washington in the Pacific Ocean between latitudes 48 degrees 23 minutes North and 47 degrees 38 minutes North;

(3) those lands between mean high tide and the lowest low tide beginning in section 22, Township 24 North, Range 13 West Willamette Meridian, at the common boundary between the Olympic National Park and the Quinault Indian Reservation, to section 18, Township 32 North, range 15 West Willamette Meridian, at the common boundary between the Olympic National Park and the Makah Indian Reservation, except those lands directly adjacent to and west of the Hoh, Ozette, and Quillayute Indian Reservations: *Provided,* That such lands as are identified in this paragraph shall continue to be open to fishing and to the taking of shellfish in conformity with the laws and regulations of the State of Washington; and

(4) approximately nine thousand six hundred and thirty-eight acres, and to exclude from the park approximately three thousand three hundred and fifty-two acres, as generally depicted on the maps entitled "Boundary Modifications, Olympic National Forest and Olympic National Park", numbered 149/60,030A, sheets 1 through 9, and dated September 1986, which shall be on file and available for public inspection in the office of the National Park Service, United States Department of the Interior.

(b) The boundary of Olympic National Forest, Washington, is hereby revised to include in the national forest approximately three thousand three hundred and fifty-two acres and to exclude from the national forest approximately nine thousand three hundred and twenty-four acres, as generally depicted on the maps entitled "Boundary Modifications, Olympic National Forest and Olympic National Park", numbered 149/60,030A, sheets 1 through 10, and dated September 1986, which shall be on file and available for public inspection in the office of the Forest Service, United States Department of Agriculture.

(c) Section 3 of the Washington State Wilderness Act of 1984 (Public Law 98-339, Act of July 3, 1984, 98 Stat. 301) is amended—

(1) by striking subsection (2) and inserting in lieu thereof the following new subsection:

"(2) certain lands in the Olympic National Forest, Washington, which comprise approximately forty four thousand four hundred and seventy-four acres, as generally depicted on a map entitled 'Buckhorn Wilderness—Revised', numbered 98-339-3(2), sheets 1 and 2, and dated September 1986, and which shall be known as the Buckhorn Wilderness;";

(2) by striking subsection (13) and inserting in lieu thereof the following new subsection:

"(13) certain lands in the Olympic National Forest, Washington, which comprise approximately thirteen thousand and fifteen acres, as generally depicted on a map entitled 'Mount Skokomish Wilderness—Revised', numbered 98-339-3(13) and dated September 1986, and which shall be known as the 'Mount Skokomish Wilderness—Revised', dated September 1986, and which shall be known as the Mount Skokomish Wilderness;"; and

(3) by striking subsection (19) and inserting in lieu thereof the following new subsection:

"(19) certain lands in the Olympic National Forest, Washington, which comprise approximately sixteen thousand six hundred and eighty-two acres, as generally depicted on a map entitled 'The Brothers Wilderness—Revised', numbered 98-339-3(19) and dated September 1986, and which shall be known as the 'Brothers Wilderness; '.".

SEC. 2. (a) Federal lands, waters, and interests therein formerly within the boundary of Olympic National Forest which are included within the boundary of Olympic National Park pursuant to section 1 of this Act are, subject to valid existing rights, hereby transferred to the administrative jurisdiction of the Secretary of the Interior for administration as part of the park, and shall be subject to all the laws and regulations applicable to the park: *Provided further,* That within section 15, Township 15 North, Range 9 West Willamette Meridian, and within an area extending not more than one mile north of such section, nothing herein shall be construed to limit or otherwise modify the authority of the Secretary of Agriculture to design and construct a forest logging road east of the park boundary: *Provided, however,* That the Secretary of Agriculture shall not construct the road as close as practically possible to the park boundary but not more than five hundred feet east of the divide. Following construction, the Secretary of the Interior is hereby authorized and directed to redescribe and relocate the boundary of the park along the eastern clearing limits of the road.

(b) Federal lands, waters, and interests therein formerly within the boundary of Olympic Park which are excluded therefrom pursuant to section 1 of this Act are, subject to valid existing rights, hereby transferred to the administrative jurisdiction of the Secretary of Agriculture for administration as part of Olympic National Forest, and shall be subject to all the laws and regulations applicable to the National Forest System: *Provided,* That any lands deleted from the park and included within the Buckhorn Wilderness, Mount Skokomish Wilderness, or the Brothers Wilderness pursuant to this Act shall be managed in accordance with the provisions of the Washington State Wilderness Act of 1984 (Public Law 98-339, Act of July 3, 1984, 98 Stat. 301).

SEC. 3. (a) The Secretary of the Interior is authorized to acquire by donation, purchase with donated or appropriated funds, exchange, bequest or otherwise any non-Federal lands, waters, and interests therein included within the boundary of Olympic National Park pursuant to section 1 of this Act: *Provided,* That any lands, waters, or interests therein owned by the State of Washington or any political subdivision thereof may be acquired only by donation or exchange.

(b) For the purpose of section 7 of the Land and Water Conservation Fund Act of 1965 (78 Stat. 903, as amended; 16 U.S.C. 4601-9), the boundary of the Olympic National Forest, as modified pursuant to section 1 of this Act, shall be treated as if it was the boundary of that national forest on January 1, 1965.

SEC. 4. There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act, except that the total amounts authorized to be appropriated for the purpose of acquisition of lands, waters, and interests therein pursuant to this Act shall not exceed $1,000,000.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment in the nature of a substitute was agreed to.

Mr. EVANS. Mr. President, I urge passage of S. 2351, a bill I introduced with Senator GORTON to revise the boundaries of the Olympic National Park in Washington State. The bill incorporates the recommendations of the National Park Service and the National Forest Service for modification of their common boundaries. The bill also authorizes two minor additions to the park as recommended by the National Park Service. Finally, the bill incorporates a number of changes to the National Park which came as a result of a hearing held before the Senate Energy and Natural Resources Committee in June of this year, namely, including the tidelands and islands offshore of the Olympic National Park coastal strip.

The Olympic National Forest and the Olympic National Park share many common boundaries. A high degree of cooperation has existed between these Federal land management jurisdictions on a variety of programs. But some of the existing boundaries separating park and forest have created problems for both agencies in fulfilling their respective missions. These are found in selected areas where existing boundaries do not follow natural topographic features and hydrographic divides.

Established earlier in the century, many of the boundaries are drawn on township and section lines which do not always meet logical resource management needs or serve the best interests of the public. Existing straight line boundaries do not protect complete watersheds. The upper portions of some park watersheds lie outside park boundaries thus allowing land uses that could affect the visual integrity within drainages. In other places, the existing park boundary effectively blocks access to portions of the Olympic National Forest since logging roads cannot be built through the park.

Mr. President, the S. 2351 incorporates the joint recommendations of the National Park Service and the U.S. Forest Service to modify further their common boundaries. The bill will include within the park 9,324 acres and will transfer to the National Forest 3,352 acres formerly within the boundaries of the park. Furthermore, the bill will include within the National Park several miles of islands offshore and the tidelands along the coastal strip. Finally, the bill includes within the park the submerged lands under Lake Ozette and the Ozette River,

thereby completing the national park coastal strip all the way to the Pacific Ocean.

Mr. President, I have visited scores of the ocean beaches, hiked virtually every river valley, and climbed most of the Olympic Mountains during the last 45 years. Each visit is a return pilgrimage to a mountain paradise only gently touched by human hands. Vivid technicolor memories recall, instantly, the serenity and savagery of wilderness mountains.

The national park which dominates the Olympic Peninsula has preserved a wilderness land virtually untouched by human habitation. In an increasingly technological and crowded world it is essential that we preserve these windows to the past. Our great grandchildren who may explore the stars must know their heritage and what their world was like before humans came.

Our responsibility to future generations requires our continued vigilance on issues of management of our national parks. This bill will help resolve some of these issues for the Olympic National Park. I hope that the Senate will pass this bill.

Mr. GORTON. Mr. President, I am proud to join my distinguished colleague from my State in sponsoring this legislation to revise the boundaries of the Olympic National Park and the Olympic National Forest in Washington. All of the proposed changes will correct nonsensical straight lines, following section and township lines, that bear no relation to the natural features of the land, and, instead, place them along topographic and hydrographic lines. All of the proposed changes are supported by both the National Park Service and the Forest Service.

Located on the Olympic Peninsula in Washington, both the Olympic National Park and the Olympic National Forest contain a vast abundance of natural resources covering over 1.5 million acres. Both the national park and the national forest share miles of common borders. As a result of their close proximity, the two agencies work together very cooperatively. I would like to say at the outset that both agencies are to be commended for their efforts in developing the basis for this legislative proposal.

When boundaries were established years ago, much of the land was inadequately surveyed. Boundaries were frequently drawn along township and section lines. Many of these boundary lines do not correspond with the natural topographic, hydrographic, and ecological features of the land itself. Redrawing boundary lines along these natural features is far more logical. it will enable both these agencies to better manage and protect their resources.

This legislation will result in 9,638 acres that will be included within the boundaries of the Olympic National Park. A total of 3,352 acres will be taken out of the national park's jurisdiction, and transferred to the national forest. A total of 9,324 acres will be deleted from the jurisdiction of the National Forest Service.

This bill will also authorize the acquisition of 234 acres of private land along the Soleduck Road and 80 acres of private land along Lake Crescent. The Soleduck Road is an important access corridor into the park. The land along the road contains older second growth forest. If the property is not acquired soon, the private landowner will have no choice but to log it.

The submerged lands of Lake Ozette and the Ozette River will be included within the boundaries of the national park. In 1976, this Congress passed legislation that expanded the boundaries of the national park to encompass all of Lake Ozette. It was an oversight at the time to not include the bed of the lake itself. This legislation will correct that oversight.

Also transferred to the jurisdiction of the National Park Service is the intertidal zone on the portion of the park which extends along the Pacific Coast. This will allow the Park Service to better protect the resources in the tidelands, which have experienced problems with the extensive scraping of all forms of shellfish and other marine life from the tidepools. The bill will also add to the park offshore rocks that are presently under the jurisdiction of the Fish and Wildlife Service.

This bill will remedy many of the land management problems that both agencies face as a result of these illogical boundaries. The Park Service will be better able to protect entire watersheds and ecosystems. The Forest Service will be able to reach timber management sites that have had blocked access because park land separates the forest land.

Mr. President, this is legislation that is supported by both administrative agencies, and the many people who heavily use both the Olympic Park and the Olympic Forest. It is supported by Congressman AL SWIFT, in whose district the Olympic Peninsula falls, and by the House of Representatives. I expect their timely consideration of this bill soon after it has passed the Senate. I strongly urge my colleagues to support its passage.

The PRESIDING OFFICER. If there be no further amendments, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

Mr. PACKWOOD. I move to reconsider the vote by which the bill passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

INDEPENDENT SAFETY BOARD ACT AUTHORIZATION

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the Senate now turn to the consideration of Calendar No. 1035, H.R. 4961.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, there is no objection.

The PRESIDING OFFICER. The bill will be stated by title.

The bill clerk read as follows:

A bill (H.R. 4961), to amend the Independent Safety Board Act of 1974 to authorize appropriations for fiscal years 1987, 1988, 1989, and for other purposes.

The Senate proceeded to consider the bill.

AMENDMENT NO. 3273

(Purpose: To add a provision regarding airport insurance)

Mr. BYRD. Mr. President, I send to the desk an amendment by Mr. EXON and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from West Virginia [Mr. BYRD], for Mr. EXON, proposes an amendment numbered 3273.

Mr. BYRD. I ask unanimous consent that further reading be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following:

SEC. 7. AVIATION LIABILITY INSURANCE.

(a) The Secretary of Transportation and the Administrator of the Federal Aviation Administration shall—

(1) not later than March 1, 1987, submit an interim report, and

(2) not later than March 1, 1988, submit a comprehensive final report,

concerning the extent of and causes for the rapidly increasing costs to United States public use airport sponsors for general liability insurance coverage. Such reports shall consider the probable implications of such increasing costs on the future capacity of the airport runway and taxiway system of the United States, particularly at smaller airports, and shall include any recommendations of the secretary and the Administrator for actions which the Federal Government might undertake to assist in ameliorating the liability insurance difficulties of such public use airport sponsors.

(b)(1) The Administrator shall, within sixty days after the date of enactment of this Act, contract with a nonprofit foundation to establish an information clearinghouse concerning general liability insurance coverage at such public use airports.

(2) The clearinghouse shall gather and distribute without charge to such airports information on premiums, coverage limits and insurance availability. All information generated by such clearinghouse shall be made available promptly to the Secretary

and the Administrator for use as appropriate in the reports required under subsection (a) of this section.

(3) There shall be available for the purposes of this subsection $250,000 of funds appropriated for the Federal Aviation Administration for each of the fiscal years 1987 and 1988.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3273) was agreed to.

Mr. EXON. Mr. President, I rise in strong support of H.R. 4961, legislation authorizing expenditures for the National Transportation Safety Board for fiscal years 1987, 1988, and 1989. This legislation is needed prior to the adjournment of this Congress to ensure the continued operations of this important Federal agency.

In recent years, the NTSB has been on the forefront of ensuring that the Department of Transportation and the individual aviation, surface, and water transportation industries do all they can to promote safety. For example, only last week the Board recommended a number of new proposals for crew training, increased surveillance, and new flight safety equipment for the commuter airline industry. Without this type of leadership, we would likely fall short of fulfilling our mandate for providing an adequate margin of safety.

The present bill, which passed the House of Representatives on September 30, 1986, without objection, is similar to a bill reported earlier this year by the Senate Commerce Committee. The major change is a provision which I believe is extremely important for the well-being of our Nation's airport system. It is much less than what I originally sought and was successful in including in the Senate bill during Commerce Committee consideration, but I believe it will provide significant assistance to the many smaller airports around the country that have been hit hard by increasing liability insurance costs.

Very simply, this measure would require the Secretary of Transportation and the Federal Aviation Administration to undertake a joint study of the problems created by the rapidly escalating insurance premiums for public airports and the effect these increased costs are having on limiting airport capacity. An interim report is called for early next year, with the final study to be transmitted to the Congress no later than March 1, 1988. Among other items, we have asked DOT/FAA to provide any recommendations for Federal actions that should be undertaken to help alleviate the airport liability insurance problem.

To assist public airports in obtaining the insurance needed to remain operationally viable, this bill also calls for the creation of a nonprofit clearinghouse that would provide information on the availability of insurance, premium levels, and coverage limits. This information, which would be provided by the clearinghouse at no charge to the airports, is desperately needed by smaller- and medium-sized airports who do not have the staff required to stay on top of the ever-changing insurance market.

Public airports have suffered under the current liability insurance crisis. The Aviation Subcommittee heard of numerous instances where the rapidly increasing liability insurance premium costs have threatened the ability of many smaller public airports to remain in operation. Yet, unlike many businesses, these airports are severely limited in their ability to pass on these higher costs.

I had hoped we could do even more for smaller airports to assist them in their efforts to cope with the insurance crisis. However, my interest is principally in obtaining some aid for these airports, a sentiment that I know is shared by the chairman of the Aviation Subcommittee, Senator KASSEBAUM. And I trust our friends in the House of Representatives will look upon this effort, and in particular, this provision, in the same light.

As a whole, I believe this is a good bill. It follows many of the recommendations made by the Board itself, to better equip it to handle its every-increasing role in ensuring the enhancement of safety. And it provides some assistance to smaller airports who have been hurt by the liability insurance crisis.

I urge my colleagues to support its passage.

Mrs. KASSEBAUM. Mr. President, I would ask my colleagues to support H.R. 4961, legislation similar to S. 2807, which was reported by the Commerce Committee earlier this session to reauthorize appropriations for the National Transportation Safety Board [NTSB]. This agency plays a crucial role in maintaining and improving standards of safety related to air, highway, rail, pipeline, and marine transportation, as well as to the movement of hazardous materials by those modes.

Specifically, the legislation does the following:

1. authorizes appropriations of $24.0, $25.4, and $27.0 million for fiscal years 1987, 1988, and 1989, respectively;

2. provides the NTSB with authority for a $1 million emergency fund for use in years where there is an unusually large number of accidents;

3. deletes certain Federal Register notice requirements which are unnecessary, thus saving $25,000 annually;

4. redirects tuition funds collected from non-NTSB employees attending accident investigation training courses to NTSB's appropriations in order to offset costs; and

5. requires federal agencies and state, local, and foreign governments, who request assistance with accident investigations, to make payments, which would be applied to NTSB's appropriations.

These provisions would reduce unnecessary expenditures and allow the NTSB to better utilize staff capabilities. The funding levels assume a continuation of current activities and no new responsibilities. The slight dollar increases over this year's appropriations reflect the effects of inflation and other uncontrollable cost increases.

I urge the support of my colleagues for H.R. 4961.

The PRESIDING OFFICER. Are there further amendments? If not, the question is on the engrossment of the amendment and the third reading of the bill.

The bill was ordered to be engrossed for a third reading, was read the third time, and passed.

Mr. PACKWOOD. I move to reconsider the vote.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

BILL INDEFINITELY POSTPONED—S. 2807

Mr. PACKWOOD. Mr. President, I ask unanimous consent that consideration of Calendar No. 893, S. 2807, be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

BILL HELD AT DESK—H.R. 3415

Mr. PACKWOOD. I ask unanimous consent that when the Senate receives from the House, H.R. 3415, the Bicentennial Coins and Medals Act, it be held at the desk pending further disposition.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

RESTRICTION OF USE OF GOVERNMENT VEHICLES

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the Senate turn to consideration of H.R. 3614, dealing with the use of Government vehicles now being held at the desk.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. There is no objection, Mr. President.

The PRESIDING OFFICER. The bill will be stated by title.

The bill clerk read as follows:

A bill (H.R. 3614) to restrict the use of Government vehicles for transportation of officers and employees of the Federal Government between their residences and places of employment, and for other purposes.

The Senate proceeded to consider the bill.

AMENDMENT NO. 3274

(Purpose: To substitute alternate provisions)

Mr. PACKWOOD. I send an amendment to the desk on behalf of Senators ROTH and PROXMIRE and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Oregon [Mr. PACKWOOD] for Mr. ROTH and Mr. PROXMIRE, proposes an amendment numbered 3274.

Strike out all after the enacting clause and insert in lieu thereof the following:

That (a) section 1344 of title 31, United States Code, is amended to read as follows:

"§ 1344. Passenger carrier use

"(a)(1) Funds available to a Federal agency, by appropriation or otherwise, may be expended by the Federal agency for the maintenance, operation, or repair of any passenger carrier only to the extent that such carrier is used to provide transportation for official purposes. Notwithstanding any other provision of law, transporting any individual other than the individuals listed in subsections (b) and (c) of this section between such individual's residence and such individual's place of employment is not transportation for an official purpose.

"(2) For purposes of paragraph (1), transportation between the residence of an officer or employee and various locations that is—

"(A) required for the performance of field work, in accordance with regulations prescribed pursuant to subsection (e) of this section, or

"(B) essential for the safe and efficient performance of intelligence, counterintelligence, protective services, or criminal law enforcement duties, is transportation for an official purpose, when approved in writing by the head of the Federal agency.

"(b) A passenger carrier may be used to transport between residence and place of employment the following officers and employees of Federal agencies:

"(1)(A) the President and the Vice President;

"(B) no more than 6 officers or employees in the Executive Office of the President, as designated by the President; and

"(C) no more than 10 additional officers or employees of Federal agencies, as designated by the President;

"(2)(A) officers compensated at Level I of the Executive Schedule pursuant to section 5312 of title 5; and

"(B) a single principal deputy to an officer described in subparagraph (A) of this paragraph, when a determination is made by such officer that such transportation is appropriate;

"(3) principal diplomatic and consular officials abroad, and the United States Ambassador to the United Nations;

"(4) the Deputy Secretary of Defense and Under Secretaries of Defense, the Secretary of the Air Force, the Secretary of the Army, the Secretary of the Navy, the Joint Chiefs of Staff, and the Commandant of the Coast Guard;

"(5) the Director of the Central Intelligence Agency and the Director of the Federal Bureau of Investigation;

"(6) the Chairman of the Board of Governors of the Federal Reserve System;

"(7) the Comptroller General of the United States and the Postmaster General of the United States; and

"(8) an officer or employee with regard to whom the head of a Federal agency makes a determination, in accordance with subsection (d) of this section and with regulations prescribed pursuant to paragraph (1) of subsection (e), that highly unusual circumstances present a clear and present danger, that an emergency exists, or that other compelling operational considerations make such transportation essential to the conduct of official business.

Except as provided in paragraph (2) of subsection (d), any authorization made pursuant to paragraph (8) of this subsection to permit the use of a passenger carrier to transport an officer or employee between residence and place of employment shall be effective for not more than 15 calendar days.

"(c) A passenger carrier may be used to transport between residence and place of employment any person for whom protection is specifically authorized pursuant to section 3056(a) of title 18 or for whom transportation is authorized pursuant to section 28 of the State Department Basic Authorities Act of 1956 or section 8(a)(1) of the Central Intelligence Agency Act of 1949.

"(d)(1) Any determination made under paragraph (8) of subsection (b) shall be in writing and shall include the name and title of the officer or employee affected, the reason for such determination, and the duration of the authorization for such officer or employee to use a passenger carrier for transportation between residence and place of employment.

"(2) If a clear and present danger, an emergency, or a compelling operational consideration described in paragraph (8) of subsection (b) extends or may extend for a period in excess of 15 calendar days, the head of the Federal agency shall determine whether an authorization under such paragraph shall be extended in excess of 15 calendar days for a period of not more than 90 additional calendar days. Determinations made under this paragraph may be reviewed by the head of such agency at the end of each such period, and, where appropriate, a subsequent determination may be made whether such danger, emergency, or consideration continues to exist and whether an additional extension, not to exceed 90 calendar days, may be authorized. Determinations made under this paragraph shall be in accordance with regulations prescribed pursuant to paragraph (1) of subsection (e).

"(3) The authority to make designations under subsection (b)(1) of this section and to make determinations pursuant to subsections (a)(2), (b)(2)(B), and (b)(8) of this section and pursuant to paragraph (2) of this subsection may not be delegated, except that, with respect to the Executive Office of the President, the President may delegate the authority of the President under subsection (b)(8) of this section to an officer in the Executive Office of the President. No designation or determination under this section may be made solely or principally for the comfort or convenience of the officer or employee.

"(4) Notification of each designation or determination made under paragraphs (1), (2)(B), and (8) of subsection (b) and under paragraph (2) of this subsection, including the name and title of the officer or employee affected, the reason for any determination under paragraph (8) of subsection (b), and the expected duration of any authorization under such paragraph, shall be transmitted promptly to the Committee on Government Operations of the House of Representatives and the Committee on Governmental Affairs of the Senate.

"(e)(1) Not later than March 15, 1987, the Administrator of General Services, after consultation with the Comptroller General, the Director of the Office of Management and Budget, and the Director of the Administrative Office of the United States Courts, shall promulgate regulations governing the heads of all Federal agencies in making the determinations authorized by subsections (a)(2)(A), (b)(8), and (d)(2) of this section. Such regulations shall specify that the comfort and convenience of an officer or employee is not sufficient justification for authorizations of transportation under this section.

"(2) In promulgating regulations under paragraph (1) of this subsection, the Administrator of General Services shall provide criteria defining the term 'field work' for purposes of subsection (a)(2)(A) of this section. Such criteria shall ensure that transporation between an employee's residence and the location of the field work will be authorized only to the extent that such transportation will substantially increase the efficiency and economy of the Government.

"(f) Each Federal agency shall maintain logs or other records necessary to establish the official purpose for Government transportation provided between an individual's residence and such individual's place of employment pursuant to this section.

"(g) As used in this section—

"(1) the term 'passenger carrier' means a passenger motor vehicle, aircraft, boat, ship, or other similar means of transportation that is owned or leased by the United States Government; and

"(2) the term 'Federal agency' means—

"(A) a department (as such term is defined in section 18 of the Act of August 2, 1946 (41 U.S.C. 51));

"(B) an Executive department (as such term is defined in section 101 of title 5);

"(C) a military department (as such term is defined in section 102 of title 5);

"(D) a Government corporation (as such term is defined in section 103(1) of title 5);

"(E) a Government controlled corporation (as such term is defined in section 103(2) of title 5);

"(F) a mixed-ownership Government corporation (as such term is defined in section 9101(2) of this title);

"(G) any establishment in the executive branch of the Government (including the Executive Office of the President);

"(H) any independent regulatory agency (including an independent regulatory agency specified in section 3502(10) of title 44);

"(I) the Smithsonian Institution; and

"(J) any nonappropriated fund instrumentality of the United States,

except that such term does not include the government of the District of Columbia.

"(h) Notwithstanding section 410(a) of title 39, this section applies to the United States Postal Service.".

(b) The table of sections for chapter 13 of such title is amended by striking out the item relating to section 1344 and inserting in lieu thereof the following:

"1344. Passenger carrier use.".

SEC. 2. (a) Title 10, United States Code, is amended—

(1) by striking out section 2637 thereof; and

(2) in the table of contents of chapter 157 thereof, by striking out the item pertaining to section 2637.

(b) Section 636(a)(5) of the Foreign Assistance Act of 1961 (22 U.S.C. 2396(a)(5)) is amended by striking out "(without regard to the limitations contained in section 5 of Public Law 63-127, as amended (31 U.S.C. 639a(c)(2)), and section 201 of Public Law 85-468 (31 U.S.C. 638c))".

(c) Section 48 of the Arms Control and Disarmament Act (22 U.S.C. 2588) is amended by striking out "without regard to the limitations contained in section 78(c) of title 5 of the United States Code".

(d) Section 11 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2678) is repealed.

(e) Section 660 of title 14, United States Code, is amended by striking out subsection (e).

SEC. 3. Within one year after the date of enactment of this Act, the Director of the Administrative Office of the United States Courts shall prepare, in consultation with the Marshal of the Supreme Court of the United States, the Clerk of the United States Court of Military Appeals and the Court Administrator of the United States Tax Court, and transmit to the Congress, appropriate recommendations concerning the transportation needs of the judicial branch and of courts established pursuant to Article I of the Constitution.

Mr. PROXMIRE. Mr. President, I am delighted to join as a cosponsor of the pending substitute to H.R. 3614, legislation to restrict the use of federally owned or leased vehicles for home-to-work transportation.

The substitute we are offering today has been the result of long and hard bargaining on both sides of the aisle and by Members of both Houses.

Even with this substitute, this bill is far from perfect. But on balance, this bill goes a long way toward clarifying a law which has been cavalierly ignored by Federal bureaucrats for far too long.

A BRIEF HISTORY

Mr. President, legislation has been on the books since 1946 prohibiting the use of federally owned or leased vehicles for home-to-work transportation of Federal employees.

While this legislation has often been referred to as "the limo law," its coverage is far broader than a mere prohibition on the use of expensive limousine-type automobiles. It even goes beyond cases in which a Federal driver or chauffeur is employed. This law flatly prohibits the use of any federally owned vehicle or leased vehicle for home-to-work transportation, even where the employee drives himself or herself.

The only exceptions to that law are spelled out in the existing statute, recently recodified in section 1344 of title 31 of the United States Code.

While the law has always been quite clear to Chairman BROOKS of the House Government Operations Committee and myself, apparently there is not a bureaucrat in town who finds the statute clear. They have been particularly adept at finding, or creating, loopholes large enough to accommodate a Federal car.

After all, home-to-work transportation is the ultimate status symbol for a Federal bureaucrat. It sends a clear message to his friends and neighbors that here comes "Mr. Big" or "Ms. Big."

My surveys of all Federal agencies over the last decade have repeatedly found 140 to 200 Federal bureaucrats using this perk, far in excess of the number entitled under Federal law. Just last year a report by the General Accounting Office for Chairman BROOKS of the House Government Operations found similar results.

As a result, it has become clear that the best course of action is to rewrite the 1946 statute and specify more clearly the individuals who are entitled to home-to-work transportation. In addition, because of a myriad of General Accounting Office opinions on related issues—some of which are contradictory as GAO's own views have evolved on this issue—this bill also addresses the rare circumstances under which exceptions can be considered.

THE PENDING SUBSTITUTE

Mr. President, Chairman BROOKS is to be congratulated for his committee's tremendous work in restructuring the "home-to-work" statute. If the negotiations over this substitute are any indication, the task which Chairman BROOKS and his committee faced was clearly formidable.

The pending substitute builds upon the tremendous work of the House Government Operations Committee. It makes a number of important changes in clarifying the application of this revised statute. In light of the fact that this bill has been held at the desk and, therefore, there will be no committee report, it is crucial that these changes be emphasized now for the purpose of future legislative history.

COVERAGE OF THE JUDICIAL BRANCH AND LEGISLATIVE SUPPORT AGENCIES

The first key change is the substitution of the word "Federal" agency for "executive" agency and the reference in (f)(2) of the substitute to section 18 of the act of August 2, 1946 (41 U.S.C. 5a).

The choice of terms and reference was done very carefully. After the House completed action on their bill, it was discovered that the choice of the term "executive" agency in their bill had the inadvertent effect of exempting the entire judicial branch as well as all of the legislative branch support agencies, such as the General Accounting Office, the Government Printing Office, the Congressional Budget Office, the Congressional Research Service, and so on.

The change we are making in this substitute will restore the existing coverage of the judicial branch and the legislative support agencies. It is crucial that these principles be applied to all three branches of Government.

MONITORING COMPLIANCE

Mr. President, Federal agencies have repeatedly ignored rulings of the Comptroller General regarding the interpretation of the present statute, arguing that they were only bound by the ruling of their own agency's general counsel.

The substitute language we are proposing today vests rulemaking authority for the entire Federal Government in the General Services Administration [GSA] but provides that the GSA Administrator must consult with representatives of all three branches of Government before promulgating regulations: for the executive branch, the Office of Management and Budget; for the legislative branch, the General Accounting Office; and, for the judiciary, the Director of the Administrative Office of the United States Courts.

The significance of this change should not be overlooked:

First, it reaffirms that all three branches of the Federal Government are subject to the restrictions of this title.

Second, it establishes consistency in the application of Governmentwide rules on home-to-work transportation. Individual agencies will no longer be in a position to substitute their own judgment on the applicability of the law.

Third, it reflects our clear intent that these regulations will be promulgated through the Federal Register and receive the public scrutiny and comment they require.

APPROPRIATE RECORDKEEPING

The third change draws on the experience of the General Accounting Office. This change will require that every agency maintain logs or other records each time a Federal employee receives home-to-work transportation.

Mr. President, this requirement is essential if the GAO is to effectively monitor compliance with this statute. In their efforts to assess compliance with the existing statute, the GAO was repeatedly stymied by the fact that many agencies simply did not maintain adequate records.

This provision makes their responsibility crystal clear and all agency heads should take notice of it.

PROXMIRE CONCERNS

Mr. President, having discussed the positive aspects of this substitute, I would be remiss if I did not point out my areas of disagreement.

First, the substitute and the House bill simply permit too many Federal officials to make use of home-to-work transportation. While the bill represents a significant improvement over the current confused state of affairs, we should have pared away even more positions—both in the executive branch and we should have taken action on the legislative branch as well.

For example, we should not be extending this perk to the principal deputy of Cabinet secretaries.

And I want to put the Senate on notice that I intend to offer legislation next year to reduce both the number of executive and legislative branch officials eligible for home-to-work transportation.

Second, this substitute goes in the wrong direction by adding the position of the Comptroller General or the Postmaster General to the list of exempt officials. This sends the wrong signal at the very time we are paring down the executive branch.

Third, there needs to be more specificity regarding the exemptions contained in section (a)(2)(B) for "intelligence, counterintelligence, criminal law duties, or protective services." These activities are essential and, in certain circumstances, warrant exemption from the restrictions of this title. But by exempting them from the review of the GSA in the rulemaking section of the substitute, we are increasing the potential for abuse. It is crucial that the conference committee will clearly spell out congressional expectations regarding the way in which compliance will be monitored.

CONCLUSION

Mr. President, despite my reservations regarding specific compromises reached in this substitute, I believe that this substitute deserves the Senate's support.

Clearly, this substitute is a compromise proposal. One that I hope we can improve in the future. But this proposal builds upon the best concepts embodied in the House bill and makes substantive progress toward eliminating the abuse that has pervaded home-to-work transportation for far too long.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 3274) was agreed to.

Mr. ROTH. Mr. President, H.R. 3614 was designed to "restrict the use of Government vehicles for transportation of officers and employees of the Federal Government between their residences and places of employment." It was meant to resolve a number of longstanding Government transportation problems that have repeatedly been pointed out on audit by the General Accounting Office.

The underlying difficulty in providing home-to-work transportation for Government officials and employees or in the use of Government vehicles for that purpose is that existing law on the subject gives an uncertain and confusing mandate. In an area such as this, however, legislative imprecision invites conflicting opinions and abuse.

Specifically, the latest report of the General Accounting Office on the matter, issued just over a year ago, identified 128 officials who were provided transportation between their residences and their places of employment. In addition, on some occasions 17 relatives of officials were provided transportation to various locations. According to the GAO, under current law, more than one-half of those officials and their relatives received home-to-work transportation that was unauthorized. At the same time, and because of the imprecise nature of the existing statute, legal counsel for the Departments of State and Defense, and the U.S. Postal Service, among others, have disagreed with some of GAO's interpretations.

Mr. President, it is time to end the dispute over conflicting interpretations. It is also time to end the absues that continue to occur in the use of Government vehicles. A clear and realistic line must be drawn between those who are and those who are not entitled to home-to-work transportation at Government expense.

At the same time, legislation in this area must be flexible enough to make allowances for security concerns where there is a clear and present danger of attack, for genuine emergencies, and for other compelling operational considerations. Flexibility must also be preserved for effective intelligence and counterintelligence operations, protective services, and for criminal law enforcement. In addition many "field work" activities of investigators, auditors, and inspectors may be made most efficient where home-to-workplace use of vehicles is permitted. But in all of these kinds of situations, appropriate safeguards must be provided under carefully devised regulations.

Since H.R. 3614 was received from the other body last March 5, my staff and I have worked with many other Members of the Senate and their staffs, with Chairman JACK BROOKS of the House Government Operations Committee and his staff, with the General Accounting Office, and with staffs of various departments and the White House in order to resolve a number of difficult and intractable technical problems that remained in the House-passed measure. This was a bipartisan, bicameral effort to strike a precise balance between control and accountability on the one hand and efficient flexibility on the other.

Mr. President, I believe that, as the result of that effort, such a balance has been struck in the amendment I offer in the nature of a substitute for H.R. 3614. This amendment specifically identifies and carefully limits the number of officials of the Federal Government who will be entitled to home-to-work transportation while also allowing restricted Presidential and Cabinet-level discretion for additional transportation of this kind where specifically authorized. It also provides for written authorization of agency vehicle use for intelligence, counter intelligence, protective services, criminal law enforcement duties, and for "field work," that may involve home-to-work use of vehicles under the guidance of properly adopted regulations.

This amendment will not only end a lingering and potentially costly legal quarrel, it will also reduce markedly and make definite the number of home-to-work transportation services now provided for Government officials. Further, it will demand proper record keeping in connection with all such transportation services, and it will extend the restricitons on home-to-work transportation to the judicial branch and to legislative branch support agencies.

Mr. President, it has come to my attention that the Smithsonian Intitution asserts that the secretary is not an officer or employee of the Federal Government. He is appointed under the authority of the Board of Regents of the Institution (20 U.S.C. 41 et seq.) and is paid from non-Federal resources. Furthermore, the Institution contends it has never been and is not a Federal agency. Rather it is a trust established to carry out the obligations assumed by the Congress under the will of James Smithson in 1836. It is important for this bill to be acted upon this year, but Congress may well wish to take a look in the next session at the arguments presented by the Smithsonian and consider changing the law to reflect these facts.

Mr. President, I urge the adoption of H.R. 3614, as amended.

Mr. LEAHY. Mr. President, I strongly support the purposes of H.R. 3614 to limit the use of limousines by Government officials and to eliminate unneeded and improper use of Government vehicles for home to work transportation.

However, I believe that the House bill and its accompanying report contain a serious defect which, if enacted, would have a devastating impact on the Government's ability to properly execute its law enforcement, intelligence, counterintelligence, and protective functions.

I had intended to offer an amendment to cure that defect but I am pleased that the substitute offered by Senator ROTH incorporates my suggestions.

The bill amends section 1344 of title 31, United States Code, which regulates the use of Government vehicles for official purposes. Currently, section 1344 limits the use of Government vehicles for home to work transportation, but contains a broad field work exception. Agencies such as the FBI, Secret Service, and the DEA have relied on the field work exception to permit a limited number of agents to take their vehicles home to ensure

that the agency had an emergency response capability. These agents who would be on call during the night would be able to respond to emergency situations without having to first get back to a government garage where they could obtain a government vehicle.

In response to GAO findings that nonlaw enforcement agencies were abusing the field work exception, H.R. 3614 narrows the definition of the field work exception. The House report accompanying the bill states:

> The field work exception may not be used (1) when the individual's work day begins at his or her official government duty station, or when the individual normally commutes to a fixed location, however far removed from his or her official duty station. Although their daily work station is not located in a government office, these individuals are not performing field work. * * * Like all government employees, individuals working in a field office are responsible for their own commuting costs. (H. Rept. 99-451.)

This language, while appropriate to eliminate abuses in other contexts, would virtually eliminate the ability of agencies carrying out law enforcement, foreign intelligence, counterintelligence, and protective functions to provide emergency response capabilities. Judge Webster, the Director of the FBI, testified before the Subcommittee on Security and Terrorism that this language would have a devastating effect on the FBI's ability to fulfill its missions. The Secret Service has similarly complained to the subcommittee that it could not carry out its duties if restrained by this language.

To remedy this problem, I proposed to create a narrow exception to restrictions contained in the bill, which have been incorporated in the Roth substitute. It permits home to work transportation for officers or employees of certain executive agencies where such transportation is necessary for the safe and efficient performance of intelligence, counterintelligence, protective, or criminal law enforcement functions specifically assigned to such officer or employee by the head of the agency. The transportation must be approved in writing by the head of the agency.

I believe that the bill as now drafted preserves all the essential features of H.R. 3614 while curing its most important defect.

I would like to thank Senator ROTH and especially Senator PROXMIRE for working with me and being helpful in resolving my concerns about this legislation.

The PRESIDING OFFICER. Are there further amendments? If there be no further amendments, the question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed for a third reading and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. PACKWOOD. I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

IMPEACHMENT JUDGE HARRY E. CLAIBORNE

Mr. BYRD. Mr. President, the responsibility imposed on the Congress for article II, section 4 of our U.S. Constitution, is perhaps the most solemn and painful duty that we Members of the legislative branch must perform.

That section states:

> The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors.

This is the only instance in which the legislative branch of our Government acts in a purely judicial capacity. Article I, section 2, clause 5 we find these words,

> The House of Representatives * * * shall have the sole power of impeachment.

We find in article I, section 3, clauses 6 and 7:

> The Senate shall have the sole Power to try all Impeachments. When sitting for that Purpose, they shall be on Oath or Affirmation. When the President of the United States is tried, the Chief Justice shall preside: And no Person shall be convicted without the Concurrence of two-thirds of the Members present.
>
> Judgement in Cases of Impeachment shall not extend further than to removal from Office, and disqualification to hold and enjoy any Office of honor, Trust, or Profit under the United States: but the Party convicted shall nevertheless be liable and subject to Indictment, Trial, Judgment, and Punishment, according to Law.

Article II of section 2, clause 1 states as follows:

> The President shall * * * have Power to grant Reprieves and Pardons for Offenses against the United States except in Cases of Impeachment.

I have already read article II, section 4. Article III, section 2, clause 3 states:

> The trial of all crimes except in cases of impeachment shall be by jury.

So, Mr. President, this is an awesome power that the Senate holds under the Constitution. And similarly, it is an awesome duty upon Senators. No official who comes within the parameters of that constitutional language, and no person, no Vice President, no civil officer of the United States can escape the reach of article II, section 4. The Senate can remove any President, any Vice President, any civil officer of the United States in impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors. And no Presidential pardon can be given to any such party who is impeached and convicted under those constitutional provisions.

The historical antecedents of this impeachment process extend back through history over a period of hundreds of years. Impeachment has been described by the notable historians as the chief institution for the preservation of government. It developed as a logical way for the Parliament of England to exercise control over the British judicial system and to keep the King and his ministers from becoming too authoritarian.

The framers of our U.S. Constitution were very familiar with its essential purpose in maintaining a democratic form of government. They included it in our own Constitution to assure that all officers in our Government remained accountable to the people—to the people through their elected representatives. Now for the 13th time in our Nation's history, and the first time in over 50 years, the U.S. Senate has been required to try an impeachment of a civil officer, U.S. District Court Judge Harry E. Claiborne.

I believe that the Senate undertook this duty responsibly, and with a judicious sense of purpose. The committee of 12 Senators appointed by the distinguished majority leader and myself pursuant to Senate Resolution 481 passed on August 14 of this year spent 7 full days in hearing witnesses, and compiling testimony for the Senate as a whole to evaluate and to analyze. The transcript of these proceedings, almost 1,200 pages of text, as well as 3 additional volumes of exhibits, were printed for each Senator to study.

I take this opportunity to praise publicly, as I previously have done privately, the diligence and the exceptional hard work of those members of that committee, Chairman MATHIAS and Vice Chairman SARBANES, both of Maryland, and Senators HATCH, WARNER, RUDMAN, PRESSLER, MCCONNELL, HEFLIN, DECONCINI, PRYOR, GORE, and BINGAMAN.

I carefully studied the transcript and the posttrial briefs of the two parties. And I concluded that there was more than sufficient evidence on the record to sustain a verdict that Judge Claiborne did willfully and knowingly file tax returns for tax years 1979 and 1980 that understated his taxable income by substantial amounts. He signed and verified those returns with a written declaration under penalties of perjury.

I believe it is clear that Judge Claiborne either knew of the substantial understatement of his taxable income on his returns or he went to such great lengths to avoid knowing that he may be deemed to have had constructive knowledge of the returns' falsities. A jury of 12 of the Judge's peers found

him guilty of two counts of violating section 7206(1) of title 26, United States Code, which is the criminal statute for committing tax fraud or filing a false return. By having been convicted of these felony charges by a trial jury of the judicial branch of our Government—a verdict with which I can fully agree based on my review of the evidence—Judge Claiborne has brought dishonor and opprobrium on our Federal judiciary. Mr. President, I voted to convict Judge Claiborne on three of the four articles of impeachment brought by the House of Representatives. I would now like to briefly summarize the evidence that I believe was probative and helped me reach the verdict of guilty.

The critical issue that must be decided to sustain a violation of title 26, United States Code, section 7206(1) is whether the conduct was done "willfully." Section 7206 provides in pertinent part:

> Any person who—
> (1) * * * willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter * * * shall be guilty of a felony * * *.

The Supreme Court has recently refined the definition of "willfulness" in construing that statute as "a voluntary, intentional violation of a known legal duty." As the House managers pointed out in their posttrial brief: "A crime whose very purposes is to conceal is not often telegraphed with direct proof."

Consequently, Mr. President, courts have held that "intent" may be inferred from statements and conduct. *United States* v. *Cusino*, 694 F.2d 185, 1867 (9th Cir. 1982). Several court opinions have laid out the elements of circumstantial evidence on which the Government may rely to prove "willfulness."

The case that I found particularly meaningful in detailing certain of these elements was one in which Judge Claiborne had served as defense counsel, which proves that the judge was aware of these elements, *United States* v. *Conforte*, 624 F.2d, 869 (9th Cir. 1978). The decision in that case held that "willfulness" may be inferred from: "The extensive use of currency and cashier's checks to satisfy obligations"; a "pattern of understatement of income in successive years"; the "use of memory, surmise, estimates, or a careless disregard in making of tax returns"; a "taxpayer's effort not to learn what his tax obligations are"; and the "presence of large sums of money in cash not deposited in a bank."

The transcript of the committee hearings shows numerous examples where the judge conducted his business affairs in a manner comparable to those listed above.

"Extensive use of currency and cashier's checks to satisfy obligations": Judge Claiborne cashed increasing numbers of legal fee checks at the local hotels and casinos in Las Vegas, which had the effect of making the receipt of this income much more difficult to trace. When questioned about why one would need $37,500 in cash in his pocket—one legal fee check—or $44,256 in cash from a Government tax refund check cashed at the Golden Nugget Casino, his answers were unconvincing and raised questions about other laws that he may have violated. He said that he paid workers in cash to remodel his house and stated incorrectly, when asked, that he had no obligation to pay Social Security withholding on those workers' wages.

He claimed that he cashed the $44,256 refund check because he was considering purchasing some quarter horses in Mexico. He never concluded that purchase and stated that he ended up buying some real estate with the cash. No explanation was given for why the money was not deposited in a bank, why large payments on real estate would not better be done by check, or even how one can carry that much cash in one's pockets, let alone feel safe while doing it.

The one salient bit of information that I did glean from this peculiar pattern was that Judge Claiborne did have time to pursue personal projects like buying livestock, supervising numerous remodeling projects, and working on real estate investments. This would seem to contradict one of his main lines of defense; namely, that he had let his personal financial affairs go to pieces because he was so all consumed by his judicial duties. He stated that his 14-hour work days left him no time to examine his tax returns as they were prepared or to keep records of his business income.

However, when it served his financial interests, Judge Claiborne was capable of compiling and listing carefully detailed financial information. He delivered to his accountant, Jerry Watson, a three-page listing of the items comprising the cost basis on the house that he sold, in meticulous detail down to the last cent.

A "pattern of understatement of income in successive years": The facts presented at both trials and admitted into evidence by the Senate Impeachment Committee prove without dispute that Judge Claiborne understated his taxable income by $18,740.06 in tax year 1979. For the 1980 return, the judge failed to report $87,911.83 in legal fees by incorrectly and illegally writing them off against a phony capital loss on the nonexistent sale of his law practice that he had previously fully depreciated in 1978. In addition, he failed to report a new capital gain on the sale of his house of $214,000. In tax years 1981 and 1982, he again used the fabricated capital loss to offset $40,000 in 1981 and a comparable amount in 1982 in legal fees that should have been reported as ordinary income. In addition, with a careful reading of the committee's transcript, we must deduce that the judge significantly underreported his 1977 tax obligation as well, because he withdrew $74,000 from a safe deposit box in a hotel—the balance of a $100,000 gift from a friend and kept in the hotel's safe—in August 1978, to pay a tax deficiency for tax year 1977.

"Use of memory, surmise, estimates, or a careless disregard in making tax return": The record before us in the Senate was replete with evidence on this point. We are told that the judge had previously deposited all fee checks in his bank account. His accountant, Joseph Wright, was instructed to compute his legal fee income each year by tabulating those deposits from statements sent to Wright by the bank. Then we learned that the judge no longer deposited all fee checks in the bank but cashed some of them at casinos; he also stopped sending his bank statements to Mr. Wright. Mr. Wright no longer had any way of verifying Judge Claiborne's income.

The judge at various points in the spring of 1980 gave Wright different, conflicting figures for his 1979 legal fee income, that I will detail below. In addition, the judge testified that his personal system for keeping track of his income consisted of writing the amount of each fee check on a slip of paper at work, putting the slips in an envelope, and periodically carrying the envelope home to write the amounts in a personal financial diary at some later date. But he did not use this system methodically: Sometimes the slips were misplaced; the envelope was lost at one point during a move, and this required him to estimate his income several different times. The record clearly indicates that the judge displayed a "careless disregard" in compiling his personal records and in the making of his tax returns.

A "taxpayer's effort not to learn what his tax obligations are": This is the indicator of willfulness that I find to be most blatant. Judge Claiborne testifed that he signed his 1979 return in blank—although this point is disputed—and never looked at it when he got a final copy. Before hiring Jerry Watson to fill out his 1980 return, he had been told that he would owe a significant amount of tax for that year, as indeed he should have. He himself seems to have prepared the form 4868 requesting an extension for filing his return; on that form he reported that his 1980 taxes would be $42,847.96, and he submitted a check for $20,817.59—the difference between what had been

withheld and what he estimated he owed. Just 2 months later he signed the return prepared by Watson that showed him owing not $42,847.96 as he himself had computed, but $1,103.00. He signed a return that just wreaks of being defective. Filled out in pencil, with arrows indicating needed changes on the form, and including errors that even the slowest neophyte on taxes would not make, the judge signed it. The only question he asked Mr. Watson was "are you sure that this is correct?" But he had never asked the preliminary question that would have made a "yes" answer meaningful: What are your qualifications to fill out and evaluate a return? What is your educational and professional background? What experience have you ever had in coping with a professional personal-service business and the schedule C form, capital gains and losses and the schedule D form, and the form 2119 for the sale of a residence?

It is clear to me that Judge Claiborne deliberately did not want to know anything about his tax obligations, based on the overview of the evidence that I have listed above. There is, however, a substantial body of case law that states that a jury may properly infer that a taxpayer has read and approved his tax return if his signature appears on the return. See, for example: *United States* v. *Romanow*, 505 F.2D 813 (1st Cir. 1974). "The signature at the bottom of the return is prima facie evidence that the signor knows the contents of the return." *United States* v. *Harper*, 458 F.2D 891, 894–895 (7th Cir. 1971). The judge signed his tax returns. He, like every other "average" citizen has a sworn duty to believe and support the information included on his tax return. I believe that the evidence fully supports, beyond any doubt, that Judge Claiborne committed "a voluntary, intentional violation of a known legal duty". His conduct was "willful" as required to prove a violation of 26 U.S.C. sec. 7206(1).

THE 1979 TAX YEAR

During 1979, Judge Claiborne received 14 fee income checks that totaled $41,072.93. This amount is confirmed by adding up the checks listed as House managers' exhibits 1–14 and also by adding up the notations the judge made in his personal record book for fee income received in 1979.

In March 1980, the judge sent his accountant, Joseph Wright, a note asking that Wright notify a mortgage company that the Claiborne legal fee income for 1979 was $45,371.93 (later changed to $46,371.93). The note included a list of earnings identified as being a "tabulation taken from my deposits and authentic." Because this was the only figure that Wright had received by the time the judge's request for an extension form 4868 had to be filed, he used it to compute the estimated tax due for 1979. When Wright told Claiborne that he would need to send in $16,000 to cover the taxes owed, Claiborne responded by saying that the tax owed would be less. He sent a check for $8,000 on April 11, 1980.

Judge Claiborne says that he talked with Wright sometime before April 11, 1980, and indicated that of a $20,622.17 deposit, only $10,000 was actually a fee, with the balance being a rollover of a time certificate of deposit with interest. This was erroneous, and Claiborne rests his case on a letter that he says he drafted and had delivered to Mr. Wright on April 11. The letter states that his fee income was $41,073.93.

However, Joseph Wright testified that he never received that letter and had not seen it until Mr. Goodman showed it to him (produced from the judge's files) in late 1983. On May 22, 1980, Wright still had the understanding that Claiborne's legal fee income for 1979 was $45,371.93, and he used that figure in letters to mortgage companies. But he claims that Judge Claiborne called him between May 22 and June 15, when the tax return was filed, and eliminated certain items of income so that the total was dropped to $22,332.87. This amount was listed on his schedule C for that year as fee income. The judge himself used a figure of $23,050.76 to report his 1979 legal fee income to the judicial ethics committee.

The resolution of this controversy largely depends on whether one believes Judge Claiborne or Joseph Wright. I personally cannot understand how anyone could supposedly write a letter on April 11 that said his legal fee income was $41,073.93 and barely 1 month later, on May 13, fill out his judicial ethics financial disclosure form listing legal fee income of $23,050.76.

I believe Mr. Wright's explanation of what must have happened, and I find the judge's version lacks credibility. But I might have been inclined to grant him some benefit of the doubt were it not for the incredible tax return the judge filed in 1980.

THE 1980 TAX YEAR

In the spring of 1981, during the time 1980 tax returns typically were being prepared, Judge Claiborne in effect fired his long-time accountant, Joseph Wright. He made the acquaintance of Jerry Watson, who purported to be a financial adviser and tax consultant and who owned the Creative Tax Planning Co. In fact, Mr. Watson only had a high school diploma, had no training at all in any accounting or business courses, and had been fired from several previous jobs that he had held. Witnesses testified before the committee that Jerry Watson had a generally poor reputation around town for the quality of his work. The judge, however, on first meeting Watson, was impressed with his manner and mentioned to him that he had been told previously that he would owe substantial taxes for the 1980 tax year and might need some assistance.

But the judge did not retain Watson until after he had received a letter from Watson, dated April 6, 1981, elaborating on how a business loss could be taken on the judge's old law practice. The letter also indicated that no tax would be owed on the sale of the judge's house. Less than 1 week later, the judge personally filed a request for extension form 4868 that indicated he expected to owe $42,847.96 in taxes for 1980. He submitted a check for $20,817.59 as the balance due on this estimated return.

In the meantime, the judge discussed with Jerry Watson at least twice, and possibly three times, the possibility of taking a loss on his law practice that he had abandoned upon taking the bench in September 1978. Watson testified, and the judge did not deny it, that they spent more than 1 hour in total time discussing the fair market value of the firm (including valuations of $5,000 for his rolodex file—which he admitted at the hearing he did not even have; $5,000 for his phone number and yellow page ad; $110,000 for 26 years of goodwill; the value of a client list; accounts receivable for cases still pending; valuations for briefs, points, and authorities; and so on.)

Watson arbitrarily decided that the fair market value of the firm had to have been at least $250,000. But at this point, several facts leap out that strike anyone right in the face with any tax knowledge, or anyone who merely reads the schedule D form, as simply outrageous:

First, they listed the law firm as an asset acquired in 1978, when in fact the judge had started it from nothing more than 25 years before;

Second, they listed the cost basis of the firm as $250,000 when, in fact, that was their "guesstimate" of fair market value; all tangible assets of the firm had been fully depreciated in tax year 1978, so that the cost basis was actually zero. Again I emphasize, they used their "ballparked" (their term) estimate of fair market value which is totally incorrect in determining a capital loss;

Third, they determined that the sale price was $150,000, even though there had been no sale, never had been any sale. From this they subtracted the phony, fabricated cost basis of $250,000 to create an equally phony loss of $100,000.

The really creative part of this return was discovered when it was admitted by Watson that he had taken the judge's $87,911 of legal fee ordi-

nary income for 1980 added to that roughly $12,000 of fully depreciated law books that he had simply given away and invented the remaining $50,000 to equal the sales price of $100,000.

Fourth, no schedule C on which ordinary income from a personal business was listed was filed even though Clairborne had filed that form for at least the preceding 20 years.

The judge and his accountant had in effect masked ordinary income as a deduction against a fabricated capital loss. They also used this fabricated capital loss to offset ordinary income for the 2 years that followed. That is the transaction that never was.

The judge later tried to slough off any culpability by saying that he had not looked at the return and really was not knowledgeable about these types of tax matters. When he received his return from Watson that showed him owing $1,103 instead of the $42,848 that he himself had calculated 2 months earlier, he took no action; when he received a refund check for $44,256 some time later, he still did not look at the return to try to determine what the problem might be.

Evidence was also presented before the Senate hearing that showed flagrant miscalculations on the judge's form 2119 so that it showed no tax owing on the house he sold for $725,000 on which he had a cost basis of $362,000. Because the house he purchased subsequently only cost $285,000, the judge owed tax on his accumulated capital gain of $314,000 minus the $100,000 he appropriately excluded for being over 55 years of age. This $214,000 capital gain was omitted from his return.

With the facts there presented, I have no difficulty in determining that Judge Harry Claiborne did not believe these returns to be true and correct as to every material matter, and that he well knew and believed that he received, and failed to report, substantial income in addition to that stated on the returns, in violation of section 7206(1) of title 26, United States Code. So, I think the Senate righly adjudged him to be guilty of misbehavior and guilty of high crimes and misdemeanors. These facts lead me inexorably to conclude that his impeachment and removal from office under articles I and II of the impeachment resolution were fully warranted.

Article III of the impeachment resolution states that, because a 12-person jury of his peers found the judge guilty of two felony convictions for which he is serving a 2 year prison sentence and has paid a $10,000 fine, he is guilty of misbehavior and is guilty of high crimes and should be removed from office.

Mr. President, I voted "present" on that article. I did not want the support of that article to be misinterpreted as meaning that the Senate has no role to play when a person has been convicted previously by our judicial branch of Government. Nor did I want the Senate, in a future case in which the court may have failed to convict an individual, to ipso facto infer that the Senate should not convict that same individual on an impeachment article or articles brought by the other body.

I supported article IV of the Impeachment Resolution because I believed it obvious that Judge Claiborne had betrayed the trust of the people of the United States by falsifying his tax returns and had reduced confidence in the integrity and impartiality of the judiciary, which therefore brings disreput on the Federal courts and their ability to administer justice. This violated his oath of office and for that I thought he should be removed from office.

I think that all Senators and all citizens need to focus on the bottom line of this proceeding. If Judge Clairborne had been found not guilty on these charges of filing false tax returns it would have made a mockery of every citizen's legal duty and civic obligation to pay his taxes.

When Judge Claiborne stood here in the well before this assembled body he spoke for 35 minutes to a still Chamber. Yet in those 35 minutes he did not respond to the critical charges that had been made to him by the managers of the House of Representatives who sat also in the well of the Chamber. Judge Claiborne's comments did not go to the gravamen of the charges that had been made against him in Articles of Impeachment brought by the other House.

Instead he told us that he had been a "fair" judge.

All judges are expected to be fair.

He told the Senate and those listening in the galleries and those listening and watching on TV and radio that he had worked hard.

And yet all judges are expected to work hard. There is plenty for all to do.

He said that he was too busy, in other words, too busy to study the tax return.

I read from his statement directly from the record as to the 1979 tax returns. He said, "This is plainly a matter, in my opinion, that they did not believe my secretary."

In speaking of his 1980 returns he said that he had very little time for his personal business. "* * * I had very little time for my personal business, very little time. And I am not alone. I don't think there is a Federal judge in America on the bench that has time for his personal business. I can honestly state that I believe this, that Federal judges of this Nation are killing themselves. You cannot imagine the long hours they are working. You cannot imagine the time they spend on the bench. During recess, they are dictating orders or signing orders or reading briefs or preparing opinions, sustaining opinions. Then they go on the bench and try a case. They cut their lunch hours short, they stay at night and get into their offices sometimes as early as 6:30 a.m.

Mr. President, those words fell upon rather unsympathetic ears here in this Chamber. Senators are accustomed to working hard also. Also I suppose that there are a good many Senators who cut their lunch hours short, who work into the evenings. That is no excuse for not paying one's taxes.

No, he did not address the charges that had been made against him by the managers of the other body.

In those 35 minutes, he said, "I could not walk away because I have not violated a single law of the United States. I have not defrauded my Government. I have not been corrupt in my office."

Mr. President, there are few rather than many who, upon the commission of crimes, are willing to admit that they have violated the law. Most of them say they have not violated the law.

I was reading in the newspapers recently about the arrest of an individual who had just shot three or four police officers in the District of Columbia. When he was being carried away, he said, "I ain't done nothin'. I ain't done nothin'."

Even the hardest criminals, upon arrest, have often been known to say they have not violated any law.

Did G. Gordon Liddy say that he had violated any law in the Watergate episode? Did President Nixon say that he had violated any law when he resigned from that high office? Aaron Burr, who was the third Vice President of the United States, shot and killed Alexander Hamilton in a duel in July 1804. Murdered Hamilton. And yet Burr had the affrontery to come back, after fleeing to Georgia, come back to the Senate and preside over the Senate as though nothing had ever happened. Later he was tried for treason.

So often those who commit crimes will say that they "never violated the law."

We heard that mournful plea as we sat here yesterday and listened to the judge. But the facts, Mr. President, in the case did not and do not support his contention. He was found guilty by a Federal district court. A special three-judge panel of judges, named by the Chief Justice of the United States, confirmed the judgment of the district court by a vote of three to nothing. And then Judge Claiborne asked the entire Ninth Circuit to sit en banc for a rehearing of his case. I am told that

there are 25 members within that circuit. Six of them recused themselves and of the remaining 19, 16 voted to deny the rehearing. Only 3 dissented.

And then Judge Claiborne petitioned for a writ of certiorari to the Supreme Court of the United States, and that was denied.

He then went to the penitentiary and began serving his time. He refused to resign from the high office to which he had been appointed by the President of the United States and for which he had once been confirmed by the Senate of the United States.

Then he came here to this Chamber. The House of Representatives impeached him and he appeared before the bar of the Senate, saying that he had violated no law; saying that he had not defrauded his Government; saying that he had not been corrupt in his office; saying that "I did nothing, I don't think, that the average American citizen does."

Mr. President, the average American citizen is not a Federal judge and the average American citizen just does not know what it is to file a tax return with an income of roughly $356,000, I believe it was, in one year—$54,500 salary as a district judge, almost $88,000 in legal fees, $214,000 in capital gains. And he filed a return claiming that the Government owed him almost $22,000. The average citizen does not have an income of that size.

Mr. President, I believe, as most Senators did, that Judge Claiborne was guilty. He was a convicted felon serving in a penitentiary in Alabama. He continued to draw his salary of a Federal district judge, $78,700 a year. He refused to resign from office. I voted to remove him from office and strip him, strip him of that salary which he did not deserve and which came out of the pockets of the honest taxpayers of this country.

Mr. President, the Senate fulfilled its responsibility under the Constitution. I again wish to compliment the committee of Senators, bipartisan in its makeup, Republican and Democrat, who belabored so dutifully and so faithfully in hearing the evidence, taking the testimony, compiling the facts, and submitting the report to the Senate. They worked diligently and faithfully, and they did their work well.

I hope that this example will be a lesson and I would hope that that lesson might not be lost on not only Federal judges but also all other officials in high places in our country.

On yesterday, I asked unanimous consent that my two statements that were made during the course of the closed sessions of the Senate on yesterday and the day before, appear in the public record. I now include, at the conclusion of these remarks, those two statements excerpted from the closed record and they will hereafter appear in the public record.

The statements follow:

REMARKS OF WEDNESDAY, OCTOBER 8, 1986

Mr. BYRD. Mr. President, I do not think that the respondent should be permitted to go away and say that the Senate did not vote on the substance of his motions. At the same time, I do not think the Senate has to accept his language. It is very cleverly crafted, "a full and fair trial."

Shortly, I shall ask unanimous consent to set aside this motion and have the Chair put before the Senate a motion which contains the substance of the respondent's request, to is it; one, that rule XI of the Rules of Procedure and Practice in the Senate when sitting on impeachment trials is unconstitutional; and, two, that the Senate issue subpoenas to, and hear the testimony of in open Senate, the witnesses listed in Judge Claiborne's application for issuance of subpoenas.

Now that motion would contain the substance of Judge Claiborne's request, stripped, stripped of the overblown rhetoric. I think that the Senate is required to do no more than that.

Mr. President, while I am on my feet, let me address the substance of the respondent's motion. Actually, as I see it, it would be divided in two parts. But in the second part, it is so worded as to include not only those witnesses who were called before the committee but also the additional witnesses that Judge Claiborne is requesting in the memo that is at the bar.

Mr. President, first of all, I hope that we will keep in mind that the Senate is not sitting as a court of law. Second, we should keep in mind that our responsibility is to focus on, and render judgments with respect to the Articles of Impeachment that have been presented to the Senate by the House managers.

Now, as to the respondent's contention that rule XI is unconstitutional, let us go to the Constitution. The Constitution, in section 5, paragraph 2, of article I, says, "Each house may determine the rules of its proceedings." Every Senator knows that. Every Senator knows that this Senate can constitute a committee to take evidence, to take testimony, and to report back to the Senate in respect to the impeachment involving the respondent. It was done in impeachment cases heretofore, and Senators need only look in the little book "Procedure and Guidelines for Impeachment Trials in the United States Senate" and they will find such instances on page 43, for example:

"In the trial of Judge Peck in 1830, following the impeachment at the bar of the Senate by two members of the House of Representatives, the Senate proceeded to consider the message from the House and resolved:

That it be referred to a select committee, to consist of three members, to consider and report thereon."

Another case, in the case of Judge Archbald, in 1912:

. . . following the reading of the articles of impeachment and in order that they be printed by the Senate, the articles were referred to a special committee appointed by the President pro tempore, pursuant to a resolution as follows:

"*Resolved*, That the message of the House of Representatives relating to the impeachment of Robert W. Archbald be referred to a select committee, to consist of five Senators, to be appointed by the President pro tempore."

And it goes on to state the names of the Senators who were appointed.

So, in the one case it was referred to a "select" committee and in another instance to a "special" committee. Ergo, the Senate clearly has that power. It has exercised such powers before, and there is no question but that it is constitutional.

So much for that part of the respondent's motion. What the respondent is really asking for, here is another trial. That is what the respondent is asking for, a full trial in open Senate. Actually the respondent has already gone a long way toward getting a new and full trial because under rule XI, I will read this extract therefrom.

"The evidence so received and the testimony so taken shall be considered for all intents and purposes subject to the right of the Senate to determine competency, relevancy, and materiality as having been received and taken before the Senate—

Before the Senate—

but nothing herein shall prevent the Senate . . .—

Ellipsis—

from having the entire trial in open session.

So, the testimony and the material reported by the committee to the Senate in 2,300 pages, and four volumes "shall be considered for all intents and purposes as having been received and taken before the Senate."

The respondent had his case considered in the Federal District Court, and he was found guilty of income tax evasion. Thereafter, an appellate tribunal made up of three judges was appointed by the Chief Justice of the United States to hear the case on appeal. That special tribunal confirmed the decision of the lower court, three to nothing.

The respondent then petitioned for the entire Ninth District Court of Appeals sitting en banc to rehear the case. I am told that there are 25 judges in the ninth circuit. Six of them recused themselves, leaving 19. Of the 19, 16 rejected the petition for rehearing. Three dissented, not meaning necessarily that they thought that the respondent was not guilty, but simply meaning that they felt there should be a rehearing. Then there was the petition for the writ of certiorari which went all the way to the Supreme Court of the United States, and that was rejected.

Hence, the respondent has had his day in court. The district court, the special three-judge appellate panel, the ninth district Appeals Court en banc, the Supreme Court of the United States. Now, he seeks to make the U.S. Senate a super Supreme Court.

I listened to his speech yesterday. I listened to his attorney's speech. I did not hear one thing said that would destroy or was even directed to destroy the case that was made by the managers of the House. And with specific reference to the 1980 tax return, it was said that "like the average American citizen," Judge Claiborne relied on his tax reporter. "I don't think the average citizen goes home and makes a personal audit," it was said. Mr. President, Judge Claiborne is not the "average" citizen. He is a learned man, learned in the law. He is a Federal judge. He has conducted trials of tax cases. He is not the "average citizen". What we are talking about in that particular instance of 1980 was income amounting to $356,400 in 1 year. The "average citizen" does not know anything about that kind of income.

Why did Judge Claiborne not resign when sent to prison, rather than risk impeach-

ment? One might say, why is the judge coming to the U.S. Senate? My opinion is, that he felt he would have two out of three chances of winning. The odds are 2 to 1 here, because it requires a two-thirds vote to declare him guilty of the Articles of Impeachment. So it is a gamble for him.

Should the Senate then accord him a full trial in open Senate? I would hope that the Senate would reject this part of the respondent's motion also.

The special committee was appointed by the majority and minority leaders, using great care, may I say. And the members of that select committee applied themselves studiously. They dutifully attended the meetings. They sat for hours, daily; and they sat for days. They were thorough. In my judgment, they bent over backwards, as they should have done. I think the record is clear that they did that. I think they reflect, and I think the Senate can look with great pride upon their work.

Now, to say that after the respondent has had his case tried in all of the long judicial chain that constitutes legal due process, and then that he should come in here, and that this Senate should accord him what amounts to a new trial in open Senate, it seems to me as going very far. Too far.

Let me just point out another thing to my colleagues. I have read the posttrial brief of the House of Representatives, a blue-backed little booklet. It has only 59 pages in it. In this booklet, I found that in connection with the 1980 tax return, the judge had earned a judicial salary of $54,500 in 1980. He had judicial fees amounting to $87,900. He had a capital gains—on property that he sold for $750,000—of $214,000. His tax return states that he owed the Government only $1,103. Actually, his return declared that the Government owed him $20,900-plus.

He actually got a return of something like $44,000. There were other items. But on his return he claimed that the Government owed him almost $21,000. So Judge Claiborne had a total of $356,000 in income, including capital gains, and, yet, he claimed that the Government owed him almost $21,000.

It is beyond this Senator's ability to imagine that that learned man would not know from that kind of income and that kind of claimed repayment that something was wrong with his tax return.

What about his tax preparer? The judge employed an individual who had not more than a high school education. That is all right. There may have been Presidents who did not have more than a high school education. But this man also had a questionable reputation. He had been fired. He was not a certified tax preparer. But they discussed a scheme, if we are to believe this document, which was prepared by the House of Representatives. They discussed a scheme. The judge had been told that he would be liable for a considerable amount of taxes. As I recall, I think he was told that he would probably owe between $90,000 and $100,000 for that year.

They discussed a scheme in which the following "transaction" took place: they took the judge's legal practice. There was no cost price for the practice. He had built it up over the years. No cost basis for it. They took this practice which had already been written off in 1978. The cost of the library, the cost of the fixed equipment, the cost of the leasehold improvements had been written off, and the judge had recovered in full in 1978. Yet, they came up with this scheme by which they would estimate the cost of this legal practice at $250,000.

Then they established a phony sales price for it of $150,000, so that out of this bogus transaction, the respondent took a loss of $100,000. A $100,000 loss on a transaction that never occurred.

Of course, the $150,000 "sales price" covered the $87,900 legal fees for 1980, plus $40,000 for the next year and about the same for the following year. The judge had 1980, 1981, and 1982 covered in that bogus sales price.

It is beyond the very limited stretches of my imagination and credulity to believe that a Federal judge of this standing, a man with this experience, a man as learned as this man was, would enter into a scheme such as this and sign a return and accept the check, the figures being as I have already set forth.

I say all of this to say that I hope that the Senate will reject this motion for a full trial in open Senate.

As to the request that the Senate proceed now to issue subpoenas and hear the testimony in open Senate of all these witnesses, I hope the Senate will not stultify itself by going through such an extended and unnecessary exercise. Take a look at the facts as shown in this brief. I did not write the brief. This is a posttrial brief. I did not write it. I can only read it. It was prepared by the House. I accept it as being factual. There were those who were present in the hearings and they, of course, have their own viewpoints.

I urge the Senate to reject this motion.

REMARKS OF THURSDAY, OCTOBER 9, 1986

Mr. BYRD. Mr. President, I have listened through most of this debate here on the floor. I have reflected with pride on the attendance throughout most of the debate here of Senators on both sides of the aisle. I have commended and I commend again the committee of 12 that was appointed by the distinguished majority leader and by me under the resolution adopted by the full Senate.

I have listened to those who have said, as they have searched their consciences and their hearts, that they would like to see Judge Claiborne appear before the Senate and answer questions. Yes, they can read the record, they say, that has been prepared and submitted to the Senate by the committee, but they would like to have seen Judge Claiborne as he answered the questions; they would like to have observed his demeanor.

Mr. President, as has already been said, one may observe the judge's demeanor by looking at the video tapes that are available and have been available. But, Mr. President, I observe the demeanor of Judge Claiborne when he was before the Senate yesterday. He stood right here in the well of this Senate and he talked for 30 minutes. He needed more time. The distinguished Senator from Maryland, Mr. MATHIAS, asked unanimous consent and gave Mr. Claiborne an additional 5 minutes. The managers on the part of the House presented their case here in open Senate before the eyes of millions throughout this country.

When it came Judge Claiborne's time to respond, did he respond to the charges that had been made by the managers on the part of the House? Well, no. He had his chance. But he did not respond. What did he say? He said, "I have been fair." Well, what judge would expect to be otherwise than fair? He said, "I have worked hard." Well, what judge would be expected not to work hard? He talked about how the Federal judges are overworked, how they go without lunch, how they work into the evenings, and how they are killing themselves. But did he answer the question? Did he go to the gravamen of the charges that had been made? No. With respect to the 1979 return, here is what he said. "This is plainly a matter, in my opinion, that they did not believe my secretary." That is about all he said about the 1979 return.

On the 1980 returns, what did he say? He said:

"Mind you, the only thing the Government was charging me with on the 1980 return is that I did not declare fees that I collected in the amount of $88,500.

"Mr. Watson's office had treated the $88,500 on a schedule D, which my accountant when he performed my audit after I was indicted said he can't do that. We conceded that he did it incorrectly. But I did not catch that it was done incorrectly. He told me that it was correct.

"When it began to look like I was going to be indicted, I talked to him. I said, "I want to know how you did it. I want to know exactly what you did."

Let me read that again from yesterday's transcript:

"When it began to look like I was going to be indicted"—

Aha—the hour was late.

"When it began to look like I was going to be indicted, I talked to him. I said, "I want to know how you did it. I want to know exactly what you did."

Then, the judge said to Watson,

"Can you support that?"

And then Watson, who prepared the tax return, said,

"Yes. * * * Judge, I have taken your return to two IRS agents, both of whom I trust and have great confidence in their ability. Both of them have told me, * * * 'that your tax return was done correctly.' That reassured me. That reassured me."

Now that is the sum and substance of what Judge Claiborne had to say in answer to the critical charges made against him by the managers on the part of the House. All of the rest of the time he talked about how fair he had been, how hard he had worked, and how he wanted to retrieve his good name. But not once did he go to the gravamen, to the center, to the heart of the charges. Not once did he explain the bogus scheme by which the phony sale of assets had been created in a transaction that had never occurred.

I will not go further into that. I spoke on those things briefly yesterday, and I need not say anything further in that regard.

But let me say to my colleagues we are approaching the hour when we will vote. Not very long ago the Congress of the United States passed a far-reaching tax bill, and its purpose was to make the Tax Code fair. Its purpose was to wipe out the loopholes, to tear down the tax shelters, and to instill confidence in the tax system on the part of the American people.

Now we are about to cast a vote on whether Judge Claiborne should be removed from office. Are we to say that this man is not guilty of tax evasion because he was too busy? Every Senator here knows that every Senator is also busy, but every Senator is also expected to pay his taxes, and we cannot get by with saying we are too busy. Are we going to send a signal that there is to be a double standard—one for Federal judges, and another for other taxpayers?

What are we going to say to that widow out there who is working day and night to pay her bills, to buy clothes for her children, to put her kids through school? How are we going to answer her when she says "I pay my taxes. Why did you vote to let this judge be acquitted on the Articles of Impeachment brought against him for tax evasion?"

What am I going to say to that coal miner in West Virginia? Talk about somebody who works hard. Somebody who has to go into the bowels of the Earth, hear the mountains groaning over his head, hear the timbers cracking to the right and to the left of him, and who pays his taxes on the money that he earns in the sweat of his brow? How am I going to look him in the face and say, "Well, the judge was too busy. He just took his accountant's word. He is a busy man, you know. He has sometimes worked a little bit at lunchtime. Sometimes he has to go back and work a little in the evening."

That coal miner does not have money to invest in apartments or horses as Judge Claiborne did, in Mexico or anywhere else. How am I going to answer him? What are we going to do to the confidence of our people in our tax system if we vote to acquit this man? He has had his chance. I saw his demeanor. And if he were back here before the Senate another hour, another day, how would I still answer that coal miner or that poor widow or that black who is toiling in the factories of the country, in the fields of the West or South, and of the North.

I ask for 2 more minutes.

Mr. MATHIAS. I yield 2 more minutes.

Mr. BYRD. How would we answer those who are justly toiling, who believe that they have a duty to pay their taxes, and who want to live up to the laws of the land, and are doing their best to do it? How can we then say to them, "Well, we judge him by a different standard"? I cannot do it, Mr. President.

I have seen the judge. I have seen his demeanor. I saw him take 35 minutes here in the well of the Senate, and appeal to those watching and listening out there on TV and radio and those in here in this Chamber. What did he say? Nothing to explain his defense against the charges; only that he believed his accountant, and that he was busy, too busy.

Mr. President, each Senator must do his duty according to his own lights, each according to his own conscience, and each Senator wants to be fair. Each Senator wants to live up to his own oath to uphold the Constitution. I have said all I will. Judge Claiborne has had his day in court. He has run through the line of due process. And he has had his day before the U.S. Senate.

I will vote "guilty" on three of the four articles: I, II, and IV.

STATEMENT OF SENATOR STEVENS IN CLOSED SESSION

Mr. STEVENS. Mr. President, I ask unanimous consent that the statement I made in relation to the impeachment proceedings concerning Judge Claiborne appear similarly in the RECORD following those of my distinguished friend from West Virginia.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT OF SENATOR STEVENS DURING CLOSED SESSION

Mr. STEVENS. Mr. President, on Tuesday the Senate sat as a court of impeachment for the first time in a half century. As a former U.S. attorney with substantial experience as a prosecutor, I have serious misgivings about the circumstances under which the impeachment trial of Judge Harry E. Claiborne has been conducted.

The Constitution clearly indicates that the impeachment process is a unique congressional function and is not intended to serve as a substitute for our criminal law process. That fact adds great weight to the argument that the Senate is not bound by all the rules of American criminal law when it sits as we are now, as a court of impeachment. It does not, however, mean that an impeachment trial is a proceeding of less significance and dignity than a criminal trial.

No court of the United States can remove a Federal judge from office, no matter how heinous his or her crime. The Constitution reserves that extraordinary power to Congress. As we know, upon receiving a message that the House of Representatives has approved articles of impeachment against an individual, the Senate is charged by the Constitution with the task of examining the articles and passing judgment on them without regard to determinations that may, or may not, have been made by the judicial branch of the Federal Government.

If the Senate fails to try the charges made against Harry Claiborne by the House of Representatives as an independent legislative court, it will frustrate the intent of the Framers of the Constitution. I do not believe we should allow the impeachment process to deteriorate into a second-rate criminal appeals process.

To be absolutely frank, Mr. President, I do not believe that Members of this Senate have had enough time to weigh independently the evidence that has been presented in the Claiborne trial.

I make this statement because I know I have not had the time to do so. I have been asked to represent the Senate in conference with the House, and I have been present on the floor of the Senate for no more than 35 minutes out of this trial to date.

Those of us who are members of the Appropriations Committee have been presented with a choice between doing the task assigned to us as Members of the Senate in a conference with the House that will determine when this session of Congress will conclude or absenting ourselves there and coming here to listen to this trial. Many of us have pleaded for some way to have time to go through the evidence at least once.

I do not know about the rest of the Members of the Senate, but I was in conference late into the evening on Tuesday and Wednesday. After the conference I spent the rest of my waking hours going through appropriations materials to prepare for the conference on the defense appropriations bill the next day.

I am not criticizing anyone here in the Senate. The extreme pressures we all encounter during the last few weeks of any Congress are simply not conducive to being a part of the impeachment trial process. I take this process very seriously as a Member of the Senate and as someone who has spent a total of almost 40 years in the practice of law and the making of laws.

Since this is the will of the Senate to finish consideration of the charges pending against Judge Claiborne before we adjourn this month, I intend to take the circumstances under which the impeachment trial was conducted into account, as far as I am concerned in deciding how to vote on the articles of impeachment. In my opinion, the burden is on the House managers to demonstrate that these circumstances have not fatally flawed the Senate's consideration of the articles of impeachment. Let us not forget that the timing of the presentation of these articles was decided by the House, not the Senate.

There was no reason for the delay in the approval and presentation of the articles of impeachment, which has forced the Senate to conduct an impeachment trial in the last month of a 2-year Congress.

I hope no one misconstrues my comments. I commend the majority and minority leaders for their efforts to prepare us for the impeachment trial. I have gone through the booklet prepared under their supervision, and it is a very good booklet, an historic document, as a matter of fact, in terms of providing guidelines for the conduct of this trial.

I think the distinguished chairman and vice chairman of the impeachment trial committee have done an excellent job in preparing the record of this trial for our consideration. I sincerely regret that I have not been able to find time to read through even the first volume, let alone the volumes as a whole.

Mr. President, the problems I have identified are not the problems of any individual. They are the product of timing factors beyond the control of any Senator.

I am making this statement to indicate the total frustration of this Senator in attempting to deal with this trial process responsibly, and at the same time, deliver back to the Senate floor by midnight tomorrow, as I have been instructed to do, the defense appropriations bill, the largest of the 13 appropriations bills. Mr. President, it is impossible to do both jobs at the same time, and it is unfair to place such a burden on Senators and on the accused. Unless somebody corrects this unfairness, I shall vote "present" on every charge against Judge Claiborne because as a juror, I have not been able to participate fully in the trial process.

STATEMENT OF SENATOR MATSUNAGA IN CLOSED SESSION

Mr. BYRD. Mr. President, I ask this at Mr. MATSUNAGA'S request. I ask unanimous consent that his statement made during the closed session anent the impeachment of Judge Harry Claiborne appear in the RECORD of today.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT OF SENATOR MATSUNAGA DURING CLOSED SESSION ON THE IMPEACHMENT OF JUDGE CLAIBORNE

Mr. MATSUNAGA. Mr. President, I sat here listening to the arguments presented on both sides. I came here unprepared to vote either way. As one who served as a public prosecutor back home for 2½ years and subsequently who served as defense counsel in criminal cases, as well, I came here fully prepared to listen to the evidence, read whatever evidence was presented to the committee of 12, and to make up my mind only after all the evidence has been in.

This is my first experience serving as a juror. What disturbs me most, after listening to what has been said on this floor, is

that members of the panel have indicated that they are prepared to find the respondent guilty on article III simply because the respondent was found guilty in a court of law. Now, that violates our basic tenet, our basic concept of three separate and independent branches of Government.

We must serve as a check on the other two branches of Government. That is what the three independent branches of Government were set up for, as checks and balances. And we will have destroyed that by ruling or by deciding on article III. We should completely disregard article III and proceed, if we must, on articles I, II, and IV. And I urge my colleagues not to take article III into consideration at all.

Now, we have this difficulty also: Supposing the respondent's petition for trial de novo is granted and suppose, also, that he is then found not guilty. Had we proceeded to impeach him on article III, where are we then?

So I urge my colleagues, do not proceed on the basis of article III. If you need to go, go on articles I, II, and IV, and that is what I intend to do. I am prepared to proceed on articles I, II, and IV, although I am not prepared yet at this time to determine, to declare, whether I find him guilty or not guilty. I will wait until all the arguments have been made and I have listened to the arguments and I have satisfied myself that without a doubt I am making the right decision.

STATEMENT OF SENATOR MITCHELL ON IMPEACHMENT

Mr. MITCHELL. Mr. President, it is my understanding that by unanimous consent permission has been granted to Members of the Senate to have printed in the RECORD statements made during the closed debate on the impeachment of Judge Claiborne.

The PRESIDING OFFICER. The Senator is correct.

Mr. MITCHELL. Mr. President, pursuant to that understanding, I ask unanimous consent that the full text of the statement that I made during debate on the Articles of Impeachment on yesterday Thursday, October 9, be printed in the RECORD.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT OF SENATOR MITCHELL ON IMPEACHMENT

Mr. MITCHELL. Mr. President, I think it is important that as we vote on the Articles of Impeachment that we first have clearly in mind what impeachment is and what it is not. Simply put, all that conviction on impeachment means is removal from Federal office. It does not take the place of a judicial proceeding, nor does it preclude a judicial proceeding. Impeachment is a political action in the sense that it is the only means by which certain high Federal officials may be removed from office.

It is essentially a discipline. The impeachment authority is limited. It has great moral force which it gains from its rarity, not from it severity.

So all we are talking about is whether or not Judge Claiborne will be removed from his office as a Federal judge. We have no power other than that.

The question then is whether or not the Articles of Impeachment presented by the House constitute an adequate ground on which to remove Judge Claiborne from office.

The record in this case, which includes the testimony of witnesses called by Judge Claiborne in a lengthy proceeding before the special committee, is available to every Member of the Senate, both in printed form and on video. An examination of that record reveals to me that Judge Claiborne has presented no substantial evidence to cast doubt upon the case against him.

The facts have been so extensively discussed here during this debate that I will not repeat them in detail. I will focus instead just on the one year of 1980 when Judge Claiborne received his judicial salary of $54,000, plus fee income of over $87,000, plus a taxable gain on the sale of his home in excess of $214,000. He was told, and he has admitted that he was told, that he faced a tax liability of over $97,000 for that year. He signed and filed an application to extend the time for filing his tax return in which he estimated that his tax liability would be almost $44,000. Yet, a few weeks later he signed a tax return and paid a tax of $1,103.

Members of the Senate, every American jury hearing a criminal case is instructed by the trial judge not to leave their common sense outside the courtroom when they enter it. And I urge the Members of the Senate not to leave their common sense outside this Senate Chamber when they consider this case.

Here was a man, a lawyer, a skilled trial lawyer, a skilled tax trial lawyer, a Federal judge who had presided over tax trials, who had instructed juries on what the tax laws mean, having income well in excess of $300,000, having been told that his tax liability would be about $97,000, having filed an application for an extension of time in which he said he expected his tax liability to be $44,000, and then he filed a tax return and paid a tax of $1,103. Leave aside every other aspect of your judgment other than common sense, and ask yourselves whether or not that does not constitute willful violation of the tax laws of this country.

There has been a lot of talk here about wilfullness as though somehow the Members of the Senate expect some evidence to come forth from the judge himself establishing his willfulness.

But I say to you that willfulness is an element in virtually every criminal trial. It is proven by circumstantial evidence. It is inferred from other facts.

I think what we have had here is a clear case and nothing in the record justifies our reversing the conclusion of the juries which tried and convicted Judge Claiborne. He has not rebutted the charges against him, even though he had ample opportunities to do so.

In their presentation in this Senate Chamber, the House managers were explicit in setting forth the charges against Judge Claiborne. He spoke after them. He could have responded to their charges. He chose not to do so.

The issue here is not whether there is hostility toward Judge Claiborne in the Justice Department or the strike force. I favor an investigation by an appropriate committee. But that is not the issue. What is at issue is whether or not Judge Claiborne violated the criminal laws of this country when he signed and filed his tax returns in 1979 and 1980. To me, the answer is as clear as it is regrettable.

I am convinced that Judge Harry Claiborne knowingly and willfully committed the crimes for which he was convicted.

Let me say, those are the most difficult words I have had to speak since entering the Senate. The proudest moment of my life was when I was sworn in as a Federal Judge. It is an honor that is difficult to put into words. But with that honor comes a commensurate responsibility. Those persons who are invested with the awesome power to pass judgments on their fellow citizens must themselves adhere to the highest standards. Otherwise, public respect and support for our judicial system will collapse.

I was and I am proud of my association with Federal judges.

I never met Judge Clairborne, but I want to say that I began these proceedings with a considerable amount of sympathy for him. But that sympathy has given way to the facts, and to me the facts are clear.

We have heard the argument that he was entitled to an audit. There is no such right. That is not the issue.

The issue is whether the proper payment of taxes due under the laws of this country is an obligation of all citizens, including Federal judges, and whether the failure to fulfill that obligation constitutes a sufficient basis to remove a judge from office.

Many people have said taxes are the price we pay for civilization. I say Government financed by taxes is the price we pay for civilization. Without government, society could not function. Without Government, every individual, every family, would exist in a state that would be at best chaotic and most brutal. Many of the functions of Government are questionable. Most are controversial. We spend much time in this Senate debating what our Government should or should not do. But the most fundamental function of Government, the one on which there is no disagreement, is that Government must administer justice in our society.

Our courts are the means by which justice is administered in this country, and the individuals presiding have an obligation to fulfill that function which is the most minimally essential to an ordered life, the upholding of the law. In American life, law owes its authority almost entirely to its intergrity. If that integrity is gone, so is the law.

A convicted felon simply cannot sit as a Federal judge. I repeat that, a convicted felon cannot be permitted to sit as a Federal judge. It would totally undermine respect for law and authority in our country.

We simply have to recognize that and do what we must do. It is a very, very difficult vote. It is a very difficult thing for me, a former Federal judge, to say these words about another Federal judge. But when we entered the Senate, we swore an oath to do our duty, and hard as it may be, unpleasant as it may be, that is our duty.

I urge the Members of the Senate to vote for conviction of impeachment. The record is clear. I believe the judge is guilty of the crimes for which he has been convicted, and for the respect that our Nation must maintain for the judicial branch of Government he must be removed from office by this Senate. I thank the Chair.

Mr. BYRD. Mr. President, I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1700

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, if any Senator wishes the floor, I will be happy to yield the floor at any time for any Senator or for transaction of business.

EVERETT DIRKSEN'S SENATE

Mr. BYRD. Mr. President, I have over the course of the last 6½ years been making a series of statements on the subject of the United States Senate. Today, I speak on the subject of Everett Dirksen's Senate.

Mr. President, the poet Carl Sandburg once described the Rotunda of the United States Capitol as being located "midway between the House and Senate chambers, midway between those seats and aisles of heartbreak and passion." Beginning with the visit of the Marquis de Lafayette in 1824, the Rotunda has served as a place in which we as a nation pay tribute to our heroes. Senator Henry Clay, in 1852, became the first person to lie in state there. He was followed in 1865 by Abraham Lincoln. Since Lincoln's time, eight presidents, from James Garfield to Lyndon Johnson, have lain in state on that hallowed site. Among the men and women whose highest public office has been the Senate of the United States, only six of more than 1,768 have been so honored. In addition to Henry Clay, they include Charles Sumner, John Logan, Robert Taft, Hubert Humphrey, and the senator who is the subject of my remarks today—Everett McKinley Dirksen.

In my previous addresses on the history of the Senate, I have given special attention to those senators who have, in their own way and in their own eras, virtually personified this institution in the eyes of the American public. For the twentieth century those individuals have included party leaders such as Joe Robinson, Alben Barkley, Lyndon Johnson, and Mike Mansfield—on the Democratic side of the aisle. On the Republican side, I have discussed Nelson Aldrich, Henry Cabot Lodge, Sr., Charles Curtis, Arthur Vandenberg, and Robert A. Taft, Sr., among others.

Everett Dirksen, like Robert Taft before him, was widely referred to as "Mr. Republican." Each, in his time, could also have been called "Mr. Senate." During his eleven years as his party's Senate Leader, from 1959 to 1969, Dirksen became more closely identified in the public mind with the Senate than any other member of the era. It is safe to say that today he is among the most remembered former senators of this century.

He was a creative political craftsman. He possessed a razor-sharp mind and a masterful sense of timing. He adopted a sometimes-clowning but always-theatrical style, partly to mask his intentions and partly for the pure fun of it. Such was the case in his perennial campaign to make the marigold the national flower. He gave expression to his wide knowledge of the world's great literature including the Bible and Shakespeare with a voice that he played like a cathedral organ. As to the organ metaphor, one reporter observed, "He could draw out the stops and declaim like a thundering prophet. And in the next breath his voice could drop to the softest whisper and he would let his audience hang on his every word." [1] Dirksen's mellifluous oratory moved his admirers to label him "the Golden Voice of the Senate." His detractors less charitably offered "Old Honey Tonsils", "the Wizard of Ooze", "Oleaginous Ev", and "Irksome Dirksen."

Everett McKinley Dirksen was born on January 4, 1896, in the small farming town of Pekin, Illinois. His parents came to the United States from northern Germany in the 1870's. His father, a modestly prosperous painter and decorator, was a staunch member of the Republican party. In 1894, he named his eldest son after the then most recent former Republican president, Benjamin Harrison. When twin sons arrived two years later, he gave to one the name of Republican House Speaker Thomas B. Reed. The other, Everett, took a middle name in honor of Republican presidential candidate William McKinley. Sadly, the elder Dirksen suffered a paralyzing stroke when Everett was only five and died fours years later.

Under these trying circumstances, Everett and his brothers had to work doubly hard to help the family survive. His mother cultivated within him a deep religious faith. The voice training he received in his church choir built the oratorical power that served him so well in later years. He became an avid reader and a resourceful debater. While a high school senior he met Secretary of State William Jennings Bryan. The three-time Democratic presidential candidate, whose electrifying 1896 "Cross of Gold" speech had made him the nation's best-known orator, counseled Dirksen, "Always speak to the back rows, my boy, and the rest will be sure to hear you." In the years ahead Dirksen would work hard to develop a booming outdoor voice. He learned to size up an audience quickly and to use humor and appropriate anecdotes to great effect.[2]

Upon graduation from high school, Dirksen worked for a year at a local corn refining company and then entered the University of Minnesota, supporting himself with a variety of part-time jobs. The 1916 presidential campaign of Charles Evans Hughes nourished Dirksen's love of politics and drew him into the public arena as a campaign organizer and speech maker. In April 1917, when the United States entered World War I, Dirksen set aside the college life and enlisted in the Army. Early in 1918, he was shipped to France where he earned a commission as an artillery officer. Assigned to a company of spotter balloons, the young lieutenant survived enemy gunfire directed at his balloon perch more than a half-mile above the ground.

At war's end, Dirksen traveled throughout Europe and then returned to Pekin. Abandoning his college studies, he eventually joined his brothers in running a wholesale bakery. The long hours failed to sap Dirksen's limitless energy. During those years he directed his creativity toward writing and the theater. He wrote five novels as well as dozens of short stories and plays. His writing experience proved useful. As journalist Neil MacNeil has observed in his excellent biography, Dirksen was "learning how to handle language, how to create effects with words, how to manipulate the audience."[3]

In 1926, at the age of thirty, Dirksen entered elective politics, winning a seat on the Pekin Town Commission. As an active and visible member of the American Legion, he became a popular public speaker. By 1930, Dirksen felt he was ready to achieve his greatest political goal, a seat in the U.S. House of Representatives. Later he observed, "The ambition to sit in Congress is probably similar to the 'flu'—everybody gets it at some time or another. While it had been lurking in my system like some deadly virus, it did not become virulent until 1930." [4] Although he lost that year's Republican primary to a well-funded and entrenched incumbent, he defeated the same opponent two years later.

As Dirksen prepared for the 1932 general election, he realized that he would need considerable Democratic support. "How", he thought, "could one successfully apologize for Republican leadership when the nation was bleeding from the wounds of the Depression? Shrewdly, Dirksen avoided a partisan approach and carefully identifed himself with the legacy of Democratic President Woodrow Wilson. When President Hoover made a campaign appearance in nearby Peoria, Dirksen realized that if he praised the unpopular chief executive, his own election chances would be doomed. Appearing on the same platform, Dirksen in his address ignored the president and focused instead on George Washington, whose bicentennial the nation was then celebrating. In November, both Republican Everett Dirksen and

Democrat Franklin Roosevelt carried his district with comparable huge majorities.

When Dirksen began his House service in March 1933, Depression-weary voters had reduced his party in that chamber to a hopeless minority. Democrats outnumbered Republicans by a margin of 310 to 117. Over the next four years Republican ranks would suffer an even greater erosion as their numbers dropped to 103 in 1935 and 89 in 1937. With his customary wit, Dirksen observed, "Any member of the minority who essays to speak on any administration measure must feel a great deal like the fellow who was in jail and who, as he saw a buddy going along, called and said, 'Hey, partner, what time is it?' He said, 'What do you care? You are not going anywhere!' So", Dirksen concluded, "we of the minority know we are not going anywhere." [5] Nonetheless, Dirksen intended to be an active and constructive member. He boldly requested committee assignments on the powerful Appropriations, Ways and Means, and Commerce panels. Party leaders rebuked this upstart with assignments to the committees on Territories, Immigration, and the District of Columbia! Only in 1937, with fewer members to fill Republican committee slots, did Dirksen finally land a choice assignment on the Appropriations Committee.

Dirksen soon associated himself with the moderate political views and the pragmatic style of Massachusetts' Joseph Martin, an assistant minority leader. Martin counseled his protege to "Perfect yourself in committee work, and in due course you'll start up the ladder. Study the rules. Those who know the rules know how to operate in the House, because you operate under the rules." [6] Dirksen took this advice seriously. He spent countless hours reading the House rule book and the multi-volume edition of Asher Hinds' *Precedents of the House of Representatives.* With the same diligence, Dirksen took an intensive course in preparation for the bar examination, which he passed in 1936. Although he had no intention of practicing law, he welcomed the prestige among his House peers that membership in the bar offered.

During his early years in the House Dirksen displayed an independence that irritated old guard party leaders. He supported some domestic New Deal programs such as the Agricultural Adjustment Act and the Social Security Act, while opposing the Tennessee Valley Authority and the Securities and Exchange Act. In foreign policy, he executed a dramatic and courageous shift in September 1941. Just months before the attack on Pearl Harbor, Dirksen reversed his isolationist opposition to the draft and aid to Great Britain in favor of a strong internationalism. He remained a vigorous and effective exponent of these views, unpopular with many midwestern Republicans, until he left the House seven years later.

In 1943, *Fortune* magazine selected Everett Dirksen as the subject for a major article entitled "Congressman: A Case History—A Report on How Congress Works and How It Might be Made to Work Better." Late in 1942, Dirksen had launched an attack on Congress' increasing inability to operate on a level of equality with the Roosevelt White House. Lacking sufficient funding and staff resources, Congress was becoming a decidedly secondary institution within the Federal Government. *Fortune*'s reporter saw in the Illinois Representative an example of a "quick-learning, quick-thinking, quick-acting" member who "has found that he can get through his work only by taking almost no time out from it except for sleep." [7] Dirksen contributed greatly to the success of the resulting landmark congressional reform measure, of which I have spoken on numerous occasions, the 1946 Legislative Reorganization Act.

By the end of World War II, Dirksen had risen to a prominent position within the national Republican party. In 1944, he conducted a brief campaign for the presidency, in the hope of securing a vice presidential bid. An August 1946 poll of House members by *Pageant* magazine rated Dirksen as that body's most effective speaker and its second "ablest member." [8] When the Republicans took control of the House in 1947 for the first time in sixteen years, Dirksen became chairman of the District of Columbia Committee and the Appropriations Subcommittee on Agriculture.

Just as Everett Dirksen seemed to be reaching the highest rungs of the political ladder, illness struck. Late in 1947, he experienced a clouding in the vision of his right eye. Doctors advised him that he was suffering a degeneration of the retina, possibly caused by cancer. They recommended removal, but after "weeping and praying" he decided against it. The eye required extensive rest, so in January 1948 the Illinois representative announced his intention to retire at year's end.

As a Member of this body, I can remember Everett Dirksen speaking of that eye which he had been told by the doctors was going blind. I can remember how he spoke of his concerns and worries, his prayers.

Fortunately for Dirksen, his vision returned to normal within several months. Restored and restless, he decided to achieve a new goal—a seat in the United States Senate. Over the next twenty-one months he traveled a quarter of a million miles and delivered two thousand speeches in a vigorous campaign against Senate Majority Leader Scott Lucas. Although Lucas had the benefit of his senior status within the Democratic Party, his duties as majority leader kept him in Washington while Dirksen visited virtually every crossroads hamlet in Illinois. Lucas' Democratic Senate colleague Estes Kefauver only made things worse when he decided that his investigating committee should look into an emerging political scandal involving associates of the Illinois senator. When a Chicago newspaper obtained and published secret committee testimony, days before the election, Lucas' already shaky reelection chances were doomed. Everett Dirksen swept to victory and won immediate national prominence as the man who defeated the Senate's majority leader. [9]

The Senate that Everett Dirksen joined in January 1951 was ideally suited to his newly found conservative political views. In 1949, he had experienced a change of heart and a disaffection from the Republican Party's internationalist wing. No longer a supporter of such ventures as the Marshall Plan, he moved comfortably into the orbit of Senate party chieftian Robert Taft. In an unusual gesture of confidence toward a freshman senator, Taft appointed Dirksen chairman of the Republican Senatorial Campaign Committee.

Then during the summer of Dirksen's first year in the Senate, his daughter Joy, his beloved only child, arrived at the family's summer cottage with a young lawyer whom she had been dating. That lawyer, Howard Baker, Jr., asked the senator to take a walk with him along the beach. As Neil MacNeil tells the story, Baker explained that he and Joy wished to get married. "I didn't ask him," Baker said. "I told him!" Baker later told MacNeil, "He was the most formidable character I'd ever met. He was pretty deeply moved. I'm sure he knew. He listened. He listened, and I ran out of things to say." [10] It is just like Howard Baker to say that. Happily, that marriage took place. Joy Dirksen Baker, in addition to her own accomplishments, would one day secure a unique distinction in the annals of Senate history as the daughter and the wife of Republican floor leaders.

Dirksen worked hard for Robert Taft's nomination during the 1952 presidential campaign. His party's eastern internationalist bloc, whose members advocated Dwight Eisenhower's election, bitterly opposed the Taft forces. At the Republican convention Dirksen delivered the most dramatic and well publicized speech of his entire life, in a last ditch effort to secure the nomination for Taft. Before a national televison audience, Dirksen berated the liberal wing of his party for its habit of winning conventions and losing elections. He reminded his

listeners that he had compaigned vigorously for the internationalist Thomas Dewey in 1944 and 1948. He then glowered down from the podium at Dewey. In a moment of high drama, he shook his finger at the former party standard bearer. "We followed you before," Dirksen cried out, "and you took us down the path to defeat!"

I can just see him, with his unruly hair and speaking with all the force within that great body and with that voice. I have never heard a voice before or since like Dirksen's. In my 34 years in the House and Senate of the United States, plus 6 years in both Houses of the West Virginia Legislature, the two Members whom I most lovingly recall as being the most captivating speakers were Martin Dies of Texas and Everett Dirksen of Illinois.

The convention exploded in anger and turmoil. But Eisenhower delegates gained control and carried the nomination, thus crushing Dirksen's hopes for a vice presidential place on the Taft ticket.[11]

For the remainder of the 1952 campaign, Dirksen worked hard for the election of Republican candidates to the Senate. His effort and Eisenhower's coattails paid off in November. Republicans regained control of the Senate by a slim 48-47 margin, with Oregon's Wayne Morse, a newly declared Independent, voting with the Republicans on organizational matters. Although the Democrats resumed control two years later, the Senate during the 1950's prior to 1959 operated with nearly even party ratios. I have already described those years in previous addresses in this series. I shall not repeat the familiar story here, except to note that Dirksen underwent a shift of political orientation in 1955 reminiscent of his 1950 shift away from his party's international wing. The years 1953-1954 marked a decidedly unhappy chapter in Dirksen's public career. His support of Joseph McCarthy and of the Bricker Amendment to limit the President's treaty powers deepened his estrangement from the Eisenhower White House.

In 1955, Dirksen began to mend fences with the Eisenhower administration. The following year he led a campaign to enact the administration's civil rights bill. Throughout 1956, Dirksen supported the president, frequently at the risk of his standing with his party's conservative Senate hierarchy. Eisenhower repaid this kindness by actively supporting Dirksen's reelection bid. On election day, the president carried Illinois by a landslide and contributed significantly to Dirksen's own victory.

At the start of the Senate's 1957 session, the departure of key Republican conservatives opened several party leadership posts. Republican Leader William Knowland had made up his mind to leave the Senate in 1958 to run for governor of California. He and Policy Committee chairman Styles Bridges feared that Republican Whip Leverett Saltonstall, a prominent member of the party's liberal-internationalist bloc, would advance to the floor leader's position in 1959. Consequently, they convinced Saltonstall, who was unaware of Knowland's plans, to give up the whip's post to become chairman of the Republican Conference. This opened that position for Dirksen, who enjoyed the trust of his conservative and moderate Republican colleagues.

The election of 1958, as I have previously described, brought to the Senate new faces—my own, being one—and new methods of operation. In 1959, as Democrats outnumbered Republicans by a margin of nearly two to one, Everett Dirksen was elected minority leader. In the previous Congress, he had served as acting floor leader during Knowland's frequent absences. In so doing, he developed a particularly close relation with Eisenhower, who was happy to be freed of the inept and cumbersome Knowland.

William Knowland, as Republican Leader, had alienated, rather than drawn together, his party's antagonistic factions. With Dirksen likely to move up to that post, party liberals in 1958 had proposed a modification in the system of committee assignments. That system had worked well for the Democrats since 1953 when Democratic Leader Lyndon Johnson devised it to allow junior members their choice of one major committee assignment before senior senators could make their second selection. Republican Senators Jacob Javits and George Aiken convinced Dirksen that such a system would help restore cohesion for their party as well. The catastrophic election results for the Republicans in November 1958 allowed Dirksen to implement this plan with relative ease. Having lost thirteen seats, the Senate's Republican contingent included only thirty-four members at the start of the 1959 session. With these greatly reduced numbers, it would be less difficult to find attractive assignments.

As the session began, Dirksen faced a threatened split between his party's reduced conservative ranks and its increasingly emboldened moderate-liberal wing. With party elder Styles Bridges, he agreed to support California's Thomas Kuchel, of the liberal faction, for the post of minority whip. Along with President Eisenhower's obvious support for Dirksen, this allowed him to turn back a challenge by Kentucky's John Sherman Cooper. He further strengthened his hold on the allegiance of junior Senator Republicans by yielding his own cherished seat on the Appropriations Committee to open a place for Colorado Republican Gordon Allott. Two years later, he gave up another of his prized assignments to allow Texas' John Tower a seat on the Labor and Public Welfare Committee.

By the time Everett Dirksen settled into his duties as Republican Leader, he had undergone a political and personal reorientation. He abandoned his aspirations for the presidency and channeled his ambition along a new course within the Senate. Instead of seeing the Senate as a path to higher office, he had come to view the Senate as an end in itself. Neil MacNeil has aptly characterized the transformation.

> This is a mystic phenomenon that in time shapes the understanding of some senators, but not of all senators, by any means. Those who are struck by the mystique of the Senate come to believe that service in the Senate is an ennobling experience and that service to the Senate is a calling worthy of selfless devotion. Those who sense the Senate in this wise traditionally have been men who have found in the Senate the summit of their own political careers, and Dirksen was now becoming one of them. He was beginning to find meaning in the office of senator that he had not found before, and to take his place with such Senate stalwarts as Richard Russell of Georgia and John Stennis of Mississippi. They believed in the Senate with a reverence that approached religious intensity.[12]

Dirksen adopted an activist leadership style. An artful persuader, he worked tirelessly to unite his party and to boost its morale in the face of the two-to-one Democratic majority. New Hampshire Republican Norris Cotton considered Dirksen a "gifted" political leader. He believed that the Illinois senator "was endowed by nature with more talents than almost any man I have ever known."[13] Dirksen hosted luncheons for party members on Mondays following the weekly Republican leaders' meeting at the White House. He arranged cocktail parties and formal dinners for Republican senators and their spouses. Unlike his predecessors, Dirksen went out of his way to cultivate the press, supplying reporters with reliable background information. He also instituted weekly news conferences following the Monday luncheons. The *New York Times* suspended its earlier disdain for Dirksen, noting that "It began to occur to everyone * * * that he was probably the most effective leader the Republicans had had in the Senate for years."

Everett Dirksen and Lyndon Johnson, as their parties' leaders during the 1959-1960 sessions, became warm personal friends. They trusted each other completely. Each man realized that the other had a necessary political role to play. But both went out of their way to keep channels of communication open. After the Senate completed its work for the day, one leader would customarily head for the other's

private capitol office for drinks and relaxed conversation. At the end of the 1959 session, Johnson wrote to his Republican counterpart, "Of the leaders with whom I have served, there have been none who can wield the partisan stiletto with quite the gusto and zest that you do. But even though the stiletto cuts deep, it never stings."[14]

Dirksen explained this relationship as follows. "The Senate is a public institution; it must work; it's a two-way street; and that requires the efforts of both parties. One party can not do it on its own because if the opposition, or minority party, wanted to be completely obstructionist, you could tie up the Senate in a minute, even with a handful of people. So we fully understood each other, that's how it had to be." [15]

The election of 1960 greatly reshaped Dirksen's Senate role. For his first two years as floor leader, he had acted as Eisenhower's faithful lieutenant. Now, with the White House in John Kennedy's Democratic hands, the Illinois senator took on to a more assertive and independent position. With House Republican leader Charles Halleck, Dirksen became his party's principal Washington spokesman. In international affairs, he supported the Kennedy administration. This was particularly evident during the 1961 Bay of Pigs fiasco and the Cuban missile crisis that followed a year later. On domestic policy matters, however, Dirksen worked to block or reshape much of the new president's ambitious "New Frontier" program. He observed that the 1962 "State of the Union" address looked "like a Sears Roebuck catalog with all the old prices marked up." [16]

By 1962, his weekly press conferences with Representative Halleck—the "Ev and Charlie Show"—had made Dirksen a national celebrity. Increasingly the public associated his stylized oratory with the very institution that served as his platform. *Time* magazine captured the Dirksen manner:

> He speaks and the words emerge in a soft, sepulchral baritone. They undulate in measured phrases, expire in breathless wisps. He fills his lungs and blows word rings like smoke. The sentences curl upward. They chase each other around the room in dreamy images of Steamboat Gothic. Now he conjures moods of mirth, now of sorrow. He rolls his bright blue eyes heavenward. In funereal tones, he paraphrases the Bible and church bells peal. "Motherhood," he whispers, and grown men weep. "The Flag!" he bugles, and everybody salutes.[17]

Some close observers of the Senate in the mid-1960's contend that Dirksen was its single most powerful member. I believe that, Mr. President. I served in the Senate at that time and I think that I would join my voice with those who say and who said that he was the single most powerful Member. That debate remains to be settled, but the reasons advanced by its proponents are worth examining. They argue that traditional power alignments were disrupted by the low-key, non-directive style of Mike Mansfield. They point to the rise of a new liberal-moderate coalition from northern and midwestern states that undercut the power base of the previously dominant conservative coalition from the South and West. The death of Oklahoma's Robert Kerr, the man Paul Douglas of Illinois derisively called the "Uncrowned King of the Senate," removed a strong, and some say ruthless, contender for power within this body.

In his 1962 campaign, Dirksen recognized that the White House and the Senate's Democratic leadership quietly hoped he would be reelected. As Senator Paul Douglas later observed, the Democrats "apparently wanted to appease, rather than oppose." Earlier that year, Douglas had tried to find a credible Democratic candidate to challenge the seemingly invincible Republican leader.

Among those to whom he turned was a young State legislator named Paul Simon, who now sits over to my left in this Chamber, whom he, Dirksen, considered "brilliant and honorable."

Simon wisely decided to wait and Dirksen defeated Representative Sidney Yates.[18]

Into that relative power vacuum moved Everett Dirksen with his appreciation for the Senate's tradition of unlimited debate. During Dirksen's years as floor leader, until 1969, there were never more than thirty-six Republicans in the Senate. Not surprisingly, he resisted efforts to reduce the number of votes required to cut off debate. He declared, "If I read my history correctly, past and present, whenever the freedom of a parliamentary body is impaired, we go down the road to tyranny. Show me any place in the world where a parliamentary body and its freedoms are impaired, and I will show you an instance of freedom in retreat." [19]

Mr. President, one of Everett Dirksen's greatest assets as a statesman was his ability to change his position on major issues. He did not compromise his convictions but he could change his position on the issues as the shifting sands of facts change. Some critics dismissed this characteristic as a sign of political opportunism, calling him "Mr. Flip Flop" and "the Grand Old Chameleon." Those of us who viewed the man at closer range, during his Senate years, recognized the more positive qualities of courage and political sagacity. In my earlier addresses on the Senate of the 1960's, I have discussed the two issues in which Dirksen's shift from opposition to support accomplished the passage of major legislation.

I shall only mention here the 1963 Limited Nuclear Test Ban Treaty and the 1964 Civil Rights Act. For his support of the test ban treaty, he extracted a promise from President Kennedy that the government would not slacken its weapons development program after the treaty was approved. For the civil rights legislation, he masterfully maneuvered to provide the votes necessary to end a civil rights filibuster for the first time in the Senate's history. Before that vote, he told a hushed chamber, "The time has come for equality in sharing in government and education, and in employment. It will not be stayed or denied. It is here." When the Senate approved the cloture motion on June 10, 1964, Dirksen stood at the pinnacle of his political power in the Senate.

For the remainder of his time in the Senate, Dirksen continued as an effective and responsible leader of his party's minority. On one hand, he actively supported Lyndon Johnson's conduct of the war in Vietnam. He saw that struggle as a clear-cut matter of defending the right of self determination for the South Vietnamese. Ultimately, his determined support of the President cost him a large measure of influence over Senate Republicans. On the domestic front, Dirksen pressed with equal vigor for constitutional amendments to overturn Supreme Court rulings on prayer in public schools and upholding equal representation within State legislatures. He also took on a spirited defense, against heavy labor lobbying, of the Taft-Hartley Act's Section 14(b), which banned union shops.

By 1967, time and health problems began to catch up with Everett Dirksen. In the late 1950's he had suffered a heart attack without knowing it. An enlarged and weakened heart caused him great physical distress over the final decade of his life. A fairly large man with seemingly unlimited energy, Dirksen drove himself at an ever-increasing pace. His legislative prowess and his inimitable style kept him constantly within the spotlight of national attention. He received hundreds of speaking invitations each month. His record album, *Gallant Men*, intensified his public appeal. In 1968, he starred as the grand marshal in the Tournament of Roses parade. In a desperate effort to regain a measure of privacy, he ordered the sign bearing his name removed from the door of his Capitol office, hoping thus to discourage swarms of tourists who regularly wandered in.

For a time the Senate Republican Leader frequently checked in and out of Walter Reed Army Hospital, suffering from acute exhaustion as well as emphysema and stomach disorders. In 1967, he said, "I've been trying for four years to get a vacation. If I don't get one pretty soon, something is going to happen to me." [20] Shortly

afterwards, he was admitted to the hospital with infectious pneumonia so severe that it nearly killed him. At that point he relied increasingly on trusted aides such as John and Glee Gomien and Oliver Dompierre to lighten his heavy burdens.

On August 19, 1969, the 73-year-old senator once again checked in Walter Reed Hospital. There doctors discovered an enlargement of a previously identified tumor on his right lung. Bravely, Dirksen underwent surgery, realizing his chances for survival were, at best, limited. While recovering, on September 7, 1969, he suffered a fatal heart attack.

Speaking at the memorial service at the Capitol Rotunda two days later, Senator Howard Baker aptly compared Dirksen to Abraham Lincoln. He said, "Both men understood with singular clarity that a great and diverse people do not speak with a single voice and that adherence to rigid ideology leaves little room for compromise and response to change." [21] Shortly afterwards, I expressed to the Senate my own feeling that Dirksen's loss was as if a "pillar had been torn away, a pillar that furnished /the Senate/ with central strength and stability, fashioned with grace and elegance and skill." [22]

□ 1800

Mr. President, the jury of historical opinion still deliberates the rightful place of Everett Dirksen. As with other powerful public figures, the Illinois senator has had his ardent defenders and his bitter critics. His congressional service—sixteen years in the House and nineteen in the Senate—spanned an era justly called "the most creative legislative period in the history of the United States." [23] He spent all but four years of that time in the minority party. Although thus cast in the opposition, Dirksen took what Neil MacNeil describes as a "creative and activist's role" in the legislative process. Another perceptive journalist concluded, "Combining Taft's legislative craftsmanship and Johnson's ability to amass Senate votes, Dirksen was the complete senator of the postwar era." [24]

Today, we are surrounded by Dirksen's memorials. In 1972, we named what was then called the "New Senate Office Building" the "Everett McKinley Dirksen Senate Office Building." Three years later, the Everett McKinley Dirksen Congressional Leadership Research Center opened in Pekin, Illinois. This center is intended "to serve as an educational institution for the art and science of American politics and American government /and/ in particular /for/ the role of United States Congressional Leadership." [25] In 1978, Congress appropriated $2.5 million to support the center's programs. These programs include stipends for scholarly research, conferences on congressional leadership, exhibitions, and an annual award for the distinguished reporting of Congress. The winners of the Dirksen Awards, since its inception in 1981, have been Neil MacNeil of *Time* magazine, David Rogers, then of the *Boston Globe*, Martin Tolchin of the *New York Times*, Allen Ehrenhalt of *Congressional Quarterly*, Helen Dewar of the *Washington Post*, and Steven Roberts of the *New York Times*.

Mr. President, as we seek to draw meaning from Everett Dirksen's example as a Senator, a congressional leader, and an American, we would do well to remember a statement that he might have intended as his guiding philosophy. He said, "Life is a matter of development or decay. You can either grow or you can retrogress. There's no standing still. You go backward or forward. The challenge will make you grow, if you are willing to assert a *leadership* and look on the challenge as something to be met and disposed of." [26]

Mr. President, as I remember Everett Dirksen, I remember him as a gentleman, one who was the most erudite and learned, an extremely gifted man, a man who more than any other I have ever seen in this Chamber had the facility for expressing every move and for captivating not only the attention but the heart of every listener. He spoke with feeling, as I have already indicated, with a voice that I never heard before, and that mood could flow from the most passionate, the most stentorian, to the most slightest wisp of a whisper.

I will also remember Everett Dirksen as a man who was not too big to know you, as one who could take a moment out of his busy life and laugh with you, always with a gentle smile, with a sparkle in his eye. And he will always be my favorite Republican Senator.

Mr. President, I ask unaimous consent to insert in the RECORD notes to Everett Dirksen's Senate.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[26] Dirksen Center promotional pamphlet in files of the Senate Historical Office.

Mr. BYRD. Mr. President, sometime ago, on September 8, 1986, I delivered an address on "Mike Mansfield's Senate: The Great Society Years," as part of my continuing series on the history of the U.S. Senate. My good friend, Senator TED KENNEDY, has provided me with some additional information on the enactment of the 26th amendment, which gave the right to vote to 18-year-olds. This material elaborates on the contributions of other Senators to the amendment, and on the effect of the Supreme Court's decisions on the legislative strategies involved. I certainly appreciate Senator KENNEDY's attention to this matter, and I would like to incorporate his suggestions into the final version of my history, which will be published in commemoration of the Senate's bicentennial.

Mr. President, I ask unanimous consent to include this information in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

For his own part, Senator Mansfield willingly conceded the spotlight and shared the credit for these accomplishments with his colleagues. When asked by the press about his proudest accomplishments, the bill that he delighted in citing was not one of the monumental Great Society laws, but the Twenty-Sixth Amendment to the Constitution, ratified in 1971, which gave eighteen-year-olds the right to vote. Senator Jennings Randolph had been advocating such an amendment since 1942, and is entitled to much credit in the successful outcome, but the idea only began to gain popularity during the Vietnam War, when so many teenage young men were inducted into the armed forces. If one was old enough to die for his country, the reasoning went, he was old enough to vote.

In 1970, Senator Edward Kennedy proposed reducing the voting age to eighteen as an amendment to the Voting Rights Act. Kennedy reasoned that the Supreme Court's decision in *Katzenbach* v. *Morgan* in 1966 would support taking this action by statute rather than by Constitutional amendment. The idea appealed to Senator Warren Magnuson, who took it up with the majority leader. "You know, Mike, Teddy's got a pretty good idea there," Magnuson said. "I was a member of the state legislature in Washington in 1933, and I introduced a bill permitting eighteen-year-olds to

vote. I couldn't get it to the floor for a vote. It still hasn't passed. * * * Suppose you introduce the amendment." Mansfield thought it over and agreed. With his prestige behind it, the Mansfield-Magnuson-Kennedy amendment cleared the Senate and House, and was signed by President Nixon.

The statute was immediately challenged in the courts, and the result was an unusual "double" 5-4 decision by the Supreme Court in *Oregon* v. *Mitchell* in December 1970. Justice Hugo Black cast the swing votes, upholding the eighteen-year-old vote 5-4 in federal elections, but holding it unconstitutional, 5-4, in state and local elections.

To resolve this difficulty, Senator Birch Bayh, who chaired the Constitutional Amendments Subcommittee of the Judiciary Committee, led a successful effort to pass Jennings Randolph's original proposal for a constitutional amendment. The Twenty-Sixth Amendment was ratified by the states in record time in 1971, and it reduced the voting age to eighteen for all elections. Senator Mansfield was delighted with the results and proud of his contribution. It was an appropriate stand for a man whose first political organization consisted of the students from his university classes.

MESSAGES FROM THE HOUSE

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

At 11:06 a.m., the message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker has signed the following enrolled bills and joint resolutions:

S. 816. An act to establish the Pine Ridge National Recreation Area and Soldier Creek Wilderness in the State of Nebraska, and for other purposes;

S. 2048. An act to encourage international efforts to designate the shipwreck of R.M.S. TITANIC as an international maritime memorial and to provide for reasonable research, exploration, and, if appropriate, salvage activities with respect to the shipwreck;

H.R. 1598. An act for the relief of Steven McKenna;

H.R. 2224. An act to amend the Immigration and Nationality Act to permit non-immigrant alien crewman on fishing vessels to stop temporarily at ports in Guam;

H.R. 5016. An act for the relief of Sueng Ho Jang and Sueng II Jang;

H.J. Res. 517. Joint resolution providing for reappointment of David C. Acheson as a citizen regent of the Board of Regents of the Smithsonian Institution; and

H.J. Res. 666. Joint resolution expressing the sense of Congress in support of a commemorative structure within the National Park System dedicated to the promotion of understanding, knowledge, opportunity, and equality for all people.

The enrolled bills and joint resolutions were subsequently signed by the President pro tempore [Mr. THURMOND].

At 2:10 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following bills, without amendment:

S. 2266. An act to establish a ski area permit system on national forest lands, and for other purposes;

S. 2320. An act to amend an act to add certain lands on the Island of Hawaii to Hawaii Volcanoes National Park, and for other purposes; and

S. 2720. An act to establish a property tax fund for the Houlton Band of Maliseet Indians in furtherance of the Maine Indian Claims Settlement Act of 1980, and for other purposes.

The message also announced that the House agrees to the amendment of the Senate to the amendments of the House to the bill (S. 565) to direct the Secretary of Agriculture to convey, without consideration, to the town of Payson, AR, approximately 30.96 acres of Forest Service lands.

The message further announced that the House agrees to the amendment of the Senate to the following bills:

H.R. 1593. An act to direct the Secretary of the Interior to release on behalf of the United States certain restrictions in a previous conveyance of land to the town of Jerome, Arizona; and

H.R. 4354. An act to authorize appropriations to the Secretary of Commerce for the programs of the National Bureau of Standards for fiscal year 1987, and for other purposes.

The message also announced that the House has passed the following bill and joint resolution, in which it requests the concurrence of the Senate:

H.R. 5679. An act to extend the exclusion from Federal unemployment tax of wages paid to certain alien farmworkers; and

H.J. Res. 751. Joint resolution making further continuing appropriations for the fiscal year ending September 30, 1987, and for other purposes.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

The message further announced that the Speaker has signed the following enrolled bills and joint resolutions:

H.R. 2182. An act to authorize the inclusion of certain additional lands within the Apostle Islands National Lakeshore;

H.R. 4212. An act to provide for the reauthorization of the Deep Seabed Hard Mineral Resources Act, and for other purposes;

H.R. 5073. An act to amend the Toxic Substances Control Act to require the Environmental Protection Agency to promulgate regulations requiring inspection for asbestos-containing material in the Nation's schools, development of asbestos management plans for such schools, response actions with respect to friable asbestos-containing material in such schools, and for other purposes;

H.J. Res. 17. Joint resolution to consent to an amendment enacted by the legislature of the State of Hawaii to the Hawaiian Homes Commission Act, 1920; and

H.J. Res. 438. Joint resolution to designate October 31, 1986, as "National Child Identification and Safety Information Day".

The enrolled bills and joint resolutions were subsequently signed by the President pro tempore [Mr. THURMOND].

At 4:17 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the following bills:

H.R. 3559. An act to amend the Act establishing a Commission on the Bicentennial of the Constitution of the United States to clarify the status of employees of the Commission, to raise the limits on private contributions, and for other purposes; and

H.R. 3578: An act to provide permanent authority for hearing commissioners in the District of Columbia courts, to modify certain procedures of the District of Columbia Judicial Nomination Commission and the District of Columbia Commission on Judicial Disabilities and Tenure, and for other purposes.

The message also announced that the House agrees to the amendments of the Senate to the bill (H.R. 2722) to amend title 13, United States Code, to eliminate the requirement relating to decennial censuses of drainage.

The message further announced that the House has passed the following joint resolutions, without amendment:

S.J. Res. 169. Joint resolution to commemorate the bicentennial anniversary of the first patent and the first copyright laws;

S.J. Res. 232. Joint resolution to designate October 6, 1986, through October 10, 1986, as "National Social Studies Week";

S.J. Res. 299. Joint resolution to designate the week of December 7, 1986, through December 13, 1986, as "National Alopecia Areata Awareness Week";

S.J. Res. 304. Joint resolution to designate the week of November 16, 1986, through November 22, 1986, as "National Arts Week";

S.J. Res. 306. Joint resolution to designate the week beginning November 23, 1986, as "National Adoption Week";

S.J. Res. 311. Joint resolution designating the week beginning November 9, 1986, as "National Women Veterans Recognition Week";

S.J. Res. 322. Joint resolution to designate December 7, 1986, as "National Pearl Harbor Remembrance Day" on the occasion of the anniversary of the attack on Pearl Harbor;

S.J. Res. 339. Joint resolution to designate the week of November 30, 1986, through December 6, 1986, as "National Home Care Week";

S.J. Res. 352. Joint resolution to designate the week beginning October 19, 1986, as "Gaucher's Disease Awareness Week";

S.J. Res. 392. Joint resolution to designate the month of December 1986 as "Made in America Month";

S.J. Res. 395. Joint resolution to designate the period October 1, 1986, through September 30, 1987, as "National Institute of Health Centennial Year";

S.J. Res. 396. Joint resolution to designate the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week";

S.J. Res. 407. Joint resolution designating November 12, 1986, as "Salute to School Volunteers Day";

S.J. Res. 410. Joint resolution to designate the period commencing February 9, 1987, and ending February 15, 1987, as "National Burn Awareness Week";

S.J. Res. 414. Joint resolution to designate March 16, 1987, as "Freedom of Information Day";

S.J. Res. 418. Joint resolution to designate February 4, 1987, as "National Women in Sports Day; and

S.J. Res. 422. Joint resolution commemorating the 100th anniversary of the birth of the first Prime Minister of the State of Israel, David Ben-gurion.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 381. Concurrent resolution expressing the support of the Congress for the awarding of the Ellis Island Medal of Honor as a symbol of the Statue of Liberty Centennial Celebration.

At 4:58 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House has passed the bill (S. 1200) to amend the Immigration and Nationality Act to effectively control unauthorized immigration to the United States, and for other purposes, with amendments; it insists upon its amendments to the bill, asks a conference with the Senate on the disagreeing votes of the two Houses thereon, and appoints the following as managers of the conference on the part of the House:

From the Committee on the Judiciary, for consideration of the entire Senate bill and House amendment: Mr. RODINO, Mr. KASTENMEIER, Mr. SEIBERLING, Mr. MAZZOLI, Mr. SYNAR, Mr. FRANK, Mr. SCHUMER, Mr. SMITH of Florida, Mr. BERMAN, Mr. BOUCHER, Mr. BRYANT, Mr. FISH, Mr. MOORHEAD, Mr. LUNGREN, Mr. MCCOLLUM, Mr. SHAW, and Mr. DEWINE.

From the Committee on Agriculture, solely for consideration of sections 121–125, 202(h), 203, and 304 of the Senate bill and sections 116, 121, 204, 301–305, and 701 of the House amendments: Mr. PANETTA, Mr. HUCKABY, and Mr. MORRISON of Washington.

From the Committee on Education and Labor, solely for consideration of sections 101(d), 121–125, 202(h), 203, 304, 402, and 604 of the Senate bill, and sections 101, 121, 201(h), 204, 301–305, 316(d), 402, 403, and 701 of the House amendments: Mr. HAWKINS, Mr. FORD of Michigan, and Mr. JEFFORDS.

From the Committee on Energy and Commerce, solely for consideration of sections 125(b), 202(h), 203, 304, and 404 of the Senate bill, and sections 121, 201(d), 201(h), 204, 404, and that portion of section 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Mr. DINGELL, Mr. WAXMAN, and Mr. DANNEMEYER.

From the Committee on Ways and Means, solely for consideration of sections 121(a), 121(g), 121(h), 124(c), 125(b), 202(h), 203, 304, 404, and 602 of the Senate bill, and sections 121, 201(h), 204, 302(b), 402, 404, 407, 601, 701, and that portion of section 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Mr. FORD of Tennessee, Mr. PEASE, and Mr. DAUB.

From the Committee on Rules, solely for the consideration of section 604(b) of the Senate bill, and section 811 of the House amendments, and modifications committed to conference: Mr. BEILENSON and Mr. TAYLOR.

As an additional conferee, solely for consideration of title VIII of the House amendment, and modifications committed to conference: Mr. MOAKLEY.

The message also announced that the House has passed the joint resolution (S.J. Res. 367) to designate September 24, 1986, as "National Kidney Program Day," with amendments, in which it requests the concurrence of the Senate.

The message further announced that the House agrees to the amendment of the Senate to the bill (H.R. 1426) to reauthorize and amend the Indian Health Care Improvement Act, and for other purposes, with amendments, in which it requests the concurrence of the Senate.

The message also announced that the House has passed the following bill and joint resolutions, in which it requests the concurrence of the Senate:

H.R. 5277. An act to transfer certain public lands in Nevada to the Toiyabe, Humboldt, and Inyo National Forests;

H.J. Res. 10. Joint resolution to designate the week beginning January 19, 1987, as "Shays' Rebellion Week" and Sunday, January 25, 1987, as "Shays' Rebellion Day";

H.J. Res. 594. Joint resolution to designate the week beginning May 3, 1987, as "National Correctional Officers Week"; and

H.J. Res. 620. Joint resolution designating the week beginning January 4, 1987, as "National Bowling Week".

MEASURES REFERRED

The following bill and joint resolutions, received from the House of Representatives on today, was read the first and second times by unanimous consent, and referred as indicated:

H.R. 5679. An act to extend the exclusion from Federal unemployment tax of wages paid to certain alien farmworkers; to the Committee on Finance.

H.J. Res. 10. Joint resolution to designate the week beginning January 19, 1987, as "Shays' Rebellion Week" and Sunday, January 25, 1987, as "Shays' Rebellion Day"; to the Committee on the Judiciary.

H.J. Res. 594. Joint resolution to designate the week beginning May 3, 1987, as "National Correctional Officers Week"; to the Committee on the Judiciary.

H.J. Res. 620. Joint resolution designating the week beginning January 4, 1987, as "National Bowling Week"; to the Committee on the Judiciary.

The following concurrent resolution, received from the House of Representatives today, was read, and referred as indicated:

H. Con. Res. 381. A concurrent resolution expressing the support of the Congress for the awarding of the Ellis Island Medal of Honor as a symbol of the Statue of Liberty Centennial Celebration; to the Committee on the Judiciary.

The following bills, previously received from the House of Representatives, were read the first and second times by unanimous consent, and referred as indicated:

H.R. 5020. An act to expand the United States Secret Service Uniformed Division protective jurisdiction; to the Committee on Finance.

H.R. 5215. An act to authorize the construction by the Secretary of Agriculture of a salinity laboratory at Riverside, California, to the Committee on Agriculture, Nutrition, and Forestry.

H.R. 5218. An act to amend title 5, United States Code, to provide that certain individuals be accorded competitive status for purposes of transferring to the competitive service; to the Committee on Governmental Affairs.

H.R. 5343. An act to designate certain segments of the Maurice and the Manumuskin Rivers in New Jersey as study rivers for inclusion in the national wild and scenic rivers system; to the Committee on Energy and Natural Resources.

H.R. 5613. An act to provide for the uniform disclosure of the rates of interest which are payable on savings accounts, to provide for detailed and uniform disclosures of information on interest rates and other fees in applications and solicitations for credit cards, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 5602. An act to amend the Public Buildings Act fo 1959 to authorize the Administrator of General Services to issue obigations to finance the acquisition and construction of public buildings; to the Committee on Environment and Public Works.

MEASURE PLACED ON THE CALENDAR

The following bill, previously received from the House of Representatives, was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 5420. An act to amend section 3726 of title 31, United States Code, relating to payment for transportation, to permit prepayment audits for selected transportation bills, to permanently authorize payment of transportation audit contractors from carrier overpayments collected, to authorize net overpayments collected to be transferred to the Treasury, and for other purposes.

MEASURE HELD AT THE DESK

The following bill, previously referred from the House of Representatives, was ordered held at the desk by unanimous consent, pending further disposition:

H.R. 3415. An act to authorize the minting of coins in commemoration of the bicentennial of the United States Constitution.

71-059 O-87-14 (Pt. 21)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated.

By Mr. PROXMIRE (for himself and Mr. COHEN):

S. 2917. A bill to amend title 10, United States Code, to increase the combat support assignments open to women in the Armed Forces; to the Committee on Armed Services.

By Mr. KERRY:

S. 2918. A bill to amend the Foreign Assistance Act of 1961 to modify provisions relating to the trade and development program; to the Committee on Foreign Relations.

By Mr. ZORINSKY (for himself and Mr. EXON):

S. 2919. A bill to amend the Tax Reform Act of 1986 by repealing the treatment of certain amounts to or for the benefit of certain institutions of higher education; to the Committee on Finance.

By Mr. INOUYE:

S. 2920. A bill to amend titles XVIII and XIX of the Social Security Act to provide that a nurse practitioner or clinical nurse specialist may, in collaboration with a physician, certify or recertify the need for certain services, to provide for coverage of certain items and services furnished by a nurse practitioner or clinical nurse specialist, and for other purposes; to the Committee on Finance.

By Mr. McCLURE (by request):

S. 2921. A bill to amend the Public Law 99-396 exception to the Balanced Budget Emergency Deficit Control Act of 1985, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. MATSUNAGA (for himself and Mr. WARNER):

S. 2922. A bill to amend the Tax Reform Act of 1986 to remove the retroactive effect of the repeal of the 3-year recovery of basis rule in pension plans; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MELCHER (for himself and Mr. BAUCUS):

S. Res. 505. A resolution relating to grizzly bear management; to the Committee on Energy and Natural Resources.

By Mr. GLENN:

S. Res. 506. A resolution expressing the sense of the Senate that the President should encourage foreign governments to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KERRY:

S. 2918. A bill to amend the Foreign Assistance Act of 1961 to modify provisions relating to the Trade and Development Program; to the Committee on Foreign Relations.

MODIFICATION OF TRADE AND DEVELOPMENT PROGRAM

Mr. KERRY. Mr. President, recently the distinguished Senator from New Mexico, Senator BINGAMAN, came to the floor to introduce a report which was the result of a significant amount of work by a number of my colleagues on the issue of competitiveness. It became clear as a consequence of that report as well frankly as many reports over the course of the last few years, the Young commission, the Packard commission, a number of blue ribbon panels, that this country is fast falling behind in our ability to compete in markets where once before we competed with great ease.

There are many different things that we could do from the question of dealing with our universities, our laboratories, and our ability to be able to put additional funds into research and development, to the fiscal and trade decisions which we must also make.

This bill is directed toward the trade sector, Mr. President, because increasingly we have become concerned over that growing trade deficit and the need for the Government to try somehow to assist American firms in opening new markets in developing countries as a means of reducing that deficit.

The People's Republic of China is obviously a major, long-term market for the export of United States goods and services. Other industrialized nations, all of which we compete with in those foreign markets, are currently utilizing foreign assistance funds as a means of capturing the Chinese market for their exporters.

Since 1981, nine nations have given continuing technical assistance to China as a means of gaining access to that market for their goods.

Australia has provided approximately $13 million per year since 1981 in technical assistance funds, much of it earmarked for agricultural and husbandry development.

Since 1981, the Canadian Development Corporation has provided $20 million a year in such assistance and has pledged a doubling of such aid to $40 million a year. Much of this assistance will be eamarked for energy, agriculture, electric power and forestry development.

The Federal Republic of Germany has provided approximately $18 million in grant assistance per year in addition to another $22.7 million in 30 year loans carrying a 2 percent interest charge. Much of Germany's aid is earmarked for communications, energy, human resources, and technological transfers.

Japan provides approximately $37 million per year in technical assistance.

Since 1983, Italy has provided $20 million a year in assistance.

The United Kingdom provides between 1 to 5 million English pounds per year, mostly earmarked for highway transportation and communications.

Sweden provides soft and mixed loans for training in technology and industry.

Denmark funds some four to five projects a year.

Belgium provides funding for five to six technical assistance projects a year.

The European Economic Community has provided China with 6 million European currency units a year since 1983 for technical assistance projects.

All of these countries are taking pains to invest in a way that will return jobs to their countries. The United States is not following suit.

I believe training programs are essential to opening up potential export markets. It only stands to reason, that if a Chinese technocrat or manager is trained on U.S. technology there will be a desire to import the technology which is compatible with the training.

There is no reason why we should not proceed to try to protect that market and those opportunities.

That is the reason for my introduction of this legislation, which I would characterize as the training for trade bill.

The purpose of this legislation is to provide funds to train citizens of the People's Republic of China in the United States with the principal objective of promoting United States trade with China in sectors which are important to that country's economic development. The funds authorized by this legislation are to be used to complement the ongoing activities of the U.S. Trade and Development Program [TDP], a U.S. Government organization located within the International Development and Cooperation Agency.

TDP presently manages programs authorized by the Congress under section 661 of the Foreign Assistance Act and, as such, is the only source of foreign assistance moneys used in China.

TDP presently utilizes section 661 funds in China and other developing nations to finance the planning of projects which are potential export markets for American goods and services and which are critical to the development of China. Such projects include planning for the construction of dams, powerplants and airports—all of which are markets for U.S. engineering services and such key U.S. high technology exports such are computers.

The $25 million provided for under this legislation is designed to carry out education and training programs in the United States for nationals from the People's Republic of China. It is the intent of this legislation that the

funds authorized in this bill would be used to support the training requirements associated with potential small- and medium-sized businesses with export potential to the People's Republic of China. Some 50 percent of the funds authorized in this bill would be available only for education and training programs administered by such companies as defined by the Small Business Administration.

This legislation is a follow up to a resolution passed April 30 of this year during the sixth meeting of the National Advisory Council to the Senate Committee on Small Business. At that meeting, the following resolution was approved by the Council:

The Congress should authorize foreign aid in the form of technical assistance and training for Chinese and other foreign countries to train on the use of American products, 50 percent of the funds should be set aside for small businesses, as defined by the SBA.

Mr. President, there are numerous small- and medium-sized high technology companies in the United States which, if funding for training programs were available, could realize significant exports to the People's Republic of China. Our industrial allies are very aggressive, through their own training programs and financing packages, in utilizing foreign assistance to promote their own products for export. I believe we have an obligation to our own private sector to utilize foreign assistance programs to promote trade where possible, particularly if the recipient country, such as the People's Republic of China, are highly desirous of receiving such training in the anticipation that they will then import United States technology.

By Mr. ZORINSKY (for himself and Mr. EXON):

S. 2919. A bill to amend the Tax Reform Act of 1986 by repealing the treatment of certain amounts paid to or for the benefit of certain institutions of higher learning; to the Committee on Finance:

TAX TREATMENT OF CERTAIN CONTRIBUTIONS TO INSTITUTIONS OF HIGHER LEARNING

Mr. ZORINSKY. Mr. President, today I am introducing a bill on behalf of almost every college football program in the country. The tax reform bill recently passed by Congress grants a special tax favor to two college football programs. This is unfair to the rest or our hardworking universities. My bill will rid the Tax Code of these two exceptions.

Many schools have booster clubs through which fans obtain their tickets. As a condition of getting their tickets, the fans make contributions to the schools' scholarship funds. The IRS ruled that any contribution made as a condition of receiving tickets is not deductible.

I believe this ruling is wrong. The scholarship funds depend heavily on the deductibility of contributions to attract donors. Work is being done on several fronts to force the IRS to reconsider its decision. I wholeheartedly support those efforts.

Until the IRS changes its mind, however, Congress should not exempt this or that program from the ruling. Yet, section 1608 of the tax reform bill includes just such an exemption for two schools. This is precisely the kind of loophole tax reform was supposed to eliminate.

I hope the chairman of the Senate Committee on Finance will consider this legislation when drafting his technical corrections bill. We should either make the exemption apply to all schools or adopt my bill leaving everyone subject to the ruling.

This legislation gives new meaning to our desire, stated many times during the tax reform debate, to "level the playing field." It simply eliminates the provision which provides the special exemption. I urge my colleagues to support this bill as a small step toward making our tax system fair and our football programs truly competitive.

I ask unanimous consent that the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2919

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REPEAL OF TREATMENT OF CERTAIN AMOUNTS PAID TO OR FOR THE BENEFIT OF CERTAIN INSTITUTIONS OF HIGHER EDUCATION.

(a) IN GENERAL.—Section 1608 of the Tax Reform Act of 1986 is hereby repealed.

(b) EFFECTIVE DATE.—Subsection (a) shall take effect as if included in the Tax Reform Act of 1986.

By Mr. INOUYE:

S. 2920. A bill to amend titles XVIII and XIX of the Social Security Act to provide that a nurse practitioner or clinical nurse specialist may, in collaboration with a physician, certify or recertify the need for certain services, to provide for coverage of certain items and services furnished by a nurse practitioner or clinical nurse specialist, and for other purposes; to the Committee on Finance.

CERTIFICATION AND RECERTIFICATION OF THE NEED FOR CERTAIN SERVICES

● Mr. INOUYE. Mr. President, today I have introduced legislation to modify our Nation's Social Security Act in order to ensure that the services of nurse practitioners and clinical nurse specialists will be readily available in nursing homes under both Medicare and Medicaid.

As our Nation's elderly continue to become a larger segment of our overall population, it is becoming increasingly important for us to establish comprehensive health care programs targeted toward their unique needs. In addition, in the wake of Medicare payment reforms in 1983, the length of stay in hospitals has dropped dramatically. Patients are being discharged earlier, but in many cases are still in need of nursing care in skilled nursing facilities or intermediate care facilities. These dramatic changes in the nursing home area are the impetus behind my introduction of the Advanced Nursing Services in Nursing Homes Act of 1986.

The act would let nurse practitioners and clinical nurse specialists, working in collaboration with a physician, certify and recertify the need for certain services in nursing homes, as well as perform the mandatory nursing home patient visits under both Medicare and Medicaid. This bill would also provide payment for certain services furnished by a nurse practitioner or clinical nurse specialist.

The results of numerous studies demonstrate the positive impact that the use of health care teams in nursing homes, which include nurse practitioners and clinical nurse specialists, has had on quality of care and cost effectiveness. For example, a recent Massachusetts study found that when nursing home patients received care by a health care team, rather than solely by a physician, the following results occurred: More timely visits, reduced hospitalizations for emergency and outpatients services, reduced total inpatient hospital days, and reduced overall medical care costs. The study concluded that under the health care team approach, nursing home patients received more timely, appropriate and cost-effective care.

Similarly, a Wyoming study found that when a gerontological nurse practitioner was employed at a facility, hospital transfers were reduced substantially. Accompanying that decrease was an increase of discharges from the nursing home back to the community. Another finding of the study was that gerontological nurse practitioners improved the public image of the nursing home as evidenced by a survey of community residents. Most importantly, via their emphasis on health promotion, disease prevention, early diagnosis, treatment and rehabilitation, gerontological nurse practitioners were able to improve the quality of patient care.

A major barrier to the increased use of nurse practitioners and clinical nurse specialists in nursing homes is embodied in outmoded Federal reimbursement policies that currently do not reimburse providers of nursing home primary care other than physicians. Clearly, a major incentive to transfer the place of care from hospi-

tal to nursing home must be a reimbursement policy that recognizes the utility and fundamental economy of ongoing care in the nursing home via reimbursement for nurse practitioners and clinical nurse specialists.

The bill, which I am proposing today, also promotes cost-effective provision of health care by paying for nursing home visits by nurse practitioners and clinical nurse specialists at a rate equal to 75 percent of the prevailing charge paid for similar services in the same locality. In addition, under my proposal the nursing home resident would personally save money because they would not have to make copayments to nurse practitioners and clinical nurse specialists; mandatory assignment would also be required under Medicare.

The act creates a "win-win" situation by: Containing Medicare and Medicaid Program costs, increasing the quality of care provided to nursing home residents, recognizing the expanded role that nurse practitioners and clinical nurse specialists are qualified to play in providing care in the nursing home, and saving nursing home residents money.

I would like to thank the American Nurses' Association for assistance in drafting this legislation, and I am looking forward to having this bill become public law as soon as possible.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2920

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CERTIFICATION AND RECERTIFICATION OF THE NEED FOR CERTAIN SERVICES.

(a) MEDICARE CERTIFICATIONS AND RECERTIFICATIONS FOR CERTAIN SERVICES.—Section 1814(a) of the Social Security Act (42 U.S.C. 1395f(a)) is amended—

(1) in paragraph (2) by striking "(2) a physician" and inserting in lieu thereof "(2) a physician, or, in the case of services described in subparagraph (B), a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,", and

(2) in the matter following paragraph (7) by striking "a physician makes" and inserting in lieu thereof "a physician, nurse practitioner, or clinical nurse specialist (as the case may be) makes".

(b) MEDICAID CERTIFICATIONS AND RECERTIFICATIONS FOR CERTAIN SERVICES.—Section 1902(a)(44) of such Act (42 U.S.C. 1396a(a)(44)) is amended—

(1) in subparagraph (A)—

(A) by striking "physician certifies" and inserting in lieu thereof "physician (or, in the case of skilled nursing facility services or intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician) certifies", and

(B) by striking "the physician, or a physician assistant or nurse practitioner under the supervision of a physician," and inserting in lieu thereof "a physician, a physician assistant under the supervision of a physician, or, in the case of skilled nursing facility services of intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,"; and

(2) in subparagraph (B) by striking "a physician;" and inserting in lieu thereof "a physician, or, in the case of skilled nursing facility services or intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician;".

(c) SUPERVISION OF HEALTH CARE FURNISHED IN SKILLED NURSING FACILITIES.—Section 1861(j)(4) of such Act (42 U.S.C. 1395x(j)(4)) is amended—

(1) in subparagraph (A) by striking "a physician," and inserting in lieu thereof "a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,", and

(2) in subparagraph (B) by striking "a physician," and inserting in lieu thereof "a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,",

(d) DEFINITION.—

(1) Section 1861 of such Act (42 U.S.C. 1359x) is amended by adding at the end thereof the following new paragraph:

"Nurse Practitioner and Clinical Nurse Speclialist

"(ee)(1) An individual shall be treated as a nurse practitioner or clinical nurse specialist if the individual—

"(A) is licensed to practice professional nursing;

"(B) performs such services as such individual is legally authorized to perform (in the State in which the individual performs such services) in accordance with State law (or the State regulatory mechanism provided by State law); and

"(C)(i) holds a masters degree in nursing and is certified or eligible for certification by a national professional nursing organization,

"(ii) holds a masters degree in a related field and is certified by a national professional organization, or

"(iii) has completed a nurse practitioner continuing education program and is certified by a national professional nursing organization.

"(2) A nurse practitioner or clinical nurse specialist works in collaboration with a physician where the nurse and physician act pursuant to an agreement that allocates responsibility for decisions and actions, but allows each professional to retain responsibility for their respective actions and engage in such actions independently.".

(2) Section 1861(aa) of such Act (42 U.S.C. 1395x(aa)) is amended in paragraph (3)—

(A) by striking "and the term 'nurse practitioner'" and "or nurse practitioner", and

(B) by striking "mean" and inserting in lieu thereof "means".

(3) Section 1861(s)(2)(H) of such Act (42 U.S.C. 1395x(s)(2)(H) is amended in clause (i) by striking "physician assistant or by a nurse practitioner (as defined in subsection (aa)(3))" and inserting in lieu thereof "physician assistant (as defined in subsection (aa)(3)) or by a nurse practitioner".

(e) EFFECTIVE DATE.—

(1) The amendments made by subsections (a), (c), and (d) of this section shall apply to items and services furnished on or after the date of enactment of this Act.

(2)(A) Except as provided in subparagraph (B), the amendments made by subsection (b) shall apply to medical assistance provided on or after the date of enactment of this Act.

(B) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements of the amendments made by subsection (b), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet the additional requirements before the first day of the first calendar year beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

SEC. 2. COVERAGE OF CERTAIN ITEMS AND SERVICES FURNISHED BY A NURSE PRACTITIONER OR CLINICAL NURSE SPECIALIST.

(a) PAYMENT OF BENEFITS.—Section 1833(a)(2) of the Social Security Act (42 U.S.C. 13951(a)(2)) is amended—

(1) in subparagraph (B) by striking "(C) or (D)" and inserting in lieu thereof "(C), (D), or (E)",

(2) in subparagraph (C) by striking "and",

(3) in subparagraph (D) by inserting "and" after "tests;", and

(4) by adding at the end thereof the following new subparagraph:

"(E) with respect to items and services described in section 1842(s)(2)(J), the amount paid shall be equal to 100 percent of the amount determined as the reasonable charge for such items and services under section 1842(b)(10).".

(b) CONTRACTS WITH CARRIERS.—Section 1842(b) of such Act (42 U.S.C. 1395u(b)) is amended by adding at the end thereof the following new paragraph:

"(10) In providing payment for the items and services described in section 1861(s)(2)(J), each carrier shall require that payment be made in the manner described in paragraph (3)(B)(ii), except that the reasonable charge shall be determined as 75 percent of the prevailing charge paid for similar items and services in the same locality.".

(c) DEFINITION.—Section 1861(s)(2) of such Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking "and" at the end of subparagraph (H),

(2) by adding "and" at the end of subparagraph (I), and

(3) by adding at the end thereof the foloiwng new subparagraph:

"(J) services furnished by a nurse practitioner or clinical nurse specialist in a skilled nursing facility and services and supplies furnished as an incident to such services;".

(d) CONFORMING CHANGE.—Section 1861(h) of such Act (42 U.S.C. 1395x(h)) is amended by inserting ", and excluding any item or service described in subsection (s)(2)(J)" before the period.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to items and services furnished on or after the date of enactment of this Act.

SEC. 3. COVERAGE OF CERTAIN ITEMS AND SERVICES FURNISHED BY A NURSE PRACTITIONER OR CLINICAL NURSE SPECIALIST.

(a) IN GENERAL.—Section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) is amended in paragraph (5)—

(1) by inserting "(A)" after "(5)", and

(2) by striking "elsewhere;" and inserting in lieu thereof "elsewhere; and (B) services

furnished in an intermediate care facility or skilled nursing facility by a nurse practitioner or clinical nurse specialist (as defined in section 1861(ee)) working in collaboration with a physician.".

(b) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to medical assistance provided on or after the date of enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements of the amendments made by subsection (a), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet the additional requirements before the first day of the first calendar year beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.●

By Mr. McCLURE (by request):

S. 2921. A bill to amend the Public Law 99-396 exception to the Balanced Budget and Emergency Deficit Control Act of 1985, and for other purposes; to the Committee on Energy and Natural Resources.

EXCEPTION TO DEFICIT REDUCTION LEGISLATION

● Mr. McCLURE. Mr. President, pursuant to an executive communication referred to the Committee on Energy and Natural Resources, at the request of the Department of the Interior, I send to the desk a bill to amend the Public Law 99-396 exception to the Balanced Budget and Emergency Deficit Control Act of 1985, and for other purposes.

Mr. President, this draft legislation was submitted and recommended by the Department of the Interior, and I ask unanimous consent that the bill, and the executive communication which accompanied the proposal from the Assistant Secretary be printed in the RECORD.

There being no objection, the bill and letter were ordered to be printed in the RECORD, as follows:

S. 2929

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 19(b) of Public Law 99-396 is amended to read as follows:

"(b) The amounts to be paid into the treasuries of the Commonwealth of Puerto Rico, Guam, the Virgin Islands, and the Northern Mariana Islands, respectively, pursuant to:

"(1) section 4 of the act of April 12, 1900 (31 Stat. 78, 48 U.S.C. 740), as amended, and section 9 of the Act of March 2, 1917 (39 Stat. 954, 48 U.S.C. 734), as amended;

"(2) section 30 of the Act of August 1, 1950 (64 Stat. 392, 48 U.S.C. 1421(h)), as amended;

"(3) section 28(a) of the Act of July 22, 1954 (68 Stat. 508, 48 U.S.C. 1642), as amended, and section 7652 of the Internal Revenue Code of 1954 (68A Stat. 907, 26 U.S.C. 7652), as amended; and

"(4) section 3 of Public Law 94-241 as amended (P.L. 99-396, 100 Stat. 837), and section 703(b) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America as approved in section 1 of Public Law 94-241 (90 Stat. 263, 48 U.S.C. 1681 note),

shall not be reduced pursuant to Public Law 99-177, Public Law 99-366, or any other provision of law enacted to implement Public Law 99-177."

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, DC, October 8, 1986.

Hon. GEORGE BUSH,
President of the Senate,
Washington, DC.

DEAR MR. PRESIDENT: There is enclosed a draft bill "To amend the Public Law 99-396 exception to the Balanced Budget and Emergency Deficit Control Act of 1985, and for other purposes," to provide a technical clarification to language in P.L. 99-396, the omnibus territories legislation. This draft reflects the agreement reached between the President and the Congress that facilitated approval of P.L. 99-396.

We recommend that the bill be introduced, referred to the appropriate committee for consideration, and enacted.

The draft bill would clarify the language of section 19(b) of P.L. 99-396 to reflect the intent of Congress in enacting that section. Specifically, Section 19(b) of P.L. 99-396 makes the Gramm-Rudman-Hollings Act inapplicable to (1) payments made to territories and Puerto Rico equal to United States internal revenue taxes on articles produced in the territories and transported to other United States jurisdictions, (2) payments to Guam of Organic Act of Guam section 30 taxes, and (3) payments to the Northern Mariana Islands of Covenant funds.

The enclosed draft bill makes explicit which funds are to be exempted from the Gramm-Rudman-Hollings Act consistent with correspondence from the Committee leadership of the Senate Committee on Energy and Natural Resources and the House Committee on Interior and Insular Affairs (enclosed).

We urge your prompt consideration and enactment of this technical matter.

The Office of Management and Budget advises that enactment of this proposal would be in accord with the program of the President.

Sincerely,

RICK MONTOYA,
Assistant Secretary.●

By Mr. MATSUNAGA (for himself and Mr. WARNER):

S. 2922. A bill to amend the Tax Reform Act of 1986 to remove the retroactive effect of the repeal of the 3-year recovery of basis rule in pension plans; to the Committee on Finance.

REMOVAL OF RETROACTIVE EFFECT OF THE REPEAL OF THE 3-YEAR RECOVERY OF BASIS RULE IN PENSION PLANS

● Mr. MATSUNAGA. Mr. President, in a bill of the magnitude of the Tax Reform Act of 1986, there will often be provisions which we find to be unpalatable. There is one particular area of the tax reform conference agreement which troubles me. I refer specifically to the retroactive effective date of July 1, 1986, for the repeal of the 3-year basis recovery rule for pension benefits. As a member of the conference committee I opposed the retroactive nature of the provision. I worked with other conferees in an effort to obtain a prospective effective date for this change, and argued that Congress should provide for a reasonable transition period so that those who have relied on the current law are not adversely affected by a sudden, dramatic, and retroactive change in policy. A transition to a new tax system is always difficult, but in this instance we are unfairly penalizing taxpayers who retired after July 1, 1986 with the full expectation that they would be able to recover their full basis within the 3-year period. I am, therefore, very much disappointed that this provision is contained in the Tax Reform Act of 1986.

Mr. President, in fairness to those retirees who relied on the law with which they were familiar, I am introducing legislation today to remove the retroactive repeal of the 3-year basis recovery rule for pension plans. This legislation would substitute a January 1, 1987 effective date for the July 1, 1986 date as set forth in the Tax Reform Act of 1986.

Mr. President, I ask unanimous consent that the full text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2922

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REMOVE RETROACTIVE EFFECT OF REPEAL OF 3-YEAR RECOVERY OF BASIS RULE IN PENSION PLANS.

(a) IN GENERAL.—Subparagraph (A) of section 1122(h)(1) of the Tax Reform Act of 1986 (relating to effective dates for amendments relating to taxation of distributions) is amended by striking out "July 1, 1986" and inserting in lieu thereof "January 1, 1987."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect as if included in the Tax Reform Act of 1986.●

● Mr. WARNER. Mr. President, I am pleased to join this evening as an original cosponsor of the measure introduced by my distinguished colleague from Hawaii, Senator SPARK MATSUNAGA. We seek to amend the Tax Reform Act of 1986 to remove the retroactive repeal of the 3-year recovery basis for contributory pension plans.

As my colleagues will recall, this is not the first time this attempt has been made. On June 17, 1986, I joined with my Virginia colleague, Senator TRIBLE, in an effort to eliminate the repeal of the recovery rule from the tax bill altogether. That amendment failed by a vote of 42 to 57, a strong sign of dissent but obviously not enough to carry the day.

Our distinguished chairman of the Finance Committee, Senator PACKWOOD, recognized the concern of those

voting for repeal and attempted in conference to strike a reasonable compromise for the effective date. January 1, 1987, the date proposed by the Senator from Hawaii, was Senator PACKWOOD'S conference proposal as well, but it proved unacceptable to the House conferees. The House insisted on the retention of their original effective date of July 1, 1986.

The measure introduced by Senator MATSUNAGA provides the Senate with what may be our last chance to close one of the most inequitable gaps in the tax bill. Rather than penalizing our most senior Federal employees for their devotion in staying on the job past July 1, 1986, they can be provided with a transition period just as so many other groups have been granted.

I commend Senator MATSUNAGA for this initiative and encourage all of my colleagues to lend us their support. Let us allow all Americans to participate as equal beneficiaries in tax reform.●

ADDITIONAL COSPONSORS

S. 2183

At the request of Mr. METZENBAUM, the name of the Senator from New York [Mr. MOYNIHAN] was added as a cosponsor of S. 2183, a bill to improve services for individuals with Alzheimer's disease and their families.

SENATE JOINT RESOLUTION 388

At the request of Mr. LEVIN, the name of the Senator from Rhode Island [Mr. PELL] and the Senator from Idaho [Mr. SYMMS] were added as cosponsors of Senate Joint Resolution 388, a joint resolution designating the week beginning January 4, 1987, as "National Bowling Week".

SENATE JOINT RESOLUTION 426

At the request of Mr. WARNER, the name of the Senator from South Dakota [Mr. PRESSLER] was added as a cosponsor of Senate Joint Resolution 426, a joint resolution to designate the week of October 19 through 25, 1986, as "National CPR Awareness Week".

SENATE RESOLUTION 505—RELATING TO GRIZZLY BEAR MANAGEMENT

Mr. MELCHER (for himself and Mr. BAUCUS) submitted the following resolution; which was referred to the Committee on Energy and Natural Resources:

S. RES. 505

Resolved, That it is the sense of the Senate that the Secretary of Interior using Federal and private wildlife biologists shall institute an investigative study and one or more experimental projects in managing grizzly bears in Yellowstone National Park with these goals:

1. Avoiding conflict between man and grizzly bears.
2. Assuring stability of the numbers of the Yellowstone Park grizzly aggregation.
3. Documenting the nutritional needs of grizzlies necessary for normal reproduction.
4. Determining whether the effects of eco-center management would contribute to alleviate conflict and secure grizzly nutrition.

SENATE RESOLUTION 506—RELATING TO APPROVAL OF THE CONVENTION ON THE PHYSICAL PROTECTION OF NUCLEAR MATERIALS

Mr. GLENN submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 506

Whereas the Convention on the Physical Protection of Nuclear Materials, opened for signature at Vienna and New York on March 3, 1980 (hereafter in this preamble referred to as the "Convention"), by its own terms requires the deposit of 21 instruments of ratification, acceptance, or approval before the Convention may enter into force;

Whereas the Convention has not entered into force for lack of the requisite number of ratifications, acceptances, or approvals; and

Whereas the Convention represents an important step toward international cooperation to prevent nuclear terrorism: Now, therefore, be it

Resolved, That it is the sense of the Senate that the President should make vigorous efforts to encourage the governments of signatory countries to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials, which was opened for signature at Vienna and New York on March 3, 1980.

SEC. 2. The Secretary of the Senate shall transmit a copy of this resolution to the President.

Mr. GLENN. Mr. President, as we all know, terrorism in the world is a growing and increasingly significant factor in the international system.

The growth of terrorism coupled with the proliferation of nuclear facilities and nuclear weapons, however, adds up to the most frightening and potentially destabilizing threats of modern times—nuclear terrorism. We know what havoc is wrought upon the world when terrorists decide to use conventional weaponry. It is hard for us to imagine what might happen if we had a nuclear terrorist incident.

All nations in the international community, particularly the developed nations of the West, must be concerned with the rising specter of nuclear terrorism.

In modern societies in which government monopolizes both the organized use of force and the control of nuclear weapons and nuclear materials, the citizenry must look to the state to prevent and combat the threat of nuclear terrorism.

For instance, the thought of nuclear weaponry or materials in the hands of individuals such as Mu'ammar Qadhafi or Idi Amin is staggering. I have followed the issue of nuclear proliferation for many years here in the Senate and I have taken a leadership role in this area. We have closely monitored the efforts of Qadhafi, for instance, to obtain nuclear weaponry, and we dread to think what would happen if someone of his nature and unpredictability obtained a nuclear weapon.

Several years ago, a young student walked into the office of the Subcommittee on Energy, Nuclear Proliferation, and Government Processes, laid some papers on the desk, and said that he would like the staff director, Dr. Leonard Weiss, to look at the drawings and see if in his scientific opinion he thought this atomic bomb design would work.

Well, Dr. Weiss examined those drawings, and he consulted with Dr. Henry Taylor. Dr. Taylor was a nuclear weapons design expert and he said that he thought this design would work.

That was 6 or 7 years ago. The spread of nuclear weapons knowledge around the world has increased since that time.

It would be wrong to think that terrorists could not bring themselves to use such weapons of mass destruction. Technological knowledge, such as that needed to create a nuclear explosive device, is a free good that spreads with the number of states that acquire such knowledge. The next several decades are likely to see a proliferation of nations acquiring nuclear capability. With the growth of nuclear proliferation will come the increased likelihood that these nuclear nations will lose their nuclear weapons, materials, or knowledge to terrorists or unstable revolutionary groups. It is highly unlikely that terrorism and the threat of nuclear terrorism is merely a passing phenomenon. The trend toward the politicization of religion, the increase in ethnic and nationalistic sentiments, and the increasing dichotomy between the haves and have nots in the world point toward its increase as a means of political protest and persuasion.

While terrorist access to nuclear materials represents the most obvious harbinger of nuclear terrorism, several additional factors point to the increased possibility of nuclear terrorism.

As has already been mentioned, the fanaticism which seems to grip terrorists would not preclude their willingness to use nuclear weaponry or materials. The essence of effective terrorism is the use or threat of using force indiscriminately. It is the randomness of applying violence that makes such acts so terrifying. The extraordinary zeal of Islamic fundamentalists is an excellent modern-day example of the fervor that can grip a terrorist or terrorist movement. Islamic zealots, willing to drive a truck full of explosives into the American Embassy in Beirut, Lebanon, display how far fanatics are willing to go to destroy a perceived enemy. These terrorists' belief in their

cause, combined with their unshakable conviction that God is on their side and that their suicide mission will automatically gain them entry into paradise is alien to most Americans. But if such terrorists are willing to make such sacrifices to kill so many, it is within the realm of possibility to think they might utilize nuclear terrorism to attain their goals.

Another factor that points to the possibility that terrorists might use nuclear weapons, closely linked to the previous factor, is the terrorist's apparent insensitivity to orthodox deterrence. A terrorist is someone who is unwilling to abide by social norms and what is generally conceived as being rational behavior. It stands to reason that terrorists gauging the costs and benefits of nuclear terrorism might completely ignore the fear of retaliation against them or the particular cause they espouse. Traditional deterrence, therefore, may have little if any appreciable effect on prospective nuclear terrorists. This dilemma underscores one of the greatest difficulties in dealing with any form of terrorism—combating the threat of terrorism without resorting to tactics that undermine a free society's institutions.

A third factor that points to the increased possibility of nuclear terrorism is the cooperation and collaboration among terrorist groups. This phenomenon has been primarily evident in the volatile Middle East where Qadhafi's regime encourages and supports numerous terrorist groups around the world and the Popular Front for the Liberation of Palestine [PFLP] which has collaborated with numerous terrorist groups from such diverse areas as Germany, Latin America, and Japan. This interterrorist cooperation has several implications. First, such cooperation among terrorist groups greatly increases the opportunities for terrorists to acquire nuclear weapons and materials. Since cooperation increases opportunities for sharing capital resources and expertise, obtaining nuclear weapons and materials is greatly enhanced when acquisition takes the form of self-development from raw fissionable materials. Second, interterrorist cooperation is likely to encourage the proliferation of nonstate nuclear devices, creating a network whereby such weapons can be spread across national borders. Third, interterrorist cooperation will be likely to increase the benefits to be derived from advanced training in the deployment and use of nuclear weaponry and materials. Finally, cooperation among terrorist groups is likely to foster reciprocal privileges such as safe havens and forged documents which would be needed for successful nuclear terrorist operations.

The final factor that points to the increased possibility of nuclear terrorism is the increased tolerance and support of terrorism within the international system. States that support terrorism, such as Khomeini's Iran and Qadhafi's Libya, do so with the belief that terrorism serves their national interests. Terrorists are undoubtedly considered as useful tools in the struggle for power and influence in the global system. Terrorism seems to be increasingly viewed by some states as a surrogate for conventional warfare.

The attraction of terrorism to extremist states seems certain to persist and grow.

AMERICA'S SUSCEPTIBILITY TO NUCLEAR TERRORISM

The United States is an ideal target for terrorism. America's extensive communications system provides the terrorist or terrorist group what it desires more than anything else—publicity for its cause. The enormous media coverage that would occur after a nuclear terrorist threat became public would effectively rivet national attention on the terrorists and their espoused cause and the ensuing hysteria could virtually compel the Government to succumb to terrorist demands. America's vast expanses and widespread transportation system would provide the terrorist with numerous safe-havens and rapid mobility which would permit escape from apprehension. In particular, the United States is the world's foremost modern, technological society, which makes it especially susceptible to the threat of nuclear terrorism.

America's densely populated cities provide the most vivid example of the vulnerability of a technological society. Some years ago, the entire city of New York lost all power after an upstate power transformer was hit by lightning and a technician failed to make the correct circuit adjustment. The city was virtually incapacitated for the duration of the blackout and crime rose dramatically. It is not difficult to imagine what kind of impact the use or threatened use of nuclear material would have on a large urban area.

America is a free society which justifiably prides itself on its openness and civil liberties. This very aspect of the United States makes it an appealing target for nuclear terrorism. The terrorist would not be subject to the constant surveillance and scrutiny that is evident in more repressive societies that lessen the opportunity to accumulate the necessary knowledge and materials to commit an act of nuclear terrorism. The Iranian hostage crisis also demonstrated the enormous prestige to be derived by a comparatively weak power incapacitating the United States. America stands as a symbol of strength in the international system and to be able to successfully extort demands from the most powerful nation in the world would be considered by many to be a considerable temptation.

Since World War II, it has been established that thousands of pounds of uranium and plutonium, materials needed for the construction of a nuclear device, have not been accounted for in the United States. Most experts agree that it is entirely possible for individuals to construct a crude nuclear device.

The threat of exploding a homemade nuclear device is not the only possibility. Terrorists may explode a crude nuclear weapon without warning in an effort to avoid detection and capture, and even misidentify themselves in the hope of igniting domestic repression or international chaos. One can only imagine the damage to be wrought by a 1 kiloton weapon, 20 times less powerful than the Hiroshima bomb, exploded outside the Capitol Building during a State of the Union Message. The U.S. Government would virtually cease to exist.

Another dimension to the threat of terrorism with nuclear weapons is the possibility that a terrorist group could steal a weapon from the U.S. arsenal of over 30,000 nuclear devices stockpiled in more than 100 military installations in the United States and abroad. While there is enormous security surrounding American nuclear weapons around the world, and while most American nuclear devices have highly sophisticated devices to prevent their unauthorized explosion, the possibility still exists that these nuclear weapons could fall into the hands of terrorists and be detonated.

Protection of America's far-flung nuclear arsenal is hampered by their wide dispersal around the globe where American security systems are dependent on the security systems of the host nation which are of varying reliability. Also, the weakness of local law enforcement agencies in most parts of the United States means that they are of little help in assisting Federal authorities in the event of a nuclear weapon theft.

Radiation dispersal devices in the hands of terrorists pose another serious threat to the United States. Radiation dispersal devices, in contrast to nuclear weapons, require less expertise, nuclear material, and production time by a terrorist group. Dispersal of a highly toxic carcinogen such as plutonium could have a devastating effect on the American public. The U.S. Atomic Energy Commission has estimated that the release of 4.4 pounds of plutonium oxide in fine powder form would result in 100 percent probability of developing lung or bone cancer up to 1,800 feet from the area of release, and a 1-percent risk of developing such cancer up to 40 miles downwind.

For the nuclear terrorist, the dispersion of nuclear material would undoubtedly be an attractive means to obtain his political ends. Authorities would be virtually unable to prevent the release of plutonium when it would be effectively dispersed over a wide, dense area by using such a simple device as a leaking container attached to the underside of a vehicle or dropping it from a tall building. Construction of such a dispersal device would require only a basic knowledge of nuclear chemistry and would thereby lessen the risks inherent in forming a larger terrorist network to design and assemble a nuclear weapon. Also, the enormous social and economic chaos that would certainly result after the announcement of radiation leakages would be tempting to terrorists in possession of plutonium.

The increased production of plutonium is another inducement to terrorists. A 1,000 megawatt light-water nuclear power reactor generates an estimated 440 pounds of plutonium each year—an appealing target to terrorists.

A third possible target for nuclear terrorists in the United States is a nuclear facility itself. While the construction of nuclear power reactors has slowed in the United States in the past decade, it is likely to grow in the future and with that growth is the increased risk that a terrorist group will seek to damage a nuclear facility in order to precipitate a radiation release.

CONFRONTING THE THREAT OF NUCLEAR TERRORISM

Mr. President, some individuals believe that it is essential to eradicate the conditions that spawn terrorism. It is argued that greater attention should be given to the legitimate economic, social, and political grievances of individuals in the United States and throughout the world as a viable means of combating terrorism and thereby reducing the threat of nuclear terrorism.

Undeniably, the injustices of the international system require attention, but to attempt to correct these grievances as the sole means of combating the menace of terrorism and the threat of nuclear terrorism is naive and unrealistic. When a neighborhood is confronted with a rising crime rate, the community does not initiate a study of the reasons for the criminals' behavior, but undertakes a program of increased vigilance and deterrence. The same is true of the nuclear threat to the United States.

As I have discussed, the threat of nuclear terrorism in the United States is real and growing. The American military's protection of the U.S. nuclear arsenal, private enterprise's control of nuclear materials pursuant to the regulations of the Atomic Energy Commission, and the nuclear emergency search team's ability to trace nuclear terrorist threats all provide considerable security from the threat of nuclear terrorism, yet no safeguard can be considered completely fail safe.

The United States is not a secure island, but a major force in a highly diverse international system whose members have widely divergent views as to what constitutes acceptable national behavior. As terrorism increases and nuclear knowledge, weapons, and materials spread throughout the world, the United States is increasingly likely to be the site of a nuclear terrorist incident. We must do everything we can to insure that such a catastrophic possibility does not occur.

THE REPORT OF THE INTERNATIONAL TASK FORCE ON THE PREVENTION OF NUCLEAR TERRORISM

Mr. President, on June 25, 1986, the Nuclear Control Institute of Washington, DC, issued a report by the International Task Force on the Prevention of Nuclear Terrorism. I believe that this report contains important suggestions on one of the most serious threats confronting the United States today.

The report contains numerous recommendations dealing with, among other things, the protection of nuclear weapons, nuclear materials, and nuclear facilities. I have written the Secretaries of Defense and Energy and the Chairman of the U.S. Nuclear Regulatory Commission to request their comments on the report's recommendations and what their respective agencies are going to do to encourage and implement the report's recommendations.

Mr. President, today I rise to offer a resolution that states that it is the sense of the Senate that the President should make vigorous efforts to encourage the governments of signatory countries to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials.

This treaty, although chiefly directed to shipments of peaceful nuclear materials between nations, does define a large range of nuclear terrorist acts and requires parties to make them criminal offenses and to provide for the prosecution of extradition of offenders under domestic law. The convention, which applies to "nuclear material used for peaceful purposes while in international transport," was agreed to in 1980 but has not come into force because only 18 of the required 21 states—including the United States—have ratified it. The Convention on the Physical Protection of Nuclear Materials represents an important step toward international cooperation to prevent nuclear terrorism.

Mr. President, I ask unanimous consent that a copy of the treaty itself, be printed in the RECORD.

There being no objection, the treaty was ordered to be printed in the RECORD, as follows:

CONVENTION ON THE PHYSICAL PROTECTION OF NUCLEAR MATERIAL

Signed at New York March 3, 1980.

Ratification advised by U.S. Senate July 30, 1981.

Ratified by U.S. President September 4, 1981.

The States Parties to This Convention,

Recognizing the right of all States to develop and apply nuclear energy for peaceful purposes and their legitimate interests in the potential benefits to be derived from the peaceful application of nuclear energy.

Convinced of the need for facilitating international co-operation in the peaceful application of nuclear energy.

Desiring to avert the potential dangers posed by the unlawful taking and use of nuclear material.

Convinced that offenses relating to nuclear material are a matter of grave concern and that there is an urgent need to adopt appropriate and effective measures to ensure the prevention, detection and punishment of such offenses,

Aware of the Need for international co-operation to establish, in conformity with the national law of each State Party and with this Convention, effective measures for the physical protection of nuclear material,

Convinced that this Convention should facilitate the safe transfer of nuclear material,

Stressing also the importance of the physical protection of nuclear material in domestic use, storage and transport,

Recognizing the important of effective physical protection of nuclear material used for military purposes, and understanding that such material is and will continue to be accorded stringent physical protection,

Have Agreed as follows:

* * *

2. With the exception of articles 3 and 4 and paragraph 3 of article 5, this Convention shall also apply to nuclear material used for peaceful purposes while in domestic use, storage and transport.

3. Apart from the commitments expressly undertaken by States Parties in the articles covered by paragraph 2 with respect to nuclear material used for peaceful purposes while in domestic use, storage and transport, nothing in this Convention shall be interpreted as affecting the sovereign rights of a State regarding the domestic use, storage and transport of such nuclear material.

ARTICLE 3

Each State Party shall take appropriate steps within the framework of its national law and consistent with international law to ensure as far as practicable that, during international nuclear transport, nuclear material within its territory, or on board a ship or aircraft under its jurisdiction insofar as such ship or aircraft is engaged in the transport to or from that State, is protected at the levels described in Annex I.

ARTICLE 4

1. Each State Party shall not export or authorize the export of nuclear material unless the State Party has received assurances that such material will be protected during the international nuclear transport at the levels described in Annex I.

2. Each State Party shall not import or authorize the import of nuclear material from a State not party to this Convention unless the State Party has received assurances that such material will during the international nuclear transport be protected at the levels described in Annex I.

3. A State Party shall not allow the transit of its territory by land or internal waterways or through its airports or seaports of nuclear material between States that are not parties to this Convention unless the State Party has received assurances as far as practicable that this nuclear material will be protected during international nuclear transport at the levels described in Annex I.

4. Each State Party shall apply within the framework of its national law the levels of physical protection described in Annex I to nuclear material being transported from a part of that State to another part of the same State through international waters or airspace.

5. The State Party responsible for receiving assurances that the nuclear material will be protected at the levels described in Annex I according to paragraphs 1 to 3 shall identify and inform in advance States which the nuclear material is expected to transit by land or internal waterways, or whose airports or seaports it is expected to enter.

6. The responsibility for obtaining assurances referred to in paragraph 1 may be transferred, by mutual agreement, to the State Party involved in the transport as the importing State.

7. Nothing in this article shall be interpreted as in any way affecting the territorial sovereignty and jurisdiction of a State, including that over its airspace and territorial sea.

ARTICLE 5

1. States Parties shall identify and make known to each other directly or through the International Atomic Energy Agency their central authority and point of contact having responsibility for physical protection of nuclear material and for co-ordinating recovery and response operations in the event of any unauthorized removal, use or alteration of nuclear material or in the event of credible threat thereof.

2. In the case of theft, robbery or any other unlawful taking of nuclear material or of credible threat thereof, States Parties shall, in accordance with their national law, provide co-operation and assistance to the maximum feasible extent in the recovery and protection of such material to any State that so requests. In particular:

(a) a State Party shall take appropriate steps to inform as soon as possible other States, which appear to it to be concerned, of any theft, robbery or other unlawful taking of nuclear material or credible threat thereof and to inform, where appropriate, international organizations;

(b) as appropriate, the States Parties concerned shall exchange information with each other or international organizations with a view to protecting threatened nuclear material, verifying the integrity of the shipping container, or recovering unlawfully taken nuclear material and shall:

(i) co-ordinate their efforts through diplomatic and other agreed channels;

(ii) render assistance, if requested;

(iii) ensure the return of nuclear material stolen or missing as a consequence of the above-mentioned events.

The means of implementation of this co-operation shall be determined by the States Parties concerned.

3. States Parties shall co-operate and consult as appropriate, with each other directly or through international organizations, with a view to obtaining guidance on the design, maintenance and improvement of systems of physical protection of nuclear material in international transport.

ARTICLE 6

1. States Parties shall take appropriate measures consistent with their national law to protect the confidentiality of any information which they receive in confidence by virtue of the provisions of this Convention from another State Party or through participation in an activity carried out for the implementation of this Convention. If States Parties provide information to international organizations in confidence, steps shall be taken to ensure that the confidentiality of such information is protected.

2. States Parties shall not be required by this Convention to provide any information which they are not permitted to communicate pursuant to national law or which would jeopardize the security of the State concerned or the physical protection of nuclear material.

ARTICLE 7

1. The intentional commission of:

(a) an act without lawful authority which constitutes the receipt, possession, use, transfer, alteration, disposal or dispersal of nuclear material and which causes or is likely to cause death or serious injury to any person or substantial damage to property;

(b) a theft or robbery of nuclear material;

(c) an embezzlement or fraudulent obtaining of nuclear material;

(d) an act constituting a demand for nuclear material by threat or use of force or by any other form of intimidation.

(e) a threat:

(i) to use nuclear material to cause death or serious injury to any person or substantial property damage, or

(ii) to commit an offense described in subparagraph (b) in order to compel a natural or legal person, international organization or State to do or to refrain from doing any act;

(f) an attempt to commit any offense described in paragraphs (a), (b) or (c); and

(g) an act which constitutes participation in any offense described in paragraphs (a) to (f) shall be made a punishable offense by each State Party under its national law.

2. Each State Party shall make the offenses described in this article punishable by appropriate penalties which take into account their grave nature.

ARTICLE 8

1. Each State Party shall take such measures as may be necessary to establish its jurisdiction over the offenses set forth in article 7 in the following cases:

(a) when the offense is committed in the territory of that State or on board a ship or aircraft registered in that State;

(b) when the alleged offender is a national of that State.

2. Each State Party shall likewise take such measures as may be necessary to establish its jurisdiction over these offenses in cases where the alleged offender is present in its territory and it does not extradite him pursuant to article 11 to any of the States mentioned in paragraph 1.

3. This Convention does not exclude any criminal jurisdiction exercised in accordance with national law.

4. In addition to the State Parties mentioned in paragraphs 1 and 2, each State Party may, consistent with international law, establish its jurisdiction over the offenses set forth in article 7 when it is involved in international nuclear transport as the exporting or importing State.

ARTICLE 9

Upon being satisfied that the circumstances so warrant, the State Party in whose territory the alleged offender is present shall take appropriate measures, including detention, under its national law to ensure his presence for the purpose of prosecution or extradition. Measures taken according to this article shall be notified without delay to the States required to establish jurisdiction to article 8 and, where appropriate, all other States concerned.

ARTICLE 10

The State Party in whose territory the alleged offender is present shall, if it does not extradite him, submit, without exception whatsoever and without undue delay, the case to its competent authorities for the purpose of prosecution, through proceedings in accordance with the laws of that State.

ARTICLE 11

1. The offenses in article 7 shall be deemed to be included as extraditable offenses in any extradition treaty existing between States Parties. States Parties undertake to include those offenses as extraditable offenses in every future extradition treaty to be concluded between them.

2. If a State Party which makes extradition conditional on the existence of a treaty receives a request for extradition from another State Party with which it has no extradition treaty, it may at its option consider this Convention as the legal basis for extradition in respect of those offenses. Extradition shall be subject to the other conditions provided by the law of the requested State.

3. States Parties which do not make extradition conditional on the existence of a treaty shall recognize those offenses as extraditable offenses between themselves subject to the conditions provided by the law of the requested State.

4. Each of the offenses shall be treated for the purpose of extradition between States Parties, as if it had been committed not only in the place in which it occurred but also in the territories of the States Parties required to establish their jurisdiction in accordance with paragraph 1 of article 8.

ARTICLE 12

Any person regarding whom proceedings are being carried out in connection with any of the offenses set forth in article 7 shall be guaranteed fair treatment at all stages of the proceedings.

ARTICLE 13

1. States Parties shall afford one another the greatest measure of assistance in connection with criminal proceedings brought in respect of the offenses set forth in article 7, including the supply of evidence at their disposal necessary for the proceedings. The law of the State requested shall apply in all cases.

2. The provisions of paragraph 1 shall not affect obligations under any other treaty, bilateral or multilateral, which governs or will govern, in whole or in part, mutual assistance in criminal matters.

ARTICLE 14

1. Each State Party shall inform the depositary of its laws and regulations which give effect of this Convention. The depositary shall communicate such information periodically to all States Parties.

2. The State Party where an alleged offender is prosecuted shall, wherever practicable, first communicate the final outcome

of the proceedings to the States directly concerned. The State Party shall also communicate the final outcome to the depositary who shall inform all States.

3. Where an offense involves nuclear material used for peaceful purposes in domestic use, storage or transport, and both the alleged offender and the nuclear material remain in the territory of the State Party in which the offense was committed, nothing in this Convention shall be interpreted as requiring that State Party to provide information concerning criminal proceedings arising out of such an offense.

ARTICLE 15

The Annexes constitute an integral part of this Convention.

ARTICLE 16

1. A conference of States Parties shall be convened by the depositary five years after the entry into force of this Convention to review the implementation of the Convention and its adequacy as concerns the preamble, the whole of the operative part and the annexes in the light of the then prevailing situation.

2. At intervals of not less than five years thereafter, the majority of States Parties may obtain, by submitting a proposal to this effect to the depositary, the convening of further conferences with the same objective.

ARTICLE 17

1. In the event of a dispute between two or more States Parties concerning the interpretation or application of this Convention, such States Parties shall consult with a view to the settlement of the dispute by negotiation, or by any peaceful means of settling disputes acceptable to all parties to the dispute.

2. Any dispute of this character which cannot be settled in the manner prescribed in paragraph 1 shall, at the request of any party to such dispute, be submitted to arbitration or referred to the International Court of Justice for decision. Where a dispute is submitted in arbitration, if, within six months from the date of the request, the parties to the dispute are unable to agree on the organization of the arbitration, a party may request the President of the International Court of Justice or the Secretary-General of the United Nations to appoint one or more arbitrators. In case of conflicting requests by the parties to the dispute, the request to the Secretary-General of the United Nations shall have priority.

3. Each State Party may at the time of signature, ratification, acceptance or approval of this Convention or accession thereto declare that it does not consider itself bound by either or both of the dispute settlement procedures provided for in paragraph 2. The other States Parties shall not be bound by a dispute settlement procedure provided for in paragraph 2, with respect to a State Party which has made a reservation to that procedure.

4. Any State Party which has made a reservation in accordance with paragraph 3 may at any time withdraw that reservation by notification to the depositary.

ARTICLE 18

1. This Convention shall be open for signature by all States at the Headquarters of the International Atomic Energy Agency in Vienna and at the Headquarters of the United Nations in New York from 3 March 1980 until its entry into force.

2. This Convention is subject to ratification, acceptance or approval by the signatory States.

3. After its entry into force, this Convention will be open for accession by all States.

4. (a) This Convention shall be open for signature or accession by international organizations and regional organizations of an integration or other nature, provided that any such organization is constituted by sovereign States and has competence in respect of the negotiation, conclusion and application of international agreements in matters covered by this Convention.

(b) In matters within their competence, such organizations shall, on their own behalf, exercise the rights and fulfill the responsibilities which this Convention attributes to States Parties.

(c) When becoming party to this Convention such an organization shall communicate to the depositary a declaration indicating which States are members thereof and which articles of this Convention do not apply to it.

(d) Such an organization shall not hold any vote additional to those of its Member States.

5. Instruments of ratification, acceptance, approval or accession shall be deposited with the depositary.

ARTICLE 19

1. This Convention shall enter into force on the thirtieth day following the date of deposit of the twenty first instrument of ratification, acceptance or approval with the depositary.

2. For each State ratifying, accepting, approving or acceding to the Convention after the date of deposit of the twenty first instrument of ratification, acceptance or approval, the Convention shall enter into force on the thirtieth day after the deposit by such State of its instrument of ratification, acceptance, approval or accession.

ARTICLE 20

1. Without prejudice to article 16 a State Party may propose amendments to this Convention. The proposed amendment shall be submitted to the depositary who shall circulate it immediately to all States Parties. If a majority of States Parties request the depositary to convene a conference to consider the proposed amendments, the depositary shall invite all States Parties to attend such a conference to begin not sooner than thirty days after the invitations are issued. Any amendment adopted at the conference by a two-thirds majority of all States Parties shall be promptly circulated by the depositary to all States Parties.

2. The amendment shall enter into force for each State Party that deposits its instrument of ratification, acceptance or approval of the amendment on the thirtieth day after the date on which two thirds of the States Parties have deposited their instruments of ratification, acceptance or approval with the depositary. Thereafter, the amendment shall enter into force for any other State Party on the day on which that State Party deposits its instrument of ratification, acceptance or approval of the amendment.

ARTICLE 21

1. Any State Party may denounce this Convention by written notification to the depositary.

2. Denunciation shall take effect one hundred and eighty days following the date on which notification is received by the depositary.

ARTICLE 22

The depositary shall promptly notify all States of:

(a) each signature of this Convention;

(b) each deposit of an instrument of ratification, acceptance, approval or accession;

(c) any reservation or withdrawal in accordance with article 17;

(d) any communication made by an organization in accordance with paragraph 4(c) of article 18;

(e) the entry into force of this Convention;

(f) the entry into force of any amendment to this Convention; and

(g) any denunciation made under article 21.

ARTICLE 23

The original of this Convention, of which the Arabic, Chinese, English, French, Russian and Spanish texts are equally authentic, shall be deposited with the Director General of the International Atomic Energy Agency who shall send certified copies thereof to all States.

ANNEX I

LEVELS OF PHYSICAL PROTECTION TO BE APPLIED IN INTERNATIONAL TRANSPORT OF NUCLEAR MATERIAL AS CATEGORIZED IN ANNEX II

1. Levels of physical protection for nuclear material during storage incidental to international nuclear transport include:

(a) For Category III materials, storage within an area to which access is controlled;

(b) For Category II materials, storage within an area under constant surveillance by guards or electronic devices, surrounded by a physical barrier with a limited number of points of entry under appropriate control or any area with an equivalent level of physical protection:

(c) For Category I material, storage within a protected area as defined for Category II above, to which, in addition, access is restricted to persons whose trustworthiness has been determined, and which is under surveillance by guards who are in close communication with appropriate response forces. Specific measures taken in this context should have as their object the detection and prevention of any assault, unauthorized access or unauthorized removal of material.

2. Levels of physical protection for nuclear material during international transport include:

(a) For Category II and III materials, transportation shall take place under special precautions including prior arrangements among sender, receiver, and carrier, and prior agreement between natural or legal persons subject to the jurisdiction and regulation of exporting and importing States, specifying time, place and procedures for transferring transport responsibility;

(b) For Category I materials, transportation shall take place under special precautions identified above for transportation of Category II and III materials, and in addition, under constant surveillance by escorts and under conditions which assure close communication with appropriate response forces;

(c) For natural uranium other than in the form of ore or ore-residue, transportation protection for quantities exceeding 500 kilograms U shall include advance notification of shipment specifying mode of transport, expected time of arrival and confirmation of receipt of shipment.

In witness whereof, the undersigned, being duly authorized, have signed this Convention, opened for signature at Vienna and at New York on 3 March 1980.

AMENDMENTS SUBMITTED

ADDITIONAL POSITIONS IN THE DEPARTMENT OF LABOR

HATCH AMENDMENT NO. 3271

Mr. PACKWOOD (for Mr. HATCH) proposed an amendment to the bill (S. 2864) to provide for a Deputy Secretary of Labor, an Assistant Secretary of Labor for Administration and Management, three additional Assistant Secretaries of Labor, and for other purposes as follows:

In the amendment to section 5315 of title 5, United States Code, made by section 2(b)(2), strike "(9)" and insert "(10)".

In section 2(e), strike out "Act" and insert "section".

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION AUTHORIZATION ACT

GORTON AMENDMENT NO. 3272

Mr. PACKWOOD (for Mr. GORTON) proposed an amendment to the bill (H.R. 5495) to authorize appropriations to the National Aeronautics and Space Administration, and for other purposes; as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

That this Act may be cited as the "National Aeronautics and Space Administration Authorization Act, 1987".

SEC. 2. There is authorized to be appropriated to the National Aeronautics and Space Administration to become available October 1, 1986:

(a) For "Research and development", for the following programs:

(1) Space station, $410,000,000;

(2) Space transportation capability development, $515,500,000;

(3) Physics and astronomy, $529,400,000;

(4) Life sciences, $74,300,000;

(5) Planetary exploration, $374,300,000;

(6) Space applications; $552,600,000;

(7) Technology utilization, $13,300,000;

(8) Commercial use of space, $27,000,000;

(9) Aeronautical research and technology, $376,000,000;

(10) Transatmospheric research and technology, $40,000,000;

(11) Space research and technology, $183,200,000; and

(12) Tracking and data advanced systems, $17,100,000.

(b) For "Space flight, control and data communications", for the following programs:

(1) Space shuttle production and operational capability, $783,800,000;

(2) Space transportation operations, $1,350,700,000; and

(3) Space and ground network, communications and data systems, $860,900,000.

(c) For "Construction of facilities", including land acquisition, as follows:

(1) Construction of addition to Orbiter Processing Facility Annex, John F. Kennedy Space Center, $3,400,000;

(2) Construction of addition to the Systems Integration and Mockup Laboratory, Johnson Space Center, $5,000,000;

(3) Construction of Central Computing Facility, Johnson Space Center, $9,000,000;

(4) Modifications to Test Stand 300 for Space Station Hydrogen/Oxygen Propulsion Systems Development, George C. Marshall Space Flight Center, $2,100,000;

(5) Construction of Spacecraft Systems Development and Integration Facility, Goddard Space Flight Center, $8,000,000;

(6) Construction of Engineering Support Building, Jet Propulsion Laboratory, $9,800,000;

(7) Modification of Uninterruptible Power System in Space Flight Operations Facility, Jet Propulsion Laboratory, $2,600,000;

(8) Construction of Human Performance Research Laboratory, Ames Research Center, $9,400,000;

(9) Construction of Integrated Test Facility, Dryden Flight Research Facility, $17,500,000;

(10) Modifications to 8-Foot High Temperature Tunnel, Langley Research Center, $9,700,000;

(11) Construction of addition for Non-Destructive Evaluation Research Laboratory, Langley Research Center, $2,000,000;

(12) Construction of Power Systems Facility, Lewis Research Center, $5,800,000;

(13) Construction of the Second Tracking and Data Relay Satellite System Ground Terminal Facility, New Mexico, $22,000,000;

(14) Repair of facilities at various locations, not in excess of $750,000 per project, $24,000,000;

(15) Rehabilitation and modification of facilities at various locations, not in excess of $750,000 per project, $30,000,000;

(16) Minor construction of new facilities and additions to existing facilities at various locations, not in excess of $500,000 per project, $7,000,000; and

(17) Facility planning and design not otherwise provided for, $14,000,000.

Notwithstanding paragraphs (1) through (17) of this subsection, the total amount authorized by this subsection shall not exceed $161,300,000.

(d) For "Research and program management", $1,425,000,000.

(e) Notwithstanding the provisions of subsection (h), appropriations authorized in this Act for "Research and development" and "Space flight, control and data communications" may be used for (1) any items of a capital nature (other than acquisition of land) which may be required at locations other than installations of the Administration for the performance of research and development contracts, and (2) grants to nonprofit institutions of higher education, or to nonprofit organizations whose primary purpose is the conduct of scientific research, for purchase or construction of additional research facilities; and title to such facilities shall be vested in the United States unless the Administrator determines that the national program of aeronautical and space activities will best be served by vesting title in any such grantee institution or organization. Each such grant shall be made under such conditions as the Administrator shall determine to be required to ensure that the United States will receive therefrom benefit adequate to justify the making of that grant. None of the funds appropriated for "Research and development" and "Space flight, control and data communications" pursuant to this Act may be used in accordance with this subsection for the construction of any major facility, the estimated cost of which, including collateral equipment, exceeds $500,000, unless the Administrator or the Administrator's designee has notified the President of the Senate and the Speaker of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives of the nature, location, and estimated cost of such facility.

(f) When so specified and to the extent provided in an appropriation Act, (1) any amount appropriated for "Research and development," for "Space flight, control and data communications" or for "Construction of facilities" may remain available without fiscal year limitation, and (2) maintenance and operation of facilities and support services contracts may be entered into under the "Research and program management" appropriation for periods not in excess of 12 months beginning at any time during the fiscal year.

(g) Appropriations made pursuant to subsection (d) may be used, but not to exceed $35,000, for scientific consultations or extraordinary expenses upon the approval or authority of the Administrator, and the Administrator's determination shall be final and conclusive upon the accounting officers of the Government.

(h) Of the funds appropriated pursuant to subsections (a), (b), and (d), not in excess of $100,000 for each project, including collateral equipment, may be used for construction of new facilities and additions to existing facilities, and for repair, rehabilitation, or modification of facilities: *Provided*, That, of the funds appropriated pursuant to subsection (a) or (b), not in excess of $500,000 for each project, including collateral equipment, may be used for any of the foregoing for unforeseen programmatic needs.

SEC. 3. Authorization is granted whereby any of the amounts prescribed in paragraphs (1) through (11) of section 2(c) of this Act—

(1) in the discretion of the Administrator or the Administrator's designee, may be varied upward 10 percent, or

(2) following a report by the Administrator or the Administrator's designee to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives on the circumstances of such action, may be varied upward 25 percent,

to meet unusual cost variations, but the total cost of all work authorized under such paragraphs shall not exceed the total of the amounts specified in such paragraphs.

SEC. 4. Not to exceed one-half of 1 percent of the funds appropriated pursuant to section 2 (a) or (b) of this Act may be transferred to and merged with the "Construction of facilities" appropriation, and when so transferred, together with $10,000,000 of funds appropriated pursuant to section 2(c) of this Act (other than funds appropriated pursuant to paragraph (12) of such section) shall be available for expenditure to construct, expand, and modify laboratories and other installations at any location (including locations specified in section 2(c)), if (1) the Administrator determines that such action is necessary because of changes in the national program of aeronautical and space activities or new scientific or engineering developments, and (2) the Administrator determines that deferral of such action until the enactment of the next authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities. The funds so make available may be expended to acquire, construct, con-

vert, rehabilitate, or install permanent or temporary public works, including land acquisition, site preparation, appurtenances, utilities, and equipment. No portion of such sums may be obligated for expenditure or expended to construct, expand, or modify laboratories and other installations unless a period of 30 days has passed after the Administrator or the Administrator's designee has transmitted to the President of the Senate and to the Speaker of the House of Representatives and to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives a written report containing a full and complete statement concerning (A) the nature of such construction, expansion, or modification, (B) the cost thereof including the cost of any real estate action pertaining thereto, and (C) the reason why such construction, expansion, or modification is necessary in the national interest.

SEC. 5. Notwithstanding any other provision of this Act, no amount appropriated pursuant to this act may be used for any program—

(1) deleted by the Congress from requests as originally made either to the Committee on Commerce, Science, and Transportation of the Senate or the Committee on Science and Technology of the House of Representatives;

(2) in excess of the amount actually authorized for that particular program by section 2 (a), (b), and (d); and

(3) which has not been presented to either such committee,

unless a period of 30 days has passed after the receipt by the President of the Senate and the Speaker of the House of Representatives and each such committee of notice given by the Administrator or the Administrator's designee containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

SEC. 6. The President shall, on the date of the submittal to the Congress of a budget for the National Aeronautics and Space Administration for fiscal year 1988, submit to the Congress budget estimates for the recommended level of program activity and subactivity funding for fiscal years 1989 and 1990 of a permanently manned space station.

SEC. 7. No civil space station authorized under section 2(a)(1) of this Act may be used to carry or place in orbit any nuclear weapon or any other weapon of mass destruction, to install any such weapon on any celestial body, or to station any such weapon in space in any other manner. This civil space station may be used only for peaceful purposes.

SEC. 8. It is the sense of the Congress that it is in the national interest that consideration be given to geographical distribution of Federal research funds whenever feasible, and that the National Aeronautics and Space Administration should explore ways and means of distributing its research and development funds whenever feasible.

SEC. 9. (a) Section 24 of the Commercial Space Launch Act (49 App. U.S.C. 2623) is amended by adding at the end thereof the following: "There is authorized to be appropriated to the Secretary to carry out this Act $1,120,000 for fiscal year 1987.".

(b) Section 5(a)(1) of the Commercial Space Launch Act (49 App. U.S.C. 2604(a)(1)) is amended to read as follows:

"(1) pursuant to authorization and subject to the availability of appropriations, encourage and facilitate commercial space launches by the private sector, in consonance with the space policies of the United States as established in public law; and".

(c) Section 15(b) of the Commercial Space Launch Act (49 App. U.S.C. 2614(b)) is amended—

(1) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(2) by inserting after paragraph (1) the following:

"(2) For purposes of paragraph (1), direct costs shall not include costs associated with meeting the space transportation needs of the United States. Notwithstanding the provisions of this paragraph, charges for the use of government payload processing facilities and associated services for comemrcial payloads shall continue to be based on the current full cost recovery standard.".

SEC. 10. The Administrator of the National Aeronautics and Space Administration shall review the proposed space agenda submitted by the National Commission on Space pursuant to title II of the National Aeronautics and Space Administration Authorization Act, 1985 (Public Law 98-361; 98 Stat. 427) and recommend to the appropriate committees of the Congress a long-range plan to implement such proposed space agenda, including a specific agenda for the five-year period beginning on the date of enactment of this Act. Such recommendations shall be made not later than February 15, 1987.

SEC. 11. (a) The Administrator of the National Aeronautics and Space Administration shall prepare and submit to the Congress, not later than March 31, 1987, a comprehensive acquisition strategy and plan for the continued procurement of space shuttle solid rocket motors. Such strategy and plan shall specifically address (1) the decisions made by the Administrator regarding the motor design or designs, (2) alternatives for establishing and maintaining competition in the future procurements, and (3) costs and benefits of each such alternative.

(b) Upon completion of the solid rocket motor redesign and the upgraded motor evaluation efforts, and the determination of a safe and reasonable flight rate, but before signing or extending any production contract for follow-on solid rocket motors beyond those currently under contract, the Administrator shall (1) issue a request for proposal for a second source for a redesigned motor, or (2) issue a request for proposal for an upgraded motor.

(c) The Administrator shall determine whether a request to the Congress for second source qualification funding is necessary or desirable in order to permit the second source to compete with the incumbent on a fair and effective basis, consistent with the Competition in Contracting Act of 1984 (Public Law 98-369; 98 Stat. 1175).

(d) The Administrator shall consider the competitive advantages of the nozzle and solid rocket motor separately. No determination of the advantages of the second source of either the solid rocket motor or the nozzle shall preclude a judgment on the advantages of the other. In evaluating proposals received in response to the request for proposal issued pursuant to subsection (b) of this section, the Administrator shall consider costs and cost savings in accordance with applicable law.

(e) The comprehensive acquisition strategy and plan prepared under subsection (a) of this section and proposals for a second source for a redesigned motor under subsection (b) of this section shall apply to all modifications of the solid rocket motor that are intended for production.

(f) In addition to the requirements of subsection (b) of this section, the Administrator, before signing or extending any production contract for follow-up solid rocket motors beyond those currently under contract, shall notify the Congress of the number of additional solid rocket motors required in order to allow the space shuttle transportation system to continue to operate if a new contractor, selected pursuant to subsection (b)(1) or (2) of this section, is not able to provide any of such additional solid rocket motors. The Administrator shall not sign or extend any such contract until a period of 30 calendar days during which either House of Congress is in session has passed after the date of such notification.

(g) Nothing in this section shall be construed to direct the Administrator to select and qualify a second source or upgraded source of production for solid rocket motors if the proposals received pursuant to subsection (b)(1) of this section are inconsistent with the requirements of section 2304(b)(1) of title 10, United States Code, or if the proposals received pursuant to subsection (b)(2) of this section are inconsistent with the requirements of section 2304(a)(1) of title 10, United States Code.

SEC. 12. (a) It is the sense of the Congress that the United States must promptly restore its space transportation capabilities and such restoration must be accomplished without deemphasizing other space programs.

(b) The Administrator of the National Aeronautics and Space Administration is directed to take the necessary steps to return safely the space shuttle fleet to flight status.

(c) There are authorized to be appropriated for fiscal year 1987 $100,600,000 to carry out this section.

SEC. 13. (a)(1) The Administrator of the National Aeronautics and Space Administration shall promptly take such steps as may be necessary to construct a fourth space shuttle orbiter as a replacement for the space shuttle orbiter Challenger.

(2) There are authorized to be appropriated for fiscal year 1987 $272,000,000 to begin the construction required by paragraph (1) of this subsection.

(b) The Administrator shall explore the availability of private funding for construction of the replacement orbiter authorized by subsection (a) of this section. The Administrator shall accept private funding for such construction—

(1) if the Administrator finds that such private funding is available; and

(2) if the Administrator finds that such funding—

(A) is in the best interests of the United States; and

(B) results in no additional net costs to the Federal Government.

Private funding accepted under this subsection shall replace appropriated funding obligated or expended for such a replacement orbiter.

SEC. 14. (a) The Administrator of the National Aeronautics and Space Administration, in cooperation with the Secretary of Defense, and before July 1, 1987, shall submit to the Congress a five-year plan, to be updated annually and presented to Con-

gress along with the President's annual budget request, setting forth—

(1) a schedule for planned reimbursements from the Department of Defense for space shuttle services; and

(2) a schedule for the provision of such services.

(b) There is authorized to be appropriated for fiscal year 1987 $531,000,000 as payment to the National Aeronautics and Space Administration for reimbursable services provided to the Department of Defense.

SEC. 15. (a) The space shuttle shall be the primary United States launch system for manned missions and missions needing its unique capabilities. The space shuttle shall also be available for other missions, including the launch of non-shuttle-unique foreign and commercial payloads, pursuant to the priorities specified in subsection (b)(2) of this section.

(b) The Administrator of the National Aeronautics and Space Administration shall make best efforts to develop a space shuttle launch manifest that—

(1) ensures that existing commitments of the National Aeronautics and Space Administration to its customers, including launch service agreements, are met within the priority constraints contained in paragraph (2) of this subsection; and

(2) reflects the following priorities (in descending order):

(A) Payloads deemed critical to the national security.

(B) Significant civil government missions, including those having limited launch opportunities.

(C) Government payloads other than those referred to in subparagraphs (A) and (B) of this paragraph.

(D) Payloads other than those referred to in subparagraphs (A) through (C) of this paragraph, including foreign and commercial payloads.

(c) The Administrator shall submit the current flight manifest to the Congress reflecting the priorities contained in this section not later than November 1, 1986. The Administrator shall keep the Congress fully and currently informed of the status of the flight manifest.

SEC. 16. (a) It is the sense of the Congress that the shuttle pricing policy established in title II of the National Aeronautics and Space Administration Authorization Act of 1986 (Public Law 99-170; 99 Stat. 1017) remains valid and should be implemented so as to assure reliable access to space for all United States space users.

(b) In the report required by title II of such Act submitted with the budget request for fiscal year 1988, the Administrator of the National Aeronautics and Space Administration shall include a description of how the Administrator's implementation of the pricing policy will accomplish the objectives of this section.

SEC. 17. (a) It is the sense of the Congress that in order to ensure reliable access to space, in order to meet national security, scientific, and commercial objectives of the United States space program, and in order to ensure that the United States does not concede the commercial launch vehicle business to foreign competition, the United States should utilize the capability of expendable launch vehicles as well as the space shuttle for placing govenment payloads into orbits.

(b) In order to meet the requirements of subsection (a) of this section, the Administrator of the National Aeronautics and Space Administration shall develop a plan for the purchase, through competitive procurement, of expendable launch vehicle services for the purpose of launching government payloads, as aggregated by the Administrator. The services purchased under this subsection shall be provided on a reimbursable basis.

(c) The Administrator shall report to the Congress on how the Administrator will carry out this section not later than February 15, 1987. Such report shall include—

(1) an estimate of expendable launch vehicle requirements for the five years following the date of enactment of this Act;

(2) an explanation of how the National Aeronautics and Space Administration intends to utilize expendable launch vehicle launches for future civil launch requirements, including but not limited to the availability of a commercial expendable launch vehicle capability, a National Aeronautics and Space Administration expendable launch vehicle capability, and a Department of Defense expendable launch vehicle capability;

(3) an explanation of how such utilization of expendable launch vehicles can be carried out in a manner which fosters the development of a competitive expendable launch vehicle industry;

(4) a proposed procurement plan for commercial expendable launch vehicle services for the five years following the date of enactment of this Act; and

(5) an estimate of the authorizations of appropriations that are necessary to procure launch services for United States Government satellites by expendable launch vehicles for fiscal year 1988 and the four succeeding fiscal years.

SEC. 18. (a) Congress finds that the National Aeronautics and Space Administration should take every action available to it to restore, to its previous standards of excellence, its commitment to quality assurance, reliability, and safety.

(b) The Administrator of the National Aeronautics and Space Administration shall identify as a separate item in the budget submitted by the President under section 1105 of title 31, United States Code, for any fiscal year, the number of individuals per facility of the National Aeronautics and Space Administration whose functions relate to quality assurance, reliability, and safety.

SEC. 19. (a) There is hereby established, in the Executive Office of the President, the National Aeronautics and Space Council (hereinafter called the "Council") which shall be composed of—

(1) the Vice President, who shall be Chairman of the Council;

(2) the Secretary of State;

(3) the Secretary of Defense;

(4) the Secretary of Transportation;

(5) the Secretary of Commerce;

(6) the Director of Central Intelligence; and

(7) the Administrator of the National Aeronautics and Space Administration, who shall be the Vice Chairman of the Council.

(b) The President shall from time to time designate one of the members of the Council to preside over meetings of the Council during the absence, disability, or unavailability of the Chairman.

(c) Each member of the Council may designate another officer of their department or agency to serve on the Council as their alternative in their unavoidable absence.

(d) Each alternate member designated under subsection (c) of this section shall be designated to serve as such by and with the advice and consent of the Senate unless at the time of such member's designation the member holds an office in the Federal Government to which the member was appointed by and with the advice and consent of the Senate.

(e) It shall be the function of the Council to advise and assist the president, as the President may request, with respect to the performance of functions in the aeronautics and space field, including the following functions:

(1) survey all significant aeronautical and space activities, including the policies, plans, programs, and accomplishments of the United States, including all departments and agencies of the United States engaged in such activities, and other nations;

(2) develop a comprehensive program of aeronautical and space activities to be conducted by departments and agencies of the United States;

(3) designate and fix responsibility for the direction of major aeronautical and space activities;

(4) provide for effective cooperation among all departments and agencies of the United States engaged in aeronautical and space activities, and specify, in any case in which primary responsibility for any category of aeronautical and space activities has been assigned to any department or agency, which of those activities may be carried on concurrently by other departments or agencies; and

(5) resolve differences arising among departments and agencies of the United States with respect to aeronautical and space activities under this Act, including differences as to whether a particular project is an aeronautical and space activity.

(f) The Council may employ a staff to be headed by a civilian executive secretary who shall be appointed by the President by and with the advice and consent of the Senate. The executive secretary, subject to the direction of the Council, is authorized to appoint and fix the compensation of such personnel, including not more than seven persons, as may be necessary to perform such duties as may be prescribed by the Council in connection with the performance of its functions. Each appointment under this subsection shall be subject to the same security requirements as those established for personnel of the National Aeronautics and Space Administration appointed under section 203(c)(2) of this Act. Other provisions of law or regulations relating to Government employment shall apply to employees of the Council reporting directly to the Chairman to the extent that such provisions are applicable to employees in the Office of the Vice President.

(g)(1) The Council shall establish a Users' Advisory Group composed of nine non-Federal representatives of industries and other persons involved in space activities.

(2) The Vice President shall name a Chairman of the Users' Advisory Group.

(3) The Council shall from time to time, but not less often that once a year, meet with the Users' Advisory Group.

(4) The functions of the Users' Advisory Group is to ensure that the interests of industries and other non-Federal entities involved in space activities, including in particular commercial entities, are adequately represented in the Council.

(5) The Users' Advisory Group may be assisted by the staff of the Council.

SEC. 20. The Administrator of the National Aeronautics and Space Administration shall submit a report to the Congress by January 30, 1987, detailing the Administra-

tor's actions to comply with Executive Order 12564.

SEC. 21. (a) The Congress finds and declares that—

(1) The implementation of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4201 et seq.) has begun and some of the major milestones contained in such Act have been met;

(2) the Congress remains strongly committed to the guiding principles set forth in such Act;

(3) notwithstanding the accomplishments thus far, the relationships among the involved Federal agencies and the private sector have not been adequately defined; and

(4) inasmuch as the technical development and commercial applications of future land remote-sensing systems cannot now be predicted with certainty, it is in the national interest of the United States that the involved Federal agencies and the private sector remain flexible in carrying out their respective responsibilities under such Act.

(b) It is therefore the purpose of this section to set forth amendments to the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4201 et seq.) to ensure that—

(1) the original intent of such Act is carried out in the most effective manner consistent with the guiding principles expressed in such Act;

(2) specific mechanisms for carrying out the original intent of such Act are provided in those cases where none have materialized thus far; and

(3) the working relationships among involved Federal agencies and private sector parties for the purpose of carrying out such Act are fully developed and mutually understood.

(c) Section 202(a)(4) of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4212(a)(4)) is amended by inserting before the semi-colon the following: ", except in the case of research and development activities conducted in accordance with section 504".

(d) Title III of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4221 et seq.) is amended by adding at the end thereof the following:

"DISPOSITION OF GOVERNMENT ASSETS

"SEC. 308. Following the completion of a contract made pursuant to this title, the Secretary may, upon 30 days advance notice to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science and Technology of the House of Representatives, dispose of assets (other than real property) under the control of the Secretary in a manner which best ensures the continuation of the contractor's commercial activity.".

(3) Section 502 of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4262) is amended to read as follows:

"RESEARCH AND DEVELOPMENT ACTIVITIES OF FEDERAL AGENCIES

SEC. 502. Each Federal agency is authorized and encouraged to provide data gathered in experimental remote-sensing space programs to related research and development programs funded by the Federal Government (including applications programs) and to cooperative research programs if the Federal agency involved determines that the data will not be used—

"(1) for any commercial purpose, or

"(2) in substantial competition with data available from a licensee under this Act,

except pursuant to section 503.".

(f) Title V of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4261 et seq.) is amended by adding at the end thereof the following:

"RESEARCH AND DEVELOPMENT ACTIVITIES OF SYSTEM OPERATORS

"SEC. 504. Notwithstanding section 601, any system operator under title II, III, or IV, or any marketing entity under section 503, may provide data for research and development programs if—

"(1) a complete and timely disclosure of the results of such research and development is made in the open technicial literature or is otherwise made publicly available;

"(2) the system operator or marketing entity provides to the Secretary an annual report of all research and development data transactions including the nature of any cooperative agreements and the prices charged for data; and

"(3) the data are not used for commercial purposes or in substantial competition with data available from a licensee under this Act.".

(g) Section 603 of the Land Remote-Sensing Commercialization Act of 1984 (15 U.S.C. 4273) is amended to read as follows:

"NONREPRODUCTION

"SEC. 603. In addition to such other terms and conditions as the system operator may set forth in compliance with section 601, the system operator may require that unenhanced data not be reproduced or disseminated by any foreign or domestic purchaser.".

SEC. 22. (a) There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its public warning and forecast service duties under law, $330,598,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to public warning and forecast specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1890 (15 U.S.C. 311 et seq.), the Act entitled "An Act to define the functions and duties of the Coast and Geodetic Survey, and for other purposes", approved August 6, 1947 (33 U.S.C. 883a et seq.), and by any other law involving such duties. Such duties include meteorological, hydrological, and oceanographic public warnings and forecasts.

(b) Of the amount authorized to be appropriated by subsection (a) of this section, $45,500,000 is authorized to be appropriated only for activities related to the Next Generation Weather Radar Program. Such activities may include site surveys, preparation for production radars, limited radar production, initial operational test and evaluation of radars, training of personnel, release of long lead items for full production, award of the production contract, and land acquisition for radar sites.

SEC. 23. There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its atmospheric and hydrological research duties under law, $68,044,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to atmospheric and hydrological research specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1890 (15 U.S.C. 311 et seq.,), and by any other law involving such duties. Such duties include research for developing improved prediction capabilities for atmospheric and hydrological processes.

SEC. 24. There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its satellite services duties under law, $72,606,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to satellite services specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1890 (15 U.S.C. 311 et seq.), the National Aeronautics and Space Administration Authorization Act, 1985, approved July 16, 1984 (Public Law 98-361; 98 Stat. 422), and by any other law involving such duties. Such duties include satellite maintenance and operations and satellite data analysis.

SEC. 25. There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its satellite systems duties under law, $168,139,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used by the National Oceanic and Atmospheric Administration to purchase, launch and operate the most reliable polar-orbiting meteorological satellite system that is feasible including a full complement of all present instruments in the afternoon orbit and a backup capability for additional reliability in the morning orbit. In addition, such moneys shall be used to fund those duties relating to satellite systems specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1890 (15 U.S.C. 311 et seq.), the National Aeronautics and Space Administration Authorization Act, 1985, approved July 16, 1984 (Public Law 98-361; 98 Stat. 422), and by any other law involving such duties. Such duties include spacecraft procurement, launch, and associated station system changes involving polar-orbiting and geostationary environmental satellites.

SEC. 26. There are authorized to be appropriated to the Department of Commerce to enable the National Oceanic and Atmospheric Administration to carry out its data and information services duties under law, $22,734,000 for fiscal year 1987. Moneys appropriated pursuant to this authorization shall be used to fund those duties relating to data and information services specified by the Act entitled "An Act to increase the efficiency and reduce the expenses of the Signal Corps of the Army, and to transfer the Weather Service to the Department of Agriculture", approved October 1, 1980 (15 U.S.C. 311 et seq.), and by any other law involving such duties. Such duties include environmental data and information products and services in the atmospheric, marine, solid earth, and solar-terrestrial sciences.

SEC. 27. (a) Section 2(d) of Reorganization Plan No. 4 of 1970 (5 U.S.C. App. 1) is amended to read as follows:

"(d) There shall be in the Administration a Chief Scientist of the National Oceanic and Atmospheric Administration who shall

be appointed by the President, by and with the advice and consent of the Senate, and shall be compensated at the rate now or hereafter provided for Level V of the Executive Schedule Pay Rates (5 U.S.C. 5316). The Chief Scientist shall be the principal scientific adviser to the Administrator, and shall perform other duties as the Administrator may direct. The Chief Scientist shall be an individual who is, by reason of scientific education and experience, knowledgeable in the principles of oceanic, atmospheric, or other scientific disciplines important to the work of the Administration.".

(b) Section 5315 of title 5, United States Code, is amended by striking "Associate Administrator, National Oceanic and Atmospheric Administration.".

(c) Section 5316 of title 5, United States Code, is amended by inserting at the end thereof the following:

"Chief Scientist, National Oceanic and Atmospheric Administration.".

INDEPENDENT SAFETY BOARD AUTHORIZATION ACT

EXON AMENDMENT NO. 3273

Mr. BYRD (for Mr. EXON) proposed an amendment to the bill (H.R. 4961) to amend the Independent Safety Board Act of 1974 to authorize appropriations for fiscal years 1987, 1988, 1989, and for other purposes, as follows:

At the end of the bill, add the following:

SEC. 7. AVIATION LIABILITY INSURANCE.

(a) The Secretary of Transportation and the Administrator of the Federal Aviation Administration shall—

(1) not later than March 1, 1987, submit an interim report, and

(2) not later than March 1, 1988, submit a comprehensive final report,

concerning the extent of and causes for the rapidly increasing costs to United States public use airport sponsors for general liability insurance coverage. Such reports shall consider the probable implications of such increasing costs on the future capacity of the airport runway and taxiway system of the United States, particularly at smaller airports, and shall include any recommendations of the Secretary and the Administrator for actions which the Federal Government might undertake to assist in ameliorating the liability insurance difficulties of such public use airport sponsors.

(b)(1) The Administrator shall, within sixty days after the date of enactment of this Act, contract with a nonprofit foundation to establish an information clearinghouse concerning general liability insurance coverage at such public use airports.

(2) The clearinghouse shall gather and distribute without charge to such airports information on premiums, coverage limits and insurance availability. All information generated by such clearinghouse shall be made available promptly to the Secretary and the Administrator for use as appropriate in the reports required under subsection (a) of this section.

(3) There shall be available for the purposes of this subsection $250,000 of funds appropriated for the Federal Aviation Administration for each of the fiscal years 1987 and 1988.

RESTRICTIONS ON USE OF GOVERNMENT VEHICLES

ROTH (AND PROXMIRE) AMENDMENT NO. 3274

Mr. PACKWOOD (for Mr. ROTH, for himself and Mr. PROXMIRE) proposed an amendment to the bill (H.R. 3614) to restrict the use of Government vehicles for transportation of officers and employees of the Federal Government between their residences and places of employment, and for other purposes, as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

That (a) section 1344 of title 31, United States Code, is amended to read as follows:

"§ 1344. Passenger carrier use

"(a)(1) Funds available to a Federal agency, by appropriation or otherwise, may be expended by the Federal agency for the maintenance, operation, or repair of any passenger carrier only to the extent that such carrier is used to provide transportation for official purposes. Notwithstanding any other provision of law, transporting any individual other than the individuals listed in subsections (b) and (c) of this section between such individual's residence and such individual's place of employment is not transportation for an official purpose.

"(2) For purposes of paragraph (1), transportation between the residence of an officer or employee and various locations that is—

"(A) required for the performance of field work, in accordance with regulations prescribed pursuant to subsection (e) of this section, or

"(B) essential for the safe and efficient performance of intelligence, counterintelligence, protective services, or criminal law enforcement duties.

is transportation for an official purpose, when approved in writing by the head of the Federal agency.

"(b) A passenger carrier may be used to transport between residence and place of employment the following officers and employees of Federal agencies:

"(1)(A) the President and the Vice President;

"(B) no more than 6 officers or employees in the Executive Office of the President, as designated by the President; and

"(C) no more than 10 additional officers or employees of Federal agencies, as designated by the President;

"(2)(A) officers compensated at Level I of the Executive Schedule pursuant to section 5312 of title 5; and

"(B) a single principal deputy to an officer described in subparagraph (A) of this paragraph, when a determination is made by such officer that such transportation is appropriate;

"(3) principal diplomatic and consular officials abroad, and the United States Ambassador to the United Nations;

"(4) the Deputy Secretary of Defense and Under Secretaries of Defense, the Secretary of the Air Force, the Secretary of the Army, the Secretary of the Navy, the Joint Chiefs of Staff, and the Commandant of the Coast Guard;

"(5) the Director of the Central Intelligence Agency and the Director of the Federal Bureau of Investigation;

"(6) the Chairman of the Board of Governors of the Federal Reserve System;

"(7) the Comptroller General of the United States and the Postmaster General of the United States; and

"(8) an officer or employee with regard to whom the head of a Federal agency makes a determination, in accordance with subsection (d) of this section and with regulations prescribed pursuant to paragraph (1) of subsection (e), that highly unusual circumstances present a clear and present danger, that an emergency exists, or that other compelling operational considerations make such transportation essential to the conduct of official business.

Except as provided in paragraph (2) of subsection (d), any authorization made pursuant to paragraph (8) of this subsection to permit the use of a passenger carrier to transport an officer or employee between residence and place of employment shall be effective for not more than 15 calendar days.

"(c) A passenger carrier may be used to transport between residence and place of employment any person for whom protection is specifically authorized pursuant to section 3056(a) of title 18 or for whom transportation is authorized pursuant to section 28 of the State Department Basic Authorities Act of 1956 or section 8(a)(1) of the Central Intelligence Agency Act of 1949.

"(d)(1) Any determination made under paragraph (8) of subsection (b) shall be in writing and shall include the name and title of the officer or employee affected, the reason for such determination, and the duration of the authorization for such officer or employee to use a passenger carrier for transportation between residence and place of employment.

"(2) If a clear and present danger, an emergency, or a compelling operational consideration described in paragraph (8) of subsection (b) extends or may extend for a period in excess of 15 calendar days, the head of the Federal agency shall determine whether an authorization under such paragraph shall be extended in excess of 15 calendar days for a period of not more than 90 additional calendar days. Determinations made under this paragraph may be reviewed by the head of such agency at the end of each period, and, where appropriate, a subsequent determination may be made whether such danger, emergency, or consideration continues to exist and whether an additional extension, not to exceed 90 calendar days, may be authorized. Determinations made under this paragraph shall be in accordance with regulations prescribed pursuant to paragraph (1) of subsection (e).

"(3) The authority to make designations under subsection (b)(1) of this section and to make determinations pursuant to subsections (a)(2), (b)(2)(B), and (b)(8) of this section and pursuant to paragraph (2) of this subsection may not be delegated, except that, with respect to the Executive Office of the President, the President may delegate the authority of the President under subsection (b)(8) of this section to an officer in the Executive Office of the President. No designation or determination under this section may be made solely or principally for the comfort or convenience of the officer of employee.

"(4) Notification of each designation or determination made under paragraphs (1), (2)(B), and (8) of subsection (b) and under paragraph (2) of this subsection, including the name and title of the officer or employee affected, the reason for any determination under paragraph (8) of subsection (b),

and the expected duration of any authorization under such paragraph, shall be transmitted promptly to the Committee on Government Operations of the House of Representatives and the Committee on Governmental Affairs of the Senate.

"(e)(1) Not later than March 15, 1987, the Administrator of General Services, after consultation with the Comptroller General, the Director of the Office of Management and Budget, and the Director of the Administrative Office of the United States Courts, shall promulgate regulations governing the heads of all Federal agencies in making the determinations authorized by subsections (a)(2)(A), (b)(8), and (d)(2) of this section. Such regulations shall specify that the comfort and convenience of an officer or employee is not sufficient justification for authorizations of transportation under this section.

"(2) In promulgating regulations under paragraph (1) of this subsection, the Administrator of General Services shall provide criteria defining the term 'field work' for purposes of subsection (a)(2)(A) of this section. Such criteria shall ensure that transportation between an employee's residence and the location of the field work will be authorized only to the extent that such transportation will substantially increase the efficiency and economy of the Government.

"(f) Each Federal agency shall maintain logs or other records necessary to establish the official purpose for Government transportation provided between an individual's residence and such individual's place of employment pursuant to this section.

"(g) As used in this section—

"(1) the term 'passenger carrier' means a passenger motor vehicle, aircraft, boat, ship, or other similar means of transportation that is owned or leased by the United States Government; and

"(2) the term 'Federal agency' means—

"(A) a department (as such term is defined in section 18 of the Act of August 2, 1946 (41 U.S.C. 5a));

"(B) an Executive department (as such term is defined in section 101 of title 5);

"(C) a military deparment (as such term is defined in section 102 of title 5);

"(D) a Government corporation (as such term is defined in section 103(1) of title 5);

"(E) a Government controlled corporation (as such term is defined in section 103(2) of title 5);

"(F) a mixed-ownership Government corporation (as such term is defined in section 9101(2) of this title);

"(G) any establishment in the executive branch of the Government (including the Executive Office of the President);

"(H) any independent regulatory agency (including an independent regulatory agency specified in section 3502(10) of title 44);

"(I) the Smithsonian Institution; and

"(J) any nonappropriated fund instrumentality of the United States,

except that such term does not include the government of the District of Columbia.

"(h) Notwithstanding section 410(a) of title 39, this section applies to the United States Postal Service.".

(b) The table of sections for chapter 13 of such title is amended by striking out the item relating to section 1344 and inserting in lieu thereof the following:

"1344. Passenger carrier use.".

SEC. 2. (a) Title 10, United States Code, is amended—

(1) by striking out section 2637 thereof; and

(2) in the table of contents of chapter 157 thereof, by striking out the item pertaining to section 2637.

(b) Section 636(a)(5) of the Foreign Assistance Act of 1961 (22 U.S.C. 2396(a)(5)) is amended by striking out "(without regard to the limitations contained in section 5 of Public Law 63-127, as amended (31 U.S.C. 638a(c)2)), and section 201 of Public Law 85-468 (31 U.S.C. 638c))".

(c) Section 48 of the Arms Control and Disarmament Act (22 U.S.C. 2588) is amended by striking out "without regard to the limitations contained in section 78(c) of title 5 of the United States Code".

(d) Section 11 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2678) is repealed.

(e) Section 660 of title 14, United States Code, is amended by striking out subsection (e).

SEC. 3. Within one year after the date of enactment of this Act, the Director of the Administrative Office of the United States Courts shall prepare, in consultation with the Marshal of the Supreme Court of the United States, the Clerk of the United States Court of Military Appeals and the Court Administrator of the United States Tax Court, and transmit to the Congress, appropriate recommendations concerning the transportation needs of the judicial branch and of courts established pursuant to Article I of the Constitution.

OMNIBUS DRUG ENFORCEMENT EDUCATION, AND CONTROL ACT

DOLE AMENDMENT NO. 3275

Mr. DOLE proposed an amendment to the amendment of the House to the amendment of the Senate to the bill (H.R. 5484) to strengthen Federal efforts to encourage foreign cooperation in eradicating illicit drug crops and in halting international drug traffic, to improve enforcement of Federal drug laws and enhance interdiction of illicit drug shipments, to provide strong Federal leadership in establishing effective drug abuse prevention and education programs, to expand Federal support for drug abuse treatment and rehabilitation efforts, and for other purposes;

(The text of the amendment will be printed in Part II of the RECORD.)

ADDITIONAL STATEMENTS

OFFICER DELBERT LANNIER

● Mr. SIMON. Mr. President, the Nation has lost a valued public servant, and many of us have lost a friend.

Officer Delbert Lannier of the Capitol Hill Police has died after complications from heart surgery.

Officer Lannier met countless people each day in his work at the Cannon House Office Building. He assisted or brightened the day of most of them. He leaves behind hundreds of friends, and I am proud to count myself among them. It can truly be said that the world is a better place because of the good work and good deeds of Delbert Lannier.

Del Lannier went out of his way to be good to me and to many of us in the House and Senate, as well as to any visitor or human being who crossed his path. I talked to him about an hour before he underwent heart surgery, and he sounded optimistic and was in great spirits. That is how I shall always remember him.

We do not recognize as often as we should the great work done by the Capitol Police.

Congressman DOUG BARNARD was another of Del's friends, and he has prepared a eulogy that captures so well these exceptional qualities about our friend Del.

I ask that the eulogy be printed in the RECORD.

The eulogy is as follows:

EULOGY

Friends, Family, Officers, it is a great honor for me to have the opportunity to say a few words about our friend, Delbert Lannier. I say it is an honor because Delbert was a man who had touched many people and affected many lives. There are scores of congressmen, staffers, and fellow policemen who could give their own testimony as to what Delbert meant to them.

More than anyone else I have ever known, Delbert lived out the Will Roger's philosophy, "I never met a man I didn't like." I don't believe Delbert knew what a stranger was—and he must have come in contact with literally hundreds of people a day. With close friends and passersby on the street, he was friendly, outgoing and cheerful.

Now I know there are lot of you out there who knew Delbert more personally, and who worked with him more closely, than I did so I am not going to try to chronicle his life and his good deeds—and they are numerous. In fact, I think it would be a mistake to just list off the statistics of his life here today and leave. As one who has buried both parents and many other loved ones, as I know all of you have, I have come to learn something about death.

And what I have learned is that if you want to keep someone alive, then you have to keep a part of that person in you. You have to internalize some of his virtues and his philosophies so that when a new member joins the police force or a new congressional staffer comes to work on Capitol Hill, they can say "I feel just like I knew Delbert." Our lives can be a living testimony to his life so that his spirit, his energy, his force will always be with us.

And so, I want to tell you a few of the things I learned from Delbert.

I think if you asked anyone for one adjective to describe Delbert, they would say "cheerful." You know it is really hard to be in a good mood all the time. Most of us don't even succeed half the time. And as all of us know, everyone's life has its share of pain and suffering. Delbert had more than some, less than others. But the important lesson is that he didn't let it get him down. He was not defeated by life—rather he defied the sorrow and grief that keep many people down. He suffered but that smile never left his face.

And even more important, he was able to pass on that happiness to other people.

There were many mornings when I passed Delbert on the way to my office at 7:00 or 8:00, and I don't mind telling you that I was not looking forward to the day. Maybe I had a tough schedule ahead of me or I had some personal problems on my mind. But after talking with Delbert a few minutes, I never failed to enter my office with a ligther heart and a better outlook on the day ahead. The gift to make other people smile and to be glad to live is a precious gift that the world needs to keep alive. And I am sure everyone who walked the halls of Cannon, or the Capitol, or the police locker room, or the sidewalk of Washington could tell you of the time that he or she walked past Delbert in a slump, and left him with a grin on his face and spring in his step.

Thirdly, Delbert treated everyone like they were special. In a town like Washington, it is easy to have your head turned. But Delbert, who came in contact with the greatest and the humblest, was never affected by power of titles. If it was a congressman rushing across the street for a vote, or a tired tourist asking for directions, Delbert's smile was the same. He helped everyone equally and never thought about getting anything in return. As a matter of fact, his friendliness and helpfulness got into print at least twice that I know of. Just going about his business, helping anyone who asked for it.

Finally, Delbert always put other people before himself. He was a sympathetic listener and a kind friend. People could sense his warmth and compassion and felt free to take him into their confidence. I do not know personally of any incidences where Delbert risked his life for other people, but I am sure that in his line of duty as a police officer or in the armed services, he had occasion to defend other people and did so without a thought for himself. I DO know that he was loved and respected by all the people he came to know in his thirteen years on Capitol Hill, and that we all considered it a privilege to call him a friend.

To put others before yourself, to treat everyone with equal respect, to make other people happy by your happiness—those are noble, though almost unattainable, traits. But Delbert had them all. Now if we can all try to learn from his example and take on some of these characteristics ourselves, we will have paid the greatest tribute of all to our friend, Delbert.

If Delbert thought that he had made just his little corner of the world a better place, then I know he would be satisfied. So let's all keep Delbert alive and with us by our own actions, our own compassion, and our own smiles. If we can do that then we will change this afternoon from a time for mourning to a celebration of life.●

CONGRATULATIONS TO THE REPUBLIC OF CHINA

● Mr. DENTON. Mr. President, on October 10, 1911, Dr. Sun Yat-sen was successful on his 11th attempt to overthrow the Manchu Dynasty. As a result of Dr. Sun's success, a representative government of the people was established in China. This representative government, based on Dr. Sun's three principles of the people—often described as nationalism, self-determination, and social well being—has served the cause of personal and national freedom.

Today, the Republic of China stands as a symbol of freedom for all the Chinese people. I salute the Republic of China for its commitment to personal and national freedom. I also salute President Chaing Ching-kuo for his recent announcement of his intent to end martial law on the island of Taiwan. Such intent is truly consistent with the Government's desire to further democratize the political process as well as to improve economic conditions on Taiwan.

Mr. President, I ask that two articles from the Washington Post concerning the announcement be printed in the RECORD.

TAIWAN PRESIDENT TO PROPOSE END TO ISLAND'S MARTIAL LAW

(By Daniel Southerland)

TAIPEI, TAIWAN, October 7—Taiwan President Chiang Ching-kuo said today that his government will soon propose lifting emergency decrees, commonly referred to as martial law, imposed by his ruling Nationalist Party on this island nearly four decades ago.

Chiang, 76, the eldest son of the late president Chiang Kai-shek, said that terminating the decrees would mean an end to trials of civilians in military courts, and the removal of unspecified restrictions on personal freedoms.

Chiang also said that penalties for some offenses would be made "comparatively more lenient."

Chiang said that a longstanding desire to "democratize" as well as improve economic conditions on Taiwan had led to the decision to end the decrees.

The president spoke in an hour long interview held in a sparely decorated reception room with Katharine Graham, chairman of the board of The Washington Post Co., and two editors from Newsweek and the Washington Post.

Despite his remarks on democratization, Chiang said that a newly formed opposition political party on Taiwan, the Democatic Progressive Party, had failed to meet requirements set by the ruling Nationalists.

The new party "had no concept of our nation and . . . failed to mention the anti-communist policy in its platform" he said. He referrd to the new party as the "so-called political party."

Until recently, the Nationalists banned organized political opposition. Chiang said the Nationalists now are studying the question of legalizing new political parties "very vigorously" and expect to come to a conclusion "very soon."

Chiang's negative comments seemed to indicate that the newly formed party would not be legalized. But they may also have been aimed at pressing the party to conform to what Chiang and other officials have said is required.

Chiang said that any new party must respect the constitution, uphold a basic policy of anticommunism, and stay clear of the secessionist Taiwan independence movement. "If they successfully meet these requirements, we will allow new political parties to be formed," he said.

Chiang said that newspaper reports had called attention to "separatist elements" in the new party.

Despite his negative tone, some observers predicted that after lengthy bargaining, the Nationalists and their opponents will reach an agreement permitting the new party to operate.

"Each side would like to take the credit for political liberalization," said one foreign observer. "The Nationalists don't want to be seen as being forced into this."

This observer said that Chiang wants in his final years in office to bequeath some kind of stable, lasting system, and has concluded that the only way he can do this is to invite broader participation in the political process.

Pressure comes from a growing middle class, which has attained an educational level giving it the confidence to demand change.

Skeptical members of the political opposition said that they believed the Nationalists' talk of lifting martial law was an exercise to improve their image both at home and abroad.

Some foreign observers said, however, that the impending announcement on martial law could constitute a symbolic and psychological breakthrough. It might lead, they said, to a significant liberalization of what has been essentially one-party rule for the past 37 years.

Chiang made it clear in today's interview, however, that some restrictions will be retained through the imposition of a new national security law. He said the measure was required because of what he described as a continuing communist threat to Taiwan.

In an interview earlier this week, Mah Soo-lay, secretary general of the Nationalist Party's central committee, said the new law would include restrictions on immigration into Taiwan and on movements along the island's coast. The law would be aimed, in part, at countering communist infiltration, Mah said.

Chiang said it was unclear how long it would take for an end to martial law to be formally promulgated because Taiwan's legislature had to consider the issue.

Despite speculation about his health, Chiang appeared relaxed, self-assured and mentally acute. A diabetic, he clearly has difficulty moving about, but is expected to speak in public on Taiwan's national day on Friday.

In addition to answering questions during the hour-long interview, Chiang provided written answers to a series of questions submitted to him in advance of the interveiw.

"Except for my diabetes, I am in good health," said Chiang in answer to one of the written questions.

In both his written and verbal answers, the Taiwanese leader displayed an unyielding attitude toward proposals made my China for reaching an accommodation between the two.

In the written answers, for example, Chiang dismissed talks by Taiwan and China last May involving a hijacked airliner as an isolated case that did nothing to change Taipei's policy of "no contact, no negotiation, and no compromise" with Peking.

Chiang said that China's proposal for "one country, two systems," under which Taiwan would maintain its own economic system and army, was merely a variation on old "united front tactics" aimed at achieving communist domination.

"They have not abandoned their desire to invade or incorporate us," said Chiang.

Asked about changes occurring on the mainland under the leadership of Deng Xiaoping, Chiang said: "There are certain changes taking place. But they are cosmetic. The essence of communism remains the same.

"They may change their outfits from Mao suits to western suits, but the essence remains the same," he said.

"Just think of a tree," he continued. "Deng Xiaoping has been trimming the branches, but the root stays the same.

". . . Unless they forsake communism and return to Chinese traditions, there will be no real change" he said.

Chiang claimed that irreversible trends in world history would lead to the failure of communism and an eventual recovery of the mainland.

"One day we'll rejoin our people," he said.

POLICE STATE SURPRISE

(By Meg Greenfield)

TAIPEI.—After a couple of weeks in China and a few days here, I am prompted to write about a phenomenon I think of as "police state surprise"—the reaction of an American traveler to the reality of life in an undemocratic place, as distinct from the preconception of it. I use the term "police state" loosely and, no doubt, unfairly to cover a broad range of repressive states from eastern Europe to southern Africa to South America to this part of the world. But though they are all different, including in the degree of their repression, they all have this in common: they have been so relentlessly reduced in our national conversation to their essential political features that the initial encounter with their daily life tends to astound. Why, look! There are people buying their noodles and riding their bikes and carting their dressed-up babies around as if it didn't matter—as if they weren't about to be shot to death by the secret police—what can it mean?

I exaggerate, but not by much. The sight of real people going about their workaday business and doing familiar household things, taken together with some hidden official prompting and a pleasant unofficial meeting or two, has caused any number of otherwise sane Americans to infer that some of the worst tyrannies on earth were merely victims of our own misapprehension. The more notable burblings have even been collected in savage satirical books. But you don't have to be one of the burblers to be struck, as I invariably am, by how little the scene in our line of vision conforms to a lifetime's store of images drawn from movies about the Nazis and third-rate imitations of "Darkness at Noon."

One recent day in Peking, I stood in the vast interior courtyard of the Forbidden City, where a spectacular Bertolucci film is being made about China's last emperor. At least a thousand lavishly gowned film extras were compliantly going through takes and retakes of a scene in which they kowtow to the imperial infant, as stylishly casual British and Italian movie types bellowed their orders over megaphones.

Who were these extras? I asked.

"Army," came the reply.

Yes, the dread Chinese People's Liberation Army of my Korean War-ridden youth—there were their inheritors, lolling about between takes in full-length red velvet dresses, courtesy of the communist government. So Element One of the "surprise" is a truth that shouldn't even be surprising: that life, with its ordinary preoccupations and its rare exotic moment, goes on.

The journalist, pressing a little further, discovers more that doesn't comport with expectation. It is that a political life of sorts, ranging from minimal and rudimentary to fairly elaborate, will assert itself and sometimes flourish within the confines of a repressive system—inside the single permitted party, for example, or outside it in various realms of religious or cultural or military life. In some countries, such as Spain and Portugal during the later years of their Fascist dictatorships, these reached so advanced a state as to make the transition to democratic rule fairly easy. In others, such as here in Taiwan, a president like Chiang Ching-kuo must at least yield on some reforms and must "bring along" a number of strong-minded, differing colleagues as well as appease various domestic and foreign constituencies to get his business done.

You don't encounter absolute rule, in other words, and it is the fault of a kind of Achtung delusion that you even expect it. For nobody and no group, not even the driven, arrogant Chinese government, can entirely control a nation's life. Consider this: central government official after official in China makes it plain that the highest priority is the attraction of foreign capital and technology in joint ventures that will work. To this end the Chinese are regularly sternly instructed that they must cooperate in making these ventures profitable to foreign businesses. Yet you can hardly hack your way through the accounts of American businessmen and others about how these instructions are being flagrantly disregarded, just as the newly liberalized rules governing agricultural production and some industries are being misused by some Chinese to make an extra unauthorized buck.

My own favorite illustration comes from a Western hotelier who paid $6 million for a parcel of desirable land and who, before he could get his own construction under way, saw a prefabricated Japanese hotel going up on a part of it, a situation he was unable to reverse, so that his own hotel will now have another hotel on what had been planned as its modest grounds.

You hear stories of draconian punishment for some instances of corruption—embezzlement, in particular—but concerning this other funny business you hear mainly stories of unpunished, rapacious defiance of the government's intentions. To the sight of normal people doing normal things, then, add a perception of some measure of restraint on the party or leader, some residual political expression, perhaps, degrees of resistance and willfulness within the society.

And to these must be added a third revelation: that of the complexity of relationships within the society as a whole where the regime and its assaults on people's personal freedoms and dignity are concerned. As in Argentina after the nightmare of the "disappeareds," so in China after the incomparable horror of the Cultural Revolution, it is very difficult to locate a sharp line between a class of doers and a class of done-tos. Once the readily identifiable culprits have been singled out, the division of responsibility blurs. Yes, it was a violent, mindless Mao-encouraged brutishness that took over in China and which succeeded in obliterating much of value in Chinese culture and drastically altering, even subduing the society that survives. Person after person that you meet—a mayor, a factory manager, a university president, a writer—will tell you with a small, rueful smile, "Oh, yes, I went to the countryside during the Cultural Revolution," meaning that he or she was subjected to extremes of privation and degradation we can hardly imagine.

Over supper a film director told me what it was like to wear his big metal-lined dunce cap around the factory where he then worked and how at first he tended to believed the charges against him. Others talk of lost family life and lost family members. But when you ask who was responsible besides "the Gang of Four," and what has been done to them, you will generally hear only vague remarks about Red Guards and how they were very young at the time and how so many of them have changed.

Some part of this seems to reflect a kind of lingering anxiety: people say it couldn't happen again, but they speak in the unsure tones of a terrorized family that wonders if the burglar may still be somewhere in the house. More importantly, I think, one also learns that the perpetrators were often in the same family as the victims, that the atrocities cannot be laid at the door of some discrete group designated as "they" or "the authorities," but rather that guilt is woven through communities and classes and work places and homes. These people do not necessarily wish to call each other to account. And that is the third element in the breakdown of preconceptions: the difficulty of discerning a simple subjugator-versus-subjugated scheme. There are multiple degrees of acquiescence and participation, and while there are tormentors and victims, it tends not to be always a case of a vicious, unelected minority with the guns controlling the others—despite what you may read in cheap books and political speeches.

To all this add one final pressure, proceeding from personal encounters. The mayor of Shanghai was going on the other day to a group of us about the burdens that growing prosperity had imposed on his capacity to get his job done. It was the most agitated he became during the interview. "Watermelon rinds!" he exclaimed at one point. "Watermelon rinds!" It turned out that practically everyone in Shanghai can now afford much-loved watermelon, and the mayor is at a loss for a way to dispose of the leavings. I thought: the universal mayor—he could be any big-city mayor in America keening about garbage problems. But of course there is a basic difference between the mayor of Shanghai and our mayors. He is not popularly elected, is not in our sense a "mayor" at all.

This is the old counterpart problem. American lawyers recently complained about cultural exchanges with Soviet-variety lawyers, noting that it was false to assume that there was an equivalence here. I feel the same when the "we journalists" formulation is applied to me and some government or party functionary who is putting out the local sheet.

I don't think we should reinforce, through our camaraderie, the notion that the free press is the same as the other kind. But even so, there is a sort of watermelon-rind connection among almost all professions that meet in these odd moments. One can share certain jokes and lore about the superficial aspects of the job. A deadline is a deadline. A printing press is a printing press. And besides, internal inhibitions make one reluctant to made a big deal of the distinctions. This is the pull of the personal encounter. Tempted often to declare the wide gulf between what we do as press and what the people giving us lunch or a tour of their newsroom do, setting out to extract an admission that what they almost invariably describe as journalistic inquiry is, by our lights, something else, one draws back, feeling a bit of bully, a braggart who is different from those Americans who brag about their wealth when abroad only in the choice of subject matter. So one finally demurs, subsides.

Traveling journalists, of course, have a legitimate cop-out: we are the detached observes there to ask, to learn. "All we want are the facts, ma'am," as the TV cop would say. It is part of our sacred doctrine that we don't participate don't issue manifestos or 12-point plans. We are allowed, in theory, anyway to sit down with Attila the Hun for a working breakfast without being considered his collaborators or pals.

To show our stuff we always insist on asking some questions about political prisoners and their whereabouts. But this is quite unsatisfactory. Invariably we are told that these people are few in number and that they are not in prison because of dissent, but because they committed common crimes, and after a spell of this we are expected to return to questions about debt repayment or foreign relations—and we do. A variety of influences are at work to make us back off: the discovery that all is more complicated than we thought, the sense of our role as mere recorders and, I fear, even the basic rules of the drawing room. For with the obligatory cup of coffee comes, inevitably, the amenity, the little joke about the weather, and the need to laugh and be minimally gracious—"Do you take cream and sugar, General Pinochet?"

I hate these moments. They make me wildly uncomfortable and unhappy. I don't believe I should set fire to myself in the midst of a journalistic interview—one is either one thing or the other—but something within me always objects that even these inconsequential little pleasantries are a form of indicating approval of things I would rather protest.

What is our obligation, then, as journalists? As Americans? As travelers whose approval or disapproval can have some impact on the rights of people in another country? How do we accommodate the new dimension of our understanding of these countries to an obligation to get at and report and thus make some kind of issue of their repressiveness? How do we test out what may simply be a second illusion—that of normality and tranquillity and even contentment in what we would find an insupportable dictatorship? The American traveler to Johannesburg is first struck by the evident ease and mixing of the races in the Carlton Center lobby, after all. It is only with time, further travel and some pushiness that he can get at a truth that eludes him at first. And finally to what extent does our amiable chitchat with a variety of greater and lesser tyrants and petty strongmen imply an acquiescence in or even encouragement of their rule, a kind of endorsement that can be exploited by them against protesting citizens in their own country?

These problems aren't unique to us. They beset the American government too. Watch Ronald Reagan trying to find his right pitch in a cacophony of advice about how and even whether to deal with the Russians. Consider how this country went from a 20-year sulk and denial of the reality of the Chinese government to an almost gooey affection for it after Nixon and Kissinger wisely reversed the policy madness of those two decades. Consider that in the rush of emotion that followed—and still now, here and there—it is thought churlish to point out that the Chinese rulers do many brutal things in their country. It is easier to despise totally and to forgive totally than it is to keep pressing for further, deeper, more laminated truths about what is going on in a country, and it is hardest of all to figure out right ways, to act in respect to what you have learned.

I don't feel as if I am doing much better than a torn-apart, warring, Congress-versus-executive, left-versus-right American government has over the years, but I must say, I know how it feels.●

COMMEMORATION OF THE 10TH ANNIVERSARY OF THE NATIONAL REGULATORY RESEARCH INSTITUTE

● Mr. METZENBAUM. Mr. President, November will mark the 10th anniversary of a very unique and successful institution.

In November 1976, at the initiation of the National Association of Regulatory Utility Commissioners [NARUC], the National Regulatory Research Institute [NRRI] was formed to provide research and technical assistance to public utility regulators.

We all know the tremendous importance of utility regulation to the cost and quality of public services. Yet, until the founding of the NRRI, public service commissions lacked a national research center capable of providing data, analyses, and broad policy reviews to help them with State specific issues and overall regulatory policy.

While regulated utilities could rely on large in-house staffs, paid consultants, and research provided by trade associations to supply information and analyses to advance their interests, utility regulators, charged with balancing the interests of the public and the utilities, lacked similar resources.

The NRRI filled this void and has performed this service admirably. It has performed timely, applied research on a variety of issues related to electric, gas, telephone, and water regulation. The institute has also established data bases and devised computer models to assist regulators with specific problems and issues.

By limiting its services to regulators, the NRRI has avoided even the appearance of any possible conflict of interest, and has developed a deserved reputation as an objective and valuable source of information and analysis for broad policy questions and State specific issues related to public utility regulation.

In its 10-year history, the NRRI has produced some 170 reports and analyses on major issues in four utility fields: Electric, natural gas, telecommunications, and water. These studies have addressed many of the leading issues confronting regulators today. These include power pooling and wheeling, cogeneration and avoided costs, cost overruns in plant construction, wellhead price deregulation, gas rate design, divestiture and competition in the telecommunications field, access charges, and water service pricing and rate design.

None of these reports is proprietary. Complimentary copies are sent to all public utility commissioners and their senior staffs, and the reports are available at cost to the rest of the public.

Mr. President, the NRRI is a perfect example of how a limited amount of Federal funds can be used as seed money for a public service idea which will take off and eventually succeed on its own. I worked very hard to secure an initial $2 million in Federal funds for the start up of the institute. Since then, it has flourished on its own, as a result of the quality and timeliness of its work. To date, the NRRI has attracted over $10 million to support its research efforts. The institute has received no Federal Assistance since 1981, although it does occasional contract work for some Federal agencies. Its funds are derived from NARUC member commissions and contract research and assistance money from individual public service commissions for state-specific research. In fact, the Public Utilities Commission of Ohio has been a steadfast supporter of the NRRI. It has annually placed about $200,000 in the institute for research activities. Financial assistance is also provided by the NRRI's host university—Ohio State University [OSU].

As the host of the NRRI, Ohio State University deserves a great deal of credit and praise for the institute's success. Over the last 10 years, OSU has contributed over $1 million in assistance to the research center. In addition, highly qualified graduate students and faculty members from the university provide valuable assistance to the institute's full-time staff. Ten to twenty graduate students and a half dozen faculty members participate in the center's research projects on a part time basis during the academic year, and many work full time over the summer. This cooperative relationship between the university and the NRRI can serve as a model for other university research centers. Ohio State University is to be commended for its support of, and contributions to this institute.

Mr. President, both Ohio State University and the staff of the NRRI are to be congratulated for its success over the past 10 years. The NRRI has established itself as a valuable source of information and analysis for those charged with making important and complicated regulatory decisions. Its work has benefited consumers and regulated utilities alike, by ensuring that public service commissions will have the data and research assistance necessary to make well informed decisions on important regulatory matters.

I am confident that the NRRI will continue to fill this valuable role for many years to come.●

KENNETH A. KLOOS

● Mr. SIMON. Mr. President, I would like to take this opportunity to mark

the passing of one of Alton, IL, finest citizens, Kenneth A. Kloos.

Kenneth Kloos was an active businessman and civic leader in the Alton community for many years.

He was well known for promoting growth, business, and industry in the Alton area. He extended himself to be active in many organizations which promote health, art, and cultural affairs in the community. Mr. Kloos received the Book of Golden Deeds Award from the Exchange Club for his service to the community. He also served as president of Pride, Inc., an organization which promotes the beautification and improvement of the area.

Mr. Kloos was active in the chamber of commerce, was former president of the Beltline Businessmen's Association, a longtime member of the Alton-Godfrey Lions Club and a member of Franklin Masonic Lodge No. 25 A.F. and A.M.

In addition to those activities, Ken's activities included Lions Club, YMCA, Rotary Club, Mental Health Center, and a host of unknowns, including "silent" gifts to needy people.

He was a devoted family man and church man but extended himself in a most unselfish way to help serve his fellow citizens. Kenneth Kloos will be sorely missed by his friends, but his many good deeds will live for many years.

I am pleased to make this trubute to this fine man.●

JOB SKILLS AND TRAINING

● Mr. GORE. Mr. President, October 12 to 18 has been designated National Job Skills Week by the Congress. In keeping with the focus of the week, bringing attention to job training and the job skills needs of our work force, the following article about workplace training and development is submitted for perusal by my colleagues. The article was prepared by Anthony Carnevale, chief economist with the American Society for Training and Development. The piece explores the size, scope and influence of training and development today. It first appeared in the January 1986, issue of Training & Development Journal. I ask that this article be printed in the RECORD.

The article follows:

THE LEARNING ENTERPRISE

(By Anthony Patrick Carnevale)

Workplace training and development is roughly equivalent in size of the entire elementary, secondary, and higher education systems. If that's news to you, don't feel left out. It's news to just about everybody. Workplace learning has taken a back seat to the formal education of baby boomers for the past forty years.

Largely unrecognized, corporate learning has grown to be a $30 billion industry, a silent and efficient postscript to employees' formal education. Ironically, it is training and not format education that mainly determines what a person will earn throughout his working life, and it is training and not formal education that provides all the skills for two out of three jobs.

Employers provide enormous amounts of formal training to be sure, but it is scattered throughout unrelated industries and goes largely unnoticed by the government or any other observer that might lend it importance or visibility. In fact, many of the people who train or develop other employees don't consider themselves to be in the learning delivery business. They think of themselves in terms of their primary work role rather than as training professionals.

The government provides training too, but its interest in formal training has been connected to the needs of people outside the economic mainstream. It funds, counts, and regulates training programs mainly for people who aren't yet working and who are trained in programs outside the workplace.

Workplace learning is large and likely to grow larger still. And there are signs that the workplace learning system will no longer be the silent partner in the nation's learning programs outside the workplace do not have appreciable effects on individual earnings or on institutional performance. Training outside the workplace does not create jobs; Jobs create training.

Economic and technological changes also fuel interest in training and development at work. Such changes have an impact at the point of production and the point of sale and employers are scrambling to find ways to accelerate learning and adaption on the line and where products are sold and customers served. Often such pressures encourage employers to formalize on-the-job training that has been handled informally.

Even as interest in and demand for training is growing within corporations, opinion leaders and government policymakers are showing more interest in encouraging workplace training and development to leverage individual earnings and improve the nation's competitive advantage. The new interest is a mixed blessing. It is sure to encourage an uncomfortable scrutiny of training by the government and to challenge the integrity of the training and development profession, but ultimately it will increase the size, scope, and quality of the already impressive learning enterprise.

WHERE DO PEOPLE LEARN TO DO THEIR JOBS?

Americans learn what they need to know to do their jobs in schools and on the job, formally and informally. School tends to be most important for managers, professionals, technical and sales employees, and people in publicly regulated jobs. Formal employer training tends to be important for all employees except for those in "extractive" industries—farming, forestry, and fishing. Informal job training is important in all job categories but most important in blue-collar jobs. When surveyed about retraining, however, employees tend to emphasize formal and informal training in the workplace rather than formal schooling.

FORMAL JOB-RELATED TRAINING AND DEVELOPMENT

If we exclude informal, on-the-job training in the workplace and those courses in formal schooling that have little job application, the employer training and development system is still surprisingly large. Business organizations alone provide twice as much job-related education as any other single provider. Employers provide at least 17.6 million formal courses each year to almost 15 million trainees. Roughly one in every eight working Americans participates in a formal training course each year.

Training in the workplace is not distributed evenly among industries. Governments, especially the Federal government, are the most intensive trainers because they are the largest employers of highly skilled and specialized personnel, and because promotion and compensation are tied tightly to credentials and skill acquisition. Mining is training intensive because the mining industry is highly regulated for safety. Transportation and public utilities also train heavily partly because of government regulation and safety standards. Highly specialized industries, such as finance, insurance, and real estate, also train more than the average. ASTD's recent survey of bank training showed that banks provide 1.3 formal courses per employee every year—nearly nine times the national average.

Most formal training in the workplace concentrates in the 25 to 44-year-old age group and among white-collar managers, professionals, and clericals. This doesn't mean that blue-collar employees don't get any training, but that it tends to be informal, on-the-job training.

THE BEHAVIORAL COGNITIVE SPLIT

There is a fuzzy but useful distinction between training and development that is intended to achieve behavioral or affective learning and that which is intended to impart cognitive skills. In general, the split between behavioral and cognitive training and development shows that roughly two-thirds of all formal training and development is cognitive and one-third is behavioral. The behavioral/cognitive split in informal learning on the job is unmeasured. In theory, both kinds of informal learning take place. One learns "how to" perform specific tasks on the job informally. At the same time, one learns the affective skills necessary to work with others as a productive member of a team.

WORKPLACE TRAINING INSIDE AND OUT

Most employer-based training in the United States takes place in-house, but more than a third is done outside. The principal outside providers are schools. Among the nonschool providers are consultants, ventors, and professional organizations. At this point it is difficult to predict the future distribution of in-house and outside training. Competitive pressures to link the training and development function to the specific needs and strategic directions of firms are likely to encourage training in the context of a specific culture. Those pressures will increase in-house training. Alternatively, cost pressures are likely to encourage external training paid for by employers.

The role of public and not-for-profit institutions is the wild card in the future of employer-based training. Schools are losing their traditional clientele as the baby boom ages beyond their reach. Schools are already showing an intense interest in employer markets.

The possibility of substantial training tax incentives for employers also clouds the picture. Current legislative proposals vary according to whether they encourage employers to make or buy training and the extent to which they would allow employers to buy from providers other than traditional schools.

COSTS AND BENEFITS

Workplace learning—former and informal—provides substantial benefits to individuals in the form of increased earnings

and to institutions in the form of increased productivity. Analysis of data available as far back as 1929 consistenly shows that human factors are the major source of growth in individual earnings, institutional productivity, and national income. Moreover, the same data demonstrates clearly that "working smarter"—the ability of working teams to learn together—is the most significant among human factors in producing income and productivity growth. Projections of economic growth through the eighties, based on U.S. Department of Commerce data, show similar patterns. Plant level data is sparse but tends to corroborate national analysis. For instance, an analysis of 1983 census data shows that those who received informal training on their job improved their earnings by five percent more than those who didn't receive the training. Those who received informal training improved their earnings by 13 percent more than their peers. The effects of training on workplace productivity also appear powerful. For instance, after adjusting for inflation, the productivity returns to on-the-job training was 12.6 percent for those who were college-educated and 19 percent for those without college. A 1984 study found that 32 percent of employees were more productive in the twelfth than in the third week of employment, suggesting improvements due to learning on the job.

Studies that map the sources of differences in the economic success of individuals are equally flattering to workplace learning.

Earnings are largely a function of formal and informal learning on the job. Individuals tend to leverage their incomes by translating formal and informal learning on the job into higher wages. The best jobs are those that incorporate the most learning. Access to jobs with a high training and development content is the key determinant of lifetime economic success. Econometric studies have consistently shown that only 15 percent of the variation in income among Americans can be accounted for by formal education. The remaining 85 percent is accounted for by learning in the workplace. Earnings are driven by the ability of working teams to learn together in the context of appropriate technology.

If trainers are so darned important, why aren't they rich, famous, and powerful? There are lots of reasons. Primary among them, however, is the simple fact that we don't understand what we know. We know that normal and informal learning in the workplace produces large earnings and productivity gains but we don't understand how. The learning process in the workplace remains a black box. The state of the theoretical and practical art of leveraging earnings and productivity through training and development is relatively primitive. While we have devoted billions to research and dissemination of best practices in formal education, workplace training and development remains the silent partner in the nation's learning enterprise.

GROWTH AND DECLINE

A variety of forces account for growth and decline in the training and development function in companies. The trickle-down effects of economic, technological, and demographic trends are distant but powerful. For instance, at present huge budget deficits translate into high interest rates that squeeze employer spending and discourage all forms of investment. The same deficits encourage an overvalued dollar that makes American products more expensive relative to foreign products and further squeezes profits. At the same time, the competitive squeeze demands greater efficiency and accelerates economic and technological change. Employers are faced with the difficult task of maintaining or increasing their share of a shrinking economic pie by investing more in functions that will boost efficiency and adaption. To the extent the training and development function has established its legitimacy as a cost-effective lever for promoting efficiency and adaption, it will be used as a strategic tool. To the extent that it is regarded as ineffective and costly, it will free the working end of the budget cutter's axe. A third, more common scenario is for employers to demand that training be more cost effective. A surgical approach to cost cutting or a decision to make rather than buy training and development is most common in these cases.

Major economic, technological, and demographic forces can also affect training and development. Recent trends show an eagerness to focus training and development where change hits hardest—at the point of production and the point of sale. The lions' share of training and development increases appear to be among middle managers, first-line supervisors, professional and technical employees, and sales and marketing personnel.●

TRIBUTE TO LAWRENCE L. BROWN III

● Mr. HATFIELD. Mr. President, I would like to take this occasion, before this session comes to a close, to remember Lawrence L. "Lonny" Brown III, a distinguished career member of the Senior Executive Service in the U.S. Department of Education.

"Lonny," as he was known to his friends and colleagues, was Director of the Division of Elementary, Secondary, and Vocational Analysis in the Office of Planning, Budget and Evaluation. He died all too suddenly on September 20, 1986, at the height of his career.

In his capacity as Division Director, Lonny was responsible for directing the review and analysis of budget, legislative, and program policy for all the Department's elementary, secondary, and vocational education programs. These programs number over 40 and have a total budget of almost $7 billion.

Over the years, Lonny worked with the staff of the appropriations and authorizing committees of Congress on numerous important budgetary and legislative matters. He was known for his expert program knowledge and made numerous contributions toward the formulation of public policy. In particular, he excelled in bringing the results of program research and evaluation to bear on improving policy decisions. He was also known for his outstanding management skills and for his ability to work well with people. Lonny had many friends and colleagues in the executive branch and on the Hill.

I would like to take this occasion to offer my personal sympathies to his immediate family, including his wife, Carol, and his daughter, Susan. Lonny will be missed and remembered by all who knew him.●

ABORTION AND INFORMED CONSENT: MICHIGAN

● Mr. HUMPHREY. Mr. President, I ask all my colleagues to carefully consider this letter from Annette of Michigan, and consider cosponsoring my informed-consent bill, S. 2791.

The letter follows:

[Letter undated (approx. July 1, 1986)]

HONORABLE SENATOR GORDON HUMPHREY:

I am writing to you with a concern I have over the lack of counselling given to women prior to, or at the time of, considering abortion. I sincerely believe there should be a law specifically stating what information must be given to a woman in a crisis pregnancy situation. After the complete counselling session has been executed, there should be at least a 72 hour waiting period before an abortion can be obtained. This is a very emotional situation, no matter what the circumstances, and a hasty decision to abort cannot be reversed once the abortion is complete. I personally have experienced an abortion where there was literally no counselling, no options given and no time to contemplate my dilemma.

I was in the hospital, scheduled for a tubal ligation at 8 AM. At 1 AM I was awakened by a doctor to be informed that I was pregnant. This doctor informed me that he personally did not believe in abortion for any reason, but legally he had to offer the option to me. Well, I had already been sedated for sleep and was not real coherent, and this doctor was talking about abortion. I had never even considered an abortion. I wasn't really sure what it all meant. I'd seen newsreels at 6 o'clock with protestors declaring it was a woman's right, but that's where my knowledge ended. I had a gut feeling that it was wrong, but I didn't know why.

About 5 minutes later, 2 other doctors came into my room to see if I'd decided. They explained it wasn't like we were discussing a baby, this was just a blob of cells, tissue adhering to the uterine wall. Why it wouldn't be a baby for months. They proceeded to tell me how it can all be done at the same time, the abortion and the tubal. After all, I was already prepped for surgery.

If those doctors would have been required by law to give me all the options and a time period to make an intelligent decision, I would never have murdered my baby. I might have miscarried, I had a history of that, but I would not have chosen an abortion. Women have a right to be given ALL options open to them and a length of time to intelligently consider each option and the repercussions involved with each.

Thank you for your time and interest.

Sincerely,

ANNETTE HOUSE,

HOLT, MI.●

TEST BAN RESOLUTION IN KANSAS CITY

● Mr. EAGLETON. Mr. President, yesterday as the President of the United States was landing in Reykjavik, Iceland for his meeting with Soviet leader Gorbachev, the city

council of Kansas City, MO was busy with their own efforts to ensure world peace. At 4:30 p.m. the city council passed a resolution calling on the President to "immediately ban nuclear testing and to seek a mutual and verifiable Comprehensive Test Ban Treaty with the Soviet Union."

That resolution should send a strong message to the President. It says that while the people of America's heartland are "four square" behind their President in his negotiations with the Soviets, they are also greatly concerned about the quickening pace of the nuclear arms race. They know that absent nuclear testing, it is very difficult for either superpower to upgrade their nuclear forces and thereby further destabilize the nuclear balance.

The resolution also asks the President to "immediately undertake a program that would replace the jobs that are lost from the nuclear weapons industry as a consequence of a test ban policy." In so doing, the city council recognized the enormous sum of money that we dedicate to nuclear weapons development. Nuclear testing is, however, a capital intensive activity and I suspect that the few engineers that might be put out of work by a test ban would quickly find lucrative and more productive applications for their talents.

The importance of this resoluton is underscored by the fact that Kansas City is the 176th local governmental body to pass such a resolution. It comes on the heels of a similar resolution that was passed by the St. Louis City Council last August.

Mr. President, I applaud the leaders of Kansas City, MO for speaking out as they have for a more responsible government, a more attentive chief executive, and, most of all, a safer world in which to live.

I ask that the text of the city council's nuclear test ban resolution be printed in the RECORD following this statement.

The resolution follows:

RESOLUTION ON BANNING NUCLEAR TESTING

Whereas, the economic and security interest of the city of Kansas City would be best served by a mutual and verifiable suspension of nuclear testing coupled with a program of converting jobs in the nuclear related industries in Kansas City to other related employment opportunities; and,

Whereas, a ban on nuclear testing can be verified with high confidence by a worldwide network of seismic monitors, satellites and other verification technology, the use of which would be a necessary condition to a test ban policy; and,

Whereas, a ban on nuclear testing would provide our community with greater security by assuring that new, more sophisticated, and dangerous weapons would not be developed in the U.S.-Soviet nuclear arms competition; and,

Whereas, the U.S. and U.S.S.R, each, have the power to trigger nuclear winter, independent of any defensive action of the other, fifty times over;

Whereas, the U.S. currently has the power to destroy the 200 largest cities in the Soviet Union 2,000 times over—roughly the same capacity the U.S.S.R. holds to overkill the cities of the U.S.—including Kansas City.

Whereas, the most effective antimissile defense conceivable to be installed in twenty years could not be more than 95 percent effective in destroying the enemy's total aresnal, the remaining five percent provides two and a half times the necessary trigger of nuclear winter.

Whereas, testing for greater nuclear arsenals cannot possibly add to the security or deterrent force of either adversary—no matter which side produces or controls the newer weapons;

Whereas, the uncertainty of the U.S.S.R. joining the U.S. in a mutual ban on testing has been a major impediment in the past, and now that the U.S.S.R. has pledged and is honoring a unilateral test ban easily monitored and confirmed by the U.S.;

Whereas, the Soviet Union has not tested since August, 1985, and has offered to allow on-site inspection for verification of adherence to a long-term nuclear weapons test ban; and

Whereas, spending for the arms race is contributing to record budget and trade deficits that threaten our nation and our city's economic security, while programs providing essential assistance to communities throughout the country are being cutback with its resultant effects on jobs, peaceful uses of technology, talents, skills and investment; and,

Whereas, Community Development Block Grants, Urban Development Action Grants, low income housing programs, General Revenue Sharing funds and other Federal programs that are vital to the quality of life in Kansas City have been and are being cut or eliminated because new, experimental and exorbitantly expensive nuclear weapons systems are demanding an ever greater amount of the Federal budget.

Whereas, in the event of a nuclear attack the local governments will bear the brunt of the responsibility of providing food, shelter, and medical attention for the men, women, and children of the community.

Whereas, the Kansas City, Missouri City Council is concerned about the loss of the economic base and jobs that are related to the nuclear weapons industry; therefore

Be it resolved by the City, Missouri, that the City Council of Kansas City calls upon the President of the United States to immediately ban further testing of nuclear weapons and seek a mutual and verifiable, comprehensive Test Ban Treaty with the Soviet Union; and that the President immediately undertake a program that would replace the jobs that are lost from the nuclear weapons industry as a consequence of a test ban policy. This body also calls upon our members of congress to support legislation that would enact a moratorium on nuclear testing, to be continued as long as the Soviets do not test. Copies of this resolution shall be forwarded to the President of the United States and to the Senators and Representatives from our congressional delegation.

REAUTHORIZE MARINE FISHERY PROGRAMS ADMINISTERED BY THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

● Mr. GORTON. Mr. President, I strongly support the committee amendment to S. 991, which, among other things reauthorizes important marine fishery programs administered by the National Oceanic and Atmospheric Administration [NOAA]. The amendment includes three separate bills of which I was an original cosponsor—S. 991, which passed the Senate as a general fishery authorization bill last year; S. 2583, to provide for an Under Secretary of Commerce for Oceans and Atmosphere, an Assistant Secretary for Oceans and Atmosphere and a Chief Scientist position at NOAA; and S. 958, reauthorization of the Magnuson Fishery Conservation and Management Act [MFCMA].

The committee bill is divided into four titles: Title I includes amendments to the Magnuson Fishery Conservation Act [MFCMA]. Title II sets up a new seafood promotion program that is intended to increase domestic and foreign trade of fishery and seafood products. Title III revises the Commercial Fisheries Research and Development Act. Title IV contains miscellaneous provisions such as the establishment of a Chief Scientist postion at NOAA.

I would like to focus on two aspects of S. 991. First, I am pleased that we were able to work out amendments to the Magnuson Act. The changes to the act strengthen its management and enforcement provisions of the act. The MFCMA is the single most important law pertaining to the management of the fisheries resources located within our 200-mile fishery conservation zone. This law would be reauthorized through fiscal year 1989.

Second, the bill provides waivers from restrictions on vessel documentation for two vessels located in the Pacific Northwest—the *Kodiak Queen* and the *Northwind*. The *Kodiak Queen* is a vessel that was built in California in 1941 for the Department of the Navy. It was placed under Liberian registry in 1962 when it was purchased by foreign interests. In 1967, the vessel was acquired by a company in Alaska, and placed under U.S. flag and registry. The vessel has since remained in the ownership of U.S. citizens. The *Kodiak Queen* is documented for use in the fisheries. It has been engaged in the crab fishery in Kodiak, AK. Its present owners would like to expand the use of the vessel in coastwise trade for other fishery purposes such as tendering salmon, herring or freight.

The *Northwind* is a motor yacht built in Wisconsin in 1930. In 1938, the vessel was transferred from United

States to British ownership, to be used in the service of the British Government and Royal Navy. The *Northwind* is now located in Seattle, WA. The vessel has undergone substantial renovation. The present owners wish to engage in the coastwise trade as a pleasure charter in and around Puget Sound.

Mr. President, S. 991 as amended by the committee amendment is the result of a lot of hard work. I thank the chairman as well as the Commerce Committee staff for their efforts in getting this bill before the Senate. I urge my colleagues to adopt this legislation expeditiously.●

A FORCE FOR GOOD

● Mr. SARBANES. Mr. President, the recent death of Rabbi Jacob B. Agus, scholar, teacher, leader, theologian, writer and leader in the efforts to expand the Jewish-Christian dialog, is a loss not only to Beth El Congregation and Baltimore, but to all who have been involved in building bridges among the various faiths.

During all his extraordinary career, Rabbi Agus was proud of his role as "a community pastor, to have helped preserve a Jewish mentality, to have helped people with some serenity through these cataclysmic times, to be an interpreter of Jewish values." This is, as Rabbi Agus said, "the greatest challenge one could wish."

Rabbi Agus met that challenge every day of his life. I ask that an article from the Baltimore Evening Sun outlining some of Rabbi Agus' accomplishments be included in the RECORD.

The article follows:

[From the Baltimore Sun., Oct. 7, 1986]

A FORCE FOR GOOD

(By Albert E. Denny)

The death of Jacob B. Agus, rabbi emeritus of Beth El Congregation, removes an intellectual giant from the American rabbinate and represents a stunning loss to Baltimore's Jewish community.

An internationally recognized scholar, teacher, philosopher and theologian, Agus' penetrating insights into religion and his enlightened views of contemporary Jewish life made him a leading force in the Conservative movement. He was the author of nine scholarly books, some of them used as texts in religious courses on the university level, and dozens of articles that appeared in a wide range of Jewish and secular publications.

He lectured at Johns Hopkins University and other colleges in the United States and abroad, and for 12 years was editorial consultant to the Encyclopedia Britannica on articles of Jewish content. He served as Visiting professor of modern Jewish philosophy at Temple University, Dropsie College, the Reconstructionist Rabbinical College and St. Mary's Seminary.

Perhaps the most durable achievement in the life of Jacob Agus was his long-time, assiduous involvement in building bridges of understanding between the various faiths. Beginning in the early 1950s and extending to his death, the rabbi worked unremittingly at promoting interfaith harmony, representing Judaism at various ecumenical conferences in the United States, South America and England.

He was a member of a trialogue composed of Jewish, Christian and Muslim leaders sponsored by the Kennedy Institute on Ethics at Georgetown University in Washington. As professor of classical Hebrew studies at the Ecumenical Institute of Theology of St. Mary's Seminary and University, he taught a course entitled "Matthew—The Jewish Gospel," which analyzed Matthew in the light of Jewish literature that was contemporary with the Gospels.

"When the Gospels are placed within a Jewish context and interpreted accordingly," the rabbi explained, "there will result a much deeper appreciation on the part of Jews with Christianity and Christians with Judaism."

Even this year, despite his failing health, the 75-year-old rabbi took an active role in discussions of the ninth national workshop on Christian-Jewish relations held in Baltimore. The conference presented an award to him "for his pioneering efforts in Jewish-Christian dialogue."

Born in Poland on Nov. 8, 1911, the future rabbi lived for a time in what was then Palestine, and was brought to the United States in 1927. After his ordination as an Orthodox rabbi in 1935, he held a pulpit in Cambridge, Mass., later earned a doctorate from Harvard in the history and philosophy of religion and served Orthodox synagogues in Norfolk and Chicago.

Chafing under the constraints imposed by the rigid Orthodox beliefs that clashed with his emerging liberal views, Agus made the leap to a Conservative pulpit in Dayton, Ohio in 1942. He was invited to Baltimore in 1950 to take the spiritual reins of the newly formed Beth El Congregation.

The innovative ideas that he brought to Baltimore meshed perfectly with the desire of Beth El's founders to introduce a liberal brand of Conservatism to the community. In the ensuing three decades, the congregation built its membership to 1,400 families, and Beth El and its dynamic rabbi were catapulted to national prominence.

Agus might have achieved greatness as a full-time university professor, but he never regretted his decision to enter the rabbinate. He once said, "As a community pastor, to have helped preserve a Jewish mentality, to have helped people with some serenity through these cataclysmic times, to be an interpreter and pastor of Jewish values—that is the greatest challenge one could wish."●

LEV NAVROZOV ON MORE CIA INTELLIGENCE FAILURES

● Mr. HELMS. Mr. President, the CIA has repeatedly failed to predict accurately the Soviet military threat, or to understand in any adequate way Soviet global intentions. It appears that the CIA has a methodology for estimating Soviet military expenditures which produces gross underestimates. By the CIA's own evaluation, its current estimates of Soviet strategic forces 5 years into the future will not come even close to being accurate 5 years hence.

Mr. President, I believe that the American people are not getting their money's worth from the CIA. For the many billions of tax dollars spent by CIA, we seem mostly to be getting only underestimates of the Soviet military threat, bungled covert operations, bungled defections of Soviets, bungled counter-intelligence operations against CIA defecters, and even bungled planning and programming of technical collection resources.

Mr. President, Mr. Lev Navrozov, who emigrated from the Soviet Union in 1972 at the height of "detente", has become one of the most articulate and knowledgeable critics of the CIA. Lev Navrozov has made a very careful study of over 77,000 pages of declassified materials from CIA. He bases his critiques on these declassified CIA estimates as compared to his own profoundly deep knowledge of Russia. I point out that Candidate Ronald Reagan in 1978 and 1979 quoted extensively from Lev Navrozov's critiques of CIA during his campaign, thereby bestowing considerable credibility upon Mr. Navrozov.

Mr. President, I ask that the following articles from the *New York City Tribune* be printed in the RECORD at the conclusion of my remarks:

First. "Soviet Anti-Missile Defense Which Was Not", by Lev Navrozov, January 1, 1986;

Second. "The 'World's Most Important Statistic' and the CIA", by Lev Navrozov, January 22, 1986;

Third. "The Soviets' Greatest Spy—Western Free Enterprise?" by Lev Navrozov, January 29, 1986;

Fourth. "1961—The Year of CIA/MI-6's Bittersweet Triumph", by Lev Navrozov, February 19, 1986;

Fifth. "On 30th Anniversary of 'Khrushchev's Secret Speech' " by Lev Navrozov, February 26, 1986;

Sixth. "The CIA and Soviet Defection-Redefection Mysteries", by Lev Navrozov, March 12, 1986;

Seventh. "Arms Agreements? Compliance Unverifiable by CIA", by Lev Navrozov, March 26, 1986;

Eighth. "Illusions on Which CIA Was Founded 40 Years Ago", by Lev Navrozov, April 2, 1986;

Ninth. "How the CIA Bores the US Congress Stiff", by Lev Navrozov, April 16, 1986;

Tenth. "Kim Philby: Espionage Romance and Drab Reality", by Lev Navrozov, April 30, 1986;

Eleventh. "How the CIA Flunked Abysmally on Chernobyl Affair", by Lev Navrozov, May 7, 1986;

Twelfth. "What the CIA Reveals About Itself in Its Pamphlet", by Lev Navrozov, May 21, 1986;

Thirteenth. "Has US Intelligence Improved With Casey at Bat?", by Lev Navrozov, May 28, 1986;

Fourteenth. "What the Ronald Pelton Spy Case Demonstrates", by Lev Navrozov, June 4,, 1986;

Fifteenth. "How Former CIA Official Responded to Past Error", by Lev Navrozov, July 2, 1986;

Sixteenth. "Ineptness, Not Immorality, Is Main Flaw of CIA", by Lev Navrozov, July 30, 1986;

Seventeenth. "CIA and the 'Mystery' of Where Does Soviet Steel Go", by Lev Navrozov, September 3, 1986;

Eighteenth. "Classic Barter, Soviet-Style: A Spy for a Journalist", by Lev Navrozov, September 10, 1986;

Nineteenth. "What the KGB's Daniloff-Zakharov Move Signifies", by Lev Navrozov, September 17, 1986;

Twentieth. "UN Is Moscow's Best Espionage Base Worldwide", by Lev Navrozov, October 1, 1986;

Twenty-first. "Sen. Helms Ushers In New Intelligence Era for West", by Lev Navrozov, October 8, 1986.

SOVIET ANTI-MISSILE DEFENSE WHICH WAS NOT

(By Lev Navrozov)

Today, I begin my weekly Wednesday column on intelligence work in the sense of espionage, not in the sense of Sovietological meditations about UPI news.

Those who imagine Western intelligence work since 1917 as a series of Western espionage exploits in the Kremlin and want to hear of more such will be bitterly disappointed reading my column. Not only are they unlikely to find any more of such exploits in my column, but they will see that most "true spy stories" they know are myths, spread by Western intelligence agencies about themselves with the help of the media and hosts of intelligence/espionage writers who copy their true spy stories from each other like Victorian authors of "true ghost stories" copied them under the assumption that the more minute the details copied, the truer the ghost story was—or at least seemed.

I proceed from the assumption that the West needs espionage in totalitarian societies, not ghost stories—I beg your pardon, I mean—not spy stories. Hence the West needs a critical analysis of intelligence/espionage as is.

Mine is based on (1) primary sources, such as the CIA's testimony before Congress, (2) common sense, such as the belief that Allen Dulles could not be on May 21-27, 1956, at his post of Director of Central Intelligence in Washington DC, if incontrovertible evidence shows that his corporeal self (and not just his ghost) was in Canada at the time; and (3) the existential experiences of those who spent a lifetime in a totalitarian society, such as yours truly.

Between 1965 and 1971, we lived near the international Vnukovo airport, 16 miles from Moscow, Russia.

Whenever a taxi cab sped us from Vnukovo to Moscow, a strange spectacle on the right side of the highway would open to our view: a futuristic composition out of high-voltage insulators, transformers and other such paraphernalia.

"What's that?" I would ask the taxi driver.

"Anti-missile defense," he would answer conspiratorially on the understanding that the information so confidential could only be shared with especially good customers.

Don't tell me how secretive the Soviet regime is. And here every foreigner going from the Vnukovo airport to Moscow could photograph from his car a Soviet anti-missile defense site even without telescopic lenses, for the site began just 10 yards from the highway.

Work on anti-ballistic missile (ABM) defense system in the United States naturally began in the early 1960s, as soon as intercontinental missiles had come into their own. The Soviet military was in despair. ABM defense required more sophisticated computers than did missiles, and that was just the field in which the Soviet war-oriented economy still lagged far behind, too late had the Soviet planners realized how important computers would be for warfare.

The U.S. ABM defense would reverse the global strategic situation. Without it, Soviet missiles could destroy the United States. Even if the United States could retaliate in kind, the very possibility of mutual destruction enhanced Soviet strategic prestige. Thus the possibility of mutual destruction of a terrorist and his important hostages enhances his prestige by equalizing his and their survival chances. The Soviet rulers could always say: "If the worst comes to the worst, remember that we will all blowup."

The U.S. ABM defense would cancel this mutual destruction possibility and introduce, instead, the development of ABM warfare, in which the Soviet armed forces would be notoriously behind. From the glory of the world's first Soviet space satellites and intercontinental ballistic missiles in the late 1950s, the Soviet regime would go back to the status of a second-rate military power in the early 50s.

How could they make the United States stop further development of its ABM defense system?

I doubt that any Western-born expert on the Soviet Union inside or outside the Western intelligence communities had ever heard, until a few years ago, about the Main Directorate of Strategic Camouflage, which had been founded in the Soviet General Staff in 1964 under the leadership of the then General and later Marshal Nikolai Ogarkov (The same person who coped easily with a battery of Western journalists at a news conference after the Soviets shot down a South Korean airliner with 269 people aboard in 1983).

It is known or understood even less that the Directorate's aim is not only to conceal real Soviet weapons systems, but also to create dummy weapon systems to mislead the Western intelligence communities.

The shrewd Ogarkov's solution was simple:

Let us create our dummy ABM defense for the benefit of the CIA. The all-seeing CIA will detect and report it to the U.S. government, Congress and hence the public. The Americans will think that we are even ahead of them in ABM defense. So they will conclude that the best solution is to sign with us an ABM treaty, to halt all further development of ABM defense in both countries, that is, in the United States.

First there began to appear in Soviet open military publications, which many Western experts in and out of the Western intelligence communities love to study, frequent references to Soviet achievements in anti-missile defense.

Shown on the Red Square parade in 1964 was a missile codenamed "Galosh" by NATO because it was always inside a ribbed container. It was decided that Galosh was an anti-missile missile, though as of today, no-one in the West has ever seen it without its galosh-like container and cannot vouch that it is not just a length of pipe.

I have the impression that Ogarkov put those galoshes on those lengths of pipe to make them easily identifiable on space photographs. In sunny weather, the ribs, each of which is at least a foot long, by my measurements, cast sharp clearcut shadows on the sunny part of a galosh and stood out, brightly illuminated by the sun, on its shady side. The CIA immediately identified 64 Galoshes around Moscow, four sites of 16 Galoshes each.

In Soviet documentaries, a Soviet missile shot down another, except that the narrator did not explain that this was no feat if both Soviet missiles were launched by ordered trajectories to hit each other.

Ogarkov's finishing master stroke, however, was the building of dummy ABM bases, like the one near Vnukovo airport, so that they could be observed by foreigners in the Soviet Union.

The CIA could not miss the Vnukovo base. Going from the airport to the U.S. Embassy in Moscow were those of its staffers who were on the CIA's or the Defense Intelligence Agency's payrolls. What an opportunity for honest-to-goodness espionage Ogarkov had offered them!

The Soviet-American ABM treaty was signed in 1972 and thus the development of ABM defenses in the United States was halted for 13 years, up to 1983, when that wicked President Reagan revived it in his Strategic Defense Initiative, to the disgust of the Concerned Scientists and the Soviet Politburo.

Naturally, the Soviet military based those 13 years to advance Soviet ABM defense as much as possible.

Today, the Main Directorate of Strategic Camouflage seems to be pondering a new tack: to rig up and show dummy missiles that allegedly will reduce U.S. anti-missile defenses to a "pile of junk." At least, the first "Soviet military papers," explaining just that, already have appeared, and one of them has been reported in The New York Times in dead earnest.

THE "WORLD'S MOST IMPORTANT STATISTIC" AND THE CIA

(By Lev Naurozov)

A couple of years ago The Washington Post spoke of the "world's most important statistic." What is it?

According to the Post, it is the percentage of military output in the Soviet Gross National Product. That is to say, "What portion of Russia's goods and services is intended for military purposes?"

For the United States, the answer would be simple. You'd buy the latest World Almanac or some other such book for five bucks, look up the defense budget estimate for, say, 1983—$245 billion—and come up with 7%.

For Russia you buy an official statistical book for 3 rubles and learn that 12.8 billion rubles was spent on defense in 1965, for example.

Yes, but what rubles? The rulers of Russia set all the prices, and those for military goods and services are unknown. Therefore, the rubles with which the Soviet Ministry of Defense procures guns may have little to do with the rubles with which a Soviet inhabitant buys butter.

It is equally futile to convert these rubles into dollars according to the official ex-

change rate, as is usually done by the Western media.

Let us try, therefore, to gleam from indirect clues some notion of the proportion of Soviet goods and services intended for military purposes in the last quarter of a century.

In his tapes Nikita Khrushchev recalls: "[The Soviet physicist Peter Kapitza] invited me to his laboratory." The purpose was, of course, to persuade Khrushchev to allocate money for Kapitza's research project.

The Encyclopaedia Britannica gives Kapitza an impressive four-paragraph entry: in 1929, at the age of 35, while living in Britain, he was "elected to the Royal Society [of London], the first foreigner in 200 years to become a member."

Khrushchev says on tape: "We didn't give him the money at that time either. . ."

But why? Khrushchev had made inquiries about the subject of Kapitza's research, and was told that it was not very military. Khrushchev reminisces on tape:

In a while Kaptiza requested me to receive him again. And I did. Then I asked him bluntly: "Why don't you, Comrade Kapitza, take up a defense subject?"

So, Khrushchev, that founding father of détente, could not bear to see even one outstanding scientist without demanding that he take up a military line of research rather than the line the great scientist was inclined to pursue.

In the post-Khrushchev era, at a closed lecture to editors in Leningrad in 1965, Abel Aganbegyan, a member of the Soviet Academy of Sciences and director of the Novosibirsk Institute of Economic and Industrial Organization, said:

"Of approximately 100 million people in the U.S.S.R. who work, about 30–40 million are employed in the defense industry."

High-level economist though he was, Aganbegyan had no access to the Soviet secret statistics on those "employed in the defense industry." His figure was only an educated guess according to the data at his disposal.

But the West has not known any more reliable figure than his guess of 20 years ago.

How did it reach the West? Someone who was present at Aganbegyan's closed lecture managed to record it and gave the text to a samizdat (underground) typewritten magazine. After it had ceased publication, several back issues reached the West, and Aganbegyan's guess became known here.

What about those who are not "employed in the defense industry?" This is not secret sometimes. In 1983, in an edition of 50,000 copies, the Soviet publishing house "Music" printed a book for kindergartens entitled In the Army We Will Serve: Songs, Plays and Poems for Children of Junior Age (from three to six) With Piano (Accordion) Accompaniment.

Listen:

"We don't yet go to school/
But like soldiers on we march!
Chorus: In the army we will serve. . . .
An officer I want to be/To rush ahead in all attacks!
Chorus: In the army we will serve. . . ."

How do you like this little cute poem for tots:

The sun trumpets its golden horn,
"Glory to the hero-warrior!"
The enemy is routed, smashed and destroyed,
"Glory to the hero-warrior!"

The plays for tots are a subject apart. They reduce to drumming, marching, drumming again and are actually a sort of drill exercises to instill military subordination and leadership from infancy. The goal of the whole project is to make a tot enjoy the prospect of being a cog in the global war-machine.

Yet all such writers, composers, teachers, educators, editors, book designers, printers, pianists or accordion players are not "employed in the defense industry." Nor is their activity secret—possibly because children of three are not thought to be sufficiently responsible to sign "obligation of non-divulgence of closed data."

But obviously, all the adults involved in this "aesthetic education of junior-age children" are also engaged in the maximization of the country's global power.

The question is, who is not. After all, those "employed in the defense industry" or even those 3-year-olds who sing about how "in the army we will serve" have to eat, for example, and those who work to provide them with what may be defined as "poor irregular war food rations in peacetime" are also involved in the same all-out military effort.

Now, how has the CIA evaluated the military share in the Soviet goods and services—the "world's most important statistic"?

The CIA kept repeating its absurd figure every year—up to 1975 inclusive.

Before 1976 the CIA's figure was from 6 to 8 percent, roughly the same as for the United States. But since the total output of Soviet goods and services was far smaller than its U.S. counterpart, the Soviet military output must have been far smaller too, the CIA reasoned.

In 1976 the CIA finally notices that inexplicably, Soviet weapons had first overtaken American weapons and then began to surpass them. Then the CIA declared that it had been mistaken between 1957 and 1976 and doubled its figure for the proportion of Soviet military output in the Soviet Gross National Product, where this figure roughly stays in 1986. Well, before 1976 the CIA's "most important statistic" was laughable, while now it is only 50 percent so.

"Can't we make a mistake?" is the CIA's plea. Yes, but what kind of mistake? To say, about a society where even children of three "march like real soldiers," that it spends less for military purposes than the United States does, means just to know nothing about that society.

The Soviets' Greatest Spy—Western Free Enterprise?

(By Lev Navrozov)

We have heard that we live in one of the open societies, called "the West" for short, in which Soviet espionage can easily operate by definition.

This is an understatement. In the West, information which would be considered top secret military espionage data in the Soviet Union is pushed on everyone for free with aggressive high-pressure, salesmanship, or as the expression goes, with the hard sell. Hereby I announce a contest (no cash prizes) for the best term for such societies. The hard-sell-of-military-data societies?

MILITARY MARKET

Here in front of me is the Jan. 18 issue of the British *Jane's Defense Weekly* which the mailman has just brought and thus inspired me to write this column.

Jane's is one of the numberless Western magazines treating military Research & Development, the production of weapons, etc. as a "military market"—just like any other market.

All this splendid military merchandise beautifully displayed on the pages of *Jane's* has to be sold in a fierce competition, right?

Now, to sell it you must advertise your product as smartly as possible. The customers must know that your scientists and engineers have just conceived of a submarine which will be better than any other submarine on the market. Orders can already be filed. Negotiations are on. Our customers are always right, our salesmen are always bright.

"Yes, sir, only our company in the West will be able to produce that submarine. The Soviet military, sir, will perhaps be able to produce it too—as they have learned about our concept from *Jane's Defense Weekly*, but you won't buy weapons from the Soviet military, will you? Yes, sir, the Soviet military will perhaps be able to sink our submarine—since they have learned about our concept. But you are not going to fight *them*. I hope not, sir. You intend, I take it, to fight Tararabumbia or is it South Trali-Vali, sir? If you place an order ahead of Trali-Vali . . . The right decision, sir. We'll formalize it before lunch, sir. Now I don't envy Trali-Vali, ha-ha-ha! Unless it's Tararabumbia, of course."

MIL BIZ IS LIKE ANY BIZ

My subscription to *Jane's* seems to have expired, but I receive it anyway. Of course. Perhaps I'll place an early order for a dozen of those new submarines, after all, or at least will renew my subscription.

Yeah, mil biz is like any biz. From advertisements in *Jane's*, for example, you can learn what weapons every Western company produces, how they look, why they are better than any other on the market—and what the company's location and telephone numbers are. How else? Suppose you want to place an order for those new submarines. What company can afford losing potential customers by withholding its name, address and phone numbers?

There are grandiose military trade fairs, and since mil biz must know what to research, develop, produce and sell and the customers what to order, buy and deploy, magazines like *Jane's* give a wealth of background military information. Supply and demand. Who researches, develops, produces, sells, plans, intends, orders, buys and deploys what in the military field.

Poor KGB and GRU. They feel like the wives of Soviet Embassy officials at Bloomingdale's. Their eyes run away with them. What to buy? Which Western weapons to copy—and improve? What military information to use? I can imagine a Soviet submarine builder, rushing to his design office with a copy of *Jane's* in his hand: "Brothers! A new concept in submarines!"

A TORRENT VS. RARE TINY DROPS

If military information from the West comes to the Soviet military in a torrent, from the Soviet Union to the Western military, it comes in a trickle, nay, rare tiny drops.

Jane's has a special section called "Soviet Intelligence." Usually it is a photograph of, say, a Soviet fighter-bomber in a test flight, and though the fighter-bomber looks on the photo more like a blurred mangled frog than a fighter-bomber (it is, obviously, a blow-up of a satellite photograph) and is a reprint from *Aviation Week and Space Technology*, I imagine the editor rubbing his hands in glee and composing a text to conjecture the performance characteristics as well as the size and configuration of the

mangled frog—I mean the Soviet fighter-bomber.

But in the current issue there is an even greater piece of "Soviet Intelligence:" two full pages devoted to Vladimir Chernavin, the new commander-in-chief of the Soviet Navy.

Well *Jane's* even carries his photographs, somewhat blurred, too, but possibly because the *Pravda* photocamera was poor (almost everything is poor in the Soviet Union except weapons), not because the picture had to be taken by the CIA from space.

Strangely enough, while, say, the Soviet designers of submarines or missiles are total unknowns (even their names are secret until they die), the names and faces of Soviet top military men are at least allowed to be recognized by the West. But what else?

The first subhead of the *Jane's* article about Chernavin is "Patriotic Loyalty." How did *Jane's* or the CIA discover *that?* From his speeches in the Soviet newspapers.

You see, were not Vladimir a loyal patriot he would say as much in *Pravda.* Imagine a banner headline: "Fleet Admiral Chernavin: Am I a Loyal Patriot? Not By a Long (Naval) Shot!" But he didn't. So he must be a loyal patriot.

Similarly, *Jane's* makes other Soviet intelligence revelations. At the end, the magazine discovers (from an article in *Izvestia,* July 27, 1985) that "Chernavin introduced a new definition" of naval power. It is the "extent to which a particular state is able to make the most effective use of the oceans of the world." Terrific! But I think the "new definition" could be found in *Izvestia* 10 or 15 years ago too—or in 16th century British naval papers.

THE WAY OUT

In short, while the Western military market or mil biz cascades its splendors on all and sundry like Bloomingdale's and Macy's do theirs, the West receives the blurred photograph of a Soviet admiral and Soviet newspaper clichés, referred to as "Soviet intelligence" revelations.

What's the way-out? To try to eliminate or reduce free enterprise in the military field in favor of secretive bureaucracy is insane.

Free enterprise is creative. It does forge ahead in many areas ahead of the Soviet military despite everything. Now, free enterprise cannot function without a free open market and its free open advertisement and exchange of information.

Hence Western military information cascades freely and openly on all and sundry, including the Soviet military, while Soviet military information is contained inside the totalitarian reservoir which Western intelligence/espionage cannot penetrate.

The solution seems to lie in the penetration of the totalitarian reservoir by Western intelligence/espionage rather than the attempt to impose secrecy on the Western free and open military market. But more about it on future Wednesdays.

1961—The Year of CIA/MIA-6's Bittersweet Triumph

(By Lev Navrozov)

A quarter of a century ago a Soviet high-ranking official named Oleg Penkovsky and a British businessman in Moscow named Greville Winne walked through Moscow's whirling snow "on which even the KGB could not hang a microphone."

The joke is not mine, but Winne's, and hence in quotes. But whether or not the KGB can hang microphones on whirling snow, Penkovsky asked Winne to pass to Britain a package in which he suggested that he would be an espionage agent for the British Intelligence Service, MI-6.

And so he was, for about half a year, practically the only espionage agent the West ever had in post-1917 Russia—that is, in almost 70 years.

There have been many defectors from among those Soviet nationals stationed in the West—but stationed in the West, they have had no access to centers of strategic information in Russia.

Penkovsky had that access. The English-language version of his calling card said: Deputy Division Chief, Foreign Relations Department, State Committee for Coordination of Scientific [read: Military] Research.

IN WEST, MORE MAY BE LESS

The more strategically important the information a Soviet official handles, the higher his socio-economic status in the "Soviet State." The West cannot induce him to become an espionage agent with only the prospect of a post and salary in the West. His relative socio-economic status in the West will always be lower than it was in Russia—that is, in the West he will never be so much more important and wealthy than the rest of society as he was in Russia.

In his book *CIA's Secret Operations,* Harry Rositzke, who worked in the CIA for 25 years and with whom I almost came to blows on a TV program about intelligence/espionage, described an alleged successful inducement in the form of rubles. This is ridiculous. Rubles buy little wealth in Russia, since real wealth is actually distributed according to official rank—via "closed stores," for example.

Therefore, one of the strong motives for a Soviet high-ranking official to become an espionage agent for the West has to be ethical or spiritual (as it was in the case of Penkovsky), that is, connected with a strong realization that the West is right and the "Soviet State" is wrong.

But here comes a new difficulty. Those with strong ethical-spiritual motives of this kind do not usually join even the Communist Party, let alone the KGB, just as decent women do not usually go to work at a brothel. Hence, those with strong ethical-spiritual motives have as a rule no access to strategic data of national importance.

Those like Penkovsky are rare, marginal or mixed cases.

Let us suppose that a Soviet national who has access to strategic data and yet is not devoid of strong ethical-spiritual motives has realized that the West is right and the "Soviet State" is wrong.

But it's a long way from having this ethical-spiritual realization to becoming an intelligence agent for the West, something infinitely more dangerous in Russia than any other "crime."

NATHAN HALE NO PARIAH

My apartment house is called "Nathan Hale Gardens." Some day I will take a poll to see how many tenants know that Hale was America's espionage agent.

I wonder, though, if anything in the West has been named after Oleg Penkovsky. To the new American culture, grown by universities in the last 20 years, the military are the country's pariahs, while espionage agents are pariahs of pariahs.

Quite a few CIA officials themselves have been explaining at great length that the CIA is a kind of university, consisting of scholars, thinkers, analysts, philosophers—not some, God forbid, spies—and that the word "intelligence" and the name "CIA" mean just information, or analysis of information. These CIA authors have been avoiding the very word "espionage" as if it referred to something shameful, almost indecent and certainly having nothing to do with the CIA.

If this has been the West's attitude toward espionage on behalf of the free world, why should a Soviet official or officer translate his ethical-spiritual endorsement of the West into infinitely dangerous espionage on behalf of the free world? To be regarded by the West as a pariah of pariahs?

However, a Soviet official who may contemplate conducting intelligence information for the West does not live in the West. He has been living in a Soviet environment where it was drilled into his mind since infancy that no creature on earth is more heinous than a spy for the West—a loathsome traitor and an unspeakable scoundrel.

If he is uncovered, his wife, his children and his friends may think of him in just such terms, while all Soviet media without a single dissenting voice will depict on millions of screens and printed pages how monstrous he is.

Yes, Penkovsky was a miracle. A rare statistic. A godsend for the West. Yes, 1961 was the year of triumph for MI-6 and for the CIA, which had joined MI-6 on the Penkovsky case. A real espionage agent worked for the West in Russia.

Those billions of dollars taxpayers had put into the CIA seemed to be now justified to some degree. It was now only necessary to preserve Penkovsky for at least 10 years and then retrieve him.

All was well for about half a year, as long as Penkovsky met only Winne (a contact authorized by his Soviet chiefs) and went abroad (a privilege of the chosen few that he also enjoyed) to pass on his espionage data on behalf of the free world.

Now in the fall of 1961, MI-6 and the CIA decided to use their expertise. In the spirit of an old sloppy spy thriller, they instructed Penkovsky to approach the wife of a British embassy official (she was an MI-6 agent) seated in a park in Moscow with her children and present one child with a box of candy that actually did not contain candy (Oh, the diabolical joint cunning of MI-6 and the CIA!) but Penkovsky's espionage data.

Since all members of the British Embassy in Moscow and their families have always been watched all round the clock, Penkovsky was destroyed then and there, though the KGB did not "nab" him on the spot, of course, but continued to watch him for about a year, a standard KGB time for "investigation."

I always wondered what MI-6 and the CIA meant to tell the KGB by this grandmotherly spy thriller of theirs—that high-ranking Soviet officials are in the charitable habit of walking about in Moscow's parks and giving boxes of candy to the families of members of the British Embassy?

On 30th Anniversary of "Khrushchev's Secret Speech"

(By Lev Navrozov)

Yesterday it was 30 years since the delegates to the 20th Congress of the Soviet Communist Party listened all night to Nikita Khrushchev's report, according to which Josef Stalin was not by far the greatest man in history, nay, an omniscient, kind and beloved deity, but as a neighbor of ours put it, "our Hitler, only worse."

No Western intelligence agency is impudent enough to claim it knew anything about the report when it was delivered.

Even today, 30 years later, it would have been known to Western intelligence no more than is, say, the secret "Letter Concerning L.P. Beria," the chief of Stalin's secret police, had not Khrushchev decided to pass copies of his report via Tito to the West and to Poland, where they became freely available.

WHAT THE CIA DID NOT KNOW

The CIA did not know that:

Khrushchev's report was motivated by his struggle for power only: in 1955 he still meant to succeed Stalin as Stalin's "closest associate." (Allen Dulles, then CIA director, thought Khrushchev had to deliver his report under the pressure of anti-Stalinist public opinion, led by the intelligentsia!)

Khrushchev managed to deliver the report only due to a trick of his own, taking advantage of the fact that the Presidium of the Central Committee was to be formed after the Congress, not at the congress.

The delegates listened to the report in a dead silence. (Dulles thought they argued with Khrushchev!)

The report was a scholarly bureaucratic treatise, with long quotations (the CIA wondered whether the written text of the "speech" existed).

The report was printed in a closed edition of about a half million copies and read to practically the entire able-bodied adult population of Russia at "closed" (secret) meetings.

NATIONAL CONSPIRACY

This last point is especially staggering. Suppose the entire able-bodied adult population of Russia is gathered for secret meetings to listen to a decision to the effect that a suprise nuclear-missile attack will be launched on the retaliatory potential of the West.

Comrades, we are telling you this so that you could be prepared for nuclear defense since the enemy may try some countermeasures in case his retaliatory potential has not been completely destroyed. But the enemy should not know this."

If Western intelligence agencies don't have a single agent even among the ordinary population, as it had none in 1956, the West would not know the content of such a decision, known to the entire able-bodied population of Russia. Therefore, Western intelligence wouldn't know even the fact that such secret meetings took place all over the country, as it didn't know in 1956.

A countrywide conspiracy against the West is possible, to which practically all the adult population of Russia would be privy, while Western intelligence agencies would read *Pravda* with an air of great importance and brag that "space satellites can see even a hare scampering in a field" (which, incidentally, is not true either).

But what about more narrow higher-level Soviet conspiracies to which only privileged strata of the Soviet population are privy? If the CIA knows nothing even at the Soviet grass-roots level, how can it presume to know anything at the highest level which is infinitely more secret, hidden within thousands of walls, screens and barriers of all kinds and accessible only to the most privileged few?

NO ANSWER FROM CIA

In my last column (Feb. 5, 1986) I wrote about my Appeal to the CIA's Information Review Committee to give the CIA a fair chance to dissociate itself, on the occasion of the 30th anniversary of "Khrushchev's Secret Speech," from the inane canard that the CIA had allegedly almost purloined the text of the speech right after the 20th Congress if not at the 20th Congress or before it.

True, the head of German intelligence, Reinhard Gehlen, also bragged that his agency and no other secured the complete text of the "speech," and certainly had done so before the CIA or anyone else secured any text at all.

Similarly, it has been claimed that the Israeli intelligence agency Mossad, and no other, secured the "speech."

The canard that a Western intelligence agency purloined Khrushchev's "Secret Speech" took wind in 1962 with the help of Dulles himself and has been flying about since then frantically in all directions.

To begin with, members of each of the three agencies—the CIA, Reinhard Gehlen's "ORG" of West Germany and the Mossad of Israel—have been claiming that *their* agency, and no other, acquired the report. The absurd impression they have been creating is that Khrushchev's report existed in one copy, and the only problem is to decide which intelligence purloined that unique copy and thus immortalized itself.

It is forgotten that the Soviet bloc countries have even "closed" newspapers for their ruling elites, not to mention texts like Khrushchev's report.

Current and former members of each agency "leaked" to their favorite journalists imaginary colorful details about how their agency accomplished that "espionage coup of the century."

Intelligence/espionage authors and whoever is not too lazy to write on this subject have been copying these imaginary details from each other, embellishing them, adding what their own imagination suggests and passing off the resulting concoctions as the latest inside info, straight from top secret sources.

Nothing is missing in these yarns: the CIA's spies in the Kremlin and millions of dollars in Swiss banks, Gehlen's writing of Stalin's would-be assassin, Dostoyevskian love-hate friendship between the head of the CIA's counterintelligence, James Angleton, and the head of the Italian Communist Party, Palmiro Togliatti, and whatever a spythriller author can imagine given unlimited leisure.

Those who have been spinning these yarns have never noticed that their yarn not only contradicts all the other yarns, but is also self-contradictory as such unless it is all absurd. Reputable book publishers and publications like the *New York Times* have been publishing these yarns as serious scholarly studies, often complete with source notes.

Since I am an American citizen, I thought it behooved me to request the CIA to dissociate itself from these inane boasts on the occasion of the 30th anniversary of Khrushchev's nocturnal delivery of his report. Let other Western agencies make fools of themselves by bragging of their imaginary feat.

Alas, the CIA's Information Review Committee has answered that it wouldn't be able to consider my appeal in such a short time.

The fact that the CIA was unable to acquire Khrushchev's report until and unless Khrushchev sent copies to the West via Tito and to Poland does not discredit the CIA—such an operation exceeds by many orders of magnitude the ability of Western intelligence agencies as they are today.

Something else is deplorable: the event demosntrated that Western intelligence knew nothing about what was going on in Russia behind the exterior visible to tourists or depicted in the Soviet "open" media, that is, the media available to all, in contrast to the Soviet multitiered "closed press" available to Soviet officials according to their rank.

THE CIA AND SOVIET DEFECTION-REDEFECTION MYSTERIES

(By Lev Navrozov)

When Oleg Penkovsky proposed in 1960 to become a Western intelligence agent without any remuneration, but just out of sympathy for the West, the CIA rejected him as an obvious Soviet plant—he was "too good to be true," in the CIA's opinion.

If British MI-6 had shared this bias—and fortunately, it did not—the West would have lost practically the only intelligence agent it ever had inside the strategic centers of Russia.

This shows that the bias of viewing any present or former inhabitant of Russia willing to help the West as "too good to be true" may lead to disastrous losses of vital information.

On the other hand, here was Oleg Tumanov, a defector working for Radio Liberty for about 20 years. Recently he disappeared—presumably redefected. Was he, the man in charge of broadcasting for Russia, a Soviet agent all along?

And what was Vitaly Yurchenko, who went back to Russia last November? A KGB agent who tricked the CIA all along for some obscured reason? Or a naive minor KGB office who first defected, then changed his mind, and redefected to be shot as a traitor?

To the CIA and the media he was a riddle wrapped in a mystery inside an enigma, to repeat once again a phrase from Churchill's broadcast on Oct. 1, 1939.

Still earlier another Oleg, Oleg Bitov, a jounalist and a brother of Andrei Bitov—a gifted "semidissident" writer whom I knew, respected and translated into English—defected, and then redefected so strangely that he was said to have been kidnapped by the KGB.

How to distinguish between an authentic defector and a KGB phony?

In Stalin's era, as I recall it, the failure to spot in one's circle of friends a secret police informer almost inevitably led to being denounced by him and perishing in Stalin's camps. Yet my friends and I survived. I had my trusted friends. They are all alive and well. None of them turned out to be a secret police informer. We were able to spot secret police phonys and avoid them.

How did we do it?

In a circle of intimate friends—devoted to things intellectual or spiritual, for example—there is always some "key" as in music. Whatever is off key is out of tune, and hence a false note.

An intruder trying to be "in" imitates their "music." but he immediately alerts them as soon as he opens his mouth, for his very first "note" is false, and what follows is cacophonic to the intimate circle's ear. They freeze and wait for him to slink away.

Now let us assume that I was to determine in Russia whether a certain American was an authentic communist sympathizer or a CIA agent pretending to be such.

I would not have been able to determine that for two reasons. First since I have never been a communist, it would have been difficult for me to sense what was authentic.

Everything "communist" would have seemed to me phony.

Second, though my knowledge of English was admittedly second to none among the Russian-born, all Americans seemed to me more alike than they really were and the English they spoke seemed to me more uniform than it really was.

All that I could tell about an American correspondent I knew was that he was an American and spoke that kind of English which they speak in the United States.

Recently, 14 years after my sojourn in the United States, he called me. I nearly fainted. He sounded so entirely different. Now I heard not just impersonal "American English," but the language of a particular individual, shaped by his birthplace, childhood, family life, career, psyche, larynx, mouth and vocabulary.

Also, I heard not only the meaning of his words, but also what was behind or under them: his hesitations, motives emotions, intentions and limitations. I heard how and why he chose his words, but them together and articulated them.

That is the CIA's problem. No matter how good its American-born experts of Russia and Russian are, all Russians inevitably seem to them more alike than they really are, and their Russian more uniform than it really is. Neither the CIA nor the media "understood" Oleg Penkovsky, Oleg Bitov, Vitaly Yurchenko or Oleg Tumanov: they perceived them each time just as a "Russian" speaking "that kind of language which they speak in Russia."

The difference between a defector, defecting out of sympathy for the West., and a KGB phony crudely imitating that sympathy, was a nuance for beyond their perception. They heard an alleged defector's words, not what was behind or below them.

After it was all over with Penkovsky, the CIA published *The Penkovsky Papers,* consisting of authentic documents (except one suspicious photograph) and a fake one purporting to be Penkovsky's notes.

To a native Russian, the phoniness of the fake Penkovsky notes is comical; to him everything in the document is plainly ridiculous: it is out of character, out of style, off key all the time. A native Russian can only laugh reading the "notes." But to the CIA, the fake document seemed no doubt very clever.

The question is: how can the CIA distinguish a phony KGB defector from a real one if the CIA considers a laughable fake so cleverly made that it needs to publish it?

Naturally, few Western-born experts even noticed that the "diary" was a fake, and hardly anyone saw its comical crudeness.

Besides, for many in the CIA and the media it is as difficult to sense a true defector's sympathy for the West "as for the sated to understand the hungry."

In the West, freedom is as abundantly obtainable as food. That someone somewhere may lack basic freedom and crave for it is as irreal in the West as that someone somewhere may lack and crave for the food that American supermarkets throw out because it is stale or damaged when shipped.

Therefore, to many in the CIA and media, a defector's sympathy for the West as such seems somehow phony: "Why should a prosperous, high-status Russian give up everything out of sympathy for some Fourth of July abstractions that few recall here even on the Fourth of July?"

When an alleged KGB defector conveys these abstractions in his own language, American-born experts can only grasp the meaning of his words, but not their infinite psychological overtones; and if he conveys them in his rudimentary English, it depersonalizes him completely.

Hence, a true defector becomes indistinguishable from a KGB phony, and his behavior a conundrum that is useless even to begin to solve.

[From the New York City Tribune, Mar. 26, 1986]

ARMS AGREEMENTS? COMPLIANCE UNVERIFIABLE BY CIA

(By Lev Navrozov)

There is a never-answered question that has been asked at least since 1968 when the Strategic Arms Limitation Talks (SALT) went ahead, resulting in the SALT-I agreement in 1972:

"Can the compliance of the closed Soviet regime with such agreements be verified by the CIA-led intelligence community?"

The CIA has been vacillating between its desire to impress the public with its imaginary ability of verification and its fear of being found out the hard way (perhaps even in the extreme form of a surprise Soviet attack on the strategic retaliatory potential of the West).

May of those inside and outside the U.S. government in favor of arms negotiations and agreements have been saying that, *yes,* the CIA has been able to verify SALT I and SALT II, and only secrecy has been preventing them or the CIA from ever saying anything on the subject beyond this bold profession of their faith.

X+Y=?

But does their faith prove anything? In his memoirs published in 1985, Adm. Stansfield Turner, director of Central Intelligence from 1977 to 1980—that is, when SALT II was to be ratified—writes:

"The only means I had for calculating whether the Soviets could cheat was to figure out the different ways they might attempt it. I had a team of experts pretend they were malicious, scheming Soviets and think up techniques for cheating. One idea they came up with to hide the construction of new ICBM silos was to build them inside large buildings and plan to fire the missiles through the roofs."

To suppose that a missile like an ICBM can be hidden inside a large building does not require "team of experts" pretending they are "malicious, scheming Soviets"; a child of six could come up with such an idea. Turner continues:

"I was prepared to say [to the Congress] that I had X percent confidence that they could not secretly build more than 100 missile silos inside buildings without our detecting what was going on, and that our confidence would be X + Y percent by the time they got to 200."

So, even in 1985 Turner does not say what "percent confidence" he had in 1978 or what it was in 1968, when SALT-I began. In 1985 the public was to believe this was still a secret that could only be denoted by X and X + Y.

It is statistically true that anyone who hides a thing runs a certain risk of that thing being discovered. That risk for 100 hidden items may be designated by X, and that for 200 by X + Y. So, put in such neat symbols of school algebra, Turner's verification percentages look impeccable.

But if the Soviet military can hide an ICBM inside a large building, then, even though the probability of discovery for 100, 200, 2,000 (and so on) ICBMs does increase theoretically, neither the CIA nor anyone else can calculate this X, X + Y, X + Y + Z (and so on). They can exist only as algebraic symbols, not as calculated specific figures. Turner takes advantage of secrecy to conceal the fact that no one can calculate them.

The U.S. government machinery of strategic arms negotiations and agreements has been rumbling on in the 1980s on the basis of nothing except a vague national myth about the CIA's ability at verification, which the American media have created for the CIA.

SALT-II was never ratified, since the CIA has refused to say unequivocally that yes, SALT-II is verifiable, but has confined itself to safe assurances that the CIA's probability of discovery of 100 Soviet hidden ICBMs is X and keeps increasing with the number of hidden Soviet ICBMs.

MOBILE UNKNOWNS

In 1985 Turner spoke only about stationary ICBMs, hidden inside buildings, with an empty algebraic promise that if very many ICBMS are hidden in this way, there is an X chance that the CIA will detect "what was going on."

But there has been something still worse in store for the West: mobile missile.

The CIA might have detected this danger in 1969 if it had listened to ex-Soviet leader Mikita Khrushchev's tapes, as I did. The following is Khrushchev on tape:

"I think Stalin was still alive then [that is, it was in 1953, take or leave a year or two]. When we had created mobile missile systems, we discussed this question, and gave up the building of stationary [missiles] and went over to mobile ones, which were a better solution. . . . They could be dispersed and it was more difficult for intelligence to establish where these missiles were."

Do you see the meaning of it all? Somewhere between 1952 and no later than 1964, when Khrushcehv was thrown out of power, the Soviet military gave up the building of stationary missiles and went over to mobile ones for obvious reasons.

But Adm. Turner narrates in 1985 that he explained to the Congress in 1977 to 1980 how the CIA could detect Soviet stationary (pre-1964?) missiles with a probability equal to X, etc. What about mobile missiles? The CIA didn't know that the Soviet military had switched to them at least 13, if not 28 years earlier?

On Dec. 31, 1985, SALT-II formally expired. But the Reagan administration has declared its intention to abide by it at least up to the spring of 1986, and it is widely believed that secret commitments were made by President Reagan at the summit late in 1985 to that effect. The liberal media have been egging on the administration: negotiate, negotiate, negotiate.

But if stationary missiles are unknowns—they could be hidden in large buildings—mobile missiles are mobile unknowns, which the CIA does not even presume to detect with a probability equal to X.

Only espionage agents inside the Kremlin could have yielded such information, but the CIA has, practically, never had any, and has been relying on space surveillance in the hope of photo-graphing Soviet stationary missiles hidden behind walls—which has been futile anyway since at least 1964, when the Soviet building of mobile missiles began.

[From the New York City Tribune, Apr. 2, 1986]

ILLUSIONS ON WHICH CIA WAS FOUNDED 40 YEARS AGO

(By Lev Navrozov)

The birth of the CIA 40 years ago was based on several American illusions.

Since it is no problem to buy any commodity on sale in the United States if you have enough money, there originated a delusion that intelligence/espionage will also be available if Congress pays enough money for it.

Since American corporations like General Motors are fairly efficient, there originated a delusion that a government non-profit bureaucracy will be also fairly efficient if organized along the lines of General Motors to produce intelligence/espionage data.

Since many gifted Americans are paid salaries, there originated a delusion that every American was gifted in intelligence/espionage if he was paid a salary.

Since Soviet spies penetrated during World War II and thereafter even the U.S. top secret atomic laboratory, which was completely isolated in a remote practically desert area, there originated a delusion that an American who is paid a salary for intelligence/espionage would similarly be able to penetrate the innermost recesses of Stalin's Russia.

FROM OMAHA TO THE KREMLIN

We know how the CIA was born due to someone who joined it at its birth worked in it for 25 years, and then wrote memoirs. His name is Harry Rositzke.

I would read his and other such books as comical writing except that their meaning is tragic. Anyway, Rositzke wrote his memoirs in dead earnest. He takes himself for the CIA's master spy who has given the taxpayers more than the value of his salary they paid him for 25 years. So let us begin with Rositzke himself.

Who the hell would imagine that a Rositzke, who was born in Brooklyn, studied German at Harvard and taught English in Omaha, could penetrate, say, a Soviet military laboratory in Kungur?

Did Rositzke know a word of Russian or any other of the more than 130 languages of Russia? Or was it assumed that English or German was spoken in Kungur, and so Rositzke would speak with the local populace in his Brooklyn-Omaha English or his Harvard German? Was Kungur thought to be like Brooklyn, Omaha or Harvard?

What does the teaching of English in Omaha have to do with espionage in Russia? What did Rositzke know about the subject? Why on earth was he thought to be more gifted in the field than in heart surgery, weight lifting or the composition of a concerto for violin and orchestra?

FUTURE SPIES IN THE KREMLIN

Rositzke did us a great service by listing also the occupations of those of his new colleagues whom he came to know best. These were:

Two journalists. Excellent! They would send their messages from a secret laboratory in Kungur as newspaper reports, with byline and all.

A state trooper from the Midwest. Fantastic! He would be a sports coach at a local school.

Several sons of missionaries. Splendid! They would convert some atheists at the Kungur laboratory in the process of espionage.

A lawyer. Magnificent! He would talk in Kungur. Lawyers know how to do it.

A postal clerk. My God! He could get a job at the local post office and read all letters.

Several high-school and college teachers (like Rositzke). They would find no more difficulty than Rositzke himself in passing themselves off in Kungur for itinerant circus acrobats, for example. Surely the nascent CIA could teach them somersaults or whatever.

True, there was one defect in them all. None of these future spies in Kungur of the Kremlin knew a word of any of Russia's 130 languages. A way-out seemed to be for all of them to pretend that they were deafmutes.

REHASHED WISDOM

Once on his job, Rositzke decided to learn something about Russia—to train himself on the job, as they say. How? By reading Soviet books and magazines.

In 1973, that is, about 25 years later, Rositzke published a book of his own, entitled *The USSR Today.* Needless to say, I've tracked it down to see what he produced after 25 years of his salaried sojourn in the CIA. I hardly need to say that the CIA's espionage did not move an inch during those 25 years. But here was at least Rositzke's book.

Thousands of Americans write books about Russia by rehashing other books about Russia, written by rehashing still other books about Russia. So after 25 years of his salaried sojourn in Washington Rositzke churned out in the same way his book about Russia: it is thin, and hence subsequent experts on Russia will have little to rehash.

Otherwise here are three of Rositzke's rehashed "truths about Russia":

The "average Soviet factory worker is better off than the 20 million Americans at the bottom of the income ladder";

"Marxism-Leninism appeals to countless men"; and

The "Soviet record in public health is outstanding."

It is not clear why Rositzke should have struck it out for 25 years in the CIA to pen this rehash one could learn straight from any Soviet propaganda pamphlet in English on sale in Washington for 50 cents a copy. Had Rositzke seen a single Soviet factory worker in the flesh in a town like Kungur? How did Rositzke know that Marxism-Leninism appealed even to Brezhnev? What did Rositzke know about Soviet public health except what was written about it in Soviet propaganda?

TOP SECRET

But it took Rositzke 25 years in the CIA to obtain these gems of rehashed wisdom, while at the birth of the intelligence agency, Rositzke was yet to *begin* reading in absolute top secrecy what—*Pravda?* No, of course, not. In those days *Pravda* was not published in English. But fortunately, several Soviet glossy propaganda magazines were. These Rositzke would read in absolute top secrecy until he knew Russia enough to penetrate the Kremlin or at least Kungur.

In absolute top secrecy did Rositzke arrange for subscriptions to several such periodicals. His job was so secret that even his wife was not supposed to know that her husband was the Chief of Special Projects Division/Soviet, Strategic Services Unit. Indeed, Harry Rositzke didn't exist any more. He used cover names from now on, say, Dick Appel and when Dick Appel was asked where he worked, he had to say: "At the State Department" or name some other innocuous place. Of course, the Soviet magazines were to arrive at some innocent Post Office Box.

Finally, the first of them did, postmarked Moscow. Inside his absolutely top Secret Division within an absolutely top secret Unit, Dick Appel picked up the package from his in-basket and read the Moscow label on the brown wrapper.

Harry Rositzke
Chief, Special Projects
Division/Soviet
Strategic Services Unit
2430 E Street
Washington, DC.

HOW THE CIA BORES THE U.S. CONGRESS STIFF

(By Lev Navrozov)

The CIA has been testifying before various congressional committees, and whatever sanitized version is released for the press, I collect it, so that now I have a huge stack of the CIA's testimonies dating back as early as 1959.

As a random sample, I pull out from the stack a typewritten release for the press: the CIA's testimony before the Joint Economic Committee on Sept. 14, 1983, entitled *USSR: Economic Trends and Policy Development.*

In the 1980s a member of the U.S. Congress would not mind hearing from the CIA how the Politburo harnesses all available economic sources to maximize its global might, and when the later will be sufficient in the Politburo's estimation to put an end to the United States by striking at its retaliatory nuclear missile potential.

But there is something more important for the CIA to testify about. Hark ye, U.S. senators and representatives: "Production [in 1982] of fruits and vegetables reached record levels . . ."

This is what the CIA learned from Soviet "open" (that is, freely available) reference books, though as usual the CIA give no source note. The Congress is to suppose that the CIA has received this strategic information via intelligence/espionage, and so no sources could be given.

Imagine a dark, rainy night, when all KGB counterintelligence agents stay at home (at least in American spy thrillers), and the CIA's ace agent passes his case officer on Gorky Street (favored in such spy thrillers, too) and whispers as he passes:

"Production of fruits and vegetables reached record levels . . ."

So why should the U.S. Congress hear from the CIA that in Russia in 1982 there was a good harvest of "fruits and vegetables?" Why should a secret intelligence/espionage agency, leading the secret "intelligence community" of 200,000 secret employees, report this to the U.S. Congress? Can a professor of Soviet economics not register this news from the Soviet open press in his article if it is of interest to anyone?

The testimony takes several hours to read. It is a frightfully boring and irrelevant rehash of the Soviet open press.

Less than 6 percent of the testimony is occupied by two sections called "Defense." It is interesting that even in terms of time and space in the CIA's testimony, the CIA gives Soviet "defense" a modest fraction of its testimony—6 percent—and this fraction figures under the conventional reassuring Soviet propaganda name: "defense." Every country must defend itself, must it not? So the "U.S.S.R." (the CIA uses all the propaganda names) has its "defense," too.

The CIA informs the Congress: "Andropov's position on the share of resources that should go to military is unclear."

Unclear? But what about intelligence/espionage that has penetrated the Kremlin, as we have been told so many times? The CIA explains: "In his November 1982 speech, he [Andropov] stated only that defense requirements as usual have been sufficiently taken into account.'"

You see? Andropov was vague. If he had expressed himself clearly in *Pravda*, the CIA would have copied the article from *Pravda* and read it to the Congress. That's what intelligence/espionage is all for! But Andropov was vague. So what on earth could Congress expect from the CIA? No wonder the CIA was vague too:

New information indicates that the Soviets did not field weapons as rapidly after 1976 as before. Practically all major categories of Soviet weapons were affected—missiles, aircraft, and ships.

What does the first sentence of this verbiage mean? That in 1982 U.S. space satellites saw a smaller number of missiles fielded than in 1975? But what if the missiles of 1982 had far more warheads, and these were far more accurate? What about camouflaged stationary and mobile land missiles that U.S. space satellites did not see?

READING THE TEA LEAVES

Congress then hears:

The growth in total [Soviet military] expenditures still appears to be considerably below the long-term average, and [military] procurement spending remains roughly unchanged, although at a high level, when measured in constant 1970 prices.

What follows is the CIA's favorite pastime: guesswork that the CIA calls "analysis." Having invented a "trend"—in this particular case, the slowdown in the growth in total Soviet military expenditures and military procurement—the CIA proceeds to invent the imaginary causes of its invention:

The slowdown in the growth of military procurement cannot be explained by any single factor. Initially, at least, the absence of growth in military procurement might have been attributed to natural lulls in production as older weapon programs were phased out before new ones bogan. The extended nature of the slowdown, however, goes far beyond normal dips in procurement cycles.

The continued slow growth since the late 1970s seems related to a combination of complex factors including technological problems, industrial bottlenecks, and policy decisions. Some funds budgeted for procurement may have been directed instead to research, development, testing, and evaluation (RDT&E) during this period because of the increasing complexity of weapon systems being researched.

The process of the CIA's production of this verbiage for the benefit of the U.S. Congress, government and all concerned can be outlined as follows: Having invented the "slowdown in the growth of [Soviet] military procurement," the "CIA analysts" begin to "analyze," or as the old English expression goes, to read the tea leaves.

Procurement cycles? No good! According to the CIA's imagination, the slowdown is *extended.* Then the "analysts" begin to enumerate everything that comes to their heads as capable of slowing down the growth of Soviet military procurement, but pass off a string of their ad hoc inventions as facts, established presumably via intelligence/espionage.

Indeed, what possibly *can* slow down the growth of Soviet military procurement? Technological problems. An excellent safe common place!

What else? Industrial bottlenecks. A marvelous fib—and very much in the spirit of the Soviet scene! Policy decisions. A splendid fantasy—and totally noncommittal: surely those Soviets always make *some* policy decisions! Funds *may* have been diverted to RDT&F. A brilliant figment of imagination—surely Soviet RDT&E can do with more funds!

The invention of imaginary causes of an imaginary event may be an interesting game. But it is not clear why everything that was noted above cannot be "testified" to before the Congress by any American able to speak grammatical English, and it is even less clear why Congress should hear this "testimony."

At best, it is a waste of time, filling the legislator's heads with nonsensical trivia at a time the West is gravely threatened.

[From the New York City Tribune, Apr. 30, 1986]

KIM PHILBY: ESPIONAGE ROMANCE AND DRAB REALITY

(By Lev Navrozov)

The trouble with many Western intelligence/espionage writers is that they "tone up" everything and everyone in their book to make them "exciting."

I first noticed this when I read the books and articles about Harold "Kim" Philby, an Englishman who was a Soviet agent for 30 years (1933-63). At the peak of his career Philby functioned in Britain and the United States as director of the counter-Soviet section of the British Secret Intelligence Service, MI 6, and liaison officer between MI 6 and the CIA.

In one book about Philby, three journalists of the London *Sunday Times,* who were aided by a 13-person research team, refer to the "great sexuality" of Litzi Friedman, his first wife, who "had never wanted for admirers" before Philby met her. She was in short a ravishing Austrian girl, beset by admirers, a middle-European sex goddess from a $40-million movie, fit to be the consort of the British superspy.

Then I saw her photograph: a chunky, short-legged peasant girl (you can find such in a Soviet Ukrainian village) with retreating forehead, idiotic hairdo, heavy jaw, big mouth and hooked but by no means well-chiseled nose.

She might have been a good, nice, intelligent girl or a village slut, for village sluts are not always for choosy customers. But what do the *Sunday Times* authors' great sexual fantasies have in common with her?

SOPHISTICATED SOPHISTICATION

That's the working principle of many intelligence/espionage authors. Litzi Friedman did exist and Philby did marry her, but the rest is the *Sunday Times* journalists' imagination—and just as their imagination transforms Litizi, it transforms whatever they describe.

If everything written about Philby, including by Philby himself, is collected, it can be summarized in these four paragraphs:

Functioning in Britain has been the famous MI 6, the British Secret Intelligence Service. Words fail to describe its sophistication, which has been maturing for 3 or 4 centuries.

Working as director of the counter-Soviet section of MI 6 was Harold Philby. While MI 5, the British counterintelligence service, just tracks Soviet spies on English territory, the counter-Soviet section conducts espionage inside the KGB in order to learn who the Soviet spies are, in particular MI 6. Not bad, eh?

But that's not all. Philby, head of the very section of MI 6 aimed at penetrating the KGB to learn who the KGB agents are in MI 6, was . . . a KGB agent. What a wilderness of mirrors! What sophisticated espionage! So that Philby was a man of double genius in espionage: his genius of British espionage combined with that of Soviet espionage.

Finally, imagine the sophistication of the KGB, which planted its agent at the top of the sophisticated MI 6, nay; its even more sophisticated counter-Soviet section! Exposed by defectors, the double genius of espionage Philby disappeared from Beirut and surfaced in Moscow in 1963.

PROSAIC REALITY

Since Philby's father was a British official, he gave his son education "in the humanities." Millions of young people in the West who have no ability for anything receive education in the humanities because their parents can afford it.

Philby could write and speak the English of the upper middle class. That's all he learned to do in his lifetime. Before his escape to the Soviet Union in 1963 he knew nothing about the Soviet Union except what any newspaper-reading Englishman knows. He was never interested in anything except booze (or however you say booze in his upper-middle-class English) and he never said or wrote anything but a platitude.

But how could such a nonentity become the head of the counter-Soviet section of MI 6?

Because MI 6 has been merely pretending since 1918 that it conducts espionage in the Soviet Union. All those books and TV programs about how the ace spy Sidney Reilly nearly toppled Lenin's regime are perhaps exciting, yet they are untrue (see my column of Jan. 15, "How Superspy Reilly Tried to Topple the Soviets").

Characteristically, even the myth is almost 70 years old, and MI 6 has never dared to circulate any fresher myth. Philby had no more ability to conduct espionage in the Soviet Union than to design a nuclear bomb or build a space rocket. But to pretend? Why not?

He describes his greatest espionage operation, Operation Spyglass, as follows:

The main item was, of course, the camera. Having no technical knowledge of photography [and technical knowledge of what did he have?], I could not specify the make; I simply described what I wanted it to do and left the rest to headquarters.

Having the camera designed and built, Philby went to north Turkey, from where Soviet territory is visible, and his aide "swung the camera."

With an ordinary camera one could take only separate snapshots, but as his aide swung this camera, specially designed and built for Operation Spyglass, he took several photographs one after another automatically.

That is how Philby penetrated the Soviet Union, if not the KGB.

Of course, aerial photo-reconnaissance had existed in World War I, not to mention World War II. An ordinary World War II reconnaissance plane could have flown along the border and done within an hour far more than could Operation Spyglass do in a

month, since the plane can carry heavier and more sophisticated cameras, fly far higher than Philby's aide could swing the camera, and hence take a view far deeper into Soviet territory.

But why should Philby have known anything about aerial photo-reconnaissance? Why should he have thought about it? They were supposed to spend taxpayers' money. They did. On Operation Spyglass, for example.

No more difficult was Philby's work as a Soviet agent; contacts are never a problem in a society where anyone can travel all over the world. But what esponage data did Philby pass if MI 6 was all pretense?

Well, the KGB wanted to make sure that it remained all pretense—to keep an eye on MI 6 lest it was up to some mischief.

Thus, in August 1945, Konstantin Volkov, vice-consul at the Soviet Consulate-General in Istanbul, Turkey, wanted to defect with fantastically important intelligence data. The British consulate-general began pondering, and Philby came to the scene as an expert.

But first he informed the NKVD, as the KGB was called then, which dispatched Volkov to Moscow by air either as a corpse already or still alive for further investigation at the Moscow KGB headquarters.

All the KGB did in the Philby case was to receive this kind of information from Philby. The KGB was not interested in his motives. In addition to his MI 6 salary, he received a KGB officer's pay. He enabled the KGB to destroy Volkov—he earned well his KGB salary. That's all.

His escape was no less prosaic. MI 6 did not hold him, but on the contrary wanted him to disappear into the silence of the Soviet Union, to bury the scandal.

MI 6 made a mistake: the KGB began to glorify its former spies instead of denying their existence as before, so the scandal was all the worse.

[From the New York City Tribune, May 7, 1986]

HOW THE CIA FLUNKED ABYSMALLY ON CHERNOBYL AFFAIR

(By Lev Navrozov)

Whatever happened at Chernobyl on Friday, April 25 (Thursday the 24th, Saturday the 26th?), the West, and in particular the American 200,000-member intelligence community led by the CIA, had known nothing about it except what had been publicly known without them—from, say, a French communications space satellite.

In other words, Chernobyl has demonstrated once again that Western intelligence/espionage inside totalitarian societies does not exist, for space satellite observation is not a form of intelligence-gathering or espionage.

Intelligence/espionage is the clandestine acquisition of information denied to our side by a target country. There is nothing clandestine about space satellites, unless the Western intelligence/espionage agencies want to pretend their satellites are clandestine by calling them spies-in-the-sky and other such spy-thriller names.

Nor has any space observation ever been prevented by the Soviet side: on the contrary, for more than 20 years any space satellites have been mutually permitted to fly over any territory and make any photographs or register any waves and particles.

NOT A SINGLE AGENT

If just one Western intelligence/espionage agency had had one agent in Kiev—no, not within any infrastructure, but just as a "man in the street," an ordinary Kievan—he could have informed his agency when Kiev's hospitals began to fill up with radiation victims from Chernobyl. It's only some 50 miles away from Kiev, and he could have ascertained whether these victims were being shipped out of the area to be hospitalized (or buried) in areas where foreigners are not allowed.

Kiev, the third largest city in the Soviet empire, is full of physics laboratories. The level of radiation was known to many scientists and could be readily learned privately from them by any Kievan.

It could thus be calculated how many people were not hospitalized, yet had received a lethal or dangerous dose of radiation, for example in Pripyat, a town with a population of 25,000 about 10 miles from Chernobyl.

Any Kievan could also obtain privately from these scientists information on the size of the area of nuclear contamination.

How much, for example, is Kiev's water contaminated? How much is the entire chain of reservoirs down to the Black Sea contaminated? To know this it would have been sufficient to have an agent in Dnepropetrovsk Zaporzhye or even Odessa or Nikolyev.

But to maintain one agent inside a totalitarian society even as an ordinary, lowest-level member of this society—who has ever heard of that?

Ten years ago, when Mao died, hundreds of millions of people in China were on the verge of starvation, dozens of millions were starving, and millions dying of hunger. Here is an exchange in Congress on the subject in 1976.

PERCY QUESTIONS BUSH

Sen. Charles Percy asks George Bush, now U.S. vice president and then CIA director, whether it is true that there is a "great deal of malnutrition" in China.

Mr. Bush replies: What you have said, sir, comes as a surprise to me. Maybe some of our experts can confirm it. Is anyone prepared to do that?

[No response.]

Mr. Bush. I didn't travel to some of the autonomous regions, but I did travel a lot in China. We were free to move around, although you never get far off the beaten track. But certainly their own theses [are] that there is a basic level of nutrition for the entire population.

Can anyone here help the Senator with that, as to whether there is malnutrition in places in China?

Mr. Field [CIA expert]: No; I have no information on it.

Of course not. How can you see hunger via a space satellite? But you won't imagine, will you, that there was as of 1976 one CIA agent among 900 million Chinese who would report to Bush that they were starving. The conclusion of this particular piece of testimony, boldly entitled "Absence of Hunger in China," is worth reading:

Senator Percy: In other words, so far as we know, the claim that they have made that they are meeting the food problems of the country, and our own observations along that line, were accurate?

Mr. Bush: Yes.

Senator Percy: and I think they have been absolutely remarkable.

If half of Russia's population had received a lethal dose of Chernobyl's radiation or eaten lethally contaminated food, the director of Central Intelligence and his experts would say that they have no information on the subject.

Thus, on May 1, The New York Times related that in the CIA's reports "there was no solid information to prove or disprove the Soviet assertion that two people had been killed and . . . 197 had been hospitalized."

CHERNOBYL AFIRE

The Chernobyl plant began to emit light (that a space satellite could photograph) as well as nuclear radiation and nuclear particles (that a space satellite or an outsider interceptor could register) on April 24, 25 or 26.

On Monday, April 28, a nuclear cloud from Chernobyl reached Sweden, 800 miles away, and the Swedish government spent a full day demanding an explanation. So foreign correspondents in Moscow received from Tass a piece of paper on which were four sentences typed in English to the effect that "an accident" did occur at Chernobyl, "measures to eliminate" its "consequences" were being taken, aid was being given to "those affected," and a "government commission" had been set up.

The Western intelligence/espionage community learned of the "accident" only from these four sentences as they were reported in the West by correspondents in Moscow, and until the next Tass handout knew nothing except these four sentences.

So, the by-no-means clandestine space satellite observation did not work.

The U.S. intelligence community has one (yes, one) space satellite up over Russia. Now, to obtain maximum space satellite resolution—that is, to distinguish, say, a window in a house as at least a dot—it had to span in one photograph no more than a fraction of one-millionth of Soviet territory.

Well, Chernobyl was not inside that fraction. As for the National Security Agency's interceptors along the border of Russia, the interceptions were filed to be studied "later."

Hence, the U.S. intelligence community knew absolutely nothing until Tass told the world Monday, April 28, whatever it deemed necessary to tell.

To cap the irony of it all, the United States' only space satellite over Russia is to be replaced within a year. Yet it may go out of commission any day, and there is no stand-by space satellite to replace it.

[From the New York City Tribune, May 21, 1986]

WHAT THE CIA REVEALS ABOUT ITSELF IN ITS PAMPHLET

(By Lev Navrozov)

The CIA has sent me (free) its glossy 28-page pamphlet about itself. The booklet is entitled Intelligence: The Acme of Skill—a title taken from Sun Tsu, a philosopher of China Circa 400 B.C., who said, "To find security without fighting is the acme of skill."

In general, the philosophical side of espionage has been increasingly dazzling in the CIA. More and more Ph.D.'s work on the CIA—often because the alternative is to work as typists or advertising agents. Naturally, doctors of philosophy philosophize—in this particular case about espionage.

Obviously, they philosophize secretly. Thus, under three pieces of their philosophy cited at the beginning of the pamphlet, their names are withdrawn and only their posts are given. So top secret.

True, above their pieces are their photographs. I thought one's photograph was a

better means of identification for the KGB and GRU than one's name—which may be assumed—but this is what the CIA's secrecy often is.

One of the three secret philosophers says they strive for "that high-quality knowledge that decision makers need to arrive at safe, effective decisions."

Yes, but surely the same can be said by practically any institution from General Motors to the Society for Encouragement of Sunday Family Outings.

The second secret philosopher is no less philosophical: the goal, you see, is "the gathering of as much information as is available on events abroad and the intellectual job of integrating that information."

But surely this is precisely what the State Dept., the relevant university departments and the foreign desks and bureaus of the media do.

ENRICHMENT OF UNDERSTANDING

The third and the last secret philosopher says that "intelligence . . . must be an enrichment of the understanding of the problems that face a decision maker."

One will think this comes from a university department of cognitive psychology, and by intelligence is meant here the mental faculty of reasoning and understanding. Here must be a philosophical society concerned with cognitive intelligence—the Cognitive Intelligence Association, or CIA for short.

While philosophy is obviously advanced at the CIA, painting and sculpture are not lagging behind either. One photograph shows the interior of CIA headquarters: this is the first floor, looking like a modern-art museum. Says the pamphlet: "Works of art grace the building's entire first floor."

As befits doctors of cognitive intelligence, all works of art visible in the photograph are abstract, with a kind of huge broken matchbox in the forefront.

If the second floor of the building is given over as wholly to modernistic music, the third to avant-garde poetry, and the fourth to the theater of the absurd, all worry about the CIA's cultural advancement disappears.

INVENTION OF PHOTOGRAPHY

In the middle of the pamphlet, our eyes are greeted by a magnificent centerfold photograph of the kind that can be seen in Look magazine: an aerial photograph in which one can distinguish the hubs of a truck's wheels.

Several months ago I was studying aerial and space photographs in the Map Division of the New York Public Library. Finally they brought me a state-of-the-art miracle, a desk-size album—the best album I could find in the Map Division. Not without distaste, however, I found the album was Soviet.

Surprising? Not at all. Apart from East Germany working for the Soviet empire (and German photography has always been second to none), the Soviet military can always buy the best photographic equipment for their aerial and space photography in Europe, Japan and the United States.

So what does the CIA want to say by that centerfold photograph? That the CIA has invented photography?

One may here observe:

Aerial photography is the job of the Air Force, not the CIA.

It was practiced by air forces of all countries as early as World War I.

It cannot possibly be practiced over Soviet territory, since reconnaissance aircraft will be shot at immediately.

The CIA has not invented photography and to buy and use photographic equipment takes no "acme of skill," but only commercial and technological routines.

ONLY TWO PARAGRAPHS

So, is there anything in the pamphlet about intelligence/espionage? I found two paragraphs, one of which says: "Where once the human agent was the basic collector of data, a technological revolution in the past 2 decades has generated technical systems capable of producing prodigious quantities of information."

So, 2 decades ago—that is, from 1947 and throughout the 1950s—it was the human agent that was the basic collector of intelligence data. Oh, yes?

If the CIA ever had had a single agent inside a Soviet institution of strategic importance inside Russia and retrieved him successfully, surely he would have written his memoirs in a sensational best-seller under a title like "A Spy in the Kremlin." What an hour of glory that would have been for the CIA.

But next year it will be 40 years since the CIA's establishment. Where are that human agent and his bestseller?

Opposite the text is a page-size photograph from a pre-1953 Soviet illustrated magazine: a festival march carrying a huge portrait of Stalin. The inscription: "In its early years [not now?], the Central Intelligence Agency's primary concern was with Soviet military activities and political intentions."

The photograph is appropriate. It is from Soviet propaganda magazines that the CIA has been deriving its espionage data.

HUMAN AGENT ACKNOWLEDGED

The second paragraph relating to intelligence/espionage says: "And yet the human agent remains vital. If the photographs and signals that technical means gather speak of what people have built or what they are saying, only the human agent can deliver what they are thinking."

But if there was not a single CIA agent inside the strategic infrastructure of Russia in those days when he was supposed to be the "basic collector of data," why should he appear now? Or is he expected to emerge from the CIA's exercises in philosophy, painting and sculpture, as well as music and theater?

[From the New York City Tribune, May 28, 1986]

HAS U.S. INTELLIGENCE IMPROVED WITH CASEY AT BAT?

(By Lev Navrozov)

Among some conservatives there abides a soothing illusion that there has been a dramatic improvement in U.S. intelligence/espionage under Ronald Reagan, since he appointed William J. Casey director of the CIA.

Let me repeat that I regard as espionage/intelligence our clandestine penetration of areas, spaces and institutions "denied" by a prospective totalitarian enemy.

One of the proofs of successful espionage/intelligence in that sense is successfully retrieved agents—such as Arkady Shevchenko—who stay in the West, write public memoirs about their experiences and thus establish their bona fides beyond doubt before the public.

During Reagan's term we have heard of only one such case, that of Shevchenko. But even this sole case belongs to the pre-Reagan era: Shevchenko terminated his espionage for the United States in 1978. But let's imagine that the case continued into the 1980s.

Shevchenko is a hero, and as a true hero he wrote an authentic, excellent and moving book—published in 1985—about how he had been afraid (it's cowards who write books about how fearless they are). I am prepared to write pages in praise of Shevchenko and his book.

LESS THAN MEETS THE EYE

But let us evaluate the case from the point of view of intelligence/espionage:

Shevchenko lived in New York and could move freely about it; so, the CIA's part in this espionage exploit was reduced to renting an apartment in New York to meet with him (and even this job the CIA could not do too well, according to Shevchenko).

The former United Nations official was stationed in the West and hence would not have access to the innermost strategic recesses inside Russia, for those who have such access are not allowed to go abroad in the first place.

Shevchenko was a "Soviet diplomat," and diplomacy in a totalitarian society is a form of propaganda; diplomats in such a society are often the last to learn about what the military are doing.

Since Shevchenko lived in New York, his "successful retrieval" could have been grandly executed without the CIA by taking a cab and asking the driver to go to 26 Federal Plaza—FBI headquarters in New York.

Shevchenko was asked on television last year what secrets he could disclose, and he said that in the late 1970s he knew from rumors at the diplomatic top and could tell the CIA that former Soviet leader Leonid Brezhnev was having the flu—since otherwise the West would not know even that. He is right, and least of all I want to deny the importance to the West of having known Soviet top diplomatic rumors about Brezhnev's flu.

But what a distance between Brezhnev's flu and the vast Soviet unknown where military preparations are afoot. What a pathetic case from every point of view in terms of intelligence/espionage.

What was simpler for Shevchenko's "successful retrieval" than getting into a cab? But no! "I took an overnight bag from the living-room closet and jammed a few shirts and some socks and underwear into it," he recalls in his book.

So, in the United States in general and in the CIA in particular there was a shortage of shirts, socks and underwear. He had to take them along. What else? An electric iron, two pillows, a leg of lamb; I hope the socks had no holes.

Then he discovered that the service elevators he wanted to use did not run after midnight. "I had not worked this part with Bob and Carl [of the CIA]," he explains. With the overnight bag (who could leave behind those socks and everything else?) he began climbing down the fire stairs (20 flights), stumbling, his calf muscles "trembling from the unusual strain," and stopping to shift the bag from hand to hand after each five or six flights.

Then, lugging the bag along, he ran down 64th Street and across Third Avenue to the CIA's car.

The building was tenanted by Soviet officials, including KGB agents. What if he had been watched or seen accidentally by a KGB agent? Out of breath, the undersecretary general of the U.N. was running with an overnight bag in the middle of the night toward a strange car.

Now, this is the CIA's most brilliant successful espionage operation in how many—20? 30? 40 years?

Let us recall that actually, Shevchenko's espionage had ended before the Reagan term. So, in the Reagan era, there has not even been such a case of successful espionage and retrieval. If there had been, the public would have learned about it, as it has about Shevchenko.

CRITICS AND REAGAN

Before Reagan took office he was interested in conservative critics of the CIA, including myself. After he took office, those critics were forgotten by the administration. Instead, we learned that the director of Central Intelligence was now William Casey, Reagan's old friend.

Tremble, Soviet war-empire: Ronald Reagan's old friend would now conduct intelligence-espionage within your innermost strategic depths, and not just on Third Avenue, New York.

When the newly elected president's old friend gets an appointment, there must be some peg to hang it on. For example, if it's ambassadorship to Moscow, the peg may be the appointee's wife's ability to cook Russian Pirozbky (pies), which makes the family well-equipped to get on with the Politburo.

In the case of Casey, the peg was his intelligence work against Nazi Germany during World War II. It was like expecting that Reagan's old friend who worked in a hospital 40-odd years ago would be able to pioneer new fields of heart surgery because he is, after all, an old friend of Ronald Reagan.

But it is not all gloom. Reagan brushed aside all critics and criticisms of the CIA for his old friend was now at its helm. Yet they have not disappeared. They have been thriving and developing outside the official intelligence community.

I will mention just three of such critics: David Sullivan, who left the CIA and is now assistant to several senators; Angelo Codevilla, now a fellow at Stanford's Hoover Institution, and Mark Schneider, now with the Department of Defense.

Conservative criticism of the CIA is often linked with that of Reagan's defense policies as a whole. For example, this months issue of *Commentary* carries Codevilla's article, "How SDI Is Being Undone From Within." This is a devastating piece of criticism, showing how much needed strategic defense is, yet how little is being done in practice—indeed, the Strategic Defense Initiative is being undone.

Perhaps criticism of Reagan's defense policy in general and the CIA during his term of office in particular, will reach its full vigor by the time a new presidential candidate comes to the scene—for, frankly speaking, the U.S. needs now not just Reagan, but a super-Reagan.

[From the New York City Tribune, June 4, 1986]

WHAT THE RONALD PELTON SPY CASE DEMONSTRATES

(By Lev Navrozov)

There is nothing new or peculiar about either Ronald W. Pelton himself or his case, which is to go to jury deliberations this week.

Indeed, about a month before the case opened on May 27 I described a typical espionage case (April 23, "When an American Spies . . .") that subsumed the case of Pelton.

Pelton made $24,500 in 1979, his last year of employment at the National Security Agency. Nothing unusual. Most of the 3.5 million Americans who have access to classified data draw comparable salaries.

In the Soviet empire, Pelton's equivalent would be automatically far better off than, say, an ordinary physician or a plumber. In the United States a physician or even a plumber makes several times as much money as did Pelton.

If we assume that all the 4.3 million Americans who had access to secret data in 1979 (today the figure has been reduced to 3.5 million) made on the average $24,500, the total sum of their pay amounted to more than $105 billion.

But even if the salaries of those with access to classified data were tripled, money for many Americans is a kind of lifeblood, of which they must have always more than they do or they will die of anemia.

Pelton "needed money desperately." What is more common in the United States in almost all brackets?

On the evening of Jan. 14, 1980, Pelton called the Soviet Embassy. That was his gross blunder. He could have walked into the embassy without a telephone call. But he had that American habit of making an appointment over the phone.

Of course, the FBI taped the telephone call. This is routine, since all telephones of the embassy can be switched permanently to recording equipment.

I read about that in a back issue of a Russian magazine published before World War I, when a telephone conversation could be recorded only on a gramaphone disk or a phonograph roll. According to the magazine, the British Intelligence Service recorded all telephone conversation from and to the German Embassy.

Small wonder that in our age of $20 tape recorders at every store, the FBI does along these lines what could be done before World War I.

But Pelton's blunder did not lead to his arrest. The FBI was unable to find the caller by his voice among the 4.3 million Americans who had access to classified data.

The Soviet Embassy official who named himself Vladimir Sorokin at first suggested a morning for Pelton's visit, which shows again how inept the KGB/GRU is (and yet it is doing so well in the West). But at least Pelton had enough gray matter in his head to choose an evening—"tomorrow evening"—so his face wouldn't be seen well: "It will be dark when I come in."

Yes, but today there is excellent night vision photography.

The tape left no doubt as to the purpose of the caller's visit: "I come from . . . I . . . I . . . I'm in . . . with the United States Government," the caller said. "Uh, I have something to discuss with you, I think, that would be very interesting to you." He said everything short of: "I want to be a spy. Can I come to discuss it?"

Having made his appointment for the next evening, Pelton decided to confirm it—"to firm it up"—next day at 2:32 p.m., and appeared at the Soviet Embassy several minutes later—in broad daylight! Apparently, he did not have the patience to wait for darkness as he had intended.

This gave the FBI almost 22 hours—from 4:53 p.m. Jan. 14 to 2:32 p.m. Jan. 15—to organize constant tight surveillance of the Soviet embassy. But the FBI didn't listen to the tape until days later. It was shelved by the FBI for several days!

What about, then, the FBI's routine surveillance of the Soviet Embassy? Well, that didn't help either: while in the embassy Pelton had his beard shaved off and was directed to go out through a service exit, not the exit for official visitors.

These two Soviet espionage tricks at the Stone Age level confused the FBI! Neither was Pelton photographed as he entered nor as he left the embassy. He was not arrested at the time nor at any time after that.

Only when alleged KGB defector Vitaly Yurchenko gave him away late in 1985—almost 6 years later—was Pelton finally arrested.

Yurchenko's information concerning Pelton was cited as proof that he was a bona fide defector who just changed his mind and redefected. But it is no proof.

The KGB/GRU may have decided they did not need Pelton anymore: he no longer worked at the National Security Agency, he had told them all he could recall, and he failed to answer their telephone call in the summer of 1985.

He failed to do so because he was drunk at the time and his car, which his girlfriend drove for him, didn't have enough gas. But the KGB/GRU may have thought he was not interested any more.

What is relevant here is that the exposure of Pelton was purely accidental and had nothing to do with the FBI, CIA, or NSA.

Let us now draw some dire conclusions:

While the West does not even know where the Soviets' "NSA"—the main code-making, code-breaking and radio-intercepting institution—is located, the Soviet KGB/GRU has had a string of spies in NSA, even if only *known* spies are taken into consideration—such as Sgt. Jack E. Dunlap, who became conspicuously rich from selling NSA secrets to Soviet agents in the early 1960s without anyone paying the slightest attention.

No other case has better demonstrated that the FBI's ability to apprehend spying Americans equals zero even when these Americans make gross blunders, like "making an appointment" by telephone with the Soviet Embassy, and when their method is no more sophisticated than walking into the embassy in broad daylight and without disguise to sell classified data.

Under such condition, the ineptness of the KGB/GRU does not prevent Soviet espionage from flourishing—for it is sufficient for the KGB/GRU just to wait for Peltons to come to any Soviet institution abroad, such as the embassy in Washington, and then evaluate their classified data and pay them accordingly.

If the Soviet military knows everything about NSA owing to such "Americans in desperate need of cash," while the West doesn't know even where the Soviet NSA is located, then U.S. codes, for example, will be worse than useless: they will be traps, since the Soviet military will read them, owing to the Dunlaps and Peltons, and will know from them American crucial strategic secerts.

On the other hand, since the Soviet highest-level codes are one-time systems, they are unbreakable without espionage able to secure the code keys, and hence the West will be as much in the dark about the Soviet highest-level codes as it has always been.

[From the New York City Tribune, July 2, 1986]

HOW FORMER CIA OFFICIAL RESPONDED TO PAST ERROR

(By Lev Navrozov)

When David Sullivan, an aide to three pro-defense Senators and Washington's most powerful critic of the CIA, presented his critique of the agency at a seminar in 1980, his opponent was Ray Cline, CIA deputy director for Intelligence from 1962 to 1966.

One of Sullivan's case histories was the CIA's assurance on Sept. 19, 1962, that Soviet ballistic missiles targeted on the United States would not be installed in Cuba, while actually, oh yes, they were being installed there, as ordinary aerophotography (the business of the Air Force) revealed later very clearly.

The story is simple, obvious, and has been told and retold many times, since the CIA's so-called Special National Intelligence Estimate of Sept. 19, 1962 has been declassified, and so everyone can see retroactively the CIA's gross error.

The error occurred because intelligence/espionage data usually have played no essential role in the CIA's estimates since 1947. To conduct espionage in Cuba in 1962 was still incomparably easier than in Russia after 1921. Cuba was still porous, and exuded a constant flow of practically uncontrolled emigration.

But even in such a case, when intelligence/espionage data could readily be obtained, CIA analysts like Ray Cline derived their conclusions out from intelligence/espionage data, but from "logic," as the CIA once put it.

"Logically," Khrushchev should not install those missiles in Cuba (the CIA analysts philosophized), and so they would not be installed there, for how could Khrushchev go against the CIA's "logic"?

The CIA's former deputy director's rebuttal of Sullivan's description of the CIA's gross error is one of the most instructive documents for all those to whom the destiny of the free West is not a matter of utter indifference.

First of all, Cline explains very movingly that ever since 1942 he has been "worried about how to accumulate the information that our country needs, that or national leaders need."

Also, he has been "very anixous to see groups like this resume the discussion of serious issues concerning the functions and organization of the intelligence community."

Finally, Cline says: "I want to make some comments on the substance of Mr. Sullivan's paper. They are not intended to destroy the validity of his remarks."

They are not? So Cline agrees with Sullivan's remark that the CIA's estimate of Sept. 19, 1962 was a gross error. Now, you expect Cline's explanation of how and why such a gross error was made.

Little do you know the CIA. Cline declares that "intelligence is always [!] wrong." Good Heavens! "Certainly my experience in intelligence estimates is that intelligence estimators are always [!] wrong, and there are always [!] plenty [!] of people around to tell them so."

It's like such a person accused of a bank robbery saying that everyone is always engaged in bank robbery, for any human activity is a kind of bank robbery. The estimate of Sept. 19, 1962 is a gross error because intelligence is always a gross error—it consists of nothing but gross errors!

But listen again to Cline: "I think Mr. Sullivan does a disservice to most of our intelligence analysts by simplifying the conclusions which they reached, and pretty much dismissing them as gross error."

You see, "intelligence estimators are always wrong." But "Mr. Sullivan does a disservice to most of our intelligence analysts" when he states that they were wrong on Sept. 19, 1962. This is Cline's logic.

Whereupon Cline explains philosophically how objective and accurate knowledge is obtained and how they at the CIA were obtaining it on Sept. 19, 1962:

"We were trying to perform what I call an analytical task, that is, an evidence-based description of the real world around us, with as much objectivity and accuracy as possible."

On one hand, Cline says that "intelligence is always wrong," and on the other he defines intelligence/espionage as though it were a rigorous exact science: "an evidence-based description of the real world around us."

Unfortunately, the Soviet empire and its satellite Cuba were not around Cline's desk in Washington, D.C.

Cline's rebuttal lasted for no less than half an hour. I am sorry I cannot quote it in full, but have to choose just a few tidbits. Try this delicious morsel, for example:

"And in the last analysis, a formal estimate is just a racetrack bettor's book on what he thinks is going to happen: "It's six-to-five this way." If it is six-to-five this way—and that is pretty much what the estimates said—remember it is five-to-six the other way. So it is not always an egregious error not to be able to predict which side of a close bet is going to pay off."

So, when the CIA "estimated" that the Soviet missiles would not be installed in Cuba, "remember it is five-to-six the other way"—that is, "the other way" the Soviet missiles were being installed in Cuba.

Intelligence work is racetrack betting, in which the CIA is just one of the bettors; the president and Congress can always bet "the other way." The CIA bets that the Soviet missiles will not be installed in Cuba. Let the president and Congress bet that they are already there. So what's the problem?

"I have great sympathy with Sherman Kent [in charge of the estimation of Sept. 19, 1962]," Cline declares. Why? You see, Sherman Kent "often said" that . . .

". . . his estimate of what was reasonable for the Soviet Union to do was a lot better than Khrushchev's and therefore he was correct in analyzing the situation as it should have been seen by the Soviet Union. What he did not have was any concrete evidence that Khrushchev was seeing it another way."

Well put! With his super-Hegelian mind Kent assumed that he knew what was good for Khrushchev better than Khrushchev did. As Hegel said when he was told that what he said contradicted facts, "So much the worse for facts."

And so it goes on and on. And what's the moral?

Even 14 years later, retired from the CIA, its deputy director from 1962 to 1966 would not honestly admit that smug, high-handed and idiotic mistake that the CIA perpetrated in 1962 and which is now known to the public because the relevant estimates have been declassified.

Instead of admitting that plain and gross, error, Cline goes into comical, impudent and primitive quibbling for more than half an hour.

[From the New York City Tribune, July 30, 1986]

INEPTNESS, NOT IMMORALITY, IS MAIN FLAW OF CIA

(By Lev Navrozov)

In the 1970s the major (liberal-Democrat) media charged the CIA with criminality and immorality. The campaign was so deafening that few noticed the rise of an entirely different kind of criticism of the CIA, that of the CIA's ineptness.

The liberal-Democrat critics of the CIA were not worried about the danger to the West of the absence of intelligence/espionage data on totalitarian military power. But that is precisely what worried the critics of ineptness of the CIA—all of them staunchly pro-defense.

In a sense, it can be said that criticism of the CIA's ineptness was pioneered by Albert Wohlstetter, a mathematical logician, when he published in 1974 two articles entitled Legends of the Strategic Arms Race.

The criticism reached its high plateau in 1978 to 1980 when the critics were befriended by Ronald Reagan, who at the time deplored the miserably inept performance of the CIA under President Jimmy Carter.

As Reagan became president, he appointed the so-called CIA Transition Team, the deliberations and report of which are still secret.

Some critics, including myself, were not on the team because we had no security clearances. But when I submitted a memo at the request of Reagan's former National Security Adviser, Richard Allen, he told me that my proposal coincided with that of Bill Middendorf, head of the Transition Team:

Let the CIA be replaced by several competing intelligence units that would sell secret data to the government as competing corporations sell weapons.

One of those CIA bureaucrats, who want to believe that the CIA has always been the best intelligence agency of which human imagination can conceive, called three team members—Angelo Codevilla, Mark Schneider and Kenneth de Graffenreid—"the three hooligans form the Hill."

No wonder. When another hide-bound functionary from the CIA was asked what Codevilla's proposals amounted to, the upset bureaucrat answered that they amounted to firing every official of the CIA above GS-14 (which included him).

In that sense, our criticism threatens the CIA's inept bureaucrats more than liberal-Democrat criticism ever did. When the New York Times or Washington Post attacked the criminality and immorality of the CIA, they never called for the firing of every CIA official above GS-14—but if the CIA is inept, that is what it amounts to.

If a certain official of the CIA is not gifted (and in particular, not intelligent) enough to conduct intelligence/espionage in the sense of the clandestine acquisition of strategically vital data denied by totalitarian societies, no laws enacted by Congress and no rules established by the CIA will make him more gifted or intelligent than he is. He has to be fired and seek employment fitting his ability and intellect.

Thus, our criticism threatens not just a few culprits; but all inept personnel of it as a whole, except the GSI levels of typists or security guards.

Still unkown to the public, as far as I know, the following list of the CIA's failures was presented by the Transition Team:

Chronic failure to predict the actual size of the Soviet military effort and of the military portion of the Soviet GNP.

Constant gross misstatement of Soviet global objectives.

Failure to predict the fall of the Shah in Iran.

Massive failure to interpret and predict the nature of "wars of national liberation" in Africa and Central and South America.

Constant miscalculation of the effect of massive technology transfer from the West to the Soviet bloc.

Utter failure to predict the massive Soviet buildup of ICBMs and SLBMs.

Massive failure to understand the characteristics of Soviet missiles under development prior to SALT I.

Failure to predict (combined with predictions to the contrary) the major improvements in accuracy of Soviet ICBMs in the late 1970s.

General failure to explain the characteristics of Soviet conventional weapon systems and vessels—for example, the Soviet T-64 and T-72 tanks and new guided missile cruisers.

Massive failure to understand or counteract Soviet disinformation and propaganda.

Failure to detect the Soviet brigade in Cuba.

The list did not make clear where the CIA had not failed.

However, William Casey all of a sudden terminated the Transition Team (before there was any resolution), put its "hooliganism" into secret mothballs, and has ignored it ever since.

The public knew nothing about the storm that had been raging in the Transition Team. The list of the CIA's failures stayed secret. Within the administration, the criticism of the CIA's ineptness froze for 6 years and will probably remain frozen until the end of Reagan's second term.

The CIA's public image of its ability has been as glorious since 1980 as ever before.

Though Casey is supposed to be a conservative Republican, the CIA is as one with the liberal-Democrat media, which support the CIA in their joint fight against the Department of Defense, its Defense Intelligence Agency (DIA) and the Reagan administration itself.

The "three hooligans from the Hill" have not slid into obscurity, however. On the contrary, one of them—de Graffenreid—is in the White House, another—Schneider—in the Department of Defense, and the third—Codevilla—is more visible than in 1980.

The fourth "hooligan," David Sullivan, is quite high on the Hill, and those of us who are not from the Hill do not desist either.

"Are the Soviet silos which the CIA sees via space satellites empty, while the Soviet mobile missiles are hidden?" asked Sam Cohen, the inventor of the neutron bomb, and Joe Douglass, a Washington defense analyst, in their Wall Street Journal article of July 18.

"To enhance the success of such deception, the Soviets would want to conduct missile flight tests and reloading exercises from their silo fields, which the U.S. monitors with great precision. This they have done, enhancing their confidence in their missile-launching capabilities and enhancing the U.S.'s ill-advised confidence in outside monitoring."

Such questions will multiply as the Soviet "great unknown" becomes more and more dangerous and more and more unknown.

Casey terminated the Transition Team's criticism of the CIA 6 years ago.

But he cannot terminate the growth of the Soviet "great unknown"—nor the growing doubts of the American public that the CIA is as successful in penetrating this "great unknown" as its officials have always been saying it is, before and after 1980.

[From the New York City Tribune, Sept. 3, 1986]

CIA AND THE 'MYSTERY' OF WHERE DOES SOVIET STEEL GO

(By Lev Navrozov)

While the Soviet regime successfully conceals from the CIA many of its weapons, it has not been concealing the output of something of which they are made—steel. The output of steel was hailed by Stalin well back in the early 1930s as a symbol of "peaceful industrialization" of the once industrially backward Russia, and this image has stuck in the West.

It was believed in the West that Stalin wanted his populace to have as many cars and other "iron and steel products" as the Americans has already in the 1930s, and hence the Soviet output of steel had to match its American counterpart.

In 1975, the Soviet output of steel reached 141 million tons—that is, it surpassed the U.S. steel output by 32 million tons. So Sen. William Proximire, D-Wisc., brought up the matter with a couple of CIA experts when they testified before his Joint Economic Committee on the Soviet economy in 1975:

"One of the first questions I asked, I wondered what in the dickens that they are doing with all that steel. A lot of it is there, but even there it seems to me they do not have automobiles like we do. They do not have the highway system we have. They do not have the housing construction or anything of that kind.

"If they are producing more steel, how can they use it?"

Proxmire's insight was brilliant. Before citing the CIA experts' answer, let's see how the mystery of Soviet steel has grown ever since.

In 1983, the Soviets' raw steel output surpassed 168 millions tons while they imported a net of 5 million tons, i.e., they used a total of 173 million tons. Meanwhile, America's "total shipments" of steel amounted to 68 million tons.

We know how the U.S. steel is distributed. In 1983, about 17 million tons or 25 percent went to the "distributors," that is, was stocked into warehouses from which the distributors could meet demand whenever it originated, for each steel consumer wants his steel immediately or he will apply to another distributor.

The biggest consumer of steel is the automotive industry: 12 million tons or 18 percent of output. Then follows construction: 10 million tons or 15 percent. Then (don't laugh!) production of cans and other containers: 5 million tons or 7 percent. Finally, production of kitchen appliances, etc.: 3 million tons or 5 percent.

Add the above to the distributors' allotment and we find that 70 percent of U.S. steel is spent on basically civilian uses—which make up only a fraction of the Soviets' use of steel.

In the communist Soviet Union, there is no need to send one-quarter of steel to distributors the way it is done in the United States. There is a hierarchy of military projects, under which lie civilian projects. The military will get all the steel they need according to the hierarchy (the top will get it first). If no steel is left for civilian projects, those will have to wait.

A total of 1,487,000 cars were produced in the Soviet Union in 1983, according to Soviet statistics, as against 6,781,184 in the United States. And Soviet cars are small (except for those few intended for the ruling few), their average weight about 1 ton. Hence the total Soviet steel output for cars does not have to exceed 1,487,000 tons, or less than 1 percent of the steel used by the Soviets.

Construction? American builders begin the construction of even ordinary five-story apartment houses and highways with steelwork. Soviet builders use it only in industrial structures that will carry heavy loads; otherwise they build out of anything but steel.

An American highway is in fact a horizontally level steel-and-concrete bridge over terrain. A Soviet "road with a hard surface" (as Soviet statistics call it) is a layer of asphalt laid over a layer of gravel and sand, which undulates with terrain—it's a "washboard road," as an American reporter put it a week ago.

Cans and other containers? Contrary to Soviet statistics, recent emigrés from the Soviet Union report there was no canned orange juice even in major cities when they left the country. The problem of containers is solved at the customers' expense: they have to bring their own, into which vegetable oil or whatever is poured.

Kitchen gadgets? In 1983, 4,201,000 microwave ovens—of which few in the Soviet Union have even heard—were produced in the United States. Soviet statistics contend that 401,000 "[one-fifth cubic meter] two- and three-chamber refrigerators and freezers" were produced in 1983. The size of such a refrigerator is one-fourth that of our standard General Electric fridge.

Since 5,255,000 refrigerators were produced in the United States in 1983, the Soviet-U.S. ratio of steel in refrigerators—with allowance for size—is 1 to 52.

In short, it is not clear what in the dickens the Soviet economy can do even with 68 million tons of steel. But the Soviet use is 173 million! Let's now see what the CIA experts answered Sen. Proxmire in 1975:

Mr. Burton. They are also inefficient users of steel. Their machines are very, very heavy compared to ours.

Sen. Proxmire. The military weapons systems are usually heavy, too.

Mr. Burton. Yes.

Mr. Proctor. One remembers Khrushcev's cursing of the manufacturers as metal-eaters. He had a campaign to reduce the waste of steel, especially in the manufacture of both military and civilian hardware.

Soviet steel can be wasted in two ways. Between an ingot of steel and a finished product some steel has to be lost as shavings, scrap, etc., owing to machining, etc. As of 1967, the Soviet loss of this kind constituted 18 percent for the Soviet economy as a whole.

Even if it is assumed that not an ounce of steel is lost this way in the United States, 18 percent doesn't solve the mystery of Soviet steel.

The other loss is a "constructive" one. Here we had in 1976 the Soviet T-72 tank. Its U.S. equivalent in performance, the XM-1 tank, appeared in 1979. But suppose the T-72 was poorly constructed and hence weighed more for the same performance. This could be called a "constructive loss" of steel.

The only trouble is that the T-72 weighed less than its U.S. equivalent: 36 tons vs. 53 tons for the MX-1.

So the explanation of the mystery of Soviet steel is that a hidden Soviet military-industrial expansion has been going on—on a scale the CIA did not want even to conjecture upon in 1975, when the mystery so puzzled Proxmire, and the CIA refuses to face up to the reality 11 years later.

[From the New York City Tribune, Sept. 10, 1986]

CLASSIC BARTER, SOVIET-STYLE: A SPY FOR A JOURNALIST

(By Lev Navrozov)

When I heard about the Aug. 24 arrest of Soviet U.N. official Gennadi Zakharov on charges of espionage, I told my wife that an irrelevant American would now be framed as a spy and arrested in Moscow so that later he could be swapped for Zakharov.

A week later, on Aug. 31, my wife, who scans newspapers for me, said as she folded a clipping and pressed it secretively to her chest: "Guess what happened yesterday?"

I said: "Easy. An American was framed-up in Moscow as a spy to exchange him for Zakharov." "Right!" she said. "Nicholas Daniloff, the Moscow correspondent of the U.S. News & World Report."

How could it be otherwise? In Moscow in the early 1970s we met foreign correspondents and passed to them all kinds of "emigration materials," such as letters written by those who couldn't get exit visas, and appealed to all kinds of individuals and institutions or to the world at large.

Now suppose a KGB agent-provocateur posed as one of us hundreds of thousands of aspiring emigrés.

It would be enough for him to pass to a correspondent an envelope looking like one of our letters, but actually containing classified military data. Whereupon the KGB would burst in, search him, find the envelope in his pocket, open it—and here you are, a spy caught in the act! The whole scene could be videotaped as future legal evidence.

IMPECCABLE TRIAL STAGED

An impeccable trial could be staged if necessary. Indeed, the American defendant could even be allowed to have an American lawyer to come to Moscow to defend him.

The KGB agent-provocateur would testify that the American recruited him and requested he bring him those classified data in an envelope. How would the American lawyer be able to prove that this miserable-looking Soviet codefendant whom the American had allegedly recruited was a KGB agent-provocateur and that the American had no idea of the classified military content of the envelope?

And so, faced with the prospect of death for "espionage," the American will most likely "confess" to his imaginary "espionage," (and later be swapped for a real spy caught in the United States) and his lawyer will have to tearfully say in court that his defendant's guilt is fully proved but he is asking the judges for leniency.

As a result, the KGB and GRU have hundreds and thousands of legitimate Soviet spies in the United States to carry out espionage operations openly, legitimately and with total impunity.

To begin with, many of them have diplomatic immunity. So the worst that the U.S. government can do to them is to send them back home to the Soviet Union, from where they will go to spy to another country.

Since there are more than 100 countries, each Soviet spy has to be declared persona non grata at least 100 times before the KGB gives him a job inside the Soviet Union, and such jobs are never lacking, for the entire population has to be watched by that same KGB!

But even if the FBI dares to catch a Soviet spy without diplomatic immunity—like Zakharov—the KGB will frame as a spy any American in the Soviet Union: all Americans there are thus hostages, each of whom can be arrested and exchanged for Soviet spies in the United States who have no diplomatic immunity.

This situation originated no later than 1933, when Franklin D. Roosevelt "recognized" Stalin's totalitarian regime—53 years was not enough for the State Department, the FBI and other U.S. government institutions to understand the nature of the totalitarian regime and consequences of this "recognition."

When Zakharov was arrested, it was reported that more arrests of such Soviet nationals were expected; that the Soviet U.N. mission totals 275 officials—the world's largest by far—about half of whom are KGB and GRU spies, and that all other Soviet institutions in the United States have always been spy nests.

Now, when an American correspondent was arrested in Moscow on Saturday, Aug. 30, the State Department 4 days later still "rejected any attempt by Moscow to link the release" of the framed-up Daniloff to the release of Soviet spy Zakharov.

A deal? A linkage? Never ever! "U.S. Aides Reject Deal For Newsman" and "U.S. Aides Reject Linkage Between Spy Cases" were the heroic headlines of the New York Times' front page Sept. 3.

But in the article under those heroic headlines we could already read: "A senior Administration official with President Reagan in Santa Barbara, Calif., said Monday that no course of action to win Mr. Daniloff's release, including a possible prisoner exchange, had been ruled out."

What about the State Department? Its officials said it was "possible that the Federal Court in New York might allow Mr. Zakharov to be released to the custody of the Soviet Ambassador, Yuri V. Dubinin. If that happens, the Soviet side might allow Mr. Daniloff out of prison, but that would not be an arranged deal."

Certainly not an arranged deal! A linkage? Never ever! A pure coincidence. Zakharov will be released, and then—who would think of it?—Daniloff will be released, too. The FBI catches a Soviet spy, after which the KGB catches any American in the Soviet Union. Then the Soviet spy is released, after which the American is released too. What deal? What linkage? Never ever!

What FDR "recognized" Stalin's totalitarian regime, he thereby legitimized Soviet espionage in the United States—while American espionage in the Soviet Union has essentially consisted in the presence of American military attachés at Soviet parades where the Soviet military either show them dummies of non-existent weapons, or show them real Soviet weapons, or do not show them either dummies or real Soviet weapons, depending on the current scheme of deception.

On one occasion the same new Soviet Bison jet bombers circled out of sight and flew over again. Khrushchev had switched the Soviet aircraft-building plants into missile-production sites, and he wanted to mislead the United States government into the belief that he had more new jet bombers than the United States did.

He succeeded only too well: there was a panic in the U.S. intelligence community, including the CIA.

In other words, while FDR's recognition of the totalitarian regime gave the latter immence opportunities for legitimate—that is, unpunishable—espionage with and without diplomatic immunity, FDR's recognition gave the United States nothing but immense opportunities for self-deception via the American military attachés presence at Soviet deceptive military parades.

[From the New York City Tribune, Sept. 17, 1986]

WHAT THE KGB'S DANILOFF-ZAKHAROV MOVE SIGNIFIES

(By Lev Navrozov)

Soviet espionage in the classical sense—through Soviet or East-bloc nationals disguised as Westerns—has failed everywhere except in West Germany. Only there can numerous Soviet-bloc nationals—East Germans—engage in espionage in the guise of the local inhabitants—West Germans.

The reason is simple. East Germany's espionage agencies have a reservoir of millions of German-speaking natives who can be sent to pose as West Germans.

There is no such reservoir available for use in the United States. Stalin wanted to rectify that situation by organizing educational institutions to create "artificial Anglo-Saxons," so to speak, from among whom the KGB and GRU could select suitable candidates for further training as spies.

This hasn't worked so far, and prior to the General Zahkarov case the system of Soviet espionage was organized as follows:

Soviet nationals without diplomatic immunity acted to "spot" Americans who could be recruited for espionage. This carries no liability under American laws. Even if a "spotter" and an American have reached an understanding about espionage, their understanding does not yet constitute a crime, so the Soviet agent is safe.

At this point a Soviet national who does have diplomatic immunity takes over—receives classified information—does what qualifies as espionage under American laws.

But since he has diplomatic immunity he can only be expelled, after which he can go to another country and do the same thing.

THERE MUST BE A BETTER WAY

The system had an essential defect: the number of Soviet nationals in the United States who have diplomatic immunity is only a fraction of the total number in the United States.

Even in New York with its United Nations, probably no more than 200 Soviets have diplomatic immunity, while the total number of Soviet nationals in New York—including Secretariat employees, such as Zakharov—may exceed 1,000. This number can easily swell if one counts Soviet tourists, traders, scientists who are part of exchange programs, etc.

If *all* Soviet nationals could be made immune to U.S. charges of espionage, Soviet espionage would expand enormously.

The recipe for their immunity is simple. Let the United States know that every arrest of a Soviet spy in the United States will be subject to reciprocity by the KGB's frameup of an American national in Russia so the latter can be exchanged for the Soviet spy.

Thus, no American arrest of a Soviet spy will lead to anything except much ado for the United States and the spy's eventual release.

Of course, the Politburo calculated the winning chances before making its move

and decided that the United States, its government and Ronald Reagan were weak enough to surrender the game and make all Soviet nationals henceforth immune to U.S. charges of espionage.

Since the missile crisis of 1963 the United States has been sinking to the position of a second-rate military power able only to "negotiate" with the Soviet rulers, never stand up to them. Moscow apparently believes the time has come to assert its right to perform acts of espionage in the United States.

On Sept. 8, the official Soviet daily *Izestia* presented the "case" against Daniloff. Reading it, I felt I was facing that boundless Soviet insolence every reader of the Soviet press knows. Now this insolence is directed toward the United States and Ronald Reagan personally.

Says *Izvestia:* "On familiarizing himself with the indictment, Nicholas Daniloff reluctantly put his signature, and his status changed from that of suspect to that of defendant."

Everyone indicted in Russia has to sign that he has read the indictment. The line says: "I have read the indictment. Signed." The indictment may charge that Daniloff is an elephant, but he is not to sign that he is an elephant. He is to sign that he has read that he has been charged with being an elephant.

Thus, *Izvestia* turns a purely formal Soviet procedure into almost a piece of "smoking-gun" evidence, demonstrating that Daniloff is a spy. Why, he *signed*—if only reluctantly—the indictment saying that he is a spy!

The *Izvestia* article was translated by Tass, handed out to Western correspondents, and in its usual humorless way the *New York Times* published it (on Sept. 19) under the headline, "The KGB's Evidence in Developing a Case of Espionage Against Daniloff."

What other evidence did the KGB develop?

Izvestia tell us how Daniloff (himself!) related that the "photographs, diagrams and maps" in the envelopes that "Misha" has thrust on him "were an unexpected and unpleasant revelation to me."

A TWISTING OF EVIDENCE

Well, this is evidence—for Daniloff and against the KGB. But, insolently, *Izvestia* continues:

Was it so "unexpected," Mr. Daniloff?

The name of Nicholas Daniloff has long been known among members of the foreign journalists' corps accredited in Moscow.

At the mention of Daniloff's name, many of his colleagues in Moscow frowned in displeasure, saying: "Ah, that one?" and often made it clear that they had nothing in common with him.

Even more inane is the "evidence" that came from the KGB's agent-provacateur Misha.

One could think that Misha would be passed off as a Soviet whom Daniloff has recruited. Not so! He is being presented as an honest Soviet who set about in 1982 to enlighten Daniloff, whom he thought was an honest American journalist, but discovered that Daniloff "was not the person he was professing to be."

Says Misha: "I gathered the impression that Daniloff was interested in nothing but restricted [that is, classified] information." So it's an honest innocent Soviet Misha whom the American spy tried to deceive, but Misha saw through him.

The KGB-Tass-*Izvestia* concoction ends thus: "Is more proof needed? It exists."

The above, you see, was proof so abundant that really no more proof is needed. Yet more proof of the same kind exists.

Thus, the KGB has not even tried to concoct something plausible. Meanwhile, Daniloff and Zakharov have been released to the custody of U.S and Soviet ambassadors, part one of the exchange the KGB envisions.

For all its inane crudeness, will the KGB's ruse succeed? If it does, the road for unpunishable Soviet espionage in the United States will be open.

U.N. IS MOSCOW'S BEST ESPIONAGE BASE WORLDWIDE

(By Lev Navrozov)

What did Franklin D. Roosevelt mean to achieve by his recognition of Stalin's regime in 1933? FDR's view of the post-1917 regime of Russia was so naive, parochial, fragmentary and self-serving that trying to analyze his motives would be a waste of time. On the other hand, what Stalin meant to achieve was simple: to establish an espionage base in the United States under the facade of an embassy.

However, that base had at least three drawbacks:

(1) The number of Soviet Embassy staffers was limited, and the number of those who had diplomatic immunity even more so;

(2) In retaliation for Soviet travel restrictions imposed on U.S. Embassy personnel in Moscow, the U.S. government imposed similar restrictions on Soviet Embassy personnel in Washington; and

(3) Soviet Embassy officials had to introduce themselves as *Soviet* embassy officials.

However, following World War II, FDR presented Stalin with a new espionage base, compared with which FDR's previous gift was a trifle: the United Nations! Can one even compare this Soviet espionage base with the Soviet Embassy? No! As a Soviet espionage base, the U.N. is free from the draw-backs of the Soviet Embassy:

More than 200 Soviet members of the U.N. Secretariat have diplomatic immunity, while the total number of Soviet-bloc nationals in the United Nations exceeds 1,000; and

They can travel without restrictions, for there is no equivalent United Nations in Moscow to impose restrictions on the corresponding 1,000 American nationals in Moscow;

They can appear everywhere as U.N. personnel because U.N. identification doesn't disclose its bearer's nationality.

PROFITMAKING ESPIONAGE

While free from the drawbacks of the Soviet Embassy, the United Nations has many merits of its own as a peerless espionage base.

KBG fronts like the World Peace Council freely participate in U.N. activities, since such fronts have been declared by the rulers of Russia to be nongovernment organizations or NGOs;

Soviet nationals at the United Nations can use the U.N. computerized Data Bank Service to tap into American data banks and the U.N. Dag Hammerskjold Library to acquire scientific technical information on behalf of the United Nations and intended for the Soviet military buildup;

90 percent of the salaries for Soviet personnel in the U.N. Secretariat is paid by other countries, and, besides, the Soviet regime nets every year no less than $20 million by taking a hefty percentage of all Soviet U.N. salaries, so that for the first time in history, espionage doesn't cost anything, but on the contrary generates currency.

NOT SO INTRIGUING

The question as to how many Soviet nationals in the United Nations are KBG or GRU agents intrigues the West. The Western estimates vary from one quarter to three-quarters. However, is the percentage so important?

In the United States, there is a fundamental difference between a CIA officer currently in service and an ordinary U.S. citizen. The latter can tell the CIA to go to hell if the CIA approaches him or criticize the CIA publicly for any real or imaginary fault.

A Soviet citizen has a slave status. This has been unfashionable to mention in the last 20 or so years, yet this is true. The "defection" of a Soviet citizen is always like a slave's escape from his master, trying to retrieve his human property.

Suppose a Soviet national who is not a KGB or GRU officer is requested, before his trip to the United States, to do something for the KGB or GRU. He can refuse under some specious pretext. If the KBG or GRU assignment requires a certain kind of good memory, he can say he has always suffered from the absence of that kind of memory (he cannot remember faces, or location, or telephone numbers, or whatever).

Then he may learn that his trip to the United States has been canceled. Who was behind the decision? Why? He'll never know. He can only guess. Nor will he know why he has been demoted or dismissed.

This is, incidentally, why I never held any post or even any salaried join in Russia and never went aboard even for a day. One's temptation to make a brilliant Soviet career and travel abroad opens one to easy KGB pressure.

Besides, many Soviet members of the U.N. are members of the State Committee for Science and technology or SCST, which is not a department of the KGB or GRU, but which acquires by all means possible Western scientific and technological data of strategic importance to the Soviet war-empire. In other words, the SCST is a kind of scientific & technological intelligence agency in its own right, and members abroad are its agents.

Finally, as far as I know, every Soviet member of the U.N. Secretariat (if not of all agencies) is a member of the Communist Party of the Soviet Union. In case an espionage mission is sufficiently important, the KGB o GRU can apply to the party, and if its member disobeys its order, he "will part with his membership card", as the expression is, that is, will reduce his entire career to zero.

Therefore, the Western interest as to the percentage of KGB or GRU agents in the Soviet U.N. personnel stems rather from Western projections on a society where everyone allowed to travel abroad can be forced into espionage—or lose his privilege of traveling abroad.

It takes the KGB much time, energy and ingenuity to place over 1,000 Soviet-bloc nationals into the United Nations. Some U.N. agencies are quite obscure. Who has heard of WIPO, for example? Yet WIPO is the World Intellectual Property Organization in Geneva, and the KGB has placed there six Soviet nationals to take care of world intellectual property.

The news yesterday that Gennadi Zakharov, the Soviet U.N. official who has been in-

dicted on charges of espionage, was swapped for the innocent U.S. journalist Nicholas Daniloff, indicated that the KGB and GRU have succeeded in their two-fold task:

(1) To preserve their priceless espionage base called the United Nations; and

(2) To enable the 1,000 Zakharovs from this base to spy with impunity. From now on, whenever a Zakharov is apprehended by the FBI, there will be an American arrested and framed up in Russia, so that both can be duly exchanged. Certainly, there are enough Daniloffs in Russia to be used as hostages, ensuring the impunity of Soviet espionage even by those Soviet nationals who have no diplomatic immunity.

SENATOR HELMS USHERS IN NEW INTELLIGENCE ERA FOR WEST

(By Lev Navrozov)

What occurred on Sept. 25 on the floor of the U.S. Congress may well turn out to be the most important event in the post-1917 history of Western intelligence services and hence in the post-1917 history of the West.

To say that the major media ignored the event would be wrong. The New York Times from-paged it under a rather enigmatic headline: "Vote in Senate Supports Helms on C.I.A. Curb."

Curb? Apparently the Times missed the point. In reality, Sen. Jesse Helms, R-NC., is out to remove the curb which those in charge of the CIA imposed on the creative minds within the CIA. As has been usual in post-1917 history, the Times couldn't or wouldn't expound the historic purport of the event reported.

I have written this column to put the Helms legislation in its historical perspective on the basis of all-declassified information I gathered on the subject.

The word "declassified" turns off The Washington Post or New York Times. They are not interested unless they get some classified information illegally leaked and publicized. In this way they feel they are privy to top government secrets (which is exciting), do something safe yet forbidden or even criminal (which is even more exiciting) and spite the conservatives, cold-warriors and warmongers (and what is more exciting than that?).

I've been trying to interest my readers not in illegal leaks, but in the story in the making as of this hour.

Owing to the U.S. system covering CIA congressional testimony, the declassifying of once-top secret documents, the Freedom of Information Act and other democratic aspects of American society, I have gathered since 1974 well over 300,000 pages of primary data on the subject of intelligence-espionage. They don't contain an atom of classified information, but this doesn't make them any less interesting or important.

The same applies to my data on Helms and his innovative legislation.

HISTORY IN THE MAKING

It is a truism that the survival of the West depends on vital intelligence data on the closed totalitarian society of post-1917 Russia and its vassals and allies, both actual and potential.

That the CIA (just as other Western intelligence agencies) is tragicomically inadequate in this respect was a paradox in the 1950s, a growing opinion in the '60s, a respectable consensus in the '70s and a plain truth, obvious to anyone willing to look at it on his own, in the '80s.

At the same time, the Soviet-American strategic power ratio has been defined by a Congressional aide at a hearing as follows: "U.S. monopoly in the 1940's, heavy U.S. superiority in the 1950s, light U.S.-Soviet parity in the 1970s, and Soviet superiority in the 1980s."

However, the liberal-Democrat media have refused to face the lethal "intelligence gap" since this would end all those arms-limitation or -reduction agreements, which are based on the CIA's imaginary ability to verify them.

As we know, the liberal-Democrat establishment has been trying since 1963 to replace Western defenses with such self-deceptive agreements, and while the liberal-Democrat media have never stinted on space for what they regard as the CIA's immorality and criminality, the CIA intelligence gap has been one of their most sacred taboos.

What about conservative-Republican president?

RICHARD NIXON'S COMPLAINT

When no longer president, Richard Nixon complained in a TV interview in Paris that the CIA had been grossly misleading the country for 11 years by ignoring the Soviets' stupendous military growth between 1964 and 1975. But where had he been during those 11 years, and why hadn't he done anything to enable outsiders to evaluate the CIA?

Ronald Reagan did accept the plain truth that the CIA is tragicomically inadequate. He did it between 1978 (when his newsletter praised my article on the subject in Commentary magazine) and 1980 (when he abruptly terminated his own Transition Team's study that confirmed the CIA's utter inability to cope with the task it was created for).

But after 1980 he put the plain truth in mothballs. No one has seen the Transition Team's study (except those in charge of the CIA and perhaps John Ranelagh, who claims that he received a copy of it from the CIA for his 847-page eulogy of the CIA entitled The Agency and published this year).

With all major media being liberal-Democrat, President Reagan could ill afford luxuries like evaluating, criticizing and reforming the CIA. His stay in office itself has been possible as long as he can compromise with the liberal-Democrat establishment.

To reform the CIA? What an outcry in the media would have ensued! No, Reagan didn't dare. That's why William Casey, his newly appointed director of central intelligence, appeared at a Transition Team session and just cut it off in the middle of a sentence, with all its materials shoved into the CIA's safest vault, to rest there—forever if possible.

Until Sept. 26 the deadlock seemed unbreakable. To be sure, the plain truth about the CIA was there—but how to bring it to the public? Anxious to suppress it are, above all, those who rule the roost in the CIA and value its corporate and their own personal prestige and prosperity above the survival of the West.

Anxious to suppress, too, is the liberal-Democrat establishment, including the major media and the bulk of the academy. And anxious to suppress it, if only reluctantly, is Ronald Reagan and those Republicans who believe they should not above all "rock the boat," "make waves," anger the liberal-Democrat media.

A WEST-SAVING BOLT FROM BLUE

The two protagonists of the extraordinary effort to stop the suicidal concealment of the plain truth from the public are Sen. Jesse Helms and his legislative assistant for defense and intelligence, David Sullivan.

To say that Sullivan left the CIA about 8 years ago because he dissented from its estimates will probably be proven inaccurate a decade from now. It will then, perhaps, be more apt to say that the CIA left Sullivan. The heart and soul of U.S. intelligence work has shifted from a huge corporation, having thousands of employees and officially designated as the "CIA," to a "one-man CIA," as I called David Sullivan in my review last year of the book he coauthored with Quentin Crommelin: Soviet Military Supremacy.

But Sullivan's superhuman effort, as well as the work of all us critics of the CIA, could smoulder on quietly for a long time in specialized or conservative publications, reaching no decision-making elites, were not Sullivan linked with prominent pro-defense legislators—and above all Jesse Helms, that astute and courageous ranking majority member of the Senate Foreign Relations Committee. The West-saving bolt came from the blue for Congress.

What did Helms do? With his characteristic legislative skill, he added historic amendments to an annual bill authorizing the activities of the U.S. intelligence agencies.

First of all, he introduced a "requirement for intensified competitive analysis" in intelligence work, and invoked in this connection an example that the hidebound segment of the CIA dreads—"A-team-B-team exercise"—in which a dozen outsiders (Team B) are given the same intelligence data as CIA insiders (Team A) and prove that the CIA's Team A has drawn false conclusions from its own intelligence data.

Helms also evoked an even more dreadful ghost as he referred on the floor of the Congress to the "availability[!] of the report of the president's 1980 Transition Team study of intelligence"—yes, that same milestone study that the administration has been hiding for 6 years even from all members of Congress.

The struggle for intensified competitive analysis will no doubt be uphill. Outsiders were allowed by the CIA to participate in the "A-team-B-team exercise in 1976"—but will those in charge of the CIA ever repeat this self-exposure of its incompetence? They have never done it so far. The critics of the CIA in the Transition Team's study were outsiders—but Ronald Reagan, not the CIA, appointed them.

The day after Helms introduced his amendments, The New York Times noted they provide for a "team of 15 experts from outside the government to spend a year reviewing some of the basic intelligence findings of the CIA. Their report would be delivered to the President and Congress."

COMPETITION BETWEEN WHOM?

But a week later—on Oct. 2, 1986—the Times reported:

"Mr. Helms said in his speech that he intended for the agency to bring in a team of outside experts who would re-examine the agency's conclusions on key issues. Senate aides disagreed, arguing that the intelligence agency could satisfy the requirement for competitive analysis by using its own employees or by using analysis from other government agencies.

Competition between government agencies is better than no competition at all. In particular, Helms emphasizes in his amendments the importance of competition between the CIA and the DIA: the latter must

compete with the former, not subordinate its findings to the CIA.

But to say that the CIA can effectively compete "by using its own employees" is the same as to say General Motors can effectively compete with General Motors, and so no outside competitors are needed.

Even if the CIA is compelled by Congress to admit outsiders for evaluation, review and other competitive events, yet allowed to choose it competitors, analysis of the CIA's behavior indicates that it will choose the weakest, the least effective, the most innocuous and hence the best for CIA's corporate interests as those now in charge understand them.

Yet while the path toward truly competitive analysis goes uphill, the trail has been blazed. We'll see why presently.

SELECTED INTELLIGENCE PROBLEMS

However the notion of competition may be understood by the CIA or the liberal-Democrat media, Helms read on the floor of the Congress a list of 32 "intelligence problems" to be "studied under appropriate competitive analysis procedures." Here's my selection of 20, most of which I abbreviate:

Soviet geopolitical and strategic intentions.

Soviet investigation of the feasibility of detecting submerged submarines through the analysis of data on the surface of the ocean.

The role of surprise and deception as principles of Soviet military doctrine.

The accuracy of Soviet missiles.

The existence of hidden Soviet missiles for reload, refire and covert soft launch in strategic reserves.

The reasons for the CIA's continuing underestimation of Soviet strategic forces.

Better methodologies for estimating Soviet defense spending.

The effects of Soviet negotiating and operational deception in arms control.

Means of overcoming a deterring and hardening against Soviet data denial through Soviet radio-electronic warfare.

The extent of the Soviet lead over the United States in deploying a nationwide, land-based ABM defense and in developing a space-based ABM defense, including identification of U.S. intelligence gaps on the Soviet SDI program.

Soviet knowledge of U.S. National Technical Means of intelligence collection and deceptive actions that Moscow may have taken on the basis of that knowledge.

The Soviet Biological and Chemical Warfare threat and potential U.S. counter-measures.

Implications for U.S. national security of Soviet military supremacy.

Better methodologies for estimating yields of Soviet underground nuclear weapons tests by utilizing all the evidence available.

Possible limitations in U.S. area search and spot search reconnaissance capability.

The ability of U.S. National Technical Means of intelligence collection to monitor Soviet compliance with the 1967 Outer Space Treaty prohibiting nuclear weapons in space, and with an Anti-Satellite Treaty.

The history of Soviet violations of the Biological and Chemical Weapons Conventions and whether the CIA blocked the creation of an Interagency Group to study these violations when they were first detected in 1976 and 1977.

The military implications of Soviet SALT and other arms-control violations and the reasons why the CIA resisted evidence and analysis showing Soviet SALT violations for 12 years.

The reasons for reported CIA long-term underestimation of Soviet submarine capabilities.

REQUESTS HAVE FORCE OF LAW

Under congressional rules and owing to Helms' impeccable legislative strategy, these questions "stand as Senate requests" to the intelligence agencies—and such requests have the force of law!

Read the list carefully. Every item confronts the CIA squarely. The CIA has been avoiding the issues by, say, picking from Soviet propaganda myriads of trifles like an "increase of sale of fruit in the U.S.S.R." and discoursing upon them ad infinitum.

Now the CIA has to face the issues by law! The extent of its ignorance, evasion and obfuscation will be revealed, and that will lead to true competition—the CIA against the best, the strongest competitors—no matter how fiercely William Casey resists it now, or did in 1980.

There has never been any other way to achieve excellence in any field except through competition. Even in the Soviet system the best weapons are produced only when all the best designers freely compete (despite the fact that there is no competition in the fields about which the Soviet rulers don't care).

Secrecy is a must in intelligence work and should be observed. All competitors must be checked—and not just by formal signs, such as the assumption that all fourth-generation Americans with impeccably Anglo-Saxon names are loyal to the West while all emigrés are security risks.

Let's recall that in the list of Soviet spies in the United States as exposed in the last decade, there are many Anglo-Saxon-sounding names—Walker, Howard, Whitworth, etc. On the other hand, thousands of emigrés from Russia have secret clearances and hundreds of them top-secret clearances—but not one of them so far has been convicted of spying.

NO HIDING BEHIND SECRECY

Yes, secrecy is a must. But it should not be a tool for an entrenched bureaucracy to avoid all true competition, ignore all effective criticism, conceal its ineptness and ignorance and praise itself to the skies. Certainly not if that bureaucracy is an institution on which the survival of the West so critically depends.

No wonder many anti-defense liberal-Democrat members of the Congress and their aides are full of forebodings. Listen to the New York Times of Oct. 2:

"They said that once the reports were delivered to Congress, Sen. Helms would return next year with broader efforts to rewrite the intelligence legislation on the floor."

Yes, aided by David Sullivan, Helms is doing "on the floor" what Ronald Reagan meant but failed to do. They are doing what the Republican Party ought to have done once the Democratic Party abdicated its defense mission in 1963. To put it bluntly, they are saving the West—and none too soon!

CIA PROBE OF SOVIET SPACE SHUTTLE SABOTAGE

Mr. President, I ask unanimous consent that an article entitled "CIA May Sniff for Space Spies," of October 4, 1986; an article entitled "Senate OK's 'Challenger' Spy Probe" of October 7, 1986; and an article entitled "Sabotage? CIA May Probe Shuttle Disaster"; all by Todd Halvorson published in Florida Today, be printed in the RECORD. I finally ask unanimous consent that an article in the News and Observer of Raleigh, NC, October 8, 1986, entitled "Helms Seeks Investigation of Possibility of Soviet Role in 'Challenger' Explosion," be printed in the RECORD.

The articles follow:

[From Florida Today, Oct. 4, 1986]

CIA MAY SNIFF FOR SPACE SPIES

(By Todd Halvorson)

An unprecedented string of disasters dating back to August 1985 is fueling calls for a CIA investigation into the possibility that the Soviet Union has been sabotaging western space launches.

Legislation that would direct the CIA and other U.S. intelligence agencies to investigate "the possibility of Soviet bloc sabotage" in the Jan. 28 *Challenger* explosion will be brought before the Senate Monday.

If passed, the secret appropriations bill also would direct the U.S. intelligence community to examine the possibility of Soviet sabotage in a string of other recent American and European launch failures.

The legislation passed the House by voice vote on Thursday and must be approved by the Senate before it becomes law.

The presidential commission that investigated the *Challenger* disaster found no evidence of sabotage in its four-month probe of the catastrophe.

The chairman of the *Challenger* commission—former Secretary of State William Rogers—declined comment on the pending legislation.

A congressional source who asked not to be identified said the investigation will focus on "circumstantial evidence" brought to light by Retired Army Lt. Gen. Daniel Graham, former director of the Defense Intelligence Agency and past deputy director of the CIA.

Graham now heads High Frontier, a privately funded organization whose purpose is to propose policies relating to space utilization. He also is the man credited with selling President Reagan on the idea of the Strategic Defense Initiative, more commonly known as the "Star Wars" program.

In a telephone interview from his Washington, D.C., office, Graham said the string of launch failures warrants close scrutiny by the intelligence community.

Two unmanned Titan rockets, a Space Shuttle, an expendable Delta rocket, and a European Space Agency Ariane rocket are among the western space launch vehicles lost to failures since August 1985.

"The odds are astronomical against that all being coincidental," Graham said. "The thing that raises the greatest suspicion is all these things happenings in a series.

"If you don't buy coincidence, if you don't buy a sudden rash of incompetence among everybody in the Western world involved in launching space boosters, you say 'Well, there's foul play involved here somewhere,'" he said.

"It doesn't make the case that foul play was involved," he said. "But it does make the case that you certainly ought to investigate it."

Among items that would be investigated, Graham said, are:

The possibility that U.S. Air Force Capt. William Hughes, who trained range safety officers to destroy malfunctioning rockets, defected to the Soviet Union or was abducted by the KGB, the Russian equivalent of the CIA.

Hughes, 34, "simply disappeared" in July 1983 while he was traveling to the Netherlands, Graham said. Hughes was declared a deserter by the Air Force in December 1983 and has not been seen since his disappearance. He had been stationed at Kirtland Air Force Base in New Mexico.

"Nobody has seen hide nor hair from him since," Graham said.

The possibility that Soviet intelligence trawlers off the coast of Cape Canaveral on Jan. 28 were notified that a disaster was impending.

"About four hours before the *Challenger* launched, (the Soviet trawlers) were noted at flank speed leaving the area," Graham said.

The trawlers, Graham said, usually stay about 12 miles off shore to monitor launches.

"The implications is that the Soviets decided they didn't want any of their ships at the scene of the crime—that they knew it was going to happen and they wanted to be gone, out of the area," Graham said.

The possibility that the Soviet Union placed a spy within NASA.

The Soviets, Graham contended, have a strong motive for wanting the American space fleet grounded.

"The motive is clear—SDI (the Strategic Defense Initiative)," Graham said. "The Soviets are really pulling out every stop to prevent (deployment) of SDI."

Officials at the Soviet Embassy in Washington, D.C., could not be reached for comment.

A spokeswoman for the CIA would neither confirm nor deny that an investigation might take place. She did say, though, that the agency "responds to all congressional queries."

[From Florida Today, Oct. 7, 1986]

SENATE OKs CHALLENGER SPY PROBE

(By Todd Halvorson)

The Senate on Monday sent President Reagan a bill that directs the CIA and other U.S. intelligence agencies to investigate "the possibility of Soviet-bloc sabotage" in the Space Shuttle *Challenger* disaster.

But a former CIA deputy director says the agency may be one step ahead. Retired Army Lt. Gen. Daniel Graham believes the CIA already may have launched an investigation.

The annual appropriations bill for the CIA and other U.S. intelligence agencies, passed by the Senate on a voice vote Monday, directs the U.S. intelligence community to examine the possibility of Soviet sabotage in the Jan. 28 catastrophe as well as an unprecedented string of other Western launch failures.

The House approved the bill Thursday.

An amendment to the bill, proposed by U.S. Sen. Jesse Helms, R-N.C., requires the CIA to send Congress a series of reports on various subjects.

One of those topics, according to a Helms aide who asked not be named, concerns "the possibility of Soviet-bloc sabotage" of *Challenger* and other launches.

The request for the probe, the aide said, was prompted by "circumstantial evidence" brought to light by Graham, also former director of the Defense Intelligence Agency.

Graham now heads High Frontier, a Washington, D.C.-based organization whose purpose is to propose policies relating to the use of space.

"I don't know if the amendment by Mr. Helms is necessary," Graham said recently. "I'm beginning to get some indications around town . . . that, in fact, something has been put together (by the CIA) to investigate."

Graham said the recent rash of launch failures warrants close examination.

Two unmanned Titan rockets carrying sophisticated spy satellites, a Space Shuttle, an expendable Delta rocket and a European Space Agency Ariane rocket are among the Western vehicles lost to failures since the fall of 1985.

"The odds are astronomical against that all being coincidential," Graham said. High frontier statisticians calculated the chances of the string occurring as 1 in 250 million, he added.

Graham asked the House and Senate select committees on intelligence to investigate:

The possibility that U.S. Air Force Capt. William Hughes, who trained range safety officers to destroy malfunctioning rockets, defected to the Soviet Union or was abducted by the KGB, the Russian equivalent of the CIA.

Hughes "simply disappeared" in July 1983 while he was traveling to the Netherlands, Graham said. Then 34, Hughes was declared a deserter by the Air Force in December 1983.

The possibility that the KGB "electronically interferred" with U.S. space launches.

The possibility that Soviet intelligence trawlers off Cape Canaveral on Jan. 28 were notified that a disaster was pending.

"About four hours before the *Challenger* launched, (the Soviet trawlers) were noted at flank speed leaving the area," Graham said, The trawlers, he said, usually stay about 12 miles off shore.

The possibility that the Soviets placed a spy in NASA.

SABOTAGE?—CIA MAY PROBE SHUTTLE DISASTER

(By Todd Halvorson)

The CIA is one legislative step away from launching an investigation into "the possibility of Soviet bloc sabotage" in the Jan. 28 Space Shuttle *Challenger* explosion, a Senate aide said.

The investigation also would probe the possibility of Soviet sabotage in a string of other recent U.S. launch failures, he said.

The presidential commission that investigated the *Challenger* disaster found no evidence of sabotage in its four-month probe of the catastrophe, which claimed the lives of seven crew members.

However, an amendment to a Senate bill passed Wednesday directs the CIA and other intelligence agencies to explore "the possibility of Soviet bloc sabotage being among the human errors causing the Space Shuttle *Challenger* and other recent U.S. strategic space mission explosions."

The amendment was tagged onto an annual spending appropriations bill for the CIA and other intelligence agencies. The bill was passed on the Senate floor on a voice vote and then sent to a conference committee with the House.

The House would have to agree with the Senate text before the amendment could become law.

The amendment was proposed by Sen. Jesse Helms, the conservative North Carolina Republican. A Helms aide said the measure is expected to be approved by the conference committee and an investigation would ensue.

"It's safe to say (the CIA) will be investigating," said the aide, who asked not to be identified. "And it won't be just the CIA, it will be a team of outside experts and a counterintelligence team of the whole intelligence community."

CIA spokeswoman Sharon Foster would neither confirm nor deny that an investigation might take place.

"We don't discuss what we do for Congress," Foster said. "We respond to congressional queries but we don't discuss them at all," she said.

Specifically, the Helms amendment directs the intelligence community to use competing teams to evaluate a list of 32 topics, most of which deal with the Soviet Union.

Other than the sabotage inquiry, the list calls for intelligence agencies to examine Soviet strategic intentions, the accuracy of Soviet missiles, the existence of hidden Soviet missiles and reasons for the alleged underestimation by the CIA of Soviet strategic forces and submarine capacity.

[From the News and Observer, Raleigh, NC, Oct. 8, 1986]

HELMS SEEKS INVESTIGATION OF POSSIBILITY OF SOVIET ROLE IN CHALLENGER EXPLOSION

WASHINGTON.—Sen. Jesse A. Helms, R-N.C., wants the U.S. intelligence community to investigate whether Soviet sabotage played a role in the explosion of the space shuttle *Challenger* in January.

Helms included the request in an amendment he attached two weeks ago to a bill to finance the nation's intelligence operations.

He declined to elaborate on his request. "I cannot discuss it, because I would be getting into classified information," he said. But a Helms aide, James Lucier, suggested that the U.S. intelligence community already had begun its own investigation of possible Soviet complicity in the *Challenger* explosion.

The Helms amendment called for a probe into the "possibility of Soviet Bloc sabotage being among the human errors causing the space shuttle *Challenger* and other recent U.S. strategic space mission explosions," according to the Congressional Record of Sept. 25.

That was five days before the White House announced that President Reagan and Soviet leader Mikhail S. Gorbachev would meet Oct. 11-12 in Iceland.

The *Challenger* probe was one of 32 problems that Helms' amendment said should be examined by "competitive analysis." That is a method using separate or competing studies of a topic to arrive at intelligence estimates.

Lucier said Helms included the request after discussion with several people, including retired Army Lt. Gen. Daniel Graham, former chief of the Defense Intelligence Agency and now director of High Frontier, Inc., which is promoting the Strategic Defense Initiative, a space-based missile defense system popularly known as "Star Wars."

"He has compiled a list of 22 incidents or facts relating to the lift-off," Lucier said, "which he considers suspicious in the context of the whole thing that happened, plus the whole string of missile failures . . . that, in terms of mathematical probability, was not consistent with past experience in the missile programs . . ."

"We're not asserting this as fact, but as an hypothesis which is worthy of investigation. It's not just some strange idea . . . There's probable cause to investigate."

However, one informed Senate source said he never had heard "any serious suggestion" in the intelligence community of sabotage of the *Challenger*.

BERNIE FOWLER

● Mr. SARBANES. Mr. President, the Senate should soon be considering the Clean Water Act conference report, a very important legislative item not only to my own State of Maryland, but to the entire Nation as well. I have been a strong supporter of this legislation, which plays an important part in the cleanup of the Chesapeake Bay and its tributaries.

For more than 15 years in public office, Bernard Fowler, now Maryland State senator from southern Maryland, has helped lead the fight for cleaning up the Patuxent River, a major tributary of the bay, which provides drainage for many of Washington, DC's suburbs. Bernie Fowler saw the threat to the Patuxent, and the bay, and fought effectively and successfully for stricter controls on upstream pollution. Bernie has made a major contribution to the health of our waterways.

In an article in last Sunday's Baltimore Sun, Tom Horton, himself a widely respected environmental expert, chronicled some of Bernie Fowler's contribution to clean water for southern Maryland. I ask that his article be reprinted in the RECORD.

The article follows:

ENOUGH OF CHESAPEAKE BAY FACTS—LET'S GET TO THE MORE SIGNIFICANT STUFF: MYTHS

DAMERON, MD.—For 10 years I've been attacking the problems of the environment with artfully crafted facts—facts perfectly balanced, honed to a fine point and driven home with all the force of truth. Might as well have been plinking spitballs at a brick wall, I sometimes think.

Now, I've seen the light, after a visit here in St. Mary's County with my good friend Tom Wisner, the Chesapeake Bay folksinger, poet and storyteller. Wisner told me there's bigger and better ammunition than fact. It's called myth.

Myth is a concept we reporters, steeped in questing for the factual, the verifiable, tend to equate with lies. You will find no such pejorative definition in the dictionary or the thesaurus; rather myths, or folk tales, legends—call them what you will—are the way we embody and transmit down the generations our most deeply held values and beliefs.

Facts, and their sibling, logic, are useful. Without them we would not get to places like the moon. But myths are powerful. Without our myths, we would not long to go to the moon in the first place.

Tom told me last week that it is a misconception that myths are all from the hoary past, the province only of ancient Greeks or Norsemen. He has found a fledgling myth almost at his doorstep in Southern Maryland, he said, and he thinks it is worth nurturing as a step toward helping out the bay.

For a long time, he said, he has been dissatisfied with what he considers the dominant mythology underlying our ethic toward the Chesapeake region's environment.

"When Captain John Smith drafted his piece about 'heaven and earth never having conspired more agreeably to frame a habitat for man,' he composed the principal catch phrase for an ongoing 350-year realtors' campaign to develop and settle the coastline of the region," Tom wrote recently in a curriculum he is developing for a class he teaches at the University of Maryland.

He continues: "The phrase . . . still used by developers and Chamber of Commerce copywriters . . . is an example of the subtle kind of myth-building created by and for individuals who perceive nature as the 'use' and people as the 'user.'"

I had to admit the notion of the bay solely for man's use (13 million users settled in the watershed at last count) has been fairly resistant to refutation by fact. You fight fire with fire, not popguns, Tom explained.

He got the idea of a better legend for the bay when he was invited to receive an award from Gov. Harry Hughes last month for his contributions to the bay. The ceremony took place at a political gathering sponsored by state Sen. Bernard Fowler, D-Southern Maryland.

Now Bernie Fowler, who is destined to play the major role in Tom's attempt at new mythology for the bay, might not strike anyone right off as a hero of mythic proportions.

He's a lean, angular man who look 3 inches taller than his 6 feet. His easy, courtly manner and mellifluous Southern Maryland accent betray no hint of his sprinter's muscles. I would bet he has never told even some friends that he is among the fastest age 60-and-over runners in the country at distances from 100 yards through the 880, and recipient of dozens of gold medals in AAU seniors competition.

He talks very little about himself, even on the campaign trail. Mostly he talks about things like preserving Southern Maryland's rural way of life, and always, about cleaning up his beloved Patuxent River.

He has seen the river and the bay at their very best, and he talks poetically about the waterman's culture and the natural rhythms and the cycles of the years he spent growing up at Broomes Island on the Patuxent.

But perhaps his most vivid memory—a memory that would come to be a touchstone for a whole region in its fight to save the river—is of summer days and soft crabbing after he finished serving in World War II and returned to start a little snack bar-bait shop on Broomes Island with his GI Bill loan.

While his wife crabbed from their boat Bernie, wading, would pursue soft crabs out across the flats with a dip net. Sometimes he would wade all the way out up to his shoulders, crab still in sight, scuttling along the bottom.

"I could see my feet in shoulder-deep water," he recalled recently, adding that it has been many, many years since the river was clean enough to see that far down in the summertime.

In 1970 Bernie ran for Calvert County commissioner. He was elected principally, he recalls, for promising to improve schools and to fight for preserving the rural heritage of the lower Patuxent.

Upstream, those were the years when counties such as Prince George's, Howard, Anne Arundel and Montgomery were booming with new growth, sending all their treated sewage down the Patuxent toward Southern Maryland. In 1970 the grasses that had provided shelter for soft crabs began to disappear on a massive scale from the lower river, whose waters by then were sometimes too cloudy to see a crab on the bottom anyhow.

Bernie says he could fill a book with all the twists and turns the fight for the river took after 1970, pitting upstream growth against the downstream counties' fight to keep their rich seafood harvests. For years, the Southern Marylanders proceeded on the assumption that, ultimately, state and federal water quality authorities would not permit pollution that would ruin their river.

It was in 1978 that, led by Bernie Fowler, Calvert County, joined by Charles and St. Mary's, filed suit against the new comprehensive water quality plan for the river endorsed by Maryland and the U.S. Environmental Protection Agency. It would permit sewage flows from upstream nearly to double and probably would kill the river, scientists at the state laboratory at Solomons told Bernie.

Bernie has a tape of a talk he gave in 1978 to a gathering of local officials as they pondered the big step the lawsuit represented. He did not pretend to understand all the complexities that were sure to be argued about the impacts of this or that sewage treatment technology on water quality, he said, adding:

"Indeed, I don't expect judges and juries will care too much about that either; but I bet you one thing they do understand. They can understand there's slimy river bottoms where there used to be clear water."

In 1979 a federal judge ruled that the state and the EPA were in error on 11 of their 15 major assumptions about the water quality future of the Patuxent. In that same year, after months of urging by Bernie Fowler, Governor Hughes finally took a trip on a University of Maryland research vessel to see the river for himself.

He came away committed to its cleanup, a commitment that would carry over, three years later, to his administration's pushing through a landmark package of legislation to address similar pollution problems throughout the Maryland part of the Chesapeake.

In 1981, a conference of top-level state, local and regional officials was held to end the impasse between upstream and downstream and formalize the campaign to get on with a Patuxent River cleanup. The conference ended on a successful note, but there was concern: How to explain the lengthy, complex and expensive cleanup to the public in terms that would garner the long-term support it would need?

Then, someone hit on the perfect idea. The goal of the cleanup would be reached, they decided, when Bernie Fowler once again could wade out into the river up to his shoulders and see his toes through the clean water.

Five years later, Tom says that is a story he is hearing told and retold, becoming part of the region's oral tradition, with potential to influence events far beyond the Patuxent. "It is the kind of stuff of which folk legends are made," he says.

Tom, who performs all across the bay region, says, "I want to make this story a real part of my life, and to continue to share it with others.

"I intend to pick a day next spring or summer to wade out in the river and look at my feet. . . . I'm going to invite Bernie to join me—in fact, I'd like him to go out in front of me [since] there might be mud or glass out there," he jokes.

Tom wants it to become an annual "Bernie Fowler Day." People concerned about the river will be encouraged to wade in, wherever they are along its shores, (it runs for 110 miles, the longest river wholly contained within Maryland.)

Bernie Fowler Day, he says, will be an alternative to the more commercial celerations of river life that have sprung up on the Patuxent and other parts of the bay in recent years.

"It won't cost anything. It will not invite hordes of tourists in to elevate the local economy, and it will not be encumbered with the usual raft of craft counters, balloon rides, acrobatics and helicopter tournaments that I find so distracting," Tom says.

To kick it off, he has drafted a simple poem, on which he welcomes comments, revisions and suggestions, c/o Tom Wisner, Box 17A, Dameron. MD 20628. It is entitled "Bernie Fowler Day—A guide to wading in the Southern Maryland waters":

All the politicians gathered.
They'd come from miles around
To talk about the river
That flows by Solomons town.
Seems they had a problem.
Things were looking bad.
They'd looked at all resources
And used everything they had.
The scientists had told them
Everything they knew,
Still—the folks were puzzled
And they didn't know what to do.
It came round to Bernie Fowler
And he stood among the best.
He said, "Folks, if you'll bear with me,
I think I have a measure
That can't be beat.
You just wade out in the river
And look down to see your feet."
"If you can't see your cloppers
There'll be trouble in this town
We oughta sue those upper counties.
For the junk they're sending down."
It's Bernie's measure!
It's simple—yet profound.
We got a treasure!.
You can't buy it by the pound.
It's Bernie's measure,
And it ain't hard to do.
It's a pleasure!
And it will soothe you too.
You just wade out in the river,
Give it all you got. . .
Right up to your chest,
And then you pick your spot.
Next you take your peepers
And cast them slowly down
On the day we see our feet again
There'll be celebration in this town.
Well—we should do this yearly
On Bernie Fowler Day.
Dress up fit to kill
And wade out all the way.
And somewhere in the future,
That day is coming sure,
We'll look and see our feet again;
Could we ask for more?
Cause I ask you what's the profit
If we gain these worldly things
And foul the air and water
And all the life that brings?

Remember, you saw it here first.●

TRIBUTE TO CHARLES E. CORD

● Mr. LAXALT. Mr. President, it is with both pride and sadness that I request this tribute to one of Nevada's finest citizens be placed in the CONGRESSIONAL RECORD.

Charles E. Cord, son of classic carbuilder E.L. Cord, was president of the Pan-Pacific Auditorium in Los Angeles, and owned the Los Angeles Monarchs of the old Pacific Coast Hockey League. Moving to Nevada in the 1950's, the Cord family has been involved in broadcasting in Nevada for 36 years. Until his death last April 29 at age 70, Charles Cord still operated the KCRL studios in Reno.

In addition, Charles Cord was president of the Cord Foundation, which regularly made generous donations to the University of Nevada, Reno, and to local hospitals and charities. Nevadans will surely miss the many contributions made to our State by its adopted son.

At a recent meeting of the Los Angeles City Council, the members honored Charles Cord, and I would like their tribute to be placed in the CONGRESSIONAL RECORD. Thank you.

The tribute follows:

CITY OF LOS ANGELES

IN TRIBUTE

The Los Angeles City Council extends its deepest sympathy to you in the passing of your loved one, Charles E. Cord, Sr., in whose memory all members stood in tribute and reverence as the council adjourned its meeting of May 9, 1986.

Sincerely,

ELIAS MARTINEZ,
Clerk.

Presented by:

JOHN FERRARO,
Councilman.

Seconded by:

ZEV YAROSLAVSKY,
Councilman.

KOREAN WAR MEMORIAL

● Mr. GLENN. Mr. President, I am extremely pleased, and I must say a little relieved, that the Senate at long last approved the authorization of a memorial to veterans of the Korean war. As an active cosponsor of this legislation and a strong supporter of this memorial, I appreciate my colleague's recognition of the need for this well-deserved and long overdue tribute.

I supported this bill out of my very profound respect for the sacrifices which were made by those who served in the Korean war. It was not a long war; it lasted only a little over 3 years—but it was a tough little war. The United States suffered 162,708 casualties, including 54,246 killed in action. Over a million U.N. personnel served in combat in Korea, 480,000 of them Americans.

Mr. President, I am a Korean war veteran, but I did not seek this memorial for myself. I have my own personal memorial in memories. I remember a squadron commander getting shot down when I was flying next to him. I thought he was gone, but he came out in Big Switch at Panmunjon at Freedom Village after the war. I remember the ones who did not show up at the rendezvous point after a mission, and that was tough to accept. I remember the letters to the next of kin—that's some of the most difficult writing I have ever done. I remember seeing planes on fire; many of my colleagues here have never seen a plane crash and known that someone was in it you knew as a friend. I remember the gratitude of the men on the frontlines for the close air support we were giving. We used to trade places once in a while. We would go up on the lines for a couple of days, and I remember the profound feelings of respect I felt for them and the job they were doing.

In my own mental memorial, I remember aerial combat. I went up after my Marine missions were done and flew with the Air Force against the MIG's along the Yalu. That was probably the last real jet dog fighting that will ever occur. It was tough one-on-one fighting, and we did it well—we only lost 1 plane for every 12 that they lost. And I remember the exultation of survival.

I remember Chosin Reservoir—Frozen Chosin. It's one of the most amazing military accomplishments in history that our men ever got out of there. I remember a friend of mine who was a forward air controller up there, when they were trying to come out and get to Hungam. He stood up on a ridge trying to direct air support to a target. While he was standing on that ridge he was shot through the neck, but he struggled up again, still giving directions until he died.

In Korea, as much as any place we ever had Americans serve, uncommon valor was a common virtue.

So I have my own personal memorial in these memories. And when I meet others who were out there and shared these experiences, we share a handshake, a look in the eye—that is our memorial. For me the memorial of remembering is enough; but I believe that for others it is not. I cannot pass along these memories, vivid as they may be. We need this memorial to help pass along to our children and to our grandchildren an appreciation of this heritage, a heritage of freedom that is not free; a heritage of individual bravery and personal sacrifice as notable as that of any war in which Americans have served. To me, Korean war veterans are personal heroes, and their heroics were magnificent. These individuals deserve thanks, but we rarely take time to do that. We have an opportunity now—albeit a long overdue one—in a small but significant way, to signal our respect and gratitude to all those who served in defense of freedom in Korea.

I take this opportunity to thank my colleague, Senator ARMSTRONG, for the leadership role he assumed on this issue; I am proud to have been a part of this effort.●

MINORITY ENTERPRISE DEVELOPMENT [MED] WEEK

● Mr. WEICKER. Mr. President, I would like to bring to my colleagues' attention that this week, October 5–9, 1986, has been designated by President Reagan as "Minority Enterprise Development [MED] Week." This is the fourth annual observance of MED Week since the President proclaimed in 1982 that the first full week in October would be so designated. The Small Business Administration [SBA] and the Minority Business Development Agency [MBDA] are holding events honoring distinguished minority entrepreneurs from around the Nation, during this week.

Minority businesses make a significant contribution to our Nation's economy and our local communities. I take this occassion to express my own admiration and gratitude to the minority business community for the strides made and the essential role its many entrepreneurs have played in our daily lives. I offer my congratulations and sincere best wishes to all of the local and national awards winners who will be recognized throughout this week.

Historically in this Nation, ownership of a business has been a vital part of the American dream. It is the essence of our independent spirit, the attainment of a goal that brings with it self-sufficiency, determination, and the personal joy and satisfaction of making it on your own.

Unfortunately, for many years minorities did not share in that dream. Our free enterprise system has, in the past, shut most doors to all but a special few of the minority community who tried to share this Nation's generous economic pie. But I am proud to say that we are making strides in reversing that harsh trend. Today, the achievements of minority-owned firms are some of the finest success stories this Nation has to offer. In all phases of business, increasing numbers of entrepreneurs are getting a bigger slice of the pie through hard work, perseverance, and determination to overcome racial barriers and to succeed. This is the real American dream, Mr. President—the dream that any man or woman, no matter how humble their beginnings, can, through their own diligence and effort, become a success in this country.

The MED Week theme for this year is "Together We're Building America's Future." I urge all of my colleagues to pay special attention to these words. We all have a role to play in assuring that minority owned businesses continue to thrive in this Nation and that opportunities to enter the economic mainstream are just as available to minority as to majority entrepreneurs. While I believe it is appropriate that we set aside a week to pay tribute to these business men and women for their outstanding accomplishments, I urge that we also take this time to reaffirm our commitment and rededicate ourselves to the goal of increasing minority business participation in Federal procurement activities when this week is over. Strides have been made, but there is still much to be done.

According to the 1986 edition of "The State of Small Business: A Report of the President," minority self-employment increased by 64 percent from 1975 to 1985, from 337,000 to 552,000 minority-owned businesses. From 1977–82, the total number of black-owned businesses grew by more than 100,000 from 231,203 in 1977 to 339,239 firms in 1982—a 47-percent increase. During the same time period gross receipts for black firms rose from $8.6 billion to $12.4 billion. In fiscal year 1984 alone, Federal procurement awards to all minority-owned businesses totaled $6 billion. However, there is another side to the story. The fact still remains that of the roughly 14.5 million small- and medium-sized businesses in this country, only about 600,000 are owned by minorities. This simply means that while recognized minority groups—blacks, Hispanics, Asian-Pacificans, Eskimos, Aleuts, and American Indians—make up about 25 percent of our population, they own less than 5 percent of the businesses.

Of those 600,000 minority-owned businesses, over 90 percent are small, sole proprietorships. Two out of every three of them are in the retail trade and service industries, and the vast majority of these businesses have no paid employees. With minority unemployment continuing at unbearable rates, clearly promoting the growth and expansion of minority businesses is one of the key resolutions to this problem.

Mr. President, the statistics cited above are true testimony that minority-owned businesses are a major factor in increasing employment, providing new technological innovations to the marketplace, and ensuring a broader and healthier economy for all our citizens. But again, I urge us all in the spirit of the theme of this year's MED Week Conference, "Together We are Building America's Future," to not lose sight of the tremendous amount of work that still must be done in attaining our goals of helping minority businesses help themselves by ensuring their participation in our Nation's rich economic opportunities.●

RAISING THE PLIGHT OF SOVIET JEWRY IN THE PRE-SUMMIT TALKS IN ICELAND

● Mr. MOYNIHAN. Mr. President, Americans of all faiths have demonstrated continued concern for the plight of Soviet Jewry. It is imperative that their predicament be placed on the agenda at this week's presummit talks in Iceland.

Yuli Edelshtein, Vladimir Slepak, Iosif Begun, Dr. Aleksandr Lerner, Ida Nudel, Vladimir Lifshitz, and Roald Zelichonok are but a few of the 20,000 Soviet Jews who have been formally denied exit visas to Israel. The reasons the Soviets give for refusal range from "access to state secrets" to "no relations in Israel" to "insufficient requirements for an exit visa." Many refuseniks have been waiting nearly 15 ardous years for their one wish—freedom.

And once a Soviet Jew's visa application is rejected, further harassment is the rule rather than the exception. Refuseniks often lose their jobs; are threatened with arrest for "parasitism"; are expelled from university; and suffer vilification and social ostracism. Because the teaching of Hebrew is forbidden in the Soviet Union, those caught teaching it are arrested on trumped-up charges and sentenced to prison and labor camps.

Every recent American President has supported the right of Soviet Jews to religious freedom and emigration. We must urge President Reagan to remember those people during his meeting with General Secretary Gorbachev. If the Soviet Government cannot grant their citizens freedom of religion, then, as Senator Hubert H. Humphrey said with his characteristic elegance and eloquence,

> Let them live as Jews or let them leave as Jews—it is as simple as that.

The Congress has consistently stood in solidarity with the Jews of the Soviet Union. In keeping with this tradition, we must continue our efforts in pursuit of universal human liberty. Over 70 years ago a rally was held on behalf of the then-beleaguered Jews of Czarist Russia. The last speaker was the Governor of New Jersey, Woodrow Wilson, who spoke for all of us here today when he said,

> This is not Jewry's cause alone, it is America's. It is the cause of all who love justice.

I am accordingly pleased to present to the Senate a copy of a petition signed by 500 students at Yeshiva College and Stern College in New York City. These students are asking Mr. Reagan to raise the plight of three brave Soviet Jews: Dr. Joseph Begun, Nadezhda Fradkova, and Elena Keiss-Kuna during this week's talks with General Secretary Gorbachev. I ask that their statement be entered into the RECORD.

The statement follows:

PETITION PRESENTED TO SENATOR MOYNIHAN BY STUDENTS AT YESHIVA UNIVERSITY AND STERN COLLEGE

The Iceland Reagan-Gorbachev summit is rapidly approaching. It is a critical moment to raise the issue of human rights in the USSR.

Please tell Mr. Reagan: Be firm and strong on human rights in your discussions with Mr. Gorbachev. Urge the release of Prisoners of Conscience and refuseniks to show the Kremlin's willingness to abide by minimal international standards of behavior. Among these people are:

Dr. Joseph Begun of Moscow is an engineer and courageous unofficial Jewish educator. After two exiles to Siberia for teaching Hebrew, he was sentenced in 1983 to 12 years in the Gulag. His health is deteriorating in the notorious Chistopol Prison.

Nadezhda Fradkova of Leningrad is a linguist and mathematician who passionately desires to go to Israel. Each time she hunger strikes to draw attention to her plight, the KGB throws her into a mental hospital. In 1984, she was taken from the mental hospital and sentenced to two years in a Labor camp. In August of 1986, when her term was completed, she was barred from returning to her Leningrad home.

Elena Keiss-Kuna is a Leningrad refusenik, barred since 1974 from exiting to reunite with her sister Anna Rosnovsky, a member of the Israel Philharmonic Orchestra. Several years ago, as retaliation for her sending Anna's violin to Israel, their mother was thrown into a Siberian mental hospital for four years. Elena's son Andrei will be 18 next year and subject to a punitive Red Army draft which could delay the family's emigration for many years to come.●

A DIARY OF 21 DAYS WITH REFUGEES FROM NICARAGUA

● Mr. BOSCHWITZ. Mr. President, Nana Gill, a fellow Minnesotan and her family traveled to Central America, at their own expense, to see first hand the current situation in that troubled region of the world. On their trip, they spent 21 days with refugees from Nicaragua now living inside and outside UN camps in Honduras. Their story is both gripping and insightful. For this reason, Mr. President, I ask that the Gills' Letter to the Editor in the Minneapolis Star and Tribune, and the diary of their trip to Central America be printed in the CONGRESSIONAL RECORD.

The material follows:

AUGUST 1, 1986.

MINNEAPOLIS STAR AND TRIBUNE,
324 Portland Avenue
Minneapolis, MN.

To the EDITOR:

It is incredible to read the remarks of a Roman Catholic cleric whose Pope was publically insulted during his 1983 visit in Nicaragua and whose fellow priests are being evicted or forced to flee from that land. The letter from Maryknoll missionary (Tribune—7/23) Fr. D. Newpower, in my opinion, is both inaccurate and intemperate. He poses, most glaringly, an unfair and exceedingly vicious rhetorical attack with his statement ". . . I can't believe people in the (Twin Cities) area endorse atrocities." I both resent and reject this statement for what it is—a cheap shot!

As to the alleged atrocities committed by the UNO (Nicaraguan Opposition Unity party—formerly called "Contra") which is made up of several political factions which originally helped to overthrow Somoza and is now involved in the ongoing Nicaraguan Civil War, even if Fr. Newpower would care to document examples, these could never outnumber what the Sandinistas are recording in the minds and hearts of countless citizens of Nicaraguans who are fleeing their beloved country.

I am aware of about 3,000 first hand accounts of crimes committed by the Sandinistas. Many of these letters have already been sent to the Organization of American States in Washington, D.C. with further tragic results—foolishly, copies of these letters were sent on to the Sandinistas with names and addresses causing the possibilities of additional disastrous results. According to the Nicaraguan Commission of Jurists, 8,000 Sandinista political executions had taken place in Nicaragua within the six year period before October of 1985. There are possibly 300,000 Nicaraguan refugees in Honduras (one of the poorest countries in the Western Hemisphere). According to reliable sources (a United Nations official and the U.S. Embassy in Tegucigalpa, Honduras), for every refugee found in the poorly run, disease ridden United Nations refugee camps (I, myself, have visited two of these), there may be ten more foraging in the countryside. There are approximately 200,000 refugees in Costa Rica. Others are found in Guatemala, Mexico, Belize, and the United States.

It appears as if the Sandinista Communist masters have reached a point of no return in the savagery which they have perpetrated. The Roman Catholic priest, Father Alexander Ratiu who was jailed in Romania for 16 years, said "Communist governments cannot last without making use of constant surveillance, terror, and violence. Fear and repression are the rule in all Communist states."

In addition, the Sandinistas refuse to negotiate with its political opposition. The UNO has in the past expressed willingness to start talks to achieve a freely elected government founded on democratic principles. Instead of responding to this offer to seek reconciliation. and peace, the present Nicaraguan leadership has chosen to precipitate a civil war forcing the UNO to fight for the freedom of their land against an army massively supplied with advisors and war materials by the Soviet Union and its Cuban surrogate.

Fr. Newpower also claims that the United States is deliberately sabotaging the Contadora plan for Central America. On May 9, 1986, Vice President George Bush, representing our government at the inauguration of President Arias in Costa Rica, stated that he (Bush) was hopeful that the Contadora process would put Central America on the road to peace. Our Vice President also complimented President Arias for his initiative in seeking adoption of the Contadora plan.

Later in that some month of May at a meeting held in Esquipalus, Guatemala, attended by democratically elected Presidents of Central American states (Arias, Costa Rica; Duarte, El Salvador; Cerezo, Guatemala; and Azcona, Honduras) and President Ortega of Marxist-Leninist Nicaragua, the Contadora proposal was throughly discussed. The proceedings, well reported in all major newspapers of the world, stated that the Contadora plan which was to have been signed on June 6, 1986 was defeated by one dissenter—Ortega of Nicaragua.

Sincerely,

NANA A.J. GILL,
A Nurse and Housewife.

A DIARY OF 21 DAYS WITH REFUGEES FROM NICARAGUA

(By John and Nana Gill)

CRIES IN THE NIGHT

Hear their cries!
Oh, can't you hear their cries?
I heard a cry . . . despair of souls
in the still night air echoed through the hills
from the mountains to the sea
begging to be answered by you by me—
a cry of sorrowing and suffering.
The earth seemed to shudder as if . . .
as if in answering . . . .
The cry of souls—seeking . . . searching for meaning to life reason for living.
"Did anyone see our tears . . . hear our cries
The world have deaf ears . . . why we've been passed by?"
Their cries!

PROLOGUE

We, John and Nana Gill, because of sensitivities developed by our experiences and envolvement in aiding refugees from Southeast Asia, were suspicious of news bureau reporting within the United States.

Accordingly, for two years we worked at planning a trip into Central America to observe for ourselves what was actually happening.

On January 4, 1986 we completed preparations for this trip, loaded our van with necessary supplies, and with our whole family—Ronnie (13), Tommy (6), Laura (4), and John (3)—began a two month journey into Mexico, Guatemala, and Honduras.

Our main objective was to reach the Honduran-Nicaraguan border in order to visit with refugees we had heard about. Our desire was to help them if we could. (We knew that our resources were very limited as per the average American family—we had to make a bank loan of two thousand dollars—but we felt someone should do some investigation. We also knew and felt that God was with us in this matter.)

From the refugees we would also be able to assess important insights as to the real intentions of the political leaders of Nicaragua who in our news media were often portrayed as necessary for the region.

WHAT CAN YOU DO TO HELP THESE REFUGEES?

(1) Pray about it!

(2) Copy the pertinent information from this pamphlet and give it to ten other people.

(3) Sponsor a family inside a United Nations refugee camp.

(4) Write your state's congessional Senators and Representatives concerning the plight of these refugees.

(5) Write letters to the editors of local newspapers with information about these refugees. Even allow them to copy stories the refugees themselves have written.

(6) Locate companies who are able to to donate food, clothing, and medicine for these helpless human beings.

(7) Pray about it!

(8) Seek persons who would actually travel to Honduras to assist in the distribution of food, clothing, and medicine when they reach their destination.

(9) Send what you feel led by the Spirit of God to do!

(10) Contact local radio and T.V. stations and ask them to broadcast the real story concerning the refugee situation.

(11) Continue to pray for these people and their needs.

Sunday, January 26, 1986

Entering Honduras about 8:30 A.M., we stopped briefly at the ruins of Copan where we met a well traveled person from Australia. As he was going to Nicaragua, we offered him a ride to Tegucigalpa, the capitol of Honduras. At a gas station restroom stop along the road, we acquired an additional passenger, a young woman with a child, who needed a ride to a certain destination. As she left us she expressed her appreciation with "May God bless you and your family in all that you do."

Weary sojourners that we were upon our arrival in Tegucigalpa, we found that all hotels were fully booked as the new president of Honduras was to be inaugurated on the following day. We parked near the pumps of a closed gas station and all, including John Parkinson, slept in the van.

Monday—January 27

After a hearty breakfast of pancakes and ham and the ritual of rolling up the mattress and sleeping bags, we wished John Parkinson "God Speed" and continued south to Danli (pronounced "Don-lee") near the Honduran-Nicaraguan border.

On the way, it was now our turn to witness "slum conditions"—poorer here than anywhere else in Central America. From our point of view, these conditions were as a result of either the poor degree of effort spent on their behalf or the effects of a truly severe environment. We could name many reasons for the very unpleasant sight—no productive enterprise, no developed resources, high interest rates, very expensive electrical power (government owned), hot climate, and a seemingly short rain supply. All contributed to the poor standard of living.

Shortly before reaching Danli, we noticed a shack village in a valley—most likely, a United Nations refugee camp.

The hotel room in Danli, comfortable with pleasant appointments and costing $10 per day in U.S. currency, had only one drawback—no hot water. The showers were invigorating.

Tuesday—January 28

Driving back to the U.N. camp which was seen along the roadway, yesterday, we talked to an English speaking Spanish medical doctor, Fernando Seville. Representing a French organization, Doctors without Borders, he had been serving this and one more camp in the area. Concerning the question of refugee medical problems, he stated that the "abuse" of medicine by the refugees was one of the biggest problems—"They want attention all the time and come for medicine for belly aches or sore throats". He added, "When I get a sore throat, I don't take medicine unless it is really bad." We wondered how he could determine when things were bad, if he denied a patient's complaint of a sore throat. He went on to say that the main health problem was diarrhea caused by a polluted water supply in crowded, unsanitary living conditions.

In the midst of this worthwhile visit, a man stepped forward and, after he told us that we needed permission from the Red Cross to visit a U.N. camp, gently ordered us to leave.

In Danli the Red Cross office which was used for clerical and not medical purposes and employing in such a way that it probably possessed the best jobs within the community, refused us the needed permission and advised us to go to the U.N. in Tegucigalpa.

We discovered that there was a clinic that would have been useful for refugees in Danli. It was financed by a philanthropic American organization called Friends of the America's. As it was a free clinic, a few refugees did come to it, but it served mainly poor Hondurans. However, as Doctor Seville was the legally designated doctor for the refugees, he was in the responsible position of directing them, apparently, to a location he so desired. The Friends of the America's happened to be low on medical supplies, but the Red Cross would not share any of theirs. Doctor Seville even made light of the fact that he had medicine that might never be used.

The next logical step was for us to visit the Friends of the America's Clinic in Danli. We appraised it as being very respectable and were given the Tegucigalpa telephone number of Carmen Winkler, the manager for Friends of the America's in Honduras.

Wednesday—January 29

The objectives for us to accomplish in the Honduran capitol of Tegucigalpa, today, were fourfold:

(1) Contacting our United States diplomatic representatives concerning its advice as to how we could begin the process for getting permits to visit the refugee camps.

(2) Finding the U.N. building and talking with someone who was in charge of the U.N. camps.

(3) Talking to Carmen Winkler about an air flight to the Mosquitia.

(4) Going to the Hotel Maya and exchange our U.S. currency into Lempiras, the official currency of Honduras.

At the U.S. Consulate the treatment afforded us by its personnel was predictably not pleasant. Told that we could not get permission to enter the U.N. camps, we responded that after having traveled over 5000 miles in eighteen days and our U.S. Senator Boschwitz expecting from us a report on the pronounced needs of the refugees, we refused to take "no" for an answer.

After our embassy called and explained our situation to the U.N., it instructed us to go and discuss our request at their Tegucigalpa U.N. office.

At the U.N. building we were met at the top of a flight of stairs by a locked gate and two guards. When we presented our passports and referred to the recent telephone call to the U.N. High Commissioner's office, we were informed that his assistant was out but that her secretary would help us. Nevertheless, after first waiting on a hall couch for two hours, we were allowed by a receptionist to enter the office where the secretary was working. She, however, proceeded to make and receive phone calls and fill out forms for some time period before addressing us as to why we were there and how she could help us. Even while questioning us, she continued doing other things in such a manner that we were made to feel we were a bother. She did give us a form to fill out.

With an additional waiting time of one hour, the Director returned and quickly approved our entry permit.

Although, Carmen Winkler was not in her office, an appointment was made for us to see her on Friday in regard to our desire to visit Miskito Indian refugees in the most eastern region of Honduras called The Mosquitia. This arrangement was fine for us as our two refugee camp visits (Jacaleapa and Teupasenti) were set for Thursday and Saturday.

Reaching Danli late, hungry, and tired, the family warmed up some beef noodles on the sterno burner and ended a very productive day with study of scripture and family prayers.

Thursday—January 30

This was a very special day, involving the purpose of our travel to Honduras, the day of our first official camp visit. However, a threatening thing did weigh upon our minds as we ate our breakfast and, later, our lunch in the room. Most of us were very cognizant of diarrhea and cramp symptoms. When the doctor from Friends of the America's gave us some medication, the cramps stopped immediately but not the diarrhea.

At 3:30 P.M. two of the doctors from Friends of the America's came to our hotel. From there, all went out to the United Nations Nicaraguan Refugee Camp at Jacaleapa, Honduras.

Reaching the camp at 4:30 P.M., we were coldly received by the Honduran camp officials. With the help of the two doctors who came with us, the following information was accumulated:

(1) 2800 people in 257 cabins

(2) Water is shallow and well contaminated

(3) 10-14 persons to each cabin approximately 14x16 feet—not necessarily for only one family

(4) Wood needed for cooking not supplied—refugees get special permit to leave the camp to gather wood

(5) All mail to the camp—searched and scrutinized

(6) No schooling for children within last six months and the U.N. has allocated no funds to offer schooling in 1986

(7) No electricity or means for light once it is dark (The young doctor interpreting for us said something in Spanish and all laughed. We insisted that this be interpreted. He had said, "With no lighting they go to bed early so there are many babies." John said, "That may seem funny but with the U.N. concern over population control, this may be the one single most important fact of the report to our Senator in coercing better circumstances." A young man retorted that sometimes some people bring out films on birthcontrol.)

(8) Most needed items are: Shoes, toothbrushes, toothpaste, soap (personal and laundry), clothing (only one set a year from Catholic Charities), and books and materials so that, even though they are forbidden to be employed in Honduras, the refugees could keep their minds busy. (The refugees, themselves, advised us not to send donations through the U.N., Red Cross, or Catholic Charities, as they would not receive what would have been sent. Furthermore, it was the U.N.'s policy to keep these people at the mere survival level with no relying upon outside help for their needs.)

(9) Although, the U.N. has strict codes for policing up the appearance and the outward cleanlines of the camp, sanitary facilities were totally non-existent. Refugees kept the place clean by picking up fecal material by hand and sweeping the entire area daily with grass brooms which they had made. This is strictly enforced. The U.N. policy is "Don't work, don't eat."

(10) Initially, there were provided for the camp two toilets with seven holes each with no walls, only small roofs on posts, and were located in the middle of the camp's play area. When the toilet holes because full, they were cemented shut and no new ones were built. The refugees were obliged to use two new toilets, seven feet deep, three feet wide, and from ten to twelve feet long—open trenches with no cover anywhere.

Sorrowfully, we saw cataracts untreated in young men, a great deal of skin disease and infections, signs of parasites, malnutrition in children, blank staring fatigue in women, and an aching for something to do in the men. Such human waste we have never seen!

While we were there, the refugees organized a committee, and a representative came forward to talk to us. He stated:

(1) When one brings assistance to the camp, bring it directly and hand it out.

(2) Do not leave your address with them (the camp officials), as they will not give it to the refugees.

(3) We have an organization and will distribute equitably. They will not. (Example: Once a group brought a truckload of 3000 pairs of shoes. The official employees of the camp threw them into the air causing the refugees to run and grab. Then the employees exclaimed, "See, they act like animals.")

At this juncture during our meeting, one man said that we could trust William Stewart in Danli with the "Living Christ Ministries". Others really got sober when out of love, they informed us of a camp that was worse off than theirs. They begged us to go there and help them if we could.

We were touched by this charity (pure love of Christ) in the hearts of these who had, literally, nothing. Ignorant people and all that may go with it, they were not. We could see that many were well educated as they crowded about us urgently attempting to read our notes, and to say this and that to us. They wanted to write us, asked that a school be set up for their children, requested a church for all denominations be made available for all to use, urged that we speak about them to our President, and more.

As we walked with heavy hearts to the car, we prayed, "Lord, what can we do for them?" Suddenly, somewhat inspired, we thought to print our address on paper for each family and along with writing material bring it to the camp.

We then left and returned to Danli. What a day!

Friday—January 31

The drive to Tegucigalpa takes two and one half hours. Today, we went there to talk with Carmen Winkler about a plane trip to The Mosquitia. Carmen told about the possibility of a flight the following week, but we would have to return on Monday to find out.

Nick, a young man from Honduras and one of the doctors working at Danli for Friends of the America's who had come along with us, was told by Carmen that he was fired. The reason given was that he had refused to work in the clinic at the Honduran border town of Los Trojes where some of the heaviest fighting between the Sandanistas and the Contras occurs and can be very dangerous. Only this morning, we heard Honduran government newscasts reporting that the Nicaraguan government had planned a strike against the Contras. Authorities were advising all villages along the border area to be evacuated.

At the Tegucigalpa Friends of the America's office, we met a couple from California who were planning to do missionary work in The Mosquitia.

With a rather early return to Danli and John deciding to lay down because of not feeling well, Nana decided that she and the children would go out for a tour of the town. They came upon some "gringo" (North American white) children who belonged to the Bill Stewarts, Directors of The Living Christ Ministries. What a break! Maybe they could help us find an interpreter for our visit to the other U.N. refugee camp. Tomorrow, we would be visiting Mr. and Mrs. Stewart.

Saturday—February 1

From their mission house for the Living Christ Ministries, Bill and Sherry Stewart had been working for the last two years helping not only poor Hondurans but also Nicaraguan refugees in Danli and in the mountains. What a blessing that God led us to them!

Nondenominational and not in Honduras to proselytize but to coordinate efforts of various Christian projects involving humanitarian aid and medical assistance, Bill and Sherry became convinced, as we, that the oppressed Nicaraguan refugees outside of the U.N. refugee camps could not count on the U.N. nor the Red Cross—physically nor ideologically—to help them. These organizations could not nor would not help these people in the face of expected Sandinista advances into Honduras—already under way at this time.

Our most immediate concerns were:

(1) We had the permit to visit the second refugee camp in the area, but we were told that our vehicle could not negotiate the road to that out-of-the-way place.

(2) The young men who had interpreted for us, previously, were not now available.

These worries dissolved with the appearance of the Stewarts. They took care of our children, fed and prayed with us, and tended to other helpful and positive steps in aiding us. What hospitality!

Today, Bill who had good contacts among the small villages and military outposts along with his Honduran interpreter, Andrew, transported us out to the camp we wanted to go to but over the almost impassable mountain roads. The trip seemed hours and hours long.

As we stood in the middle of a mud-forsaken two acre place enclosing over 2500 individuals, holding hands with the refugees, and praying, our spirits were moved with compassion and grief. How can we now express the feelings that overcame us. One man said, "We prayed and prayed and wondered if our Brothers and Sisters in Christ in the States even knew or cared about us. Now, you and your family came."

This U.N. camp was so isolated that only a few of the sacrificing and serious minded Christian workers in this area of Honduras had been to it.

In their prayers many thanked God and asked Him to continue to take care of them. Another thanked God for inspiring us to come into their midst. Then he added, "God, you know we are here with our mouths open for anything you drop in. We can do nothing for ourselves except trust in you."

A few facts concerning this Teupasenti Camp:

(1) Most of the interned looked very lean and many were sick.

(2) They lived in 14 x 16 feet board huts each holding 12 to 18 people.

(3) No water supply except the river. (There was a row of open-pit outhouses 50 feet above it.)

(4) Dr. Seville visited three days within alternative weeks, but the refugees said he neither brings nor gives out medicine. (Yet, this doctor is responsible for 6,000 refugees under terrible conditions in two camps, we visited thus far and has to travel two to three hours to go from one camp to the other. That he attempts such feats is either extra heroic or very tragic.)

(5) Needs in the order of their importance:

a. Medical attention.

b. Cooking utensils—"We left with nothing or traded what we did bring in order to survive."

c. Clothing, soap, shoes, educational material for the children, and good water.

The sick children, the skin diseases and rashes, and sad eyed women were transcended by the greater wonder and love that they showed to us. Their testimonies, literally, crushed our hearts with sorrow and then comforted with healing joy. The load of feelings we carried, tempered with the thoughts of a seeming impossible task of trying to aid them, made us feel very sober. Nevertheless, we left our name and addresses with one of the pastors who served them from the nearby town and asked the refugees to write letters to us. We also left money with the same pastor to purchase and deliver stationery and pens to the refugees.

With a great sense of the reality and presence of God, we began the rough ride back to Danli in the Stewarts "beat up" Blazer that sounded as if its muffler system was angry over being given such a terrible job of transversing the so-called road. A flat tire was sustained on one of its all terrain tires. We changed it and made it home after dark in almost one piece. Another opportunity to say, "What a day!"

Sunday—February 22

The Sunday worship conjoining our family with that of the Stewarts together with their interpreter, Andrew Swan, and his girlfriend, Miriam, was held in the Stewart home. During the study time a portion in the New Testament book of Thessalonians was studied including discussion of recently finished topics such as works and grace from James' statements and how all of this is effective only in and through the blood of Christ. An emphasis was made that we who believe are responsible for how we serve.

The Stewarts served lunch. Afterwards, Bill had to leave as he had some small villages to visit along the Nicaraguan border. A team of doctors from the United States were coming who had ability to operate on children with cleft palates, Bill, personally, knew of three and he, now, wanted to do some preliminary visiting. He asked us to ride along with him and Andrew. We decided to go. The children, for sure, would not be able to go along because of possible danger associated with this trip. We would be actually driving to the Honduras-Nicaraguan border where there would be investigations as to possible clinic site locations.

A real danger showed itself in that the Sandanistas had been shelling Honduran terrority in order to force poor Honduran local people from harvesting their coffee crop. Several families in the vicinity of where we were going had been shot at by the Sandinistas in an attempt to force their children into Nicaraguan military service.

The Honduran people, here, in the simplest, smallest local villages have personal ownership of land and homes. They run their own schools which are supported by the government. What a privilege to observe how these independent people live, what their homes are like, the individuality in the local color of how they conduct themselves in their town squares, and see their medical buildings or assistance stations.

Honduran soldiers allowed us to go through several road blocks and back road security checks because they knew Bill and

his humanitarian aid. At one point Bill gave a soldier a number of New Testament scriptures and tracts for them to distribute. Johnny attempted to speak but simply broke down and prayed, "God bless you, God bless you." He knew that these poor souls in this poor country were not prepared to meet the might of the entire communist world and commended them to God who only could deliver from the danger that was so close at this time.

As it was later and because we were very tired when we returned to Danli, Mrs. Stewart suggested that we remain at their home for the night. We declined preferring to remain one more night at the hotel. We knew that the morning drive to Tegucigalpa was imperative and we did not want anything else to come into our way. We had to go to the U.S. Embassy and speak with Mr. Joe McLean, the officer in charge of refugee problems. It was also necessary for us to visit with Luis Druke, the U.N. Assistant Director of Refugees for Honduras, to secure permits for returning to the two camps already visited.

Monday—February 3

This day did not turn out to be as productive as we had wished, but we did have a good interview with Mr. McClean. In brief, this was what was said:

Yes—He knew the water system no longer worked at Camp Teupasenti. It had been inoperative for a long while.

Yes—He knew their water was polluted. It was the reason for poor health problems in both camps.

No—They were not without medical attention but want medicine for every little sickness.

Yes—Their situation was sad.

No—"We do not mind if Christian groups help out. . . . But permission has to be gotten from the U.N. . . . The previous director (Linda Lamb—her name will be mentioned later) would have minded, but I don't know about this new one."

Yes—Any future for them in Nicaragua at the present is impossible. Their return would not be in keeping with respect for human life. When we asked, "Would they be killed?", he answered, "Most likely."

Yes—There are many more refugees outside of camps in the mountains with no help. There are many more outside than inside. He said that a low estimate would be ". . . for every one in a camp, there would be ten outside". His conservative estimate along with anyone else we talked with set the total refugee numbers in Honduras at in excess of 150,000. All of these fleeing refugees would have had to run the risk of capture and execution or land mines on the border before getting out. (One man had said that when the numbers of the thousands of Contra throughout Nicaragua were added up plus the refugees in Costa Rica and Honduras, there would be very few of the poorer folk left. He added, "The wealthy got out to Miami and Europe long before." A refugee who had recently escaped said, "It's all Cubans, Bulgarians, or Russians. Everywhere you go, there are foreigners. They are the new Nicaraguans!") When we asked, unofficially, what Mr. McLean thought would be the best fate for the refugees, he qualified his statement and then spoke frankly in favor of Nicaraguan refugees immigrating to the United States.

At the U.N. building an appointment was set for the following day before returning to Danli.

Tuesday—2/4

Leaving reasonably early for Tegucigalpa, we were pleased to drop off stationery and pens at the Jacaleapa Camp.

At the Friends of the America's office, Carmen was not in so we could not get any information on the possible flight to The Mosquitia.

At the U.N. building there was hope on our part to establish some committment that religious groups would be able to enter United Nations camps in order to aid the refugees. Ms. Luis Druke while quite friendly but not giving the committment we wanted, off the cuff said that she wished we ". . . could just take them all to the states".

Wednesday—2/5

An early telephone call to the Friends of the America's and a talk with Carmen still got us no information concerning the flight to The Mosquitia.

Johnny and Andrew went to the Welding Shop to install carrier brackets for the top of our van. We were preparing it for the rough-ride, return visit to the Teupasenti Refugee Camp—this time with out children.

The person who did the welding was thirteen years old and just a little larger in size than our six year old son, Tommy. How efficient he was. He welded the heavy iron straps to the light tin of the carrier, perfectly using an old arc welder—even without a good ground clamp.

While the welding was being done, a young refugee boy selling bananas came by. Of those within his family, he and his father were the only ones who made it out of Nicaragua. This wiry, thin, and barefoot boy, everyday traveled miles with a wheelbarrow he had made out of scraps of wood. He would go into the mountains and pick little bananas and other wild fruit to sell in town. He did this to feed himself and his father—supplementing what his father made.

Another refugee told of escaping Nicaragua by running for fear of his life with a group of one thousand or more people for his town. Johnny invited him to come to the mission and do a taped interview of his experiences. He came to the Stewarts mission house for the taping at 5:00 P.M.

Thursday—2/6

We were determined, this time, to take our children along to be with us at the Teupasenti Refugee Camp. So, waking early, we drove to the Friends of the America's free clinic in Danli in order to pick up Dolly, a person who was writing a story on behalf of its philanthropic "Shoe Box for Liberty" program.

At the clinic we met Mike Bagby, one of the Directors of the American Christian "Salt and Light" group working with the Miskito Indian refugees in The Mosquitia. Medicine and medical supplies along with food and clothing were distributed by them to the Indians.

In the town of Teupasenti and next to the U.N. camp with the same name, we were informed that Mario, the pastor of the local Nicaraguan Evangelical Church in Exile, had been thrown into the town's jail for helping to collect letters for us. Previous to this he had had a meeting with the Red Cross, Caritas (Roman Catholic Charities), Acnur (N.N. Refugee Organization), and the Honduran Immigration Service concerning his refusal to hand over to either caritas or the Red Cross all the medicine and food he had stored in his church. These supplies had been contributed by Christians for aid to Nicaraguan refugees in and around Teupasenti (not in the U.N. camp). We also found out that the Red Cross had censored a teacher who had helped refugees within the camp to write letters to us. Because of a fear of reprisals that might be taken against them, many refugees burned their letters.

When we asked if we could visit Mario in jail, the local Fusep (National Police) officials would not committ themselves but said we would have to wait until the local "Jefe" (Police Chief) returned from his afternoon swim.

During a three hour wait, Johnny played tops in the street with little boys of the town while Nana showed the local Fusep officials a family photo album.

When the "Jefe" returned and when we entered his office, he continued reading a newspaper. When we were announced by his deputy, he looked up and acknowledged us. Firstly, we presented our permission to visit the U.N. camp along with our taking of photographs and gathering information about camp conditions. Secondly, we asked him about Mario. What had he done that caused authorities to throw him in jail? The "Jefe" would not stipulate what the charge was but that he was just being investigated. When we requested that we be allowed to see and visit with Mario, the Police Chief had his deputy bring him out.

Our time with Mario was concluded with a prayer as we joined hands. We prayed for Mario's well being and for the safety of his wife and three small children. (By denying his wife's assistance for her husband, this local Police Chief had forced Mario to sleep inside the walled backyard of the Police Station on the ground without food, warm clothing, pillow and blanket, nor, even, his bible.)

Then we went to visit the refugee camp.

As this was our second visit, the refugees recognized and greeted us eagerly. But as in the United States, also in Honduras, the citizenry had their local "Boss Hog" who happened to "appreciate" his authority in being the gate keeper. He would not allow us into the camp. Fortunately, the refugees could not be restrained and they flooded through the fences and gate in order to come out to be with us.

In the situation we happened to be in, our children were superb. Can one imagine how repelled a child might normally react with over 2000 scared and sickly people pressing around him and our van in a small roadway. Well, our children mixed well and began to play chase games with the little refugee children.

Lifting children over the fence, touching one another with love, and praying for the sick among them, our hearts were drawn out with compassion and love. Some slipped letters into Andrew's pocket and hand underlying the authenticity of what was taking place.

In the dark on our way back to Danli, our spirits were heavy as we sensed the awesome needs of these poor people. We were also filled at the same time with joy because of the bond of the love of Christ that firmly existed between us. What a shared and experienced reality in the Brotherhood of the divine Jesus Christ.

Friday—2/7

To eat our big breakfast this morning took awhile, not only because of the amount of food but more so because of our sharing and reliving the previous day's experiences.

In a visit to a nearby village of El Paraiso, we met a Nicaraguan refugee and his family who operated a "safe house" for escaping

refugees. The wife and children of one of his sons had been separated from him in Nicaragua during their escape into Honduras and were apprehended by Honduran immigration authorities and placed into a refugee camp. Because his son was forced to sneak into the refugee camp to be with his family, he eventually found out that a U.N. official (Linda Lamb) had been paying refugees to go back into Nicaragua. This U.N. "gringo" woman was receiving 200 to 500 Lempiras for each refugee she could get to go back. After being loaded on a truck and driven to the border at midnight, the 100 Lempiras that had been given to the refugees were taken away from them by the Sandanistas. These unfortunates were either thrown into prison or were never heard from again. There was direct dealing between the U.N. and the Sandanistas on this matter.

Returning to Danli, Johnny went to pick up the family van at a garage. The cost of a complete brake job—done on all four wheels—was 75 Lempiras ($30).

We left the children behind in Danli with the Stewarts and took Dolly to Tegucigalpa so she would be able to catch a plane ride the following morning to The Mosquitia. As it was too late to return to Danli, we decided to spend the night sleeping on the Friends of the America' a office couch and hoped that there might be space for us on the morning's flight to The Mosquitia—the same flight Polly was getting on.

Saturday—2/8

Woke up stiff, sore, and very hungry. We washed ourselves still not knowing if we were going to be able to fly today. Carmen came by about 6:50 A.M. and said, "Let's go!"

At the airport we were shown the aircraft, a DC 3 cargo plane—1938 vintage. The pilots came but no one was there to load the dried food which had been contributed by the Shaklee Company of California. Carmen said she would have to go and wake up the men she had hired to do the transferring of the cargo.

After an hour's time she returned with the men. With our help in the loading, the plane was able to leave in two hours with us onboard.

By this time and because of all of the work involved, we found ourselves to be hungry and thirsty—we had left our canteens behind in Carmen's car. We also learned that all water in The Mosquitia was polluted.

The flying time was one hour and thirty-eight minutes.

Two chairs were set near the back door for our comfort. As we sat, however, other thoughts went through our minds. Filled to the ceiling with cargo, the plane's door leaking water as we flew through clouds, and Johnny's noticing that some engine gasket or other was leaking oil, we climbed up, over, and through some of the tallest mountains in Central America to a coastal plain stripped of jungle foliage but covered with pines and tall grass. This latter flora was the creation of the wealthy hunters who had burned the jungle in order to facilitate the hunting of deer in this formerly unpopulated area.

The landing was completed on a hidden airstrip among the tall pines and grass.

After the men unloaded the cargo into a waiting gravel truck, all of us got to what turned out to be our "battle stations". Dolly and Nana rode inside the cab while the men with Johnny "clung" to the top of the dried food boxes as the truck driver executed what could be called "battle field maneuvers" keeping the speed of the truck at about 45 miles per hour over a terribly bumpy and muddy trail called a road. The Miskito workers did not seem to mind the ride. They sang, joked, and talked in three languages (Spanish, English, and Miskito) while challenging their physical skill in remaining in an upright position.

When we arrived at a large flowing river called the Rus Rus, we could see whole crews grading the road with picks and shovels, pile driving for bridge construction, loading of gravel, bathing, swimming, and ferrying vehicles across. In the distance singing could even be heard as the men worked.

Rus Rus was a spread out community in a jungle environment—not like the camps near Danli. But still these people in this area were also refugees from the Lenin-Marxist Sandinista domination of Nicaragua. Their needs were great, but these refugees seemed much better off as far a mental well being was concerned. Though they had suffered tremendously at the hands of the Sandanista government and lost all they owned, there was not the haunted blank stares in the eyes of the women that one experienced in the U.N. camps.

The houses here were thatched, built on stilts with split bamboo paneling for side walls with three rooms made by screens that rested upon broad board flooring. A mud-plastered stove and a table were the major appointments.

Near their houses could be found bananas, coconuts, papaya, plantan, yucca, and even deer.

The Friends of the America's clinic served the Miskito Indians with two doctors and two to three full time nurses.

We spent much of our time visiting with the refugees and with one of the doctors and one of the nurses. We also ate at a native restaurant (in a refugee's home).

The Miskito Indians live on a broad area on the Caribbean side of Nicaragua and Honduras. They are Christian with 35% to 40% belonging to the Moravian Church, 30% to the Roman Catholic Church, and the remainder to various Protestant groups.

The DC 3 returned on schedule. While it was on the ground, Johnny decided to examine why the large disk brakes were smoking so much upon landing. He noticed that the inside of the engine cowling was covered with oil that had been draining from the engine . . . hmm.

As we took off Johnny experienced a headache but decided to make the best of the experience he was going through by moving to the other side of the aircraft to get a better view of the moving scenery outside. As he moved to a better position, one of the helpers in the DC 3 asked him if he would like to see out of the front windshield.

When Johnny moved up, the pilots even allowed him to fly the plan. What a great thrill it was for all of us. (It so happened that on the very next return flight from The Mosquitia, these pilots had trouble getting back due to engine problems caused by the leaking oil.)

Because of the late return to Tegucigalpa, we spent the night at the Friends of the America's headquarters.

Sunday—2/9

Driving back to Danli, we stopped at the Zamarrono Valley where the Honduran government runs an agriculture school. We were more than pleased to be able to purchase fresh vegetables, meat, and cheese for the Stewarts as they had been sharing their food. This school had originally been financed by Rockefeller funding for developing nations.

Later we visited a hospital in which malnourished children are brought and sometimes abandoned. The hospital simply consisted of just one little room with small beds and cribs and one nurse to watch and care for about twenty little sick children.

The Stewarts and Nana fell in love with a little girl (Maria) about sixteen months old whose mother lives in Danli but never comes to take the child home.

Johnny's attention was drawn to a six year old girl, severely malnourished and in deep depression, whose mother lived in the mountains.

Truly, we were touched by these little ones so much in need of the love of man and the knowledge of God's love.

After an evening discussing the experiences we had had in Rus Rus and reading Scriptures with our children, we "bedded down" in our van for the night.

"If you feed not the body that stands in need, what benefit is there in saying 'Be ye filled'."

"Faith without works is dead."

Monday—2/10

The Stewarts operated a clinic at their house for people who could not afford medicine. Some mornings there might be 30 people waiting outside when their door was opened.

We visited with many refugee households that had been graciously accepted by the Hondurans. However, because of the great flux of refugees, the burden precipitated a need that was partially filled by the construction of U.N. refugee camps.

With Dolly we visited some homes that Bill realized would have children whose clothing sizes would fit the items in certain "Shoe Boxes" she had brought. At these homes the heart breaking stories they told were touching. The "peace of Communism" is indeed a lie!

Again, we get permission to visit Jacaleapa. Andrew helped us with this. Besides having a Christian friend in the Red Cross office making it easy in the getting of a permit for us, Andrew knew all the ropes, had friends, and a fantastic translator. Surely, God had prepared him for this work.

As it turned out, time did not permit us to drive to the Jacaleapa Camp. However, we did get many good testimonies through Polly's work.

We spent almost all night talking with Marisio, an intellectual refugee from Nicaragua who is married to a Honduran. What mind! What a grasp of the realities of the Nicaraguan dilemma—past, present, and future.

We could have discussed the situation with him all night, but his wife came for him. She was worried and it should be noted here that the Nicaraguan refugees say that the Sandinistas have direct ties with the Russian KGB. Refugees know of whole families that have been killed because of things said to the wrong person.

How citizens within the United States are fooled and kept from the real world close to its doorstep!

Besides renewing our visas, there had to be the renewing of the various types of permits needed to reenter the refugee camps, the picking up of the letters written by the refugees, and checking on Mario's jail sentence besides acquiring his personal testimo-

ny of deliverance from a sentence of death imposed by the misguided leaders in Nicaragua.

Because of family needs, necessity for writing some letters and notes, and government bureaucratic red tape, we did not reach Jacaleapa until after lunch.

Some refugees were very busy constructing a church building while others walked and talked with us. Johnny went down to see the camp's activity at the river. Nana took more pictures. A representative of the refugees handed us a bag full of letters.

Johnny noticed that the river, shallow and very polluted, was full of soap suds from the washing of clothes for a camp of 2,800 people. Few had pails or pans. Many possessed only the clothes on their backs and had to stand naked until these clothes dried. While a mother washed their clothes, the children would be naked until she finished, or, especially, the older children would wear the washed clothes as these dried.

Johnny met a 13 year old boy who spoke English. He actually wrote his story in Johnny's notebook. Because his dad was in prison, his mother and six other children escaped 20 months ago with no hope that his dad would be released. His dad's crime? It was observed that he was not content with the Sandanista government.

As we walked back to our van, we could not help but notice a man with his pants down. He wore a short shirt, no underwear, his genitals totally exposed, and has head bent sideways and slightly down. As we walked towards this man, the 13 year old boy volunteered, "He's crazy. They beat him so much in a Nicaraguan prison that he don't talk or nothing. He's crazy." Then the boy added, "My dad's in prison there, too."

The scene shocked Johnny more than the boy knew. The man, poor soul, for sure, not sexually maladjusted, had just been beaten so badly by the Sandinista Communists that he could not now neurologically control his body and would exhibit long periods of blankness. These symptoms would be with him, possibly, for the rest of his life.

It was impressed upon our hearts that America must be allowed to find out what was going on-this danger so close to our borders. How could our country continue as a nation with the Christian influence so great and not know these things exist. And knowing, how can we remain silent and allow such an utterly inhumane government to exist on the face of the earth?

Being late in the day for a trip to Teupasenti, we decided to go anyway! We traveled with our children, Andrew, and two of the Stewart children. What a road!

We arrived in one piece and presented our permit to visit the camp. Both the Fusep and Acnur officials had no recourse but to sign. But since we were not Hondurans, they requested that we go to the local immigration office. It was closed and had been all day.

We were pleased to find out that Mario was out of jail. Still under house arrest, he invited us into his home and we were privileged to receive our first opportunity to interview this kind, gentle man.

Later at the refugee camp, the people came out to visit us and exchanged hugs and kisses. More letters were slipped to us.

When time came for our departure, pitch darkness prevailed, and we had two and one half hours of driving ahead of us including the treacherous mountain road, a broken bridge, and tired children.

About one third of the way, we stopped and ate food from our van under the stars.

During our absence from Danli, some refugees had been inquiring for us and wanted to give us testimonies of cruelty and torture committed by the leaders in Nicaragua. We prayed that these people would return.

They did come back later and gave us the name of Dr. Carlos Icasa, their contact man in Tegucigalpa. We decided to locate him. We had one forboding question on our minds and this was on the minds of the refugees—"What was happening to the letters after they were sent to the Organization of American States in Washington, D.C.?"

Wednesday—2/12

Arduous as the day had been yesterday, we rested late into the morning. Johnny spent time writing in his diary.

We drove to Tegucigalpa to find and meet with Dr. Icasa. The meeting took place in a supermarket parking lot where there were many armed guards. Dr. Icasa and a young man whose name was Patrick were both armed, also.

We got into Dr. Icasa's vehicle and went to an open cafe not far from the supermarket. Our meeting lasted for a couple of hours. As Dr. Icasa said he would give us copies of Human Rights Abuses committed by the Sandinista government, we made arrangements to pick them up the following day before we left for the United States.

Thursday—2/13

Leaving Danli Bill and Sherry led the way as far as Yuscaran, a small town nestled among mountains. We could not but help to make a comparison with the land cultivated here among the tightly fitted mountains and that which we had seen in the northern mountains of Guatemala.

Yuscaran, a beautiful little colonial town seemingly untouched for decades with cobble stone streets and balconies hanging over garden courtyards—all hanging to the mountainside with steep little streets—is halfway up to the clouds.

The lunch was eaten with the compliments and company of Bill and Sherry.

Then, we continued on to Tegucigalpa and a motel room for the night.

Friday—2/14

With a late breakfast under our belts, we were met in the motel parking lot by Patrick who gave us three large envelopes filled with copies of Human Rights Abuses. He bid us farewell with "God bless you. We pray you will have a safe journey with these documents."

At 1:15 A.M. when we reached the familiar Copan ruins, it was a signal for us to stop and sleep.

Saturday—2/15

Despite the fact that, yes, there were some sick children, and, yes, our sleep had been "on and off again", we began driving toward the town of Copan at 7:15 A.M.

After being briefly lost in the town, we headed for the border on a "beautifully impossible" back country road through many mountain valleys and even some rivers.

Finally, the time came for us to cross into Guatemala, and eventually we reached home in Rosemount, Minnesota safe and sound.

What can one say? How can one express the love, the joy, the heartache, the sorrow, the wonderful blessings of God, and the tremendous burden of trust placed upon us by the Brothers and Sisters in Christ that we saw on our trip? So destitute and torn were they by the circumstances of an oppression that one day may even be ours. Nevertheless, our duty (and there should be no alternative) is this (and we can bear their load): ". . . visiting the prisoner and those who are bound down" or by ". . . helping the captive to go free" as Isaiah commands.

We wish God's love will make more tender the hearts of all who read this dairy. It is only through His power that the needs of these people can be met.

In Gospel Bonds and God's Blessings Upon All of You—John & Nana Gill.

CRIES IN THE NIGHT

(From my Diary in Honduras)

DANLI, HONDURAS, *March 16, 1986.*

The testimonies you are about to read are true.

These declarations were given by refugees from Nicaragua that tell of torture, suffering, and abuse at the hands of their own countrymen. Many were perplexed as to why this happened and were dismayed as to what their future might be. Although they lost family members, their homes, all they owned, and their country, they despaired not of the hope, the tender love, and mercy of their heavenly Father.

I am an American citizen who went to Central America to see, touch, understand, and care for the refugees from Nicaragua. Within a 21 day sojourn into the territory of their present exile, I met thousands of agonizing souls struggling to stay alive and understand what Communism did to them and their land.

Today, a few weeks after the last trip, I am again in Honduras and have just met a group of 500 Nicaraguan refugees who have been starving at a place of refuge in the mountains. After hearing hours of their testimonies and with a heart torn and bleeding in love, I have yielded to fatigue of body.

Lying here in the dark of the night at a Christian mission house, as a few of their leaders rest also, I can hear belabored breathing interrupted by tormented cries. I rehearse in my mind the stories of these persecuted ones. For sure, cries of personal pain, affliction of loved ones, and distress of their people, I know, are heard by others—the angels of heaven. I pray they assist and minister with a soothing salve upon these hearts, souls, and minds in defense from an infection of inhumane treatment suffered at the hands of their fellowmen.

Even as they cry out, I witnessed that their hearts forgive. They knew what their Christ said, "Forgive them Father for they know not what they do."

In Gospel Bonds,

NANA A.J. GILL.

The following are some example testimonies smuggled out of one of the U.N. camps. The refugees begged us to bring their stories back to the people in the United States—Nana A.J. Gill.

Letter No. 1

TO THE PRESIDENT: I want you and all the people of the United States to know the sufferings that we lived in in Nicaragua.

There is no freedom of expression there, they do not respect your rights, they are actually taking people's lives away unjustly: they treat us like dogs. The communist beasts don't have any feelings toward the people. We emigrated from Nicaragua because there were signs of death over there and every place you could go and at each moment.

Here in Honduras as refugees we have a lot of needs (for things such as] medicines, food, and clothing. We are all 100 percent sick because we do not have good medical

attention. Ninety percent are undernourished because there is not enough food because the different organizations like the Catholic Relief Organization and the Red Cross do not provide all the necessary food for us. We don't have good nutrition. Almost 80 percent of us have only half a suit of clothing and they do not allow us to work here to earn money or have a way to earn clothing. What I just listed is just a bare introduction to what our needs really are as refugees over here.

Please be careful with these Communist people. It is a Nicaraguan refugess that signs this. I am in exile in Honduras. I will not put my name on this paper for reasons of security, because here among the refugees there are many infiltrated communists and if they find out that we write these messages, they might make arrangements to take our lives away. We are very seriously threatened inside the refugee center. We beg you to please do something for us, as we cannot do anything to help ourselves. Thanks, brothers.

Letter No. 2

TEUPACENTI, EL PARAISO,
HONDURAS,
February 7, 1986.

DEAR BROTHERS: In these moments of testing, that we pass through in exile, for the honor and glory of God, receive our most fruitful blessings in our Lord Jesus Christ. Brethren, I give infinite thanks to the Holy Spirit of God, that in this moment impels me to give testimony of our heavenly Father.

As it is known to all of you that in our suffering country of Nicaragua, now one cannot live with Christian dignity, owing to the great persecutions without truces, imprisonments, unjust tortures, mass killings, indiscriminate rationings of food, astronomical economic inflation and some of the greatest repressions—freedom of worship, freedom of press, complete violations of human rights, and the forced obligation of being organized in state entities—that in history like those which are employed by the Communist system which actually now governs Nicaragua. Principally to the Christians, Sons of God (Evangelicals) who with great sacrifices and hard tests we brought to a head the doctrine of our Lord Jesus Christ, and the preaching of the Word of God, for which we, obeying the Word of God, in the command of God which says. Go ye therefore throughout the world and preach the gospel to all living people. (Mark 16:15). We see ourselves obliged, and with the direction of the Holy Spirit we looked for a way to leave our mutilated country, as across mountains and fields of battle where recording themselves the most hard battles of the country, and only by the immense mercy of God could He get us out of "Oven of Iron", Nicaragua. Today we find ourselves in the character of refugees in sister republic of Honduras, and under tests and struggle the Church continues walking forward preaching the Word of God.

Brethern, I do not complain of suffering all this because such it is written that we should all suffer for the cause of Christ. When this type of government is exercising its power over the earth, I lament that being affected principally the children.

Administering the little bit of weekly food, and making great sacrifices, hurriedly the week adjusts itself, and the worst of it is that we do not have permission to venture out around the town to try and get some food stuffs to try to complement the daily diet that can be little worth civilized people; on the other hand it has to be kept in mind that the food stuffs are donated, great quantities of products. Basically, in the refugee camps such donations are unknown.

We give infinite thanks to our Lord Jesus Christ for having sent you to us to put in the light all of the cruelties and violations as of our rights as humans and Christians as we are.

We have faith in our Lord Jesus Christ that you are servants of God sent by His immense mercy, and that you will do everything possible so that the Nicaraguan community in exile changes circumstances and so that we are considered as human beings.

Without further ado and trusting in our heavenly Father that He will concede the petitions of our hearts, may you receive abundant blessings from the Lord Jesus.

Letter No. 3

February 1986.

To the reader of this letter: I hope you find yourself finding out what the campesinos of Nicaragua are suffering. In 1982, thousands and thousands came here. I am a farmer and I left my country because of the violent attacks of the Sandinistas. I left on the seventh of September, 1983. We suffered a lot of hunger and when we entered Honduras the same thing happened. We know the situation of our country. We were tortured by the regime in Nicaragua. I'm from Managua. I'm a farmer and I grew up in Neva Segovia Mura.

The regime fools a lot of people because all the reporters are Marxists. The Sandinistas come and invite them to come in, men who have good aims and who would like to see the needs of the people, but the Sandinistas do not take them to where the needy people are. They take them to the luxurious mansions that are left inside Nicaragua.

I have seven children and I'm suffering a lot. Now that I am a refugee, I need a lot. Before, I had enough to keep my children, but not inside the refugee camp, I cannot do anything for myself, much less for my family. They give me five pounds of corn for eight days, seven ounces of sugar for eight days. My children are undernourished. We get beans, two ounces of coffee, we have no clothing. We are naked. We have no shoes. Thank you very much.

We are not like the birds who are free and can fly in the air and live off other things. We are men who live off the land.

Letter No. 4

TEUPACENTI, EL PARAISO,
HONDURAS.

TO WHOM IT MAY CONCERN: I am a Nicaraguan. I came the 6th of November of '82. I came from Murra N—S—. We came by way of the mountains until we arrived here in Honduras. I came on foot with my family, nothing more, my wife and my children, leaving the rest of the family behind. The motive for my leaving was that they wanted to take my sons away from me for the military service, and they accumulated (evidence) against me as a counter-revolutionary (translator's note: the sense here is of false evidence, false accusations). I left behind my property and my houses—I had two-houses—and my animals—I had 70 animals, between beasts and cows; I don't know what kind of an end my animals came to. Now we are here in the midst of a great calamity, because they give us food, but it is very limited. They give us 1 lb. of beans per person for 8 days, 1 lb. of rice per person for 8 days. Corn they give us 5 lbs. per person. When they give us meat it's half a pound—and cheese, half a pound per person for 8 days, and sugar, they give us 8 oz. per person; flour (or meal) ½ lb., also milk, ½ lb. Soap they give us half a bar per person—but how good it would be if it were a big bar of soap; but it is very cheap soap and the bar is very small; if you do a load of laundry there isn't enough soap left with which to take a bath. Salt, they give us 12 oz. for 6 people. How do we do that? We can't get used to it; the salt is what bothers us the most. We sell the rice to buy salt and sugar. But we hope that you will do all that is possible to help us to be able to return to our republic, but that it not be with the current regime, because we have seen the gross things that the Sandinistas have done in our home town. There near our home town, they killed 17 Evangelists. They killed them because they were in parochial school. They (the Sandinistas) took them (the Evangelists) out of the house that they were in and they brought them out above the town and they killed them close to the town. Various people saw them, because they weren't buried well. The Sandinistas made the Evangelists make their own hole, then they killed them, leaving them almost outside. And the animals, they killed the husband and 3 sons of a woman from Doradito murra, and the woman was going around like a crazy person, because they (the Sandinistas) said to her that they (her family) were in Quilal, it's another town of Segovia, and when she went to look for them she looked down the road where they had gone from her house, she saw that by the side of the road there was something like a sepulcher, and she came closer, and she says that there was a man's leg outside of it, and by the clothing on it, it was her son. And of these things we have seen several. We won't recount more because the piece of paper is getting to be small. I sign together with all of my family.

Letter No. 5

THE FOLLOWING ARE MY CHILDREN

For the American Brothers: I send a very, very warm greeting in the name of our Lord Jesus Christ and I pray to the Lord to bless you all very abundantly. Now I continue the following

Brothers, the reason I write you these very humble words is to communicate with you all and tell you what my own needs are and what I am suffering. I need shoes for my husband and my little girls. We need clothing, we need blankets and if you really help us in this way, God is going to multiply in a great manner for you all. I live in house number—. If you could only come and see that the food they give us is not enough, that it doesn't last long enough!

We are not here because we want to be here. We came to avoid being put to death. We left our parents as if we had thrown them away because the Sandinistas persecuted us and tried to kill us Christians like animals because the communist beasts don't believe in God. Their god is arms. When they are able to get their hands on a Christian, they skin him alive, they take his eyes out, they pluck his fingernails out, break out his teeth, and they torture and then kill him. The young men are armed and sent to the battle front from the age of 10 up. They take them away from their mothers to put them as bait, to send them to the front line to battle.

This is all I have to say for now.

EPILOGUE

Nana and John each flew back to Honduras on special humanitarian missions.

In March Nana traveled to Honduran-Nicaraguan mountain areas and experienced heart rending interviews with Nicaraguan exiles who had recently risked the land mines and perils of escape from their homeland.

Johnny returned in July to acquire additional need-letters from new families and from others that were missing due to the extraordinary circumstances they were under. It was important to secure these letters as the United Nations officials in charge of the refugee camps insist that every family in a camp receive a parcel in order for an outside contributor to be able to work for its improvement. Among other details, he also wanted to organize logistics involved in the delivery of parcels that were being prepared and boxed within the United States and Canada.

There was special interest for Johnny in making sure that the Teupasenti Refugee Camp got their need-letters completed. At this camp he also wanted to get a better photographic representation.●

THE NATIONAL COUNCIL ON ALCOHOLISM

● Mr. DODD. Mr. President, we have spent a great deal of time over the past several weeks focusing on the crisis presented by childhood alcohol and drug abuse. Both the Democratic Task Force on Drug Abuse on which I serve and the bipartisan working group have highlighted the importance of education in preventing youthful substance abuse.

I am happy to report that citizens in my State of Connecticut have taken the lead in efforts to educate our youth about the Nation's No. 1 drug problem, alcohol abuse. One specific effort I would like to draw the Senate's attention to has been undertaken by the National Council on Alcoholism. This council and its local affiliates are working nationwide on a voluntary basis to prevent and reduce alcoholism and alcohol related problems.

In April 1986, the National Council on Alcoholism [NCA] launched an educational campaign to prevent children from drinking. The theme of the campaign is, "Say No, and Say Yes to Your Life." The message is that alcohol is a potentially addictive drug, drinking is "uncool" and there are ways to say "no" or "not now" to alcohol.

The NCA developed the campaign following a 1983 survey by Weekly Reader, which found that about 30 percent of fourth graders—9 year olds—said kids their age pressure each other to drink. Several other studies point to the fact that children are abusing alcohol at an earlier age and the number of adolescents with serious drinking problems is increasing.

The Say No, and Say Yes to Your Life Program is reaching children and their parents in classrooms and communities from Connecticut to California. Moreover, younger and other Americans are now hearing public service warnings about the risks of alcohol abuse on radio, seeing them on TV, and reading them in newspapers and magazines. This public awareness campaign has been developed for the NCA by the N.W. Ayer Agency.

Thus, NCA has started the first nationwide effort to combat drinking among children between the ages of 8 and 14 by conveying a simple, unambiguous message about the dangers of alcohol. The NCA campaign is dramatic and sending a very clear message about the dangers of drinking.

The Nation's oldest newspaper in the schools, Weekly Reader, has developed with NCA a series of educational materials for students in grades 3 through 6, their parents, and teachers, which support the "Say No, and Say Yes to Your Life" message. Last May, such Weekly Reader/NCA supplements reached 100,000 classrooms and nearly 4 million children. This fall, the NCA/Weekly Reader focus will shift to parents and teachers through special supplements prepared in conjunction with Prevention Institute of Lexington, KY.

The "Say No, and Say Yes to Your Life" campaign is being carried out at the grassroots level by NCA's 184 State and local affiliates. These affiliates have been promoting frequent use of media spots on local television and radio stations and in consumer publications. Community health, education, and social service groups across the country have been encouraged to order the NCA/Weekly Reader supplements and posters through local NCA affiliates.

The NCA prevention program will also study the effectiveness of a variety of warning messages in teaching students and parents guidelines for reducing the risks of alcohol abuse. The NCA messages and curricula seek to delay the onset of drinking, to increase abstinence, and to decrease high-risk drinking.

In closing, Mr. President, the NCA youth prevention campaign focuses attention on alcohol, the most widely used and abused drug in this country. I am pleased to report on this important campaign designed to reach children at a time when the Senate is considering a variety of strategies to combat alcohol and drug abuse amount younger and older Americans.●

TRANSFER TO AIRPORT PROPERTY IN ALGONA, IA

● Mr. GRASSLEY. Mr. President, I urge the passage of the bill (H.R. 4492) to permit the transfer of certain airport property in Algona, IA, as amended.

The city of Algona received its airport land from the Federal Government in 1947. When the city received the land, the deed stipulated that all of the land must be used for airport purposes. In 1976, the Congress enacted a law that permitted a release of the airport land from the usage requirements if two conditions are met; namely that fair market price must be obtained from the sale of transfer of the land and that the proceeds of the sale must be used for airport purposes. The legislation before us would enable the city of Algona to transfer 10 acres of land without complying with the two conditions.

We have been told that the airport will not interfere with operation or future development of the airport. The transfer will meet local community economic needs and allow the land to be economically and efficiently used to benefit Algona's citizens. I truly believe that these local interests exceed what very little come before the interest the Federal Government would have in limiting the use of all the airport land solely to airport purposes.

There are many reasons why this exchange has merit. The existing National Guard Armory is located in a congested area. There is inadequate training area, and parking space and the need for more land to expand is great. If the armory were located at the airport, not only would the parking and training problem be solved, but the expansion would warrant a significant increase in personnel. This would benefit the entire community. It is equally important to see that such a transfer is indeed in our national interest. Clearly, the National Guard Reserve units contribute significantly to our defense capability while reducing defense costs to the taxpayer. The expansion of this particular unit would serve a much wider population than Algona; it would indeed serve the Nation's interest.

In the bill now before us, the unconditional release is limited to the land being transferred for the armory. This will preserve the release conditions for the rest of the airport.

I urge my colleagues to pass this legislation.●

COOPERSTOWN CONFERENCE AWARD TO SENATOR PRESSLER

● Mr. PELL. Mr. President, several months ago the Eastern Railroads General Managers' Association, an organization comprised of railroads which operate throughout the country, held its ninth annual conference in Newport, RI. The Cooperstown Conference, as this meeting is called, provides Government and industry officials with an opportunity to meet and exchange ideas regarding the critical issues facing the railroad industry.

Each year the association presents the Railroader of the Year Award to a Government official recognized as making significant contributions to the continued vitality of the railroad industry. Mr. President, I am pleased to report that one of our colleagues, the distinguished senior Senator from South Dakota, Senator PRESSLER, is this year's recipient of the Railroader of the Year Award. Senator PRESSLER is the first U.S. Senator ever to receive this award. He was honored in particular for his leadership in developing and pursuing a policy to encourage the development of regional and shortline railroads to preserve service on light density rail lines as an alternative to abandonment. He has become the premier spokesman in this body for developing this as a national policy, and has done an impressive job thus far. Knowing Senator PRESSLER, I am certain we can expect to see much more from him on this issue in the years ahead.

I might add that we in Rhode Island are fortunate to have Senator PRESSLER back in our State later this month. As Chairman of the Senate Subcommittee on Business, Trade and Tourism, he will be speaking at the Rhode Island tourism conference which I will be hosting on October 20.

Mr. President, I ask that a statement by John Snow, president and CEO of CSX Rail Transport be inserted in the RECORD immediately following my remarks. Mr. Snow presented the Railroader of the Year Award to Senator PRESSLER. I feel his words best describe the valuable contribution our distinguished colleague has made in this important area.

The statement follows:

REMARKS OF JOHN SNOW, PRESIDENT AND CEO OF CSX RAIL TRANSPORT

It is a pleasure for me to have been asked to present the Cooperstown Conference Railroader of the Year Award to United States Senator Larry Pressler.

Senator Pressler received his undergraduate training at the University of South Dakota. There he earned a Rhodes Scholarship at Oxford University. He then did a tour of duty in Vietnam; came back to the United States to get both a Masters and Law degree at Harvard; and then worked in the Kissinger State Department until he was elected to Congress in 1974. After two terms, he was elected to the Senate in 1978 and was just reelected for his second term as South Dakota's senior Senator.

The Cooperstown Conference is unique in our industry. It is a place where policy makers from government and railroad executives and operating people meet once a year to look at the future of transportation. Each year we honor one individual from the government side who has made a significant contribution to the development of sound policy that promotes an efficient private sector national rail transportation system. Tonight that award goes to the outstanding legislator of the year, Senator Larry Pressler.

I have had the privilege of getting to know Larry much better over the last year. I suppose you could say Elizabeth Dole brought us together, and I thank her for that. One of the things I have come to admire most about Larry Pressler is his independent spirit and his ability to identify and ask the questions that need to be answered. He came into the Conrail process for example, with an open mind, and he did ask the tough questions—of both sides. He gradually developed issues that neither side was talking about in the beginning of the process. And it was those very issues, and his arguments, which ultimately carried the day when they were subsequently echoed in the House of Representatives.

Larry Pressler is the first United States Senator to receive the Cooperstown Conference Award. He is being honored for his work on a number of rail issues, and in particular for his foresight in the development of a policy to allow regional railroads to preserve service on light density lines, and to encourage their development as creative alternatives to abandonment in this era of deregulation.

Larry has not always been on the same side as some of the railroads in this room. But with us or against us, he has always been an effective Senator. in 1980, Larry Pressler was an opponent of the Staggers Act which deregulated our industry. He was representing constituents in South Dakota who were greatly concerned that deregulation would lead to abandonment of service in rural areas. Indeed, following enactment of the Staggers Act, a major railroad in his state filed to abandon several hundred miles of its South Dakota line. Senator Pressler fought us and won. He successfully led the opposition to that abandonment, and it was denied by the Interstate Commerce Commission.

Many elected officials would have been pleased with that success and dropped the issue. Not Senator Pressler. He knew that the ICC decision had only bought them time. Thus, Senator Pressler worked with that railroad and the shippers in the state to find a different kind of solution. He rode the line, and conducted many meetings with shippers and railroad people. He became convinced that the only long-term alternative to abandonment would be the development of a regional railroad with operating efficiencies and employees and management close to the community. He got the job done. The Class I—the Chicago & North Western—is now on the verge of a transaction which will result in the creation of a new 1,000 mile system known as the Dakota, Minnesota and Eastern.

In the creation of the Dakota railroad, he has seen an opportunity to develop a new policy initiative that can preserve rail service in light density areas throughout the United States.

Senator Pressler will conduct hearings later this month before the Senate Subcommittee on Surface Transportation on the creation of regional railroads. He has announced that he intends to explore all of the important issues. He is going to look at ratemaking and contractural relationships between Class I's and the smaller carriers. He is giong to explore the costs of insurance and the appropriateness to small railroads of the Federal Employers Liability Act (FELA). He intends to open up politically sensitive issues that others refuse to touch. Senator Pressler has announced his intention to craft a policy that will allow shortline and smaller regional railroads to compete effectively in a deregulated environment.

In my opinion, the leadership being asserted by Senator Pressler in this area is far-sighted, and the initiative he has begun may well be the most important development in the railroad industry for the next five years. It is also of enormous importance to the major carriers such as CSX who must streamline their systems to survive this new age that we have so boldly entered in the last five years.

We look forward to working with Senator Pressler and his colleagues over the next two years in developing this important policy initiative.

Finally, I return to an issue that has occupied all of our attention the last year—the sale of Conrail. The Administration proposal to sell Conrail to the Norfolk Southern divided the Congress and the railroad industry. Senator Pressler's work on this issue is a good example of this effectiveness as a legislator. Since I was in 100 percent personal agreement with the Senator, I will assert my prerogative to talk about it a bit more.

Senator Pressler was the first legislator of either body to recognize that the sale of Conrail is not a Northeast regional issue, but a national issue with important ramifications for the Midwest sector of this country. Following hearings of the Senate Commerce Committee and numerous private meetings in his office, Senator Pressler concluded that a sale to Norfolk Southern was anti-competitive and bad for the Midwest. He successfully urged Commerce Committee Chairman Danforth to hold hearings on the impact the proposed merger would have on the Midwest. The Senator was relentless in his pursuit of information about this transaction and its impacts. He spearheaded a drive that independently produced thousands of computer statistics on the impact of the sale on shippers and communities. He insisted that exactly the same high standards be used in the methodology that produced these statistics as were being simultaneously used by the Justice Department in analyzing the Santa Fe/Southern Pacific merger proposal. Few who are involved in the Conrail sale—including, I dare say, the Secretary of Transportation and the Attorney General of the United States—will soon forget Senator Pressler and the "Pittman methodology" as applied to the Conrail sale.

In my view it was Senator Pressler's arguments and concern that made the Conrail sale a national issue. I believe he was personally responsible for seeing that the Senate gave the sale proposal the serious deliberation it deserved.

Senator Pressler prevented a rush to judgment that would have been unfair and wrong from my perspective. The vote in the Senate was surprisingly close. But even through our view did not prevail there, it was the very issues which Senator Pressler defined and the very arguments he developed which were used to kill the Norfolk Southern merger proposal in the House.

In the House of Representatives, on April 29, Chairman John Dingell of the House Commerce Committee announced that the sale of Norfolk Southern was "mired in a hopeless swamp of confusion and controversy" and called for a public sale. There is little question in my mind that it was the long hard march of Senator Pressler on this issue that has led to the growing opposition this transaction has encountered in the House of Representatives. Although this war is not over, I confidently predict that Senator Pressler's position in favor of a public sale of Conrail will yet win this Congress. That is, I predict he will win the war.

Senator, it has been my special privilege to get to know you over the past year. We thank you for your outstanding leadership and your contributions as a most effective legislator. The people of South Dakota are fortunate to have you in their corner. I am happy to now present you with the Cooperstown Conference Railroader of the Year Award for 1986.●

EMPLOYMENT OPPORTUNITIES FOR DISABLED AMERICANS ACT

● Mr. SIMON. Mr. President, the Employment Opportunities for Disabled Americans Act will remove a major disincentive to employment for individuals with disabilities who face the loss of health care coverage they are receiving under the Supplemental Security Income Program. This bill will make permanent section 1619 of the Social Security Act, which was enacted in 1980 as a temporary demonstration program to allow working SSI recipients to continue receiving SSI cash payments and Medicaid coverage. It will also ensure that potentially eligible recipients will be made aware of these provisions and that Social Security Administration staff will be trained in their implementation.

The effect of these amendments will be to increase the number of SSI recipients who are aware of the possibility of their keeping necessary SSI and Medicaid benefits while they are working. Since they will also have the assurance that these benefits will not be lost through an expiration of this authority, they will have greater incentive to participate.

As pollster Lou Harris told us early this year, two-thirds of all disabled Americans, between age 16 and 64, are not working. Two-thirds of those not working say that they want to work. Close to 20 percent of those who want to work say that fear of a loss of benefits is an important reason why they are not working full time. The amendments we are adopting today will not solve all of the employment problems for persons with disabilities, but they should make a major improvement, and it is a step that we should be taking.

I commend Senator DOLE for his leadership on this matter in the Senate, and my former colleague on the House Subcommittee on Select Education, Representative STEVE BARTLETT, for his persistence and determination in seeing that this measure is finally enacted. I am pleased to be an original cosponsor of the Senate bill, and urge my colleagues to support it.●

NAUM AND INNA MEIMAN: THE EDGE OF DARKNESS

● Mr. SIMON. Mr. President, I welcome the news of the release of several prominent Soviet human rights activists in the last few months. Despite this good news, we must not forget that there are thousands of refuseniks and dissidents still held within the Soviet Union. According to the international law adopted in the Helsinki agreements, all people wishing to emigrate from one country to another should be permitted to do so. I look forward to the day when the Soviets change their policies and adhere to agreements to which they have agreed.

My friends Naum and Inna Meiman are still being held in the Soviet Union. Inna is a 54-year-old woman who is dying of cancer. After the removal of four malignant tumors from her neck, the Soviet doctors find that they can do no more for her fifth and most recent tumor. Fortunately, there is experimental treatment available to Inna in the West.

For every day that goes by without the required exit permission, Inna comes closer to dying an unnecessary death. This situation has gone on too long.

The meeting tomorrow between President Reagan and Secretary General Gorbachev presents the perfect opportunity for the Soviets to resolve this case. In the name of human decency and common understanding, I ask the Soviet Union to allow the Meimans to emigrate to Israel while Inna still has a chance to live.●

BIRTHDAY CELEBRATED BY DAME ELSA DE BRUN

● Mr. PELL. Mr. President, this Saturday, October 11, 1986, marks an important milestone in the life of Dame Elsa de Brun, one of our finest artists and also a dear friend. Dame Elsa, who is known professionally as "Nuala," will celebrate her 90th birthday and I want to take this opportunity to wish her well.

Dame Elsa came to the United States from Sweden over 70 years ago and did not begin a serious career as an artist until she was 50 years old. But her beautiful pastel and oil works quickly became noticed by galleries, museums, and collectors in both Europe and the United States.

Her works have now been viewed in over 30 solo exhibitions and have appeared in 26 museums including the Hirshhorn Museum and Sculpture Garden here in Washington.

In June 1985, Dame Elsa married Patrick Farrell in New York City after an extraordinary 50-year courtship. They are a truly remarkable couple. My warmest congratulations go to Dame Elsa—also known as "Nuala"—on her upcoming 90th birthday.●

ORDER OF PROCEDURE

The PRESIDING OFFICER (Mr. PACKWOOD). The majority leader.

Mr. DOLE. Mr. President, I will take just a moment.

First of all let me indicate that we will have the Senate amendment on the prepared drug bill. I believe in nearly every instance it is totally a bipartisan effort with maybe one or two exceptions which the staff is still working on. One involves a provision of Senator WILSON, that Senator BIDEN has an interest in. Another is the level of funding for State and local enforcement.

The amendment that we will offer does not contain the death penalty but the death penalty is in an amendment coming from the House so it will be part of it.

Again, I am not certain how we can dispose of that. Cloture will be filed. We will not have a pro forma session tomorrow. So the cloture vote will occur on Wednesday, which will give us Tuesday, hopefully to dispose of reconciliation, which I know the presently Presiding Officer will be happy to dispose of. It is down to one or two items. It involves the distinguished Presiding Officer, Senator PACKWOOD, chairman of the Finance Committee, and Senator LONG. It is a bipartisan opposition to a certain provision that the House still insists on dealing with unemployed parents in an AFDC provision. That is the one provision that is holding up the entire reconciliation package.

The President has indicated in a letter transmitted to me by some electronic device, I guess, from Reykjavik, Iceland, last night that he would veto reconciliation if that provision were in it. So I hope we can resolve that.

I believe we have made progress on the continuing resolution.

I have indicated to a White House representative that I did not see much purpose in some of us staying here to midnight to watch to see if they made enough progress before we acted on the continuing resolution. I think, if I am correct on the time, it would be about 4 a.m. in the morning in Iceland. I am not certain they would want us to call them at 4 a.m. in the morning. So they are calling them now to see if we might be able to resolve that difference.

As I understood the President when he left, he did not talk to me directly, but as I understood the President's concern before he left for Iceland, his primary concern was in the defense area. As the minority leader has observed earlier on the floor that matter has been resolved.

There has been a compromise, some give and take on each side, with the outstanding work by Senators WARNER and NUNN on behalf of the Senate working with Republicans and Democrats in the other body and with administration officials.

It is a compromise. I guess you could say the House won on ASAT; the administration prevailed primarily on SALT. Nuclear testing will depend on whether or not they can agree on verification procedures. But the President did indicate he will submit the Threshold Test Ban Treaty and the Peaceful Nuclear Explosions Treaty at the start of the 100th Congress.

□ 1750

If we cannot get an agreement on verification, then there will be appropriate reservations on verification and the agreement will not go into effect until those procedures are agreed to. So I would guess in that area it was again a compromise.

SALT II incorporates the Senate Department of Defense authorization bill language. It is a sense of the Senate that the United States should observe sublimits but that we should not be bound to abide by a treaty that the Soviets are violating. And that, I think, is a major step in the right direction as far as the President was concerned.

Chemical weapons. Binary weapons production goes forward, but Bigeye, the one we had a vote on here, is put off.

SDI funding and MX procurement again were more or less compromised, splitting the difference.

I read that Mr. Speakes, speaking on behalf of the President, indicated the President is grateful for this show of unity. I understand the Speaker of the House and the majority leader have talked to the President about an hour ago, hour and a half ago, by telephone.

So it would seem to me the big stumbling block in getting the continuing resolution put together is behind us. I am advised by a number of members on the Appropriations Committee that they believe they can finish their work tonight on the big CR. Something could happen. I understand there are a couple of absentees that might cause problems. But even if they did finish tonight, it would take 2 to 3 days to enroll the measure.

So I will advise the distinguished minority leader as soon as I have word. It would seem to me we ought to lay down the Senate amendment on drugs, we ought to pass the CR, and go home. That would be the logical, sensible, reasonable thing to do, which probably means we will do something else. [Laughter.]

In any event, that is the course we are pursuing. I thank the distinguished minority leader for yielding. I will advise him as soon as I have word from representatives of the President.

Mr. BYRD. Mr. President, I thank the distinguished majority leader.

IMMIGRATION REFORM

Mr. DOLE. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1200.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House insist upon its amendments to the bill (S. 1200) entitled "An Act to amend the Immigration and Nationality Act to effectively control unauthorized immigration to the United States, and for other purposes," and ask a conference with the Senate on the disagreeing votes of the two Houses thereon.

Ordered, That the following are appointed as conferees:

From the Committee on the Judiciary, for consideration of the entire Senate bill and House amendment: Mr. RODINO, Mr. KASTENMEIER, Mr. SEIBERLING, Mr. MAZZOLI, Mr. SYNAR, Mr. FRANK, Mr. SCHUMER, Mr. SMITH of Florida, Mr. BERMAN, Mr. BOUCHER, Mr. BRYANT, Mr. FISH, Mr. MOORHEAD, Mr. LUNGREN, Mr. MCCOLLUM, Mr. SHAW, and Mr. DEWINE.

From the Committee on Agriculture, solely for consideration of sections 121-125, 202(h), 203, and 304 of the Senate bill and sections 116, 121, 204, 301-305, and 701 of the House amendments: Mr. PANETTA, Mr. HUCKABY, and Mr. MORRISON of Washington.

From the Committee on Education and Labor, solely for consideration of sections 101(d), 121-125, 202(h), 203, 304, 402, and 604 of the Senate bill, and sections 101, 121, 201(h), 204, 301-305, 316(d), 402, 403, and 701 of the House amendments: Mr. HAWKINS, Mr. FORD of Michigan, and Mr. JEFFORDS.

From the Committee on Energy and Commerce, solely for consideration of sections 125(b), 202(h), 203, 304, and 404 of the Senate bill, and sections 121, 201(d), 201(h), 204, 404, and that portion of section 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Mr. DINGELL, Mr. WAXMAN, and Mr. DANNEMEYER.

From the Committee on Ways and Means, solely for the consideration of sections 121(a), 121(g), 121(h), 124(c), 125(b), 202(h), 203, 304, 404, and 602 of the Senate bill and sections 121, 201(h), 204, 302(b), 402, 404, 407, 601, 701, and that portion of section 302(a) inserting subsection 210(f) in the Immigration and Nationality Act: Mr. FORD of Tennessee, Mr. PEASE, and Mr. DAUB.

From the Committee on Rules, solely for the consideration of section 604(b) of the Senate bill and section 811 of the House amendments, and modifications committed to conference: Mr. BEILENSON and Mr. TAYLOR.

As an additional conferee, solely for consideration of title VIII of the House amendment, and modifications committed to conference: Mr. MOAKLEY.

Mr. DOLE. Mr. President, I move that the Senate disagree to the House amendment and agree to the conference requested by the House and the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to, and the Presiding Officer [Mr. HECHT] appointed Mr. THURMOND, Mr. SIMPSON, Mr. DENTON, Mr. MATHIAS, Mr. KENNEDY, Mr. SIMON, and Mr. METZENBAUM conferees on the part of the Senate.

OMNIBUS DRUG ENFORCEMENT EDUCATION, AND CONTROL ACT

Mr. DOLE. Mr. President, I ask the Chair to lay before the Senate a message from the House of Representatives on H.R. 5484.

The PRESIDING OFFICER laid before the Senate the amendment of the House of Representatives to the amendment of the Senate to the bill (H.R. 5484) to strengthen Federal efforts to encourage foreign cooperation in eradicating illicit drug crops and in halting international drug traffic, to improve enforcement of Federal drug laws and enhance interdiction of illicit drug shipments, to provide strong Federal leadership in establishing effective drug abuse prevention and education programs, to expand Federal support for drug abuse treatment and rehabilitation efforts, and for other purposes.

(The amendment of the House is printed in the RECORD of October 8, 1986, beginning at page 29608.)

Mr. DOLE. Mr. President, I move to concur in the amendment of the House with a further amendment which I send to the desk.

AMENDMENT NO. 3275

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

In lieu of the language of the House amendment insert the following:

"That this Act may be cited as the Anti-Drug Abuse Act of 1986."

MODIFICATION OF AMENDMENT NO. 3275

Mr. DOLE. Mr. President, I send a modification of the amendment to the desk.

The PRESIDING OFFICER. The amendment is so modified.

(The modification of amendment No. 3275 will be printed later in the RECORD.)

□ 1840

Mr. DOLE. Mr. President, let me indicate that this, probably, with one large exception, is a bipartisan piece of legislation.

Mr. CHILES. I agree that the Senate amendment, with the one exception cited by the distinguished majority leader, is a bipartisan package.

Mr. DOLE. That is right. Mr. President, I thank all Senators on both sides of the aisle. I am not suggesting that there are not some differences that may have to be resolved by amendments. The Senator from Louisiana has indicated to me and the minority leader, that he has a problem with one of the very good provisions. He does not feel quite as I do about it.

There are differences among Senators on both sides. It is bipartisan—it

was, when it left here. The House has made some changes and we have made some changes and modifications, and I hope we can move quickly on this.

There is one major difference among Senators—not Republicans or Democrats, necessarily; but there are Members on each side of the aisle who feel strongly both ways about imposition of the death penalty. There is an indication that that may be debated at length.

CLOTURE MOTION

Mr. President, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion will be stated.

The assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to concur in the House amendment with a further amendment to H.R. 5484, the omnibus anti-drug bill.

Bob Dole, Strom Thurmond, Paul Trible, W.D. Armstrong, Mitch McConnell, Malcolm Wallop, Paula Hawkins, Chic Hecht, Don Nickles, Paul Laxalt, Al Simpson, Pete Wilson, Orrin G. Hatch, J. Warner, Chuck Grassley, James T. Broyhill, and Lawton Chiles.

Mr. CHILES. Mr. President, I concur with the minority leader and hope we will be able to get passage of this. I think it would be tragic if we do not, having gone this far on a very far-reaching piece of legislation. It deals with eradication; interdiction; increases for law enforcement, both at the State and local levels; penalty provisions, with mandatory penalties especially dealing with crack cocaine; an increased effort for education and treatment; as well as providing additional prison space. We covered the gamut.

I know that this will be of tremendous assistance to my State and every other State in the Nation that is facing the incursion of drugs we are facing.

It would be tragic if we lost this bill and lost a year in being able to work on this problem. The continuing resolution conference is proceeding, to come up with a funding mechanism for this bill, and I hope that next week we will be able to complete passage of it.

Mr. DOLE. I thank the Senator from Florida and I thank the distinguished minority leader and members of his staff and other staff members on both sides, who have been working on this matter for the past 24 hours.

I think it is fair to say that we do not intend to leave here until we have completed action on the Anti-Drug Abuse Act.

Mr. CHILES. I am glad to hear that.

Mr. DOLE. I know there is a major difference. There must be some way to resolve that to the satisfaction of Members on both sides of that issue. Notwithstanding that, we should not let one provision derail the entire drug package.

Mr. CHILES. I agree with that very much.

I know that the minority leader can support the death penalty; I certainly can; I know the majority leader can. I think the three of us would agree that that is not to say we have to have that at the expense of losing this bill. On the other hand, it is a feature that I think would be an addition and help, and I wish we had it. There is so much good in this bill and so much that would be of help to my State and to every other State that I hope we are going to get it passed one way or the other.

Mr. DOLE. I indicate to those who have a different view than that of the three of us with reference to the death penalty that they should not misunderstand our willingness to try to work out some compromise. It will have to be a compromise. We are not talking about surrender, because I would guess—guess only—that probably two-thirds or more of the Senators support the death penalty provision that is in the last House-passed amendment.

We have been in preliminary discussions with Members on the other side of this issue. There may be a way to have a separate vote on that issue. If we can work something out along those lines, I think it might satisfy those who hold the view that the Senator from Florida, the Senator from Kansas, and the Senator from West Virginia hold.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1850

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MAINLAND TOUR BOAT FACILITY AT FORT SUMTER NATIONAL MONUMENT

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate now turn to the consideration of Calendar No. 967 (S. 2534), dealing with Fort Sumter National Monument.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

Mr. BYRD. Mr. President, reserving the right to object, and I will not object, Mr. THURMOND has been to see me at least, I believe, five times today about this measure, and I have long since forgotten how many times yesterday, or the day before, so I surrender.

The PRESIDING OFFICER. The bill will be stated by title.

The legislative clerk read as follows:

A bill (S. 2534) to authorize the acquisition and development of a mainland tour boat facility for the Fort Sumter National Monument, South Carolina, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Energy and Natural Resources, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italic):

S. 2534

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, in order to provide for needed facilities for vistors to Fort Sumter National Monument, including a tour boat dock and associated facilities, and an interpretive and museum facility in cooperation with the State of South Carolina and the city of Charleston, the Secretary of the Interior (in this Act referred to as the "Secretary"), is authorized to acquire by purchase with donated or appropriated funds, donation, or exchange, not to exceed 8.91 acres of lands, including submerged lands, and interests in lands, within the area generally depicted on the map entitled "Dockside II, Proposed Site, Tourboat Facility," which map shall be on file and available for public inspection in the office of the National Park Service. When acquired, lands, including submerged lands and interests in lands, depicted on such map shall be administered by the Secretary as a part of Fort Sumter National Monument, subject to the laws and regulations applicable to such monument and subject to the provisions of this Act.

SEC. 2. (a) With respect to the lands, including submerged lands, and interests in lands acquired pursuant to the first section of this Act, the Secretary is authorized—

(1) to convey, notwithstanding the provisions of section 5 of Public Law 90-400 (82 Stat. 356) and subject to the provisions of subsection (b), a leasehold interest in not to exceed one and a half acres to the State of South Carolina or the city of Charleston or either of them for development by either of them or their agents or lessees of a marine museum and associated administrative facilities;

(2) to grant covenants or easements for ingress, [egress, and vehicular parking] *and egress* to the State of South Carolina, the city of Charleston, and to other parties as the Secretary may deem necessary to facilitate public use; and

(3) to enter into cooperative agreements with the State of South Carolina, the city of Charleston, and other parties as the Secretary may deem necessary, pursuant to which construction, maintenance, and use of buildings, utilities, parking facilities, and other improvements may be shared among the parties to the agreement.

(b) Any coveyance made pursuant to subsection (a)(1) and any renewal thereof may be for a period of up to 50 years, and may include the option to purchase the property in fee by the lessee within the first 10 years, upon payment by the lessee of the cost of

the property to the United States plus interest based on the average yield of United States Treasury notes with maturities of one year. The Secretary may convey title to the property in fee in the event such option to purchase is exercised, subject to the condition that the property is used for a public marine museum and associated administrative facilities. Notwithstanding any other provision of law, any leasehold interest conveyed pursuant to subsection (a)(1) shall be conveyed without monetary consideration. The proceeds from any conveyance of property in fee pursuant to subsection (a)(1) shall be deposited in the Land and Water Conservation Fund in the Treasury of the United States.

SEC. 3. Section 117 of Public Law 96-199 (94 Stat. 71) is hereby repealed.

SEC. 4. (a) Notwithstanding any other provision of law, sums heretofore appropriated but not, on the date of enactment of this Act, obligated for construction of a tourboat facility at the Broad Street site, and for the acquisition and construction of the Fleet landing site for Fort Sumter National Monument, which was authorized by section 117 of Public Law 96-199 (94 Stat. 71) are hereby made available for obligation for the acquisition of the lands including submerged lands, and interests in lands identified in the first section of this Act and for construction of necessary facilities thereon, and to the extent that sums heretofore appropriated for land acquisition of the Fleet landing site are not sufficient to cover the cost of acquisition of the properties identified in the first section of this Act, sums heretofore appropriated for construction of facilities at the Broad Street site and the Fleet landing site may be obligated for the purposes of acquisition as authorized in the first section of this Act.

(b) In addition to the sums made available under subsection (a), there is authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act.

SEC. 5. The Secretary of the Interior shall transfer administrative jurisdiction over the Federal property, consisting of approximately 1 acre, known as the Broad Street site, to the Secretary of the Department in which the Coast Guard is operating, who shall transfer to the Secretary of the Interior, subject to such reservations, terms, and conditions as may be necessasry for Coast Guard purposes, administrative jurisdiction over the Federal property, consisting of approximately 1 acre located near Fort Moultrie on Sullivan's Island for purposes of maintenance workshop, storage, and seasonal housing in connection with the administration and protection of the Fort Sumter National Monument.

Mr. BYRD. Mr. President, when these two South Carolina Senators gang up on you, you feel like you have been hit with a 10-ton truck. I have had not only the battering from the left, but the battering from the right, and that means the Hollings-Thurmond duo have just about, together with the aid of a cold, put me in the bed for the evening.

Mr. THURMOND. Mr. President, I rise today along with my colleague from South Carolina, Senator HOLLINGS, in support of S. 2534, legislation authorizing the acquisition and development of a mainland tour boat facility for the Fort Sumter National Monument in Charleston, SC.

Fort Sumter is one of the most historic landmarks in our Nation, and each year almost 180,000 tourists from throughout South Carolina and the Nation visit this unique fortress which stands on a small island at the mouth of Charleston Harbor. It was at this fort that the first shots of the Civil War were fired, when Union troops, under the leadership of Maj. Robert Anderson, refused to surrender Fort Sumter to Confederate Gen. Pierre Beauregard.

In 1948, Fort Sumter was designated a Civil War Memorial and also became part of the National Park Service system. Since 1948, tens of thousands have been ferried in boats from the Peninsula of Charleston to the fortress island and the number continues to grow each year.

Despite the busy traffic between the city and the fort, the National Park Service has never had a permanent dock from which boats can launch to take visitors to and from the island. Instead, the Park Service has utilized space in the city marina for this purpose. Unfortunately, this option will not be available within the next 2 years as construction of an expressway is planned for the site from where the boats currently launch.

Recognizing the eventual need for a new location for the boat dock on the Charleston Peninsula, Congress in 1978 appropriated $5,581,000 to construct an appropriate welcome center and boat dock at what is known as the Broad Street site. This site was deemed inappropriate, however, when city officials persuaded the National Park Service that locating the dock at Broad Street would greatly inhibit and inconvenience the future growth of the tourist industry within the city.

To remedy this situation, Congress in 1980 enacted legislation authorizing the National Park Service to purchase the Fleet Landing Site, and in 1982 Congress appropriated an additional $368,000 to pay for this property. However, subsequent consideration of the Fleet Landing Site revealed that each year a significant amount of money would be needed to dredge and maintain the boat dock area, making the site a poor investment for the Federal Government. Furthermore, locating the boat dock on this property would cause congestion in one of the most historic districts of Charleston. Since 1982, the National Park Service has considered four other sites, but each one was determined to be unacceptable.

I am pleased to report, however, that the Park Service, with the cooperation of the city of Charleston and especially George Campsen, the current Fort Sumter Tours Concessionaire, has finally identified a potential site known as the Dockside II property. This parcel of land passes the tests that the others failed—its location does not create a traffic congestion problem and the natural features of the property preclude a significant amount of dredging. In addition, the local community highly endorses the Dockside II site as the best possible site for the tour boat facility.

Mr. President, I am confident that pursuing the Dockside II site alternative is in the best interest of the Federal Government. I believe the American taxpayers would prefer to have a site with ample parking and little dredging costs. To affect this change in the Fort Sumter tour boat project, Senator HOLLINGS and I have introduced S. 2434.

This legislation would allow a major portion of the money which was originally designated for the construction of the facility to be used instead for the acquisition of property. The change is necessitated largely because initial plans called for the acquisition of a much smaller parcel of land upon which a parking garage would be constructed. In the revised plan, a larger parcel of land would be acquired. In fact, the new tract will be large enough to accommodate a flat level parking area, and as a result, an expensive parking garage will not be required.

In addition, this legislation would expand the 1978 law by allowing the city of Charleston to lease or purchase from the National Park Service a portion of the site upon which an aquatic museum could be built. I believe this museum would add greatly to the Fort Sumter facility, as visitors, especially school groups, would be able to combine the experience of an historic monument and an aquarium.

Furthermore, this legislation would give the Park Service authority to grant and accept easements and covenants over the property. This provision would allow the Park Service to enter into agreements to share portions of the parking area with the city and other local parties. In return, the city would perform routine services such as lawn maintenance and refuse removal. Of course, any convenant or easement which the Park Service grants would require the recipients to strictly comply with National Park Service standards.

Mr. President, in conclusion, I would like to emphasize two important facts. First, this legislation does not appropriate any new funds but merely reprograms money already provided for in previous legislation, and allows the Park Service to purchase the Dockside II site rather than the Fleet Landing Site. Second, both the National Park Service and the city of Charleston strongly support Dockside II as the best possible location for the Fort Sumter facility. Although it has taken six different sites and nearly 10 years, I am pleased that these two parties

have mutually agreed that the provisions of S. 2534 meet and exceed their individual expectations and requirements.

Mr. President, in short, S. 2534 authorized the National Park Service to purchase and develop the only remaining piece of property in Charleston which can adequately house the type of welcome center and tour boat facility which the Fort Sumter National Monument deserves. This legislation will ensure convenient access for visitors to Fort Sumter for many years to come, and; therefore, I urge my colleagues in the Senate to approve S. 2534.

Mr. HOLLINGS. Mr. President, it is a great pleasue to join my senior colleague in urging enactment of S. 2534. I join him in appreciation of the chairman of the Committee on Energy and Natural Resouces [Mr. MCCLURE], the distinguished chairman of the subcommittee [Mr. WALLOP], and the help of the distinguished ranking minority member, Senator JOHNSTON. They readily realized the need for this legislation and expeditiously processed it through the committee. I also want to thank the committee staff for their sympathetic help to a very urgent requirement.

This bill will grant the necessary legislative authority to the agreement worked out by the National Park Service, the city of Charleston, and the operator of the Fort Sumter tour boat with regard to location of the dock for the tour boat. This has, admittedly, been a long struggle, but now that we have finally secured agreement among the three parties, I urge the Senate to move quickly on this bill. The situation in Charleston has become critical since the present tour boat dock lies close by the impending construction of the new James Island Bridge.

As the Senate may recall, in 1976 it was determined that the tour boat should be moved from the city marina to a better location. In 1978, I secured the appropriation of $5,581,000 for a new dock. Later we enacted a rider to delay that appropriation due to a dispute with the National Park Service who had proposed a Broad Street location of the facility. The city of Charleston preferred a location at the Fleet Landing site in connection with the development of new tourist facilities. In 1980, the city and the Park Service came to agreement on utilizing the former Fleet Landing site and Congress enacted my amendment as part of Public Law 96-199 authorizing the purchase of the Fleet Landing site. In late 1982 we provided $368,000 to acquire the Fleet Landing site.

However, the operator of the tour boats was not part of that agreement and in the ensuing years, we have seen several additional sites proposed and rejected by the various parties. Finally they have now all come to agreement on a site adjacent to the Dockside II condominiums development.

Not only do we have the three interests in agreement, but as sometimes happens when things are delayed, we have a better location for the tour boat facility. Furthermore, we will have a superior project in that it will be contigious to a proposed city marine science museum, or aquarium and a restaurant that will provide a more enjoyable visit to the thousands of persons who visit Fort Sumter each year. The new site is much more accessible to the highways serving Charleston and will provide sufficient parking for cars and buses. In addition, the city will provide shuttle service to historic Charleston and the Cooper River location will enable the tour boats to stop at Patriots Point. The concept and location for the new facility has been widely discussed and endorsed by the local media, citizens, committees, and preservation groups.

Mr. President, Charleston is a unique city and in the long struggle to locate the tour boat facility, we have always kept uppermost in our minds our great tradition of historic preservation. Mayor Joseph Riley has maintained that tradition, while providing outstanding economic progress in Charleston. He recently received the City Livability Award, which is just another tribute to Charleston's fidelity to our heritage. Similarly, the city has worked to accommodate the ever-increasing number of visitors with as little disruption as possible. The Dockside II location conforms to that policy and I commend Mayor Riley, the National Park Service, George Campson, and the tour boat operators for working out this proposal.

Mr. President, the committee has added two amendments that improve the bill. The first one deletes "vehicular" parking from section 2(a)(2). This is at the suggestion of the Park Service that the more appropriate way to share the use of parking facilities is under a cooperative agreement pursuant to section 2(a)(3) of the bill. The second amendment authorizes the transfer of two Charleston properties between the Park Service and Coast Guard. This merely conforms the jurisdiction over these properties to the agencies that are actually using the parcels.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment was agreed to.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been reading the third time, the question is, Shall it pass?

So the bill (S. 2534) was passed.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

□ 1900

ORDERS FOR TUESDAY, OCTOBER 14, 1986

ADJOURNMENT UNTIL 10 A.M.

Mr. President, I ask unanimous consent that once the Senate completes its business today it stand in adjournment until the hour of 10 a.m. on Tuesday, October 14, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. The Senate will not be in session on Monday.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, following the recognition of the two leaders under the standing order, I ask unanimous consent that there be a period for the transaction of routine morning business not to extend beyond the hour of 11 a.m. with Senators permitted to speak therein for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. DOLE. Mr. President, at the conclusion of morning business, the Senate will resume consideration of the House message to accompany H.R. 5484, the drug bill. The Senate may also turn to the continuing resolution or the conference report to accompany the budget reconciliation, as well as any other legislative or executive items cleared for action. I would guess votes can be expected anytime after 2 or 3 o'clock on Tuesday.

Mr. President, I ask unanimous consent that once the Senate reconvenes on Tuesday, October 14, the reading of the Journal be dispensed with, no resolutions come over under the rule, the call of the calendar be dispensed with, and following the recognition of the two leaders under the standing order, there be a period for the transaction of routine morning business, not to extend beyond the hour of 11 a.m., with Senators permitted to speak therein for not to exceed 5 minutes each; provided further that the morning hour be deemed to have expired.

The PRESIDING OFFICER. Without objection, it is so ordered.

FURTHER CONTINUING APPROPRIATIONS, 1987

Mr. DOLE. Mr. President, I ask unanimous consent that the Senate

turn to the consideration of House Joint Resolution 751, the short-term continuing resolution.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A joint resolution (H.J. Res. 751) making further continuing appropriations for the fiscal year ending September 30, 1987, and for other purposes.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

There being no objection, the Senate proceeded to consider the joint resolution.

The PRESIDING OFFICER. If there be no amendment to be proposed, the question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

H.J. RES. 751

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That section 102(c) of the joint resolution of October 9, 1986 (Public Law 99-464) is hereby amended by striking out "October 10, 1986" and inserting in lieu thereof "October 15, 1986".

Mr. DOLE. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, let me just indicate briefly that this will now go to the President. It will be his option whether or not he wishes to sign it. But it seems to me that there has been significant progress made in the major block to adjournment sine die, and that is the continuing resolution.

They are meeting at this very hour and they will be meeting for the next several hours. They may or may not reach total agreement tonight, but they have come a long way.

So it will be the President's decision now whether or not he should sign this major. I assume he will be keeping in touch with Senator HATFIELD and others on the appropriations conference to determine whether or not he will sign or not sign the short-term continuing resolution.

ADJOURNMENT TO TUESDAY, OCTOBER 14, 1986

Mr. DOLE. Mr. President, I move that the Senate stand in adjournment until 10 a.m. on Tuesday, October 14, 1986.

The motion was agreed to; and, at 7:07 p.m., the Senate adjourned until Tuesday, October 14, 1986, at 10 a.m.

OMNIBUS DRUG ENFORCEMENT, EDUCATION, AND CONTROL ACT

(The text of amendment No. 3275, as modified, to the motion by Mr. DOLE to concur in the amendment of the House of Representatives to the amendment of the Senate to the bill H.R. 5484, is as follows:)

AMENDMENT NO. 3275—AS MODIFIED

I move to concur in the amendment of the House to the amendment of the Senate with a further amendment as follows:

In lieu of the language of the House amendment insert the following:

"That this Act may be cited as the Anti-Drug Abuse Act of 1986."

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 5484) entitled "An Act to strengthen Federal efforts to encourage foreign cooperation in eradicating illicit drug crops and in halting international drug traffic, to improve enforcement of Federal drug laws and enhance interdiction of illicit drug shipments, to provide strong Federal leadership in establishing effective drug abuse prevention and education programs, to expand Federal support for drug abuse treatment and rehabilitation efforts, and for other purposes", with the following amendment:

In lieu of the matter inserted by said amendment, insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Anti-Drug Abuse Act of 1986".

SEC. 2. TABLE OF CONTENTS.

Sec. 15001. Statement of policy.

SEC. 3. COMPLIANCE WITH BUDGET ACT.

Notwithstanding any other provision of this Act, any spending authority and any credit authority provided under this Act shall be effective for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts. For purposes of this Act, the term "spending authority" has the meaning provided in section 401(c)(2) of the Congressional Budget Act of 1974 and the term "credit authority" has the meaning provided in section 3(10) of the Congressional Budget Act of 1974.

TITLE I—ANTI-DRUG ENFORCEMENT

Subtitle A—Narcotics Penalties and Enforcement Act of 1986

SEC. 1001. SHORT TITLE.

This subtitle may be cited as the "Narcotics Penalties and Enforcement Act of 1986".

SEC. 1002. CONTROLLED SUBSTANCES ACT PENALTIES.

Section 401(b)(1) of the Controlled Substances Act (21 U.S.C. 841(b)(1)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D); and

(2) by striking out subparagraphs (A) and (B) and inserting the following in lieu thereof:

"(1)(A) In the case of a violation of subsection (a) of this section involving—

"(i) 1 kilogram or more of a mixture or substance containing a detectable amount of heroin;

"(ii) 5 kilograms or more of a mixture or substance containing a detectable amount of—

"(I) coca leaves, except coca leaves and extracts of coca leaves from which cocaine, ecgonine, and derivatives of ecgonine or their salts have been removed;

"(II) cocaine, its salts, optical and geometric isomers, and salts of isomers;

"(III) ecgonine, its derivatives, their salts, isomers, and salts of isomers; or

"(IV) any compound, mixture, or preparation which contains any quantity of any of the substance referred to in subclauses (I) through (III);";

"(iii) 50 grams or more of a mixture or substance described in clause (ii) which contains cocaine base;

"(iv) 100 grams or more of phencyclidine (PCP) or 1 kilogram or more of a mixture or substance containing a detectable amount of phencyclidine (PCP);

"(v) 10 grams or more of a mixture or substance containing a detectable amount of lysergic acid diethylamide (LSD);

"(vi) 400 grams or more of a mixture or substance containing a detectable amount of N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide or 100 grams or more of a mixture or substance containing a detectable amount of any analogue of N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide; or

"(vii) 1000 kilograms or more of a mixture or substance containing a detectable amount of marihuana;

such person shall be sentenced to a term of imprisonment which may not be less than 10 years or more than life and if death or serious bodily injury results from the use of such substance shall be not less than 20 years or more than life, a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $4,000,000 if the defendant is an individual or $10,000,000 if the defendant is other than an individual, or both. If any person commits such a violation after one or more prior convictions for an offense punishable under this paragraph, or for a felony under any other provision of this title or title III or other law of a State, the United States, or a foreign country relating to narcotic drugs, marihuana, or depressant or stimulant substances, have become final, such person shall be sentenced to a term of imprisonment which may not be less than 20 years and not more than life imprisonment and if death or serious bodily injury results from the use of such substance shall be sentenced to life imprisonment, a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $8,000,000 if the defendant is an individual or $20,000,000 if the defendant is other than an individual, or both. Any sentence under this subparagraph shall, in the absence of such a prior conviction, impose a special parole term of at least 5 years in addition to such term of imprisonment and shall, if there was such a prior conviction, impose a special parole term of at least 10 years in addition to such term of imprisonment. Notwithstanding any other provision of law, the court shall not place on probation or suspend the sentence of any person sentenced under this subparagraph. No person sentenced under this subparagraph shall be eligible for parole during the term of imprisonment imposed therein.

"(B) In the case of a violation of subsection (a) of this section involving—

"(i) 100 grams or more of a mixture or substance containing a detectable amount of heroin;

"(ii) 500 grams or more of a mixture or substance containing a detectable amount of—

"(I) coca leaves, except coca leaves and extracts of coca leaves from which cocaine, ecgonine, and derivatives of ecgonine or their salts have been removed;

"(II) cocaine, its salts, optical and geometric isomers, and salts of isomers;

"(III) ecgonine, its derivatives, their salts, isomers, and salts of isomers; or

"(IV) any compound, mixture, or preparation which contains any quantity of any of the substance referred to in subclauses (I) through (III);";

"(iii) 5 grams or more of a mixture or substance described in clause (ii) which contains cocaine base;

"(iv) 10 grams or more of phencyclidine (PCP) or 100 grams or more of a mixture or substance containing a detectable amount of phencyclidine (PCP);

"(v) 1 gram or more of a mixture or substance containing a detectable amount of lysergic acid diethylamide (LSD);

"(vi) 40 grams or more of a mixture or substance containing a detectable amount of N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide or 10 grams or more of a mixture or substance containing a detectable amount of any analogue of N-phenyl-N-[1-(2-phenylethyl)-4-piperidinyl] propanamide; or

"(vii) 100 kilograms or more of a mixture or substance containing a detectable amount of marihuana;

such person shall be sentenced to a term of imprisonment which may not be less than 5 years and not more than 40 years and if death or serious bodily injury results from the use of such substance shall be not less than 20 years or more than life, a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $2,000,000 if the defendant is an individual or $5,000,000 if the defendant is other than an individual, or both. If any person commits such a violation after one or more prior convictions for an offense punishable under this paragraph, or for a felony under any other provision of this title or title III or other law of a State, the United States, or a foreign country relating to narcotic drugs, marihuana, or depressant or stimulant substances, have become final, such person shall be sentenced to a term of imprisonment which may not be less than 10 years and not more than life imprisonment and if death or serious bodily injury results from the use of such substance shall be sentenced to life imprisonment, a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $4,000,000 if the defendant is an individual or $10,000,000 if the defendant is other than an individual, or both. Any sentence imposed under this subparagraph shall, in the absence of such a prior conviction, include a special parole term of at least 4 years in addition to such term of imprisonment and shall, if there was such a prior conviction, include a special parole term of at least 8 years in addition to such term of imprisonment. Notwithstanding any other provision of law, the court shall not place on probation or suspend the sentence of any person sentenced under this subparagraph. No person sentenced under this subparagraph shall be eligible for parole during the term of imprisonment imposed therein.

"(C) In the case of a controlled substance in schedule I or II except as provided in subparagraphs (A), (B), and (D), such person shall be sentenced to a term of imprisonment of not more than 20 years and if death or serious bodily injury results from the use of such substance shall be sentenced to a term of imprisonment of not less than twenty years or more than life, a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $1,000,000 if the defendant is an individual or $5,000,000 if the defendant is other than an individual, or both. If any person commits such a viola-

tion after one or more prior convictions for an offense punishable under this paragraph, or for a felony under any other provision of this title or title III or other law of a State, the United States or a foreign country relating to narcotic drugs, marihuana, or depressant or stimulant substances, have become final, such person shall be sentenced to a term of imprisonment of not more than 30 years and if death or serious bodily injury results from the use of such substance shall be sentenced to life imprisonment, a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $2,000,000 if the defendant is an individual or $10,000,000 if the defendant is other than an individual, or both. Any sentence imposing a term of imprisonment under this paragraph shall, in the absence of such a prior conviction, impose a special parole term of at least 3 years in addition to such term of imprisonment and shall, if there was such a prior conviction, impose a special parole term of at least 6 years in addition to such term of imprisonment. Notwithstanding any other provision of law, the court shall not place on probation or suspend the sentence of any person sentenced under the provisions of this subparagraph which provide for a mandatory term of imprisonment if death or serious bodily injury results, nor shall a person so sentenced be eligible for parole during the term of such a sentence.".

SEC. 1003. OTHER AMENDMENTS TO THE CONTROLLED SUBSTANCES ACT.

(a) Section 401 of the Controlled Substances Act (21 U.S.C. 841) is further amended as follows:

(1) In subsection (b), paragraph (1)(D), as redesignated, is amended by—

(A) striking out "a fine of not more than $50,000" and inserting in lieu thereof "a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $250,000 if the defendant is an individual or $1,000,000 if the defendant is other than an individual";

(B) striking out "a fine of not more than $100,000" and inserting in lieu thereof "a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $500,000 if the defendant is an individual or $2,000,000 if the defendant is other than an individual"; and

(C) inserting "except in the case of 100 or more marihuana plants regardless of weight," after "marihuana," the first place it appears.

(2) In subsection (b), paragraph (2) is amended by striking out "a fine of not more than $25,000" and inserting in lieu thereof "a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $250,000 if the defendant is an individual or $1,000,000 if the defendant is other than an individual", and by striking out "a fine of not more than $50,000" and inserting in lieu thereof "a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $500,000 if the defendant is an individual or $2,000,000 if the defendant is other than an individual".

(3) In subsection (b), paragraph (3) is amended by striking out "a fine of not more than $10,000" and inserting in lieu thereof "a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $100,000 if the defendant is an individual or $250,000 if the defendant is other than an individual", and by striking out "a fine of not more than $20,000" and inserting in lieu thereof "a fine not to exceed the greater of twice that authorized in accordance with the provisions of title 18, United States Code, or $200,000 if the defendant is an individual or $500,000 if the defendant is other than an individual".

(4) In subsection (b), paragraph (4) is amended by striking out "1(C)" and inserting "1(D)" in lieu thereof.

(5) In subsection (b), paragraph (5) is amended to read as follows:

"(5) Any person who violates subsection (a) of this section by cultivating a controlled substance on Federal property shall be imprisoned as provided in this subsection and shall be fined any amount not to exceed—

"(A) the amount authorized in accordance with this section;

"(B) the amount authorized in accordance with the provisions of title 18, United States Code;

"(C) $500,000 if the defendant is an individual; or

"(D) $1,000,000 if the defendant is other than an individual;

or both.".

(6) Subsection (d) is amended by striking out "a fine of not more than $15,000" and inserting in lieu thereof "a fine not to exceed the greater of that authorized in accordance with the provisions of title 18, United States Code, or $250,000 if the defendant is an individual or $1,000,000 if the defendant is other than an individual".

(b) Section 102 of the Controlled Substances Act (21 U.S.C. 802) is amended—

(1) by inserting the following new paragraph after paragraph (24):

"(25) The term 'serious bodily injury' means bodily injury which involves—

"(A) a substantial risk of death;

"(B) protracted and obvious disfigurement; or

"(C) protracted loss or impairment of the function of a bodily member, organ, or mental faculty."; and

(2) by renumbering the following paragraphs accordingly.

SEC. 1004. ELIMINATION OF SPECIAL PAROLE TERMS.

(a) The Controlled Substances Act and the Controlled Substances Import and Export Act are amended by striking out "special parole term" wherever it appears and inserting "term of supervised release" in lieu thereof.

(b) The amendments made by this section shall take effect on the date of the taking effect of section 3583 of title 18, United States Code.

SEC. 1005. AMENDMENT TO THE COMPREHENSIVE CRIME CONTROL ACT OF 1984.

(a) Subsection (a) of section 224 of the Comprehensive Crime Control Act of 1984 is amended—

(1) by inserting "and" after the semicolon in paragraph (4); and

(2) by striking out paragraphs (1), (2), (3), and (5) and redesignating the other paragraphs accordingly.

(b) Section 224 of the Comprehensive Crime Control Act of 1984 is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

(c) Section 225 of the Comprehensive Crime Control Act of 1984 is amended to read as follows:

"SEC. 225. Section 1515 of the Controlled Substances Import and Export Act (21 U.S.C. 960) is amended by repealing subsection (c).".

SEC. 1006. MISCELLANEOUS TECHNICAL AMENDMENTS.

(a)(1) Subsection (a) of section 3583 of title 18, United States Code, is amended by inserting ", except that the court shall include as a part of the sentence a requirement that the defendant be placed on a term of supervised release if such a term is required by statute" after "imprisonment" the second place it appears.

(2) Subsection (b) of section 3583 of title 18, United States Code, is amended by striking out "The" and inserting in lieu thereof "Except as otherwise provided, the".

(3) Subsection (c) of section 3583 of title 18, United States Code, is amended—

(A) so that the catchline reads as follows: "Modification of conditions or revocation.";

(B) in paragraph (2) by striking out "or" after the semicolon;

(C) in paragraph (3) by striking out "title," and inserting "title; or" in lieu thereof; and

(D) by inserting the following new paragraph after paragraph (3):

"(4) revoke a term of supervised release, and require the person to serve in prison all or part of the term of supervised release without credit for time previously served on postrelease supervision, if it finds by a preponderance of the evidence that the person violated a condition of supervised release, pursuant to the provisions of rule 32.1 of the Federal Rules of Criminal Procedure that are applicable to probation revocation and to the provisions of applicable policy statements issued by the Sentencing Commission.".

(4) The amendments made by this subsection shall take effect on the date of the taking effect of section 3583 of title 18, United States Code.

(b) Paragraph (3) of section 994(a) of title 28, United States Code, is amended by inserting "and revocation of supervised release" after "supervised release".

(c) Section 511 of title II of the Comprehensive Drug Abuse Prevention Act of 1978 (21 U.S.C. 881) is amended—

(1) in subsection (f) by inserting "or II" after "I" each place it appears;

(2) by redesignating subsection (f) as subsection (f)(1); and

(3) by inserting the following new paragraph after subsection (f)(1) as so redesignated:

"(2) The Attorney General may direct the destruction of all controlled substances in schedule I or II seized for violation of this title under such circumstances as the Attorney General may deem necessary.".

On page 28, insert the following after line 15:

SEC. 1007. AMENDMENT TO TITLE 18 OF THE UNITED STATES CODE.

(a) Section 3553 of title 18, United States Code, is amended by adding the following at the end thereof:

"(e) LIMITED AUTHORITY TO IMPOSE A SENTENCE BELOW A STATUTORY MINIMUM.—Upon motion of the Government, the court shall have the authority to impose a sentence below a level established by statute as minimum sentence so as to reflect a defendant's substantial assistance in the investigation or prosecution of another person who has committed an offense. Such sentence shall be imposed in accordance with the guidelines and policy statements issued by the Sentencing Commission pursuant to section 994 of title 28, United States Code.".

(b) The amendment made by this section shall take effect on the date of the taking

effect of section 3553 of title 18, United States Code.

SEC. 1008. AMENDMENT TO TITLE 28 OF THE UNITED STATES CODE.

Section 994 of title 28 of the United States Code is amended by—

(1) inserting the following after subsection (m):

"(n) The Commission shall assure that the guidelines reflect the general appropriateness of imposing a lower sentence than would otherwise be imposed, including a sentence that is lower than that established by statute as minimum sentence, to take into account a defendant's substantial assistance in the investigation or prosecution of another person who has committed an offense."; and

(2) redesignating subsections (n), (o), (p), (q), (r), (s), (t), (u), (v), and (w) as subsections (o), (p), (q), (r), (s), (t), (u), (v), (w), and (x), respectively.

SEC. 1009. AMENDMENT TO THE FEDERAL RULES OF CRIMINAL PROCEDURE.

(a) Rule 35(b) of the Federal Rules of Criminal Procedure is amended by striking out "to the extent" and all that follows through the end and inserting in lieu thereof the following: "in accordance with the guidelines and policy statements issued by the Sentencing Commission pursuant to section 994 of title 28, United States Code. The court's authority to lower a sentence under this subdivision includes the authority to lower such sentence to a level below that established by statute as a minimum sentence.

(b) The amendment made by this section shall take effect on the date of the taking effect of rule 35(b) of the Federal Rules of Criminal Procedure, as amended by section 215(b) of the Comprehensive Crime Control Act of 1984.

Subtitle B—Drug Possession Penalty Act of 1986

SEC. 1051. SHORT TITLE.

This subtitle may be cited as the "Drug Possession Penalty Act of 1986".

SEC. 1052. PENALTY FOR SIMPLE POSSESSION.

Section 404 of the Controlled Substances Act (21 U.S.C. 844) is amended to read as follows:

"PENALTY FOR SIMPLE POSSESSION

"SEC. 404. (a) It shall be unlawful for any person knowingly or intentionally to possess a controlled substance unless such substance was obtained directly, or pursuant to a valid prescription or order, from a practitioner, while acting in the course of his professional practice, or except as otherwise authorized by this title or title III. Any person who violates this subsection may be sentenced to a term of imprisonment of not more than 1 year, and shall be fined a minimum of $1,000 but not more than $5,000, or both, except that if he commits such offense after a prior conviction under this title or title III, or a prior conviction for any drug or narcotic offense chargeable under the law of any State, has become final, he shall be sentenced to a term of imprisonment for not less than 15 days but not more than 2 years, and shall be fined a minimum of $2,500 but not more than $10,000, except, further, that if he commits such offense after two or more prior convictions under this title or title III, or two or more prior convictions for any drug or narcotic offense chargeable under the law of any State, or a combination of two or more such offenses have become final, he shall be sentenced to a term of imprisonment for not less than 90 days but not more than 3 years, and shall be fined a minimum of $5,000 but not more than $25,000. The imposition or execution of a minimum sentence required to be imposed under this subsection shall not be suspended or deferred. Further, upon conviction, a person who violates this subsection shall be fined the reasonable costs of the investigation and prosecution of the offense, including the costs of prosecution of an offense as defined in sections 1918 and 1920 of title 28, United States Code, except that this sentence shall not apply and a fine under this section need not be imposed if the court determines under the provision of title 18 that the defendant lacks the ability to pay.

"(b)(1) If any person who has not previously been convicted of violating subsection (a) of this section, any other provision of this subchapter or subchapter II of this chapter, or any other law of the United States relating to narcotic drugs, marihuana, or depressant or stimulant substances, is found guilty of a violation of subsection (a) of this section after trial or upon a plea of guilty, the court may, without entering a judgment of guilty and with the consent of such person, defer further proceedings and place him on probation upon such reasonable conditions as it may require and for such period, not to exceed one year, as the court may prescribe. Upon violation of a condition of the probation, the court may enter an adjudication of guilt and proceed as otherwise provided. The court may, in its discretion, dismiss the proceedings against such person and discharge him from probation before the expiration of the maximum period prescribed for such person's probation. If during the period of his probation such person does not violate any of the conditions of the probation, then upon expiration of such period the court shall discharge such person and dismiss the proceedings against him. Discharge and dismissal under this subsection shall be without court adjudication of guilt, but a nonpublic record thereof shall be retained by the Department of Justice solely for the purpose of use by the courts in determining whether or not, in subsequent proceedings, such person qualifies under this subsection. Such discharge or dismissal shall not be deemed a conviction for purposes of disqualifications or disabilities imposed by law upon conviction of a crime (including the penalties prescribed under this part for second or subsequent convictions) or for any other purpose. Discharge and dismissal under this section may occur only once with respect to any person.

"(2) Upon the dismissal of such person and discharge of the proceedings against him under paragraph (1) of this subsection, such person, if he was not over twenty-one years of age at the time of the offense, may apply to the court for an order to expunge from all official records (other than the nonpublic records to be retained by the Department of Justice under paragraph (1)) all recordation relating to his arrest, indictment or information, trial, finding of guilty, and dismissal and discharge pursuant to this section. If the court determines, after hearing, that such person was dismissed and the proceedings against him discharged and that he was not over twenty-one years of age at the time of the offense, it shall enter such order. The effect of such order shall be to restore such person, in the contemplation of the law, to the status he occupied before such arrest or indictment or information. No person as to whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of his failures to recite or acknowledge such arrest, or indictment or information, or trial in response to any inquiry made of him for any purpose.

"(c) As used in this section, the term 'drug or narcotic offense' means any offense which proscribes the possession, distribution, manufacture, cultivation, sale, transfer, or the attempt or conspiracy to possess, distribute, manufacture, cultivate, sell or transfer any substance the possession of which is prohibited under this title.".

Subtitle C—Juvenile Drug Trafficking Act of 1986

SEC. 1101. SHORT TITLE.

This subtitle may be cited as the "Juvenile Drug Trafficking Act of 1986".

SEC. 1102. OFFENSE.

Part D of the Controlled Substances Act is amended by adding after section 405A a new section as follows:

"EMPLOYMENT OR USE OF PERSONS UNDER 18 YEARS OF AGE IN DRUG OPERATIONS

"SEC. 405B. (a) It shall be unlawful for any person at least eighteen years of age to knowingly and intentionally—

"(1) employ, hire, use, persuade, induce, entice, or coerce, a person under eighteen years of age to violate any provision of this title or title III; or

"(2) employ, hire, use, persuade, induce, entice, or coerce, a person under eighteen years of age to assist in avoiding detection or apprehension for any offense of this title or title III by any Federal, State, or local law enforcement official.

"(b) Any person who violates subsection (a) is punishable by a term of imprisonment up to twice that otherwise authorized, or up to twice the fine otherwise authorized, or both, and at least twice any special parole term otherwise authorized for a first offense. Except to the extent a greater minimum sentence is otherwise provided, a term of imprisonment under this subsection shall not be less than one year.

"(c) Any person who violates subsection (a) after a prior conviction or convictions under subsection (a) of this section have become final, is punishable by a term of imprisonment up to three times that otherwise authorized, or up to three times the fine otherwise authorized, or both, and at least three times any special parole term otherwise authorized for a first offense. Except to the extent a greater minimum sentence is otherwise provided, a term of imprisonment under this subsection shall not be less than one year.

"(d) Any person who violates section 405B(a) (1) or (2)

"(1) by knowingly providing or distributing a controlled substance or a controlled substance analogue to any person under eighteen years of age; or

"(2) if the person employed, hired, or used is fourteen years of age or younger,

shall be subject to a term of imprisonment for not more than five years or a fine of not more than $50,000, or both, in addition to any other punishment authorized by this section.

"(e) In any case of any sentence imposed under this section, imposition or execution of such sentence shall not be suspended and probation shall not be granted. An individual convicted under this section of an offense for which a mandatory minimum term of imprisonment is applicable shall not be eligible for parole under section 4202 of title 18, United States Code, until the individual has served the mandatory term of imprisonment required by section 401(b) as enhanced by this section.

"(f) Except as authorized by this title, it shall be unlawful for any person to knowingly or intentionally provide or distribute any controlled substance to a pregnant individual in violation of any provision of this title. Any person who violates this subsection shall be subject to the provisions of subsections (b), (c), and (e).".

SEC. 1103. TECHNICAL AMENDMENTS.

(a) Section 401(b) of the Controlled Substances Act (21 U.S.C. 841(b)) is amended by striking out "or 405A" and inserting in lieu thereof ", 405A, or 405B".

(b) Section 401(c) of the Controlled Substances Act (21 U.S.C. 841(c)) is amended by striking out "405A" each place it appears and inserting in lieu thereof ", 405A, or 405B".

"405B. Employment of minors in controlled substance trafficking.".

SEC. 1104. MANUFACTURING A CONTROLLED SUBSTANCE WITHIN 1,000 FEET OF A COLLEGE.

(a) Section 405A of the Controlled Substances Act (21 U.S.C. 845a) is amended by inserting "or manufacturing" after "distributing" wherever it appears and by striking out "a public or private elementary or secondary school" wherever it appears and inserting in lieu thereof "a public or private elementary, vocational, or secondary school or a public or private college, junior college, or university".

(b) Section 405A(a) of the Controlled Substances Act (21 U.S.C. 845a(a)) is amended by striking out "involving the same controlled substance and schedule".

(c) Section 405A(b) of the Controlled Substance Act (21 U.S.C. 845a(b)) is amended by striking out "(1) by" and all that follows through the end and inserting the following in lieu thereof:

"(1) by the greater of (A) a term of imprisonment of not less than three years and not more than life imprisonment or (B) a term of imprisonment of up to three times that authorized by section 401(b) of this title for a first offense, or a fine up to three times that authorized by section 401(b) of this title for a first offense, or both, and (2) at least three times any special parole term authorized by section 401(b) of this title for a first offense.".

SEC. 1105. IMPRISONMENTS.

(a) Section 405(a) of the Controlled Substances Act (21 U.S.C. 845(a)) is amended by adding the following at the end thereof: "Except to the extent a greater minimum sentence is otherwise provided by section 401(b), a term of imprisonment under this subsection shall be not less than one year.".

(b) Section 405(b) of the Controlled Substances Act (21 U.S.C. 845(b)) is amended by adding the following at the end thereof: "Except to the extent a greater minimum sentence is otherwise provided by section 401(b), a term of imprisonment under this subsection shall be not less than one year. The mandatory minimum sentencing provisions of this paragraph shall not apply to offenses involving 5 grams or less of marihuana.".

(c) Section 405A(a) of the Controlled Substances Act (21 U.S.C. 845a(a)) is amended by adding the following at the end thereof: "Except to the extent a greater minimum sentence is otherwise provided by section 401(b), a term of imprisonment under this subsection shall be not less than one year. The mandatory minimum sentencing provisions of this paragraph shall not apply to offenses involving 5 grams or less of marihuana.".

Subtitle D—Assets Forfeiture Amendments Act of 1986

SEC. 1151. SHORT TITLE.

This subtitle may be cited as the "Department of Justice Assets Forfeiture Fund Amendments Act of 1986".

On page 37, strike out all beginning with line 14 through line 2 on page 39 and insert in lieu thereof the following:

SEC. 1152. ASSET FORFEITURE FUNDS.

(a) DEPARTMENT OF JUSTICE ASSETS FORFEITURE FUND.—Subsection (c) of section 524 of title 28, United States Code, is amended—

(1) in paragraph (1) before subparagraph (A) by striking out "in such amounts as may be specified in appropriations acts";

(2) by inserting at the end of subparagraph (A) of paragraph (1) the following: "Such payments may also include those, made pursuant to regulations promulgated by the Attorney General, that are necessary and direct program-related expenses for the purchase or lease of automatic data processing equipment (not less than 90 percent of which use will be program related), training, printing, contracting for services directly related to the processing of and accounting for forfeitures, and the storage, protection, and destruction of controlled substances;";

(3) by inserting after subparagraph (A) of paragraph (1) the following new subparagraph and renumbering the subsequent subparagraphs appropriately;

(B) the payment of awards for information or assistance directly relating to violations of the criminal drug laws of the United States;";

(4) by amending newly designated subparagraph (F) of paragraph (1) to read as follows:

(F) for equipping for drug law enforcement functions any government-owned or leased vessels, vehicles, and aircraft available for official use by the Drug Enforcement Administration, the Federal Bureau of Investigation, the Immigration and Naturalization Service, or the United States Marshals Service; and";

(5) by striking out in paragraph (4) "remaining after payment of expenses for forfeiture and sale authorized by law" and inserting in lieu thereof", except all proceeds of forfeitures available for use by the Secretary of the Treasury or the Secretary of the Interior pursuant to section 11(d)) or section 6(d) of the Lacey Act Amendments of 1981 (16 U.S.C. 3375(d))";

(6) by striking out paragraph (8) and renumbering paragraph (9) as paragraph (8); and

(7) by adding at the end of the subsection the following new paragraph:

"(9)(A) If any funds deposited in the Department of Justice Assets Forfeiture Fund or the Customs Forfeiture Fund (19 U.S.C. 1613a, 1613b) are not expended or obligated prior to thirty days after the end of the fiscal year, 90 percent of such funds shall be transferred into a Special Forfeiture Fund.

"(B) The funds in the Special Forfeiture Fund shall be disbursed, during the fiscal year in which they are transferred into the Special Fund, by the Attorney General, after consultation with the Secretary of the Treasury, the Secretary of Health and Human Services, and the Secretary of Education, to enhance the following efforts:

"(i) Federal drug law enforcement agencies and programs;

"(ii) Federal drug abuse agencies and programs relating to drug abuse education, prevention, treatment, rehabilitation, and research;

"(iii) State, local, and nonprofit agencies with drug abuse responsibilities; and

"(iv) State and local law enforcement agencies for drug law enforcement efforts, under subtitle M of title I of the Omnibus Crime Control and Safe Streets Act of 1986 (42 U.S.C. 3721 et seq.).

"(C) Funds disbursed from the Special Forfeiture Fund shall not be used to supplant existing funds, but shall be used to supplement funds that are otherwise available.

"(D) The Attorney General shall report annually to the Congress on all disbursements made under the authority of subparagraph (B).".

(b) CUSTOMS FORFEITURE FUND.—

(1) Section 613a of the Tariff Act of 1930 (19 U.S.C. 1613a) as added by Public Law 98-473, is amended—

(A) in subsection (a) before paragraph (1) by striking out "in such amounts as may be specified in appropriations Acts";

(B) by amending paragraph (3) of subsection (a) to read as follows:

"(3) for equipping for law enforcement functions any government-owned or leased vessels, vehicles, and aircraft available for official use by the United States Customs Service; and"; and

(C) by striking out subsection (h).

(2) Section 613a of the Tariff Act of 1930 (19 U.S.C. 1613b) as added by Public Law 98-573, is repealed.

(c) FUNDS NOT COUNTED FOR PURPOSES OF ALLOCATION LIMITS IN SECTION 302 OF THE CONGRESSIONAL BUDGET ACT OF 1974.—Notwithstanding any other provision of law or any rule of the House of Representatives or the Senate, amounts available in the Customs Forfeiture Fund or the Department of Justice Assets Forfeiture Fund shall not be counted in determining the allocation of totals under subsections (a) and (b) of section 302 of the Budget Act of 1974.

SEC. 1153. SUBSTITUTE ASSETS.

(a) Section 1963 of title 18 is amended by adding at the end thereof a new subsection, as follows:

"(n) If any of the property described in subsection (a), as a result of any act of omission of the defendant—

"(1) cannot be located upon the exercise of due diligence;

"(2) has been transferred or sold to, or deposited with, a third party;

"(3) has been placed beyond the jurisdiction of the court;

"(4) has been substantially diminished in value; or

"(5) has been commingled with other property which cannot be divided without difficulty;

the court shall order the forfeiture of any other property of the defendant up to the value of any property described in paragraphs (1) through (5).".

(b) Section 413 of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1975 is amended—

(1) by redesignating subsection "(p)" as subsection "(q)"; and

(2) by adding a new subsection (p) as follows:

"(p) If any of the property described in subsection (a), as a result of any act or omission of the defendant—

"(1) cannot be located upon the exercise of due diligence;

"(2) has been transferred or sold to, or deposited with, a third party;

"(3) has been placed beyond the jurisdiction of the court;

"(4) has been substantially diminished in value; or

"(5) has been commingled with other property which cannot be divided without difficulty;

the court shall order the forfeiture of any other property of the defendant up to the value of any property described in paragraphs (1) through (5).".

Subtitle E—Controlled Substance Analogue Enforcement Act of 1986

SEC. 1201. SHORT TITLE.

This subtitle may be cited as the "Controlled Substance Analogue Enforcement Act of 1986".

SEC. 1202. TREATMENT OF CONTROLLED SUBSTANCE ANALOGUES.

Part B of the Controlled Substances Act is amended by adding at the end the following new section:

"TREATMENT OF CONTROLLED SUBSTANCE ANALOGUES

"SEC. 203. A controlled substance analogue all or part of which is intended for human consumption shall be treated, for the purposes of this title and title III as a controlled substance in schedule I.".

SEC. 1203. DEFINITION.

Section 102 of the Controlled Substances Act (21 U.S.C. 802) is amended by adding at the end thereof the following:

"(31)(A) Except as provided in subparagraph (B), the term 'controlled substance analogue' means a substance—

"(i) the chemical structure of which is substantially similar to the chemical structure of a controlled substance in schedule I or II; or

"(ii) which was specifically designed to produce an effect substantially similar to, or greater than, the effect of a controlled substance in schedule I or II.".

"(B) Such term does not include—

"(i) a controlled substance;

"(ii) any substance for which there is an approved new drug application;

"(iii) with respect to a particular person any substance, if an exemption is in effect for investigational use, for that person, under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) to the extent conduct with respect to such substance is pursuant to such exemption; or

"(iv) any substance to the extent not intended for human consumption before such an exemption takes effect with respect to that substance.".

"For purposes of this paragraph, section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) shall be applicable to the introduction or delivery for introduction of any new drug into intrastate, interstate, or foreign commerce.

"(32) The term 'human consumption' includes application, injection, inhalation, or ingestion.".

SEC. 1204. CLERICAL AMENDMENT.

The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended by inserting after the item relating to section 202 the following new item:

"Sec. 203. Treatment of controlled substance analogues.".

Subtitle F—Continuing Drug Enterprise Act of 1986

SEC. 1251. SHORT TITLE.
